- Maturity regulations---------- 4404, 4601, 4861, 5469, 5966, 5967

Beans, snap (green and wax); standards, for frozen beans---------- 5391

Berries. *See* Fruits and berries.

AGRICULTURE DEPARTMENT—Continued — Page

Buttermilk. *See* Dairy products.
Carrots, fresh; standards:
Bunched carrots, revision — 5202
Carrots with short trimmed tops, revision — 5203, 5338
Cauliflower grown in certain designated counties in Colorado, marketing of — 4378, 5295
Limitation of shipments — 4402
Citrus fruits (grapefruit, lemons, and oranges):
Export program, for orange and grapefruit (fiscal year 1954):
Processed product specifications — 5571
Termination of program with respect to fresh oranges — 4679
Marketing of citrus fruits grown in various States:
Arizona:
Lemons — 5319, 5969
Limitation of shipments — 4213, 4403, 4441, 4581, 4600, 4714, 4873, 4987, 5037, 5124, 5339, 5517, 5638, 5883, 5941, 6003, 6031, 6158
Oranges, Valencia; limitation of shipments — 4059, 4132, 4213, 4402, 4403, 4580, 4629, 4706, 4873, 4985, 5123, 5338, 5515, 5637, 5882, 6030, 6158
California:
Lemons — 5319, 5969
Limitation of shipments — 4213, 4403, 4441, 4581, 4600, 4714, 4873, 4987, 5037, 5124, 5339, 5517, 5638, 5883, 5941, 6003, 6031, 6158
Oranges, Valencia; limitations of shipments — 4059, 4132, 4213, 4402, 4403, 4580, 4629, 4706, 4873, 4985, 5123, 5338, 5515, 5637, 5882, 6030, 6158
Florida:
Grapefruit, limitation of shipments — 3995, 4542, 4680, 6031
Oranges, limitation of shipments — 6030
Standards:
Grapefruit (Texas and States other than Florida, California and Arizona) — 4435
Grapefruit juice, canned; revision — 4081, 6023
Grapefruit juice and orange juice, blended, canned; revision — 4083, 6025
Limeade, frozen concentrate for; proposed rule making — 5562
Orange juice, canned; revision — 4085, 6028
Oranges (Texas and States other than Florida, California and Arizona), revision — 4555
Civil defense functions; delegation of authority respecting to Secretary from Federal Civil Defense Administrator. *See* Authority, delegations of.

Whole milk, dry — 4[illegible]
Disaster areas:
Authority of Secretary of Agriculture respecting certification of. *See* Authority, delegations of.
Designation of counties in various States as areas having need for agricultural credit:
Alabama — 5288, 6243
Arizona — 6051
Arkansas — 5388, 5647, 6127
Colorado — 4967, 5155, 5648, 5956, 6087, 6127
Connecticut — 6244
Georgia — 5840, 6243
Illinois — 5033
Iowa — 4388, 4555, 4967
Kansas — 5956
Louisiana — 6281
Massachusetts — 6244
Michigan — 4332
Mississippi — 6243
Missouri — 5155, 6127
New Hampshire — 6244
New Mexico — 5155, 5956
Oklahoma — 5155, 5388, 5956, 6127
Rhode Island — 6244
South Carolina — 5633, 6243
South Dakota — 4388, 5840
Tennessee — 6243
Texas — 5155, 5388, 5957, 6127
Wyoming — 5155, 6051, 6127
Dried fruits. *See* Prunes; *and* Raisins.
Eggs and egg products:
Sampling, grading, packaging, etc.:
Definitions; terms defined — 4125
Forms and instructions:
Egg products, application for grading service with respect to — 4125, 4519
Shell eggs, application for grading service with respect to — 4125, 4519
Shell eggs, wholesale grades and weight classes — 4760
Export and domestic consumption programs, for various agricultural commodities. *See* Citrus fruits; Figs; Honey; *and* Raisins.
Figs, canned Kadota; notice of purchase program VMP 96a 1, for diversion to domestic consumption — 5507
Filberts grown in Oregon and Washington, marketing of — 5523, 5983
Food and food commodities:
See also specific food commodities.
Food commodities acquired through price support operations:
Disposal of, under section 416 of Agricultural Act of 1949, as amended, (Third Revision): statement of policy with respect to domestic donations, and foreign donations — 6076
Sales of certain commodities at fixed prices. *See main heading* Commodity Credit Corporation.

AGRICULTURE DEPARTMENT—Continued — Page

Foreign Agricultural Service; authority. *See* Organization.
Foreign markets for agricultural commodities, development of, under Agricultural Trade Development and Assistance Act of 1954 (Executive Order 10560) — 5927
Fruits and berries:

Japanese beetle, revision 4575
Aircraft disinsectization procedures, administrative instructions prescribing 4579
Foreign quarantine notices:
Fruits and vegetables; garlic from Algeria, Hungary, Italy, Morocco, Spain, and Yugoslavia, administrative instructions prescribing method of treatment of 4126
Nursery stock, plants, and seeds; citrus seeds, restricting issuance of permits for importation of, in cooperation with State of Florida, revocation 4580
Plums grown in California, marketing of; regulation by grades and sizes 3996, 3997, 4132, 4133, 4134, 4135, 4136, 4137, 4580, 4581, 4593, 4986
Termination of certain orders 4986
Potatoes, Irish, grown in various States, marketing of:
California (Modoc and Siskiyou Counties) 5522, 6159
Limitation of shipments 5251
Colorado 4715, 5322
Limitation of shipments 4404, 4441, 4873, 5656, 6300
Idaho 5522, 6159
Maine 4193, 5469
Oregon:
Crook, Deschutes, Jefferson, Klamath, and Lake Counties 5522, 6159
Limitation of shipments 5251
Malheur County 5522, 6159
Washington 4378, 5297
Poultry and edible products thereof, grading, inspection, standards, etc.; forms, instructions, and applications:
Canning and processing of inspected ready-to-cook poultry in plants operating under Federal meat inspection service, application for inspection 4125
Dressed poultry and edible products thereof, application for inspection of, for condition and wholesomeness 4125, 4521
Live, dressed, and ready-to-cook poultry, application for grading service 4125, 4521
Prices, support, for various agricultural commodities. *See main heading* Commodity Credit Corporation.
Prunes, dried, produced in California, marketing of 4503, 4865, 4966, 5297, 5440, 5657, 6043
Puerto Rico:
School lunch program. *See* School lunch programs.
Sugar requirements and quotas, etc. *See* Sugar.
Rabbits, domestic, and edible products thereof, grading and inspection, standards, etc.; forms, instructions, and applications:
Canning and processing of inspected ready-to-cook rabbits in plants operated under Federal meat inspection regulations, application for inspection of 4124
Domestic rabbits and edible products thereof, application for inspection of, for condition and wholesomeness 4124, 4519
Raisins:
Export payment program UMX 95a; eligibility for payment, final dates 5468
Marketing of raisins produced from raisin variety grapes grown in California 4015, 4225, 5125, 5126
School lunch program:
Food assistance funds; apportionment of, for the various States, Territories and possessions, pursuant to National School Lunch Act; 1955 fiscal year 5081
Operation of special school milk program. *See* School milk program.
School milk program, special, operation of, under section 201 (c) of the Agricultural Act of 1949, as amended; statement of policy 5963
Special school milk program. *See* School milk program.

AGRICULTURE DEPARTMENT—Continued Page

Standards, for various agricultural commodities. *See* Apples; Beans; Carrots; Citrus fruits; Cotton; Dairy products; Eggs; Lettuce; Tobacco; *and* Turnips.
Sugar:
Consumption requirements and quotas:
Continental United States:
Allotment of sugar quotas:
Domestic beet sugar area, 1954 4700, 4873, 5572
Mainland cane sugar area, 1954 5205, 5438
Entry of sugar into. *See* Entry of sugar.
Marketing of sugar. *See* Marketing of sugar
Cuba, certification requirement; 1954 quota filled to 80% or more 4546, 5387
Entry of sugar into continental United States:
Certification requirement when any quota has been filled to 80% or more:
Cuba, 1954 4546, 5387
Philippines, Republic of; 1954 5524
For alcohol or livestock feed, proposed rule making 6045
Excess-quota sugar, processing, marketing, etc., of; proposed rule making 6045
Livestock feed, entry of sugar to be used for; proposed rule making 6045
Mainland. *See* Continental United States.
Marketing of sugar and liquid sugar produced from sugar beets and sugarcane grown in continental United States; proposed rule making 6045
Philippines, Republic of; certification requirement, 1954 quota filled to 80% or more 5524
Puerto Rico; consumption requirements and quotas:
Allotment of sugar quotas:
1954 5627
1955, proposed hearing 6167
Direct-consumption portion, proposed hearing 6167
Local consumption requirements, 1955; proposed hearing 6167
Prices:
Sugar beets, 1955 crop; California southwestern Arizona, western Nevada, and southern Oregon, notice of hearing 5647
Sugarcane:
Florida, 1954 crop 5206
Hawaii, 1955 crop; notice of hearing 5413
Louisiana, 1954 crop 4388, 5939
Puerto Rico, 1954–55 crop; notice of hearing 5991
Virgin Islands, 1955 crop; notice of hearing 5991
Proportionate shares for farms, various areas:
Domestic beet sugar producing area, 1954 crop 5101
Hawaii, sugarcane; 1954 crop 4399
Mainland cane sugar area, 1955 crop 5529
Virgin Islands, sugarcane; 1954 crop 4400
Quotas. *See* Consumption requirements and quotas.
Wage rates:
Sugar beet, 1955 crop; California, southwestern Arizona, western Nevada, and southern Oregon (production, cultivation or harvesting), notice of hearing 5647
Sugarcane:
Florida, 1954–55 season 4401
Louisiana; harvesting 1954 crop, and production and cultivation during calendar year 1955, postponement of hearing respecting 4388
Puerto Rico, 1955; notice of hearing 5991
Virgin Islands, 1955; notice of hearing 5991
Support prices, for various agricultural commodities. *See main heading* Commodity Credit Corporation.
Surplus agricultural commodities, disposal of; sale of, for foreign currency, under Agricultural Trade Development and Assistance Act of 1954, functions respecting (Executive Order 10560) 5927
Tobacco:
Inspection; regulations, etc.:
Newport, Tenn.; referendum in connection with proposed designation as tobacco auction market 5667
Sweetwater and Athens, Tenn., tobacco markets; notice of proposed distribution of inspection service between 5585

AGRICULTURE DEPARTMENT—Continued Page

Tobacco—Continued
Marketing quotas, farm, acreage allotments, etc.:

Communications stations, CAA; aeronautical fixed communications, proposed rule making — 5561
Control areas, control zones, and reporting points, designation of; alterations:
Control areas:
Colored civil airways:
Amber civil airways — 4187
Blue civil airways — 4187, 5127, 5943, 6177
Red civil airways — 4187, 4299, 5127, 5943
Extension of control areas — 4187, 4299, 4468, 5127, 5943, 5944, 6177
VOR civil airways; domestic — 4188, 4299, 5945
Control zones:
Additional control zones — 4127, 4188, 4299, 5944, 6177
Five-mile radius zones — 4299, 5944
Three-mile radius zones — 5944
Reporting points:
Colored civil airways:
Amber civil airways — 4188, 4299
Blue civil airways — 4188, 4299, 5127, 5945, 6177
Green civil airways — 5944, 6177
Red civil airways — 4188, 4299, 5127, 5944, 5945, 6177
Other reporting points — 5945
VOR reporting points; domestic — 4188, 4299, 5127, 5945
Danger areas over Army, Navy and Air Force installations in various States and Alaska, designation of; alterations:
Alaska — 5042, 5394, 5861
California — 5476
Editorial note — 4681
Florida — 4061, 5476
Kansas — 5861
Maine — 5041
Maryland — 5041, 5042
Massachusetts — 5041
New York — 5041
North Carolina — 5041
Tennessee — 4061
Texas — 5085, 5861
Virginia — 5041
Instrument flight rules:
Altitudes; minimum en route IFR altitudes, particular routes:
Colored civil airways:
Amber civil airways — 4468, 4717, 5128, 5477, 5883, 6177
Blue civil airways — 4468, 4717, 5128, 5477, 5478, 5884, 6178
Green civil airways — 4468, 4717, 5127, 5476, 6177
Red civil airways — 4468, 5128, 5477, 5884, 6177
Direct routes; United States — 4717, 5128, 5884
VOR civil airways — 4469, 4717, 5128, 5129, 5478, 5884, 5885, 6178

CIVIL AERONAUTICS ADMINISTRATION—Con. — Page
Instrument flight rules—Continued
Approach procedures, instrument, standard (including ceiling and visibility minimums for take-off and landing at particular airports); alterations:
Automatic direction finding procedures — 4065, 4228, 4471, 4607, 4684, 4990, 5174, 5335, 5597, 5600, 5663
Ground controlled approach procedures — 4073, 4612, 4691, 4995, 5337, 5599
Instrument landing system procedures — 4070, 4229, 4476, 4609, 4688, 4993, 5175, 5336, 5598, 5665, 6142
Introduction:
Circling approach — 5086
Deviations — 5085
Radio range:
Low frequency range procedures — 4062, 4226, 4470, 4606, 4682, 4988, 5171, 5334, 5600, 5663, 6179
Low and medium frequency range, ADF and VOR procedures — 4061
Very high frequency omnirange procedures — 4067, 4229, 4473, 4475, 4608, 4685, 4687, 4991, 4992, 5174, 5598, 5601, 5664, 6140, 6141.
Organization and functions:
Field offices, functions and location of:
Airport District Office, Region 3, Chicago, Ill., change of address — 5324
Aviation Safety District Offices; locations and specialities, revision — 5957
International District and Field Offices:
Locations and areas of responsibility of CAA International District Offices — 5959
Locations and areas of responsibility of CAA International Field Offices — 5959
Organization and functions:
Functions of Office of Administrator — 5633
Functions of Staff and Program Offices; Personnel Office, deletion of Employee Relations Division — 5634
Organization; Office of Administrator, addition of Assistant Administrator for Operations as principal officer — 5633
Procedures of Civil Aeronautics Administration:
Fees for copying, certification and search of records; proposed rule making — 3998
Records; fees for copying, certification, search, etc., of. *See* Fees.
Records; fees for copying, etc. *See* Procedures of Civil Aeronautics Administration.
Release of airport property from restrictions of surplus airport property instruments of disposal. *See* Airports.
Security control of air traffic; designated air defense identification zones:
Coastal ADIZ's; Pacific (Coastal) ADIZ — 4300
Domestic ADIZ's:
California (Domestic) ADIZ — 5885
Transverse City (Domestic) ADIZ — 4300
CIVIL AERONAUTICS BOARD:
Accidents, aircraft; investigation of accidents occurring at or near certain cities:
Columbus, Ohio, Port Columbus Airport — 4367
Mason City, Iowa — 6051
Accounts of air carriers. *See* Economic regulations.
Agreements of air carriers. *See* Economic regulations.
Air carriers:
Accidents, investigation of. *See* Accident.
Air traffic rules. *See* Air traffic rules.
Irregular. *See* Irregular air carrier and off-route rules.
Operation rules. *See* Operation rules.
Scheduled. *See* Scheduled air carriers.
Air traffic rules; general flight rules (GFR):
Minimum safe altitudes — 4602
Operation on and in vicinity of an airport; traffic pattern for Juneau (Alaska) Airport, revocation — 5442
Airmen; certificates. *See* Certificates.
Airworthiness; requirements for various types of airplanes and equipment:
Aircraft equipment airworthiness; radio equipment, regulations for modification — 5535

CIVIL AERONAUTICS BOARD—Continued — Page
Airworthiness; requirements for various types of airplanes and equipment—Continued
Airplane:
Airplane airworthiness (other than current application):
For current regulations see Transport categories.
Douglas DC–3 and Lockheed L–18 type airplanes; basis for approval of modification (SR–407) — 5039
Transport categories:
C–46 type aircraft for carriage of passengers, maximum weights for. *See* Irregular air carrier and off-route rules; *and* Scheduled air carriers.
Certification:
Flight tests — 4446, 4447
Type certificates, eligibility for; approval of reverse thrust propellers, revocation — 4446
Design and construction:
Control system; wing flap interconnection — 4461
Fire protection:
General provisions:
Hand fire extinguishers, approval of; revocation — 4446
Protective breathing equipment — 4463
Proof of compliance — 4463
Landing gear:
Brakes — 4461
Retracting mechanism — 4461
Personnel accomodations:
Controls, tests — 4463
Pilot compartment:
General provisions — 4463
Visibility — 4463
Ventilation, and heating:
Heating system — 4463
Ventilation — 4463
Douglas DC–3 and Lockheed L–18 type airplanes; basis for approval of modification (SR–407) — 5039
Equipment:
Instrument; installation:
Arrangement and visibility of instrument installations — 4466
Flight and navigational instruments — 4466
Oxygen equipment and supply — 4466, 4467
Safety equipment; flare installation — 4466
Flight:
Ballast, use of — 4449
Controllability:
Directional and lateral control — 4455
General qualities — 4454
Longitudinal control — 4454
Minimum control speed, V_{MC} — 4456
Flutter and vibration — 4461
Ground handling characteristics:
Demonstrated cross wind — 4460
Directional stability and control — 4460
Longitudinal stability and control — 4460
Shock absorption — 4460
Performance:
Accelerate-stop distance — 4451
Climb:
All engines operating — 4453
General provision — 4452
One engine inoperative — 4453
Two engines inoperative — 4454
Landing distances, determination of; general provision — 4454
Landplanes; excessive wear of brakes or tires, landing distance — 4454
Seaplanes, landing distance — 4454
Skiplanes, landing distance — 4454
Stalling speeds — 4449
Take-off, general — 4451
Take-off path — 4452
Take-off speeds — 4451
Wing flap positions — 4449
Proof of compliance — 4448, 4449
Stability:
During approach — 4458
During climb — 4458
During cruising — 4458
During landing — 4458

50000—54——2

        - Wind conditions 4461
    - Operating limitations and information:
      - Airplane flight manual, general:
        - Preparation of airplane flight manuals for aircraft certificated in transport category 4446
        - Reverse thrust operating procedures, revocation 4446
      - Marking and placards, general; reverse thrust placards, revocation 4446
    - Powerplant installation:
      - Cooling system:
        - Climb cooling test procedure 4465
        - Cooling test procedure for flying boat operation 4465
        - General provision; cooling with reverse thrust, revocation 4465
        - Take-off cooling test procedure 4465
      - Fuel system:
        - Components:
          - Fuel jettisoning system 4464
          - Fuel pumps 4464
        - Construction and installation; fuel tank vents and carburetor vapor vents 4464
        - Operation and arrangement:
          - Flow between interconnected tanks 4464
          - Fuel system hot weather operation 4463
          - Unusable fuel supply and fuel system operation on low fuel, determination of 4463
      - Induction and exhaust systems:
        - Carburetor air cooling 4465
        - Exhaust system and installation components 4465, 4466
        - Induction system de-icing and anti-icing provisions 4465
      - Installation:
        - Engines 4463
        - General provision, engine and propeller operation 4463
        - Propeller de-icing provisions 4463
      - Oil system:
        - General provision, oil cooling 4464
        - Propeller feathering system 4464
      - Powerplant controls and accessories:
        - Powerplant controls, general; reverse thrust controls, revocation 4446
        - Propeller controls; propeller reversing controls, revocation 4446

Balloons, moored, and large kites, operation of; proposed rule making 5002

Certificates; airmen:
- Dispatcher, aircraft, certificates; application form, proposed rule making 5322
- Pilot certificates, revision 5857

Certification, identification, and marking of aircraft and related products; Douglas DC–3 and Lockheed L–18 type airplanes, basis for approval of modification (SR–407) 5039

CIVIL AERONAUTICS BOARD—Continued Page

Economic regulations:
- Accounts, uniform system of, for certificated air carriers; proposed revision 4200, 5916
- Agreements, filing of:
  - Number of copies 5210
  - Place and time of filing; strike the words "Operations Divisions" 5210
  - Who shall file; proposed rule making 5233
- Classification and exemption, air carriers (military operations carriers); conducting foreign air transportation for United States military establishment, exemption from tariff filing and observance requirements, proposed 5988
- Explosives and other dangerous articles (radioactive materials), transportation of, by cargo or passenger-carrying civil aircraft:
  - Exempted articles; special authority with respect to deviation from limitations for Atomic Energy Commission shipments of radioactive materials, proposed rule making 5646
  - Passenger-carrying aircraft; radioactive materials, change in certain section references, proposed rule making 5647

Hearings, investigations, etc.:
- Accidents, investigation of. *See* Accidents.
- Companies and cases, list of, *see list at end of this agency.*

Irregular air carrier and off-route rules:
- Aircraft requirements:
  - Equipment, basic and additional:
    - Lights, anti-collision, for large aircraft operating at night 4349
    - Propellers, reversible; requirement with respect to propeller reverse pitch indicator installation on aircraft 5596
  - Nontransport category airplanes, certain, used in passenger operations; elimination of requirement respecting certification in transport category 4107
- C–46 type aircraft used in carriage of passenger for remuneration or hire; weight limitations, extension of date for application of transport category performance requirements respecting (SR–406) 4106
- Cargo carriers, continuance of temporary authorization for operation of air carriers, pending further determination (SR–368A) 4003, 4862
- Flight crew requirements; airmen requirements 5883
- Operating limitations for large passenger-carrying airplanes; en route limitations on certain multiengine aircraft 4376, 5660

Kites, large, operation of. *See* Balloons.

Maintenance, repair, and alteration of airframes, powerplants, propellers, and appliances:
- Applicability and definitions; major alterations, and minor repairs 4184
- General; contracting CAA representative prior to alteration 4184
- Performance rules; propellers, editorial changes 4184

Operation rules, for various types of aircraft:
- *See also* Irregular air carriers; *and* Scheduled air carriers.
- General operation rules:
  - Aircraft instruments and equipment:
    - Anti-collision lights, for large aircraft operating at night 4349
    - Instrument flight rules 5608
  - Pilots; general piloting rules, dropping objects or persons from aircraft 5517

Radioactive materials, deviation from limitations for Atomic Energy Commission shipments of. *See* Explosives and other dangerous articles.

Scheduled air carriers:
- Interstate air carrier certification and operation rules:
  - Airmen regulations; airman and crew member requirements, composition of flight crew 6160
  - Airplane performance operating limitations; nontransport category:
    - Landing distance limitations; alternate airport 5657
    - Take off limitations; runway gradient, procedures computing effects of 5657

CIVIL AERONAUTICS BOARD—Continued Page

Scheduled air carriers—Continued
- Interstate air carrier certification and operation rules—Continued
  - C–46 type aircraft used in carriage of passengers for remuneration or hire; weight limitations, extension of date for application of transport category performance requirements respecting (SR–406) 4106
- Instruments and equipment:
  - All operations, engine instruments for; requirement with respect to propeller reverse pitch indicator installation on aircraft 5595
  - Special operations, night operations; anti-collision lights for large aircraft 4347

Operations outside continental limits of United States:
- C–46 type aircraft used in carriage of passengers for remuneration or hire; weight limitations, extension of date for application of transport category performance requirements respecting (SR–406) 4106
- Cargo carriers, continuance of temporary authorization for operation of air carriers, pending further determination 4003, 4862
- Certificate, issuance of; form of application, proposed revision 4111
- Passenger-operation rules:
  - Aircraft requirements; instruments and equipment required for continuance of flight:
    - Lights, anti-collision, for large aircraft operating at night 4348
    - Propellers, reversible; requirement with respect to propeller reverse pitch indicator installation on aircraft 5595, 5814
  - Airman rules:
    - Dispatcher; aircraft dispatcher daily duty time limitations, proposed rule making 5646
    - Pilots:
      - Flight time limitations for pilots not regularly assigned to one type of crew (SR–386B) 4378, 6032
      - Initial pilot flight training and recent experience, proposed rule making 5645
  - Flight operation rules:
    - Flight course and en route rules; flight altitude rules:
      - Day time over-the-top operations below minimum en route altitudes, proposed rule making 5646
      - Night VFR or IFR operations (including over-the-top), proposed rule making 5646
    - Instrument approach and landing rules:
      - Altitude on initial approach, proposed rule making 5646
      - Approach and landing limitations, proposed rule making 5646
      - Instrument approach procedures, proposed rule making 5646

Hearings, investigations, etc.:
- Aerovias Venezolanas, S. A. 4884, 6011
- Air America, Inc 5324
- Air freight renewal case 4911, 5324, 5668
- Alaska Coastal Airlines 6313
- American Air Lines, Inc 5995
- American Air Transport 5324
- Bonanza Air Lines, Inc 4332, 5567
- Braniff Airways, Inc 4160, 4693, 5005, 5291, 6071
- Callison's Flying Service 4332, 4505
- Canadian-Alaskan irregular service 4505
- Capital Airlines, Inc 5324, 6050
- Charleston, W. Va., and Columbus, Ohio, air service to 6003
- City of Sioux Falls, South Dakota 5238, 5919
- Colonial Airlines, Inc 5324
- Continental Air Lines, Inc 5195, 5453
- Delta–C & S. Air Lines 5324, 6011, 6050
- Eastern Air Lines, Inc 4587, 5324, 5995, 6050, 6087
- Ellis Air Lines 6313
- Empresa Guatemalteca de Aviacion (Aviateca) 5324, 6088
- Fairmont, Minn., and Fort Dodge, Iowa, service to 4160, 4693, 5005
- Guatemala City, Guatemala, and Los Angeles, California, air service between 6010

CIVIL AERONAUTICS BOARD—Continued Page

Hearings, investigations, etc.—Continued
- Helicopter Air Service, Inc 5325
- IATA conditions of carriage for passengers and cargo 5026, 5995, 6071
- International Falls, Minn., service to 6313
- Japan Air Lines Co., Ltd 6170
- Lineas Aereas Costarricenses, S. A 5995, 6244
- Mackay Airlines, Inc 4286
- Mail rate case, Western-Inland 5194
- Mail tariff investigation; Seaboard and Transocean APO and FPO 5238
- McKaughan, R. E 6050
- Modern Air Transport 5324
- National Airlines, Inc 4587, 5324, 6051
- Newport, Vermont, service to 5194
- New York–Florida proceeding 5324, 5972
- New York City–Mexico City nonstop service 5995
- Norfolk-Atlanta nonstop investigation 6050
- North Central Airlines, Inc 4044, 6313
- Northeast Airlines 5324
- Northwest Airlines, Inc 6087
- Pan American World Airways, Inc 4693, 5026, 5995, 6010, 6071, 6244
- Peninsular Air Transport 5234
- Peruvian International Airways 4884
- Pilgrim Coastal Airways 5324
- Pioneer Air Lines, Inc 5195, 5453
- Scandinavian Airlines System 5364, 5507
- Slick Airways, Inc 4911, 5324, 5668
- Southern service to the West case 5415
- Southwest Airway Co 4332, 5567
- Southwest-Northwest service case 4911
- States-Alaska case 5507, 5957
- Swiss Air Transport Co. Ltd 5453
- Trans-Texas Airways 4286, 4332, 6050
- United Air Lines, Inc 4332, 5567
- Virginia Peninsula, additional service to 4587
- Western-Inland mail rate case 5194, 5589

CIVIL DEFENSE; plans, programs, and functions respecting. *See* Commerce Department; Defense Mobilization, Office of; Federal Civil Defense Administration; *and* Health, Education, and Welfare Department.

CIVIL DEFENSE ADMINISTRATION. *See* Federal Civil Defense Administration.

CIVIL SERVICE COMMISSION:
- Annual leave. *See* Leave.
- Appointments:
  - Educational requirements. *See* Education (formal) requirements.
  - Through competitive system, delayed filing of applications by veterans and persons serving overseas; "foreign service" to exclude Puerto Rico, Virgin Islands, Panama Canal Zone, and Hawaii 4253
  - To positions excepted from competitive service. *See* Exceptions from competitive service.
- Civil-defense emergency; authorization to employ temporary additional personnel to meet emergency without regard to civil-service laws:
  - To Secretary of Agriculture, Secretary of Commerce, Secretary of Labor, Attorney General, and Housing and Home Finance Administrator 5922
  - To Secretary of Health, Education and Welfare 4546

Education (formal), requirements for appointment to certain positions; cotton technologist 5882

Exceptions from competitive service, Civil Service Rule VI:
- Schedule A; positions other than confidential or policy-determining for which examination is not practicable:
  - Agencies with positions added to Schedule A:
    - Agriculture Department 4919, 5121, 5853
    - Air Force Department 4049, 5881
    - Army, Department 5879
    - Business and Defense Services Administration 4871
    - Census Bureau 4919
    - Coast and Geodetic Survey 4919
    - Commerce Department 4011, 4373, 4871, 4919
    - Commodity Stabilization Service, headnote 5121
    - Defense Mobilization, Office of 4011
    - Education, Office of 5673

CIVIL SERVICE COMMISSION—Continued — Page

Exceptions from competitive service, Civil Service Rule VI—Continued
Schedule A; positions other than confidential or policy-determining for which examination is not practicable—Continued
Agencies with positions added to Schedule A—Continued
Farm Credit Administration 5123, 5881
Federal Civil Defense Administration 4522, 5853, 5942
Foreign Operations Administration 4693, 4695
Forest Service 5123
Health, Education, and Welfare Department 5673
International Boundary Commission, United States, Alaska and Canada 4695

Tariff Commission 4693
Treasury Department 6249
Veterans' Administration 3987
Agencies with positions removed from Schedule C:
Agriculture Department 4693
Federal Civil Defense Administration 5942
State Department 3986, 4373
Functions, certain, to be exercised by Commission without action of President (Executive Order 10552) 5079
Higher grades; positions in Defense Department in Grades 16, 17, 18, temporary placement of, by Secretary of Defense, approval of Commission required (Executive Order 10549) 4871
Hospitals, Government:
Exclusion from provisions of Federal Employees Pay Act and Classification Act; clinical psychology interns and residents, Health, Education, and Welfare Department 4255
Stipends, maximum:
Clinical psychology interns and residents, Health, Education, and Welfare Department 4255
Medical residents, Glenn Dale Hospital, District of Columbia 4211
Insurance, group life; coverage, exclusion, amount, designation of beneficiary, eligibility of retired employees, etc 5463
Leave, annual and sick leave regulations:
Administrative orders relieving employees from duty 5353
Designation of certain officers to which Annual and Sick Leave Act of 1951 shall not apply, and authorizing Chairman of Civil Service Commission to make such designations without action of President (Executive Order 10540) 3983
Schedule of positions referred to in Executive Order 10540 3983
Life Insurance. *See* Insurance.
Manpower Policy Committee, representation on 6275
Official personnel folders; establishment, maintenance, and transfer regulations (Executive Order 10561) 5963
Pay regulations:
Hospitals, Government; stipends for trainees. *See* Hospitals, Government.
Step-increases, longevity:
Definitions:
"Longevity period" 6021
"Longevity step-increase" 6019
Miscellaneous provisions, officers and employees in grades 11 to 15 inclusive 6021
Scope, positions not above grade 15 6019
Per diem, per hour, or piece rate employees; authority of Commission to promulgate regulations under which employees may be prevented or relieved from working by administrative order (Executive Order 10552) 5079
Performance rating boards of review; members 4211
Permanent promotion and reassignment of Federal employees (Executive Order 10556) 5637
Personnel folders, official. *See* Official personnel folders.

CIVIL SERVICE COMMISSION—Continued — Page

Promotions and reassignments of permanent employees, permanency of (Executive Order 10556) 5637
Reassignments of permanent employees, permanency of (Executive Order 10556) 5637
Retired employees, eligibility for group life insurance. *See* Insurance.
Retirement; exemption from automatic separation 4662
Security requirements for Government employment:
Action by agencies respecting employees subject to full field investigation to be taken within ninety days of receipt of investigative report (Executive Order 10550) 4981
Investigation of individual to include information relating to illness which may cause significant defect in judgment or reliability of employee (Executive Order 10548) 4871
Reports to be made by Commission to National Security Council respecting deficiencies or noncompliance of agencies (Executive Order 10550) 4981
Separation, automatic, exemption from 4662
Sick leave. *See* Leave.
Transfer of personnel between agencies:
To Export-Import Bank of Washington from Reconstruction Finance Corporation (Reorganization Plan No. 2 of 1954) 3986
To Federal National Mortgage Association from Reconstruction Finance Corporation (Reorganization Plan No. 2 of 1954) 3986
To Foreign Claims Settlement Commission of United States from War Claims Commission and International Claims Commission (Reorganization Plan No. 1 of 1954) 3985
To Small Business Administration from Reconstruction Finance Corporation (Reorganization Plan No. 2 of 1954) 3986
Veterans, delayed filing of applications while overseas; appointments through competitive system 4253

COAST AND GEODETIC SURVEY:
Charges for certifying, searching, and copying services 4357

COAST GUARD:
Authority, delegation of, to Commandant from Secretary of Treasury, with respect to revocation or denial of merchant mariners documents to persons involved in certain narcotics violations 5195
Cargo and miscellaneous vessels:
Construction and arrangement:
Accommodations, for officers and crew; location of crew spaces 4950
Rails and guards; where rails required 4926
Fire protection equipment:
Carbon dioxide extinguishing systems, details; carbon dioxide storage 4951
Fire detecting and extinguishing equipment, where required:
Fixed fire extinguishing 4927
Hand portable fire extinguishers and semi-portable fire extinguishing systems, proposed rule making 5318
Fire extinguishers, hand portable, and semi-portable fire extinguishing systems, arrangements and details; application, proposed rule making 5318
Fire main system, details; installations contracted for prior to November 19, 1952 4359
General provisions; application to vessels:
International voyage 4926
Vessels subject to requirements of subchapter, proposed rule making 5317
Inspection and certification:
Annual inspection of fire extinguishing equipment 4926
Drydocking, when required 4951
Lifesaving equipment:
Application, details of 4926
Distress signal, ships'; proposed rule making 5318
Embarkation aids; illumination for lifeboat launching operations 4927
Life buoys, ring, and water lights:
General provisions respecting life buoys, proposed rule making 5318
Number required, footnotes 4927

COAST GUARD—Continued — Page

Cargo and miscellaneous vessels—Continued
Lifesaving equipment—Continued
Lifeboats and life rafts, stowage and marking of; vessels contracted for prior to November 19, 1952 4926
Line-throwing appliances; application, type required, etc 4927
Radio apparatus, portable; required on international voyage 4927
Operations:
Log book entries, application; proposed rule making 5318
Notice to Mariners and aids to navigation; charts, proposed rule making 5318
Station bills:
Application, proposed rule making 5318
Manning of lifeboats and life rafts 4951
Stability; application to vessels on international voyages 4926
Vessel control and miscellaneous systems and equipment; fog gongs, proposed rule making 5315
Coast Guard military personnel:
Coast Guard Reserve, United States; regulations:
General provisions:
Commercial enterprises, use of title and reference to Coast Guard for 4319
Permission to leave United States 4319
Pay, allowances, and compensation, active duty; subsistence and rations 4319
Procurement:
Enlistments and reenlistments 5396
General requirements:
Eligibility for membership 5396
Procurement policies 5396
Military discipline; cancellation of regulations 6081
Punishment, for absence without leave, missing movement of ship, etc., provisions respecting. *See* Courts-Martial Manual, 1951.
Uniforms, wearing of, by persons who have served honorably in armed forces in time of war; regulations. *See* Uniform, wearing of, *below*.
Courts-Martial Manual, 1951; amendment of paragraphs 76a and 127c respecting sentences, maximum punishment for absence without leave and missing movement of ship, aircraft or unit, and permissible additional punishments (Executive Order 10565) 6299
Dangerous articles. *See* Explosives and other dangerous articles, etc.
Deck officers, merchant marine, licensing of. *See* Merchant marine officers and seamen.
Electrical engineering:
Communication and alarm systems and equipment, for tank vessels; proposed rule making 5315, 5316
Electrical system, general requirements for tank vessels; proposed rule making 5315, 5316
Emergency lighting and power system, for tank vessels; proposed rule making 5315
General provisions, for tank vessels; proposed rule making 5315, 5317
Engineering. *See* Electrical engineering; *and* Marine engineering.
Equipment:
Lifesaving and fire protection, for vessels. *See* Cargo and miscellaneous vessels; Passenger vessels; *and* Tank vessels.
Specifications, for various types of equipment and materials. *See* Specifications.
Explosives or other dangerous articles or substances and combustible liquids on board vessels:
Ships' stores and supplies on board vessels, use of dangerous articles as:
Classification, ships' stores and supplies of a dangerous nature, certain items 4935
Use, detailed regulations governing liquefied carbon dioxide for permanently installed fire extinguishing systems 4934
Transportation or storage (amendments proposed and/or adopted):
Explosives, detailed regulations governing 4929, 4930, 5318
Gases, compressed, detailed regulations governing; classification 4933, 5318

COAST GUARD—Continued — Page

Explosives or other dangerous articles or substances and combustible liquids on board vessels—Con.
Transportation or storage (amendments proposed and/or adopted)—Continued
Hazardous articles; classification — 4934
Inflammables; detailed regulations governing:
Liquids — 4931, 5318
Solids and oxydizing materials — 4932, 5318
Liquids; detailed regulations governing:
See also Inflammables.
Combustible — 4934
Corrosive — 4933, 5318
List of explosives or other dangerous articles containing shipping name or description of articles subject to regulation — 4928, 5318
Military explosives, transportation on board vessels during national emergency or war — 5319
Poisonous articles, detailed regulations governing — 4934, 5318
Fire protection and equipment. *See* Cargo and miscellaneous vessels; Passenger vessels; *and* Tank vessels.
Gases, compressed, transportation of. *See* Explosives or other dangerous articles, etc.
Inflammable articles; transportation of. *See* Explosives or other dangerous articles.
Licensing of deck officers and motorboat operators. *See* Merchant marine officers and seamen.
Lifesaving equipment:
For various types of vessels. *See* Cargo and miscellaneous vessels; Passenger vessels; *and* Tank vessels.
Specifications for. *See* Specifications.
Manning of vessels; manning requirements, definitions of terms, editorial changes — 4359
Marine engineering — 4922, 5317
Construction:
Boiler, mountings and attachments for; detail requirements — 4922
Furnaces and flues, proposed rule making — 5317
General requirements and procedure; request for increase of pressure — 4922
Tubes for boilers and superheaters, proposed rule making — 5317
General provisions, basis and purpose; application of regulations where existing vessels are reboilered — 4922
Installations, tests, inspections, etc.:
Boilers; tests and inspection of boilers in service — 4923
Piping, valves and fitting, tests and inspection; shop test — 5317
Pressure vessels; tests and inspections of pressure vessels in service — 5317
Machinery, main and auxiliary; internal combustion engine, gasoline engine installations — 4923
Materials; proposed rule making:
Bolting and nut material, carbon and alloy-steel — 5317
Castings:
Malleable iron and gray iron — 5317
Steel — 5317
Forgings, steel — 5317
General, tension tests — 5317
Pipe:
Carbon and alloy-steel and wrought iron — 5317
Copper and copper-alloy, seamless — 5317
Plate:
Aluminum-alloy — 5317
Copper and copper-alloy — 5317
Steel:
Flange and firebox — 5317
Marine boiler — 5317
Staybolt and rivet steel — 5317
Tubes:
Carbon and alloy-steel and wrought-iron — 5317
Copper and copper-alloy, seamless — 5317
Piping:
Change of headnote — 4922
Detail requirements:
Design pressures and thickness of outer walls of pipe bends after fabrication — 4922
Material, bolting, etc.; proposed rule making — 5317
Liquefied petroleum gases for cooking and heating, proposed rule making — 5317

COAST GUARD—Continued — Page

Marine engineering—Continued
Piping—Continued
Pumping arrangements and piping systems:
Bilge and ballast piping — 4923
Fuel and cargo oil, gasoline fuel, and diesel-fuel systems; proposed rule making — 5317
Steam and exhaust piping — 4923
Unfired pressure vessels; proposed rule making:
Design and construction; bolted flanged connections — 5317
General requirements — 5317
Welding, arc, and gas welding, and brazing; proposed rule making:
Arc welding and gas welding, welded piping — 5317
Brazing, detail requirements — 5317
Tests and inspection; test plates — 5317
Merchant Marine Council; notice of public hearing on proposed changes in navigation and vessel inspection regulations — 5315
Merchant marine officers and seamen; licensing of officers:
Deck officers; proposed rule making:
General requirements. *See* General requirements.
Professional requirements (inspected vessels):
Great Lakes, master of steam or motor vessels — 5315
Pilots, general — 5315
General requirements, for deck and engineer officers' licenses; proposed rule making:
Grade raise — 5315
Original license — 5315
Sea service as members of armed forces of United States and on vessels of United States, acceptance as qualifying experience — 5315
Motorboat operators, licensing of; general requirements with respect to Spanish speaking operators in waters in vicinity of Commonwealth of Puerto Rico, proposed rule making — 5315
Military explosives, transportation on board vessels during national emergency or war. *See* Explosives or other dangerous articles, etc.
Military personnel. *See* Coast Guard military personnel.
Nautical schools; public nautical school ships, proposed rule making:
Equipment requirements; fog gongs, proposed rule making — 5318
Fire-fighting and fire prevention requirements, special; proposed rule making — 5318
Lifesaving equipment, radios and portable radio equipment; proposed rule making — 5318
Markings, special, of lifeboat equipment; proposed rule making — 5318
Navigation regulations:
Aids to navigation:
Charges, for placement of temporary aids; charges for Coast Guard aids to navigation work — 5816
Damage to, or collision with, aids to navigation. *See* Interference with or damage to aid to navigation.
Interference with or damage to aids to navigation; collision with or damage to aids to navigation — 5815
United States aids to navigation system; recommendations and requests made by Armed Forces — 5814
Navigation requirements, for certain inland waters; pilot rules, light for log rafts, proposed rule making — 5315
Officers, licensing of. *See* Merchant marine officers and seamen.
Passenger vessels:
Construction and arrangement:
Accommodations, for officers and crew; location of crew spaces — 4930
Rails and guards; where rails required — 4924
Structural fire protection; definitions, ventilation, furniture and funishings, etc — 4924
Fire protection equipment:
Fire detecting and extinguishing equipment; where required, manual alarm system, supervised patrol system, etc — 4924, 4925

COAST GUARD—Continued — Page

Passenger vessels—Continued
Fire protection equipment—Continued
Fire main system, details; installations contracted for prior to November 19, 1952 — 4359
Hand portable fire extinguishers and semiportable fire extinguishing systems, arrangements and details; location — 4925
General provisions; application to vessels:
International voyage — 4923
Vessels subject to requirement of subchapter, proposed rule making — 5317
Inspection and certification:
Annual inspection of fire detecting and extinguishing equipment — 4923
Drydocking, when required — 4951
Lifesaving equipment:
Life buoy, ring, and water lights:
General provision respecting life buoys, proposed rule making — 5318
Number required, deletion of footnote 1 — 4924
Lifeboats, life rafts, life floats, and buoyant apparatus:
Requirements for vessels:
In coastwise service — 4924
In ocean service, proposed rule making — 5317
Stowage and marking of; vessels contracted for prior to November 19, 1952 — 4924
Operations; lookouts, pilothouse watch, patrolmen, and watchmen:
Pilothouse watch — 4951
Supervised patrol — 4926
Watchmen — 4951
Vessel control and miscellaneous systems and equipment; fog gongs, proposed rule making — 5315
Watertight subdivision; watertight bulkhead doors, class 3, required locations — 4359
Pilot rules, for inland waters. *See* Navigation.
Poisonous articles, transportation of. *See* Explosives or other dangerous articles.
Procurement:
Contracts; amendments and changes — 4319, 4562
Administrative instructions:
Contract disputes, determinations of fact and contractor's appeal under disputes clause — 4325
Davis-Bacon Act, wage rate determinations under — 4325
Contract clauses — 4324
Forms, preparation and distribution — 4324, 4562
Purchase order Form CG–2557, revocation — 4562
General provisions — 4324, 4562
Procedures for purchasing; amendments and changes — 4319, 4560
Advertising, procurement by:
Bids, acceptance of — 4323, 4561
Bids, distribution of — 4561
Form and form preparation — 4323
General provisions:
Delegation of authority — 4561
Procurement authority and limitations — 4320, 4560, 4561
Source of supply — 4320, 4561
Blind-made products, purchase of, through Federal Supply Service, and purchase from National Industries for the Blind; revocation — 4322
Special procurement instructions for designated items (envelopes, cotton items, steel filing cabinets, etc.) — 4561
Taxes and tax exemption certificates — 4561
Negotiation, procurement by; small purchase procedures — 4324, 4562
Reserves, United States Coast Guard. *See* Coast Guard military personnel.
Specifications, for lifesaving equipment, etc., for merchant vessels:
Construction of doors, watertight, sliding (and door controls); proposed rule making — 5318
Lifesaving equipment:
Buoyant apparatus, etc.:
Buoyant cushions for non-passenger-carrying motor boats:
Kapok, standard; cancellation, proposed — 5318
Kapok or fibrous glass, proposed rule making — 5318
Non-standard, cancellation, proposed — 5318

COAST GUARD—Continued — Page

Buoyant apparatus, etc.—Continued
Buoyant cushions for non-passenger-carrying motor boats—Continued
Plastic foam, unicellular; proposed rule making — 5318
Buoyant vests, kapok or fiberous glass; proposed rule making — 5318
Buoys, life, unicellular plastic; proposed rule making — 5318
Line-throwing appliances, impulse-projected rocket type (and equipment) — 4948
Signals, distress, for merchant vessels:
Flare, red:
Hand — 4935
Hand-held rocket-propelled parachute — 4943
Pistol projected parachute — 4935
Smoke, orange:
Floating — 4938
Hand — 4945
Signals, distress. *See* Lifesaving equipment.
Tank vessels:
Equipment, machinery, and hull requirements; proposed rule making:
Alarm systems — 5316
Communication systems, interior (voice tubes, telephones, bell systems, etc.) — 5316
Crew accommodations on tank ships constructed after January 1, 1938 — 5316
Electrical installations — 5316
Hull requirements, for vessels constructed in certain periods:
After July 1, 1951 — 5316, 5317
After November 10, 1936, and prior to July 1, 1951 — 5316
Prior to November 10, 1936, steel hull tank vessels — 5316
Machinery, main and auxiliary; communications — 5316
Markings; draft marks — 5316
Navigation equipment; fog gongs, whistles, and radio direction finder, etc — 5315, 5316
Safety requirements; rails — 5316
Ventilation and venting — 5316, 5317
Fire-fighting equipment; inspection, proposed rule making — 5316
General provisions; proposed rule making:
Administration; application of regulations — 5317
Definitions:
Flame screens — 5316
International voyage — 5316
Equivalents, conditions under which used — 5316
Inspection and certification; proposed rule making:
Annual inspection — 5316
Certificates of inspection; issuance, contents, etc — 5316
Convention certificates required — 5316
Converted vessels, inspection — 5316
Electrical engineering, provisions regarding — 5316
Stability tests — 5316
Lifesaving appliances; proposed rule making:
Distress lights — 5316
Life buoys — 5316
Lifeboats, life rafts, and buoyant apparatus required:
Equipment for — 5316
General requirements — 5316
Manning of lifeboats — 5316
Markings, care, and inspection — 5316
Stowage of — 5316
Liquefied petroleum gases; proposed rule making:
Cargo tanks, design and installation of — 5317
Inspections and tests, periodic — 5317
Piping, valves, fittings, and accessory equipment — 5317
Liquids, inflammable or combustible, having lethal characteristics; design and installation of cargo tanks — 5317
Operations; proposed rule making:
Cargo handling — 5316, 5317
Engine department; carrying of excess steam, and breaking of safety valve seal — 5316
Fire and emergency equipment, marking of; fire extinguishers, steering gear, etc — 5316, 5317

COAST GUARD—Continued Page

Tank vessels—Continued
Operations; proposed rule making—Continued
Fire and emergency requirements; emergency signals, fire and lifeboat drills 5316
Safety rules, general; portable electrical equipment, sparking devices, fresh air breathing apparatus, etc 5316
Special operating requirements; electrical installations, ladders, etc 5316
Uniform, wearing of, by persons who have served honorably in armed forces in time of war, regulations respecting to be prescribed by Secretary of Treasury (Executive Order 10554) 5295
Uninspected vessels (motorboats and steam vessels):
General provisions, application; vessels subject to requirements, proposed rule making 5317
Requirements:
Fire extinguishing equipment, editorial changes 4359
Fog gongs, vessels other than motorboats; proposed rule making 5315
Life preservers and other lifesaving equipment:
Editorial changes 4359
General provisions, respecting life buoys and vests; proposed rule making 5318
Vessel inspections; reports and forms, editorial changes 4358
Waivers of navigation and vessel inspection laws and regulations:
Eight-hour day for working hours of officers and crews on tugs navigating the Great Lakes or tributary waters, revocation 6067
Interior Department vessels operated by Pacific Micronesian Lines, Inc., to furnish transportation for Trust Territory of Pacific Islands 4952

Scope of part 5890
Termination of contracts:
Settlement of contracts terminated for convenience, authorization for settlement of subcontractors' termination proposals under $10,000 5887
Termination inventory:
Acquisition by Government 5889
Government-furnished property 5888
Inventory schedules, general classifications; property to be screened and property not to be screened 5888
Retention of contractor-acquired property by contractor; return of property to suppliers 5888
Review of property disposal, required review 5889
Sale or other disposition of termination inventory; sales without competitive bids 5889
Screening of serviceable and useable property 5888
Subcontractor termination inventory, general policy 5889
Milan Arsenal, Tenn., disposal of six parcels of land at; authority respecting 5415
Military equipment, materials, etc., procurement with foreign currencies under Agricultural Trade Development and Assistance Act of 1954 (Executive Order 10560) 5927
Mobilization base maintenance program to meet minimum wartime mobilization needs of Department, functions respecting 5395
Representation of Department on Defense Facilities Maintenance Board 5396
Patents and copyrights, procurement regulations respecting. *See* Joint regulations of armed forces.

DEFENSE DEPARTMENT—Continued Page

Positions in Department in Grades 16, 17, and 18, temporary placement of, authority of Secretary respecting; supersedure of letter of President to Secretary of September 4, 1953 (Executive Order 10549) 4871
Priorities and allocations authority, delegation to Assistant Secretary of Defense (supply and logistics) 5446
Procurement of military equipment, materials, facilities, and services for common defense with foreign currencies under Agricultural Trade Development and Assistance Act of 1954 (Executive Order 10560) 5927
Procurement regulations. *See* Joint regulations of armed forces.
Scientific Research and Development, Office of, termination and liquidation; authority delegation to Assistant Secretary of Defense (research and development) respecting 5155
Security orders for protection of property or places, delegation to commanding officers of all military, naval, and air installations respecting 5446
Taxes, procurement regulations respecting. *See* Joint regulations of armed forces.
Uniform, wearing of, by persons who served honorably in armed forces in time of war, regulations respecting to be prescribed by Secretary (Executive Order 10554) 5295

DEFENSE MINERALS EXPLORATION ADMINISTRATION:

Authority, delegation of, from Secretary of Interior:
Access roads in connection with exploration of strategic and critical metals and minerals and related development, certification of to Secretary of Commerce 4006
Acting Administrator, designation of certain officials to serve as 4006
Defense functions relating to metals and minerals 4006
Government aid in defense exploration projects (DMEA Order 1); continuation in effect 4006

DEFENSE MOBILIZATION, OFFICE OF:

Abaca, acreage under cultivation to, increases or reductions of; authority of Director respecting (Executive Order 10553) 5295
Agricultural Trade Development and Assistance Act of 1954, functions pursuant to (Executive Order 10560) 5927
Amortization of emergency facilities. *See* Emergency facilities.
Authority, delegation of:
General Services Administrator; authority to issue payment certificates under section 168 (g) of Internal Revenue Code of 1954 (formerly section 124A (g)) in regard to payments for unamortized cost of emergency facilities 6067
Secretary of Defense; authority to issue payment certificates under section 168 (g) of Internal Revenue Code of 1954 (formerly section 124A (g)) in regard to payments for unamortized cost of emergency facilities 6067
Boards. *See* Committees and boards.
Civil defense:
Attack damage, policies, programs and activities for overcoming effects of; establishment of Industrial Defense Committee in connection with (DMO VII–8):
Committee to advise Assistant Director for Production 6175
Redesignation 6175
Representatives of ODM to serve as Chairman and Vice Chairman of Committee 6175
Functions of Assistant Director for Plans and Readiness respecting 6245
Committees and boards:
Defense Facilities Maintenance Board; establishment, membership and functions 5396
Industrial Defense Committee; amendment of establishment order 6175
Manpower Policy Committee; establishment order revised 6275
Specialized Personnel, Committee on; establishment to achieve technological readiness for emergency 6276

DEFENSE MOBILIZATION, OFFICE OF—Continued Page

Defense Rental Areas Division; rescission of establishment order 4033
Emergency facilities, amortization of; issuance of certificates under section 168 (formerly 124A) of Internal Revenue Code of 1954 in connection with:
Necessity certificates for listed areas of production. *See* Expansion goals.
Payment certificates; issuance in connection with payment of compensation for unamortized cost of emergency facility:
Delegation of authority to Secretary of Defense and General Services Administrator respecting 6067
Regulation respecting, approved by President (Reg. 2) 5814
Expansion goals, issuance of accelerated tax amortization certificates under section 168 (former section 124A) of Internal Revenue Code in connection with listed areas of production and delegate agencies; List III, open areas for which certificates will be issued:
Aircraft, military. *See* Military and atomic energy procurement.
Aluminum forging facilities, addition 5042
Ammunition metal boxes. *See* Military and atomic energy procurement.
Electronic products, military. *See* Military and atomic energy procurement.
Military and atomic energy procurement, production facilities for; addition 5395
Ordnance facilities. *See* Military and atomic energy procurement.
Photographic equipment, military. *See* Military and atomic energy procurement.
Production facilities, for military and atomic energy procurement; addition 5395, 5490
Titanium processing facilities; addition 5265
Vehicles and engines, military. *See* Military and atomic energy procurement.
Warehouse and storage facilities; redesignation 5221
Mobilization base maintenance program to meet minimum wartime mobilization needs for Defense Department, Atomic Energy Commission, and Maritime Administration (DMO VII–7) 5395
Defense Facilities Maintenance Board; establishment to review and coordinate program 5396
Supersedure of DMO I–5 5396
Organization and functions:
Assistant Director for Financial Policy; rescission of establishment of position 4164
Assistant Director for Non-Military Defense; rescission of establishment of position 6245
Assistant Director for Plans and Readiness 6245
Assistant Director for Production (formerly Assistant Director for Production Requirements and Programs) 4165, 6245
Assistant Director for Stabilization, functions respecting determination and certification of critical defense housing areas 4046
Stockpile, strategic and critical materials for. *See* Strategic and critical materials.
Strategic and critical materials, for supplemental stockpile, purchase of, with foreign currencies under Agricultural Trade Development and Assistance Act of 1954 (Executive Order 10560) 5927
Voluntary plans, agreements, programs, and participating companies, and withdrawal of requests to participate; Army Ordnance Integration Committees:
Ammunition loading (except small arms ammunition) 5527
Conventional artillery and mortar shell 6071
Propellants and explosives 5415

DEFENSE RENTAL AREAS DIVISION:

Rescission of order establishing Defense Rental Areas Division and position of Director 4033

DEFENSE TRANSPORT ADMINISTRATION:

Establishment and functions 4160
Manpower Policy Committee, representation on 6275

DISASTER AREAS: Page

Designation of areas eligible for loans:
Agricultural credit. *See* Agriculture Department.
Small business loans. *See* Small Business Administration.
Emergency feed program. *See* Commodity Credit Corporation; *and* Farmers Home Administration.

Director of Short-Term Credit Services, authority of Deputy Directors with respect to certain duties and functions in absence of 4392
Governor, authority of certain officers to act as 4391
Bonds, 2¼ percent consolidated Federal farm loan, of February 1, 1953–55; notice of call for redemption by Federal land banks 4113
Continuation of orders, regulations, and similar instruments 4391
Federal farm loan system; Federal land banks, notice of call for redemption by, of 2¼ percent consolidated Federal farm loan bonds of February 1, 1953–55 4113

FARM CREDIT ADMINISTRATION—Continued Page

Federal Farm Mortgage Corporation, disposition of reserved minerals; revised area designation, determination with respect to Nemaha County, Nebraska as fair market value area 6313
Federal land banks. *See* Federal farm loan system.
Minerals, reserved, disposition of. *See* Federal Farm Mortgage Corporation.

FARMERS HOME ADMINISTRATION:

Authority, delegations of, from Administrator to various officials:
Assistant Administrator for Loan Operations; authorities, functions, and duties relating to soil and water conservation loan program 5972
State Directors; authority to delegate and redelegate certain functions and responsibilities 5155
Disaster loan program. *See* Production emergency and property damage loans.
Emergency feed program, 1954:
Policies for determining eligibility to receive assistance under 5199
Terms and conditions of CCC respecting assistance under. *See main heading* Commodity Credit Corporation.
Farm ownership loans:
Basic regulations:
General provisions:
Restrictions on loans 4051
Terms of loans; mortgage insurance charge 4052
Loan limitations; average values of farms and investment limits for purposes of Title I of Bankhead-Jones Farm Tenant Act, in Puerto Rico 4255
Construction and repair (farm ownership and farm housing programs):
Performing farm development 4176
Planning farm development 4173
Repair and construction (farm ownership and farm housing programs). *See* Construction and repair.
Feed and hay programs, functions with respect to. *See* Organization.
Feed program, emergency. *See* Emergency feed program.
Fur loan program, revision 3992
Livestock loans, special. *See* Special livestock loans.
Orchard loan program:
Revocation 4679
Servicing orchard loans 3993
Organization, functions, and authority; functions with respect to certain programs:
Feed and hay programs 4674
Soil and water conservation loan program 5633
Production emergency and property damage loans; loans under section 2, Public Law 38, 81st Congress, servicing production emergency loans 4119
Property damage loans. *See* Production emergency and property damage loans.
Redesignations of certain subchapters and parts 3987, 4119
Security servicing and liquidations 3987
Farm housing loans 3987
Farm ownership loans 3987
Livestock loans, special. *See* Operating loans.
Operating loans:
General security servicing 3987, 6021
Special livestock loans, security servicing for 4105
Soil and water conservation loan program, functions with respect to. *See* Organization.
Special livestock loans; loan policies, servicing of special livestock loans 4105
Water and soil conservation loan program, functions with respect to. *See* Organization.

FEDERAL CIVIL DEFENSE ADMINISTRATION:

Authority, delegation of:
Attorney General; civil defense functions respecting technical guidance to States concerning protection of penal institutions and control and utilization of prisoners and facilities during civil defense emergency, and related functions respecting funds, personnel, etc 5922

Industrial radio service:
Applications, supplemental information to be submitted; issuance of authority for use of frequencies within band 72–76 mc, deletion 4234
CONELRAD voluntary plan for all classes of radio stations and operating procedure during radio alert 6314
Frequencies, policy governing assignment of; authorization to, and conditions of use of frequencies between 72 and 76 mc, by fixed stations, including elimination of interference to TV reception 4233, 5898
Shoran equipment, operation of, on frequencies in 225–328.6 mc band; new authorizations or renewals of existing authorizations not to be made after 1954, notice 6264
Industrial, scientific, and medical service:
CONELRAD voluntary plan for all classes of radio stations, request for compliance with 6314
Epilation equipment; applicability of regulations to 5900
Operation for which license is required; existing equipment, applicability of regulations to epilation equipment using radiofrequency energy 5900
Statement of basis and purpose; postponement of effective date of regulations with respect to use of electric arc welding devices using radio frequency energy to July, 1955 4876
Ultrasonic equipment, type approval of, requirements, etc., extension of time to file comments in proposed rule making 4584
Intercity bus radio service. *See* Land transportation radio services.
Intercity relay stations. *See* Experimental and auxiliary broadcast services.

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

International agreements etc., relating to radio in which United States participates:
Frequencies, North America; assignment of frequencies to foreign broadcasting stations in. *See* North American Regional Broadcasting Agreement.
Great Lakes Agreement; application procedures, implementation in regulations, and delegations of authority 5141, 5147, 5156
Laws and international treaties and other agreements, Appendix A and Appendix B 4562
International broadcast stations. *See* Radio broadcast services.
Land transportation radio services:
Applications, supplemental information to be submitted; issuance of authority for use of frequencies within 72–76 mc band, deletion 4234
CONELRAD voluntary plan for all classes of radio stations and operating procedure during radio alert 6314
Definition of terms:
Common carrier 5819
Contract carrier 5819
Intercity bus radio service; deletion 5819
Motor carrier radio service 5819
Urban transit radio service; deletion 5819
Frequencies, policy governing assignment of; authorization to, and conditions of use of frequencies between 72 and 76 mc, by fixed stations, including elimination of interference to TV reception 4233, 5898
Highway truck radio service; replacement of, by motor carrier radio service, further notice of proposed rule making 5336
Limitation of eligibility of carriers of property, use of 43 mc band, allocation of frequencies, etc 5836
Intercity bus radio service; rescission of regulations respecting, and supersedure by motor carrier radio service provisions 5818
Motor carrier radio service; frequencies available, eligibility for license, etc., provisions replacing intercity bus radio service and urban transit radio service 5818, 6080
Urban transit radio service; rescission of regulations respecting and supersedure by motor carrier radio service provisions 5818
Laws and international treaties and other agreements; Appendix A and Appendix B 4562
Maritime radio services:
Land stations, coastal:
Application precedent to authorization; change in references 5641
CONELRAD voluntary plan for all classes of radio stations and operating procedure during radio alert 6314
Fixed stations, marine control, repeater, and relay, associated with maritime mobile service, frequencies assignable; conditions and restrictions respecting use of frequencies in 72–76 mc bands, including elimination of interference to TV reception 4232, 5898
Foreign ship stations in United States waters; inspection of station 5642
International radio regulations in force between United States Government and other contracting Governments (Appendix II) 4790
Location of engineering field offices and monitoring stations (Appendix I) 4788
Additions and deletions 5898
Regional managers, offices of; redesignation 5898
Marine control fixed stations. *See* Fixed stations.
Operating requirements, general; radio-telephone watch by coast stations transmitting within certain frequency bands, deletion of effective dates 5641
Relay fixed stations. *See* Fixed stations.
Repeater fixed stations. *See* Fixed stations.
Revision (editorial changes) and republication of regulations, including amendments adopted as of August 2, 1954 4745
Station requirements, general:
Facilities, minimum, required for public coast stations using telephony; effective dates, deletion 5641

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Land stations, coastal—Continued
Station requirements, general—Continued
Operating controls used for commencing and discontinuing normal operation of stations, and for telegraphy and telephony; deletion of effective dates of provisions respecting 5641
Technical requirements, standard, transmitter-power, authorized; coast stations and marine-utility stations using telephony, power to be used on 156.8 mc by public coast stations, report and withdrawal of proposed rule making respecting 5322
Telegraphy, use of, by coast stations; station documents 5641
Telephony, use of:
By limited coast stations; supplemental eligibility requirements for licenses, clarification of provisions respecting, ship arrival and departure service 4157
By public coast stations:
Changes in frequency assignments of coast, ship, and aircraft stations within 4000–18,000 kc band 5897
Mississippi River system areas, coast and ship stations 4876, 5006
Modification of certain station licenses with respect to extension of time for use of frequency 4162.5 kc 5006
Changes in frequency assignments of coast and ship stations within 2000–2850 kc band 5375
Conditions imposed upon assignments in 156–162 mc band; editorial amendment 5641
Frequencies assignable:
Assignment of specific carrier frequencies and use:
Frequency 2182 kc 5641
Mississippi River and connecting inland waters:
Deletion of frequency 4162.5 kc 5641
Editorial amendment 5641
List; unavailability of frequency 4162.5 kc 4876
Deletion 5641
Frequencies below 30 mc, availability of:
Carrier frequencies assignable to Class I stations:
Working frequencies below 5000 kc, table; additions and deletions 5897, 6038
Working frequencies between 5000 kc and 30 mc, table; additions and deletions 5897
Carrier frequencies assignable for working purposes to Class II stations, tables:
Stations transmitting alternately on different channels; additions and deletions 5897
Addition of 2530 kc, Hawaii, Palmyra Island 4875
Frequencies for use in Los Angeles-San Diego and San Francisco-Eureka areas 5375
New York area, frequencies for use in 6038
Stations transmitting alternately on same channels; use of 2738 and 2784 kc frequencies, Oregon and northwest areas 5376
Station documents prescribed 5641
Mobile maritime telephone service in New York area, additional frequencies for 6038
Shipboard stations:
Antenna requirements. *See* Station requirements.
Applications:
Application precedent to authorization 4157
Changes during license term; exception respecting interim ship station license, and references added 4157
Defective applications; procedure when written applications are incomplete or defective 4157
Emergency, application for license or modification or renewal of license in; interim ship station license 4157

50000—54——4

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Shipboard stations—Continued
Applications—Continued
Exemptions, application for:
Great Lakes Agreement 5150
List of general exemption orders (Appendix IV); reference 4034
Interim ship station license, request for 4157
Overtime services by inspectors, extra compensation for; change in reference 5641
Partial grant of application; exception respecting interim ship station license 4157
Periodical survey (Great Lakes Agreement), application for 5150
Safety Convention, application for certificate of compliance with 5641
Voluntary assignment or transfer of control of station license, application for consent to; exception respecting interim ship station license 4157
Canada-United States Agreement for promotion of safety on Great Lakes by means of radio; provisions respecting installations on certain vessels in accordance with Agreement 5147
Cargo ships under 1600 gross tons, certain; deferment of application of new radio installation and operator requirements with respect to 5490
Compulsory radio regulations:
General exemption orders issued exempting ships from compulsory radio provisions (Appendix IV) 4034, 4850
Equipment, compulsory shipboard, type approval of; transmitter requirements:
Emergency transmitter; tabulation of basic requirements, frequency tolerance 4159
Main transmitter; tabulation of basic requirements, frequency tolerance 4159
Installation, compulsory shipboard radio:
Cargo ships; deferment of application of new radio installation and operator requirements with respect to certain cargo ships 5490
Great Lakes Agreement, radio installations on ships subject to; certificates, occasional navigation on Great Lakes, periodical survey, trial of, and requirements for radio-telephone installations, failure of installations while en route 5151
Radio installations on ships subject to Part II of Title III of Communications act 5151
Automatic-alarm-signal keying device 5642
CONELRAD voluntary plan for all classes of radio stations and operating procedure during radio alert 6314
Definition of terms:
Categories of ships; passenger carrying vessel 5150
Destination 5150
Great Lakes 5150
Operator licensee; editorial amendment 5641
Safety communication, installation for; radiotelephone installation 5150
Statutes and international agreements; Great Lakes Agreement 5150
Exemptions:
Applications for exemption 4034, 5150
Delegations of authority respecting applications for exemptions. *See* Organization, *below.*
Filing of, forms, etc. *See* Practice and procedure, *below.*
General exemption orders issued exempting ships from compulsory radio provisions (Appendix IV) 4034, 4850
Great Lakes, Agreement for Promotion of Safety by Means of Radio on; implementation of, in regulations 5147
Interim radiotelephone ship station licenses, granting of, by Field Engineering Offices of Commission 4157
Authority of Engineer-in-Charge respecting 4162
International radio regulations in force between United States Government and other contracting Governments pursuant to various radio conventions (Appendix II) 4847

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Shipboard stations—Continued
Location of engineering field offices and monitoring stations (Appendix I) 4846
Additions and deletions 5898
Regional managers, offices of; redesignation 5898
Marine-utility stations. *See* Nature of service provided by ship stations.
Nature of service provided by ship stations and shipboard marine-utility stations; supplemental eligibility requirements, applicants requesting frequency assignment in 152–162 mc band 4157
Operator requirements:
Great Lakes Agreement, certified persons required by 5150
Posting of operator license; restricted radiotelephone operator permits, posting of optional 5152
Radiolocation, use of; ship-radar stations, special provisions applicable to, deletion of effective date 5642
Radiotelegraphy, use of:
Calling frequencies, ship radiotelegraph, table 4849
Cargo ship working frequencies, use of 4882
Table 4849
Frequencies assignable, list of specific designated frequencies; listed frequencies above 515 kc not assignable to passenger ship stations after January 15, 1955, proposed rule making 4882
Frequencies for working:
Coast stations, communication with; telegraph working channel within 4000 kc to 17,000 kc band, cargo and passenger vessels, inapplicability of provisions respecting, after 1954, proposed rule making 4382
Frequencies assignable in accordance with Appendix III:
Cargo ship stations, frequencies for use of, list; deletion of footnote 2 5642
Passenger ship and aircraft stations, frequencies for use of; list of, and date available, proposed 4882
Frequency assignment plan, ship radiotelegraph, table 4850
Passenger ship stations, frequencies:
Table of passenger ship radiotelegraph working frequencies 4848
Use of passenger ship radiotelegraph working bands between 4 and 23 mc in accordance with Geneva (1951) Agreement, proposed rule making 4881
Radiotelephony, use of:
Changes in frequency assignments of ship, coast, and aircraft stations within 4000–18,000 kc band 5897
Mississippi River system areas, ship and coast stations 4876
Changes in frequency assignments of ship and coast stations within 2000–2850 kc band 5375
Frequencies above 156 mc for business and operational purposes; Great Lakes area, 156.5 mc assigned to vessels used in construction activities 5642
Frequencies assignable:
Assignment of specific carrier frequencies and use:
Frequency 2182 kc, use of 5642
Frequency 2830 kc, assignment of, and requirements respecting certification of harmonic suppression capabilities of ship transmitters operating on, proposed rule making 4504
Mississippi River and connecting inland waters; deletion of frequency 4162.5 and use of 4372.4 kc 5642
List of frequencies:
Additions and deletions 5642, 5897
Frequency 2830 kc, temporary use of, for transmitter testing, proposed 4504
Unavailability of frequency 4162.5 kc, Mississippi River system 4876
Deletion 5642

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Maritime radio services—Continued
Shipboard stations—Continued
Radiotelephony, use of—Continued
Frequencies below 5000 kc for public correspondence; frequencies available to mobile and coast stations transmitting alternately:
On different channels; additions, deletions, etc 5897
Frequencies for use in Los Angeles-San Diego and San Francisco-Eureka areas 5376
Hawaii, Palmyra Island; addition of 2134 kc 4875
New York area, frequencies for use in 6039
On same channels; use of 2738 and 2784 kc, Oregon and northwest areas 5376
Frequencies between 4 mc and 23 mc, ship radiotelephone, table 4850
Frequencies from 5000 kc to 30 mc for public correspondence; addition and use of 16,510.4 kc 5898
Interim ship station license, public or limited stations, operation under 4158
Mobile maritime telephone service in New York area, additional frequencies for 6038
Radiotelephone operating procedure, general; use of calling frequency required, editorial amendment 5642
Ship stations, certain radiotelephone (operating in 2 mc band), issuance of interim authorizations to, at Commission's field offices 4157
Authority of Engineer-in-Charge at field offices, respecting 4162
Station records; ship stations subject to Great Lakes Agreement, maintenance of records 5150
Revision (editorial changes) and republication of regulations, including amendments adopted as of August 2, 1954 4791
Ship stations operating on frequencies not open to public correspondence, eligibility for licenses; use of frequencies 152–162 mc 4156
Ship transmitters operating on 2830 kc, requirements respecting certification of harmonic attenuation capabilities of, proposed 4504
Station authorizations:
Effective license periods 4158
Interim ship station license 4158
Normal license period; redesignation 4158
Temporary operation, license periods for; rescission 4158
Station requirements, general:
Antenna requirements; stations operating on frequencies below 25 mc authorized for radiotelephony 6266
Logs, retention of; maintenance of logs containing entries required because of Great Lakes Agreement 5150
Operating controls used for commencing and discontinuing operation of stations and for telegraphy; deletion of effective date of provisions respecting 5641
Required radio-channels for:
Telegraphy; stations operating on frequencies between 4000–23,000 kc, deletion of effective date of requirements 5641
Telephony; stations operating on frequencies within 1600–3500 kc band 5641
Tables of ship radiotelegraph frequencies from 2000 kc to 23,000 kc and ship radiotelephone frequencies from 4000 kc to 23,000 kc (Appendix III) 4848, 5642
Technical requirements, standard:
Frequency tolerances, authorized, for ship stations operating on frequencies below 25 mc 4158
Transmitter-power, authorized 6266
Minimum power required for ship stations operating on frequencies between 2000 and 25,000 kc 6266
Watch on 2182 kc 5642
Ship stations within 300 miles of certain coastal cities, deletion of provision respecting 5642
Watches and auto-alarms for safety purposes; listening required by Great Lakes Agreement 5150

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Mexico, assignment of frequencies to broadcast stations in; changes in list modifying appendix to North American Regional Broadcasting Agreement 5007
Motor carrier radio service. *See* Land transportation radio services.
North American Regional Broadcasting Agreement; lists of changes in assignments for stations in various countries:
Canada 5161
Cuba 5162
Mexico 5007
Operators:
Commercial radio operators. *See* Commercial radio operators.
Requirements in various services. *See specific services.*
Organization, delegations of authority, etc.:
Field Engineering and Monitoring Bureau:
Engineer-in-Charge at district field offices; authority to act upon requests for interim radiotelephone ship station licenses 4162
Location of engineering field offices and monitoring stations; additions and deletions 5921
Regional managers, offices of; redesignation 5921
Safety and Special Radio Services Bureau, Chief; authority to act on applications for exemption of ships under certain radio regulations, exception with respect to certain vessels subject to Great Lakes Agreement 5156
Statement of places for submitting applications:
Exemption from compulsory ship radio requirements, applications for 5156
Ship radio inspection and periodical survey, applications for 5156
Police radio service. *See* Public safety radio services.
Practice and procedure:
Application forms, filing of, etc. *See* Radio licenses.
Broadcast hearings 4443, 4996
Cables, submarine, landing and operation of; applications under Cable Landing Licenses Act and Executive Order No. 10530 (Appendix 1) 4875
General rules; petition to consolidate, mutually exclusive applications for broadcast stations, filing period to be 60 days 4445
Hearings and decisions, rules relating to:
Broadcast hearings 4443, 4996
Exchange of exhibits and information; commencement of hearing procedure in cases involving broadcast applications for authority to construct broadcast facilities 4445, 4996
Prehearing conferences 4445, 4996
Radio license; applications and proceedings:
Action on applications; procedure when case is designated for hearing:
Advance notice of hearing, cases involving construction of broadcast facilities 4445
Naming of parties to hearing; persons filing mutually exclusive applications, broadcast applications consolidation, 60-day filing period allowed 4445
Filing of applications and description of forms:
Application Forms 309, 310, 311, 312, and 318, currently in use made obsolete and new Forms 309, 310, and 311 adopted 4744
Authority to construct new station or make changes in existing station, application for; broadcast services, forms to be used (Forms 301, 309, 313, 340) 4743
Construction permit, application for license following; Form 310, Application for international, experimental television, experimental facsimile, or developmental broadcast station license 4743
Exemption from compulsory ship radio requirements, applications for 5141
Exemptions and waivers under part II of title III, applications for; revision and redesignation 5141
Modification of license, broadcast and nonbroadcast, application for:
Form 301, Application for authority to construct new broadcast station or make changes in existing station; editorial changes 4155

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Practice and procedure—Continued
Radio license; applications and proceedings—Con.
Filing of applications and description of forms—Continued
Modification of license, broadcast and nonbroadcast, application for—Continued
Form 309, Application for authority to construct or make changes in existing international, experimental television, experimental facsimile, or developmental broadcast station 4743
Renewal of license, application for, broadcast and nonbroadcast:
Form 303, Application for renewal of broadcast station license; editorial changes 4155
Form 311, Application for renewal of an international, experimental television, experimental facsimile, or developmental broadcast station license 4743
Ship radio inspection and certification of ship radio license, application for; redesignation 5141
Ship radio inspection or periodical survey of ships subject to compulsory radio requirements 5141
Voluntary assignment or transfer of control of broadcast station, application for, Forms 314 and 315; editorial changes 4155
Great Lakes Agreement, procedures in connection with; provisions respecting 5141
Manner in which applications are processed; procedure with respect to applications for:
Ship radio inspection and certification of ship radio licenses; redesignation 5141
Ship radio inspection or periodical survey 5141
Press service, fixed public. *See* Public radiocommunication services.
Public radiocommunication services (other than maritime mobile):
CONELRAD voluntary plan for all classes of radio stations and operating procedure during radio alert 6314
Domestic fixed public service. *See* Domestic fixed public service, *above*.
Domestic public land mobile services; hearings respecting additional service 4549, 4551, 4625, 4741, 5007, 5196, 6147, 6313, 6314
Fixed public and fixed public press services, assignment of frequencies; transmission by stations in fixed services to be permitted only on frequencies allocated to fixed service by Atlantic City table of frequency allocations (1947) proposed rule making 4881
Public safety radio services:
CONELRAD voluntary plan for all classes of radio stations and operating procedure during radio alert 6314
Delegations of authority. *See* Organization, *above*.
Emergency radio service. *See* Special emergency radio service.
Fire radio service, frequencies available; use of frequencies between 72 and 76 mc 4233, 5898
Forestry-conservation radio service, frequencies available; use of frequencies between 72 and 76 mc 4233, 5898
Highway maintenance radio service, frequencies available; use of frequencies between 72 and 76 mc 4233, 5898
Police radio service, frequencies available, use of frequencies between 72 and 76 mc 4233, 5898
Special emergency radio service, frequencies available; use of frequencies between 72 and 76 mc 4233, 5898
Technical standards; frequencies:
Availability and use of frequency 27.255 mc 4790
Frequencies in band 72–76 mc, criteria for use of, including elimination of interference to TV reception 4233, 5898
Public transit utilities. *See* Land transportation radio services.
Radar stations on shipboard. *See under* Maritime radio services.

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Radiation devices and services, restricted and incidental; extension of time to file comments in proposed rule making 5322
Radio broadcast services:
Applications for broadcast stations, hearings procedure, forms to be used, etc. *See* Practice and procedure, *above*.
Auxiliary broadcast services. *See* Experimental and auxiliary broadcast services, *above*.
Candidates for public office, broadcasts by:
Rates and practices 5894
Recapitulation of provisions of act and regulations, etc., with respect to use of broadcast facilities by candidates for public office 5948
Educational broadcast stations, FM, noncommercial; CONELRAD, voluntary plan for all classes of radio stations and operating procedure during radio alert 6314
Experimental and auxiliary broadcast services. *See* Experimental and auxiliary broadcast services, *above*.
FM broadcast stations:
Candidates for public office, broadcasts by:
Rates and practices 5897
Recapitulation of provisions of act and regulations, etc., with respect to use of broadcast facilities by candidates for public office 5948
Class A stations; proposed rule making:
Assignment of frequencies in 88–100 mc band in Alaska 5379
Designation of; reference added 5379
Class B stations; proposed rule making:
Allocation plan, revised tentative, for channels allocated to Class B stations; amendments 4880, 5952
Assignment of frequencies in 88–100 mc band in Alaska 5379
Designation of; reference added 5379
Educational FM broadcast stations. *See* Educational broadcast stations, FM, noncommercial, *above*.
International broadcast stations:
Application for international broadcast stations, procedure 4744
CONELRAD voluntary plan for all classes of radio stations and operating procedure during radio alert 6314
Equipment, changes in, and antenna system; Form 309 to be used for filing applications for various changes 4744
Operators, commercial radio. *See* Commercial radio operators, *above*.
Standard broadcast stations:
Candidates for public office, broadcasts by:
Rates and practices 5897
Recapitulation of provisions of act and regulations, etc., with respect to use of broadcast facilities by candidates for public office 5948
Frequency allocations by classes of stations; assignment of stations to channels:
Class II, III, or IV station, assignment of, to available channel, under certain conditions 5143
Individual assignments 5143
Standards of Good Engineering Practice 5141
Allocation standards, deletion of certain provisions respecting Class II, III–B or IV stations 5143
Daytime skywave transmissions, extension of time to file comments in proposed rule making 4738
Television broadcast stations:
Applications and authorizations for UHF television stations not originating local programs, consideration of, by Commission 5144
Assignment of frequencies between 72–76 mc, condition of use of, by fixed stations in various services, to eliminate interference to TV reception 4233
Auxiliary broadcast services. *See* Experimental and auxiliary broadcast services, *above*.
Rules governing television broadcast stations:
Appendix I; Zone 1, inclusion of portion of Kentucky in, proposed rule making 6084

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Radio broadcast services—Continued
Television broadcast stations—Continued
Rules governing television broadcast stations—Continued
Applications and authorizations; multiple ownership, relaxation of limitation on number of stations owned or controlled 6102
Candidates for public office, broadcasts by:
Rates and practices 5897
Recapitulation of provisions of act and regulations, etc., with respect to use of broadcast facilities by candidates for public office 5948
Channel utilization:
Antenna height requirements. *See* Power and antenna height requirements.
Assignments, table of:
Additions to table; Channel No. 65, Shamokin, Pennsylvania 4880, 6264
Changes, deletions, etc., affecting channel assignments in listed States, hearings, orders, etc., respecting:
Alabama 6265
Alaska; proposed change 5154
California 5314
Florida 6264
Kansas; proposed change 6083
Kentucky (Channel 4, Richmond); proposed change 6084
Louisiana; proposed change 6084
Michigan; correction in channel assignments 4034
Minnesota; proposed change 5916
Mississippi; proposed change 6084
North Carolina; proposed change 6035
North Dakota; proposed change 5916
Ohio 5314
Pennsylvania 4880, 6264
Puerto Rico; proposed change 5154
Extension of time to file comments 6276
Virginia; proposed changes 6085
Power and antenna height requirements, maximum power; use of uniform heights and powers in Zones I, II, and III, proposed rule making 6276
Separations, minimum co-channel assignment and station separations; Zone 1, inclusion of portion of Kentucky in, proposed rule making 6084
Channels, numerical designation of; Alaska, allocation of frequencies in bands between 76–88 mc for nonbroadcast use in, proposed 5379
Operating requirements, general; candidates for public office, broadcasts by:
Rates and practices 5897
Use of broadcast facilities 5948
Ownership, multiple; relaxation of limitations on number of stations owned or controlled 6099
UHF television stations:
Multiple ownership 6099
Stations not originating local programs, consideration of applications and authorizations for 5144
Zones:
Inclusion of portion of Kentucky in Zone 1, proposed rule making 6084
Power and antenna height requirements 6276
Radiotelegraphy, use of. *See* Maritime radio services.
Radiotelephony, use of, by land and shipboard stations. *See* Alaska; *and* Maritime radio services.
Remote pickup broadcast stations. *See* Experimental and auxiliary broadcast services.
Restricted and incidental radiation devices and services; extension of time to file comments in proposed rule making 5322
STL broadcast stations. *See* Experimental and auxiliary broadcast services.
Safety:
Promotion of safety on Great Lakes by means of radio, Canada-United States Agreement for; provisions respecting installations on certain vessels in accordance with Agreement 5147

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Safety—Continued
Public safety radio services. *See* Public safety radio services.

Regulations under Natural Gas Act. *See* Rules and regulations, *below*.
Rules and regulations:
Federal Power Act:
Annual charges:
Discretionary reduction — 5630, 6032
Proposed rule making; rehearing — 5630
Forms, approved:
Applications:
For amendment of license — 5218
For approval of transfer of license — 5218
For license — 5218
For license for minor project having installed capacity of 100 hp. or less — 5218
For license for transmission lines only — 5218
For preliminary permit — 5218
Certificates of organization — 5218
Licenses:
Amendment of license, application for:
Issuance and acknowledgment of acceptance — 5217
Number of copies required — 5217
Applications for licenses:
For project under license which expires on specified date:
Contents of application — 5217
Exhibits, required — 5217
General provisions:
Acceptance or rejection of applications for filing — 5213
Effective date and term of license for complete constructed project, proposed rule making — 5233, 6009
Hearing on application — 5214
Issuance and acceptance; redesignation and revision — 5214
Issuance and acknowledgment of acceptance — 5214
Manner of filing; redesignation and revision — 5213
Who may file — 5213
Major project, constructed, or minor part; contents of application — 5216
Major project proposed, or minor part; application for license for:
Contents — 5214
Drawings, specifications for — 5216
Exhibits, required — 5214
Minor project; contents of application, number of copies — 5216
Transmission line only:
Contents of application; number of copies — 5216
Electric lines (11,000 volts or less) in national forests; rescission — 5216
Surrender or termination:
Annual charges; effective date — 5217
Surrender; restoration of lands to satisfactory condition required — 5217
Transfer of license — 5217
Licenses, permits, and determination of project costs; proposed rule making — 5213, 5233, 6009
Permits, preliminary to issuance of licenses, and amendments, applications for:
Acceptance for filing or rejection of applications — 5216
Amendments, applications for — 5217

FEDERAL POWER COMMISSION—Continued — Page

Rules and regulations—Continued
Federal Power Act—Continued
Permits, preliminary to issuance of licenses, and amendments, applications for—Continued
Contents of application — 5216
Description of project and proposed scheme of development required — 5216
Exhibits, required — 5216
Hearing on application — 5217
Issuance; redesignation and revision — 5217
Issuance and acknowledgment of acceptance — 5217
Manner of filing; redesignation and revision — 5216
Power sites, lands withdrawn for; application for vacation of withdrawal and for determination permitting restoration to entry, contents of application — 5218
Projects; declaration of intention to construct, filing of — 5217
General rules; practice and procedure:
Appearances and practice before Commission; former officers barred for one year, exception, addition — 5213
Application for rehearing; action on — 5213
Decisions:
Final decisions — 5213
Service — 5213
Waiver and omission of intermediate decision procedure — 5213
Evidence; documentary material, copies to parties and Commission — 5213
Exceptions to intermediate decisions and briefs and oral arguments before Commission:
Filing of — 5213
Nature of — 5213
Filing with Commission; acceptance for filing — 5213
Hearings:
Expert testimony, prepared — 5213
Transcript and record — 5213
Reports of compliance; number of copies to be filed — 5213
Service:
By Commission — 5213
By parties — 5213
The Commission; definitions, "Secretary" — 5213
Natural Gas Act:
Accounts, uniform system of, for natural gas companies; gas stored underground, storage costs for year commencing January 1, 1954, and notes B–1 and B–2 respecting, proposed — 4285
Certificates of public convenience and necessity, applications for, under section 7 of Act as amended:
Abandonment of service — 4537, 5083
Applicability of regulations to independent producers — 4537, 5083
Applications by independent producer — 4536, 5082, 5992
Time for filing; extension, to Dec. 1, 1954 — 6301
Contents of application — 4536, 5083
Exhibits, necessary — 4536, 5083
Form for applications for certificate of public convenience and necessity by class B independent producers (Exhibit A) — 4537, 5083
Form of filing — 4537, 5083
Other information — 4537, 5083
Contracts by interstate natural gas companies with producing companies, automatic escalation and favored nation clauses; proposed rule making, continuation of argument, notice — 4543
Exemption from provisions of Act, application for, pursuant to section 1 (c) thereof — 4276
Rate schedules and tariffs:
Acceptance for filing not approval — 4536, 5082
Agreements, oral — 4535, 5082
Applicability of regulations to independent producers — 4536, 5082
Cancellation or termination — 4535, 5082
Changes in rate schedules — 4535, 5082, 5952
Interpretation — 6301
Definitions:
"Independent producer" defined — 4535, 5031
Rate schedule defined — 4535, 5031

FEDERAL POWER COMMISSION—Continued — Page

Rules and regulations—Continued
Natural Gas Act—Continued

Vegetables, canned:
See also Beans; Corn; *and* Peas.
Other than those specifically regulated; definitions and standards of identity, proposed rule making — 5523

FOREIGN AGRICULTURAL SERVICE. *See* Agriculture Department.

FOREIGN ASSETS CONTROL DIVISION. *See* Treasury Department.

FOREIGN CLAIMS SETTLEMENT COMMISSION:
Appeals; appeal form and time limitations — 4498
Attorneys; right to appear before Commission. *See* Procedure.
Continuation in effect of regulations of War Claims Commission and International Claims Commission — 4080
Establishment, membership and functions (Reorganization Plan No. 1 of 1954) — 3985
Hearings — 5234, 6061
Procedure:
Determination of claims — 5234, 6061
Proceeding to censure, suspend or revoke right of attorney to appear before Commission:
Appeal; revocation — 4723
Decision of Secretary of State — 4723
Effect of decision of Commission — 4723
Receipt, adjudication and payment of claims:
Claims defined — 4498
Filing of claims and procedures therefor; time within which claims may be filed — 4234
Provisions of general application; rescission — 4234

FOREIGN COMMERCE BUREAU: — Page

Authority, delegations of, from Secretary of Commerce:
Deputy Director; authority respecting inspection of records, premises or property, and issuance of subpoenas in connection with enforcement of export control authority — 5565
Director; authority under Export Control Act respecting issuance of rules and regulations, record keeping, and reports, inspection of records, premises or property, and issuance of subpoenas in connection with enforcement of export control authority — 5565
Export Control Investigation Staff, persons employed in; authority to make investigations, obtain information, inspect records, premises, or property in connection with investigations, or enforcement of export control authority — 5566
Export control:
Amendments or alterations of licenses; changes which require neither amendment nor new license, change of address — 4664
Denial or suspension of export privileges. *See* Suspension of license privilege, *below*.
Enforcement of export control, authority delegations respecting. *See* Authority.
Export clearance, presentation for export — 4273
General orders, suspending validated and general licenses to communist-controlled Viet Nam and Hanoi-Haiphong Enclave — 4601
Licenses:
Foreign distribution license:
Application requirements; application form, reference — 6205
Reexportation to excepted countries; British Borneo, deletion — 6205
General licenses:
General license country groups, grouping of countries:
Country group O countries, Haiti and Chile; editorial changes — 6202
Country group R countries — 6202
Subgroup A, communist-controlled areas of Viet Nam and Hanoi-Haiphong Enclave — 4601
General license GHK, shipments of certain listed commodities to Hong Kong — 6202
General license GO; shipments to group O destinations, boron carbide — 6202
General licenses ship stores, plane stores, crew, and registered carrier stores; note respecting vessels and planes stopping at Haiphong — 4601
General provisions, applicability; prohibited shipments, note — 6202
Individual and other validated licenses, provisions for — 4265
How to file application for export license; information required, note — 3998
License applications for in-transit shipments; applicability of special provisions, Belgian Congo, deletion — 4663
Licensing policies and related special provisions:
Confirmation of country of ultimate destination and verification of actual delivery; submission of delivery verification — 4273
Destination provisions:
Belgian Congo, deletion — 4664
Ultimate consignee and purchaser statements, scope, "government agency" — 3998
Individual commodity group provisions:
Commodity group 6; nonferrous commodities, nickel-bearing cobalt and alloy scrap — 4663
Commodity group 9; military wearing apparel, deletion — 6205
Multiple commodity group provisions; confirmation of country of ultimate destination and verification of actual delivery, scope, Austria added — 4996
Time schedules for submission of applications for licenses — 4996

FOREIGN COMMERCE BUREAU—Continued — Page

Export control—Continued
Mutual assistance on United States imports and exports; import certificate and delivery verification on selected imports into United States — 4265
Positive List of Commodities and related matters:
Appendix A, Positive List of Commodities — 4015, 4349, 4534, 4665, 4996, 6180
Addition of certain commodities; lenses for photomicrographic and high speed cameras — 4665
Deletion of various commodities — 4349, 4534, 4996
General notes — 4015
Revision of Positive List — 6180
Appendix C, commodity processing codes — 4350
Suspension of license privilege:
Orders affecting listed firms or persons:
Aetna Converting Corp — 5288
Atlas Converting Co — 5288
Chang, William C — 4972
Clifford Chemicals Division — 4429
Commercial Metals Co — 4095
Flores, Arturo — 4112
Goldberg, Herman P and Burton L — 5288

Ozark National Forest, Richland Recreation Area (PLO 1003) 5866
California:
Air navigation site withdrawal No. 174, revoked in part (PLO 985) 4691
Army Department, in connection with Pine Flat Dam and Reservoir project, lands in Sierra National Forest; proposed withdrawal 6310
Classification, and in aid of legislation, lands near Los Angeles; prior order (EO 4270) revoked (PLO 996) 5444
Classification and pending determination as to inclusion in national monument, San Bernardino Meridian; prior order (EO 6361) revoked in part (PLO 998) 5560
Navy Department:
Artillery and antiaircraft weapons training area, San Bernardino Meridian (PLO 985) 4691
Naval ordnance testing center and proving range, Mount Diablo Meridian, prior order (PLO 431) revoked in part (PLO 1005) 5867
Rifle range for use of Marine Corps, lands east of Barstow Supply Annex; proposed withdrawal 6311
Yermo Marine Corps Storage and Repair Depot, adjacent to Mojave River, between Daggett and Yermo, proposed withdrawal 5194
Water supply, City of Los Angeles, protection of; withdrawal of lands for naval ordnance testing center and proving range, prior order (PLO 431) revoked in part (PLO 1005) 5867

LAND MANAGEMENT BUREAU—Continued Page

Withdrawals of lands in Alaska and various States, for specified uses of Federal agencies, etc.—Con.
Colorado:
Agriculture Department:
Fraser Experimental Forest, Arapaho National Forest; research projects within, proposed withdrawal 4883
Manitou Experimental Forest, Pike National Forest; research projects within, proposed withdrawal 4883
Air Force Department, establishment of Air Force Academy; proposed withdrawal 5290
Atomic Energy Commission:
New Mexico Meridian (PLO 1008) 5929
Uncompahgre Plateau, lands in; prior order (PLO 698) revoked in part (PLO 981) 4357
Florida, Forest Service; recreation and administrative areas, Tallahassee Meridian, proposed withdrawal 5631
Idaho:
Air Force Department, in connection with Mountain Home Air Force Base (PLO 987) 4906, 4910
Army Department, airport, lands withdrawn for; prior order (PLO 109) revoked in part (PLO 987) 4906, 4910
Forest Service:
Administrative site, lands in Nezperce National Forest; prior order revoked 5918
Research projects, lands in Boise, Salmon, and Targhee National Forests in connection with (PLO 993) 5333
Iowa; Engineers Corps, river terminal, Mississippi River (PLO 988) 5179
Michigan, lands withdrawn for lighthouse purposes; prior order (Executive order of December 21, 1850) revoked in part (PLO 994) 5399
Montana:
Forest Service, for use in connection with Sheep Creek Administrative Site; proposed withdrawal 4673
Interior Department; for use by State Fish and Game Department, in connection with Dodson Waterfowl Management Area (PLO 979) 4033
Nevada, Interior Department, for use in connection with production of magnesium metals and alloys for defense purposes; prior order (EO 8927) modified to permit mineral leasing (PLO 992) 5255
New Mexico:
Agriculture Department:
Cibola National Forest; Fourth of July, Tajique, and New Canyon Campground and Recreation Areas, proposed withdrawal 5446
Gila National Forest; camp, picnic, and recreation areas, proposed withdrawal 5063
Lincoln National Forest, Red Cloud Picnic Ground and Recreation Area; proposed withdrawal 5446
Santa Fe National Forest; administrative sites and recreation areas, proposed withdrawal 5363
Army Department, Sandia Base; lands within Cibola National Forest, for use in connection with (PLO 995) 5443, 5452
Classification, lands on eastern slope of Guadalupe Mountain Range; prior order (EO 5370) revoked (PLO 997) 5519
Classification and pending determination as to reservation for national park or monument purposes, eastern slope of Guadalupe Mountain Range; prior order (EO 3984) revoked in part (PLO 997) 5519
Fort Wingate Military Reservation, lands in, reserved as Zuni District of Manzano (Cibola) National Forest; prior order (EO 4208) revoked in part (PLO 999) 5560
National forest purposes, New Mexico Principal Meridian; prior orders (Proc. 685, 803), precedence (PLO 995) 5443, 5452
Navy Department, experimental purposes, lands in Cibola National Forest; prior order (PLO 595) revoked (PLO 995) 5443, 5452
Stock driveway withdrawal No. 9, New Mexico No. 3, modified 4866

LAND MANAGEMENT BUREAU—Continued Page

Withdrawals of lands in Alaska and various States, for specified uses of Federal agencies, etc.—Con.
New Mexico—Continued
War, prosecution of, lands in Cibola National Forest withdrawn in connection with; prior orders (PLO 133, 242) revoked (PLO 995) 5443, 5452
Oregon:
Army Department:
McNary Lock and Dam Project, proposed withdrawal 6124
Military purposes; prior orders amended:
EO 8794, deletion of reference to termination of national emergency (PLO 986) 4723, 4739
EO 8999, deletion of reference to termination of national emergency (PLO 986) 4723, 4739
Fish and Wildlife Service, Eagle Creek Fish-Cultural Station; lands on Eagle Creek (PLO 989) 5179
Forest Service; administrative sites, recreational areas, forest camps, etc., lands in Mt. Hood, Rogue River, Umatilla, Umpqua, and Whitman National Forests (PLO 990) 5179
Interior Department, Oregon grant lands:
Canton Creek timber access road, right-of-way for (PLO 1009) 6067, 6071
Smith River access road, materials for (PLO 1009) 6067, 6071
South Dakota, Forest Service; lands near Black Hills Meridian, proposed withdrawal, correction of date 4203
Utah:
Agriculture Department:
Manti-LaSal National Forest, lands for use in connection with Great Basin Experiment Station; proposed withdrawal 6311
Wasatch National Forest, lands for use in connection with Davis County Experimental Watershed; proposed withdrawal 6311
Air navigation site No. 224, revocation 6311
Atomic Energy Commission, Salt Lake Meridian (PLO 983, 1011) 4632, 6227
Proposed withdrawal 5362
Washington:
Army Department:
Artillery and antiaircraft firing range, Willamette Meridian (PLO 1000) 5585, 5866
McNary Lock and Dam Project; proposed withdrawal 6124
Navy Department, Willamette Meridian, naval aviation training purposes; prior order (PLO 247) revoked (PLO 1004) 5867
Port Angeles Townsite, lands within reserved for Government use; prior order (EO 1661) revoked in part (PLO 1010) 6067
Stock driveway purposes, Willamette Meridian; precedence of withdrawal for Army Department as artillery and antiaircraft firing range (PLO 1000) 5585
Wyoming, Civil Aeronautics Administration; airport purposes, application for transfer of described lands to Town of Lovell for 5412

M

MANAGEMENT IMPROVEMENT IN EXECUTIVE BRANCH OF GOVERNMENT, expenses for; administration of President's management improvement appropriation (Executive Order 10559) 5879
MARINE CORPS. *See* Navy Department.
MARITIME ADMINISTRATION:
See National Shipping Authority.
Application of Moore-McCormack Lines, Inc. for permission to transport one Government-owned launch, for delivery on consignment to Military Sea Transportation Service, from Port of New Orleans to Port of Savannah 4204
Construction of vessels, construction-differential subsidy for. *See* Subsidized vessels and operators.
Emergency operations; war risk cargo insurance 4407, 4499
Fees for records. *See* Practice and procedure.
Freight forwarders, commercial, registration of. *See* Registration of commercial freight forwarders.

MARITIME ADMINISTRATION—Continued Page

Insurance, war risk. *See* Emergency operations.
Maritime carriers and related activities, regulations affecting:
Agents. *See* Operators.
Operators, responsibilities of, with respect to guarantee clause in new ship construction contracts 4360
Ship construction, new, contracts, guarantee clause in, operators' responsibilities with respect to 4360
Merchant marine training. *See* Training, merchant marine.
Mobilization base maintenance program to meet minimum wartime mobilization needs for Administration 5395
Organization and functions; organizational components, functions of, respecting auditing:
External audit; Office of Comptroller, functions redefined 4205
Internal audit; Division of Claims, deletion with reference to 4205
Practice and procedure:
Certified copies, requests for; redesignation and revision 5399
Records, searching, copying, and certification of; fees for 4285, 5399
Records, fees for. *See* Practice and procedure.
Registration of commercial freight forwarders, certificates of; cancellation, notices to show cause respecting various companies:
Abraira, Jose M 5380
Gallozzi & Co 5380
Hayes Forwarding Co 5381
Miavana Service 5380
St. Francis Co 5380
Subsidized vessels and operators:
Construction-differential subsidy; profit determination of, in subcontracts for construction, reconditioning, or reconstruction of ships:
Definitions:
Subcontract 5399, 5868
Subcontractor 5399
Subcontracts:
Availability to Administration; revision 5399
Contract requirement 5399
Definition 5399
Failure to effect contract requirement; revision 5309
Replenishment of general stores; deletion 5399
Same article or articles 5399
Series of subcontracts; revision 5399
Operating-differential subsidy; information and procedure required under, sailing schedules, routes, etc 5042
Training, merchant marine:
Appointment and training of cadets in United States Merchant Marine Cadet Corps; definition of term "Midshipman USNR" 4614
State maritime academies, regulations and standards for:
Claims, compensation, for injury of cadets 5043
Entrance standards; physical qualifications 5043
Medical attention and injury claims; compensation claims of cadets 5043
Uniforms, textbooks, and subsistence 5043
War risk insurance. *See* Emergency operations.

MARITIME BOARD, FEDERAL:
Agreements, transportation. *See* Transportation agreements.
Charters, bareboat; annual review of charters of various companies, list 4430
Maritime carriers and related activities, regulations affecting. *See main heading* Maritime Administration.
Merchant marine training, regulations respecting. *See main heading* Maritime Administration.
Merchant Ship Sales Act of 1946; bareboat chartering of war-built dry cargo vessels, annual review of charters of various companies, list 4430
Organization and functions. *See main heading* Maritime Administration.
Practice and procedure, rules of, before Federal Maritime Board. *See main heading* Maritime Administration.

MINES BUREAU: Page

Authority, delegation of, from Secretary of Interior to Director:
Access roads in connection with production of metallurgical coal, certification of, to Secretary of Commerce 4006
Defense functions relating to solid fuels and distribution of petroleum coke 4006
Buildings or public works, construction, alteration, or repair; contracts and change orders relating to, amounting to $500, or more, to be approved by Director 5411
Electrical equipment, lamps, methane detectors; tests for permissibility, fees, etc.:
Electric cap lamps:
Applications; proposed rule making 5401
Approvals, granting of, by official letter from Mines Bureau; proposed rule making 5401
Changes in lamp design, instructions for handling; proposed rule making 5401
Conditions governing investigations; submission of material, attendance, etc., proposed rule making 5401
Definition of term "permissible"; proposed rule making 5401
Fees charged; proposed rule making 5401
Electric mine lamps other than standard cap lamps:
Applications; proposed rule making 5349
Approvals, granting of, by official letter from Mines Bureau; proposed rule making 5349
Changes in lamp design, instructions for handling; proposed rule making 5349
Conditions governing investigations; submission of material, attendance, etc., proposed rule making 5349
Definition of terms "approval", and "permissible"; proposed rule making 5348
Fees charged for investigations of lamps; proposed rule making 5349
Flame safety lamps:
Applications; proposed rule making 5349
Approvals, granting of, by official letter from Mines Bureau; proposed rule making 5350
Changes in lamp design, instructions for handling; proposed rule making 5350
Conditions governing investigations, attendance; proposed rule making 5349
Definition of term "permissible"; proposed rule making 5349
Fees charged; proposed rule making 5349
Instructions for submitting equipment; redesignation, proposed rule making 5349
Methane detectors, portable:
Applications; proposed rule making 5350
Approvals, granting of, by official letter of Mines Bureau; proposed rule making 5350
Changes in lamp design, instructions for handling; proposed rule making 5350
Conditions governing investigations; submission of material, attendance, etc., proposed rule making 5350
Definition of term "permissible"; proposed rule making 5350
Fees for investigation; proposed rule making 5350
Instructions for submitting equipment; redesignation, proposed rule making 5350
Multiple-shot blasting units:
Applications; proposed rule making 5351
Approvals, granting of; proposed rule making 5352
Changes in design, instructions on handling; proposed rule making 5352
Conditions governing investigations; submission of material, attendance, etc., proposed rule making 5352
Definition of term "permissible"; proposed rule making 5351
Fees charged; proposed rule making 5351
Signaling devices. *See* Telephones and signaling devices.
Single-shot blasting units:
Applications; proposed rule making 5402
Approvals; proposed rule making 5402
Authorization and purpose, definition of term "permissible", proposed rule making 5401
Changes in design; proposed rule making 5402

MINES BUREAU—Continued Page

Electrical equipment, lamps, methane detectors; tests for permissibility, fees, etc.—Continued
Single-shot blasting units—Continued
Conditions governing investigations; submission of material, attendance, etc., proposed rule making 5402
Fees charged; proposed rule making 5401
Telephones and signaling devices:
Applications; proposed rule making 5351
Approvals, granting of, by official letter from Mines Bureau; proposed rule making 5351
Changes in design, instructions for handling; proposed rule making 5351
Conditions governing investigations; submission of material, attendance, etc., proposed rule making 5351
Definition of terms "approval" and "permissible"; proposed rule making 5351
Fees charged; proposed rule making 5351
Explosives and related articles; tests for permissibility and suitability:
Blasting devices; proposed rule making 4728
Explosives (including sheathed explosives), proposed rule making 4723
Stemming devices; proposed rule making 4726
Lamps. *See* Electrical equipment, lamps.
Mechanical equipment for mines; tests for permissibility, fees, etc.:
Diesel mine locomotives:
Approvals conditions, preliminary steps, and granting of; proposed rule making:
Application 5352
Delegation of authority 5352
Fees 5352
Granting of 5352
Witnesses 5352
Changes in design subject to approval; proposed rule making 5353
Definition of terms "approval" and "permissible"; proposed rule making 5352
Type of locomotive that may be approved; proposed rule making 5352
Underground use of Diesel locomotives, fuel; proposed rule making 5353
Dust collectors for use in connection with rock drilling in coal mines; proposed rule making 5353
Mobile diesel-powered equipment for noncoal mines:
Approvals, granting of, and preliminary steps preceding approval tests and inspections; proposed rule making:
Application 5402
Attendance 5403
Delegation of authority 5403
Fees 5402
Witnesses; deletion 5403
Changes in design subsequent to approval; proposed rule making 5403
Definitions; deletion of term "permissible", and redesignation of sections, proposed rule making 5402
General requirements, engine exhaust system; discharge and composition of exhaust system, proposed rule making 5403
Inspection and tests; determination of adequacy of exhaust gas cooling system, proposed rule making 5403
Type of equipment that may be approved; proposed rule making 5402
Methane detectors. *See* Electrical equipment, lamps, methane detectors.
Respiratory protective apparatus; tests for permissibility, fees:
Filter-type dust, fume, and mist respirators, proposed rule making 5341
Gas respirators, nonemergency (chemical cartridge respirators); proposed rule making 5345
Supplied air respirators; proposed rule making 5499

MISSISSIPPI RIVER COMMISSION; Annual and Sick Leave Act of 1951 not applicable to Commissioner (Executive Order 10540) 3983

N

NARCOTICS BUREAU: Page
4,4-Diphenyl-6-dimethylamino-3-hexanone, determination of its addiction-forming or addiction-sustaining liability similar to morphine, proposed 5266
Internal Revenue Code of 1954, applicability under, of regulations prescribed jointly by Commissioner and Commissioner of Internal Revenue 5167

NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS:
Development work for industry in NACA wind tunnels and engine test facilities 5947

NATIONAL BUREAU OF STANDARDS:
Organization and functions:
Field operations organization (inclusion of Boulder Laboratories) 4974
Organization:
Central Radio Propagation Laboratory, deletion 4974
Field operations 4974
Scientific and technical divisions; Central Radio Propagation Laboratory, deletion 4974
Standard samples and reference standards issued by Bureau 4076
Purchase procedure; terms of shipping 4076
Schedule of weights and fees; descriptive list:
Ceramic materials 4076
Chemicals 4077
Irons 4076
Light-sensitive paper and booklets, certain, for colorfastness testing of textiles 4078
Melting-point standards 4077
Microchemical standards 4077
Nonferrous alloys 4076
Ores 4076
pH standards 4077
Radioactivity standards 4077
Resolution test charts 4078
Standard of reference; redesignation 4078
Steels (chemical standards) 4076
Thermoelectric standards 4077
Test fee schedules:
Atomic and molecular physics; measurements of radium, etc., weak radioactive samples, calibration of alpha-ray samples 4075
Chemistry; synthesis of certain sugars 4076
Electricity; resistors, alternating current ammeters and volt-meters, watthour meters 4075
Optics and metrology; surveyors measuring instruments, leveling rod 4075
Radio propagation; redesignation 4076
Radio standards 4076
Complex permeability of low conductivity magnetic materials 4076

NATIONAL DAY OF PRAYER, 1954 (Proclamation 3064) 5121

NATIONAL PARK SERVICE:
Authority, delegations of:
By Director to various officials:
Regional Administrative Officers and Chief Clerks; authority to make certain contracts for supplies, equipment, or services 5413
Regional Directors; authority with respect to administration, operation, and development of certain areas 6125
Superintendent, Hawaii National Park; to exercise certain authority vested in Director 5632
From National Capital Parks Superintendent to certain officers:
Personnel Officer; authority to make appointments and status changes in positions up to and including GS–9 and all CPC and ungraded positions 4204
Procurement Officer; authority to enter into contracts for supplies or services not in excess of $20,000 4204
From Regional Directors to certain Regional Superintendents:
Region One 4364
Region Two 4364
Region Three 4569
Region Four 4569

NATIONAL PARK SERVICE—Continued Page
Hawaii National Park, Superintendent; authority of. *See* Authority, delegations of.
National Capital parks, authority of certain officers. *See* Authority, delegations of.
National parks, monuments, recreation areas, etc.:
Cape Hatteras National Seashore Recreational Area, North Carolina; designation of certain lands for hunting 4485

Hot Springs National Park; bathhouse regulations, revision 6224
Yellowstone National Park; boats, size limitation 5018
NATIONAL PARKS, FORESTS, MONUMENTS, ETC.:
Cape Hatteras National Seashore Recreational Area, North Carolina; designation of certain lands for hunting 4485
Fort Vancouver National Monument; establishment 4204
Public lands in. *See* Land Management Bureau.
Regulations respecting. *See* Forest Service; *and* National Park Service.

NATIONAL SECURITY COUNCIL:
Security requirements for Government employment; reports respecting deficiencies or non-compliance by Government agencies to be made to Council by Civil Service Commission (Executive Order 10550) 4981

NATIONAL SHIPPING AUTHORITY:
Agents, general agents, and berth agents:
Application to act as general agent, agent or berth agent; execution of application, changes of ownership or organization to be reported 6164
Authority and responsibility of general agents in connection with decommissioning of tankers assigned to reserve fleet 4960, 5168
Compensation of general agents for husbanding services, etc.; tankers assigned for deactivation and layup 5628
Compensation of general agents. *See* Agents, general agents, and berth agents.
Decommissioning tankers assigned to reserve fleet; authority and responsibility of general agents with respect to 4960, 5168

NAVY DEPARTMENT:
Aircraft danger areas over military installations, designation in coordination with Navy. *See main heading* Civil Aeronautics Administration.
Authority, delegation of, by Secretary, to Chief, Bureau of Supplies and Accounts; elimination of excessive profits under Renegotiation Act of 1951 5989
Redelegation to Officer-in-Charge, Navy Regional Accounts Office, Washington, D. C. 5990
Canal Zone, naval reservations in. *See* Reservations.
Claims, Navy personnel:
Civilian personnel adjudicating authority reimbursement 5946
Claimants 5946
Claims not payable:
Motor vehicles 5945
Nonpersonal items 5945
Classes of claims payable; transportation losses, claims for motor vehicles 5945
Form of claim 5946
Form of investigating officer's report 5946
Investigation of claim, forwarding of claim to adjudicating authority 5946
Marine Corps service personnel adjudicating authority:
Reimbursement 5946
Reimbursement in kind 5946
Meritorious claims not otherwise provided for 5946
Navy service personnel adjudicating authority:
Claims 5946
Reimbursement 5946
Statute of limitations 5945
Statutory provisions 5945
Courts-Martial Manual, 1951; amendment of paragraphs 76a and 127c respecting sentences, maximum punishment for absence without leave and missing movement of ship, aircraft or unit, and permissible additional punishments (Executive Order 10565) 6209

NAVY DEPARTMENT—Continued Page
Defense Facilities Maintenance Board, representation on 5396
Emergency facilities covered by certificates of necessity, treatment of depreciation on, for contract pricing purposes 4355
Lights, navigation, on naval vessels of special construction; certificate by Secretary for exception to statutory requirements for listed vessels 5024
Marine Corps:
Claims, service personnel adjudicating authority. *See under* Claims, *above.*
Officer Personnel Act of 1947, suspension of certain provisions of:
Revocation or supersedure of prior orders suspending provisions relating to distribution of grades, promotion, etc., of certain officers (Executive Order 10546, 10563) 4435, 6297
Service-in-grade requirements of officers of grades of first lieutenant and captain for temporary promotion to next higher grade (Executive Order 10546) 4435
Uniform, wearing of, by persons who have served honorably in armed forces in time of war, regulations respecting to be prescribed by Secretary of Defense (Executive Order 10554) 5295
Naval Academy, admission of candidates into, as midshipmen:
Entrance procedure and equipment:
Armed Forces, members of 5110
Evidence of birth 5110
Insurance 5110
Pay of midshipmen 5110
General, engagement to serve; additional service obligation 5109
Methods of admission:
High school records, submission of 5109
Time of entrance 5109
Physical requirements:
Physical examination, formal 5110
Physical standards and disqualifying defects 5110
Officer Personnel Act of 1947, suspension of certain provisions of:
Revocation or supersedure of prior orders suspending provisions relating to distribution of grades, promotion, etc., of certain officers of Navy and Marine Corps (Executive Order 10546, 10563) 4435, 6297
Service-in-grade requirements of officers of Marine Corps of grades of first lieutenant and captain for temporary promotion to next higher grade (Executive Order 10546) 4435
Organization:
Naval technical assistants:
Medicine and Surgery, Bureau of 4042
Supplies and Accounts, Bureau of 5023
Yards and Docks, Bureau of 4042
Secretary of the Navy 4042
Procurement; armed services procurement regulations. *See main heading* Defense Department.
Renegotiation Act of 1951, authority delegations respecting elimination of excessive profits under. *See* Authority.
Reservations, naval, in Canal Zone:
Rodman Naval Reservation; establishment (Canal Zone Order 34) 6164
West Bank Naval Reservation; reduction (Canal Zone Order 34) 6164
Transportation of household goods by motor carrier and storage at destination prior to delivery, special procedures of General Accounting Office for payment of 4289
Uniform, wearing of, by persons who have served honorably in armed forces in time of war, regulations respecting to be prescribed by Secretary of Defense (Executive Order 10554) 5295
Vessels, naval, of special construction; navigation lights. *See* Lights.

NEWFOUNDLAND RAILWAY OF ST. JOHNS, NEWFOUNDLAND; loan made by Reconstruction Finance Corporation to Railway, unctions relating to, transferred to Export-Import Bank of Washington (Reorganization Plan No. 2 of 1954) 3986

O

OFFICER PERSONNEL ACT OF 1947, suspension of certain provisions of: Page
Revocation or supersedure of prior orders suspending provisions relating to distribution of grades, promotion, etc., of certain officers of Navy and Marine Corps (Executive Order 10546, 10563) 4435, 6297
Service-in-grade requirements of officers of Marine Corps of grades of first lieutenant and captain for temporary promotion to next higher grade (Executive Order 10546) 4435

OLD-AGE AND SURVIVORS INSURANCE BUREAU:
Federal old-age and survivors insurance regulations effective after August 1950; coverage of employees of State and local governments, place and time for filing contribution returns and wage reports 4537

SUBPART—ORANGE AND GRAPEFRUIT EXPORT PAYMENT PROGRAM UMX 135a (FISCAL YEAR 1954)

PROCESSED PRODUCT SPECIFICATIONS

Section 517.424 (b) (9) is hereby amended to read as follows:

(9) Canned (hot-pack) or preserved concentrated grapefruit juices shall meet the following requirements:

(i) General: The product shall be prepared from the unfermented juice obtained from sound, mature fruit of the grapefruit tree (Citrus paradisi); shall be prepared and processed under sanitary conditions and in accordance with good commercial practice; and, the product, including any labeling, shall conform in every respect with the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder. Canned concentrated juices shall be sufficiently processed by heat to assure preservation of the product in hermetically sealed containers. Preserved concentrated grapefruit juice shall be prepared with the addition of suitable chemical preservatives as specified. All containers shall be sound and clean. Cans shall be free from rust and serious dents.

(ii) Canned concentrated grapefruit juice (55° Brix or more) shall meet the requirements of "Tentative United States Standards for Grades of Canned Concentrated Grapefruit Juice," effective November 15, 1945.

(iii) Preserved concentrated grapefruit juice (55° Brix or more): (*a*) The concentrated grapefruit juice, prior to the addition of chemical preservatives, shall meet the requirements of subdivision (ii) of this subparagraph.

(*b*) Sulphur dioxide alone or sodium benzoate or benzoic acid or any combination of sodium benzoate and benzoic acid shall be added within the following ranges but only in a quantity necessary as a preservative for the respective concentrations:

Sulphur dioxide 350 p. p. m. to 750 p. p. m. Sodium benzoate and or benzoic acid equal 1 percent to ¼ of 1 percent.

(iv) Chemical methods. Chemical analyses shall be made in accordance with the methods of the Association of the Official Agricultural Chemists or in accordance with methods that give equivalent result.

(Sec. 32, 49 Stat. 774, as amended; 7 U. S. C. 612c)

Effective date. This amendment shall become effective at 12:01 a. m., e. d. t., September 1, 1954.

Dated this 27th day of August 1954.

[SEAL] FLOYD F. HEDLUND,
Authorized Representative of the Secretary of Agriculture.

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

[Sugar Reg. 814.30]

PART 814—ALLOTMENT OF SUGAR QUOTAS

DOMESTIC BEET SUGAR AREA, 1954

Basis and purpose. This order is issued under section 205 (a) of the Sugar Act of 1948, as amended (7 U. S. C. 1100 et. seq., hereinafter called the "act"), for the purpose of revising Sugar Regulation 814.30 (19 F. R. 4704) which allots the 1954 sugar quota for the domestic beet sugar area.

Revision of Sugar Regulation 814.30 is made to give effect to a stipulation and petition by all the allottees under said regulation that the allotment of the 1954 sugar quota for the domestic beet sugar area as set forth in said stipulation and petition and as hereinafter set forth in this order will provide an allotment of such quota in conformity with section 205 (a) of the act.

Accordingly, I hereby find that the allotment of the 1954 sugar quota for the domestic beet sugar area as hereinafter set forth in this order constitutes a fair, efficient and equitable distribution of said quota.

Order. Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, § 814.30 is hereby revised as follows:

§ 814.30 *Allotment of the 1954 sugar quota for domestic beet sugar area*—(a) *Allotments.* The 1954 sugar quota for the domestic beet sugar area is hereby allotted to the following persons in the amounts which appear opposite their respective names:

Processors	Allotment: Short tons raw value (1)	Allotment: 100-pound bags beet sugar (2)
Amalgamated Sugar Co., The	220,963	4,288,752
American Crystal Sugar Co.	239,756	4,481,420
Buckeye Sugar Co., The	6,634	124,000
Franklin County Sugar Co.	10,224	191,112
Garden City Co., The	5,767	107,764
Great Lakes Sugar Co.	21,440	400,757
Great Western Sugar Co., The	454,788	8,500,907
Gunnison Sugar, Inc.	12,158	227,243
Holly Sugar Corp.	277,594	5,188,673
Lake Shore Sugar Co.	9,748	182,196
Layton Sugar Co.	6,166	115,292
Menominee Sugar Co.	5,688	106,318
Michigan Sugar Co.	64,989	1,214,757
Monitor Sugar Division of Robert Gage Coal Co.	20,917	390,963
National Sugar Manufacturing Co., The	7,556	141,227
Spreckels Sugar Co.	189,610	3,544,112
Superior Sugar Refining Co.	7,601	142,058
Union Sugar Division of Consolidated Grocers Corp.	70,290	1,313,832
Utah-Idaho Sugar Co.	159,241	2,976,467
Total	1,800,000	33,644,860

(b) *Proration of area or processor deficits.* The allotments provided for in paragraph (a) of this section shall be revised by the Secretary for the purpose of allotting any additional quota resulting from proration of area deficits or any deficit in the allotment for any allottee by allotting any such additional quota or deficit to processors, who are able to supply the additional sugar, in the proportion that the respective allotments of such processors as set forth in paragraph (a) of this section bear to the total of the allotments of such processors as set forth in said paragraph (a).

(c) *Restrictions on shipment and marketings.* Each person named in paragraph (a) of this section is hereby prohibited from shipping, transporting or marketing in interstate commerce or in competition with sugar or liquid sugar in interstate commerce, any sugar or liquid sugar produced from sugar beets grown in the domestic beet sugar area in excess of the allotments established in this section.

In view of the limited time remaining in the quota year to which the allotments apply and the fact that all of said allottees under said sugar regulation have agreed to the allotments to them as set forth in this order, it is imperative that this order become effective at the earliest possible date in order to permit continued orderly marketing of sugar. Accordingly, it is hereby found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237) is impracticable and contrary to the public interest and, consequently, this order shall be effective when published in the FEDERAL REGISTER.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153. Interprets or applies sec. 205, 61 Stat. 926; 7 U. S. C. Sup. 1115)

Done at Washington, D. C., this 27th day of August 1954.

Witness my hand and the seal of the Department of Agriculture.

[SEAL] THOMAS J. FLAVIN,
Judicial Officer.

[F. R. Doc. 54-6882; Filed, Aug. 31, 1954; 8:51 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 907—MILK IN THE MILWAUKEE, WISCONSIN, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 907.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making this order amending the order, as amended, effective on and after September 1, 1954. This action is necessary in the public interest in order to reflect the current marketing conditions and to facilitate the orderly marketing of milk produced for the Milwaukee, Wisconsin, marketing area. Any delay beyond September 1, 1954, in the effective date of this order amending the order, as amended, will tend to impair the orderly marketing of milk produced for the Milwaukee, Wisconsin, marketing area. The changes effected by this order amending the order, as amended, do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing, it is hereby found that good cause exists for making this order amending the order, as amended, effective September 1, 1954 (see sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1003 (c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the Milwaukee, Wisconsin, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of the producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Milwaukee, Wisconsin, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In the proviso in § 907.51 (a), delete the word "August" and substitute the word "November."

2. Delete § 907.51 (b) and substitute therefor the following:

(b) The price for Class II milk shall be the basic formula price plus the following amounts as indicated: May and June, $0.40; July through November, inclusive, $0.70; all other months, $0.50, *Provided*, That for the months of September, October, and November, 1954, $0.50 shall be used in lieu of $0.70 as indicated above: *And provided further*, That such Class II price differentials shall be adjusted by the amount of any adjustment made in the Class I price differential for the same month pursuant to the proviso of paragraph (a) of this section.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 26th day of August to be effective on and after the 1st day of September 1954.

[SEAL] J. EARL COKE,
Acting Secretary.

[F. R. Doc. 54-6855: Filed, Aug. 31, 1954; 8:45 a. m.]

PART 909—ALMONDS GROWN IN CALIFORNIA

SALABLE AND SURPLUS PERCENTAGES

Notice of proposed rule making with respect to the fixing of salable and surplus percentages of almonds for the crop year beginning July 1, 1954, was published in the FEDERAL REGISTER of August 10, 1954 (19 F. R. 5020), pursuant to the provisions of Marketing Agreement No. 119 and Order No. 9 regulating the handling of almonds grown in California (7 CFR, 1953 Rev., Part 909), effective under the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C., 601 et seq.). In said notice, in which it was proposed to fix the salable and surplus percentages of almonds at 70 percent and 30 percent, respectively, for the crop year beginning July 1, 1954, opportunity was afforded interested persons to submit to the Department written data, views, or arguments for consideration prior to issuance of the final rule fixing the percentages.

Four communications objecting to the proposed percentages were received. They did not contain specific data as to changes which should be made in estimates used in arriving at the proposed percentages. The views submitted would not justify changing the proposed rule.

It is hereby found and determined that good cause exists for making this administrative rule effective upon its publication in the FEDERAL REGISTER, instead of waiting 30 days after publication, for the reasons that (1) it is desirable that the percentages be fixed prior to or as soon as practicable after growers begin to deliver 1954 crop almonds to handlers, (2) such deliveries of 1954 crop almonds are about to begin, and (3) compliance with this administrative rule will not require handlers to make any advance preparation of a special nature.

Therefore, after consideration of all relevant matters, the administrative rule is as follows:

§ 909.204 *Salable and surplus percentages for almonds during the crop year beginning July 1, 1954.* The salable and surplus percentages during the crop year beginning July 1, 1954, applicable to almonds, edible kernel weight basis, received by handlers for their own accounts, shall be 70 percent and 30 percent respectively.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 26th day of August 1954, to become effective upon publication of this document in the FEDERAL REGISTER.

[SEAL] FLOYD F. HEDLUND,
Acting Director,
Fruit and Vegetable Division.

[F. R. Doc. 54-6875: Filed, Aug. 31, 1954; 8:49 a. m.]

PART 967—MILK IN THE SOUTH BEND-LA PORTE, INDIANA, MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 967.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the South Bend-La Porte, Indiana, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than September 1, 1954. Any delay beyond September 1, 1954, in the effective date of this order amending the order, as amended, will tend to disrupt the orderly marketing of milk for the South Bend-La Porte, Indiana, marketing area. The changes effected by this order amending the order, as amended, do not require of persons affected substantial or extensive preparation prior to the effective date. In view of the foregoing, it is hereby found that good cause exists for making this order effective September 1, 1954 (sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1003 (c)).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the South Bend-LaPorte, Indiana, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1954), were engaged in the production of milk for sale in the said marketing area; and

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the South Bend-La Porte, Indiana, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Insert as § 967.15 the following:

§ 967.15 *Base, base milk and excess milk*—(a) *Base.* "Base" means a quantity of milk expressed in pounds per day computed pursuant to § 967.63.

(b) *Base milk.* "Base milk" means a quantity of producer milk received by a handler during each of the months of April, May, June, and July which is not

in excess of such producer's base multiplied by the number of days such milk was produced.

(c) *Excess milk.* "Excess milk" means producer milk received by a handler during each of the months of April, May, June, and July which is in excess of the base milk received from such producer.

2. In § 967.30 (a) add the following: "and (4) for the delivery periods of April through July, the total amount of base milk and the total amount of excess milk received from producers;".

3. In § 967.31 (b) change the period at the end of the sentence to a semicolon and add the following: "and (4) for the delivery periods of September through December, the number of days on which milk was received from each producer, and for the delivery periods of April through July, for each producer the number of days on which milk was received and the amount of base milk and excess milk."

4. In the proviso of § 967.51 (a) delete the word "August" and substitute the word "November".

5. Insert as § 967.63 the following:

§ 967.63 *Computation of base.* Subject to the conditions set forth in § 967.64, the market administrator shall compute for each of the months of April, May, June, and July a base for each producer, as follows:

(a) Divide the total pounds of milk received by a handler from each producer during the months of September, October, November and December immediately preceding, by the number of days such milk was produced (not to be less than 90 days): *Provided*, That any producer for whom a base has been computed, may, upon written notice to the market administrator postmarked not later than January 31 preceding relinquish his base and be allotted a base computed pursuant to paragraph (b) of this section.

(b) Any producer who has not established a base or who elects to relinquish his base pursuant to the provisions of paragraph (a) of this section shall be assigned a base for each of the months of April, May, June, and July computed as follows:

(1) From the total quantity of producer milk received by handlers during the same month of the previous year, subtract the total receipts from producers who did not establish bases or who had relinquished their bases.

(2) Determine the percentage that base milk was of the remaining pounds, and subtract 10, except that for the months of April, May, June and July 1955 the percentages computed pursuant to this subparagraph shall be as follows:

Month:	Percentage
April 1955	70
May 1955	60
June 1955	60
July 1955	65

(3) Multiply the resulting percentage by the total pounds of milk received by a handler from the producer during the applicable month and divide the result by the number of days such milk was produced.

6. Insert as § 967.64 the following:

§ 967.64 *Base rules.* Any base computed pursuant to § 967.63 (a) shall be subject to the following rules:

(a) A base shall be held in the name of the producer and may be transferred only at his option.

(b) The milk to which the transferred base shall apply must be produced on the same farm from which such base was earned, and the transferor must notify the market administrator in writing on or before the last day of the month that such base is to be transferred indicating the name of the transferee, the amount of base transferred, and the effective date of the transfer; and in the event of a producer's death his base may be so transferred upon written notice to the market administrator from any member of the producer's immediate family.

(c) If a producer operates more than one farm he must establish a base with respect to the milk from each farm, and in the event such producer chooses to relinquish the base earned for one farm he must do so for all farms.

7. In § 967.22 delete the last word, "and" from paragraph (i) (2); change the period at the end of paragraph (j) to a semicolon, and add the word "and"; and add paragraph (k) as follows:

(k) On or before April 1 each year notify each producer of the amount of his base, and notify each handler of the amount of the base of each producer delivering milk to any of the handler's plants.

8. In § 967.71 delete paragraphs (d) and (e) and insert a new paragraph (d) as follows:

(d) For the delivery periods of August through March compute the uniform price by dividing the result computed pursuant to paragraph (c) of this section by the hundredweight of producer milk included in the computations pursuant to paragraph (a) of this section, and subtract not less than 4 cents nor more than 5 cents (adjusting to the nearest one-tenth cent).

9. In § 967.71 insert a new paragraph (e) as follows:

(e) For each of the delivery periods of April through July the market administrator shall compute uniform prices per hundredweight for base milk and for excess milk, each of 3.5 percent butterfat content, received from producers as follows:

(1) Compute the total value on a 3.5 percent butterfat basis of excess milk included in the computations pursuant to paragraph (a) of this section by multiplying the hundredweight of such excess milk not in excess of the total quantity of Class II milk included in these computations by the price for Class II milk of 3.5 percent butterfat content, and multiplying the hundredweight of such excess milk in excess of such Class II milk by the price for Class I milk of 3.5 percent butterfat content, and adding together the resulting amounts.

(2) Compute the uniform price for excess milk of 3.5 percent butterfat content by dividing the total value of excess milk obtained in subparagraph (1) of this paragraph by the total hundredweight of such milk, and adjusting to the nearest cent;

(3) Multiply the hundredweight of excess milk included in the computations pursuant to subparagraph (2) of this paragraph by the uniform price for excess milk computed pursuant to said subparagraph (2);

(4) Subtract the value computed pursuant to subparagraph (3) of this paragraph from the value computed pursuant to paragraph (c) of this section and divide the result by the total hundredweight of base milk included in these computations;

(5) Compute the uniform price for base milk of 3.5 percent butterfat content by subtracting not less than 4 cents nor more than 5 cents from the result computed pursuant to subparagraph (4) of this paragraph.

10. Delete § 967.80 (a) and substitute:

(a) On or before the 18th day after the end of each delivery period, to each producer, except producers for whom payment is made to a cooperative association pursuant to paragraph (b) of this section, at not less than the uniform price for the delivery periods of August through March and the uniform prices for base milk and excess milk for the delivery periods of April through July calculated pursuant to § 967.71 and adjusted by the producer butterfat differential pursuant to § 967.81 for all milk received from such producer during such delivery period and less payment to such producer made pursuant to paragraph (c) of this section: *Provided*, That if by such date such handler has not received full payment for such delivery period pursuant to § 967.84, he may reduce such payments uniformly per hundredweight for all producers by an amount not in excess of the per hundredweight reduction in payment from the market administrator: *And provided further*, That such handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

11. Delete § 967.80 (c) and substitute the following:

(c) On or before the 4th day after the end of each delivery period, each handler shall pay to each producer, or to a cooperative association authorized to collect payment, a payment which for the delivery periods of September through April shall be at not less than the uniform price announced by the market administrator for the preceding delivery period, and for the delivery periods of May through August at not less than the uniform price announced by the market administrator for base milk for the preceding delivery period such payment to be for milk received from such producer or caused to be delivered to such handler by such cooperative association during the first 15 days of such delivery period: *Provided*, That in the event any producer or cooperative association discontinues shipping to such handler during any

delivery period, such partial payments shall not be made and full payment for all milk received from such producer or cooperative association during such delivery period shall be made on the 18th day after the end of such delivery period pursuant to paragraphs (a) and (b) of this section.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 26th day of August 1954 to be effective on and after the 1st day of September 1954.

[SEAL] J. EARL COKE,
Acting Secretary.

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

[ACP-1954, Supp. 11]

PART 1101—NATIONAL AGRICULTURAL CONSERVATION

SUBPART—1954

MISCELLANEOUS AMENDMENTS

Pursuant to the authority vested in the Secretary of Agriculture under sections 7-17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture Appropriation Act, 1954, the 1954 National Agricultural Conservation Program, approved August 3, 1953 (18 F. R. 4643), as amended August 3, 1953 (18 F. R. 4761), November 4, 1953 (18 F. R. 7024), January 6, 1954 (19 F. R. 160), February 15, 1954 (19 F. R. 972), March 3, 1954 (19 F. R. 1267), March 22, 1954 (19 F. R. 1639), March 26, 1954 (19 F. R. 1791), May 14, 1954 (19 F. R. 2894), June 17, 1954 (19 F. R. 3793), and July 8, 1954 (19 F. R. 4298), is further amended as follows:

1. Section 1101.515 is amended by adding paragraph (i) as follows:

§ 1101.515 *Conservation practices and maximum rates of cost-sharing.* • • •

(i) Notwithstanding other provisions of this subpart, costs may be shared for the practices contained in §§ 1101.516 to 1101.519, 1101.526, 1101.527, 1101.539, 1101.540, and 1101.558 to 1101.561 for the performance actually rendered even though the minimum requirements with regard to the rate of seeding or the application of liming materials or commercial fertilizers are not met, if the farmer establishes to the satisfaction of the county committee and the State committee or its designee (1) that he made every reasonable effort to meet the minimum requirements, and (2) that the practice as performed adequately meets the conservation problem.

2. Section 1101.561 is amended to read as follows:

§ 1101.561 *Practice D-4: Establishment of a vegetative cover in the fall of 1954 to protect cropland which will be shifted from crop production in 1955.* Eligible seedings may consist of grasses, legumes, or small grains. This practice is applicable only to cropland which will be shifted for the entire 1955 crop year from crop production. Pasturing consistent with good management may be permitted. Cost-shares paid under this practice shall be refunded if the land is not devoted throughout the 1955 crop year to green manure or cover crops, except in areas where it is determined by the State committee that lack of moisture makes it impracticable to obtain additional green manure or cover crops in 1955 on the same land. No crop may be harvested for seed in 1955. No crop may be harvested for hay in 1955, except in areas where the State committee determines that a serious shortage of forage exists due to drought.

Maximum Federal cost-share. 50 percent of the average cost of establishing the vegetative cover, including seedbed preparation, plus 50 percent of the average cost of the minimum required application of approved liming materials and commercial fertilizers for establishment of the cover.

3. Section 1101.580 is amended to read as follows:

§ 1101.580 *Cost to farmer or rancher.* The farmer or rancher will pay that part of the cost of the material or service, as established under instructions issued by the Administrator, ACPS, which is in excess of the Federal cost-share attributable to the use of the material or service or, upon request by the farmer or rancher and approval by the county committee, the farmer or rancher will pay that part of the cost of the material or service which is in excess of the farmer's or rancher's Federal cost-share for all components of the practice which will likely be completed during the program year. The Federal cost-share increase on the amount of the Federal cost-share so determined may be advanced as a credit against that part of the cost of the material or service required to be paid by the farmer or rancher.

4. Section 1101.581 (a) is amended to read as follows:

§ 1101.581 *Discharge of responsibility for materials and services.* (a) The person to whom a material or service is furnished under the 1954 program will be relieved of responsibility for the material or service upon determination by the county committee that the material or service was used for the purpose for which it was furnished and that any other components of the practice, on which the amount of the Federal cost-share advance toward the cost of the material or service was determined, have been carried out in accordance with all applicable specifications and program provisions. If the person uses any material or service for any purpose other than that for which it was furnished, he shall be indebted to the Federal Government for that part of the cost of the material or service borne by the Federal Government and shall pay such amount to the Treasurer of the United States direct or by withholdings from Federal cost-shares otherwise due him under the program.

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interpret or apply secs. 7-17, 49 Stat. 1148, as amended, 67 Stat. 205; 16 U. S. C. 590g-590q)

Done at Washington, D. C., this 26th day of August 1954.

[SEAL] J. EARL COKE,
Acting Secretary of Agriculture.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6160]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

TOPCO ASSOCIATES, INC.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment or acceptance of commission, brokerage or other compensation under 2 (c): § 3.800 *Buyers' agents;* § 3.820 *Direct buyers.* In connection with the purchase of food products or any other merchandise in interstate commerce, receiving or accepting from any seller, directly or indirectly, anything of value as a commission, brokerage, or other compensation, reflected in a lower price, or otherwise, or any allowance, or discount in lieu thereof, on or in connection with purchases made for respondent's own account or for the account of any of its members, or while acting for or in behalf of a purchaser as an intermediate agent, or subject to the direct or indirect control of such purchaser; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Topco Associates, Inc., Chicago, Ill., Docket 6160, Aug. 17, 1954]

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission, which charged respondent with violating the provisions of subsection (c) of section 2 of the Clayton Act, as amended, through accepting unlawfully commissions or brokerage in connection with its purchases, and upon an agreement of counsel and stipulation for consent order submitted pursuant thereto.

By the terms of said stipulation, respondent admitted all the jurisdictional allegations set forth in the complaint and stipulated that the record in the instant matter might be taken as if the Commission had made findings on the jurisdictional facts in accordance with such allegations; waived the filing of an answer to the complaint and all further procedure before the hearing examiner and the Commission; and agreed that the order to be entered should have the same force and effect as if made after full hearing, presentation of evidence, and findings and conclusions thereon, and specifically waived all right, power, or privilege to contest the validity of said order.

Said stipulation recited that it was executed for settlement purposes only; that its execution did not constitute an admission by respondent of the violation of law alleged in the complaint; that said complaint might be used in construing the terms of the order in the matter; that said order might hereafter be altered, modified, or set aside in the manner prescribed by law; and that said stipulation for consent order, together with the complaint, should constitute the entire record of the instant proceeding, and that the order contained therein might be entered upon the record, in disposition of the proceeding, without further notice.

Thereafter said examiner, having concluded, in view of the provisions of said stipulation, that the order contained therein would resolve all the issues arising by reason of the complaint in the proceeding and would safeguard the public interest to the same extent as could be accomplished by full hearing and other adjudicative procedure waived in said stipulation, made his initial decision setting forth the aforesaid matters and, in consonance with the terms of said agreement, accepting the stipulation for consent order submitted in the matter, and issuing the order therein contained.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on August 17, 1954.

Said order is as follows:

It is ordered, That the respondent, Topco Associates, Inc., a corporation, and its officers, directors, associates or employees, directly or through any corporate or any other device, in connection with the purchase of food products or any other merchandise in interstate commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from: Receiving or accepting from any seller, directly or indirectly, anything of value as a commission, brokerage, or other compensation, reflected in a lower price, or otherwise, or any allowance, or discount in lieu thereof, on or in connection with purchases made for respondent's own account or for the account of any of its members, or while acting for or in behalf of a purchaser as an intermediate agent, or subject to the direct or indirect control of such purchaser.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of notification that this order has become the decision of the Commission, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6160, August 17, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That respondent Topco Associates, Inc., a corporation, shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: August 17, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 6097]

[Regs. 4]

PART 183—PRODUCTION OF DISTILLED SPIRITS

[Regs. 5]

PART 184—PRODUCTION OF BRANDY

[Regs. 10]

PART 185—WAREHOUSING OF DISTILLED SPIRITS

[Regs. 11]

PART 189—BOTTLING OF TAX-PAID DISTILLED SPIRITS

[Regs. 15]

PART 190—RECTIFICATION OF SPIRITS AND WINES

SUPERVISION OF ACTIVITIES, RESPONSIBILITY FOR OPERATIONS AND PREPARATION OF VARIOUS RECORDS AT RECTIFYING PLANTS AND TAX-PAID BOTTLING HOUSES

On July 28, 1954, notice of proposed rule-making with respect to amendments to Regulations 4 (26 CFR Part 183), Regulations 5 (26 CFR Part 184), Regulations 10 (26 CFR Part 185), Regulations 11 (26 CFR Part 189), and Regulations 15 (26 CFR Part 190), (a) to eliminate from the regulations the requirements for Government locks and seals on various tanks and pipe lines, (b) to permit proprietors to give notice of their intention to dump spirits for rectification or for bottling, in lieu of filing an application for such authority, (c) to modify the requirements to permit the dumping of spirits, certain acts of rectification, bottling, packaging, stamping, labeling and marking containers in the absence of Government officers, (d) to transfer to proprietors the custody of and accountability for red strip stamps, (e) to permit the bulk gauging of distilled spirits dumped for rectification, (f) to revise the requirements for maintenance and disposition of reports covering transfers of spirits, (g) to modify the requirement for the verification of labeling and proof of finished products, (h) to provide for the alternate use of tanks in rectifying plants either as dumping and reducing tanks or as processing tanks, (i) to liberalize the requirements governing rectification under trade names, (j) to waive the requirement for Government locks on outside doors of tax-paid bottling houses in instances where such bottling houses are in buildings which are separate and apart from any other building used in connection with the internal revenue bonded warehouse, and (k) to correct an inconsistency between §§ 190.575 and 190.589 on one side and §§ 190.691 and 190.693 on the other and to conform all four sections to the reorganization procedures, was published in the FEDERAL REGISTER (19 F. R. 4639). No comments having been received during the 15-day period prescribed in such notice, the following amendments are hereby adopted:

PARAGRAPH 1. Wherever the term "supervisor", "district supervisor" or "Assistant District Commissioner" appears in the sections of the regulations revised by this Treasury decision, such term is hereby amended to read "Assistant Regional Commissioner". Similarly, the term "collector" or "director" is hereby amended to read "District Director of Internal Revenue". "Assistant Regional Commissioner" means the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to, and functions under the direction and supervision of, the Regional Commissioner.

PAR. 2. Regulations 4 (26 CFR Part 183) are amended as follows:

(A) Section 183.552, as amended by Treasury Decision 5919, approved July 16, 1952, is further amended by striking out the words "proprietor of" in the last sentence and inserting in lieu thereof the words "storekeeper-gauger in".

(B) Section 183.553, as amended by Treasury Decision 5919, is further amended by striking out the word "vendee" in the last sentence and inserting in lieu thereof the words "storekeeper-gauger at the vendee premises".

(C) Section 183.554k, as added by Treasury Decision 5919, is amended as follows:

(1) By striking out the word "vendee" in the third sentence which begins "The distiller" and inserting in lieu thereof the words "storekeeper-gauger at the vendee premises".

(2) By striking out the words "supervisory district" in the last sentence and inserting in lieu thereof the word "region".

(3) By striking out the word "district" in the last sentence and inserting in lieu thereof the word "region".

PAR. 3. Regulations 5 (26 CFR Part 184) are amended as follows:

(A) Section 184.593, as amended by Treasury Decision 5919, is further amended by striking out the words "proprietor of" in the last sentence and inserting in lieu thereof the words "storekeeper-gauger at".

(B) Section 184.594, as amended by Treasury Decision 5919, is further amended by striking out the word "vendee" in the eighth sentence which begins "The distiller" and inserting in lieu thereof the words "storekeeper-gauger at the vendee premises".

(C) Section 184.594k, as added by Treasury Decision 5919, is amended as follows:

(1) By striking out the word "vendee" in the third sentence which begins "The distiller" and inserting in lieu thereof the words "storekeeper-gauger at the vendee premises".

(2) By striking out the words "supervisory district" in the last sentence and inserting in lieu thereof the word "region".

(3) By striking out the word "district" in the last sentence and inserting in lieu thereof the word "region".

PAR. 4. Regulations 10 (26 CFR Part 185) are amended as follows:

(A) Section 185.272, as amended by Treasury Decision 6050, approved November 6, 1953, is amended as follows: (1) By striking out the final period of paragraph (c) and adding "*Provided*, That such requirement may be waived in instances where the bottling house is located in a building which is separate and apart from any other building used in connection with the internal revenue bonded warehouse".

(B) Section 185.626, as amended by Treasury Decision 5919, is further amended by striking out the word "vendee" in the fourth sentence which begins "If the spirits" and inserting in lieu thereof the words "storekeeper-gauger at the vendee premises".

(C) Section 185.635 is amended by striking out the period at the end of the last sentence and adding ": *Provided*, That where liquors are to be consigned to tax-paid bottling houses or rectifying plants the warehouseman will forward one copy of Form 92 to the storekeeper-gauger at the vendee premises who will deliver such copy to the vendee".

(D) Section 185.657, as amended by Treasury Decision 5919, is further amended as follows:

(1) By striking out the word "vendee" in the second sentence which begins "The storekeeper-gauger" and inserting in lieu thereof the words "storekeeper-gauger at the vendee premises".

(2) By striking out the words "supervisory district" in the last sentence and inserting in lieu thereof the word "region".

(3) By striking out the word "district" in the last sentence and inserting in lieu thereof the word "region".

PAR. 5. Regulations 11 (26 CFR Part 189) are amended as follows:

(A) Section 189.45 is amended by striking out the words "and stamps" in the second sentence which begins "There shall also".

(B) Section 189.58 is amended by striking out the fifth and sixth sentences, which begin "Stopcocks must be" and "Manheads, inlets, and", respectively, and inserting in lieu thereof the following sentences: "Stopcocks must be provided and so arranged as to control completely the flow of spirits into the tank: *Provided*, That where spirits are received by pipe line from contiguous premises and the pipe line is equipped with a valve in the contiguous premises, which may be locked with a Government lock, the inlet valve in the receiving tax-paid bottling house is not required to be locked. Manheads and inlets of the storage tank must be provided with facilities for locking with Government locks. However, storage tanks to be used exclusively for the storage of wine and labeled 'Wine Storage Tank' need not be secured as provided by this section. A closed manifold system, not equipped for locking with Government locks, may be installed which will permit the transfer of spirits between storage tanks."

(C) Section 189.60 is amended by striking out the words "closed and secured by a Government lock or seal" in the fourth sentence which begins "Each bottling tank" and inserting in lieu thereof the words "provided with facilities for closing which may be secured by a Government lock or otherwise fastened and sealed".

(D) Section 189.61 is amended by striking from the last sentence the words "and such outlet is equipped for locking with a Government lock when not in use".

(E) Section 189.62 is amended as follows:

(1) By striking out the second sentence which begins "Such tank must".

(2) By striking from the third sentence which begins "The capacity of" the phrase ", and the manheads, if any, shall be equipped for locking with a Government lock".

(F) Section 189.63 is amended by striking out the last sentence.

(G) Section 189.65 is amended by striking out the third sentence which begins "Where distilled water".

(H) Section 189.66 is amended as follows:

(1) By striking out the period at the end of the fifth sentence which begins "Such pipe lines" and adding ": *Provided*, That where the pipe line leading from the contiguous premises is equipped with a valve on such contiguous premises which may be locked with a Government lock, so as to control the flow of spirits, such valve in the receiving tax-paid bottling house is not required".

(2) By striking out the sixth sentence which begins "If detachable hose".

(3) By amending the seventh sentence which begins "Filters may be" to read: "Filters may be installed in such pipe lines connected with bottling tanks."

(I) Section 189.155 is amended to read as follows:

§ 189.155 *Restrictions.* No operations pertaining to transferring of spirits by pipeline from adjoining premises or from tank cars or tank trucks to storage or bottling tanks or other operations required by this part to be conducted under the supervision of a Government officer shall be carried on at a tax-paid bottling house during other than regular business hours, unless special permission (including provision for supervision) is first obtained therefor from the Assistant Regional Commissioner. Operations which may be conducted in the absence of the Government officer may not however be carried on at a tax-paid bottling house during other than regular business hours unless notice of such operations is first given, in writing, to the storekeeper-gauger.

(J) Section 189.156 is amended as follows:

(1) By inserting in the first sentence after the words "restrict operations" the following words "requiring the supervision of a Government officer".

(2) By striking out the last sentence and inserting in lieu thereof the following sentences: "Where bona fide emergencies exist, Assistant Regional Commissioners will assign officers to duty outside of regular hours only after thorough investigation of the facts in each case and only in the event the necessary personnel can be assigned without undue interference with other activities. Where the proprietor needs to dump, filter or bottle spirits or perform such other operations which may be conducted in the absence of a Government officer, after regular hours, he shall first give notice thereof, in writing, to the storekeeper-gauger. The storekeeper-gauger shall forward a copy of the notice to the Assistant Regional Commissioner."

(K) Section 189.166 is amended as follows:

(1) By striking out the second sentence which begins "When spirits are received in a railroad tank car" and inserting in lieu thereof the following sentence: "When spirits are received in a railroad tank car, in a tank truck, or by pipeline, they must be transferred or conveyed into storage tanks or into bottling tanks: *Provided*, That such transfers of distilled spirits must be under the supervision of a Government officer in order that he may determine that only lawful tax-paid spirits are received."

(2) By striking from the third sentence which begins "When spirits are transferred" the words "or out of".

(3) By striking out the fourth sentence which begins "The Government officer" and inserting in lieu thereof the following sentence: "Upon completion of the transfer of the spirits to storage or bottling tanks, the report of gauge, Forms 92, 1440 or 1520, as the case may be, delivered to the storekeeper-gauger from the consignor premises, shall be delivered by him to the proprietor."

(L) Section 189.170 is amended by striking out the first sentence and inserting in lieu thereof the following sentence: "When spirits received in a railroad tank car, in a tank truck, or by a pipeline are run into a storage tank, the report of gauge, Form 1520, in the case of distilled spirits other than alcohol, and Form 1440 in the case of alcohol, delivered to the proprietor of the tax-paid bottling house by the storekeeper-gauger, or Form 703–A in the case of wine, delivered by the shipper, shall be attached to such storage tank."

(M) Section 189.185 is amended as follows:

(1) By amending the heading thereof to read "*Notice, Form 230*".

(2) By striking from the first sentence the words "execute application" and inserting in lieu thereof the words "give notice".

(3) By inserting after the first sentence the following new sentence: "A copy of the label which is to be affixed to the bottles of such spirits shall be attached to each copy of Form 230."

(4) By striking out the seventh sentence which begins "The proof in".

(N) Section 189.191 is revoked.

(O) Section 189.192 and heading are amended to read as follows:

§ 189.192 *Submission to officer.* After preparation of the notice the proprietor will place the original of Form 230 on the storekeeper-gauger's desk and thereupon will proceed with the bottling. Where packages of spirits are to be dumped for bottling, or where spirits are received by pipeline from contiguous premises (other than rectifying plants) and are conveyed directly into bottling tanks, the withdrawal gauge, Forms 703–A, 1440, or 1520, will be submitted with the original of Form 230. Where spirits are received by pipeline from contiguous rectifying plants, the serial number of the copy of Form 230, or Form 237, received from the rectifier will be noted by the proprietor on Form 230 prepared by him. The storekeeper-gauger will return the Form 230 to the proprietor after noting the operation covered thereby.

(P) Section 189.193 is revoked.

(Q) Section 189.194 is amended by striking out the words "approval of Form 230 by the storekeeper-gauger, as provided in § 189.192" and inserting in lieu thereof the words "placing the original of Form 230 on the storekeeper-gauger's desk".

(R) Section 189.195 is amended by striking out the phrase ", and before they are released by the Government officer for bottling,".

(S) Section 189.206 is amended by striking out the last sentence and inserting in lieu thereof the following sentence: "Upon completion of the bottling the bottler will remove Form 230 from the bottling tank and complete the execution of his certificate on all copies."

(T) Section 189.213 is amended by striking out the seventh sentence which begins "Such rebottling" and inserting in lieu thereof the sentence "Such rebottling, relabeling, and restamping operations may be performed in the absence of the Government officer".

(U) Section 189.229 is amended by striking out the last four sentences and inserting in lieu thereof the following sentences: "The District Director of Internal Revenue will enter the serial numbers of the stamps issued and stamp the date of sale on all copies of Form 428, and will retain one copy and send the original to the Assistant Regional Commissioner and one copy to the proprietor. The District Director of Internal Revenue will forward the stamps to the proprietor. The proprietor will deliver the stamps and corresponding Form 428 to the Government officer for verification of receipt. Upon such verification the proprietor will enter receipt of the stamps on Form 182."

(V) Section 189.230 is amended as follows:

(1) By striking from the first sentence the words "Government officer" and inserting in lieu thereof the word "proprietor".

(2) By striking from the last sentence the words "for immediate delivery to the Government officer in accordance with § 189.229".

(W) Sections 189.231 and 189.232 are revoked.

(X) Section 189.233 is amended to read as follows:

§ 189.233 *Requisitions to be filed.* Proprietors will retain copies of Form 428 returned by the District Director of Internal Revenue at the plant as a record available for inspection by Government officers and will file them in chronological order.

(Y) Section 189.234 and heading are amended to read as follows:

§ 189.234 *Proprietor's responsibility.* Proprietors will be held strictly responsible for the proper control and accounting of all stamps received, used, and on hand. They shall be held responsible for the proper affixing of the stamps to bottles of tax-paid spirits and for making a proper accounting for all stamps reported mutilated.

(Z) Section 189.235 is revoked.

(AA) Section 189.240 is amended by striking out the last sentence and inserting in lieu thereof the following sentences: "Unless eligible and intended for exchange or refund as provided in § 189.241, red strip stamps that have been mutilated should be destroyed by the proprietor under the supervision of the Government officer. The proprietor will then enter appropriate credit on Form 182 for the number of each denomination of stamps so destroyed."

(BB) Sections 189.242 and 189.243 are revoked.

(CC) There is inserted immediately following § 189.256 the following new section:

§ 189.256a *Samples.* Government officers assigned to tax-paid bottling houses will secure samples of finished labeled products from the bottling line at irregular intervals for submission to the Government chemist.

(DD) Sections 189.257 and 189.258 are revoked.

(EE) Section 189.259 is amended as follows:

(1) By striking out the first sentence and inserting in lieu thereof the following sentence: "Government officers assigned to tax-paid bottling houses will, at irregular intervals during the process of bottling, test and examine the bottled spirits to determine whether the label attached is identical with the label affixed to Form 230 attached to the bottling tank and with the certificate of label approval or label exemption; whether the bottled spirits agree in proof with the data on the label; and whether the quantity agrees with the data on the label, stamp or bottle, subject to the limitation prescribed by § 189.209."

(2) By striking from the fifth sentence which begins "If the contents" the words "withhold the release of the bottled spirits and".

(FF) Section 189.261 is amended to read as follows:

§ 189.261 *Proprietor's responsibility.* Full responsibility rests upon the proprietor to see that the labeling of all spirits bottled at his plant is in conformity with requirements of Regulations 4 and 5 (27 CFR Parts 4 and 5) issued pursuant to the Federal Alcohol Administration Act, and Regulations 13 (26 CFR Part 175).

(Sec. 5, 49 Stat. 981, as amended, 53 Stat. 331; 27 U. S. C. 205; 26 U. S. C. 2871)

(GG) The headnote to Subpart X is amended to read as follows: "Subpart X—Safeguarding of Government Property".

(HH) Section 189.290 is amended to read as follows:

§ 189.290 *Storage in Government room, vault or cabinet.* The seals, and the records and other Government property when not in use, shall be kept in a securely constructed Government room, vault or cabinet, which shall be locked with a Government seal lock, the key to which shall remain at all times in the possession of the storekeeper-gauger.

(II) There is inserted immediately following § 189.302 the following new sections:

§ 189.302a *Record, Part 1, Form 182.* Every proprietor who has in his possession red strip stamps will keep a record of such stamps received and used on Part 1 of Form 182. Entries will be made on Form 182 daily, as indicated by the headings of the various columns and lines on the form, and in accordance with the instructions printed thereon or issued in respect thereto, and as required by this part. The record will be kept in bound form, available for inspection by Government officers.

§ 189.302b *Monthly report, Part 2, Form 182.* The proprietor shall prepare a monthly summary report on Part 2 of Form 182, in duplicate. He shall deliver Part 2 of Form 182 to the Government officer for verification of the monthly inventories of stamps on hand. After such verification the Government officer will return both copies to the proprietor who will, on or before the 5th day of the month succeeding the month in which the transactions occurred, forward the original to the Assistant Regional Commissioner, and retain the remaining copy, available for inspection by Government officers.

(JJ) Section 189.305 is amended by inserting in the first sentence after the phrase "(and Record 52 and Form 52–F if required)" the words "and Form 182".

(KK) Subpart Z is revoked.

(LL) Section 189.335 is amended as follows:

(1) By striking from the second sentence which begins "Where the proprietor" the words "his application to dump and bottle,".

(2) By striking from the last sentence the words "Upon approval of the form in the usual manner, he may" and inserting in lieu thereof the words "He may".

(MM) Section 189.336 is amended by striking from the last sentence the phrase ", submit them to the storekeeper-gauger for verification,".

(NN) Section 189.337 is amended as follows:

(1) By inserting after the words "on Form 52–D" in the two places in which they appear in the first sentence the words "and Form 182".

(2) By striking out the last sentence.

(OO) Section 189.346 is amended by striking from the third sentence which begins "Upon completion" the phrase ", submit them to the storekeeper-gauger for verification,".

(PP) Section 189.347 is amended as follows:

(1) By striking from the last sentence the words "in the custody of the storekeeper-gauger".

(2) By adding at the end thereof the following new sentence: "The proprietor will submit a monthly report on Part 2 of Form 182 of such stamps."

(QQ) Section 189.357 is amended to read as follows:

§ 189.357 *Disposition of strip stamps.* All unused red strip stamps, if any, belonging to the proprietor at the time of permanent discontinuance of business will be inventoried by denomination, serial number, and quantity, and the inventory will be verified by the storekeeper-gauger or other officer designated by the Assistant Regional Commissioner to perform such duty. The value of the stamps, if in quantities of the value of $5 or more, may be refunded, provided that a claim for such refund on Form 843, establishing the lawful issuance and ownership of the stamps, is filed by the proprietor with the District Director of Internal Revenue who issued the stamps within 2 years after the date on which such stamps were lawfully issued. Such unused stamps may be destroyed in the presence of the Government officer and the proprietor thereby relieved from further accountability for the stamps. If the stamps are not surrendered to the District Director of Internal Revenue for refund of their value or are not destroyed, the proprietor must account for the stamps each month by rendering Part 2 of Form 182 to the Assistant Regional Commissioner.

(RR) Section 189.366 is amended to read as follows:

§ 189.366 *Where locks are required.* Government locks are required upon the door of the Government room, vault or cabinet provided in accordance with § 189.290, and the entrance door of the export storage room, if any; upon the manheads and inlets of storage tanks; upon the valves in pipelines which convey spirits into the tax-paid bottling house from contiguous premises if such pipelines are not locked in the contiguous premises; and upon such other valves, stopcocks, and openings in equipment and apparatus as are required by this part or deemed necessary by the Assistant Regional Commissioner to be secured with Government locks.

(SS) Subpart GG is revoked.

PAR. 6. Regulations 15 (26 CFR Part 190) are amended as follows:

(A) Section 190.98 is amended by striking out the word "locked" in the first sentence.

(B) Section 190.118 is amended to read as follows:

§ 190.118 *Storage tanks.* If spirits are received in tank cars, or by pipeline, or if wines are received in tank trucks, suitable storage tanks must be provided within which to store such spirits, except that such storage tanks will not be required in the case of spirits which are transferred directly to processing and bottling tanks in accordance with §§ 190.407 to 190.408. Each storage tank shall be constructed of metal or other suitable material and shall be equipped with a suitable device, or mounted on accurate scales, whereby the contents can be accurately determined. There shall be painted on each tank the words, "Storage Tank", followed by its serial number and capacity in gallons. A suitable board shall be provided on each storage tank for the attachment of Forms 703–A, 1520, or 1440, as provided in this part. Manheads and inlets of the tanks must be provided with facilities for locking with Government locks. Stopcocks must be provided and so arranged as to control completely the flow of spirits into the tank: *Provided*, That where spirits are received by pipeline from contiguous premises and the pipeline is equipped with a valve on the contiguous premises, which may be locked with a Government lock, the inlet valve in the receiving rectifying plant is not required to be locked. The construction of the valves must be such that they can be secured with Government locks. However, storage tanks to be used exclusively for the storage of wine and labeled "Wine Storage Tank" need not be secured as provided by this section. A closed manifold system, not equipped for locking with Government locks, may be installed which will permit the transfer of spirits between storage tanks. Storage tanks may be permanently connected with pipelines for the conveyance thereto of air and distilled water, but the distilled water pipeline must be affixed to the top of the tank. Other pipelines, except those used for the conveyance of spirits, may not be permanently connected with such tanks.

(53 Stat. 318, 335, as amended; 26 U. S. C. 2829, 2883)

(C) Section 190.119 is amended by striking out the period at the end of the last sentence and adding ": *Provided*, That where a tank is to be used alternately as a dumping and reducing tank or as a processing tank the tank shall have plainly and legibly painted thereon the words, 'Dumping and Reducing Tank or Processing Tank,' followed by its serial number and capacity in gallons, and a suitable board shall be provided for the attachment of Form 122".

(D) Section 190.120 is amended by striking out the period at the end of the third sentence which begins "Each such tank" and adding ": *Provided*, That where a tank is to be used alternately as a processing tank or as a dumping and reducing tank the tank shall have plainly and legibly painted thereon the words, 'Processing Tank or Dumping and Reducing Tank,' followed by its serial number and capacity in gallons. A suitable board shall be provided for the attachment of Form 122".

(E) Section 190.121 is amended by inserting immediately following the second sentence which begins "Such receptacles" the following sentence: "Provision shall be made on each processing receptacle for the attachment of Form 122."

(F) Section 190.122, as last amended by Treasury Decision 5996, approved February 26, 1953, is further amended by striking out the fourth sentence which begins "Manheads, inlets," and inserting in lieu thereof "Manheads and inlets of such tanks must be provided with facilities for locking with Government locks".

(G) Section 190.124 is amended by striking out the word "will" in the fourth sentence which begins "Each bottling tank" and inserting in lieu thereof the word "may".

(H) Section 190.126 is amended by striking from the last sentence the words "and such outlet is equipped for locking with a Government lock when not in use".

(I) Section 190.127 is amended by striking out the second and fourth sentences which begin "Such tank must" and "The manhead," respectively.

(J) Section 190.128 is amended by striking out the word "system" in the fourth sentence which begins "The return of" and inserting in lieu thereof the phrase ", if such spirits are being bottled pursuant to a Form 237,".

(K) Section 190.131 is amended by striking out the third sentence which begins "Where distilled water".

(L) Section 190.132 is amended to read as follows:

§ 190.132 *Pipelines connecting bottling tanks and bottling machine.* The bottling tanks may be connected with the bottling machine either by a fixed pipeline or by a detachable hose exposed to view throughout its entire length.

(53 Stat. 318; 26 U. S. C. 2829)

(M) Section 190.133 is amended by striking out from the sixth sentence which begins "Where the tank" the words "if the end of the pipeline is equipped with a valve which may be locked with a Government lock".

(N) Section 190.134 is amended as follows:

(1) By striking out the period at the end of the third sentence which begins "When the storage," and adding ": *Provided*, That where the pipeline leading from the contiguous premises is equipped with a valve on such contiguous premises which may be locked with a Government lock, so as to control the flow of spirits, such valve in the receiving rectifying plant is not required to be locked".

(2) By striking from the sixth sentence which begins "Filters may be" the phrase ", if inlet and outlet lines to be attached to filters are equipped with valves which may be locked with Government locks".

(O) Section 190.137 is amended by inserting after the words "connections in pipelines" the phrase ", required to be sealed by this part,".

(P) Section 190.158 is amended by inserting after the first sentence the following sentence: "Tanks used either as dumping and reducing tanks or as processing tanks shall be so described on Form 27–B."

(Q) Section 190.385 is amended to read as follows:

§ 190.385 *Restrictions.* No operations pertaining to transferring spirits by pipeline from adjoining premises or from tank cars or tank trucks to storage tanks or other operations required by this part to be conducted under the supervision of a Government officer shall be carried on at a rectifying plant during other than regular business hours, unless special permission is first obtained therefor from the Assistant Regional Commissioner. Operations which may be conducted in the absence of the Government officer may not however be carried on at a rectifying plant during other than regular business hours unless notice of such operations is first given, in writing, to the storekeeper-gauger. However, these provisions shall not apply to rectifying processes that are automatic and continuous, and do not require any personal handling or other manipulation during such restricted hours. The removal of any package of spirits containing more than 10 gallons is prohibited between sundown and sunrise.

(53 Stat. 331; 26 U. S. C. 2870)

(R) Section 190.386 is amended to read as follows:

§ 190.386 *Operations after regular hours.* Where the rectifier needs to dump, filter, or bottle spirits or perform such other operations which may be conducted in the absence of a Government officer, after regular business hours, he shall first give notice thereof, in writing, to the storekeeper-gauger. The storekeeper-gauger shall forward a copy of the notice to the Assistant Regional Commissioner.

(S) Section 190.406 is amended by striking out the last sentence and inserting in lieu thereof the following sentences: "The spirits must remain in the receiving room (or storage tank located in the rectifying room) until notice is given on Form 122 that the same will be removed to the rectifying room for dumping and rectification, or on Form 230 that the same will be removed to the bottling room, or to the rectifying room where no separate bottling room is provided, for dumping and bottling without rectification, except that unrectified bulk spirits may be shipped or removed from the receiving room without giving notice."

(T) Section 190.407 and heading are amended to read as follows:

§ 190.407 *Receipt by tank car, tank truck, or tank.* Where distilled spirits are received in tank cars or tank trucks or wines are received in tank cars, tanks, or tank trucks, they must be transferred directly from such containers into storage, processing or bottling tanks: *Provided*, That such transfers of distilled spirits must be under the supervision of a Government officer. When such spirits are transferred directly into processing or bottling tanks, the rectifier must give notice on Form 122 or Form 230, as the case may be, immediately after the tank cars, tanks, or tank trucks are emptied. Distilled spirits may be received in railroad tank cars only if the premises of the rectifier are equipped with suitable railroad siding facilities. Before permitting spirits to be transferred from a tank car or tank truck into storage, processing, or bottling tanks, the Government officer will see that the seals are intact on the tank car or tank truck and that the tank car or tank truck bears evidence of proper taxpayment. When spirits are transferred into storage tanks, the Government officer shall open and close the Government locks, but it shall be the duty of the proprietor to manipulate the stopcocks or valves controlling the flow of the spirits. Upon completion of the transfer of the spirits to storage, processing, or bottling tanks the report of gauge, Forms 92, 1440 or 1520, as the case may be, delivered to the storekeeper-gauger from the consignor premises shall be delivered by him to the rectifier.

(53 Stat. 335, as amended; 26 U. S. C. 2883)

(U) Section 190.408 is amended as follows:

(1) By striking out the first sentence and inserting in lieu thereof the following sentence: "Where spirits are received at a rectifying plant by pipeline from a contiguous distillery, internal revenue bonded warehouse, industrial alcohol plant or warehouse, or a bonded winery, they shall be conveyed directly into one or more storage tanks, unless the quantity of spirits so transferred is to be conveyed directly into one or more bottling tanks for bottling without rectification, or into one or more processing tanks if the inlets to such tank or tanks are equipped for locking with Government locks: *Provided*, That where the pipeline is equipped with a valve in the contiguous premises, which may be locked with a Government lock, such processing tanks in the receiving rectifying plant need not be equipped for locking."

(2) By striking from the last sentence the words "or out of".

(V) Section 190.411 is amended as follows:

(1) By adding the words, "or tank truck" to the heading and

(2) By striking out the first sentence and inserting in lieu thereof the following sentence: "When distilled spirits received in a railroad tank car or tank truck are run into a storage tank, the report of gauge, Form 1520 in the case of spirits other than alcohol, and Form 1440 in the case of alcohol, delivered to the rectifier by the storekeeper-gauger, shall be attached to such storage tank."

(W) Section 190.412 is amended by striking out the first sentence and inserting in lieu thereof the following sentence: "When spirits received by pipeline are run into a storage tank, the report of gauge, Form 1520 or Form 1440, delivered to the rectifier by the storekeeper-gauger, or Form 703–A delivered by the vendor, shall be attached to the storage tank."

(X) The headnote to Subpart X is amended to read as follows: "Subpart X—Gauging and Dumping Spirits and Record of Rectification".

(Y) Section 190.425 and heading are amended to read as follows:

§ 190.425 *Notice of dumping, Form 122.* When the rectifier desires to dump spirits for rectification and the spirits are not to be used immediately in their entirety in preparing a batch of rectified spirits or wines, he will prepare Form 122, in triplicate, giving all applicable information in accordance with the headings of the various columns and lines on the form, and the instructions printed thereon or issued in respect thereto and as required by this part. The rectifier will carefully gauge each package of spirits and where the spirits are of the same composition and have been produced by the same distiller at the same distillery and were filled on the same date and withdrawn on the same date, he will make a consolidated entry on Form 122 for all such packages. Several lots may be reported on one Form 122. Where practicable, in lieu of making an individual gauge of each package of a lot of like spirits, as described herein, the spirits may be dumped into a tank mounted on scales or otherwise equipped with a suitable device whereby the actual contents can be accurately determined and gauged and the details thereof entered on Form 122. Where packages are transferred to the rectifying plant directly upon taxpayment from a contiguous distillery or internal revenue bonded warehouse or a distillery or internal revenue bonded warehouse located in the immediate vicinity of the rectifying plant and owned by the proprietor of the rectifying plant or a subsidiary and dumped for rectification within 30 days after receipt, the withdrawal gauge will be considered as satisfying the requirement that the spirits shall be gauged when dumped for rectification and the rectifier will make a consolidated entry for each lot of such like spirits. The Assistant Regional Commissioner will determine from all circumstances in each case whether the distillery or warehouse and the rectifying plant are in the immediate vicinity. Where the spirits are so dumped on the withdrawal gauge, if the rectifying plant is equipped with processing tanks mounted on scales, the spirits may be dumped and gauged by weight in such processing tanks. In such case, the proof gallons determined by such gauge shall also be reported on Form 122. The difference in proof gallons between the withdrawal (taxpayment regauge) and such tank gauge shall also be reported on Form 122. If the spirits are to be drawn from the storage tank, the rectifier will likewise execute Form 122 giving all the information applicable. When spirits are received by pipe line or withdrawn from storage tanks and run into one or more processing tanks, or when spirits are received by tank car and run into one or more processing tanks, the rectifier will execute Form 122 giving all applicable information. Each Form 122 will be given a serial number beginning with "1" for the first day of January of each year and running consecutively thereafter to December 31, inclusive.

(53 Stat. 310, 335, as amended; 26 U. S. C. 2813, 2883)

(Z) There is inserted after § 190.425 the following new sections:

§ 190.425a *Batch record, Form 122.* When the rectifier desires to compound a batch of rectified spirits, he will prepare Form 122 as a batch record, in

triplicate, giving a description of the spirits in accordance with the headings of the various columns and lines on the form, and the instructions printed thereon or issued in respect thereof and as required by this part. Form 122 will be so used (a) to report the dumping of spirits which are to be used immediately and in their entirety in preparing a batch of a rectified product, (b) to report the use of spirits dumped pursuant to earlier Forms 122 and retained in processing tanks or receptacles, in preparing a batch of a rectified product, and (c) to report any combination of (a) and (b) used in preparing a batch of a rectified product. Each package of spirits, withdrawal from storage tank, or receipt by pipeline which is to be used immediately in its entirely in preparing a batch of a rectified product shall be gauged in accordance with the provisions of § 190.425.

§ 190.425b *Records of coloring, flavoring, and blending materials.* The proprietor will record, on Form 122 (batch record) the use of alcoholic flavors or flavoring extracts manufactured on premises other than a rectifying plant. Commercial records will be maintained by the proprietor for recording the use of non-alcoholic blending, coloring or flavoring materials used in a rectified product.

§ 190.425c *New or changed composition of products.* Whenever the rectifier desires to manufacture a new product, or to change the composition of a product to be manufactured under a previously used formula, he shall notify the Government officer in writing prior to beginning the process of rectification.

(AA) Section 190.433 is revoked.

(BB) Section 190.434 and heading are amended to read as follows:

§ 190.434 *Submission to officer.* The rectifier, after preparation of part 1 of Form 122, and after completion of his certificate in part 2, will place the original and one copy of Form 122 on the storekeeper-gauger's desk and thereupon proceed with the operation covered by such notice: *Provided*, That where straight whiskies and pure fruit brandies are to be blended exempt from tax all copies of Form 122 must be presented to the Government officer for verification prior to the dumping of such spirits in the manner provided in §§ 190.479–190.488. The storekeeper-gauger, after endorsing the copies, will return them to the rectifier.

(CC) Section 190.435 is revoked.

(DD) Section 190.436 is amended to read as follows:

§ 190.436 *Marking processing tanks.* In every case the rectifier will attach the copy of Form 122 not submitted to the storekeeper-gauger to the processing tank or receptacle in which the spirits covered by such form were deposited. Where the entire quantity of spirits covered by one Form 122 is deposited in more than one processing tank or receptacle the rectifier will attach such Form 122 to one of the tanks or receptacles and show on Form 122 the serial numbers of the other tanks or receptacles in which the spirits were deposited. Such other tanks or receptacles will be marked by the rectifier to show the serial number of the Form 122 pursuant to which the contents thereof were dumped or rectified.

(EE) Section 190.437 and heading are amended to read as follows:

§ 190.437 *Disposition of Form 122.* The rectifier, upon return of the two copies of Form 122 from the storekeeper-gauger, will enter the balance of the information in part 1, on all copies of Form 122 and will forward the original immediately to the Assistant Regional Commissioner. In those instances where the Form 122 covers the dumping of spirits the slip bearing the cut-out portions of the stamps, or affidavits, in lieu thereof, shall be attached to the original. When the form is used as a notice of dumping only, the rectifier will enter, in part 4 of the copies retained by him, the quantity dumped for rectification, as reported in part 1, as the quantity to be accounted for and such quantity will be subsequently balanced by the entry of totals from one or more later Forms 122, prepared as rectification batch records, adjusted as necessary by gain or loss. When the form is used as a rectification batch record the rectifier will enter, in part 4 of the copies retained by him, the batch total, as reported in part 1, as the quantity to be accounted for and such quantity will be subsequently balanced by the entry of totals from one or more Forms 122 or 237, adjusted as necessary by gain or loss. After completion of part 4 the rectifier will file the copy of Form 122, endorsed by the storekeeper-gauger, at the rectifying plant available for inspection by Government officers. The third copy of each Form 122, which is attached to the processing tank or receptacle in which the spirits covered thereby were deposited, will be destroyed upon the emptying of the tank.

(FF) Section 190.438 is amended by striking out the third sentence which begins "The first processing tank" and inserting in lieu thereof the following sentence: "The rectifier shall attach to the first processing tank or receptacle, into which the full package was dumped, a copy of the Form 122 pursuant to which such spirits were dumped."

(GG) Section 190.445 is amended by striking out the word "approved" and inserting in lieu thereof the words "notice on".

(HH) Sections 190.447 through 190.449 are revoked.

(II) Section 190.480 is amended by striking out in the last sentence the word "duplicate" and inserting in lieu thereof the word "triplicate".

(JJ) Section 190.482 is amended to read as follows:

§ 190.482 *Approval by officer.* The Government officer will make the examination prescribed in § 190.483, and, if satisfied that the whiskies or brandies may be blended free of tax, he will verify Form 122, and return all copies to the rectifier.

(53 Stat. 300 as amended; 26 U. S. C. 2801)

(KK) Section 190.484 is amended by striking out the last sentence and inserting in lieu thereof the following sentence: "The Government officer will then deliver both copies of the application to the rectifier, who will attach a copy to the original of the Form 122 covering the gauge of the spirits which will be forwarded immediately to the Assistant Regional Commissoner and the other copy to the Form 122 which he will retain for his files at the rectifying plant."

(LL) Section 190.508 is amended to read as follows:

§ 190.508 *Dumping of still wine.* When the rectifier desires to dump still wine for bottling for champagne manufacture or for the manufacture of a sparkling wine of the champagne type by fermentation in bulk, he will give notice on Form 122, and the same procedure will be followed as in the case of the dumping of wines for rectification by other processes.

(MM) Section 190.566 is amended by striking out the last sentence and inserting in lieu thereof the following sentence: "The Government officer shall verify the proof by use of a standard hydrometer in each instance where the rectified product contains not more than 0.6 gram of solids per 100 milliliters (as reported by the rectifier). Where an obscuration correction factor has been determined by the rectifier, as provided in § 190.570, such factor will be added to the apparent proof as determined by use of a standard hydrometer. The proof of rectified products containing more than 0.6 gram of solids per 100 milliliters will be verified by the Government chemist through the submission from time to time of samples to him by the storekeeper-gauger as provided by § 190.781a."

(NN) Section 190.567 is amended as follows:

(1) By striking out the fourth sentence which begins "The storekeeper-gauger".

(2) By adding at the end thereof the following new sentence: "The Government officer will secure samples from representative packages from time to time for submission to the Government chemist for analysis."

(OO) Section 190.568 is amended by striking out the last two sentences and inserting in lieu thereof the following sentence: "Such statement shall be signed by the rectifier and forwarded to the purchaser of the spirits for delivery to the bottler or to the proprietor of the premises where the spirits are to be bottled."

(PP) Section 190.573 is amended as follows:

(1) By inserting in the third sentence, which begins "When rectified spirits", after the words "alcoholic content" the following phrase ", as provided in § 190.566,".

(2) By striking out the last sentence.

(QQ) Section 190.575 is amended by striking out the word "Commissioner" and inserting in lieu thereof the words "Assistant Regional Commissioner".

(RR) Section 190.579 is amended by inserting after the second sentence the following new sentence: "Where rectified spirits are to be bottled on the premises of the taxpayer a copy of the label which is to be affixed to the bottles of such spirits shall be attached to each copy of Form 237."

(SS) Section 190.580 is amended by striking out the second sentence which begins "If, after inspection" and inserting in lieu thereof the following sentence: "After inspection of the rectified spirits and ascertaining from the approved formula the rate of tax applicable, the officer will note his approval on each copy of the form and the tax rate and the amount of tax to which the spirits are subject based on the details as set forth by the rectifier in part 2."

(TT) Section 190.582 is amended as follows:

(1) By inserting immediately before the third sentence which begins "The rectifier will" the following new sentence: "The rectifier will submit the stamps to the Government officer who will verify that such stamps were issued in the proper amount."

(2) By striking out the fourth sentence which begins "The Government officer".

(3) By striking out in the fifth sentence which begins "When the packages" the following words: "and submit them to the Government officer, who will, after proper verification, sign and date the verification in the space provided therefor and return both copies to the rectifier".

(UU) Section 190.586 is amended to read as follows:

§ 190.586 *Disposition of Form 237 and stamps.* Upon the completion of the bottling, the rectifier will execute the certificate of cases filled on all copies of Form 237, sign each copy and in the case of rectified products taxable under section 3030 (a) (2), I. R. C., and of products bottled under the provisions of § 190.578 submit each copy to the Government officer, who will, after proper verification, sign and date the verification in the space provided therefor. In such instances the Government officer will immediately return both copies of Form 237 to the rectifier. In all instances the bottling tank or wine bottling room copy of the form will be retained in the rectifying plant available for inspection by Government officers. The rectifier will immediately forward the completed original and stamps to the Assistant Regional Commissioner.

(VV) Section 190.588 is amended by striking out the second sentence which begins "After execution".

(WW) Section 190.589 is amended by striking out the word "Commissioner" in the first sentence and inserting in lieu thereof the words "Assistant Regional Commissioner".

(XX) Section 190.593 is amended by striking out in the first sentence the word "approved".

(YY) Section 190.653 is amended by striking out in the first sentence the words "and to supervise the transfer of the spirits".

(ZZ) Section 190.654 is amended by striking out in the first sentence the words "under his supervision".

(AAA) Section 190.685 is amended as follows:

(1) By striking out the word "Application" in the heading and inserting in lieu thereof the word "Notice".

(2) By striking out the words "execute application" in the first sentence and inserting in lieu thereof the words "give notice".

(3) By inserting immediately after the first sentence the following new sentence: "Where the spirits are to be bottled on the premises a copy of the label which is to be affixed to the bottles of such spirits shall be attached to each copy of Form 230."

(BBB) Section 190.687 is amended by striking out in the first sentence the figure "190.433" and inserting in lieu thereof the figure "190.432".

(CCC) Section 190.688 and heading are amended to read as follows:

§ 190.688 *Submission to officer.* After preparation of the notice the rectifier will place the original of Form 230 on the storekeeper-gauger's desk and thereupon will proceed with the bottling. Where packages of spirits are to be dumped for bottling, or where spirits are received by pipe line from contiguous premises (other than rectifying plants) and are conveyed directly into bottling tanks, the withdrawal gauge, Forms 703–A, 1440 or 1520, will be submitted with the original of Form 230. When spirits are received by pipe line from contiguous rectifying plants, the serial number of the copy of Form 230, or Form 237, received from the rectifier will be noted by the proprietor on Form 230 prepared by him. The storekeeper-gauger will return the Form 230 to the proprietor after noting the operation covered thereby.

(53 Stat. 335, as amended; 26 U. S. C. 2883)

(DDD) Section 190.689 is amended by striking out the words "Upon approval of Form 230 by the storekeeper-gauger, as provided in § 190.688," and inserting in lieu thereof the following words: "Upon placing the original of Form 230 on the storekeeper-gauger's desk,".

(EEE) Section 190.690 is amended as follows:

(1) By striking from the first sentence the phrase ", and before they are released by the Government officer for bottling".

(2) By striking out the fifth sentence which begins "The proof".

(FFF) Section 190.692 is revoked.

(GGG) Section 190.693 is amended to read as follows:

§ 190.693 *Transfer of products to wine bottling room.* Where the rectifier desires to bottle from the original package wines, cordials, or liqueurs authorized by the Assistant Regional Commissioner to be so bottled, such packages will be placed in the wine bottling room and Form 230 will be prepared and the original thereof placed on the storekeeper-gauger's desk. When wines, cordials, or liqueurs are to be bottled in the wine bottling room, the rectifier will attach one copy of the Form 230 to the door of such room.

(HHH) Section 190.694 is amended as follows:

(1) By striking out the second sentence which begins "After execution of".

(2) By striking out the first two words "The rectifier" of the last sentence and inserting in lieu thereof the words "After execution of such statement, the rectifier".

(III) Section 190.695 is amended by striking out the last two sentences and inserting in lieu thereof the following sentence: "Such statement shall be signed by the rectifier and delivered to the purchaser of the spirits for delivery to the bottler or to the proprietor of the premises where the spirits are to be bottled."

(JJJ) Section 190.701 is amended by striking out the last sentence and inserting in lieu thereof the following sentence: "Upon completion of the bottling the rectifier will remove Form 230 from the bottling tank and complete the execution of his certificate on all copies."

(KKK) Section 190.703 is amended by striking out in the first sentence the words "and statement".

(LLL) Section 190.706 is amended by striking out the sixth sentence which begins "Such rebottling, relabeling" and inserting in lieu thereof the following sentence: "Such rebottling, relabeling, and restamping operations may be performed in the absence of the Government officer."

(MMM) Section 190.738 is amended by striking out in the first sentence the words "under the supervision of the Government officer".

(NNN) Section 190.739 is amended by striking out the last two sentences and inserting in lieu thereof the following sentence: "Such statement shall be signed by the rectifier and forwarded to the purchaser of the spirits for delivery to the bottler or to the proprietor of the premises where the spirits are to be bottled."

(OOO) Section 190.746 is amended by striking out in the first sentence the words "under the supervision of the Government officer".

(PPP) Section 190.753 is amended by striking out the last four sentences and inserting in lieu thereof the following sentences: "The District Director of Internal Revenue will enter the serial numbers of the stamps issued and stamp the date of sale on all copies of Form 428, and will retain one copy and send the original to the Assistant Regional Commissioner and one copy to the rectifier. The District Director of Internal Revenue will forward the stamps to the rectifier. The rectifier will deliver the stamps and corresponding Form 428 to the Government officer for verification of receipt. Upon such verification the rectifier will enter receipt of the stamps on Form 182."

(QQQ) Section 190.754 is amended as follows:

(1) By striking from the first sentence the words "Government officer" and inserting in lieu thereof the word "rectifier".

(2) By striking from the last sentence the words "for immediate delivery to the Government officer in accordance with § 190.753".

(RRR) Sections 190.755 and 190.756 are revoked.

(SSS) Section 190.757 is amended to read as follows:

§ 190.757 *Requisitions to be filed.* Rectifiers will retain copies of Form 428 returned by the District Director of Internal Revenue at the plant as a record available for inspection by Government officers and will file them in chronological order.

(TTT) Section 190.758 and heading are amended to read as follows:

§ 190.758 *Rectifier's responsibility.* Rectifiers who have custody of red strip stamps will be held strictly responsible for the proper control and accounting of all stamps received, used, and on hand. They shall be held responsible for the proper affixing of the stamps to bottles of tax-paid spirits and for making a proper accounting for all stamps reported mutilated.

(UUU) Section 190.759 is revoked.

(VVV) Section 190.764 is amended by striking out the last sentence and inserting in lieu thereof the following sentences: "Unless eligible and intended for exchange or refund, as provided in § 190.765, red strip stamps that have been mutilated should be destroyed by the rectifier under the supervision of the Government officer. The rectifier will then enter appropriate credit on Form 182 for the number of each denomination so destroyed."

(WWW) Sections 190.766 and 190.767 are revoked.

(XXX) There is inserted immediately following § 190.781 the following new section:

§ 190.781a *Samples.* Officers assigned to rectifying plants will secure samples of finished labeled products from the bottling line at irregular intervals for submission to the Government chemist.

(YYY) Sections 190.782 and 190.783 are revoked.

(ZZZ) Section 190.784 is amended as follows:

(1) By striking out the first sentence and inserting in lieu thereof the following sentence: "Officers assigned to rectifying plants will, at irregular intervals during the process of bottling, test and examine the bottled spirits to determine whether the label attached is identical with the label affixed to Form 230 or 237, as the case may be, attached to the bottling tank and with the certificate of label approval or label exemption; whether the bottled spirits agree in proof with the data on the label; and whether the quantity agrees with the data on the label, stamp or bottle, subject to the limitation prescribed by § 190.628."

(2) By striking from the fifth sentence which begins "If the contents" the words "withhold release of the bottled spirits and".

(AAAA) Section 190.785 is amended to read as follows:

§ 190.785 *Rectifier's responsibility.* Full responsibility rests upon the rectifier to see that the labeling of all distilled spirits and wines bottled or packaged at his plant is in conformity with the requirements of Regulations 4 and 5 (27 CFR Parts 4 and 5) issued pursuant to the Federal Alcohol Administration Act, and Regulations 13 (26 CFR Part 175).

(BBBB) There is inserted immediately after § 190.837 the following new undesignated center heading and sections:

REPORT OF RED STRIP STAMPS

§ 190.837a *Record, Part 1, Form 182.* Every rectifier who has in his possession red strip stamps will keep a record of such stamps received and used on Part 1 of Form 182. Entries will be made on Form 182 daily, as indicated by the headings of the various columns and lines on the form, and in accordance with the instructions printed thereon or issued in respect thereto, and as required by this part. The record will be kept in bound form, available for inspection by Government officers.

§ 190.837b *Monthly report, Part 2, Form 182.* The rectifier shall prepare a monthly summary report on Part 2 of Form 182, in duplicate. He shall deliver Part 2 of Form 182 to the Government officer for verification of the monthly inventories of stamps on hand. After such verification the Government officer will return both copies to the rectifier who will, on or before the 5th day of the month succeeding the month in which the transactions occurred, forward the original to the Assistant Regional Commissioner and retain the remaining copy, available for inspection by Government officers.

(CCCC) Section 190.838 is amended by inserting after the figure "45" in the two places it appears a comma and the figure "182".

(DDDD) Section 190.839 is amended by striking out the word "Form 45" and inserting in lieu thereof the words "Forms 45 and 182".

(EEEE) Section 190.842 is amended by inserting in the first sentence after the phrase "(and Record 52 and Form 52–F, if required)" the words "and Form 182".

(FFFF) Subpart LL is revoked.

(GGGG) The headnote to Subpart MM is amended by striking out the words "RED STRIP".

(HHHH) Section 190.895 is amended as follows:

(1) By striking from the first sentence the phrase "The rectifier's supply of red strip stamps," and inserting in lieu thereof the phrase "The supply of wholesale liquor dealer's stamps,".

(2) By striking out the last two sentences.

(IIII) Section 190.900a, as added by Treasury Decision 5995, effective March 3, 1953, is amended to read as follows:

§ 190.900a *Trade name rectification.* Where the rectifier desires to rectify particular spirits under a trade name or style other than the name in which the rectifying plant is qualified and operated, and such trade name or style has been specified on an approved Form 27–B and on the rectifier's Federal Alcohol Administration Act permit, he may rectify such spirits under such approved trade name without filing an amended notice on Form 27–B or changing the name under which the rectifying plant is then qualified and operated. The rectifier shall indicate in Part 2 of Form 122, covering the batch record of such particular spirits, the trade name or style under which they were rectified. When the rectified spirits are transferred to packages or to a bottling tank for bottling the rectifier shall state on Part 1 of Form 237 the trade name or style under which the spirits were rectified. The spirits so rectified may be labeled "blended by," "made by," "prepared by," "Manufactured by," or "produced by" (whichever may be appropriate to the act of rectification involved), followed by the trade name or style under which the spirits were rectified, and the address (or addresses) of the rectifier, in accordance with Regulations 5 (27 CFR Part 5) issued under the Federal Alcohol Administration Act.

(JJJJ) Section 190.900b, as added by Treasury Decision 5995, is amended as follows:

(1) By striking out in the first sentence the words "pursuant to Form 122—Supplemental,".

(2) By striking out in the last sentence the words "Upon approval of the form in the usual manner, he may" and inserting in lieu thereof "He may".

(KKKK) Section 190.902 is amended by striking out in the third sentence which begins "Upon completion of" the phrase ", after submitting them to the Government officer for verification,".

(LLLL) Section 190.904, as amended by Treasury Decision 5995, is further amended as follows:

(1) By inserting in the second sentence which begins "The rectifier" after the words "on Form 45" the following words "and Form 182".

(2) By striking out the third sentence which begins "The storekeeper-gauger".

(MMMM) Section 190.920 is amended by striking out the phrase ", after approval by the Government officer,".

(NNNN) Section 190.921 is amended as follows:

(1) By striking out in the first sentence the words "and submit".

(2) By striking out in the second sentence which begins "The form will" the words "and submitted".

(OOOO) Section 190.922 is amended by striking out the words "and submit".

(PPPP) Section 190.925 is amended as follows:

(1) By striking from the last sentence the words "in the custody of the storekeeper-gauger".

(2) By adding at the end thereof the following new sentence: "The rectifier will submit a monthly report on Part 2 of Form 182 of such stamps."

(QQQQ) Section 190.927 is amended by striking out the last sentence.

(RRRR) Section 190.928 is amended by striking out in the last sentence the word "storekeeper-gauger" and inserting in lieu thereof the word "fiduciary".

(SSSS) Section 190.942 is amended to read as follows:

§ 190.942 *Disposition of red strip stamps.* All unused red strip stamps, if any, belonging to the proprietor at the time of permanent discontinuance of business will be inventoried by denomination, serial number, and quantity and the inventory will be verified by the storekeeper-gauger or other officer designated by the Assistant Regional Commissioner to perform such duty. The value of the stamps, if in quantities of the value of $5 or more, may be refunded, provided that a claim for such refund on Form 843, establishing the lawful issuance and ownership of the stamps, is filed by the rectifier with the District Director of Internal Revenue who issued the stamps within two years after the date on which such stamps were lawfully issued. Such unused stamps may be destroyed in the presence of the Government officer and the proprietor thereby relieved from further accountability for the stamps. If the stamps are not surrendered to the District Director of Internal Revenue for refund of their value or are not destroyed, the proprietor must account for the stamps each month by rendering Part 2 of Form 182 to the Assistant Regional Commissioner.

(53 Stat. 303, as amended; 26 U. S. C. 2303)

(TTTT) Section 190.966 is amended to read as follows:

§ 190.966 *Where locks are required.* Government locks are required upon the door of the Government room, vault or cabinet, provided in accordance with § 190.895; upon the entrance door of the wine bottling and export storage rooms, if any; upon the manheads and inlets of storage tanks and receiving tanks; upon the manheads, inlets, and outlets of bottling tanks (except where the bottling is pursuant to Form 230); upon the valves in pipelines which convey spirits from rectifying stills to receiving tanks where the pipelines are equipped for refluxing the spirits to the stills or for by-passing the berry basket in the case of gin stills; upon valves in pipelines which convey spirits into the rectifying plant from contiguous premises if such pipelines are not locked in the contiguous premises; and upon such other valves, stopcocks, and openings in equipment and apparatus as are required by this part or deemed necessary by the Assistant Regional Commissioner to be secured with Government locks.

This Treasury decision shall be effective upon the date of publication in the FEDERAL REGISTER.

(R. S. 161, 53 Stat. 375; 5 U. S. C. 22, 26 U. S. C. 3176)

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

Approved: August 24, 1954.

ELBERT P. TUTTLE,
Acting Secretary of the Treasury.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular 1879]

PART 244—RIGHTS-OF-WAY OTHER THAN FOR RAILROAD PURPOSES AND FOR LOGGING ROADS ON THE OREGON AND CALIFORNIA AND COOS BAY REVESTED LANDS

SUBPART I—RIGHTS-OF-WAY THROUGH PUBLIC LANDS AND RESERVATIONS FOR OIL AND NATURAL GAS PIPELINES AND PUMPING PLANT SITES UNDER THE MINERAL LEASING ACT

APPROVAL OF RIGHT-OF-WAY

Section 244.65 is amended to read as follows:

§ 244.65 *Approval of right-of-way.* The approval of such right-of-way shall be subject to the express conditions that the use of the pipeline for the transportation of oil, gas, or other similar products, shall be limited to such products produced in conformity with State and Federal laws, including laws prohibiting waste.

(Sec. 28, 49 Stat. 678; 30 U. S. C. 185)

FRED G. AANDAHL,
Acting Secretary of the Interior.

Appendix C—Public Land Orders

[Public Land Order 1000]

WASHINGTON

WITHDRAWING PUBLIC LANDS FOR USE OF THE DEPARTMENT OF THE ARMY AS AN ARTILLERY AND ANTIAIRCRAFT FIRING RANGE

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

1. Subject to valid existing rights, the following-described public lands in Washington are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Department of the Army as an artillery and antiaircraft firing range.

The areas described aggregate 13,298.84 acres of public land.

2. This withdrawal is subject to the condition that the Department of the Army will permit the use of such lands, either public domain or acquired, within the artillery and anti-aircraft firing range as may be necessary to permit crossing of the range by livestock during the spring and fall of each year. The Commanding General, Fort Lewis, may limit such movement across the range to not less than three consecutive weeks during each of the aforementioned seasons, may prescribe such terms and conditions as may be necessary for the protection of life and property and for the security of the range, and may require advance notice in writing of proposed use by stockmen of the range for stock driveway purposes.

3. This order shall take precedence over but not otherwise affect existing withdrawals of the lands for stock driveway purposes and shall be subject to existing withdrawals of the lands for power and public water purposes.

ORME LEWIS,
Assistant Secretary of the Interior.

AUGUST 26, 1954.

NOTICES

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

SWEETWATER AND ATHENS, TENN., TOBACCO MARKETS

PROPOSED DISTRIBUTION OF INSPECTION SERVICE

Notice is hereby given that the United States Department of Agriculture has under consideration the distribution of inspection service between the Sweetwater, Tennessee, and Athens, Tennessee, tobacco markets, pursuant to the provisions of the Tobacco Inspection Act (49 Stat. 731, 7 U. S. C. 511 et seq.). Among the factors that will be considered in distributing the inspection service on an equitable basis so as to render service to the greatest number of grow-

ers are the quantity of tobacco available for inspection, facilities, and the relative amounts of tobacco marketed in prior years by each market.

All persons who desire to submit written data, views, or arguments with respect to the above-mentioned matter should file the same, in duplicate, with the Director, Tobacco Division, Agricultural Marketing Service, Washington 25, D. C., not later than the close of business on October 1, 1954.

Done at Washington, D. C., this 26th day of August 1954.

[SEAL] STEPHEN E. WRATHER,
Director, Tobacco Division,
Agricultural Marketing Service.

MEMBER LINES OF PACIFIC WESTBOUND CONFERENCE ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 57-51, between the Member Lines of the Pacific Westbound Conference, modifies the appendix to the basic agreement of that conference (No. 57) by amending the rule governing the chartering of vessels for the purpose of clarifying the wording, and by adding to such rule a provision that member lines may also charter vessels on lump sum F. I. O., or other standard forms of charter.

(2) Agreement No. 7995, between Iino Kaiun Kaisha, Ltd., Mitsubishi Kaiun Kaisha, Ltd., and Nissan Kisen Kaisha, Ltd., provides for the establishment and maintenance of a joint cargo service (with limited passenger accommodations) under the trade name Kokusai Line, in various world-wide trades. This agreement will supersede and cancel Agreement No. 7816, between Iino Kaiun Kaisha, Ltd., Mitsubishi Kaiun Kaisha, Ltd., Nissan Kisen Kaisha, Ltd., Toho Kaiun Kaisha, Ltd., and Kokusai Kaiun Kaisha, Ltd., covering the same trading area.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: August 27, 1954.

By order of the Federal Maritime Board.

[SEAL] THOMAS E. STAKEM, Jr.,
Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1626]

ACF INDUSTRIES, INC.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

In the matter of application by the Boston Stock Exchange for unlisted trading privileges in ACF Industries, Incorporated, Common Stock, $25 Par Value; File No. 7-1626.

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 24th day of August A. D. 1954.

The Boston Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, $25 Par Value, of ACF Industries, Incorporated, a security listed and registered on the New York Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to September 14, 1954, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[F. R. Doc. 54-6870; Filed, Aug. 31, 1954; 8:48 a. m.]

MISSION OIL CO. ET AL.

ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

AUGUST 26, 1954.

In the matter of the Mission Oil Company, Southwestern Development Company and subsidiaries and Sinclair Oil Corporation, File Nos. 54-196, 59-97; Albert R. Jones, et al., File No. 70-2681; Southwestern Development Company, Amarillo Gas Company, Amarillo Oil Company, Clayton Gas Company, Dalhart Gas Company, Red River Gas Company, West Texas Gas Company, File No. 70-3156.

The Commission having on December 24, 1953, granted and permitted to become effective an application-declaration filed pursuant to sections 7, 10, and 12 of the Public Utility Holding Company Act of 1935, by Southwestern Development Company ("Southwestern"), a registered holding company, and its subsidiary companies, Amarillo Gas Company, Amarillo Oil Company, Clayton Gas Company, Dalhart Gas Company, Red River Gas Company and West Texas Gas Company, regarding transactions resulting in the placing of the assets of the Southwestern holding company system in said Amarillo Gas Company, the name of which was to be changed to Pioneer Natural Gas Company ("Pioneer"), and in said Amarillo Oil Company, which was to be a subsidiary company of Pioneer, the elimination of Southwestern as a holding company, and its dissolution; and

The Commission having reserved jurisdiction over all fees and expenses incurred or to be incurred in connection with the proposed transactions and the consummation thereof; and

Applications having been filed for approval of the payment by Southwestern and by Pioneer, its successor corporation, of compensation for services and reimbursement of expenses, rendered or incurred from February 1, 1952, to date, as follows:

(A) FEES AND EXPENSES PREVIOUSLY PAID IN CONNECTION WITH THE PLAN FROM FEBRUARY 1, 1952 TO MAY 31, 1954

	Southwestern Development Company	Pioneer Natural Gas Company	Total
Purcell & Nelson:			
Fees	$5,300.00	$16,000.00	$21,300.00
Expenses	119.87	540.15	660.02
Total	5,419.87	16,540.15	21,960.02
Root, Ballantine, Harlan, Bushby & Palmer:			
Fees		7,500.00	7,500.00
Expenses		104.81	104.81
Total		7,604.81	7,604.81
Baker, Botts, Andrews & Shepherd:			
Fees		25,000.00	25,000.00
Expenses	925.27	456.21	1,381.48
Total	925.27	25,456.21	26,381.48
Akolt, Campbell, Turnquist & Shepherd:			
Fees		3,750.00	3,750.00
Expenses		85.76	85.76
Total		3,835.76	3,835.76
Arthur Young & Company:			
Fees		1,650.00	1,650.00
Expenses		59.49	59.49
Total		1,709.49	1,709.49
Total of items 1 to 5 inclusive:			
Fees	5,300.00	53,900.00	59,200.00
Expenses	1,045.14	1,246.42	2,291.56
Total	6,345.14	55,146.42	61,491.56

(B) ESTIMATES OF FEES AND EXPENSES WHICH IT IS ANTICIPATED WILL BE INCURRED AND PAID IN THE FUTURE

Purcell & Nelson:			
Fees		$3,500.00	$3,500.00
Expenses		230.00	230.00
Total		3,730.00	3,730.00

The Commission having considered said applications and finding that the amounts set forth above are not unreasonable, and that the jurisdiction heretofore reserved over such fees and expenses should be released:

It is ordered, That the jurisdiction heretofore reserved be, and the same hereby is, released.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[File No. 70-3289]

NORTHERN STATES POWER CO.

NOTICE OF FILING REGARDING ISSUANCE AND SALE AT COMPETITIVE BIDDING OF PRINCIPAL AMOUNT OF FIRST MORTGAGE BONDS BY REGISTERED HOLDING COMPANY

AUGUST 26, 1954.

Notice is hereby given that Northern States Power Company, a Minnesota Corporation ("Northern States"), a registered holding company, and a public-utility company, has filed with this Commission a declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (a) and 7 of said act and Rules U-23, U-24, and U-50 promulgated thereunder regarding certain proposed transactions which are summarized as follows:

Northern States proposes to issue and sell at competitive bidding $20,000,000 principal amount of first mortgage bonds to be designated "First Mortgage Bonds, Series due October 1, 1984" (herein sometimes referred to as the "New Bonds"). The coupon rate of the New Bonds (which shall be a multiple of ⅛ of 1 percent), and the price (exclusive of accrued interest) to be paid to Northern States (which price shall be expressed as a percentage of the principal amount of the Bonds and shall be not less than 100 percent and not more than 102¾ percent of the principal amount thereof) will be determined by the bidders. The New Bonds will be issued under the provisions of the Company's existing Indenture, dated February 1, 1937, as supplemented and as to be supplemented by a Supplemental Trust Indenture to be dated as of October 1, 1954.

The proceeds from the sale of the New Bonds will be added to the general funds of the Company. It is estimated that general funds of the Company and its subsidiaries, when augmented by such proceeds and funds available from reserves and earnings, will be sufficient to provide the cash required for expenditures of the Company and its subsidiaries under the construction program for the balance of 1954 and the early months of 1955.

The declaration further states that no State commission, other than the Public Service Commission of North Dakota, and no Federal commission, other than this Commission, has jurisdiction over the transaction proposed by Northern States.

Northern States requests that this Commission's Order become effective upon issuance.

Notice is further given that any interested person may, not later than September 16, 1954, at 5:30 p. m., e. d. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said declaration, as filed or as amended hereafter, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

[SEAL] NELLYE A. THORSEN,
Assistant Secretary.

[Docket No. G-2298]

MONTANA-DAKOTA UTILITIES CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application filed on November 2, 1953, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to construct and operate facilities, as described in said application, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on November 26, 1953 (18 F. R. 7573).

The Commission, on July 2, 1954, issued temporary authorization for the construction and operation of the requested facilities.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on September 27, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: August 25, 1954.

Issued: August 26, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2426]

MONTANA-DAKOTA UTILITIES CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. Applicant having requested that its application, filed May 10, 1954, and supplemented June 28, 1954, pursuant to section 7 of the Natural Gas Act, for authorization to construct and operate certain facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, provided that no request to be heard, protest or petition is filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on May 22, 1954 (19 F. R. 2990).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction

conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on September 10, 1954, at 9:30 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: August 25, 1954.

Issued: August 26, 1954.

[Docket No. G-2576]

COLORADO INTERSTATE GAS CO.

ORDER SUSPENDING REVISED TARIFF SHEETS AND PROVIDING FOR HEARING

On July 30, 1954, Colorado Interstate Gas Company (Colorado Interstate) tendered for filing Second Revised Sheets Nos. 5, 8, 11, 13, and First Revised Sheet No. 13g (superseding First Revised Sheets Nos. 5, 8, 11, 13, and Original Sheet No. 13g) to its FPC Gas Tariff, Original Volume No. 1; Fourth Revised Sheet No. 2 (superseding Third Revised Sheet No. 2) to its FPC Gas Tariff, Original Volume No. 2; and First Revised Sheet No. 2 (superseding Original Sheet No. 2) to its FPC Gas Tariff, Original Volume No. 3, proposed to take effect on September 1, 1954. Second Revised Sheets Nos. 11 and 13 and First Revised Sheet No. 13g, and the tariff sheets they are to supersede, relate to sales of natural gas for resale for industrial use only.

By virtue of such filing, Colorado Interstate proposes an increase in rates and charges of $10,269,000, or 42.2 percent, based on sales for the 12-months ended March 31, 1954, as adjusted for the "test period." The proposed rate increase is in addition to the increased rates in effect subject to refund in Docket No. G-2260.

The increased rates and charges proposed in Second Revised Sheets Nos. 5, 8, 11, and 13, and First Revised Sheet No. 13g to FPC Gas Tariff, Original Volume No. 1, Fourth Revised Sheet No. 2 to FPC Gas Tariff, Original Volume No. 2, and First Revised Sheet No. 2 to FPC Gas Tariff, Original Volume No. 3, have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of the rates, charges, classifications and services of Colorado Interstate's FPC Gas Tariffs and contracts related thereto, as proposed to be amended by said Second Revised Sheets Nos. 5, 8, 11, and 13, and First Revised Sheet No. 13g, Fourth Revised Sheet No. 2, and First Revised Sheet No. 2 and that said tariff sheets, excepting Second Revised Sheets Nos. 11 and 13 and First Revised Sheet No. 13g, be suspended as hereinafter ordered and the use thereof be deferred pending hearing and decision thereon, except as they may become effective as provided by the Natural Gas Act.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of rates, charges, classifications and services contained in Colorado Interstate's FPC Gas Tariffs and contracts relating thereto, as proposed to be amended by Second Revised Sheets Nos. 5, 8, 11, and 13 and First Revised Sheet No. 13g to FPC Gas Tariff, Original Volume No. 1; Fourth Revised Sheet No. 2 to FPC Gas Tariff, Original Volume No. 2; and First Revised Sheet No. 2 to FPC Gas Tariff, Original Volume No. 3.

(B) Pending such hearing and decision thereon, Colorado Interstate's proposed Second Revised Sheets Nos. 5 and 8 to FPC Gas Tariff, Original Volume No. 1, Fourth Revised Sheet No. 2 to FPC Gas Tariff, Original Volume No. 2, and First Revised Sheet No. 2 to FPC Gas Tariff, Original Volume No. 3, be and the same are hereby suspended and the use thereof deferred until February 1, 1955, and until such further time as they may be made effective in the manner prescribed by the Natural Gas Act.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: August 25, 1954.

Issued: August 26, 1954.

By the Commission.

[Project No. 2165]

ALABAMA POWER CO.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

AUGUST 25, 1954.

Public notice is hereby given that Alabama Power Company, of Birmingham, Alabama, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for preliminary permit for proposed waterpower Project No. 2165 to be located on the Black Warrior River and on Sipsey Fork of Black Warrior River in Cullman, Jefferson, Tuscaloosa, Walker, and Winston Counties, Alabama, and to consist of a power plant at existing United States Lock and Dam No. 17 on the Black Warrior River with an initial installed capacity of 25,000 horsepower operating under a gross head of about 69 feet, and a power plant with initial installed capacity of 95,000 horsepower at the proposed New Hope Dam on Sipsey Fork of Black Warrior River, part of a proposed multiple-purpose project described in an interim report dated February 26, 1954, from the Chief of Engineers to the Secretary of the Army. The project as proposed in the Army report includes the construction by the United States of the New Hope Dam, reservoir and power plant, and a power plant at Lock and Dam No. 17. In the event the Army plan is not authorized by Congress and if the applicant is successful in working out an arrangement with the United States and local municipalities, the applicant's project would consist of a high dam, storage reservoir, and power plant at the Upper New Hope site and the power plant at Lock and Dam No. 17. The preliminary permit, if issued, shall be for the sole purpose of maintaining priority of application for a license under the terms of the Federal Power Act for the proposed project.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10), the time within which such petitions must be filed being specified in the rules. The last date upon which protests may be filed is October 8, 1954. The application is on file with the Commission for public inspection.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29617]

LUMBER FROM SOUTH PACIFIC COAST TO WISCONSIN

APPLICATION FOR RELIEF

AUGUST 27, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to his tariff I. C. C. No. 1556.

Commodities involved: Lumber, shingles, and related articles, carloads.

From: Points in South Pacific Coast territory.

To: Chicago, Burlington & Quincy Railroad Company stations Potosi, Wis., through Trempealeau, Wis.

Grounds for relief: Rail competition, circuity and to maintain grouping.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29618]

CLASS AND COMMODITY RATES BETWEEN POINTS IN TEXAS

APPLICATION FOR RELIEF

AUGUST 27, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the aggregate-of-intermediates provision of section 4 (1) of the Interstate Commerce Act.

Filed by: J. F. Brown, Agent, for carriers parties to his tariff I. C. C. 807.

Commodities involved: Class and commodity rates.

Territory: From, to, and between points in Texas.

Grounds for relief: Competition with rail carriers and to meet intrastate rates.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

SUBPART—1954-CROP WHEAT LOAN AND PURCHASE AGREEMENT PROGRAM

MISCELLANEOUS AMENDMENTS

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 19 F. R. 1627, 2562, 3993, 4256, 4399 and 5079, and containing the specific requirements for the 1954-Crop Wheat Price Support Program are hereby amended as follows:

1. Section 421.433 (c) is amended by changing the designation of subparagraph (3) to (4), inserting a new subparagraph (3), and providing for a reference to the new subparagraph (3) in subparagraph (4), so that the amended paragraph (c) reads as follows:

§ 421.433 *Eligible wheat.* * * *

(c) Such wheat must be:

(1) Wheat of any class grading No. 3 or better; or

(2) Wheat of any class grading No. 4 or 5 on the factor of "test weight" and/or because of containing "Durum" and/or "Red Durum" but otherwise grading No. 3 or better; or

(3) Wheat of any class grading Sample on the factor of test weight only but otherwise meeting the requirements of subparagraph (1) or (2) of this paragraph and having a test weight of not less than 40 pounds per bushel; or

(4) Wheat of the class Mixed Wheat, consisting of mixtures of grades of eligible wheat as stated in subparagraph (1), (2), or (3) of this paragraph provided such mixtures are the natural products of the field.

* * * * *

2. Section 421.435 (c) is amended by extending the schedule therein to apply to wheat testing as low as 40 pounds per bushel so that the amended paragraph reads as follows:

§ 421.435 *Determination of quantity.*
* * *

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

42 pounds or over, but less than 43 pounds	70
41 pounds or over, but less than 42 pounds	68
40 pounds or over, but less than 41 pounds	67

3. Section 421.438 (a) (3) is amended by adding Stockton, California, to the list of port terminals where no deduction is made from the terminal support rate because of lack of billing to guarantee outbound movement at the minimum proportional domestic interstate freight rate for wheat shipped by rail, water or truck and stored in such terminals so that the amended subparagraph reads as follows:

§ 421.438 *Determination of support rates.* • • •

(a) *Support rates at designated terminal markets.* • • •

(3) (i) Wheat shipped by rail or water and stored at any of the following terminal markets and for which neither registered freight bills nor registered freight certificates are presented to guarantee outbound movement at the minimum proportional domestic interstate freight rate, shall have a support rate equal to the applicable terminal rate:

Los Angeles, San Francisco, Stockton, and Oakland, Calif.
New Orleans, La.
Baltimore, Md.
Duluth, Minn.
Portland and Astoria, Oreg.
Albany and New York, N. Y.
Philadelphia, Pa.
Galveston and Houston, Tex.
Norfolk, Va.
Seattle, Longview, Tacoma and Vancouver, Wash.
Superior, Wis.

(ii) For wheat received by truck and stored at any of the terminal markets listed in subdivision (i) of this subparagraph, the support rate shall be determined by making a deduction from the terminal rate as follows:

Terminal:	Amount of deduction (cents per bushel)
Los Angeles, San Francisco, Stockton, and Oakland, Calif.; Duluth, Minn.; Portland and Astoria, Oreg.; Seattle, Longview, Tacoma, and Vancouver, Wash.; Superior, Wis	4½
New Orleans, La.; Baltimore, Md.; Philadelphia, Pa.; Galveston and Houston, Tex.; Norfolk, Va.; Albany and New York, N. Y.	6

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C., 1441, 1421)

Issued this 30th day of August 1954.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President, Commodity Credit Corporation.

[F. R. Doc. 54-6899; Filed, Sept. 1, 1954; 8:45 a. m.]

(c) When the quantity of wheat is determined by measurement, a bushel shall be 1.25 cubic feet of wheat testing 60 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 60-pound wheat:

For wheat testing:	Percent
65 pounds or over	108
64 pounds or over, but less than 65 pounds	107
63 pounds or over, but less than 64 pounds	105
62 pounds or over, but less than 63 pounds	103
61 pounds or over, but less than 62 pounds	102
60 pounds or over, but less than 61 pounds	100
59 pounds or over, but less than 60 pounds	98
58 pounds or over, but less than 59 pounds	97
57 pounds or over, but less than 58 pounds	95
56 pounds or over, but less than 57 pounds	93
55 pounds or over, but less than 56 pounds	92
54 pounds or over, but less than 55 pounds	90
53 pounds or over, but less than 54 pounds	88
52 pounds or over, but less than 53 pounds	87
51 pounds or over, but less than 52 pounds	85
50 pounds or over, but less than 51 pounds	83
49 pounds or over, but less than 50 pounds	82
48 pounds or over, but less than 49 pounds	80

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954-CROP RICE LOAN AND PURCHASE AGREEMENT PROGRAM

SUPPORT RATES

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 19 F. R. 3540 and 4591 and containing the specific requirements for the 1954-Crop Rice Loan and Purchase Agreement Program are hereby amended as follows:

In § 421.583 *Support rates*, paragraph (a) is amended to include the value factors for head and broken rice in the table bearing the heading "Value Factors for Head and Broken Rice" so that the table will read as follows:

Group	Rough rice class or variety	Head rice	Broken rice
I	Patna (except the variety Century Patna), and Rexoro (except the variety Rexark).	0.0962	0.0400
II	Blue Bonnet, Mira, Rexark and Century Patna.	.0930	.0400
III	Fortuna, R. N., and Edith	.0900	.0400
IV	Blue Rose (including varieties Improved Blue Rose, Greater Blue Rose, Kanrose and Arkrose), Magnolia, Zenith, Prelude and Lady Wright.	.0805	.0400
V	Pearl, Calrose, Early Prolific, Cahady, and other varieties.	.0745	.0400

[1] These discounts are in addition to the discount of 9 cents per bushel for wheat grading No. 5 on the basis of test weight only and in addtion to any other applicable discounts.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421)

Issued this 30th day of August 1954.

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954-CROP RYE LOAN AND PURCHASE AGREEMENT PROGRAM

ELIGIBLE RYE; DETERMINATION OF QUANTITY

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 19 F. R. 967, 1810, 3124, 4178, 4399 and 5079, and containing the specific requirements for the 1954-crop rye price support program are amended by changing two sections to provide price support for rye grading No. 4 or "Sample" on the basis of test weight, but otherwise grading No. 2 or better and having a test weight of not less than 40 pounds per bushel.

1. Section 421.603 (c) is amended to read as follows:

(c) Such rye must be rye grading No. 2 or better, or rye grading No. 3, No. 4, or "Sample" on the factor of "test weight" only, but otherwise grading No. 2 or better and having a test weight of not less than 40 pounds per bushel.

2. Section 421.605 (c) is amended to read as follows:

(c) When the quantity of rye is determined by measurement, a bushel shall be 1.25 cubic feet of rye testing 56 pounds per bushel. The quantity determined shall be the following percentages of the quantity determined for 56-pound rye:

For rye testing:	Percent
56 pounds or over	100
55 pounds or over, but less than 56 pounds	98
54 pounds or over, but less than 55 pounds	96
53 pounds or over, but less than 54 pounds	95

For rye testing:	Percent
52 pounds or over, but less than 53 pounds	92
51 pounds or over, but less than 52 pounds	91
50 pounds or over, but less than 51 pounds	89
49 pounds or over, but less than 50 pounds	87
48 pounds or over, but less than 49 pounds	86
47 pounds or over, but less than 48 pounds	84
46 pounds or over, but less than 47 pounds	82
45 pounds or over, but less than 46 pounds	80
44 pounds or over, but less than 45 pounds	79
43 pounds or over, but less than 44 pounds	77
42 pounds or over, but less than 43 pounds	75
41 pounds or over, but less than 42 pounds	73
40 pounds or over, but less than 41 pounds	71

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 301, 401, 63 Stat. 1053, 1054, 15 U. S. C. Sup. 714c, 7 U. S. C. Sup. 1447, 1421)

Issued this 30th day of August 1954.

Chapter V—Agricultural Marketing Service, Department of Agriculture

Subchapter B—Export and Domestic Consumption Programs

PART 524—HONEY

SUBPART—HONEY EXPORT PROGRAM VMX 66a (1954 MARKETING SEASON)

DEFINITIONS; TERMINATION OF PROGRAM

The "Honey Export Program VMX 66a (1954 Marketing Season)," 19 F. R. 4491, is hereby amended in the manner provided below:

Paragraph (l) of § 524.387 *Definitions* is hereby amended by deleting the entire paragraph and inserting in lieu thereof the following:

§ 524.387 *Definitions.* • • •

(l) "Filed." Applications are deemed to be filed when received by the appropriate United States Department of Agriculture office or postmarked by any United States Post Office. Claims and related documents are deemed to be filed when received by the appropriate United States Department of Agriculture office.

Notice of termination. Pursuant to § 524.38Z, this program is hereby terminated as of 11:59 p. m., August 30, 1954, but such termination shall not apply to any application filed prior to such time.

Issued this 30th day of August 1954.

(Sec. 32, 49 Stat. 774, as amended; 7 U. S. C. 612c)

[SEAL] FLOYD F. HEDLUND,
Representative of the
Secretary of Agriculture.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter G—Personnel

PART 878—DECORATIONS AND AWARDS

FOREIGN DECORATIONS; COMMENDATION RIBBON

1. Paragraph (a) of § 878.9 is changed as follows:

§ 878.9 *Foreign decorations.* (a) Decorations tendered by a foreign government to members of the Air Force may not be accepted or worn without the express consent of Congress (Clause 8, Section 9, Article I, of the Constitution).

(1) Authority to accept and wear World War II awards tendered by governments of cobelligerent nations, neutral nations, or other American Republics was expressly delegated by law. That authority terminated as of July 24, 1948, and all awards for World War II or peacetime service made after that date must be forwarded in accordance with paragraph (e) of this section.

(2) Authority to approve the acceptance and wearing of awards tendered by coparticipant nations for services in the Berlin airlift, June 26, 1948 to September 30, 1949, was delegated to the Secretary of the Air Force only for the period from May 5, 1950, to September 30, 1951.

(3) Authority to accept and wear awards tendered by governments of foreign nations whose personnel participated with or under the United Nations Command in Korea was expressly granted by law (Pub. Law 354, 83d Cong.; 68 Stat. 79). Such awards, in recognition of heroism, achievement or service, performed after June 26, 1950, while assigned or attached to a unit credited with participation in the Korean Campaign, may be accepted until July 27, 1955. To qualify, awards must be those conferred by such governments upon members of their own military forces. Persons tendered awards under these provisions will forward all elements of the awards as indicated in paragraph (e) of this section for evaluation. Those awards which meet the requirements of the law will be returned to the recipients with authorization for acceptance and wear. The Commander, Far East Air Forces, is delegated authority to approve the acceptance and wear of awards tendered to persons under his command as prescribed by this paragraph.

• • • • • •

(Interprets or applies 40 Stat. 870; 10 U. S. C. 1403)

2. Section 878.22 is changed to read as follows:

§ 878.22 *Commendation Ribbon.* (a) The Commendation Ribbon consists of a ribbon and medallion. The medallion is a bronze hexagon bearing the eagle, shield, and arrows from the seal of the Department of Defense. The ribbon is medium green with white edges and five white lines in the center.

(b) The Commendation Ribbon, established by the Secretary of War, December 18, 1945, is awarded to members of the Armed Forces of the United States who, while serving in any capacity with the Air Force, distinguish themselves by meritorious achievement or meritorious service. The degree of merit need not be unique but it must be distinctive. Acts of courage which do not meet the risk of life requirements for award of the Soldier's Medal may be considered as evidence of a meritorious achievement warranting award of a Commendation Ribbon.

(c) Authority to award the Commendation Ribbon to personnel below the grade of brigadier general is delegated to commanders of major air commands. In wartime, authority may be delegated down to include commanders of air divisions.

(Interprets or applies sec. 2, 56 Stat. 662; 10 U. S. C. 1408b; E. O. 9637, 10 F. R. 12543; 3 CFR, 1945 Supp., as amended by E. O. 9857A, 12 F. R. 3583; 3 CFR, 1947 Supp.)

[AFR 30-14B] (R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a)

[SEAL] K. E. THIEBAUD,
Colonel, U. S. Air Force,
Air Adjutant General.

[F. R. Doc. 54-6886; Filed, Sept. 1, 1954; 8:46 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 40-9]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

PROPELLER REVERSE PITCH INDICATORS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of August 1954.

The currently effective provisions of Part 40 of the Civil Air Regulations contain no requirements for a propeller reverse pitch indicator to indicate to the pilot when a propeller is in reverse pitch. The need for such an indicator has been under consideration for some time and this amendment requires that all airplanes operated under the provisions of this part be equipped with such an indicator after September 1, 1955.

On September 1, 1953, the Board published a notice of proposed rule making in the FEDERAL REGISTER, which was also circulated as Civil Air Regulations Draft Release 53-17, in which it was proposed to amend Parts 40, 41, and 42 of the Civil Air Regulations to require the installation, on airplanes equipped with reversing propellers, of means to indicate to the pilots when the propeller is in reverse pitch. It was intended that such means be permitted to indicate to the pilots when the propeller blade angle is below the normal low pitch position. It was also proposed that the source of indication be actuated by propeller blade angle or be directly responsive to propeller blade angle.

As a result of the comments received, the Board has determined that certain modifications should be accomplished to the proposed rule. Interested persons have recommended that the reverse pitch indicators should not be permitted to give any indication except when the propeller blade angle is below the low pitch stop, in order that no confusion arise as to the action to be taken by the flight crew when such an indication occurs. This recommendation is consistent with the objective sought and the Board is of the opinion that such a change is desirable. This amendment, therefore, makes it clear that no indication may be given at or above the normal low pitch stop position.

In Draft Release 53-17, the Board also proposed that propeller reverse pitch indicators be required to be actuated during the entire period the propeller is in reverse pitch; i. e., below zero degree geometric pitch, and that actuation be permitted at the operator's option in the portion of the reversing cycle between the low pitch stop and zero degree geometric pitch. It appears that there is considerable difference of opinion among interested parties as to the point or range in the reversing cycle where actuation of the reverse pitch indicator would be most advantageous from an operational point of view. In considering the case of unwanted reversal in flight, it appears that actuation early in the cycle might be more desirable. However, from the viewpoint of normal reversing operations during the landing ground run, it appears that actuation late in the cycle might be more desirable. It is believed that from an overall operational point of view, the point of actuation of the reverse pitch indicator in the reversing cycle is not critical. It has also become apparent that the requirement proposed in the Draft Release for early indication may be too restrictive, since it might require other functions of the propeller hub assembly to be unduly compromised. Therefore, this amendment permits actuation of the indicator at any point in the reversing cycle between the low pitch stop position and full reverse pitch.

The Board envisages that considerable operational benefit will result from the incorporation of propeller reverse pitch indicators. Accordingly, it is expected that air carriers will include in the appropriate manuals and other documents used for crew training and indoctrination, suitable information concerning the use of such indicators.

A recommendation has been received for further amendment of this proposal to ensure that certain alternative techniques for indicating reverse thrust may be employed. The Board is of the opinion that the language set forth in this amendment adequately defines the objectives sought, and does not unduly limit the type of indicating means that may be used.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) effective October 1, 1954:

By amending § 40.172 by adding thereto a new paragraph (l) to read as follows:

§ 40.172 *Engine instruments for all operations.* • • •

(l) Effective September 1, 1955, a means shall be provided for each reversible propeller on airplanes equipped with reversible propellers, which will indicate to the pilots when the propeller is in reverse pitch. Such means may be actuated at any point in the reversing cycle between the normal low pitch stop position and full reverse pitch. No indication shall be given at or above the normal low pitch stop position. The source of indication shall be actuated by the propeller blade angle or be directly responsive to the propeller blade angle.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 41-16]

PART 41—CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE THE CONTINENTAL LIMITS OF THE UNITED STATES

PROPELLER REVERSE PITCH INDICATORS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of August 1954.

The currently effective provisions of Part 41 of the Civil Air Regulations contain no requirements for a propeller reverse pitch indicator to indicate to the pilot when a propeller is in reverse pitch. The need for such an indicator has been under consideration for some time and this amendment requires that all airplanes operated under the provisions of this part be equipped with such an indicator after September 1, 1955.

On September 1, 1953, the Board published a notice of proposed rule making in the FEDERAL REGISTER, which was also circulated as Civil Air Regulations Draft Release 53-17, in which it was proposed to amend Parts 40, 41, and 42 of the Civil Air Regulations to require the installation, on airplanes equipped with reversing propellers, of means to indicate to the pilots when the propeller is in reverse pitch. It was intended that such means be permitted to indicate to the pilots when the propeller blade angle is below the normal low pitch position. It was also proposed that the source of indication be actuated by propeller blade angle or be directly responsive to propeller blade angle.

As a result of the comments received, the Board has determined that certain modifications should be accomplished to the proposed rule. Interested persons have recommended that the reverse pitch indicators should not be permitted to give any indication except when the propeller blade angle is below the low pitch stop, in order that no confusion arise as to the action to be taken by the flight crew when such an indication occurs. This recommendation is consistent with the objective sought and the Board is of the opinion that such a change is desirable. This amendment, therefore, makes it clear that no indication may be given at or above the normal low pitch stop position.

In Draft Release 53-17, the Board also proposed that propeller reverse pitch indicators be required to be actuated during the entire period the propeller is in reverse pitch; i. e., below zero degree geometric pitch, and that actuation be permitted at the operator's option in the portion of the reversing cycle between the low pitch stop and zero degree geometric pitch. It appears that there is considerable difference of opinion among interested parties as to the point or range in the reversing cycle where actuation of the reverse pitch indicator would be most advantageous from an operational point of view. In considering the case of unwanted reversal in flight, it appears that actuation early in the cycle

might be more desirable. However, from the viewpoint of normal reversing operations during the landing ground run, it appears that actuation late in the cycle might be more desirable. It is believed that from an overall operational point of view, the point of actuation of the reverse pitch indicator in the reversing cycle is not critical. It has also become apparent that the requirement proposed in the Draft Release for early indication may be too restrictive, since it might require other functions of the propeller hub assembly to be unduly compromised. Therefore, this amendment permits actuation of the indicator at any point in the reversing cycle between the low pitch stop position and full reverse pitch.

The Board envisages that considerable operational benefit will result from the incorporation of propeller reverse pitch indicators. Accordingly, it is expected that air carriers will include in the appropriate manuals and other documents used for crew training and indoctrination, suitable information concerning the use of such indicators.

A recommendation has been received for further amendment of this proposal to ensure that certain alternative techniques for indicating reverse thrust may be employed. The Board is of the opinion that the language set forth in this amendment adequately defines the objectives sought, and does not unduly limit the type of indicating means that may be used.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 41 of the Civil Air Regulations (14 CFR Part 41, as amended) effective October 1, 1954:

By amending § 41.25 by adding thereto a new paragraph (r) to read as follows:

§ 41.25 *Instruments and equipment required for continuance of flight.* • • •

(r) Effective September 1, 1955, a means shall be provided for each reversible propeller on airplanes equipped with reversible propellers, which will indicate to the pilots when the propeller is in reverse pitch. Such means may be actuated at any point in the reversing cycle between the normal low pitch stop position and full reverse pitch. No indication shall be given at or above the normal low pitch stop position. The source of indication shall be actuated by the propeller blade angle or be directly responsive to the propeller blade angle.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 42-26]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

PROPELLER REVERSE PITCH INDICATORS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 27th day of August 1954.

The currently effective provisions of Part 42 of the Civil Air Regulations contain no requirements for a propeller reverse pitch indicator to indicate to the pilot when a propeller is in reverse pitch. The need for such an indicator has been under consideration for some time and this amendment requires that all airplanes operated under the provisions of this part be equipped with such an indicator after September 1, 1955.

On September 1, 1953, the Board published a notice of proposed rule making in the FEDERAL REGISTER, which was also circulated as Civil Air Regulations Draft Release 53-17, in which it was proposed to amend Parts 40, 41, and 42 of the Civil Air Regulations to require the installation, on airplanes equipped with reversing propellers, of means to indicate to the pilots when the propeller is in reverse pitch. It was intended that such means be permitted to indicate to the pilots when the propeller blade angle is below the normal low pitch position. It was also proposed that the source of indication be actuated by propeller blade angle or be directly responsive to propeller blade angle.

As a result of the comments received, the Board has determined that certain modifications should be accomplished to the proposed rule. Interested persons have recommended that the reverse pitch indicators should not be permitted to give any indication except when the propeller blade angle is below the low pitch stop, in order that no confusion arise as to the action to be taken by the flight crew when such an indication occurs. This recommendation is consistent with the objective sought and the Board is of the opinion that such a change is desirable. This amendment, therefore, makes it clear that no indication may be given at or above the normal low pitch stop position.

In Draft Release 53-17, the Board also proposed that propeller reverse pitch indicators be required to be actuated during the entire period the propeller is in reverse pitch; i. e., below zero degree geometric pitch, and that actuation be permitted at the operator's option in the portion of the reversing cycle between the low pitch stop and zero degree geometric pitch. It appears that there is considerable difference of opinion among interested parties as to the point or range in the reversing cycle where actuation of the reverse pitch indicator would be most advantageous from an operational point of view. In considering the case of unwanted reversal in flight, it appears that actuation early in the cycle might be more desirable. However, from the viewpoint of normal reversing operations during the landing ground run, it appears that actuation late in the cycle might be more desirable. It is believed that from an overall operational point of view, the point of actuation of the reverse pitch indicator in the reversing cycle is not critical. It has also become apparent that the requirement proposed in the Draft Release for early indication may be too restrictive, since it might require other functions of the propeller hub assembly to be unduly compromised. Therefore, this amendment permits actuation of the indicator at any point in the reversing cycle between the low pitch stop position and full reverse pitch.

The Board envisages that considerable operational benefit will result from the incorporation of propeller reverse pitch indicators. Accordingly, it is expected that air carriers will include in the appropriate manuals and other documents used for crew training and indoctrination, suitable information concerning the use of such indicators.

A recommendation has been received for further amendment of this proposal to insure that certain alternative techniques for indicating reverse thrust may be employed. The Board is of the opinion that the language set forth in this amendment adequately defines the objective sought, and does not unduly limit the type of indicating means that may be used.

Interested persons have been afforded an opportunity to participate in the making of this amendment and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 42 of the Civil Air Regulations (14 CFR Part 42, as amended) effective October 1, 1954:

By amending § 42.21 (a) by adding thereto a new subparagraph (15) to read as follows:

§ 42.21 *Basic required instruments and equipment for aircraft.* • • •

(a) *VFR (day).* • • •

(15) Effective September 1, 1955, a means shall be provided for each reversible propeller on airplanes equipped with reversible propellers, which will indicate to the pilots when the propeller is in reverse pitch. Such means may be actuated at any point in the reversing cycle between the normal low pitch stop position and full reverse pitch. No indication shall be given at or above the normal low pitch stop position. The source of indication shall be actuated by the propeller blade angle or be directly responsive to the propeller blade angle.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 103]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

The automatic direction finding procedures prescribed in § 609.8 are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation. It an ADF instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport, name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of course; (outbound and inbound); altitudes; limiting distances	Ceiling and visibility minimums		
					Condition	Type aircraft

GCA STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If a GCA instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below. Positive identification must be established with the ground controller. From initial contact with GCA to final authorized landing minimums, the instructions of the GCA controller are mandatory except when (A) visual reference with ground is established on final approach at or before descent to the authorized landing minimums, or (B) at pilot's discretion if it appears desirable to discontinue the approach.

F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-6630; Filed, Sept. 1, 1954; 8:45 a. m.]

[Amdt. 104]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

PART 421—DRY EDIBLE BEAN CROP INSURANCE

SUBPART—REGULATIONS FOR 1950 AND SUCCEEDING CROP YEARS

APPENDIX

Pursuant to authority contained in paragraph (a) of § 421.21 of the above-identified regulations, as amended (14 F. R. 7684; 15 F. R. 2485, 9034; 16 F. R. 3973, 7695, 9302; 17 F. R. 5980, 10537; 18 F. R. 3634, 6992), the following counties have been designated for insurance for the 1954 crop year. The class(es) of beans on which insurance is offered is shown opposite the name of the county.

State and county	*Class(es) of beans insured*
Colorado:	
Dolores	Pinto.
Montezuma	Pinto.
San Miguel	Pinto.
Idaho:	
Cassia	Great Northern, Pinto.
Gooding	Great Northern, Pinto, Small Red.
Jerome	Great Northern, Pinto, Small Red.
Minidoka	Great Northern, Pinto, Small Red.
Twin Falls	Great Northern, Pinto, Small Red.
Michigan:	
Bay	Pea and Medium White.
Huron	Pea and Medium White.
St. Clair	Pea and Medium White.
Saginaw	Pea and Medium White.
Sanilac	Pea and Medium White.
Shiawassee	Pea and Medium White.
Nebraska:	
Morrill	Great Northern, Pinto.
Scotts Bluff	Great Northern, Pinto.
New York:	
Cayuga	Red Kidney.
Genesee	Pea and Medium White, Red Kidney, and White Marrow.
Livingston	Pea and Medium White, Red Kidney, and White Marrow.
Onondaga	Red Kidney.
Wayne	Red Kidney.
Yates	Pea and Medium White, Red Kidney, and White Marrow.
Wyoming:	
Big Horn	Great Northern, Pinto.
Goshen	Great Northern, Pinto.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; 7 U. S. C. 1506, 1516. Interprets or applies secs. 507–509, 52 Stat. 73–75, as amended, Pub. Law 261, 83d Cong.; 7 U. S. C. 1507–1509)

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Agricultural Research Service, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

[B. A. I. Order 383, Revised, Amdt. 35]

PART 76—HOG CHOLERA, SWINE PLAGUE, AND OTHER COMMUNICABLE SWINE DISEASES

SUBPART B—VESICULAR EXANTHEMA

CHANGES IN AREAS QUARANTINED

Pursuant to the provisions of sections 1 and 3 of the act of March 3, 1905, as amended (21 U. S. C. 123, 125), sections 1 and 2 of the act of February 2, 1903, as amended (21 U. S. C. 111–113, 120), and section 7 of the act of May 29, 1884, as amended (21 U. S. C. 117), § 76.27, as amended, Subpart B, Part 76, Title 9, Code of Federal Regulations (19 F. R. 5207), which contains a notice of the areas in which swine are affected with vesicular exanthema, a contagious, infectious, and communicable disease, and which quarantines such areas because of said disease, is hereby further amended in the following respects:

1. Subparagraph (9) of paragraph (a), relating to Modoc County in California, is deleted.

2. Subparagraph (2) of paragraph (a), relating to California, is amended to read:

(2) That area lying north of Humboldt Road, south of Eighth Avenue and Big Chico Creek, west of Ponderosa Way, and east of Forest Avenue, in Butte County.

3. Subdivision (xii) of subparagraph (8) of paragraph (d), relating to Worcester County in Massachusetts, is deleted.

4. Subdivisions (vii), (xi), and (xvii) of subparagraph (8) of paragraph (d), relating to Worcester County in Massachusetts, are amended to read:

(vii) That part of the Town of Holden lying north of Malden Street, south of Paul Street, east of the junction of Harris and Bullard Streets, and west of Malden Brook.

* * * * *

(xi) That part of the Town of Oxford lying north of Dand Road, south of Federal Hill Road, east of Brown Street, and west of Hudson Street; that part of the Town of Oxford lying north of Federal Hill Road, south of Depot Road, east of State Route No. 12, and west of Millbury Street; and that part of the Town of Oxford lying north of Rocky Hill Road, south of the junction of State Route No. 12 and the Boston and Albany Railroad, east of the Boston and Albany Railroad, and west of State Route No. 12.

* * * * *

(xvii) That part of the Town of Sutton lying north of the Hartford Turnpike, south of McClellan Road, east of the Worcester and Providence Turnpike, and west of Hill Road.

5. Subparagraph (1) of paragraph (e), relating to New Jersey, is amended to read:

(1) Bergen, Camden, Gloucester, and Hunterdon Counties.

6. A new subparagraph (8) is added to paragraph (c), relating to Morris County in New Jersey, to read:

(8) All of Morris County except that part of Parsippany-Troy Hills Township north of U. S. Route No. 46, east of Baldwin Road, south of Vail Road, and west of North Beverwyck Road.

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes certain areas in California, Massachusetts, and New Jersey from the areas in which vesicular exanthema has been found to exist and in which a quarantine has been established. Hereafter, the restrictions pertaining to the interstate movement of swine, and carcasses, parts and offal of swine, from or through quarantined areas, contained in 9 CFR, 1953 Supp., Part 76, Subpart B, as amended, will not apply to such areas. However, the restrictions pertaining to such movement from nonquarantined areas, contained in said Subpart B, as amended, will apply thereto.

The amendment relieves certain restrictions presently imposed, and must be made effective immediately to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and the amendment may be made effective less than 30 days after publication in the FEDERAL REGISTER.

(Sec. 7, 23 Stat. 32, as amended, secs. 1, 2, 32 Stat. 791–792, as amended, secs. 1, 3, 33 Stat. 1264, as amended, 1265, as amended; 21 U. S. C. 111–113, 117, 120, 123, 125)

Done at Washington, D. C., this 27th day of August 1954.

[SEAL] B. T. SHAW,
Administrator,
Agricultural Research Service.

[F. R. Doc. 54–6906; Filed, Sept. 1, 1954; 8:47 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Mines

[30 CFR Part 13]

[Bureau of Mines Schedule 14F]

GAS MASKS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Director of the Bureau of Mines, with the approval of the Secretary of the Interior, proposes to amend the regulations in this part governing the testing of gas masks, as indicated below. Interested persons may submit written data, views, or arguments in regard to the proposed regulations to the Director, Bureau of Mines, Department of the Interior, Washington 25, D. C. All communications shall be in triplicate. All relevant material received not later than 30 days after the publication of this notice in the FEDERAL REGISTER will be considered in connection with the issuance of amendments to this part.

Part 13 would be revised as follows:

Sec.
13.1 Definition of a permissible gas mask.
13.2 Type of gas masks.
13.3 Purpose of testing for permissibility.
13.4 Range of concentrations within which gas masks will be approved.
13.5 Conditions under which gas masks will be tested.
13.6 Requirements for Bureau of Mines approval.
13.7 Changing details of test.
13.8 Notification of approval or disapproval.
13.9 Approval markings.
13.10 Material required for Bureau of Mines record.
13.11 Changes subsequent to approval.
13.12 Withdrawal of approval.

AUTHORITY: §§ 13.1 to 13.12 issued under sec. 5, 36 Stat. 370, as amended 30 U. S. C. 7. Interpret or apply secs. 2, 3, 36 Stat. 370, as amended 30 U. S. C. 3, 5.

§ 13.1 *Definition of a permissible gas mask.* (a) A gas mask is permissible for use in air containing limited percentages of certain irrespirable gases and vapors with or without particulate contaminants (dusts, fumes, mists, fogs, and smokes),[1] if all the materials and details of construction and the chemical and physical properties of the absorbents are the same in all respects as those of the gas masks that met the requirements and passed the inspection and tests of the Bureau of Mines as hereinafter described.

(b) Bureau of Mines approval applies only to a complete gas mask and not to integral parts thereof.

[1] This part does not provide for the approval of respirators designed for protection against particulate contaminants alone. Such is done by part 14 of this subchapter.

§ 13.2 *Types of gas masks.* For the purpose of the regulations in this part gas masks are classified as follows:

(a) *Type A.* For protection against acid gases such as chlorine, formic acid, hydrogen chloride, hydrogen cyanide, hydrogen sulfide, phosgene, and sulfur dioxide.

(b) *Type B.* For protection against organic vapors such as acetone, alcohol, aniline, benzene, carbon disulfide, carbon tetrachloride, chloroform, ether, formaldehyde, gasoline and petroleum distillates, toluene, and similar volatile organic compounds.

(c) *Type C.* For protection against ammonia.

(d) *Type D.* For protection against carbon monoxide. In addition to the type designed for regular service, a special self-rescue device will be approved. This special device is to enable the wearer to escape if dangerous concentrations of carbon monoxide should occur, as in a mine fire or explosion.

(e) *Types AB, ABC, etc.* For protection against combinations of gases and vapors as indicated by type letters.

(f) *Types AE, BE, CE, DE, etc.* For protection against the gases and vapors indicated by the first type letter, and dusts, fumes, mists, fogs, and smokes. The type letter E is used to indicate protection against particulate contaminants.

(g) *Type N.* For protection against all of the contaminants listed under the preceding types.

§ 13.3 *Purpose of testing for permissibility.* (a) The Bureau of Mines conducts tests of gas masks for the purpose of determining their permissibility for use in air containing certain gases, vapors, and particulate matter.

(b) This part is for the information and guidance of those who may desire to submit gas masks for approval and also to inform consumers and other interested persons regarding qualities the Bureau believes such devices should have.

§ 13.4 *Range of concentrations within which gas masks will be approved.* (a) The maximum concentration for which approval will be granted is 2 percent of acid gases, 2 percent of organic vapors, 2 percent of carbon monoxide, 3 percent of ammonia, or a total of 2 percent of toxic gases or vapors when more than one is present at a time.

(b) The minimum concentration for which approval will be granted is 1 percent of acid gases, 2 percent of organic vapors, 2 percent of carbon monoxide, and 3 percent of ammonia. Gas masks approved for these minimum concentrations will afford approved respiratory protection for lower concentrations.

(c) The maximum concentration for which any particular type of gas mask has been approved shall become the minimum requirement and no subsequent approval will be granted to any applicant on a gas mask of this type for a maximum concentration lower than this. For example, if approval has been granted on a type C gas mask for protection against a maximum concentration of 3 percent ammonia, no subsequent approval will be granted to any applicant on a type C gas mask for protection against a maximum concentration of less than 3 percent ammonia.

§ 13.5 *Conditions under which gas masks will be tested*—(a) *Consultation.* Manufacturers or their representatives may visit or communicate with the Chief, Health Branch, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, to obtain criticism of proposed designs or to discuss the requirements or regulations in this part in connection with a device to be submitted. No charge is made for this consultation and no written report will be made to the manufacturer.

(b) *Application.* An application for investigation under this part shall be in the form of a letter (in duplicate) addressed to the Chief, Health Branch, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, which contains: (1) Duplicate descriptions and complete drawings of the device (supplemented by available printed matter); (2) a statement that the device is completely developed and of the design and materials which the applicant believes suitable for a finished marketable device; (3) a statement that the device has been subjected to inspections and tests of the nature described in this part and that it has met these requirements when tested by the applicant or his testing agency; (4) two copies of the results of the applicant's inspection and tests; (5) a statement describing the nature, adequacy, and continuity of control of the quality of the gas mask (see paragraph (e) of this section); (6) a request that the necessary inspections and tests leading to approval be made; and (7) a check, draft, or money order, payable to the Treasurer of the United States, to cover the fee for inspection and tests. The fee will be placed on special deposit in the Treasury of the United States, pending disposal as hereinafter specified. No gas mask will be accepted for permissibility tests unless it is substantially in the completed form in which it is to be marketed. Application for tests shall be indicative of this understanding by the applicant. One complete specimen of the device for which approval is desired shall be sent to the Chief, Health Branch. On receipt of this application, fee, descriptive material, test data, and specimen to be tested, the applicant will be notified by the Bureau of its action on the application, the material required for test, and any additional information or specifications that are deemed necessary.

(c) *Fees for testing gas masks.* (1) The following fees are charged for testing gas masks under this part:

1. Type A—Acid gases, complete mask	$765
2. Type B—Organic vapors, complete mask	410
3. Type C—Ammonia, complete mask	410
4. Type D—Carbon monoxide self-rescuer	390
5. Type AE, BE, etc.—Dusts, fumes, mists, fogs, and smokes in combination with any of the above types. Fee in addition to that required for tests with gases or vapors	175
6. Type AB—Acid gases and organic vapors, complete mask	975
7. Complete mask with canister designed for a single gas or vapor	410
8. Facepiece, complete	60
9. Canister alone, fee for complete mask minus fee for facepiece.	
10. Extension of approval to another gas or vapor, or complete retesting with a gas or vapor in case of failure	350
11. Type N—Universal gas mask for all gases and vapors ordinarily encountered in industry, including filters for dusts, fumes, mists, fogs, and smokes	1,300
12. Additional examination and tests in connection with other tests, per man-day required	30
13. Fees for tests of unusually complicated apparatus or for unusual tests or other tests not included in this list or for portions of tests that may be required for extensions of approval will be based on the actual costs of testing, which shall be determined by the Bureau, and the applicant will be notified of the fee before the tests are begun.	

(2) If a gas mask fails to pass any of the specified tests and the applicant notifies the Bureau to terminate further consideration of the device, the Bureau will return the fee to the applicant, less such portion of the fee as the Bureau determines is sufficient to cover the work done. If the applicant resubmits the gas mask for approval after the necessary improvements have been made, an additional fee will be required. The amount of fee charged will be proportional to the additional tests that must be made and will be specified in writing to the applicant in advance of further testing of the gas mask.

(d) *Drawings and specifications required.* (1) Masks submitted for approval will not be inspected or tested until a complete description and two full sets of drawings showing all the details of construction have been delivered to the Chief, Health Branch, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania. The description of the mask shall include a statement of the chemical composition of the absorbent, which will be kept confidential by the Bureau if so requested in writing by the applicant.

(2) The Bureau of Mines will not be responsible for any disclosure of ideas, principles, or patentable features apparent from visual inspection, because under the terms of the application for tests it is understood that the device is ready for release to public market. Caution will be exercised to prevent disclosure of details of the device to the public during approval testing.

(e) *Chemical control of absorbents.* The capacities of absorbents for gases or vapors may vary over wide limits, depending on the materials used and the condition under which each lot is manufactured. To maintain the quality of protection equal to that of devices which were submitted for permissibility tests and to which approval may be granted, each lot of absorbent produced or obtained by a manufacturer must have been adequately sampled and tested for capacity before being used in approved gas masks. Each application for permissibility tests shall be accompanied by a statement showing the nature, adequacy, and continuity of control provided by the applicant. Upon request of the Bureau, the applicant shall grant permission for a representative of the Bureau to inspect the control-test equipment and control-test records and to interview the personnel conducting the control tests. Tests for approval will be made only after the Bureau is satisfied that such control is effective, and approvals once granted will remain in force only while the control is sustained.

(f) *Material required for approval testing.* The number of complete gas masks, canisters, and other parts required will depend on the type and design of the device. After application for tests is received, the applicant will be notified concerning the material that it will be necessary for him to submit. All materials for tests shall be delivered gratis, with transportation charges prepaid by the applicant, to the Chief, Health Branch, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania. The Bureau of Mines may retain as its own property any or all material submitted by the applicant that may be required for record. Material not required for record will be available to the applicant and will be returned at his expense on shipping instructions made in writing to the Chief, Health Branch.

(g) *Where investigations will be conducted.* All investigations are conducted at the Bureau of Mines Central Experiment Station, 4800 Forbes Street, Pittsburgh 13, Pennsylvania.

(h) *Date for conducting tests.* Tests will be made in the order of fulfillment of pretest conditions. The applicant will be notified of the date on which tests will be begun. If a device fails to meet any of the requirements it shall lose its order of precedence. Tests will be resumed following completion of other approval work which is in progress at the time both the request and materials for retesting are received. Exceptions may be made only for minor tests and inspections that may be performed simultaneously with other work in the laboratory.

(i) *Witnesses.* (1) No one shall be present during any part of the formal investigation conducted at the Bureau which leads to permissibility except the necessary Government personnel, representatives of the applicant, and such other persons as the Director, Bureau of Mines, grants permission to attend. Requests for permission to attend any specific part of the investigation conducted at the Bureau shall be in writing and such permission will be granted only in the discretion of the Director, Bureau of Mines. Among the criteria to be viewed by the Director in determining whether to grant such permission is whether the person seeking such permission has an appropriate interest in the application of the results of such investigation to promote safety in the mineral industries. No person will be granted permission to attend any part of the investigation who has a direct or indirect financial interest in the manufacture of a device that is in competition with the one being tested. Except where the public interest requires immediate testing of a particular item, the Bureau shall issue public notice of intention to conduct a test or tests leading to approval for permissibility, including the mailing of notices to such persons and organizations as have requested the Bureau to place their names on the Bureau's mailing list to receive such notices. Those who receive permission to attend any part of the investigation may be present solely as observers; the conduct of the investigation shall be controlled wholly by the Bureau's personnel. Results of chemical analyses of material, and all information contained in the drawings, specifications, and instructions shall be deemed confidential and their disclosure will be appropriately safeguarded by the Bureau.

(2) The Director, Bureau of Mines, may, by notice published in the FEDERAL REGISTER, delegate his authority under this section to any official of the Bureau of Mines.

§ 13.6 *Requirements for Bureau of Mines approval.* To obtain the approval of the Bureau of Mines a gas mask must pass the following inspection and tests:

(a) *Color and markings.* (1) Distinctive colors and markings to indicate the purpose of each canister are required to safeguard wearers. Table 1 contains a list of the required colors.

TABLE 1—COLOR OF GAS MASK CANISTERS

Canister, type letter	Contaminants protected against	Colors [1]
A	Acid gases	White.[2]
A	Hydrocyanic acid gas	White with ½-inch green stripe around the canister near the bottom.
A	Chlorine gas	White with ½-inch yellow stripe around the canister near the bottom.
B	Organic vapors	Black.[2]
C	Ammonia	Green.
D	Carbon monoxide	Blue.
AE, etc.	Dusts, fumes, mists, fogs, and smokes in combination with any of the above gases or vapors.	One-half inch contrasting black or white stripe around the canister near the top.
AB	Acid gases and organic vapors	Yellow.
ABC	Acid gases, organic vapors, and ammonia	Brown.
N	All of the above atmospheric contaminants	Red. Filters are included in this canister, but stripes to indicate them are unnecessary.

[1] Grey will not be assigned as the color of any gas mask canister.
[2] Canisters for a single gas or vapor other than ammonia or carbon monoxide shall have a ½-inch colored stripe around the canister near the bottom. The color of the stripe will be assigned.

(2) All colors used shall be clearly identifiable by the user and clearly distinguishable from one another. The color coating used shall offer a high degree of resistance to chipping, scaling, peeling, blistering, and fading and to the effects of the ordinary atmospheres to which they may be exposed under normal conditions of storage and use.

(b) *Materials.* The gas mask shall be constructed in all of its parts of materials suitable for the purpose they must serve; this applies to the fabric, rubber, metal, chemical, and other parts. All parts (especially rubber) that come into contact with the skin must be of nonirritating composition. All materials used in the construction of facepieces and breathing tubes shall be of a composition that will withstand repeated disinfection by methods recommended by the applicant and approved by the Bureau of Mines. These approved methods for disinfection shall be described in the instructions for use of the device supplied by the manufacturer.

(c) *Design and construction.* (1) Design, mechanical construction, durability, and workmanship shall be satisfactory from the standpoint of safety of the wearer, freedom of movement, field and clearness of vision, fit of the facepiece, and comfort under all conditions of use. Canisters and other parts of necessarily short life or period of use shall be easily replaceable by new or reconditioned parts, and the tightness of the whole apparatus shall be such as to assure the wearer against leaks of contaminated air both before and after such changes have been made.

(2) The gas mask case shall be made of materials suitable for the purpose and shall be designed so that the mask is properly protected and may be removed from the case readily in an emergency.

(d) *Requirements and tests for facepiece*—(1) *General requirements.* (i) The facepiece shall be so constructed as to assure a quick, gastight fit on persons of widely varying facial shapes and sizes.

(ii) The eyepieces shall be of the nonshatter type and so located as to provide a satisfactory field of vision for persons of widely varying facial shapes and sizes. Air shall enter the facepiece in a manner that will inhibit the accumulation of moisture on the eyepieces.

(iii) The exhalation valve shall be guarded to prevent distortion and injury.

(iv) The elastic headbands shall be adjustable and replaceable.

(2) *Tightness test.* (i) Two men, each wearing a facepiece attached to an ammonia canister and canister harness, will enter air containing 1 percent by volume [3] of ammonia. Ten minutes will be spent in work designed to provide observation on freedom from leaks and freedom of movement and comfort allowed the wearers. The time will be divided as follows:

5 minutes—Walking, turning head, dipping chin.
5 minutes—Pumping air with a hand-operated tire pump into a 1-cubic-foot cylinder to a pressure of 25 pounds per square-inch gage, or equivalent work.

(ii) To meet the requirements of this test no ammonia shall be detected in the air breathed, and undue encumbrance and discomfort shall not be experienced because of the fit or other features of the gas mask.

(e) *Requirements and tests for breathing tube.* The flexible rubber breathing tube shall extend from the facepiece to the canister connection. The tube shall permit free hand movement and shall not close off by kinking or by chin or arm pressure, or unduly disturb the wearer.

(f) *Requirements and tests for canister harness.* The canister harness shall be constructed so that it will hold the canister securely and comfortably in place against the body of the wearer. It shall permit canisters to be replaced readily, and shall provide for holding the facepiece in the "ready" position when the facepiece is not being used.

(g) *Requirements and tests for canister*—(1) *Resistance to air flow.* Resistance of the canisters to air flowing at a rate of 85 liters (3 cubic feet) per minute before and after the following machine tests shall not exceed 3 inches (3.25 for Type N or canisters with special mechanical filters) of water-column height at any time.

(2) *Machine tests.* Canisters separated from the facepiece and harness shall meet the requirements of the machine tests as set forth in the following sections. These tests are made on an

[3] All concentrations given in this part have been calculated on a basis of 25° C. and 760 mm. mercury pressure.

apparatus constructed to allow the test atmosphere to enter the canister continuously at predetermined concentrations and rates of flow and that has means for determining the life of the canisters.

(i) *Low-concentration and low-rate-of-flow tests.* (*a*) Tests are made on canisters against low concentrations and at low rates of flow of the appropriate gases or vapors to determine primarily the chemical characteristics of the canisters.

(*b*) Table 2 below lists the conditions for the low-concentration and low-rate-of-flow tests.

TABLE 2—LOW CONCENTRATION AND LOW-RATE-OF-FLOW TESTS

[Relative humidity of test atmosphere: 50 percent. Temperature: Room temperature (approximately 25° C). Rate of flow of test atmosphere: 32 liters per minute continuous flow. Number of canisters: 3 for each test atmosphere.]

Type of canister and gas or vapor	Concentration, percent	Maximum leakage allowed	Minimum life, minutes [1]
A:			
Chlorine	0.5	5 p. p. m.	[2] 72
Hydrogen cyanide	.5	5 p. p. m.	[2] 72
Sulfur dioxide	.5	5 p. p. m.	[2] 72
B:			
Carbon tetrachloride	.5	5 p. p. m.	[2] 72
C:			
Ammonia	2.0	100 p. p. m.	27
D:			
For regular service—Carbon monoxide	1.0	Total: 770 cc. [3]	240
	.5	Total: 770 cc. [3]	60
For self-rescue—Carbon monoxide	1.0	Total: 770 cc. [3]	60
	.5	Total: 770 cc. [3] [4]	30
AB, AC, BC, ABC			(5)
N:			
Chlorine	.5	5 p. p. m.	40
Hydrogen cyanide	.5	5 p. p. m.	40
Sulfur dioxide	.5	5 p. p. m.	40
Carbon tetrachloride	.5	5 p. p. m.	40
Ammonia	2.0	100 p. p. m.	15
Carbon monoxide	1.0	Total: 770 cc. [3]	240
	.5	Total: 770 cc. [3] [4]	60

[1] Tests should be continued until maximum allowable leakage occurs.

[2] This value is for canisters on which approval for the maximum permissible concentration is desired. It should be reduced proportionately for canisters on which approval for a lower concentration is desired. For example, the minimum life would be 36 minutes for canisters on which approval for a concentration of 1 percent is desired.

[3] This represents total carbon monoxide leakage for entire minimum life period shown in next column. In terms of concentration it is equivalent to a uniform flow of 0.01 percent carbon monoxide for 1 hour at 32 liters per minute. Maximum leakage shall not exceed 1,000 p. p. m.

[4] This test is made to determine the activity of the catalyst, which effects the oxidation of carbon monoxide to carbon dioxide, under the adverse condition of a low temperature. The canister and a precooling coil for the entering test atmosphere are immersed in an ice-water bath. The relative humidity of the test atmosphere is 100 percent at 0° C.

[5] These combination gas canisters must meet the life requirements for each type of contaminant against which they are designed to protect.

(ii) *Chemical stability.* (*a*) To determine the chemical stability of the canister under dry and moist conditions, four canisters (for each type of gas) will be treated as follows:

(*1*) Two canisters will be individually equilibrated at room temperature [2] by passing through them carbon dioxide-free air of 25 percent relative humidity at a rate of 64 liters per minute for 6 hours.

(*2*) Two canisters will be individually equilibrated at room temperature by passing through them carbon dioxide-free air of 85 percent relative humidity at a rate of 64 liters per minute for 6 hours.

(*3*) After equilibration, these canisters will be tested within 18 hours against gases or vapors as described in subdivision (i) of this subparagraph. If not tested immediately, the canisters will be resealed and kept in an upright position at room temperature. The gases or vapors against which the equilibrated canisters will be tested are as follows:

Acid gas canister: Chlorine or specific acid gas for which approval is requested.

Organic vapor canister: Carbon Tetrachloride.

Ammonia canister: Ammonia.

Carbon monoxide canister: No test.

Combination gas canister, types AB, AC, BC, or ABC: Two or more of the above gases or vapors.

(*4*) To meet the requirements of these chemical-stability tests, the life of each canister shall be at least one-half of the minimum life requirement as given in Table 2, in subdivision (i) of this subparagraph.

(*b*) (*1*) In canisters designed to protect against carbon monoxide as one of a combination of gases or vapors, the life of a canister for protection against carbon monoxide is directly related to the ability of the drying agent or agents in the canister to remove water vapor from the air passed through it. Such containers should contain enough drying agent to protect the catalyst adequately from water vapor during a 2-hour period of use. Hence, air of 85 percent relative humidity will be passed through two of the canisters individually at a rate of 25 liters per minute for 2 hours. They will be allowed to cool to room temperature and then will be tested within 18 hours against carbon monoxide as described in subdivision (iii) of this subparagraph.

(*2*) To meet the requirements of this test, the life of each canister shall be at least 15 minutes to a leakage of 770 cc. of carbon monoxide, and during this period leakage shall not exceed 1,500 p. p. m. of carbon monoxide at any time.

(iii) *High-concentration and high-rate-of-flow tests.* (*a*) Tests are made on the canister at high concentrations and high rates of flow of the appropriate gases or vapors as a measure of the protection afforded the wearer in high concentrations of these gases or vapors at high rates of breathing. The minimum life requirements of these tests has been chosen so that canisters that meet the requirements should meet the life requirements of the man tests.

(*b*) Table 3 below lists the conditions for the high-concentration and high-rate-of-flow tests.

TABLE 3—HIGH-CONCENTRATION AND HIGH-RATE-OF-FLOW TESTS

[Relative humidity of test atmosphere: 50 percent. Temperature: Room temperature (approximately 25° C). Concentration of gas or vapor: Concentration for which approval is requested. [1] Rate of flow of test atmosphere: 64 liters per minute, continuous flow. Number of canisters: 2 for each test atmosphere.]

Type of canister and gas or vapor	Maximum approval concentration, percent	Maximum leakage allowed	Minimum life, minutes
A:			
Chlorine	2.0	5 p. p. m.	9
Hydrogen cyanide	2.0	5 p. p. m.	9
Phosgene	2.0	5 p. p. m.	9
Sulfur dioxide	2.0	5 p. p. m.	9
B:			
Carbon tetrachloride	2.0	5 p. p. m.	9
C:			
Ammonia	3.0	100 p. p. m.	9
D:			
For regular service—Carbon monoxide	2.0	Total: 770 cc. [2]	15
For self-rescue—Carbon monoxide			No test
AB, AC, BC, ABC			(3)
N:			
Chlorine	2.0	5 p. p. m.	5
Hydrogen cyanide	2.0	5 p. p. m.	5
Sulfur dioxide	2.0	5 p. p. m.	5
Carbon tetrachloride	2.0	5 p. p. m.	5
Ammonia	3.0	100 p. p. m.	5
Carbon monoxide	2.0	Total: 770 cc. [2]	15

[1] See § 13.4.

[2] Maximum leakage shall not exceed 1,000 p. p. m.

[3] These combination gas canisters must meet the life requirements for each type of contaminant against which they are designed to protect.

(iv) *Tests on filters for protection against particulate matter.* (*a*) Gas-mask canisters containing filters for protection against dust, fumes, mists, fogs, and smokes in combination with gases or vapors will be tested to determine the adequacy of the protection afforded in emergencies. No canister will be tested under the regulations in this part for use in dusts, fumes, mists, fogs, and smokes alone. All filters designed for this purpose will be tested under Part 14, Filter-Type Dust, Fume, and Mist Respirators, of this subchapter.

(*b*) Three canisters containing the filters will be tested as follows: Air containing specially prepared tobacco smoke [4] will be admitted to the canister at a rate of 85 liters per minute. The minimum filtering efficiency shall be 50 percent. Efficiency will be determined during the first 5 (approximately) minutes of test.

(*3*) *Indicator for service-life of canister.* Gas masks for protection against carbon monoxide must have a suitable means of indicating when the protection afforded by the canister against carbon monoxide has ended. Tests of such indicators will be arranged by the Bureau to suit the particular case. This requirement does not pertain to the self-rescue devices.

[2] For uniformity of test conditions, this temperature should be between 23° and 27° C.

[4] Katz, S. H., Smith, G. W., and Meiter, E. G., Dust Respirators, Their Construction and Filtering Efficiency: Bureau of Mines Tech. Paper 394, 1926, 52 pp.

(h) *Requirements and tests for complete gas masks.*—(1) *Resistance to air flow.* The maximum resistance requirements of the complete gas mask, including facepiece, breathing tube, and canister, to a continuous flow of air at a rate of 85 liters per minute are as follows: Inhalation, 3.5 inches of water (3.75 for Type N); exhalation, 1.25 inches of water.

(2) *Man tests.* The final criterion for judging a gas mask for approval will be the protection afforded by the complete gas mask when worn by men.

(i) *Gases and vapors.* (*a*) The complete gas mask will be tested against each of the gases or vapors at the concentration for which approval is requested. Self-rescue devices for protection against carbon monoxide will be tested against 1 percent of carbon monoxide. These tests will be made in duplicate, starting with unused canisters for testing against each gas or vapor. If the test atmosphere does not cause marked discomfort through irritation of the skin or poisoning by absorption through the skin, as by hydrocyanic acid gas,[5] two men will wear the complete masks in the test atmosphere. Otherwise the men will wear the mask for 2 minutes (1 minute in hydrocyanic acid gas) in the test atmosphere; and immediately following this the test will be continued with the canister of the mask attached to a source of the test atmosphere, so that the men are in uncontaminated air.

(*b*) During these tests the men will perform the schedule of exercise listed in table 4 below.

TABLE 4—SCHEDULE OF EXERCISE FOR MAN TESTS

Schedule	Time, minutes			
	Type N			
	Carbon monoxide	Organic vapors	Acid gases and ammonia	All other types
Walking vigorously	5	5	5	5
Sitting at rest	5	5	5	5
Stationary running and calisthenic arm movements	10	5	5	10
Sitting at rest	5	5	------	5
Pumping air with a hand-operated tire pump into a 1-cubic foot cylinder to a pressure of 25 lb./sq. in. gage, or equivalent work	5	5	------	5

(c) The average breathing rate of each man while wearing the gas mask and performing the above schedule of exercise will be about 25 liters per minute.

(*d*) To meet the requirements of this test the gas masks shall give complete respiratory protection to wearers for 30 minutes for all types except Type N, which shall give complete respiratory protection against carbon monoxide for 30 minutes, organic vapors for 25 minutes, acid gases for 15 minutes, and ammonia for 15 minutes. Excessive fogging of the eyepieces must not occur, and undue discomfort must not be experienced because of fit or other physical or mechanical features of the gas mask.

(ii) *Particular matter.* Gas masks designed for protection against dusts, fumes, mists, fogs, and smokes will be tested by two men wearing them under the conditions set forth below:

(*a*) *Cotton smoke.* (*1*) Two men will wear the gas masks for 10 minutes in a room of about 1,000 cubic feet capacity filled with the smoke from the smudge-burning of 1 pound of cotton waste.

(*2*) To meet the requirements of this test, the gas masks must afford such protection to the wearers that they will experience no ill effects, such as discomforting irritation of the eyes or respiratory system during or after the test period.

(*b*) *Tin tetrachloride.* (*1*) Two men will wear the gas masks for 20 minutes with the canister connected to a room of about 1,000 cubic feet capacity in which is an atmosphere prepared by vaporizing enough tin tetrachloride to give a calculated concentration of 500 p. p. m. by volume of tin tetrachloride in the air. (Vaporized tin tetrachloride hydrolyses rapidly in moist air to form hydrogen chloride and a dense cloud of stannic hydroxide.)

(*2*) To meet the requirements of this test, the gas masks must afford such protection to the wearers that they will experience no ill effects, such as discomforting irritation of the eyes or respiratory system, during or after the test period.

§ 13.7 *Changing details of tests.* If it is advisable to omit any of the tests or part of a test previously described or to perform accessory tests, the Bureau may modify the test in such manner as to obtain substantially the same information and degree of safety as is provided by the tests described. The applicant will be notified of any changes that may be necessary.

§ 13.8 *Notification of approval or disapproval.* (a) After the Bureau has considered the results of the inspection and tests, a formal written notification of approval or disapproval of the gas mask will be supplied to the applicant by the Bureau. If the device meets all requirements of this part, the notification will not be accompanied by test data or detailed results of tests. If the device fails to meet any of the requirements of this part, notification of such failure will be accompanied by details of the failure with a view to possible remedy of the defect or defects in gas masks submitted in the future. Otherwise, results of tests of gas masks that fail to meet the requirements will not be made public by the Bureau.

(b) No verbal reports of the Bureau's decisions concerning the investigations will be given, and no informal approvals will be granted.

§ 13.9 *Approval markings.* (a) With formal notification of approval the applicant will receive photographs of designs of the official approval labels, one for the complete gas mask and one for the canister. These labels will bear the seal of the Bureau of Mines and be inscribed substantially as follows:

Permissible gas mask or permissible canister for _____
(Name of atmospheric contaminant)
U. S. Bureau of Mines Approval No. _____
Issued to _____
(Name of manufacturer)
Approved for respiratory protection in atmospheres containing not more than ____ percent by volume of _____
(Name of atmospheric contaminant)

(b) Appropriate instruction and caution statements on the use and limitations of the gas mask will be included in these labels.

(c) One label shall be reproduced on the outside of the container of the gas mask. It shall be attached securely and, if a paper label is used, be waterproofed.

(d) The approval label for the canisters shall be suitably reproduced on each canister. If a paper label is used it must be attached to the canister with heat-proofed cement. Should the approval label for the canister not be plainly visible when the latter is attached to the canister harness, it may be necessary to attach a similar label to the canister harness.

(e) The main parts of the gas mask, such as the facepiece, canister harness, and canister, shall be marked by stamping, stenciling, or labeling in a legible and permanent manner with the appropriate approval number in letters and figures at least ⅛ inch high placed in a position plainly visible.

(f) Full-scale designs or reproductions of approval labels and markings and a sketch or description of their position shall be submitted to the Chief, Health Branch, for approval before final adoption.

(g) Permission to place the Bureau's marks of approval on his gas mask obligates a manufacturer to maintain the quality of his product and to have each mask, and all parts thereof, strictly according to the drawings and records that have been accepted by the Bureau for that mask and are in the Bureau's files. Gas masks that exhibit changes in design or include parts that have not been approved for use with the gas mask are not permissible gas masks and must not bear the Bureau's approval label.

§ 13.10 *Material required for Bureau of Mines record.* In order that the Bureau may know exactly what it has tested and approved, detailed records of each investigation are kept. These include drawings and actual equipment, as follows:

(a) *Drawings and specifications.* Drawings and specifications submitted with application for tests and final drawings and specifications that the applicant must submit to the Bureau before approval is granted to show the details of the gas mask as approved, will be retained by the Bureau. The company receiving the approval shall keep an exact duplicate of the set of drawings and specifications that are in the Bureau's records. These are to be ad-

[5] With 2 percent of hydrocyanic acid gas in the air, absorption of the gas through the skin is rapid enough so that poisoning may occur after 3 minutes' exposure; 1 percent may be dangerous after 10 minutes; 0.5 percent may produce symptoms after 30 minutes.

hered to in commercial production of the approved device.

(b) *Actual equipment.* (1) Parts of the gas mask or a complete mask used in the tests may be retained by the Bureau as a permanent record of the investigation and of the mask submitted. Material not required for record will be returned to the applicant at his expense on written shipping instructions to the Chief, Health Branch.

(2) If the gas mask is approved, the applicant shall deliver to the Chief, Health Branch, gratis, one complete gas mask in the form in which it is to be sold, to serve as a record of the commercial product.

§ 13.11 *Changes subsequent to approval.* All approvals are granted with the understanding that the manufacturer will make his gas mask according to final drawings and specifications submitted to the Bureau. Therefore, before making any change in an approved gas mask the manufacturer shall first obtain the Bureau's approval of the change. This procedure is as follows:

(a) The manufacturer shall write to the Chief, Health Branch, Bureau of Mines, 4800 Forbes Street, Pittsburgh 13, Pennsylvania, requesting an extension of his original approval and stating the change or changes desired. He shall send two sets of revised drawings and specifications showing the changes in detail, and one each of the gas mask parts affected to the Chief, Health Branch.

(b) The Bureau will consider the application and inspect the drawings and parts to determine whether it will be necessary to make tests.

(c) If tests are unnecessary, the applicant will be advised formally by the Bureau of the approval or disapproval of the change.

(d) If tests are necessary, the applicant will be advised of the fee and material required.

§ 13.12 *Withdrawal of approval.* The Bureau reserves the right to rescind for cause any approval granted under the regulations of this part.

J. J. FORBES,
Director.

Approved: August 24, 1954.

F. E. WORMSER,
Assistant Secretary of the Interior.

NOTICES

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

SALES OF FLAXSEED AT FIXED PRICES

AUGUST 1954 EXPORT PRICE LIST

Pursuant to the pricing policy of Commodity Credit Corporation issued March 22, 1950, as amended January 9, 1953 (15 F. R. 1583, 18 F. R. 176) and subject to the conditions stated therein, the offering of flaxseed on the export price list for August 1954 (19 F. R. 5235) is hereby withdrawn, effective August 12, 1954, and the following is inserted in lieu thereof:

AUGUST 1954 EXPORT PRICE LIST

Commodity and approximate quantity available (subject to prior sale)	Export price list
Flaxseed.....	Competitive bid basis in quantities, locations and terms as announced by the Minneapolis Commodity office. Offers will be considered basis U. S. Grade No. 1 flax in-store or f. o. b. track at point of storage, or f. o. b. vessel, Duluth. Any offer in excess of 500,000 bushels from any individual, firm, or principal will not be considered. CCC reserves the option of delivering Grade No. 2 at five cents discount, and makes no guarantee regarding dockage. CCC also reserves the right to reject any or all offers.

This change was made necessary because current CCC stocks of flaxseed have been found insufficient to meet the requests by buyers under the prior announcement, and all offers received have been rejected.

(Sec. 407, 63 Stat. 1055, 7 U. S. C. 1427)

Issued: August 30, 1954.

[SEAL] WALTER C. BERGER,
Acting Executive Vice President, Commodity Credit Corporation.

FEDERAL POWER COMMISSION

[Docket No. E-6578]

SOUTHERN CALIFORNIA EDISON CO. AND PACIFIC GAS AND ELECTRIC CO.

ORDER INSTITUTING AN INVESTIGATION

Southern California Edison Company owns and operates the Borel and Kern River No. 1 hydroelectric developments at miles 58 and 37.5, respectively, on the Kern River, California, designated as Projects Nos. 382 and 1930, and Pacific Gas and Electric Company owns and operates at mile 35.5 on the same river the Kern Canyon hydroelectric development, designated as Project No. 178. These projects are located downstream from the Isabella reservoir project constructed by the Corps of Engineers, Department of the Army, for flood control, irrigation, and other related purposes.

Pursuant to the provisions of section 10 (f) of the Federal Power Act, we are required to determine and assess headwater improvement benefit charges against the owner of any project directly benefited by headwater improvements constructed by the United States. A preliminary study by the Commission's staff indicates that the above-designated projects of Southern Edison Company and Pacific Gas and Electric Company on the Kern River may be directly benefited by reason of the construction and operation by the United States of its upstream Isabella reservoir project. Further study and investigation will be required before it can be determined whether any of the above-designated projects is directly benefited by the upstream Isabella reservoir project and, if so, the amount to be paid to the United States for the benefits so provided.

The Commission finds: It is appropriate and in the public interest that an investigation be instituted by the Commission as hereinafter provided.

The Commission orders: An investigation is hereby instituted pursuant to the provisions of the Federal Power Act, particularly section 10 (f) thereof, for the purpose of enabling the Commission to determine whether any of the above-designated projects of Southern California Electric Company and Pacific Gas and Electric Company on the Kern River is directly benefited by the construction and operation of the upstream Isabella reservoir project of the United States and, if it so finds, to assess against Southern California Electric Company and Pacific Gas and Electric Company the equitable proportion of the annual charges for interest, maintenance and depreciation on the Isabella reservoir project.

Adopted: August 25, 1954.

Issued: August 27, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-6888; Filed, Sept. 1, 1954; 8:46 a. m.]

[Docket No. E-6579]

PENNSYLVANIA ELECTRIC CO.

ORDER INSTITUTING AN INVESTIGATION

Pennsylvania Electric Company owns and operates the Piney Plant hydroelectric development at about mile 25 on the Clarion River, Pennsylvania, designated as Project No. 309. This project is located downstream from the East Branch Reservoir under construction by the Corps of Engineers, Department of the Army, and to be operated both for flood control and low-water regulation.

Pursuant to the provisions of section 10 (f) of the Federal Power Act, we are required to determine and assess headwater improvement benefit charges against the owner of any project directly benefited by headwater improvements constructed by the United States. A preliminary study by the Commission's staff indicates that the above-designated project of Pennsylvania Electric Company on the Clarion River may be directly benefited by reason of the construction and operation by the United States of its upstream East Branch Reservoir. Further study and investigation will be required before it can be determined whether the Piney Plant is directly benefited by the upstream East Branch Reservoir and, if so, the amount to be paid to the United States for the benefits so provided.

The Commission finds: It is appropriate and in the public interest that an investigation be instituted by the Commission as hereinafter provided.

The Commission orders: An investigation is hereby instituted pursuant to the provisions of the Federal Power Act, particularly section 10 (f) thereof, for the purpose of enabling the Commission to determine whether the above-designated project of Pennsylvania Electric Company on the Clarion River is directly benefited by the construction and operation of the upstream East Branch Reservoir of the United States and, if it so finds, to assess against Pennsylvania Electric Company the equitable proportion of the annual charges for interest, maintenance and depreciation on the East Branch Reservoir.

Adopted: August 25, 1954.

Issued: August 27, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-2404]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

ORDER FIXING DATE OF HEARING

By order issued on April 8, 1954, the Commission, pursuant to authority contained in section 4 of the Natural Gas Act, ordered that a public hearing be held upon a date to be fixed by further order of the Commission concerning the lawfulness of the rates, charges, services and classifications contained in FPC Gas Tariff, Original Volume No. 1, filed on March 8, 1954, by Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska). Kansas-Nebraska proposed, among other things, in said Volume No. 1, an annual rate increase of $694,000, or 31 percent, to its five wholesale customers, based on sales for the 12-month period ended November 30, 1953. The order also provided that, pending the hearing and decision thereon, said tariff be suspended until September 8, 1954, and until such further time as it may be made effective in the manner prescribed by the Natural Gas Act, unless otherwise ordered by the Commission.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 4, 15, and 16 of the Natural Gas Act, and the Commission's general rules and regulations, including rules of practice and procedure (18 CFR, Chapter I), a public hearing be held commencing on September 15, 1954, at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the lawfulness of the rates, charges, services and classifications contained in the above-described tariff.

(B) At the hearing Kansas-Nebraska shall first present and complete its case-in-chief before cross-examination is undertaken.

(C) Kansas-Nebraska shall serve upon all parties, not later than September 10, 1954, copies of the testimony and exhibits proposed to be offered at the hearing, including five (5) copies upon Commission staff counsel.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: August 25, 1954.

Issued: August 27, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-6890; Filed, Sept. 1, 1954; 8:46 a. m.]

[Docket Nos. G-2409, G-2491]

NORTHERN NATURAL GAS CO.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

Northern Natural Gas Company (Applicant), a Delaware corporation with its principal office at Omaha, Nebraska, filed, on April 19, 1954, an application in Docket No. G-2409, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity authorizing it to construct and operate a certain branch line with measuring and regulating facilities to enable it to provide natural gas service to the Black Dog Lake Power Generating Station of Northern States Power Company, located near St. Paul, Minnesota, as more fully described in said application, which is on file with the Commission and open to public inspection. On August 12, 1954, the Commission issued its order fixing date of hearing in Docket No. G-2409, to commence on September 13, 1954, at 10:00 a. m., e. d. s. t.

Applicant filed another application on July 16, 1954, in Docket No. G-2491, for a certificate of public convenience and necessity authorizing the construction and operation of 1.7 miles of 4-inch pipe line from its Ogden-Waterloo 20-inch line presently under construction, for the sale of natural gas on an interruptible basis to the municipally owned power plant at Grundy Center, Iowa.

The Commission finds:

(1) It is appropriate and in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to hold a public hearing in Docket No. G-2491, as hereinafter provided and ordered.

(2) Good cause exists for consolidation of the above-entitled proceedings for purposes of hearing.

The Commission orders:

(A) The proceedings in Docket Nos. G-2409 and G-2491 be and are hereby consolidated for purposes of hearing.

(B) Pursuant to authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7, 15, and 16 of the Natural Gas Act, and the Commission's rules and regulations, including its rules of practice and procedure (18 CFR, Chapter I), the public hearing to commence September 13, 1954, in Docket No. G-2409, at the time and place specified in the order of August 12, 1954, shall include hearing with respect to the matters and issues presented by the application in Docket No. G-2491.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: August 25, 1954.

Issued: August 27, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-6891; Filed, Sept. 1, 1954; 8:46 a. m.]

[Docket No. G-2523]

ALGONQUIN GAS TRANSMISSION CO.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Algonquin Gas Transmission Company (Algonquin), a Delaware corporation with its principal place of business in Boston, Massachusetts, filed, on August 4, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing increased delivery and sale of natural gas to The Connecticut Power Company (Connecticut).

Algonquin proposes to increase deliveries of gas to Connecticut from the presently authorized maximum of 1,940 Mcf per day to a maximum daily contract quantity of 2,600 Mcf. Delivery is proposed to be made through the existing facilities connecting the two companies authorized in Docket No. G-1319.

Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

The Commission finds:

(1) It is appropriate in the public interest in carrying out the provisions of the Natural Gas Act that due notice of the application, including publication in the FEDERAL REGISTER, be given as hereinafter ordered.

(2) It is appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, that the application filed herein on August 4, 1954, should be set down for public hearing as hereinafter provided and ordered.

The Commission orders:

(A) Due notice be given, including publication in the FEDERAL REGISTER, of this notice of application and order.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on September 15, 1954, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(C) Protests or petitions to intervene may be filed with the Commission in accordance with its rules of practice and procedure, §§ 1.8 and 1.10 (18 CFR 1.8 and 1.10), on or before September 10, 1954.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: August 25, 1954.

Issued: August 27, 1954.

By the Commission.

[Docket Nos. G-2526, 2546]

DELTA DRILLING CO. AND SOUTHERN NATURAL GAS CO.

NOTICE OF APPLICATIONS AND ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

In the matters of Delta Drilling Company, Docket No. G-2526; Southern Natural Gas Company, Docket No. G-2546.

Take notice that there have been filed with the Federal Power Commission interrelated applications as hereinafter specified, each for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act.

Delta Drilling Company (Delta), a Texas corporation with its principal place of business in Tyler, Texas, filed, on August 4, 1954, as operator, for itself and H. L. Hawkins, Sr., H. L. Hawkins, Jr., and F. S. Kelly, Jr., non-operators, an application for a certificate of public convenience and necessity authorizing the sale to Southern Natural Gas Company of natural gas to be produced from the Epps Field in East and West Carroll Parishes, Louisiana.

Southern Natural Gas Company (Southern), a Delaware corporation with its principal place of business in Birmingham, Alabama, filed, on August 16, 1954, its application for a certificate of public convenience and necessity authorizing the construction and operation of a metering station and line tap at a point of interconnection between its main transmission line and Delta's gathering system located in West Carroll Parish, Louisiana. Southern proposes to use the facilities for the measurement of natural gas to be purchased and received by it from Delta in quantities from a minimum of 5,100 Mcf per day to a maximum of 24,481 Mcf per day (14.73 psia).

Both Delta and Southern have requested that their applications be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. The applications are on file with the Commission for public inspection.

The Commission finds:

(1) It is appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, that due notice of the applications herein, including publication in the FEDERAL REGISTER, be given as hereinafter ordered.

(2) It is reasonable and appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to consolidate the above proceedings in Docket Nos. G-2526 and G-2546 for purposes of hearing, and to hold a public hearing in the above-entitled proceedings as hereinafter ordered.

The Commission orders:

(A) Due notice be given, including publication in the FEDERAL REGISTER, of this notice of applications and order.

(B) The aforesaid proceedings in Docket Nos. G-2526 and G-2546 be and the same hereby are consolidated for purposes of hearing.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on September 14, 1954, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the applications: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(D) Protests or petitions to intervene may be filed with the Commission in accordance with its rules of practice and procedure, §§ 1.8 and 1.10 (18 CFR 1.8 and 1.10), on or before September 10, 1954.

(E) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: August 25, 1954.

Issued: August 27, 1954.

By the Commission.

[Docket No. G-2543]

BARNHART HYDROCARBON CORP. ET AL.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that the Barnhart Hydrocarbon Corporation (Applicant), a Delaware corporation having its principal place of business at Big Lake, Texas, filed, on August 13, 1954, an application for itself, and in behalf of all of the independent producers producing natural gas in the Barnhart Field, for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing the several sales of natural gas as hereinafter described.

Applicant presently purchases casinghead gas produced in the Barnhart Field, 10 miles southeast of Big Lake, in Reagan County, Texas. All such gas is purchased at the separators at the wells and is gathered by Applicant in pipelines varying in diameter from 4 to 22 inches, processed in a gasoline plant and the residue consumed in a carbon black plant. Commencing September 1, 1954, Applicant proposes to sell such residue gas to the El Paso Natural Gas Company at the tail gate of its gasoline plant in average volumes of 20,000 Mcf a day at an initial price of 10 cents per Mcf. El Paso Natural Gas Company was authorized to construct and operate facilities enabling it to purchase gas from Applicant by order issued May 20, 1954, in Docket No. G-2356.

Amerada Petroleum Corporation, having its principal place of business in Tulsa, Oklahoma, Paul F. Barnhart, et al, having their principal place of business in Houston, Texas, General American Oil Company of Texas, having its principal place of business in Dallas, Texas, Lamar Fleming, Jr., having his principal place of business in Houston, Texas, Lowe Petroleum Company, having its principal place of business in Midland, Texas, Sharples Oil Company, having its principal place of business in Denver, Colorado, Skelly Oil Company, having its principal place of business in Tulsa, Oklahoma, Southern Production Company, having its principal place of business in Fort Worth, Texas, Superior Oil Company, having its principal place of business in Houston, Texas, and Texas Gulf Producing Company, having its principal place of business in Houston, Texas, sell all the casinghead gas produced in the Barnhart Field, and not used in the field, to Applicant under identical contracts. Applicant states that it represents the aforementioned independent producers for the purpose of obtaining authorization pursuant to section 7 (c) of the Natural Gas Act required to render the sales of natural gas to Applicant as heretofore set forth.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 11th day of September 1954. The application is on file with the Commission for public inspection.

Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

The Commission finds:

(1) It is proper and consistent with the public interest that notice of application and order fixing date of hearing be published simultaneously.

(2) This proceeding, absent proper protest or petition to intervene in opposition to the application, is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on September 14, 1954, at 9:30 a. m., e. d. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Adopted: August 25, 1954.

Issued: August 27, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-6894; Filed, Sept. 1, 1954; 8:47 a. m.]

[Docket No. G-2548]

M. L. MAYFIELD

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that M. L. Mayfield (Applicant), an independent producer of natural gas with his principal place of business in Easton, Louisiana, filed, on August 16, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing the sale of natural gas as hereinafter described.

Applicant proposes to produce gas from acreage located in Pine Prairie field, Evangeline Parish, Louisiana, and to sell a minimum of 2,500 Mcf per day of said gas to United Fuel Gas Company (United) at a price of 16 cents per Mcf for the first year from date of first delivery. The gas is to be delivered to Gulf Interstate Gas Company's (Gulf Interstate) existing line at Ville Platte, Louisiana, for transportation by Gulf Interstate for the account of United. The proposed sale is to be made at the point of interconnection of Applicant's facilities with those of Gulf Interstate. Gulf Interstate states that the facilities required to enable it to take such gas have been certificated by the Commission under Docket No. G-2058.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10), on or before the 15th day of September 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations.

The Commission finds: It is proper and consistent with the public interest that notice of application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on September 20, 1954, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceeding pursuant to the provisions of § 1.30 (c) (2) of the Commission's rules of practice and procedure.

Adopted: August 25, 1954.

Issued: August 27, 1954.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[Notice 23]

MOTOR CARRIER APPLICATIONS

AUGUST 27, 1954.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city, and State address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 49 CFR 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 629 Sub 6, HELM'S NEW YORK-PITTSBURGH MOTOR EXPRESS, INC., 2700 Smallman Street, Pittsburgh 22, Pa. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, (1) between Circleville, Ohio, and Columbus, Ohio, over Ohio Highway 23, serving no intermediate points, and (2) between Lancaster, Ohio, and Columbus, Ohio, over Ohio Highway 33, serving no intermediate points, as alternate or connecting routes in connection with carrier's authorized regular route operations between Cincinnati, Ohio, and Pittsburgh, Pa., (a) over U. S. Highway 22, and (b) over U. S. Highway 40. Applicant is authorized to conduct operations in New Jersey, New York, Ohio, Pennsylvania, and West Virginia.

No. MC 730 Sub 46, PACIFIC INTERMOUNTAIN EXPRESS CO., a corporation, 299 Adeline St., Oakland, Calif. Applicant's attorney: A. S. Glikbarg, 155 Sansome St., San Francisco 4, Calif. For authority to operate as a *common carrier*, transporting: *General commodities*, including *Class A and B explosives, commodities of unusual value*, and *commodities in bulk*, but excluding livestock, household goods as defined by the Commission, and commodities requiring special equipment, serving the Aerojet General Corporation Plant near Nimbus, Calif., as an off-route point, in connection with regular route operations between Salt Lake City, Utah, and San Francisco, Calif., over U. S. Highways 40, 50, 95, and 101, California Highway 4, and an unnumbered California Highway. Applicant is authorized to conduct operations in Arizona, California, Colorado, Idaho, Illinois, Indiana, Kansas, Missouri, Nevada, Utah, and Wyoming.

No. MC 954 Sub 46, MID-STATES FREIGHT LINES, INC., 5200 South Pulaski Road, Chicago 32, Ill. Applicant's attorney: Lee Reeder, Reeder, Gisler & Griffin, Suite 1010, 1012 Baltimore Ave., Kansas City 5, Mo. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Chicago, Ill.,

and the United States-Canada International Boundary line at or near Detroit, Mich., operating (1) from Chicago over presently authorized route (U. S. Highway 20) to South Bend, Ind., thence over Indiana Highway 23 to the Indiana-Michigan State line, thence over Michigan Highway 62 to junction U. S. Highway 112, near Adamsville, Mich., thence over U. S. Highway 112 to Detroit, and (2) from Chicago over U. S. Highway 41 to junction U. S. Highway 20, thence over U. S. Highway 20 to junction Indiana Highway 212, thence over Indiana Highway 212 to junction U. S. Highway 12, thence over U. S. Highway 12 to junction U. S. Highway 112, thence over U. S. Highway 112 to junction by-pass U. S. Highway 112, thence over U. S. Highway 112 to junction by-pass U. S. Highway 112, thence over by-pass U. S. Highway 112 to junction Michigan Highway 112, thence over Michigan Highway 112 to Detroit, Mich., thence over city streets and through the tunnel under, or by way of, the bridge over the Detroit River to the United States-Canada International Boundary line, and return over the same routes, serving no intermediate points, restricted to shipments originating at or destined for points in Canada. Applicant is authorized to conduct operations in Connecticut, Illinois, Indiana, Iowa, Kansas, Massachusetts, Missouri, Nebraska, New Jersey, New York, Ohio, Pennsylvania, and Rhode Island.

No. MC 1300 Sub 1, ALBERT GOLDBERG, doing business as BERWIN TRUCKING CO., 59 Cody St., Ridgewood, N. Y. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Box springs, cots, couches, matresses, double decker bunks*, with metal or wood ends, *metal tables* (bedside or overbed) for hospitals, *metal beds* and *metal bed springs* for hospitals, uncrated, from Bayonne, N. J., to points in New Jersey, Connecticut, Rhode Island, Massachusetts, Philadelphia, Pa., and points in Pennsylvania within 15 miles of Philadelphia, those in Warren, Washington, Saratoga, Schenectady, and Rensselaer Counties, N. Y., and those in that part of New York, on, south and east of New York Highway 7. *Used and damaged shipments* of above commodities from the above-specified destination points to Bayonne, N. J. Applicant is authorized to conduct operations in New York, New Jersey, Connecticut, Rhode Island, Massachusetts, and Pennsylvania.

No. MC 2002, Sub 3, PHILIPP TRANSIT LINES, INC., Hy. 100 East, P. O. Box 441, Washington, Mo. Applicant's attorney: J. R. Rose, Rose and Rose, Jefferson Bldg., Jefferson City, Mo. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, (1) between Hannibal, Mo., and St. Clair, Mo., operating from Hannibal over U. S. Highway 61 to Troy, Mo., thence over Missouri Highway 47 to St. Clair, and return over the same route, serving the intermediate points of Marthasville, Dutzow, Union, Warrenton and Washington, Mo., (2) between Warrenton, Mo., and Kansas City, Kans., over U. S. Highway 40, serving points within the Kansas City, Mo.–Kans. Commercial Zone as defined by the Commission, (3) between Washington, Mo., and Hermann, Mo., over Missouri Highway 100, serving the intermediate point of New Haven, Mo., (4) between Kansas City, Kans., and Drake, Mo., over U. S. Highway 50, serving points within the Kansas City, Mo.-Kans., Commercial Zone as defined by the Commission, (5) between Drake, Mo., and junction U. S. Highway 40 and Missouri Highway 19, near New Florence, Mo., over Missouri Highway 19, serving the intermediate point of Hermann, Mo., and (6) between New Haven, Mo., and junction Missouri Supplemental Highway "E" and Missouri Highway 19, near Swiss, Mo., over Missouri Supplemental Highway "E," serving no intermediate points. NOTE: No service is sought between Hannibal and Washington, Mo., on the one hand, and, on the other, points in the Kansas City, Mo.–Kans., Commercial Zone as defined by the Commission. Applicant is authorized to conduct operations in Illinois and Missouri.

NO. MC 2202 Sub 124, ROADWAY EXPRESS, INC., 147 Park Street, Akron, Ohio. Applicant's attorney: William O. Turney, Turney & Turney, 2001 Massachusetts Avenue, N. W., Washington, 6, D. C. For authority to operate as a *common carrier*, transporting *General commodities*, except livestock, commodities of unusual value, Class A and B explosives, commodities in bulk, those requiring special equipment, and household goods as defined by the Commission, between junction U. S. Highway 60 and Alternate U. S. Highway 71 near Neosho, Mo., and junction U. S. Highway 60 and U. S. Highway 166, southwest of Springfield, Mo., over U. S. Highway 60, serving no intermediate points (service at both junction points for the purpose of joinder only), in connection with applicant's regular route operations between Springfield, Mo., and Joplin, Mo., and between junction U. S. Highway 166 and Alternate U. S. Highway 71 and junction U. S. Highway 60 and 66 south of Miami, Okla. Applicant is authorized to conduct operations in Alabama, Delaware, District of Columbia, Georgia, Illinois, Indiana, Kansas, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

No. MC 2229 Sub 57, RED BALL MOTOR FREIGHT, INC., 1210 South Lamar Street, P. O. Box 3148, Dallas, Tex. Applicant's attorney: Scott P. Sayers, Rawlings, Sayers, Scurlock & Eidson, Century Life Building, Fort Worth, Tex. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, and commodities in bulk serving Swan, Tex., and the site of Tyler Pipe & Foundry Co. thereat in connection with carrier's regular route operations. Applicant is authorized in Certificate No. MC 2229, dated March 6, 1951, to conduct the above-named commodities between Athens, Tex., and Kilgore, Tex., between Tyler, Tex., and Henderson, Tex., and between Jacksonville, Tex., and Gladewater, Tex. Applicant is authorized to conduct operations in Louisiana and Texas.

No. MC 2230 Sub 6, MACK'S TRANSPORT SERVICE, INC., 1215 North 17th Street, Lincoln, Nebr. Applicant's attorney: George S. Dixon, Matheson, Dixon & Brady, Guardian Building, Detroit 26, Mich. For authority to operate as a *common carrier*, over irregular routes, transporting: *New automobiles, trucks, chassis, bodies, cabs* and *parts and accessories*, in initial movements, in truckaway service, from Kenosha, Wis. to Billings, Mont., and points in Nebraska, and those in Carter County, Mont., Lawrence, Custer, Meade, Pennington, Butte and Fall River Counties, S. Dak., Crook County, Wyo., and Ada, Boise, Gem, Canyon, Elmore, Owyhee and Idaho Counties, Idaho. RESTRICTION: Authority applied for herein to be restricted to the transportation of vehicles manufactured by the Hudson Motor Car Division of American Motors, Inc. Applicant is authorized to conduct operations in Idaho, Illinois, Indiana, Iowa, Michigan, Montana, Nebraska, South Dakota, and Wyoming.

No. MC 3468 Sub 135, F. J. BOUTELL DRIVEWAY CO., INC., 705 South Dort Highway, Flint 7, Mich. Applicant's attorney: Harry C. Ames, Jr., Transportation Building, Washington, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *New automobiles, new trucks, new bodies, new cabs*, and *new chassis*, in initial movements, in truckaway service, from Kenosha, Wis., to points in Connecticut, Delaware, Maine, Maryland, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia, and the District of Columbia, and (2) *New automobiles, new trucks, new cabs*, and *new chassis*, in initial movements, in driveaway service, from Kenosha, Wis., to Chicago, Ill., and points in Connecticut, Delaware, Indiana, Kentucky, Maine, Maryland, Michigan, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia, and the District of Columbia. Applicant is authorized to conduct operations in Connecticut, Delaware, the District of Columbia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, and West Virginia.

No. MC 5903 Sub 13, WEST PENN FORWARDING COMPANY, a corporation, 1610 Babcock Boulevard, Pittsburgh 9, Pa. Applicant's attorney: Henry M. Wick, Jr., Delisi and Wick, 1211 Berger Building, P. O. Box 5159 East Liberty, Pittsburgh 19, Pa. For authority to operate as a *common carrier* over regular routes, transporting: (1) *New and used automobiles, trucks, chassis and parts and accessories therefor*, by the truckaway method, restricted to secondary movements, Between points in Wisconsin, Illinois, Indiana, Michigan, Ohio, Pennsylvania, West Virginia, Maryland, New Jersey, New York, and the District of Columbia, as follows: From points on applicant's presently certificated regular routes in Wisconsin, Indiana, Ohio, Pennsylvania, West Virginia, Maryland, the District of Columbia, Cook County, Ill., and Wayne County, Mich., over applicant's presently certificated regular routes to the Pennsylvania-New York State line, thence over New York Highway 5 to Buffalo, N. Y.; From points on applicant's presently certificated regular routes in Wisconsin, Indiana, Ohio, Pennsylvania, West Virginia, Maryland, The District of Columbia, Cook County, Ill., and Wayne County, Mich., over applicant's presently certificated regular routes to the Pennsylvania-New Jersey State line, thence over U. S. Highway 22 to junction New Jersey 24, thence over New Jersey Highway 24 to Newark, N. J., and thence over city streets via Jersey City, N. J., and the Holland Tunnel to New York, N. Y.; From points on applicant's presently certificated regular routes in Wisconsin, Indiana, Ohio, Pennsylvania, West Virginia, Maryland, The District of Columbia, Cook County, Ill., and Wayne County, Mich., over applicant's presently certificated regular routes to Richmond, Ind., thence over U. S. Highway 40 to Cambridge City, Ind., and thence over Indiana Highway 1 to Connersville, Ind.; and return over these routes to the above-specified origin points; serving all intermediate points on the above routes in Wisconsin, Indiana, Ohio, Pennsylvania, West Virginia, Maryland, New Jersey, New York, the District of Columbia, Cook County, Ill., and Wayne County, Mich.; serving the following off-routed points in Pennsylvania: Wilmerding, Coraopolis, Clairton, Braddock, McKeesport, Carnegie, Sharpsburg, Homestead, New Kensington and Aliquippa; and (2) *New Automobiles, trucks, chassis, and parts and accessories therefor*, when accompanying the automobiles, trucks, or chassis, by the truckaway method, restricted to initial movements, From factories or assembly plants at South Bend, Ind., and Kenosha and Racine, Wis., to Pittsburgh, Pa., as follows: From South Bend over U. S. Highway 33 to Elkhart, Ind., thence over Indiana Highway 19 to the Indiana-Michigan State Line thence over Michigan Highway 205 to junction U. S. Highway 112, thence over U. S. Highway 112 to Detroit, Mich., and thence over applicant's presently certificated routes to Pittsburgh; From South Bend over U. S. Highway 20 to Toledo, Ohio, thence over applicant's presently certificated routes to Pittsburgh; From Kenosha over Wisconsin Highway 42 to the Wisconsin-Illinois State line, thence over Illinois Highway 42 to Chicago, Ill., thence over U. S. Highway 41 to junction U. S. Highway 6, thence over U. S. Highway 6 to Fremont, Ohio, and thence over applicant's presently certificated routes to Pittsburgh; From Kenosha to Chicago, Ill., as specified above, thence over U. S. Highway 20 to junction Indiana Highway 2, thence over Indiana Highway 2 to South Bend, Ind., and thence as specified above to Pittsburgh; and From Racine over Wisconsin Highway 42 to Kenosha, thence as specified above to Pittsburgh; serving no intermediate points.

No. MC 19201 Sub 79, PENNSYLVANIA TRUCK LINES, INC., 110 South Main Street, Pittsburgh, Pa. Applicant's attorney; Gilbert Nurick McNees, Wallace & Nurick, Commerce Building, Harrisburg, Pa. For authority to operate as a *common carrier*, transporting: *General commodities, including commodities of unusual value, commodities in bulk, and commodities requiring special equipment*, but excepting Class A and B explosives, and household goods as defined by the Commission, in service auxiliary to, or supplemental of, rail service of The Pennsylvania Railroad Company, (1) Between West Chester, Pa., and junction Pennsylvania Highway 29 and U. S. Highway 30 near Glenlock, Pa., over Pennsylvania Highway 29, serving no intermediate points, and (2) Between West Chester, Pa., and junction U. S. Highways 202 and 30 west of Paoli, Pa., over U. S. Highway 202, serving no intermediate points, as alternate or connecting routes in connection with carrier's regular route operations between Philadelphia, Pa., and West Chester, Pa., and between Philadelphia, Pa., and Whitford, Pa.

No. MC 27063 Sub 2, LIBERTY TRANSFER COMPANY, INC., 5262 Nelson Avenue, Baltimore, Md. Applicant's attorney: S. Harrison Kahn, 726-34 Investment Bldg., Washington, D. C. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Paperboard*, from Baltimore, Md. to Patton, Pa., and *scrap paper*, on return movement. Applicant is authorized to conduct operations in Maryland, Delaware, New York, Pennsylvania, New Jersey, and the District of Columbia.

No. MC 29886 Sub 73, DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample St., South Bend 21, Inc. Applicant's attorney: Charles Pieroni, 523 Johnson Building, Muncie, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Sweepers* and *accessories* used with self-propelled sweepers, and *eductors* unmounted and mounted on trailers or self-propelled units, from Elgin, Ill., to points in the United States, including the District of Columbia.

No. MC 31024 Sub 20 (Reopened-further Hearing) NEPTUNE STORAGE, INC., 369 Hugenot St., New Rochelle, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Tabulating machines*, uncrated, between points in Massachusetts, Connecticut, Rhode Island, New York, New Jersey, and Pennsylvania, on the one hand, and, on the other, points in Arizona, Arkansas, California, Colorado, Idaho, Kansas, Louisiana, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, Oklahoma, South Dakota, Texas, Utah, Washington, and Wyoming.

No. MC 44055 Sub 49, BOS TRUCK LINES, INCORPORATED, 508 South Twelfth Avenue, Marshalltown, Iowa. Applicant's attorney: Stephen Robinson, 1020 Savings & Loan Building, Des Moines 9, Iowa. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, commodities in bulk, commodities requiring special equipment (not including those requiring refrigeration), and those injurious or contaminating to other lading, between junction U. Highway 25), and those within five miles of Detroit, in connection with the carrier's regular route operations; (2) between Kokomo, Ind., and Peru, Ind., over U. S. Highway 31; (3) between Kokomo, Ind., and South Bend, Ind., operating from Kokomo over U. S. Highway 35 to Logansport, Ind., thence over Indiana Highway 25 to Rochester, Ind., and thence over U. S. Highway 31 to South Bend, and return over the same route; (4) between Indianapolis, Ind., and La Porte, Ind., operating from Indianapolis over Indiana Highway 29 to Logansport, Ind., thence over U. S. Highway 35 to La Porte, and return over the same route, serving the off-route points of Zionsville, Bringhurst, Flora, Camden, Sheridan, Culver, Union Center, and Tracy, Ind.; (5) between Logansport, Ind., and Effner, Ind., over U. S. Highway 24; (6) between Lafayette, Ind., and Reynolds, Ind., over Indiana Highway 43, serving the off-route points of Ash Grove and Battle Ground, Ind.; (7) between Remington, Ind., and Rensselaer, Ind., over Indiana Highway 53, serving all intermediate points on routes 2 to 7, inclusive; (8) between Rensselaer, Ind., and Oxford, Ind., operating from Rensselaer over Indiana Highway 114 to Morocco, Ind., thence southward over U. S. Highway 41 to junction U. S. Highway 52, thence over U. S. Highway 52 to junction Indiana Highway 352, thence over Indiana Highway 352 to Oxford, and return over the same route, serving all intermediate points; (9) between junction Indiana Highways 53 and 16 and junction Indiana Highway 16 and U. S. Highway 41, over Indiana Highway 16, serving all intermediate points; (10) between junction U. S. Highway 52 and Indiana Highway 352 and Lafayette, Ind., over U. S. Highway 52, serving all intermediate points; (11) between Indianapolis, Ind., and Lafayette, Ind., over U. S. Highway 52, serving no intermediate points; (12) serving points within five miles of Fort Wayne, Ind., and Baer Field, Ind., as intermediate or off-route points in connection with regular route operations to and from Fort Wayne; (13) between junction U. S. Highway 52 and Indiana Highway 53 and junction U. S. Highway 24 and Indiana Highway 53, over Indiana Highway 53; (14) between junction Indiana Highway 18 and U. S. Highway 52 and junction Indiana Highways 29 and 18, over Indiana Highway 18; (15) between junction Indiana Highways 18 and 39, and Monticello, Ind., over Indiana Highway 39, with service at junction Indiana Highways 18 and 39 for purposes of joinder only of this route with route 14 above; (16) between Lafayette, Ind., and junction Indiana Highways 29 and 26, over Indiana Highway 26; (17) between Fowler, Ind., and junction Indiana Highways 16 and 55, over Indiana Highway 55; (18) between Peru, Ind., and Rochester, Ind., over U. S. Highway 31; (19) between Indianapolis, Ind., and Huntington, Ind., over Indiana Highway 37; (20) between Fort Wayne, Ind., and Auburn, Ind., over Indiana Highway 427, with service at Auburn for purposes of joinder only; (21) between Reynolds, Ind., and La Porte, Ind., operating from Reynolds over Indiana Highway 43 to junction Indiana Highway 2, thence over Indiana Highway 2 to La Porte, and return over the same route; (22) between Rensselaer, Ind., and junction Indiana Highways 114 and 43, over Indiana Highway 114, with service at junction Indiana Highways 114 and 43, limited to the joinder of this route with route above; (23) between Monticello, Ind., and Winamac, Ind., operating from Monticello over Indiana Highway 39 to Buffalo, Ind., thence over Indiana Highway 119 to Winamac, and return over the same route; (24) between Logansport, Ind., and Culver, Ind., over Indiana Highway 17; (25) between Culver, Ind., and Plymouth, Ind., over Indiana Highway 17, routes 13 through 25 inclusive are alternate routes and no service is proposed at intermediate points on said routes; (26) serving points in Marion County, Ind., as off-route points in connection with regular route operations to and from Indianapolis, Ind., (27) serving points within five miles of Lafayette, Ind., as intermediate and off-route points in connection with carrier's regular route operations to and from Lafayette, Ind.; and (28) between Fort Wayne, Ind., and Plymouth, Ind., over U. S. Highway 30, serving no intermediate points, as an alternate route for operating convenience only, restricted to the transportation of shipments originating at Plymouth, Ind., and destined to Detroit, Mich., and originating at Detroit, Mich., and destined to Plymouth and Rochester, Ind.

NO. MC 59105 Sub 2, ANDREW J. VORRO, JR., doing business as VORRO'S EXPRESS, 38 Forest Road, Bristol, R. I. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Providence, R. I., and Boston, Mass., over U. S. Highway 1, serving no intermediate points, as an alternate route, in connection with the carrier's regular route operations (1) between Bristol and Providence, R. I., and (2) between Bristol, R. I., and Boston, Mass. Applicant is authorized to conduct operations in Rhode Island and Massachusetts.

NO. MC 65419 SUB 4, ARMORED CAR COMPANY, INC., 1031 South 6th St., Louisville, Ky. Applicant's attorney: Earl C. Frankenberger, 1104 Kentucky Home Life Bldg., Louisville, Ky. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Money*, including but not limited to *currency, silver coin, minor coin, bullion, securities, bonds and other articles and commodities of unusual value*, and *empty containers*, or *other such incidental facilities* (not specified) used in transporting the commodities specified in this application, between all points in the United States, including the District of Columbia. Applicant is authorized to conduct operations in Kentucky and Indiana.

NO. MC 65916 Sub 8, WARD TRUCKING CORP., 200 Seventh Ave. (Ward Tower), Altoona, Pa. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, (1) between the Pennsylvania Turnpike at Interchange #20 (junction Pennsylvania Highway 72) and junction U. S. Highway 22 and Pennsylvania Highway 72 over Pennsylvania Highway 72, serving no intermediate points, and (2) between the Pennsylvania Turnpike at Interchange #21 (junction Pennsylvania Highway 222) and junction U. S. Highways 22 and 222 over Pennsylvania Highway 222, serving no intermediate points, as connecting routes for operating convenience only in connection with applicant's authorized regular-route operations (a) between Blairsville, Pa., and New York, N. Y., and (b) between Cumberland, Md., and New York, N. Y. Applicant is authorized to conduct operations in Maryland, New Jersey, New York, and Pennsylvania.

NO. MC 66900 Sub 14, HOUFF TRANSFER, INCORPORATED, Post Office Box 61, Weyers Cave, Va. Applicant's attorney: Glenn F. Morgan, 404–406 International Building, Washington 4, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Class A, B, and C explosives* and *blasting supplies*, between points in Virginia and West Virginia. Applicant is authorized to conduct operations in Maryland, Pennsylvania, Virginia, and West Virginia.

NO. MC 68909 Sub 44, DECATUR CARTAGE CO., a corporation, 1934 S. Wentworth Ave., Chicago, Ill. Applicant's attorney: Jack Goodman, 39 South La Salle St., Chicago 3, Ill. For authority to operate as a *common carrier*, over alternate or connecting routes, transporting: *General commodities*, except livestock, Class A and B explosives, inflammables, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between (1) Kenton, Ohio, and Marysville, Ohio, over Ohio Highway 31, and (2) Marysville, Ohio, and Columbus, Ohio, over U. S. Highway 33; serving no intermediate points, for operating convenience only, in connection with (1) regular route operations between (a) Cleveland, Ohio, and Indianapolis, Ind., (b) Marion, Ohio, and Lafayette, Ohio, (c) Sandusky, Ohio, and Springfield, Ohio, and (d) Mansfield, Ohio, and Lima, Ohio, and (2) alternate route operations between Springfield, Ohio, and Toledo, Ohio. Applicant is authorized to conduct operations in Illinois, Indiana, Kentucky, Missouri, and Ohio.

NO. MC 68909 Sub 45, DECATUR CARTAGE CO., a corporation, 1934 South Wentworth Ave., Chicago, Ill. Applicant's attorney: Jack Goodman, 39 South La Salle St., Chicago 3, Ill. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, including *those of unusual value*, but excluding livestock, Class A and B explosives, inflammables, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Chicago, Ill., and junction of U. S. Highways 6 and 41 and Indiana Highway 152, over presently authorized alternate route (Alternate U. S. Highway 30) from Chicago to junction 130th Street and the Calumet Expressway, thence over presently authorized alternate route (Alternate U. S. Highway 30 also known as the Calumet Expressway) to junction the Tri-State Expressway near Lansing, Ill., thence over the Tri-State Expressway to junction Indiana Highway 152, thence over Indiana Highway 152 to junction U. S. Highways 6 and 41, and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations in Illinois, Indiana, Kentucky, Missouri, and Ohio.

NO. MC 74846 Sub 36, (amended) LOUIS G. JOHNSON, West Union Extension, Newark, N. J. Applicant's representative: Bert Collins, 140 Cedar St., New York 6, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Cereal food preparation*, and *teething biscuits*, (1) from points in Wayne, Ontario and Yates Counties, N. Y., to points in Bergen, Essex, Hudson, Union, and Middlesex Counties, N. J., Luzerne, Wyoming, and Lackawanna Counties, Pa., and those in New York, N. Y., Commercial Zone, as defined by the Commission, (2) from Newark, N. Y., to Boston, Mass., (3) from Penn Yan, Geneva, Newark, Holley, Hamlin, East Rochester, Rochester, Williamson, Ontario, Alton, Sodus, Red Creek, Phelps, Manchester, Canandaigua, Rushville, Hilton, Ontario Center, and Marion, N. Y., to Harrisburg, Philadelphia, and Scranton, Pa., Baltimore, Md., and the District of Columbia, (4) from Walcott, Hall, and Shortsville, N. Y., to Harrisburg, Pa., (5) from Egypt, Lyons, Bellona Station, Wolcott, and Hall, N. Y., to the District of Columbia, (6) from Wolcott and Egypt, N. Y., to Baltimore, Md., (7) from Hall and Bellona Station, N. Y., to Baltimore, Md., (8) from Wolcott, Shortsville, and Gorham, N. Y., to points in the Philadelphia, Pa., Commercial Zone as defined by the Commission, and (9) from Fredonia and Oswego, N. Y., to Philadelphia, Pa. *Empty containers, or other such incidental facilities* (not specified) used in transporting the commodities specified, on return movement.

NO. MC 80430 Sub 71, GATEWAY TRANSPORTATION CO., a corporation, 2130–2150 South Ave., La Crosse, Wis. Applicant's attorney: David Axelrod, 39 South La Salle St., Chicago 3, Ill. For authority to operate as a *common carrier*, over alternate routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between (1) Dubuque, Iowa, and Cedar Rapids, Iowa, over U. S. Highway 151, (2) Dubuque, Iowa, and Jacksonville, Ill., over U. S. Highway 61 from Dubuque to junction U. S. Highway 67, thence over U. S. Highway 67 to Jacksonville, and return over the same route, and (3) Alton, Ill., and St. Louis, Mo., over Alternate U. S. Highway 67; serving no intermediate points, for operating convenience only solely for the purpose of transporting traffic moving between Dubuque, Iowa, on the one hand, and points in the St. Louis Commercial Zone, Jacksonville, Ill., and points intermediate between St. Louis and Jacksonville, on the other hand, which in effect is a request for removal of a portion of the restrictions applicable against alternate route operations presently being conducted by the carrier over the above-specified alternate routes under authority in Certificate issued on August 17, 1950, in Docket No. MC 80430 Sub 39. Applicant is authorized to conduct operations in Illinois, Indiana, Iowa, Minnesota, Ohio, and Wisconsin.

NO. MC 87674 Sub 2, BERNERD EDWARD RICE, doing business as RICE TRANSFER AND STORAGE, 117 Lancaster Avenue, Rock Hill, S. C. Applicant's attorney: Frank A. Graham, Jr., 406–7 Palmetto Building, Columbia 1, S. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Meat, meat products* and *meat by-products* and *dairy products*, as defined by the Commission in Ex Parte No. MC 45, from Charlotte, N. C., and Rock Hill, S. C., to points in South Carolina, and those in that part of North Carolina bounded by a line beginning at a point on the North Carolina-South Carolina State line and extending north along North Carolina Highway 77 to Hamlet, thence west along U. S. Highway 74 to Rockingham, thence north along U. S. Highway 220 to Asheboro, thence west along U. S. Highway 64, via Lexington, Mocksville, and Statesville, to Conover, thence west along Alternate U. S. Highway 70 via Hickory, to Hildebran, thence west along U. S. Highway 70 to Morganton, thence south along U. S. Highway 64 to Rutherfordton, thence west along U. S. Highway 64 to Bat Cave, thence southwesterly along U. S. Highway 64 to Hendersonville, thence south along U. S. Highway 25 to the North Carolina-South Carolina State line, and thence east along the North Carolina-South Carolina State line to point of beginning, including points on the indicated portions of the highways specified. Applicant is authorized to conduct operations in North Carolina and South Carolina.

NO. MC 92983 Sub 103 (Amended), ELDON MILLER, INC., 1030 Riverside Drive, Box 232, Iowa City, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Acids* and *chemicals*, in bulk, between points in Arkansas, Iowa, Kansas, Missouri, Nebraska, and Oklahoma (except that no authority is sought to transport liquid chemicals, in bulk, in tank vehicles, (1) from St. Louis, Mo., to points in Iowa and Missouri; and (2) from Military, Kans., to Des Moines, Iowa). Applicant is authorized to conduct operations in Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, West Virginia, and Wisconsin.

NO. MC 93682 Sub 4, COLE'S EXPRESS, a corporation, 76 Dutton Street, Bangor, Maine. Applicant's attorney: Mary E. Kelley, 84 State Street, Boston 9, Mass. For authority to operate as a *common carrier*, over regular routes, transporting: *Class A, B and C explosives*, between Kittery, Maine, and Portland, Maine, over U. S. Highway 1, serving no intermediate points. The carrier is also seeking to remove the exception of Class A and B explosives in its authorized operations and to transport Class A, B, and C explosives between the points and over the regular routes it is authorized to serve in the transportation of general commodities (with exceptions) in the State of Maine.

NO. MC 93903 Sub 4, ANDERSON'S TRUCKING CORPORATION, 93 Marcy Ave., East Orange, N. J. Applicant's attorney: Herman B. J. Weckstein, 1080 Broad Street, Newark 2, N. J. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Concrete pipe*, and *fittings, forms, moulds*, and *equipment* for the manufacture of concrete pipe, between Kennett Square, Pa., on the one hand, and, on the other, points in New Jersey, Delaware, Maryland, Virginia, and the District of Columbia. Applicant is authorized to conduct operations in Connecticut, Delaware, Maryland, Massachusetts, New

Jersey, New York, Pennsylvania, and Rhode Island.

NO. MC 98438 Sub 1, TRUMAN HOLLINSWORTH, doing business as TOMPKINSVILLE TRANSFER COMPANY, Tompkinsville, Ky. Applicant's attorney: Ollie L. Merchant, 712 Louisville Trust Building, Louisville 2, Ky. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading between (1) Louisville, Ky., and the Kentucky-Tennessee State line, over U. S. Highway 31W from Louisville to junction Kentucky Highway 61, thence over Kentucky Highway 61 to Hodgenville, Ky., thence over U. S. Highway 31E to Glasgow, Ky., thence over Kentucky Highway 63 to the Kentucky-Tennessee State line and return over the same route, serving all intermediate points between Glasgow, Ky., and the Kentucky-Tennessee State line, (2) Tompkinsville, Ky., and Center Point, Ky., over Kentucky Highway 100, serving all intermediate points, (3) Gamaliel, Ky., and Fountain Run, Ky., over Kentucky Highway 100, serving all intermediate points, (4) Nashville, Tenn., and Glasgow, Ky., over U. S. Highway 70N from Nashville to junction Tennessee Highway 80, thence over Tennessee Highway 80 to junction Tennessee Highway 52, thence over Tennessee Highway 52 to junction Tennessee Highway 56, thence over Tennessee Highway 56 to the Kentucky-Tennessee State line, thence over route (Kentucky Highway 63) specified under (1) above to Glasgow, and return over the same route, serving all intermediate points between the Kentucky-Tennessee State line and Glasgow, Ky., but no service to be rendered to or from Glasgow, Ky., and (5) Nashville, Tenn., and Campbellsville, Ky., over route specified under (4) above (U. S. Highway 70N from Nashville to junction Tennessee Highway 80, thence Tennessee Highway 80 to junction Tennessee Highway 52, thence Tennessee Highway 52 to junction Tennessee Highway 56, thence Tennessee Highway 56 to the Kentucky-Tennessee State line), thence over routes (Kentucky Highway 63) specified under (1) and (4) above to Tompkinsville, Ky., thence over Kentucky Highway 163 to Edmonton, Ky., thence over U. S. Highway 68 to Campbellsville, and return over the same route, serving all intermediate points between Tompkinsville, Ky., and Campbellsville, Ky. Operations under the requested authority shall be subject to the condition that no service shall be rendered between Louisville, Ky., on the one hand, and, on the other, Nashville, Tenn. Applicant is conducting operation in interstate or foreign commerce in Kentucky under the second proviso of Section 206 (a) (1) of the Interstate Commerce Act.

NO. MC 99022 Sub 1, ROY E. PRATT, Spearfish, S. Dak. Applicant's attorney: R. A. Smiley, Smiley and Clark, Belle Fourche, S. Dak. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, including *commodities of unusual value, class A and B explosives, household goods* as defined by the Commission, *commodities in bulk*, and *commodities requiring special equipment*, (1) between Deadwood, S. Dak., and Spearfish, S. Dak., over U. S. Highway 85; and (2) between Redwater Spur, S. Dak., and Spearfish, S. Dak., over U. S. Highway 85; service is proposed to and from all intermediate points on the above-described routes. Applicant is authorized to conduct operations in South Dakota under the second proviso of Section 206 (a) (1) of the Interstate Commerce Act.

NO. MC 100463 Sub 15, SMITH TRANSPORT LIMITED, A CORPORATION, 637 Simcoe Street South, Oshawa, Ontario, Canada. Applicant's attorney: Harris J. Klein, 280 Broadway, New York 7, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Newsprint*, from Rouses Point, Rooseveltown and Alexandria Bay, N. Y., to points in Vermont, New Hampshire, Massachusetts, New York, and New Jersey. RESTRICTION: The authority applied for herein to be restricted to traffic originating at points in Canada. Applicant is authorized to conduct operations in New York and New Jersey.

NO. MC 100542 Sub 3, ALTA WHITAKER, doing business as C. B. TRUCK LINE, 719 South Ochoa, El Paso, Texas. Applicant's attorney: Joe T. Lanham, Perry Brooks Building, Austin, Texas. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Tornillo, Tex., and Esperanza, Tex., over U. S. Highway 80, serving all intermediate points and the off-route points of Alamo Alto and Acala, Tex. Applicant is authorized to conduct operations in Texas and New Mexico.

NO. MC 101472 Sub 13, L. E. BOLING, 317 South Adams St., Kewanee, Ill. Applicant's attorney: Carl L. Steiner, Axelrod, Goodman and Steiner, 29 South LaSalle St., Chicago 3, Ill. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Malt beverages*, from La Crosse, Wis., to Peoria, Ill., and *empty containers or other such incidental facilities*, (not specified) used in transporting the commodities specified in this application, on return movement. C., and Rockville, Md., operating from Washington over Maryland Highway 190 to junction Maryland Highway 189, thence over Maryland Highway 189 to Rockville, and return over the same route, serving all intermediate points, and (2) Between junction Maryland Highways 190 and 614, and the Maryland-District of Columbia boundary line, operating from junction Maryland Highways 190 and 614 over Maryland Highway 614 to junction Maryland Highway 396 (Massachusetts Avenue Extended), and thence over Maryland Highway 396 to the District of Columbia, and return over the same route, serving all intermediate points. Applicant is authorized to conduct operations in Maryland and the District of Columbia.

NO. MC 114646 SUB 1 (Amended), SOL'S LAKEWOOD LINE, INC., 131 Norfolk St., New York, N. Y. Applicant's attorney: Sol Paseltiner, 20 South Broadway, Yonkers 2, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in special operations in nonscheduled door-to-door service, limited to the transportation of not more than six passengers in one vehicle, not including the driver thereof nor children under 10 years of age who do not occupy a separate seat or seats, between New York, N. Y., on the one hand, and, on the other, Asbury Park, N. J., and points within 20 miles thereof. Applicant is authorized to conduct operations in New Jersey and New York.

CORRECTIONS

Application of Federal Express, Inc., Indianapolis, Ind., Docket No. MC 40302 Sub 15, is the correct docket number assigned to instant application, published on page 5242, issue of Wednesday, August 18, 1954, in lieu of Docket No. MC 40304 Sub 15 as published.

APPLICATIONS UNDER SECTIONS 5 AND 210a (b)

NO. MC–F–5745. Authority sought for purchase by SOUTHERN-PLAZA EXPRESS, INC., 1209 Washington Ave., St. Louis, Mo., of the operating rights of ENGLISH FREIGHT COMPANY, P. O. Box 514, Dallas, Tex., and for acquisition by FIELDING CHILDRESS and COLUMBIA TERMINALS COMPANY, St. Louis, Mo., of control of the operating rights through the purchase. Applicants' attorney: Clarence D. Todd, 944 Washington Bldg., Washington, D. C. Operating rights sought to be transferred: *General commodities*, with certain exceptions, as a *common carrier*, over regular routes, principally between Fort Worth and Houston, Tex.; between Dallas and San Antonio, Tex.; between Houston and El Paso, Tex.; between Fort Worth, Tex., and Oklahoma City, Okla.; and between Dallas, Tex., and Tulsa, Okla., serving numerous intermediate and off-route points. Vendee presently may operate said rights as lessee. Vendee is authorized to operate in Texas, Oklahoma, Arkansas, Kansas, Missouri, and Illinois. Application has not been filed for temporary authority under section 210a (b).

NO. MC–F–5747. Authority sought for purchase by THE ANDREWS MOVING AND STORAGE COMPANY, 6802 Lexington Ave., Cleveland, Ohio, of the operating rights of THE ANDREWS FURNITURE STORAGE COMPANY, 6802 Lexington Ave., Cleveland, Ohio, and for acquisition by R. H. WOODRUFF, N. F. FRERICK, E. R. DOUGLAS, JOHN F. MARSHALL and WILLIAM SCATES, all of Cleveland, Ohio, of control of the operating rights through the purchase. Applicants' attorney: John P. McMahon, 44 East Broad St., Columbus 15, Ohio. Operating rights sought to be transferred: *Household goods*, as a *common carrier*, over irregular routes, between points in Alabama, Connecticut, Delaware, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, Tennessee, Wisconsin, and the District of Columbia. Vendee does not hold authority from the Interstate Commerce Commission. Application has not been filed for temporary authority under section 210a (b).

NO. MC–F–5756. Authority sought for purchase by BELL LINES, INC., 6414 McCorkel Ave., S. E., Charleston, W. Va., of the operating rights of LOWTHER TRUCKING COMPANY, Charlotte, N. C., and for acquisition by JOHN E. AMOS and FRED SCLAVI, Charleston, W. Va., of control of the operating rights through the purchase. Applicants' attorney: Francis W. McInerny, 1625 K St., N. W., Washington 6, D. C. Operating rights sought to be transferred: *General commodities*, with certain exceptions, as a *common carrier*, over regular routes, between Charlotte, N. C., and Rock Hill, S. C., serving all intermediate points; between junction U. S. Highway 21 and unnumbered highway (north of Rock Hill, S. C.) and Red River Mills (Red River, S. C.), serving all intermediate points; between Rock Hill and Great Falls, S. C., between Rock Hill and Clover, S. C., between Rock Hill and Lancaster, S. C., and between Bascomville and Great Falls, S. C., serving all intermediate points; *general commodities*, with certain exceptions, over irregular routes, from Charlotte, N. C., to points in North Carolina and South Carolina; from Wilmington, N. C., and points in South Carolina, to Charlotte, N. C.; *tires, tire accessories, batteries, paint, lacquers, varnishes, painters supplies*, and *lumber*, from, to and between points in North Carolina and South Carolina. Vendee is authorized to operate in Indiana, Ohio, Pennsylvania, North Carolina, South Carolina, Kentucky, Virginia, and West Virginia. Application has been filed for temporary authority under section 210a (b).

NO. MC–F–5757. Authority sought for control and merger by THE GREYHOUND CORPORATION, 2600 Board of Trade Bldg., Chicago, Ill., of the operating rights and property of THE SOUTHERN LIMITED, INC., 1619 South State St., Chicago, Ill. Applicants' attorney: Jack R. Turney, Jr., 2001 Massachusetts Ave., NW., Washington 6, D. C. Operating rights sought to be controlled and merged: *Passengers and their baggage*, as a *common carrier*, over regular routes, between Chicago, Ill., and Paducah, Ky., and between Paris, Ill., and Evansville, Ind., serving all intermediate points. Applicant is authorized to operate in Ohio, Indiana, Michigan, Illinois, Missouri, Iowa, Massachusetts, Maine, New Hampshire, California, Nebraska, New York, New Jersey, Wyoming, Pennsylvania, Utah, Kentucky, South Dakota, West Virginia, Kansas, Georgia, Louisiana, Nevada, Alabama, Florida, Mississippi, Tennessee, Arizona, Arkansas, Colorado, Washington, Oregon, Idaho, Minnesota, and Montana. Application has been filed for temporary authority under section 210a (b).

NO. MC–F–5766. Authority sought for purchase by SPEEDWAY TRANSPORTS, INC., 3548 S. Grand Ave., St. Louis 18, Mo., of the operating rights of AUTOMOBILE CONVOY COMPANY, 6110 Natural Bridge Rd., St. Louis 20, Mo., and for acquisition by EDGAR S. IDOL, St. Louis, Mo., of control of the operating rights through the purchase. Person to whom correspondence should be addressed: Edgar S. Idol, 3548 S. Grand Ave., St. Louis 18, Mo. Operating rights sought to be transferred: *Automobiles, trucks, bodies, automobile parts, trailers, tractors, chassis, cabs, and related articles, automobile show equipment and paraphernalia*, as a *common carrier*, over irregular routes, from, to and between points in Missouri, Illinois, Indiana, and Michigan. Vendee is authorized to operate in Wisconsin, Illinois, Missouri, Kentucky, Arkansas, and Indiana. Application has been filed for temporary authority under section 210a (b).

NO. MC–F–5770. Authority sought for purchase by SAFEWAY TRUCK LINES, INC., 4125 So. Emerald Ave., Chicago, Ill., of a portion of the operating rights of LEE BROTHERS, INC., 601 W. 51st St., Chicago, Ill., and for acquisition by W. S. HARRINGTON and JOHN T. BOYKE, Chicago, Ill., of control of the operating rights through the purchase. Applicants' attorney: Joseph M. Scanlan, 111 W. Washington St., Chicago 2, Ill. Operating rights sought to be transferred: *General commodities*, with certain exceptions, as a *common carrier*, over irregular routes, from points in the Chicago Commercial Zone to points in Indiana; from points in New York to points in Ohio and Indiana; between points in the Chicago, Ill., Commercial Zone and points in Ohio, New York and Pennsylvania; *fruit juices, jams, jellies and preserves*, from Westfield and Silver Creek, N. Y., to Lawton, Mattawan, and Detroit, Mich., and from North East, Pa., to Lawton and Mattawan, Mich.; *butter* from Bay City, Mich., to Syracuse, Rochester, Utica, Amsterdam, Schenectady, Albany, Troy and Binghamton, N. Y.; *dairy products*, between Pine Camp, N. Y., on the one hand, and, on the other, Detroit, Mich., Erie, Pa., Cleveland, Ohio, and Indianapolis, Ind.; *cocoa, chocolate and confectionery*, between Syracuse, Fulton, and Oswego, N. Y., on the one hand, and, on the other, Detroit, Mich., and Indianapolis, Ind. Vendee is authorized to operate in Kansas, Nebraska, Missouri, New Jersey, Connecticut, Massachusetts, Rhode Island, Colorado, Iowa, Kentucky, Minnesota, Maryland, Delaware, West Virginia, Maine, Wisconsin, and the District of Columbia. Application has not been filed for temporary authority under section 210a (b).

NO. MC–F–5772. Authority sought for control and merger by DEALERS TRANSIT, INC., 3401 North Dort, Flint, Mich., of the operating rights and property of DEALER'S TRANSPORT COMPANY, 12933 S. Stoney Island Ave., Chicago 33, Ill., and for acquisition by W. F. CAREY and BERT B. BEVERIDGE, Flint, Mich., of control of said operating rights and property through the transaction. Applicants' attorney: James W. Wrape, Sterick Bldg., Memphis, Tenn. Operating rights sought to be controlled and merged: *Automobiles, trucks, trailers, bodies, cabs, chassis, tractors, commercial automotive vehicles, buses, automotive show displays and equipment, automotive parts and equipment*, as a *common carrier*, over irregular routes, from, to and between points in the United States. Applicant is not a motor carrier but is affiliated with Automobile Carriers, Inc., and C & J Commercial Driveaway Co., Inc. One or both of said affiliates are authorized to operate in Michigan, Nebraska, Alabama, Illinois, Georgia, Indiana, Iowa, Missouri, Tennessee, Ohio, Wisconsin, Kentucky, Minnesota, New Jersey, New York, Pennsylvania, West Virginia, and the District of Columbia. Application has not been filed for temporary authority under section 210a (b).

SECURITIES AND EXCHANGE COMMISSION

[File No. 7–1627]

OWENS-ILLINOIS GLASS CO.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 27th day of August A. D. 1954.

The Boston Stock Exchange, pursuant to Section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F–1 thereunder, has made application for unlisted trading privileges in the Common Stock, $12.50 Par Value, of Owens-Illinois Glass Company, a security listed and registered on the New York Stock Exchange.

Rule X-12F–1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to September 17, 1954, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

FEDERAL REGISTER

VOLUME 19 NUMBER 172

Washington, Friday, September 3, 1954

TITLE 3—THE PRESIDENT

PROCLAMATION 3065

FIRST INTERNATIONAL INSTRUMENT CONGRESS AND EXPOSITION

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the First International Instrument Congress and Exposition is to be held at Philadelphia, Pennsylvania, from September 13 to 25, 1954, inclusive, for the purpose of exhibiting various kinds of scientific instruments and devices and the promotion of foreign and domestic trade and commerce in such products; and

WHEREAS the Congress, by a joint resolution approved August 28, 1954, authorized the President of the United States of America, by proclamation or in such other manner as he may deem proper, to invite the States of the Union and foreign countries to participate in such International Congress and Exposition; and

WHEREAS the participation by the States of the Union and foreign countries in the First International Instrument Congress and Exposition will advance the arts and sciences connected with the theory, design, manufacture, and use of instruments in the various sciences and technologies, and further foreign and domestic commerce in these articles:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby invite the States of the Union and all countries of the free world to participate in the First International Instrument Congress to be held at Philadelphia, Pennsylvania, from September 13 to September 25, 1954, inclusive.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this twenty-eighth day of August in the year of our Lord nineteen hundred [SEAL] and fifty-four, and of the Independence of the United States of America the one hundred and seventy-ninth.

DWIGHT D. EISENHOWER

By the President:

WALTER B. SMITH,
Acting Secretary of State.

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas), Department of Agriculture

PART 728—WHEAT

SUBPART—1955-56 MARKETING YEAR

PROCLAMATION OF THE RESULTS OF MARKETING QUOTA REFERENDUM

Section 728.508 is issued to announce the results of the wheat marketing quota referendum for the marketing year July 1, 1955, through June 30, 1956, under the provisions of the Agricultural Adjustment Act of 1938, as amended. The Secretary proclaimed a marketing quota for wheat for the 1955-56 marketing year (19 F. R. 3863). The Secretary announced (19 F. R. 3899) that a referendum would be held on July 23, 1954, to determine whether wheat producers were in favor of or opposed to marketing quotas for the marketing year July 1, 1955, through June 30, 1956. Since the only purpose of this proclamation is to announce results of the referendum, it is found and determined that with respect to this proclamation application of the notice and procedure provisions of the Administrative Procedure Act is unnecessary.

§ 728.508 *Proclamation of the results of the wheat marketing quota referendum for the marketing year 1955-56.* In a referendum of farmers engaged in the production of wheat for the 1955 crop

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 814.11, Amdt. 1]

PART 814—ALLOTMENT OF SUGAR QUOTAS

PUERTO RICO, 1954

Basis and purpose. This amendment is issued under section 205 (a) of the Sugar Act of 1948, as amended (hereinafter called the "act"), for the purpose of revising Sugar Regulation 814.11 (19 F. R. 2006) which allots the 1954 sugar quota for Puerto Rico for consumption in the continental United States (including raw sugar transferred for further processing and shipment within the direct-consumption portion of such quota) and the 1954 sugar quota for local consumption in Puerto Rico among persons who process Puerto Rican sugarcane into sugar (1) to be brought into the continental United States and (2) to be marketed for local consumption in Puerto Rico.

The sugar quota for Puerto Rico for consumption in the continental United States is referred to herein as "mainland quota" and allotments thereof are referred to as "mainland allotments." The sugar quota for consumption in Puerto Rico and allotments thereof are referred to as "local quota" and "local allotments," respectively.

Revision of Sugar Regulation 814.11 is necessary to substitute in the determination of allotments the final data on processings of sugar from 1953–54 crop cane, and January 1, 1954, carryover of sugar.

The allotments established by the initial order were based upon certification to the allottees as of January 27, 1954 of the quantities of sugar that might be produced from 1953–54 crop sugarcane to which proportionate shares pertained and estimates of the quantity of carryover sugar of each allottee on hand January 1, 1954, whether in Puerto Rico, afloat, or in bond in the continental United States. Therefore, in order to prevent any allottee from marketing sugar in excess of the allotment established therefor on the basis of the final data, marketings were limited to 80 percent of the allotments. Final data on 1953–54 crop processings and January 1, 1954 inventories of sugar are now available and are set forth in the following table together with the measures of the three factors "processings • • • from proportionate shares • • • ," past marketings," and "ability to market":

Processor	Sugar produced from 1953–54 crop sugarcane	Average annual marketings of sugar 1949–53	Jan. 1, 1954, carryover of sugar	Sugar produced from 1953–54 crop cane plus Jan. 1, 1954, carryover of sugar

All other persons	99,106	99,761	7,014	106,120
Total	1,203,969	1,126,953	138,694	1,342,663

Each allottee under § 814.11 has agreed to waive its right to a public hearing prior to the revision of the order to give effect to final 1953–54 crop production and January 1, 1954 carryover data. This agreement was conditioned upon the use of the same allotment formula as was used in the initial order. The revised allotments are based on the same formula used in the initial order. This amendment allots the full amount of both quotas.

Since a number of allottees have already brought in or marketed a large portion of their initial allotments, it is imperative that this amendment become effective at the earliest possible date in order to permit continued orderly marketing of sugar. Accordingly, it is hereby found that compliance with the 30-day effective date requirement of the Administrative Procedure Act (60 Stat. 237) is impracticable and contrary to the public interest and consequently this order shall be effective when published in the FEDERAL REGISTER.

Pursuant to the authority vested in the Secretary of Agriculture by section 205 (a) of the act, paragraphs (a) and (c) of § 814.11[1] are hereby amended to read as follows:

§ 814.11 *Allotment of 1954 sugar quotas for Puerto Rico*—(a) *Allotments.* The 1954 sugar quota for Puerto Rico for consumption in the continental United States (including raw sugar to be further processed and marketed within the direct-consumption portion of such quota) and the 1954 sugar quota for local consumption in Puerto Rico are hereby allotted to the following processors in quantities which appear in columns (1) and (2) opposite their respective names:

Processor	Mainland allotment	Local allotment
	(1)	(2)
	(short tons, raw value)

TITLE 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

CONTINUATION IN EFFECT OF EXISTING CONTROLS CONSISTENT WITH ATOMIC ENERGY ACT, 1954

Pursuant to the Atomic Energy Act of 1954 (Public Law 703, 83d Congress) and section 4 (a) of the Administrative Procedure Act of 1946, as amended (Public Law 404, 79th Congress), the following note affecting Title 10, Chapter I, Code of Federal Regulations, entitled "Atomic Energy Commission", is promulgated as a rule of the Atomic Energy Commission.

NOTE: Until further order of the Atomic Energy Commission, all provisions of rules, regulations, and notices, published by the Atomic Energy Commission in the FEDERAL REGISTER under the authority of the Atomic Energy Act of 1946, and in effect immediately prior to the effective date of the Atomic Energy Act of 1954, are continued in force and effect to the extent that they are not inconsistent with the Atomic Energy Act of 1954. The term "fissionable material", as used in such rules, regulations, and notices, means special nuclear material as defined in the Atomic Energy Act of 1954.

Effective date. This rule is effective as of the effective date of the Atomic Energy Act of 1954. Notice and public procedure is omitted for good cause found by the Atomic Energy Commission on the ground that such would be contrary to the public interest by reason of the fact that the public health and safety and the national defense necessitate the uninterrupted continuation of the effectiveness of all existing controls. However, the provisions hereof are considered as interim provisions by the Commission and comments by all interested parties are invited.

Dated at Washington, D. C., this 30th day of August 1954.

K. D. NICHOLS,
General Manager.

[F. R. Doc. 54-6920; Filed, Sept. 2, 1954; 8:45 a. m.]

PART 50—CONTROL OF FACILITIES FOR THE PRODUCTION OF FISSIONABLE MATERIAL

DEFINITION OF PRODUCTION FACILITY

Pursuant to the Atomic Energy Act of 1954 (Public Law 703, 83d Congress) and section 4 (a) of the Administrative Procedure Act of 1946, as amended, Public Law 404, 79th Congress, Title 10, Chapter I, Part 50, Code of Federal Regulations, entitled "Control of Facilities for the Production of Fissionable Material", is amended as set forth hereunder.

1. Amend § 50.2 by adding the following new paragraph (g).

(g) The Commission has determined pursuant to section 11 p of the Atomic Energy Act of 1954 that the term "production facility" includes all facilities for the production of fissionable material as defined in this part. The Commission has also determined that the general licensing of items in Schedule B pursuant to § 50.12 (b) will not constitute an unreasonable risk to the common defense and security.

2. Amend § 50.12 by deleting paragraph (c) thereof.

(Pub. Law 703, 83d Cong.)

Effective date. This order is effective as of the effective date of the Atomic Energy Act of 1954. Notice and public procedure is omitted for good cause found by the Commission on the ground that such are impracticable by reason of the fact that due and timely execution of the Commission's functions in giving effect to the Atomic Energy Act of 1954 would be impeded by such notice and procedure. However, the provisions hereof are considered as interim provisions by the Commission and comments by all interested parties are invited.

Dated at Washington, D. C., this 30th day of August 1954.

K. D. NICHOLS,
General Manager.

[F. R. Doc. 54-6921; Filed, Sept. 2, 1954; 8:45 a. m.]

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter XVIII — National Shipping Authority, Maritime Administration, Department of Commerce

[NSA Order No. 47 (AGE-4, Amdt. 6)]

AGE-4—COMPENSATION PAYABLE TO AGENTS, GENERAL AGENTS AND BERTH AGENTS

COMPENSATION OF GENERAL AGENTS FOR HUSBANDING SERVICES, ETC.

Paragraph (a) of section 2 *Compensation of General Agents for husbanding services, etc.* of NSA Order No. 47 (AGE-4), as amended by Amendment 1 (16 F. R. 12019), Amendment 4 (18 F. R. 2174), and Amendment 5 (19 F. R. 1410), is hereby further amended by adding a new subparagraph designated "(4)" following subparagraph "(3)" to read as follows:

(4) *Tankers assigned for deactivation and layup.* $75.00 per day per tanker for the period the tanker is assigned for deactivation and layup: *Provided*, That such compensation shall be reduced to $25.00 per day for each full day the tanker is not being substantially serviced by the General Agent under NSA Order No. 66 (OPR-6) or is not moving or being moved in connection with such services, as determined by the Coast Director, effective July 15, 1954. (The Director has found that the activities of General Agents performing services for tankers are not within the scope of sections 3 and 7 of NSA Order No. 47 (AGE-4), and pursuant to section 8 (d) of said order, has exempted said activities from the provisions of said sections and has determined that the rates prescribed in this subparagraph constitute fair and reasonable compensation for all services required to be performed by the General Agents.)

(Sec. 204, 49 Stat. 1987, as amended; 46 U. S. C. 1114)

Approved: August 25, 1954.

C. H. MCGUIRE,
Director, Office of National Shipping Authority and Government Aid.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 913]

[Docket No. AO-23-A13]

HANDLING OF MILK IN THE GREATER KANSAS CITY MARKETING AREA

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO RECOMMENDED DECISION WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Greater Kansas City, marketing area, which was issued August 20, 1954 (19 F. R. 5403), is hereby extended to September 10, 1954.

Dated: August 30, 1954.

[SEAL] ORIS V. WELLS,
Administrator.

[F. R. Doc. 54-6944; Filed, Sept. 2, 1954; 8:51 a. m.]

[7 CFR Part 924]

[Docket No. AO-225-A5]

HANDLING OF MILK IN THE DETROIT, MICHIGAN, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED AMENDMENTS TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Detroit, Michigan, on April 20, 1954 pursuant to notice thereof which was issued on April 5, 1954 (19 F. R. 2019).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on July 30, 1954, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision in the proceeding. The notice of filing such recommended decision and opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on August 4, 1954 (19 F. R. 4877).

Preliminary statement. The material issues considered on the record of the hearing related to two aspects of the definition of a handler as the operator of a "country" supply plant.

(1) The quantities of milk to be supplied by a country plant to a city plant, the period of such supply, and other conditions applicable to such supplies; and

(2) The sanitary requirements applicable to a country supply plant.

Findings and conclusions. Upon the basis of the evidence adduced at the hearing and on the record thereof it is hereby found and concluded that:

(1) *Country plant shipping requirements.* The order now provides two principal qualifications for "country" plants. These are the plants which assemble milk from producers for bulk shipment to the "city" plants, i. e., those in which milk is bottled and from which it is distributed on routes in the marketing area. One qualification is that the country plant supply of milk be approved by one of four health authorities designated in the order. The second is that the country plant make shipments to city plants in an amount equal to 10 percent of the total quantities received from producers at the country plant during the months of November and December. Any plant making such shipment remains qualified as a pool plant during the succeeding 10 months.

At the hearing the producers testified that these standards did not constitute an adequate measure of a country plant's contribution to the fluid milk requirements of the Detroit market.

They proposed that country supply plants be qualified only by city plants which required the milk for Class I purposes and that half of the total receipts of milk at the country plant be so utilized in specified fall and winter months. The Class I needs of city plants would be measured by adding a 15 percent operating reserve to their Class I sales. Only to the extent that their present supply of producer milk was less than such Class I needs would there be any reserve supply credit available for qualifying a new plant. The new plant would be required to ship 50 percent of its total supply of milk to city plants with reserve supply credit. Presumably, 50 percent of the supply at existing country plants (singly or in groups) also would have to be shipped to city plants for Class I use in the specified months. However, the proposal was not clear on this point. Milk from the presently qualified country plants would be deducted from Class I needs at city plants in determining whether any reserve supply credit existed for new country plants but would not itself qualify for reserve credit or otherwise be required to be used for Class I purposes.

In the recommended decision it was pointed out that the plant definitions cannot appropriately be relied upon as a means of keeping the number of country supply plants adjusted to the Class I needs of handlers. Rather, the price levels established by the order should be relied upon as the primary regulator of supply and demand. The Class I price and the proportion of mills sold in Class I determine the amount by which the blend price exceeds manufacturing values and thereby directly affects producers' decisions on production. The Class II price also has an important effect on supply. It affects a plant's profit or loss on the handling of milk not used for fluid purposes and thereby determines the eagerness or reluctance of the management to sign on new producers.

In the recommended decision it was proposed that country plant qualifications depend upon two principal elements. One was the extent to which a city plant had any Class I needs for country plant sources of supply. This was to be measured by deducting from Class I sales 85 percent of the quantity of milk delivered directly from farms to the city plant. Only 85 percent of direct receipts were to be deducted in recognition of the need for an operating reserve. The second major qualification requirement was that a country plant (or group of such plants) furnish 30 percent of its total receipts to city plants having reserve supply credit. If a country plant supplied milk to the market in specified Fall months, it could maintain pool status during the ensuing flush-production season. The requirements would be the same to new and old country plants and would be based on present service to the market.

All the exceptions filed by interested parties, including the proponent cooperative association, were critical of that

[1] Forms filed as part of the original document.

feature of the computation of a city plant's reserve supply credit which calls for the subtraction from Class I sales of 85 percent of the direct-delivered milk. It was pointed out that only 20 percent of the Detroit milk supply is shipped directly from farms to city plants. The comparatively few handlers who receive substantially all their milk directly from producers would not be able to qualify additional country plant sources of supply, whereas a similar plant relying on country plant sources could qualify as many country plants as could ship the minimum percentage of total receipts within the city plant's reserve supply credit.

It must be recognized, however, that the requirements of the two city plants for country plant supplies are substantially different; a city plant with a full supply of direct-delivered milk needs no country plant sources, while one with little or no direct receipts will necessarily depend on country plant milk. Also, the recommended definition of a country plant was designed to eliminate the back hauling of milk as a means of meeting qualification. This was to be accomplished by giving credit only to such shipments of country plant milk as were usable by a city plant for Class I purposes, within the definition of reserve supply credit. All of the direct-delivered milk at a city plant, with the exception of an operating reserve, was to be subtracted from Class I sales in order to determine the net Class I requirements which are to be met by country plant shipments. If reserve credit were to be determined by deducting only a small portion (or none) of the direct-delivered milk, a city plant with a full supply of direct-delivered milk could qualify a country plant only by manufacturing the country plant milk or by directing an equal quantity of milk to a manufacturing plant. In neither event could the country plant milk be properly considered as having been shipped to the city in order to meet Class I requirements. The incentive to maintain pool qualification through more shipment of milk to city plants, without regard to their ability to use it for Class I purposes, would be enhanced.

In view of the widespread objection to the recommended changes in the definition of a handler as the operator of a country supply plant and the grave defects in the proposed change in the method of computing reserve supply credit, it is concluded that no changes should be made in the currently effective provisions of the order.

(2) *Inspection requirements.* A handler proposed that the Wayne County Department of Health be re-established as one of the health authorities whose approval is one element in the qualification of a country plant. He testified that the requirements of the Wayne County department are fully equal to those imposed by the other named health authorities and that the proponent had no source of supply available except those which could be qualified by the Wayne County authorities.

Other testimony revealed that the Wayne County inspection standards were not comparable with those enforced by the health authorities named in the order. Only a few weeks prior to the hearing, the Detroit health authorities had inspected a plant and the farms supplying milk thereto which previously had been approved by the Wayne County authorities. Substantial changes were required in the plant facilities and only a fraction of the producers were approved until changes in their facilities could be accomplished and one or more reinspections made.

Also, the proponent made no showing that he is unable to obtain sufficient supplies of milk either from the producers who ship directly to his plant or from the country plants inspected by the named health authorities. In the case of shipments to his city plant, the approval of health authorities is not specified. Instead, the order relies upon the fact that milk distributed in any part of the marketing area must be approved by the health authority having jurisdiction in the particular area of distribution. Milk is distributed by the proponent and several other handlers from plants which serve marketing area territory in which the Wayne County department is the applicable health authority.

Country plant supplies are also available; in fact, as mentioned above, the country plant supply of the Otsego Sanitary Milk Producers which was originally approved by the Wayne County health authorities, is now in the pool on the basis of Detroit approval. It appears that adequate supplies from country plants operated by cooperative associations of producers or by independent proprietors are also available to any handler in the area.

Rulings. Within the period reserved for filing exceptions to the recommended decision exceptions were filed by interested parties. These exceptions have been fully considered and to the extent to which the findings and conclusions are at variance with the exceptions, such exceptions are hereby overruled.

It is hereby ordered that all of this decision be published in the FEDERAL REGISTER.

This decision filed at Washington, D. C., this 31st day of August 1954.

[SEAL] EARL L. BUTZ,
Acting Secretary.

[F. R. Doc. 54-6943; Filed, Sept. 2, 1954; 8:51 a. m.]

[7 CFR Part 980]

[Docket No. AO-182-A4]

HANDLING OF MILK IN THE TOPEKA, KANSAS, MARKETING AREA

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO RECOMMENDED DECISION WITH RESPECT TO PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Topeka, Kansas, marketing area, which was issued August 20, 1954 (19 F. R. 5406), is hereby extended to September 10, 1954.

Dated: August 30, 1954.

FEDERAL POWER COMMISSION

[18 CFR Part 11]

[Docket No. R-129]

ANNUAL CHARGES

ORDER GRANTING REHEARING AND STAY

In the matter of amendment to Part 11 of Subchapter B of the regulations relating to annual charges prescribed for licensees under the provisions of the Federal Power Act.

Pursuant to Public Law 278, approved August 15, 1953 (67 Stat. 587), the Commission by its Order No. 172 issued April 28, 1954, amended Part 11 of Subchapter B of its regulations under the Federal Power Act (18 CFR Part 11) by the addition of § 11.28 thereunder so as to entitle a state or municipal licensee to a reduction in the amount of the annual charges fixed under a license heretofore or hereafter issued for a major project to the extent of thirty percent of the net amount of the charges assessed for the purpose of reimbursing the United States for the cost of administration of Part I of the Federal Power Act as reduced by any exemption that may be granted pursuant to section 10 (e) of the act. The amendment was made retroactively effective from and after January 1, 1954.

In response to public notice of the proposed rule making, protests, suggestions, and requests for oral argument were submitted by interested persons respecting the proposed amendment, and oral argument thereon was heard before the entire Commission on March 30, 1954, pursuant to its order fixing same issued February 12, 1954. Argument was made by counsel for South Carolina Public Service Authority and for American Public Power Association, and, of course, by Commission Staff Counsel.

On May 19, 1954, South Carolina Public Service Authority filed a timely application for rehearing on the Commission's Order No. 172, praying that the said order be vacated and set aside, or if not, that it be modified in accordance with the specifications of error set forth in the application for rehearing, the recital of which in this order would serve no useful purpose.

Through inadvertence the application for rehearing has not previously been presented by the staff to us for consideration, and pursuant to the provisions of section 313 of the Federal Power Act, South Carolina Public Service Authority, on August 14, 1954, filed a petition with

the United States Court of Appeals for the Fourth Circuit for review of the Commission's Order No. 172 (S. C. Pub. Ser. Auth. v. FPC, No. 6879).

In its application for rehearing, the Authority complained that, among other things, the Commission should have made available to it such cost studies and other data upon which the Commission based its decision to grant a 30 percent reduction and that the Authority was deprived of its right of cross-examination with respect to such data.

Under these circumstances the Staff has recommended that we set the matter down for hearing, and we think that this should be done.

The Commission finds:

(1) The South Carolina Public Service Authority should be given an opportunity to present evidence in support of its application for rehearing and the staff should be given an opportunity to present such evidence as may be appropriate.

(2) The said order should be stayed as hereinafter provided.

The Commission orders:

(A) The petition for rehearing on the Commission's Order No. 172 issued April 28, 1954, is hereby granted and the rehearing shall be fixed at such time as may later be found convenient.

(B) Order No. 172 is hereby stayed until further order of the Commission.

Adopted: August 25, 1954.

Issued: August 30, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-6931; Filed, Sept. 2, 1954; 8:48 a. m.]

NOTICES

DEPARTMENT OF THE TREASURY

Office of the Secretary

[T. D. 53566]

HARDBOARD FROM FINLAND

ANTIDUMPING

AUGUST 26, 1954.

The Acting Secretary of the Treasury finds that the issuance of a finding of dumping with respect to hardboard from Finland is not justified.

Reference is made to the instructions issued on May 12, 1954 (C. I. E. 164/54), that appraisements be withheld with respect to importations of hardboard from Finland because of a suspicion that such hardboard was subject to the provisions of the Antidumping Act, 1921.

After investigation and careful consideration of the evidence presented, I have reached the conclusion that a finding of dumping with respect to hardboard from Finland is not presently justified.

Appraising officers who have been withholding appraisements of hardboard from Finland because of the instructions mentioned above are hereby authorized to proceed with such appraisements without regard to any question of dumping.

(Sec. 201, 42 Stat. 11; 19 U. S. C. 160)

[SEAL] H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 54-6918; Filed, Sept. 2, 1954; 8:45 a. m.]

[T. D. 53567]

HARDBOARD FROM SWEDEN

ANTIDUMPING

AUGUST 26, 1954.

The Acting Secretary of the Treasury makes a finding of dumping with respect to hardboard from Sweden.

After due investigation, in accordance with the provisions of section 201 of the Antidumping Act, 1921 (19 U. S. C. 160), I find that the industry manufacturing hardboard in the United States is likely to be injured by reason of the importation into the United States of hardboard from Sweden, and that hardboard from Sweden is being sold and is likely to be sold in the United States at less than its fair value.

(Sec. 201, 42 Stat. 11; 19 U. S. C. 160)

[SEAL] H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ARKANSAS

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

AUGUST 30, 1954.

An application, serial number BLM 038002, for the withdrawal from all forms of appropriation under the public land laws, except oil and gas leasing under certain conditions of the lands described below was filed on April 6, 1951, by Forest Service. The purposes of the proposed withdrawal: Recreation and Administrative Areas.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Supervisor, Eastern States Office, Bureau of Land Management, Department of the Interior at Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

FLORIDA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

AUGUST 30, 1954.

An application, serial number BLM 038000, for the withdrawal from all forms of appropriation under the public

land laws, except oil and gas leasing under certain conditions of the lands described below was filed on April 4, 1951, by the Forest Service. The purposes of the proposed withdrawal: Recreation and Administrative Areas.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Supervisor, Eastern States Office, Bureau of Land Management, Department of the Interior at Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

TALLAHASSEE MERIDIAN

T. 12 S., R. 24 E.,
Sec. 2, SE¼SE¼SE¼.
T. 15 S., R. 24 E.,
Sec. 24, SW¼NW¼.
T. 15 S., R. 25 E.,
Sec. 8, NW¼SW¼;
Sec. 24, SW¼NW¼.
T. 17 S., R. 25 E.,
Sec. 4, N½SW¼, SE¼NE¼, NW¼SE¼.
T. 13 S., R. 26 E.,
Sec. 18, S½ lot 3.
T. 16 S., R. 26 E.,
Sec. 36, N½SE¼SE¼.
T. 15 S., R. 27 E.,
Sec. 28, lot 5.

C. R. DREXILIUS,
Acting Supervisor.

[Misc. 55975]

WYOMING

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS RESTORED FROM RIVERTON PROJECT

AUGUST 27, 1954.

An order of the Bureau of Reclamation dated February 2, 1950, concurred in by the Director, Bureau of Land Management, March 27, 1950, revoked the Departmental order of September 27, 1918, so far as it withdrew under the provisions of the Reclamation Act of June 17, 1902 (32 Stat. 388), the following-described lands in connection with the Riverton Project, Wyoming, and provided that such revocation should not affect the withdrawal of any other lands by said order or affect any other order withdrawing or reserving the lands described:

WIND RIVER MERIDIAN

T. 3 N., R. 2 E.,
Sec. 7, lots 1 and 2.

The areas described aggregate 52.36 acres.

The topography of the lands is rolling, with sandstone outcroppings. The soil is sandy, with some sagebrush and grass. The lands are suitable for disposal by public sale, exchange, or State selection.

No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the land has already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described lands until 10:00 a. m., on the 35th day after the date of this order. At that time the said lands shall become subject to application, petition, location and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

Veterans' preference-right applications under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, may be filed on or before 10:00 a. m., of the 35th day after the date of this order, and those covering the same land shall be treated as though simultaneously filed at that time. Applications filed under the act after that time and during the succeeding 91 days shall be considered in the order of filing. Applications by the general public under the public-land laws, filed on or before 10:00 a. m., of the 126th day after the date of this order shall be treated as though simultaneously filed at that time, where the applications are for the same lands; otherwise, priority of filing shall govern.

Inquiries regarding the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Cheyenne, Wyoming.

EARL G. HARRINGTON,
Acting Associate Director.

[F. R. Doc. 54-6923; Filed, Sept. 2, 1954; 8:46 a. m.]

Bureau of Reclamation

CARLSBAD, NEW MEXICO

ORDER OF REVOCATION

AUGUST 13, 1953.

Pursuant to authority delegated by Departmental Order No. 2515 of April 7, 1949 (14 F. R. 1937), I hereby revoke Departmental order of April 14, 1903, insofar as said order affects the following described lands; provided, however, that such revocation shall not affect the withdrawal of any other lands by said order or affect any other orders withdrawing the land hereinafter described:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 21 S., R. 25 E.,
Tract 37, Sec. 3.

The above aggregates approximately 4.41 acres.

G. W. LINEWEAVER,
Assistant Commissioner.

[Misc. 65329]

AUGUST 27, 1954.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands released from withdrawal by this order shall not become subject to the initiation of any rights or to any disposition under the public-land laws until it is so provided by an order of classification to be issued by an authorized officer opening the lands to application under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended, with a 91-day preference right period for filing such applications by Veterans of World War II and the Korean conflict and other qualified persons entitled to preference under the act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279–284), as amended.

EARL G. HARRINGTON,
Acting Associate Director,
Bureau of Land Management.

National Park Service

[Order 12]

SUPERINTENDENT, HAWAII NATIONAL PARK

DELEGATIONS OF AUTHORITY

AUGUST 24, 1954.

SECTION 1. The Superintendent, Hawaii National Park, in the administration, operation, and development of the area under his supervision, is authorized to exercise all of the authority vested in the Director, except with respect to the following matters:

(a) Approval of changes in policies and establishment of new policies.

(b) Approval of construction programs and major changes therein.

(c) Location of new roads.

(d) Appointments and status changes involving personnel in grade GS–10 and higher grades.

(e) Acquisition of lands, acceptance of donations of personal property valued in excess of $10,000, acceptance of donations of money in excess of $10,000, and acceptance of deeds or other instruments of title relating thereto.

(f) Acceptance of offers in settlement of timber trespasses.

(g) Sales of timber pursuant to section 3 of the act of August 25, 1916 (39 Stat. 535; 16 U. S. C., 1952 ed., sec. 3), in excess of $10,000 for any one transaction.

(h) Functions relating to surplus land pursuant to the Surplus Property Act, as amended (50 U. S. C., App., 1952 ed., sec. 1622 (h)).

(i) Execution of concession contracts and permits in excess of 5 years and approval of transfers of corporate stock.

(j) Execution of permits for the use of national park lands, except revocable special use permits.

(k) Approval of programs for destruction and disposition of wild animals which are damaging the land or its vegetative cover, and of permits to collect rare or endangered species.

(l) Execution and approval of contracts for construction, supplies, or services in excess of $50,000.

(m) Disposition of lands or interests therein.

(n) Approval of and signing of correspondence to the Attorney General concerning pleadings, awards, or judgments in condemnation proceedings.

(o) Requests to the Attorney General to render opinions concerning the validity of title pursuant to section 355, Revised Statutes (40 U. S. C., 1952 ed., sec. 255).

(p) Authorization or approval of the attendance of officers or employees at meetings or conventions of members of societies or associations concerned with the work of the National Park Service.

(q) Approval of the use of a Government-owned motor vehicle between the domicile and place of employment of an officer or employee.

(r) Authorization or approval of the payment of dues for library membership in societies or associations which issue publications to members only or at a price to members lower than to subscribers who are not members.

(s) Authority to issue general travel authorizations.

SEC. 2. *Appeal.* Any party aggrieved by any action or decision of the Superintendent, Hawaii National Park, shall have a right of appeal to the Director. Any such appeal shall be in writing and shall be submitted to the Director within 30 days after receipt by the aggrieved party of notice of the action taken or decision by the Superintendent, Hawaii National Park.

(Secretary's Orders Nos. 2586, 2587, 2590, 2621, and Secretary's Orders Nos. 2509, 2512, 2617, 2619, 2635, 2640, 2642, 2696, 2735, as amended; 39 Stat. 535, 16 U. S. C., 1952 ed., sec. 2)

[SEAL] RONALD F. LEE,
Acting Director.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

SOUTH CAROLINA

DESIGNATION OF ADDITIONAL AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making loans pursuant to section 2 (a) of Public Law 38, 81st Congress, 12 U. S. C. 1148a—2 (a), it is found that in the following named counties in the State of South Carolina, a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

SOUTH CAROLINA

Aiken.	Horry.
Barnwell.	Lee.
Berkeley.	McCormick.
Charleston.	Orangeburg.
Edgefield.	Pickens.
Greenwood.	Sumter.
Hampton.	

After December 31, 1955, such loans will not be made in the above named counties except to borrowers who previously received such assistance.

The period for making initial production emergency loans authorized on January 18, 1954, and March 10, 1954, in all of the other counties in South Carolina (19 F. R. 1444; 19 F. R. 1524) is hereby extended to December 31, 1955.

Done at Washington, D. C., this 31st day of August 1954.

[SEAL] EARL L. BUTZ,
Acting Secretary.

Bureau of Foreign Commerce

[Case 183]

STEVEN STEIN

ORDER CONDITIONALLY RESTORING EXPORT PRIVILEGES

In the matter of Steven Stein, 110–37 64th Avenue, Forest Hills, New York; respondent; Case No. 183.

Steven Stein having complied with the provisions of paragraph VI of the Order Denying License Privileges, Case No. 183 (19 F. R. 4429) by submitting to the Director of the Investigation Staff, Bureau of Foreign Commerce, an affidavit that he has fully and fairly complied with all terms thereof during the period from July 14, 1954, until August 15, 1954, the date of the making of said affidavit, and that he has not during such period knowingly violated any provision of the Export Control Act of 1949, as amended, or any regulation issued thereunder; and no facts having been brought to the attention of the Bureau of Foreign Commerce demonstrating the contrary; all export privileges are hereby restored to him, and the remaining period of suspension under the said order shall be held in abeyance subject to the terms and conditions of paragraph VI of the said order.

Dated: August 31, 1954.

WALLACE S. THOMAS,
Acting Director,
Office of Export Supply.

Civil Aeronautics Administration

[Amdt. 2]

ORGANIZATION AND FUNCTIONS

OFFICE OF THE ADMINISTRATOR; PERSONNEL OFFICE

In accordance with the public information requirements of the Administrative Procedure Act, the description of the Organization and Functions of the Civil Aeronautics Administration, published on April 10, 1954, in 19 F. R. 2098, is hereby amended by (1) adding the Assistant Administrator for Operations as a principal officer of the Office of the Administrator of Civil Aeronautics, (2) redefining the functions of the principal officers of the Office of the Administrator, and (3) effecting an organizational change in the Personnel Office.

1. Section 11 (b) (1) is amended to read:

(1) Office of the Administrator, which includes the:

Administrator.
Assistant Administrator for Administration.
Assistant Administrator for Operations.
Assistant Administrator for Program Coordination.
Executive Assistant.

2. Section 14 is amended to read:

SEC. 14. *Functions of the Office of the Administrator.* The functions of the principal officers of the Office of the Administrator are as follows:

(a) The Administrator, in conformity with the policies and directives of the Secretary of Commerce and other legal requirements, determines the policies of the Civil Aeronautics Administration; and directs the development of and controls the execution of its programs.

(b) The Assistant Administrator for Administration acts as principal assistant to the Administrator in the management planning, coordination, and control of CAA programs and activities, including budgetary management, per-

sonnel administration, organization planning, and general administrative services; directs the formulation of management policies to ensure economy of organization and operations and balanced programing of activities, and evaluates the Administration's progress toward the accomplishment of the objectives to which it is committed, including economy and efficiency in the execution of its programs; and exercises direction and control over the administration of the Aeronautical Center.

(c) The Assistant Administrator for Operations acts as principal assistant to the Administrator in directing the development of the safety, airways, airports, and other technical programs of the Administration, and in coordinating and controlling their execution; exercises direction and control over the administration of the Washington National Airport; and evaluates technical operational requirements of CAA programs and approves proposed courses of action in conformity with the Administrator's basic policies and plans.

(d) The Assistant Administrator for Program Coordination acts as principal assistant to the Administrator on technical program planning matters, domestic and international, with particular reference to the coordination and evaluation of technical planning activities and the conduct of special studies; plans, directs, coordinates, and controls the program planning, liaison and special activities of the Office of the Assistant Administrator for Program Coordination and provides general direction to the work of that Office; and exercises direction and control over the administration of Technical Development and Evaluation Center.

(e) The Executive Assistant assists the Administrator in matters that require his personal attention; and represents the Administrator in negotiations and contacts with members of Congress, other government agencies, and the aviation industry on problems in which the Administrator is personally concerned.

3. Section 15 (e) is amended by deleting: "Employee Relations Division".

This amendment is effective August 17, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

Approved:

WALTER WILLIAMS,
Acting Secretary of Commerce.

[F. R. Doc. 54-6927; Filed, Sept. 2, 1954; 8:47 a. m.]

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Vocational Rehabilitation

PROMULGATION OF STATE ALLOTMENT PERCENTAGES

Pursuant to section 11 (h) of the Vocational Rehabilitation Act, as amended (68 Stat. 652, 661) and having found that the three most recent consecutive years for which satisfactory data are available from the Department of Commerce as to the per capita incomes of States and of the continental United States are the years 1951, 1952, and 1953, the following allotment percentages for the several States, Alaska, Hawaii, Puerto Rico, the District of Columbia, and the Virgin Islands, as determined pursuant to said act and on the basis of said income data, are hereby promulgated for the three fiscal years in the period ending June 30, 1957:

Alabama	69.76	New Mexico	59.85
Arizona	55.27	New York	36.94
Arkansas	71.32	North Carolina	67.59
California	39.82	North Dakota	60.44
Colorado	50.72	Ohio	42.44
Connecticut	36.46	Oklahoma	61.33
Delaware	33.33	Oregon	48.25
Florida	59.45	Pennsylvania	47.11
Georgia	65.30	Rhode Island	48.50
Idaho	56.74	South Carolina	67.92
Illinois	39.15	South Dakota	58.83
Indiana	47.92	Tennessee	65.73
Iowa	53.31	Texas	56.19
Kansas	53.07	Utah	55.33
Kentucky	65.89	Vermont	58.97
Louisiana	63.42	Virginia	59.75
Maine	59.63	Washington	44.93
Maryland	45.96	West Virginia	62.76
Massachusetts	46.42	Wisconsin	49.18
Michigan	43.44	Wyoming	48.97
Minnesota	54.22	Alaska	75.00

FEDERAL POWER COMMISSION

[Docket No. G-2469]

NORTH CENTRAL GAS CO.

ORDER RESCINDING IN PART THE ORDER DENYING REQUEST FOR SHORTENED PROCEDURE AND FIXING DATE OF HEARING

North Central Gas Company (Applicant), a Wyoming corporation, having its principal place of business at Casper, Wyoming, filed an application with the Federal Power Commission on June 28, 1954, which was supplemented on July 13, 1954, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of facilities for the purpose of selling and delivering natural gas to military installations of the U. S. Army near Sidney, Nebraska, subject to the jurisdiction of the Commission, as fully described in the application on file with the Commission and open to public inspection.

The Commission, on July 28, 1954, without prejudice to future action, granted Applicant temporary authorization to construct and operate requested facilities subject to Commission jurisdiction.

Applicant requested that its application be disposed of pursuant to the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, which the Commission by its order issued herein on August 6, 1954, denied.

The Commission finds:

(1) Good cause has been shown for rescinding the order of the Commission issued August 6, 1954, denying Applicant's request for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

(2) This proceeding is now a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

The Commission orders:

(A) The request that the proceeding be disposed of under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure be and the same hereby is granted, and the order of the Commission issued August 6, 1954, so far as it denies the request of Applicant that its application be disposed of pursuant to the provisions of § 1.32 (b), be and the same is hereby rescinded.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held on September 13, 1954, at 10:00 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application as heretofore provided by the order of the Commission issued August 6, 1954: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Adopted: August 25, 1954.

Issued: August 30, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 54-6930; Filed, Sept. 2, 1954; 8:48 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3043]

C. BASCOM SLEMP, III

ORDER GRANTING APPLICATION REGARDING ACQUISITION OF COMMON STOCK OF PUBLIC-UTILITY HOLDING COMPANY

AUGUST 30, 1954.

C. Bascom Slemp, III ("Applicant") has filed an application and an amendment thereto with this Commission pursuant to sections 9 (a) (2) and 10 of the Public Utility Holding Company Act of 1935 ("act"), regarding his acquisition of outstanding shares of the common stock of Gibson Oil Corporation ("Gibson"), an exempt holding company.

Applicant has, over a period of years, acquired shares of the outstanding common stock of Gibson, a Texas corporation, which is engaged in the production of petroleum and natural gas and in the contract drilling of oil and gas wells in

the State of Texas. On December 31, 1953, it had outstanding 48,403.8 shares of no par value common stock of which applicant owned 22,499.6 shares, or 46.5 percent, of such stock.

Gibson owns all of the outstanding securities of Producers Utilities Corporation ("Producers"), consisting of 400,000 shares of common stock, par value $1.00 per share. Producers, a Texas corporation, is engaged in the production, purchase, transmission and distribution at retail of natural gas in the towns of Claude, Goodnight and Groom, Texas, in which State it carries on all of its operations.

Due notice having been given of the filing of said application and amendment thereto, and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the Act and the Rules promulgated thereunder are satisfied; and the Commission deeming it appropriate in the public interest and in the interests of investors and consumers that said application should be granted:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application, as amended, be, and the same hereby is, granted.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29619]

LIMESTONE FROM FRANKLIN, TENN., TO TENNESSEE POINTS

APPLICATION FOR RELIEF

AUGUST 31, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Louisville and Nashville Railroad Company.

Commodities involved: Ground or pulverized limestone or marble, limestone or marble dust, and granulated or ground agricultural slag, carloads.

From: Franklin, Tenn.

To: Louisville and Nashville Railroad Company stations St. Bethlehem to Memphis, Tenn., inclusive.

Grounds for relief: Rail competition, circuity, and to meet intrastate rates.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

[F. R. Doc. 54-6932; Filed, Sept. 2, 1954; 8:48 a. m.]

[4th Sec. Application 29620]

COMMODITY RATES FROM AND TO ROCKLAND, TENN., AND BETWEEN POINTS IN THE UNITED STATES AND CANADA

APPLICATION FOR RELIEF

AUGUST 31, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., for the Louisville and Nashville Railroad Company and other carriers.

Commodities involved: Commodities (other than coal and coke), carload and less-than-carload.

Between: Rockland, Tenn., on the one hand, and points in the United States and Canada, on the other.

Grounds for relief: Rail competition, circuity, grouping, and new station.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29621]

ANHYDROUS AMMONIA FROM LULING AND BOUTTE, LA., TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

AUGUST 31, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Anhydrous ammonia in tank-car loads.

From: Luling and Boutte, La.

To: Points in southern territory.

Grounds for relief: Rail competition, circuity, market competition, grouping, and rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 4112, supp. 10.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29623]

DRIED BEANS, PEAS AND LENTILS FROM THE WEST TO W. T. L. AND ILLINOIS TERRITORIES

APPLICATION FOR RELIEF

AUGUST 31, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Beans, lentils and peas, dried, carloads.

From: Points in Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, South Dakota, Utah, and Wyoming.

To: Points in Illinois, Iowa, Kansas, Minnesota, Missouri, Nebraska, and Wisconsin.

Grounds for relief: Rail competition, circuity, and competition with motor carriers.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-3885, supp. 17.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary

relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29625]

PHOSPHATIC FEED SUPPLEMENTS FROM NEW YORK, N. Y., AND PHILADELPHIA, PA., TO POINTS IN OFFICIAL AND ILLINOIS TERRITORIES

APPLICATION FOR RELIEF

AUGUST 31, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: H. R. Hinsch, Agent, for carriers parties to schedules listed below.

Commodities involved: Phosphatic feed supplements, viz.: defluorinated phosphate and superphosphate, phosphate di-calcium and bone meal, carloads.

From: New York, N. Y., and Philadelphia, Pa.

To: Specified points in Official and Illinois territories.

Grounds for relief: Rail competition, circuity, and rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: H. R. Hinsch, Agent, I. C. C. No. 4620; H. R. Hinsch, Agent, I. C. C. No. 4565, supp. 5.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29626]

GRAIN FROM MISSOURI, IOWA, KANSAS, AND NEBRASKA TO MOBILE, ALA.

APPLICATION FOR RELIEF

AUGUST 31, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Chicago, Rock Island and Pacific Railroad Company, for itself and on behalf of the St. Louis-San Francisco Railway Company and the Alabama, Tennessee and Northern Railroad Company.

Commodities involved: Grain, grain products, and related articles, carloads.

From: Points in Missouri, Iowa, Kansas, and Nebraska.

To: Mobile, Ala. (for export).

Grounds for relief: Rail competition, circuity, and to maintain grouping.

Schedules filed containing proposed rates: Chicago, Rock Island and Pacific Railroad Company, I. C. C. No. C-13346, supp. 49.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

FEDERAL REGISTER

VOLUME 19 NUMBER 173

Washington, Saturday, September 4, 1954

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10556

AUTHORIZING REGULATIONS FOR THE PERMANENT PROMOTION AND REASSIGNMENT OF FEDERAL EMPLOYEES

By virtue of the authority vested in me by section 2 of the Civil Service Act (22 Stat. 403) and by section 1753 of the Revised Statutes (5 U. S. C. 631), and in effectuation of the purposes of section 1310 of the Supplemental Appropriation Act, 1952 (65 Stat. 757), as amended, it is ordered as follows:

Notwithstanding the provisions of section 1 (b) of Executive Order No. 10180 of November 13, 1950, and to the extent consistent with law, the Civil Service Commission, with respect to positions in the competitive service, and the heads of executive departments and agencies, with respect to positions excepted from the competitive service, are hereby authorized to issue regulations or instructions governing the permanency of promotions and reassignments of permanent employees.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
September 1, 1954.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Valencia Orange Reg. 20]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.320 *Valencia Orange Regulation 20*—(a) *Findings.* (1) Pursuant to Order No. 22 (19 F. R. 1741), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective March 31, 1954, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on September 2, 1954, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and

[Lemon Reg. 553]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.660 *Lemon Regulation 553*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 18 F. R. 6767), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on September 1, 1954, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 5, 1954, and ending at 12:01 a. m., P. s. t., September 12, 1954, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 275 carloads;

(iii) District 3: Unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is set forth below and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: September 2, 1954.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5735]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

KAY WINDSOR FROCKS, INC., ET AL.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment for Services or Facilities for Processing, or Sale, under 2 (d): § 3.825 *Allowances for services or facilities.* In connection with the sale of any of respondents' dresses in commerce, and on the part of respondents, Kay Windsor Frocks, Inc., Aaron Shapiro, individually and as president and as treasurer thereof, Winnie Peck, Inc., and Lou Swartz, individually and as president and treasurer thereof, and on the part of their representatives, etc., jointly or severally, directly or through any corporate or other device, paying or contracting to pay, or granting or contracting to grant, or allowing anything of value, including credits for advertising services, to or for the benefit of any customer as compensation or in consideration of any newspaper advertising or other services or facilities furnished by or through said customer in connection with the sale or offering for sale of respondents' dresses, unless such payments, credits, or allowances are available on proportionally equal terms to all other customers competing in the distribution of such dresses; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 2, 38 Stat. 790, as amended; 15 U. S. C. 13) [Cease and desist order, Kay Windsor Frocks, Inc. (Boston, Mass.) et al., Docket 5735, August 18, 1954]

This proceeding was heard by Clyde M. Hadley, hearing examiner, upon the complaint of the Commission, charging respondents with violation of subsection (d) of section 2 of the Clayton Act, as amended by the Robinson-Patman Act, respondents' answer, and hearings at which testimony and other evidence, duly recorded and filed in the office of the Commission, in support of and in opposition to the allegations of the complaint were introduced before said examiner, theretofore duly designated by the Commission.

Thereafter the proceeding regularly came on for final consideration by said examiner on the complaint, answer thereto, testimony and other evidence, proposed findings as to the facts and conclusions presented by counsel, oral argument not having been requested;

and said examiner, having duly considered the record in the matter, made his initial decision comprising certain findings as to the facts, conclusion drawn therefrom, and order to cease and desist.

Thereafter, following respondents appeal from said initial decision, the matter was disposed of by "Order Adopting Initial Decision as the Decision of the Commission and Order to File Report of Compliance", Docket 5735, August 18, 1954, which denied respondents' appeal and adopted as the decision of the Commission the initial decision of the hearing examiner, as follows:

This case having come on for hearing before the Commission upon the appeal filed by the respondents from the initial decision of the hearing examiner; and

The Commission, for reasons stated in its opinion which is separately issuing herein,[1] having determined that the appeal should be denied and that the findings as to the facts,[1] conclusion and order contained in the initial decision[1] are appropriate:

It is ordered, That the respondents' appeal be, and it hereby is, denied.

It is further ordered, That the initial decision of the hearing examiner, be, and it hereby is, adopted as the decision of the Commission.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

The order in said initial decision, thus made the decision of the Commission, is as follows:

It is ordered, That the respondents, Kay Windsor Frocks, Inc., Aaron Shapiro, individually and as president and treasurer thereof, Winnie Peck, Inc., and Lou Swartz, individually and as president and treasurer thereof, their representatives, agents, and employees, jointly or severally, directly or through any corporate or other device, in connection with the sale of any of respondents' dresses in commerce, as "commerce" is defined in the Clayton Act as amended, do forthwith cease and desist: From paying or contracting to pay, or granting or contracting to grant, or allowing anything of value, including credits for advertising services, to or for the benefit of any customer as compensation or in consideration of any newspaper advertising or other services or facilities furnished by or through said customer in connection with the sale or offering for sale of respondents' dresses, unless such payments, credits, or allowances are available on proportionally equal terms to all other customers competing in the distribution of such dresses.

Issued: August 18, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH,
Secretary.

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II — Federal Housing Administration, Housing and Home Finance Agency

Subchapter C—Mutual Mortgage Insurance and Servicemen's Mortgage Insurance

PART 222—MUTUAL MORTGAGE INSURANCE; RIGHTS AND OBLIGATIONS OF THE MORTGAGEE UNDER THE INSURANCE CONTRACT

CONDITION OF PROPERTY WHEN TRANSFERRED; DELIVERY OF DEBENTURES AND CERTIFICATES OF CLAIM

Section 222.13 (a) (1) is hereby amended to read as follows:

§ 222.13 *Condition of property when transferred; delivery of debentures and certificates of claim.* (a) • • •

(1) Debentures of the Mutual Mortgage Insurance Fund as set forth in section 204 of the act, issued as of the date foreclosure proceedings were instituted or the property was otherwise acquired by the mortgagee after default, bearing interest at the rate of 2¾ percent per annum if issued in exchange for property accepted for insurance pursuant to commitments issued by the Commissioner on or ofter August 9, 1954, and prior to September 1, 1954, and at the rate of 2½ percent per annum if issued in exchange for property accepted for insurance pursuant to commitments issued by the Commissioner on or after September 1, 1954, payable semiannually on the first day of January and the first day of July of each year, and having a total face value equal to the value of the mortgage as defined in section 204 (a) of the act. Such value shall be determined by adding to original principal of the mortgage, as increased by the amount of advances made by the mortgagee and approved by the Commissioner for the improvement or repair of the property pursuant to an "open-end" provision in the mortgage, which was unpaid on the date of the institution of foreclosure proceedings or the acquisition of the property otherwise after default, the amount of all payments which have been made by the mortgagee for taxes, ground rent and water rates, which are liens prior to the mortgage, special assessments, which are noted on the application for insurance or which become liens after the insurance of the mortgage, insurance on the property mortgaged, any mortgage insurance premium or insurance charges paid after the institution of foreclosure proceedings or the acquisition of the property otherwise after default, any taxes imposed by the United States upon deeds or other instruments by which said property was acquired by the mortgagee and transferred or conveyed to the Commissioner and foreclosure costs actually paid by the mortgagee and approved by the Commissioner in an amount not in excess of two-thirds of such cost or $75, whichever is the greater, and by deducting from such total any amount received on account of the mortgage after the institution of foreclosure proceedings or the acquisition of the property otherwise after default and from any source relating to the property on account of rent or other income after deducting reasonable expenses incurred in handling the property: Provided, however, That with respect to mortgages to which the provisions of sections 302 and 306 of the Soldiers' and Sailors' Relief Act of 1940, as amended, apply, there shall be included in the debentures an amount which the Commissioner finds to be sufficient to compensate the mortgagee for any loss which it may have sustained on account of interest on debentures and the payment of insurance premiums by reason of its having postponed the institution of foreclosure proceedings or the acquisition of the property by other means during any part or all of the period of such military service and three months thereafter. Such debentures shall be registered as to principal and interest and all or any such debentures may be redeemed, at the option of the Commissioner, with the approval of the Secretary of the Treasury, at par and accrued interest on any interest payment day on three months' notice of redemption given in such manner as the Commissioner shall prescribe. Such debentures shall mature 20 years after the date thereof.

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b)

Issued at Washington, D. C., August 30, 1954.

[SEAL] NORMAN P. MASON,
Federal Housing Commissioner.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Rules Amdt. 7-4]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

MISCELLANEOUS AMENDMENTS

The Commission having under consideration the desirability of making certain editorial changes in Part 7 of its rules and regulations; and

It appearing, that the amendments adopted herein are editorial in nature and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing, that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and paragraph F-6 of the Commission's Order Defining the Functions and Establishing the Organizational Structure of the Office of the Secretary, dated February 14, 1952, as amended;

It is ordered, This 31st day of August 1954, that effective September 2, 1954, Part 7 of the Commission's rules is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended, sec. 5, 66 Stat. 713; 47 U. S. C. 303, 155)

Released: September 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Part 7, Stations on Land in the Maritime Services, is amended as follows:

1. In § 7.24, delete the reference "7.36" from the next to the last sentence in this section.

2. In § 7.104 (b) (1), delete "*Provided*, That with respect to such stations outside the Great Lakes area, this requirement shall be effective on and after July 1, 1954." from the end of this section.

3. In § 7.104 (b) (2), delete "Effective on and after July 1, 1954".

4. In § 7.106 (b), delete "Effective on and after January 1, 1952".

5. In § 7.106 (c), delete "Effective on and after January 1, 1952".

6. In § 7.106 (d), delete "Effective on and after January 1, 1952".

7. In § 7.106 (e), delete "Effective on and after January 1, 1952".

8. In § 7.106 (f), delete "Effective on and after January 1, 1953".

9. In § 7.106 (g), delete "Effective on and after the dates hereinafter designated in this paragraph,".

10. In § 7.106 (g) (1), delete "effective on and after January 1, 1953;".

11. In § 7.106 (g) (2), delete "; effective on and after January 1, 1952".

12. In § 7.189 (c) (1), delete "*Provided*, That with respect to such stations outside the Great Lakes area, this requirement shall be effective on and after July 1, 1954:". Delete the word "*further*" from the second proviso in this section.

13. In § 7.189 (c) (2), delete "Effective on and after July 1, 1954.".

14. Amend § 7.213 to read as follows:

§ 7.213 *Station documents.* (a) All public coast stations using telegraphy shall be provided with the following documents:

(1) A valid station license, available in accordance with the provisions of § 7.102;

(2) The necessary operator license or licenses, available in accordance with the provisions of § 7.155;

(3) The station log required by this part;

(4) The Alphabetical List of Call Signs;

(5) The List of Coast Stations and Ship Stations;

(6) The List of Stations performing Special Services;

(7) Such provisions of the International Radio Regulations (Atlantic City, 1947), including Articles 29, 30, 31, 32, 35, 37, 38, 39, 40 and 41, as are necessary for the operation of the radiocommunication service rendered by the coast station;

(8) This part and Part 8 of this chapter.

(b) All limited coast stations using telegraphy shall be provided with the documents prescribed by paragraph (a) (1), (2), (3), (7), and (8) of this section.

(c) These documents shall be continuously and readily available to the licensed operator on duty during the hours of service of the station.

15. In § 7.304 (a), delete "4162.5—Mississippi River System only" from the table and delete footnote 1.

16. In § 7.304 (d) (1), delete the last sentence of subparagraph (1).

17. Amend § 7.304 (d) (3) to read as follows:

(3) The frequency 4067 kc is authorized for use by coast stations serving vessels on the Mississippi River and connecting inland waters only (except the Great Lakes); such use of this frequency is authorized upon the express condition that interference shall not be caused to the service of any station which, in the discretion of the Commission, may have priority on the frequency or frequencies used for the service to which interference is caused.

18. Amend § 7.304 (d) (5) to read as follows:

(5) Use of the frequencies 4372.4 kc and 8205.5 kc is authorized for use by coast stations serving vessels on the Mississippi River and connecting inland waters only (except the Great Lakes) upon the express condition that transmission on these frequencies during the period 8:00 p. m. until 5:00 a. m., c. s. t., is prohibited.

19. In § 7.308 (a), in the list of ports, amend "Takoma, Wash." to read "Tacoma, Wash.".

20. In § 7.313, delete "prescribed in Article 15 of the General Radio Regulations (Revision of Cairo, 1938)" from the last two entries in the table.

[F. R. Doc. 54-6970; Filed, Sept. 3, 1954; 8:49 a. m.]

[Rules Amdt. 8-6]

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

MISCELLANEOUS AMENDMENTS

The Commission having under consideration the desirability of making certain editorial changes in Part 8 of its rules and regulations; and

It appearing, that the amendments adopted herein are editorial in nature and, therefore, prior publication of Notice of Proposed Rule Making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing, that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and paragraph F-6 of the Commission's Order Defining the Functions and Establishing the Organizational Structure of the Office of the Secretary, dated February 14, 1952, as amended;

It is ordered, This 31st day of August 1954, that effective September 2, 1954, Part 8 of the Commission's rules is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended, sec. 5, 66 Stat. 713; 47 U. S. C. 303, 155)

Released: September 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Part 8, Stations on Shipboard in the Maritime Service, is amended as follows:

1. In § 8.2 (j), change eighth word "vaiid" to read "valid".

2. Amend § 8.47 to read as follows:

§ 8.47 *Application for certificate of compliance with Safety Convention.* Whenever a Safety Certificate, Safety Radiotelegraphy Certificate, or a Safety Radiotelephony Certificate, or a modification or renewal thereof, is required by reason of the applicability to a ship of the radio provisions of the Safety Convention, an application, FCC Form 801, "Application for Ship Radio Inspection", for a required inspection of the radio installation on board and certification of the result of such inspection to the United States Coast Guard for the issuance of a Convention Certificate, shall be filed with the Commission's engineer in charge at the radio district office nearest the desired port of inspection at least 3 days prior to the date on which such inspection is desired. A service representative (who holds the proper class of radio operator license) of the ship station licensee and (unless otherwise notified by the Commission's representative) sufficient personnel to lower and raise the antenna(s) and to launch any required radio-equipped lifeboat(s), shall be available at the ship at the time inspection is to be conducted. Such application shall be filed by the shipowner, the ship operating agency, the ship station licensee, or the shipmaster; and, when appropriate, may be combined with the application for annual inspection prescribed by § 8.46.

3. In § 8.48, change "Pursuant to section 4 (f) (2)" to read "Pursuant to section 4 (f) (3)".

4. In § 8.104 (a), delete "effective on and after January 1, 1953,".

5. In § 8.104 (b), delete "Effective on and after January 1, 1952,".

6. In § 8.104 (d), delete " Effective on and after January 1, 1952,".

7. In § 8.105 (c), delete "effective June 3, 1954,".

8. Amend § 8.106 (a) to read as follows:

§ 8.106 *Required radio-channels for telephony.* (a) Each of the following ship stations shall be capable of transmitting and receiving (and shall be licensed to transmit) class A3 omission (modulation by voice frequencies) on the radio-channel of which 2182 kc is the authorized carrier frequency:

(1) Ship stations first licensed after January 1, 1954, for telephony on any radio-channel within the band 1600 kc to 3500 kc; ship stations authorized by license modification granted after January 1, 1954, to use additional or substitute radio apparatus for telephony on any radio-channel within the band 1600 kc to 3500 kc; ship stations authorized by

license renewal granted after January 1, 1955, for telephony on any radio-channel within the band 1600 to 3500 kc.

(2) Ship stations licensed for telephony on any radio-channel within the band 1600 kc to 3500 kc, and located on board a ship navigated on the Great Lakes.

9. In § 8.223 (b), delete "Except as provided in paragraph (c) of this section and".

10. In § 8.223, delete paragraph (c).

11. Amend § 8.261 to read as follows:

§ 8.261 *Inspection of station.* Pursuant to section 303 (n) of the Communications Act, and subject to the provisions of Article 23 of the International Radio Regulations, Atlantic City ,1947; Regulations 16, 18 and 19 of Chapter I of the Safety Convention, London, 1948; and Articles 11, 12 and 14 of the Great Lakes Agreement, the radio installation on board any foreign ship within the territorial jurisdiction of the United States, which installation is subject to the provisions of any act, treaty, or convention binding on the United States, shall be available, at any reasonable time, in any harbor, port, or place in the United States, for inspection by duly authorized representatives of the Commission at such frequent intervals as, within the discretion of the Commission, will insure compliance with applicable rules, regulations, laws, and treaties.

12. In § 8.324 (e) (2), delete footnote designator 2 and footnote 2 from the table in this section.

13. In § 8.351 (a), delete the frequencies "2174" and "4182.5 [2] Mississippi River System only" and footnote 2 from the table.

14. In § 8.351 (d) (4), delete the last sentence.

15. Amend § 8.351 (d) (7) to read as follows:

(7) Use of the frequency 4067 kc in the Mississippi River system is authorized upon the express condition that interference shall not be caused to the service of any station which may have priority on the frequency or frequencies used for the service to which interference is caused.

16. In § 8.351 (d) (9), delete "Beyond September 1, 1954".

17. In § 8.360 (d) (3), change the frequency "156.6 Mc" to read "156.5 Mc".

18. In § 8.366 (b) (2), delete the proviso.

19. In § 8.366 (b) (3), delete the first proviso and the word "further" from the second proviso.

20. In § 8.405 (d), delete "Effective on and after January 2, 1951,".

21. Amend § 8.508, to read as follows:

§ 8.508 *Automatic-alarm-signal keying device.* Each ship of the United States, which is subject to Title III, Part II, of the Communications Act shall be fitted with one or more automatic-alarm-signal keying devices of a type approved by the Commission in accordance with § 8.555.

22. In § 8.803, Appendix III, Table 3, insert the frequency "4067.0 [2]" under the 4 mc "coast" and "ship" columns.

[F. R. Doc. 54-6971; Filed, Sept. 3, 1954; 8:49 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 51]

LETTUCE

U. S. STANDARDS [1]

Notice is hereby given that the United States Department of Agriculture is considering the revision of United States Standards for Lettuce pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C. 1621 et seq.).

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with the Chief, Fresh Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed standards are as follows:

GRADES

Sec.
51.2510 U. S. No. 1.
51.2511 U. S. No. 2.

UNCLASSIFIED

51.2512 Unclassified.

APPLICATION OF TOLERANCES

51.2513 Application of tolerances.

STANDARD PACK

51.2514 Standard pack.

SOLIDITY

51.2515 Solidity.

DEFINITIONS

51.2516 Similar varietal characteristics.
51.2517 Fresh.
51.2518 Burst.
51.2519 Doubles.
51.2520 Damage.
51.2521 Fairly well trimmed.
51.2522 Closely trimmed.
51.2523 Serious damage.
51.2524 Fairly uniform in size.

AUTHORITY: §§ 51.2510 to 51.2524 issued under sec. 205, 60 Stat. 1090, 7 U. S. C. 1624.

GRADES

§ 51.2510 *U. S. No. 1.* "U. S. No. 1" consists of heads of lettuce of similar varietal characteristics which are fresh, which are not soft, split, or burst, and which are free from decay, doubles, and from damage caused by tipburn, opening, seedstems, broken midribs, freezing, dirt, sunburn, discoloration, disease, aphis or other insects, or mechanical or other means. Each head shall be fairly well trimmed unless specified as closely trimmed. Not less than 75 percent of the heads of Iceburg type lettuce shall be hard or firm, unless a lower percentage is specified in connection with the grade statement. Heads of Big Boston type lettuce shall be fairly firm. (See § 51.2515.)

(a) In order to allow for variations incident to proper grading and handling, not more than 10 percent by count, of the heads in any lot may fail to meet the requirements of this grade, including therein not more than one-fifth of this amount, or 2 percent, for decay affecting any portion of the head exclusive of wrapper leaves. No part of any tolerance shall be allowed to reduce the percentage of hard or firm heads required in the grade.

§ 51.2511 *U. S. No. 2.* "U. S. No. 2" consists of heads of lettuce of similar varietal characteristics which are not split or burst and which are free from decay, and from serious damage caused by seedstems, wilting, tipburn, freezing, disease, insects, or mechanical or other means. There are no solidity requirements in this grade for Big Boston type lettuce, but heads of Iceberg type lettuce which are distinctly open and leafy with practically no head formation shall not be permitted.

(a) In order to allow for variations incident to proper grading and handling, not more than 10 percent, by count, of the heads in any lot may fail to meet the requirements of this grade, including therein not more than one-half of this amount, or 5 percent, for decay affecting any portion of the head exclusive of wrapper leaves.

UNCLASSIFIED

§ 51.2512 *Unclassified.* "Unclassified" consists of heads of lettuce which have not been classified in accordance with either of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no grade has been applied to the lot.

APPLICATION OF TOLERANCES

§ 51.2513 *Application of tolerances.* (a) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided,* That the averages for the entire lot are within the tolerances specified for the grade:

(1) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified, except that when the package contains 30 specimens or less, individual packages may contain not more than double the tolerance specified; and,

(2) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified, except that at least one defective specimen may be permitted in any package.

STANDARD PACK

§ 51.2514 *Standard pack.* Heads of lettuce shall be fairly uniform in size, and tightly packed in uniform layers according to the approved and recognized methods, except that a "bridge" may be used with sizes smaller than 5-dozen count.

(a) In order to allow for variations incident to proper packing, not more than a total of 15 percent of the containers in any lot may not meet the requirements for Standard Pack, but no part of this allowance shall be permitted for packs which are excessively loose in the layers.

SOLIDITY

§ 51.2515 *Solidity.* (a) The following terms are used in describing the solidity of lettuce:

(1) *Hard.* "Hard" means that the head is compact and solid. This term represents the highest degree of solidity.

(2) *Firm.* "Firm" means that the head is compact, but may yield slightly to moderate pressure.

(3) *Fairly firm.* "Fairly firm" means that although the head is not firm, it is not soft and spongy. A fairly firm head has good head formation and edible content.

(4) *Soft.* "Soft" means that the head is easily compressed or spongy.

DEFINITIONS

§ 51.2516 *Similar varietal characteristics.* "Similar varietal characteristics" means that the heads in any container have the same characteristic leaf growth. For example, lettuce of the Iceberg and Big Boston types shall not be mixed.

§ 51.2517 *Fresh.* "Fresh" means that the head as a whole has normal succulence but the wrapper leaves and the outermost head leaves may be slightly wilted.

§ 51.2518 *Burst.* "Burst" means that the head is broken open.

§ 51.2519 *Doubles.* "Doubles" means two heads on the same stem.

§ 51.2520 *Damage.* "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the lettuce except defects affecting wrapper leaves as restricted under definitions of "fairly well trimmed", and "closely trimmed". Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(a) Tipburn when more than one spot is present, or when the area of any spot exceeds that of a rectangle one-fourth inch in length and one-eighth inch in width;

(b) Opening in a hard or firm head which has one-fourth or more of the head separated from the remainder, or any degree of opening in a fairly firm head;

(c) Seedstems which are apparent upon external examination of the head;

(d) Broken midribs when more than 2 of the outer head leaves have midribs broken;

(e) Freezing when the head leaves show a brown discoloration over more than half of the crown, or when more than 3 of the head leaves are materially blistered or show appreciable injury by freezing;

(f) Dirt when the head is smeared with mud, or when wrapper leaves are badly smeared with mud, or when the basal portion of the head is caked with mud or dry dirt;

(g) Sunburn when the head leaves show a brown discoloration over more than half of the crown of the head; and

(h) Aphis when the head proper is infested, or when the wrapper leaves are badly infested.

§ 51.2521 *Fairly well trimmed.* "Fairly well trimmed" means that the butt is trimmed off close to the point of attachment of the outer leaves; that wrapper leaves are free from serious injury by any cause; that, on a head of Iceberg type lettuce, wrapper leaves do not exceed 8 in number, not more than 6 of which may be excessively large and coarse, and, that the outermost leaves of the head show some shade of green color on a part of the leaves. "Wrapper leaves" means all leaves which do not fairly closely enfold the compact portion of the head. A head shall not be considered fairly well trimmed when the wrapper leaves show yellow or brown discoloration or brown margins to an extent that the head is seriously injured. Any blistering except that causing yellow or brown discoloration which seriously affects the appearance of the wrapper leaves or any tearing of wrapper leaves shall not be considered as serious injury.

§ 51.2522 *Closely trimmed.* "Closely trimmed" means that the head meets all requirements of "fairly well trimmed" except that the wrapper leaves shall be not more than 3 in number, none of which may be excessively large and coarse.

§ 51.2523 *Serious damage.* "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the lettuce. The loss of crispness due to freezing shall not be considered serious damage. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as serious damage:

(a) Seedstems which have caused the head to split or which are protruding through the outer head leaves; and,

(b) Tipburn when any spot is more than 1½ inches in length or three-fourths inch in width.

§ 51.2524 *Fairly uniform in size.* "Fairly uniform in size" means that not more than 10 percent, by count, of the heads in any one container may be one standard size smaller than the standard size head for the count packed.

(a) *Example of standard size head.* The standard size head for a 4-dozen pack is that size which will pack tightly 4 rows with 4 heads of uniform size in each row in a layer in a standard crate, assuming that the head has the average number of wrapper leaves found on all the heads in the crate.

Dated: August 31, 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Marketing Services.

[F. R. Doc. 54-6952; Filed, Sept. 3, 1954; 8:46 a. m.]

[7 CFR Part 918]

[Docket No. AO 219-A4]

HANDLING OF MILK IN MEMPHIS, TENN., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposals to amend the tentative marketing agreement and the order, as amended, regulating the handling of milk in the Memphis, Tennessee, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business the 7th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the following findings and conclusions were formulated, was conducted at Memphis, Tennessee on June 30, 1954 (19 F. R. 3914). The material issues of record related to:

1. Provision of an additional limitation on the maximum amount of Class I milk which may be distributed in the marketing area before a plant becomes subject to regulation.

2. Extension of regulation to supply plants not subject to the routine inspection of a marketing area health authority.

Findings and conclusions. The following findings and conclusions of the material issues are based upon the evidence introduced at the hearing and the record thereof:

1. The fluid milk plant definition of the order should be amended to provide that any plant from which as much as 1,000 pounds or more per day of Class I milk is disposed of during the month on routes to retail or wholesale outlets in

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

the marketing area shall be considered a fluid milk plant and subject to full regulation under the order.

The present provisions of the Memphis order permit a plant to dispose of less than 5 percent of its Class I sales in the marketing area as Class I milk without becoming fully subject to regulation. Sale of unpriced milk (milk not paid for in accordance with its utilization) in substantial volumes in the marketing area tends to jeopardize the stability of the market and of the pricing system. An unregulated handler who is able to purchase milk on other than a utilization basis may enjoy a competitive advantage over handlers who buy milk on a utilization basis. Regulated handlers under the Memphis order must pay full class prices for all producer milk they receive.

The present order provision allowing a plant to sell 5 percent of its Class I sales in the marketing area without incurring regulation, was adopted to avoid any unnecessary extension of regulation to plants doing business primarily outside the marketing area. It was concluded on the basis of a previous hearing (19 F. R. 2848) that 5 percent of the Class I sales of any plant in the general area of Memphis would not be likely to represent an unstabilizing force of sufficient proportions to justify full regulation of such plant.

Evidence in the present hearing record discloses that a plant doing a large volume of business in Little Rock, Arkansas, has recently been increasing its sales in the Memphis marketing area. Because of the large total volume of business conducted at such plant it has been able to acquire a few sizable outlets for milk in the Memphis marketing area without incurring regulation. While these sales do not represent an important share of the overall business of the Memphis market, they were largely served by one or two handlers and their loss to these handlers has created a substantial disturbance so far as that portion of the market is concerned.

The handlers affected testified that loss of the sale of Class I milk forced them to curtail immediately their purchase of milk from producers under the order and that milk so displaced had to be marketed by a cooperative association for Class II use. The loss of substantial volumes in one or two plants, it was contended, resulted in a decrease in operating efficiency for such plants and impaired their ability to compete in the market for the sale of Class I milk.

It is concluded that additional protection is required to insure market stability in the Memphis market and that to accomplish this, no plant should be allowed to sell an average of more than 1,000 pounds of Class I milk per day in the marketing area without becoming subject to regulation. Under the amendment proposed herein a plant could sell up to 5 percent of its Class I milk to outlets located in the marketing area without becoming subject to full regulation only so long as the total of such sales did not equal the 1,000-pound-per-day limit.

2. The order language should be revised so as to bring under regulation any plant which furnishes Grade A milk or skim milk to a regulated distributing plant during the months of January through August regardless of the type of health approval held by such plant.

The record discloses that under the provisions of the order presently in effect, it is possible for a supply plant not under the routine inspection of a marketing area health authority to furnish milk to a regulated distributing plant and not come under the classification and the pricing provisions of the order. Such milk is classified as "other source" milk and allocated first to any Class II utilization in the distributing plant. Thus, if a distributing plant so chose it could operate so as to depend primarily on other source milk.

When the Memphis order was originally issued, the Memphis and Jackson health authorities issued permits to all producers who furnished milk regularly to the market. At that time, permits were issued on a temporary basis to plants which supplied milk during so-called emergency periods. The record indicates that during the last two years, the Memphis Board of Health has changed its policy, and has issued permits on a reciprocal basis to handlers outside the marketing area to sell milk in Memphis. This policy may render the present provision of the order based on producer inspection, ineffective in controlling all regular milk supplies for the Memphis city portion of the market.

Effective June 1, 1954, the order was amended to extend the marketing area to additional areas where other health authorities have jurisdiction. These areas are now served by plants qualified under the order. However, not all of these authorities inspect and issue permits to all plants and producers supplying the outlets under their jurisdiction. The proposed amendment is necessary therefore to insure that the plants serving these sections of the market regularly will be fully subject to the order.

The only supply plants not routinely inspected by a marketing area health authority which are now supplying the Memphis marketing area furnish only seasonal reserve milk. Record evidence does not indicate that the plants which provide milk seasonally to supplement local supplies during periods of low production need to be subject to the pricing provisions of the order to insure market stability. Special health department permits are normally issued during low production periods when supplies from outside the marketing area were needed to supplement producer milk. It has not been necessary up to this time to make any provision in the definition of a supply plant to regulate such plants. For these reasons an exception covering the months of September through December is included in the recommended amendment, so that during these periods only supply plants under routine inspection will be regulated. If plants not under routine inspection should begin serving the market in additional months they would be regulated pursuant to the proposed amendment.

It is concluded that the proposed amendment is necessary to recognize changes in circumstances under which health department approvals may be obtained to avoid possible circumvention of the pricing provisions of the order.

The proposed extension of regulation to supply plants not under the routine inspection of a marketing area health authority raises the question whether plants subject to other Federal orders might be brought under the regulation of the Memphis order. It would not be appropriate to extend regulation under the Memphis order to such plants. The order should be amended therefore to provide that in case a plant not under the routine inspection of a marketing area health authority and not regularly associated with the Memphis marketing area is qualified as a fully regulated plant under another order, it should be exempt from the classification and pricing provisions of the Memphis order.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk, in the marketing area and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Rulings on proposed findings and conclusions. Briefs were filed which contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered in the briefs was carfully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in the recommended decision.

Recommended marketing agreement and amendment to the order. The following order amending the order, as amended, regulating the handling of milk in the Memphis marketing area, is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order, as amended, and as hereby proposed to be further amended.

1. Delete § 918.7 and substitute therefor the following:

§ 918.7 *Fluid milk plant.* "Fluid milk plant" means (a) any milk processing or bottling plant from which a volume of Class I milk equal to an average of 1,000 pounds or more per day, or not less than 5.0 percent of the Class I milk of such plant is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except other fluid milk plants) located in the marketing area, (b) any plant which during the months of January through August ships Grade A milk, skim milk or cream to a plant qualified pursuant to paragraph (a) of this section, or (c) any plant which during the months of September through December receives milk from farmers holding dairy farm permits for the production of Grade A milk issued my a health authority having jurisdiction in the marketing area, and from which milk, skim milk or cream is moved during the month to a plant qualified pursuant to paragraph (a) of this section.

2. Delete § 918.61 and substitute therefor the following:

§ 918.61 *Plants subject to other Federal orders.* A plant specified in paragraph (a) or (b) of this section shall be considered a nonfluid milk plant except that the operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require, in lieu of the reports required pursuant to § 918.30, and allow verification of such reports by the market administrator.

(a) Any plant qualified pursuant to § 918.7 (a) which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless the Secretary determines that a greater volume of Class I milk is disposed of from such plant to retail or wholesale outlets (except fluid milk plants) in the Memphis, Tennessee, marketing area than in the marketing area regulated pursuant to such other order.

(b) Any plant qualified pursuant to § 918.7 (b) or (c) which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant was qualified as a fluid milk plant pursuant to § 918.7 (c) during each of the preceding months of September through December.

Issued at Washington, D. C., this 1st day of September 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 54-6972; Filed, Sept. 3, 1954; 8:49 a. m.]

CIVIL AERONAUTICS BOARD

[14 CFR Part 41]

[Draft Release No. 54-20]

CERTIFICATION AND OPERATION RULES FOR SCHEDULED AIR CARRIER OPERATIONS OUTSIDE CONTINENTAL LIMITS OF THE UNITED STATES

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulations, notice is hereby given that the Bureau will propose to the Board the adoption of amendments to Part 41 as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by November 4, 1954. Copies of such communications will be available after November 8, 1954, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

The Bureau has received recommendations from various interested persons for the adoption of certain amendments to Part 41 consistent with similar provisions recently incorporated into the scheduled domestic regulations contained in revised Part 40 of the Civil Air Regulations. Since the amendments described below will result in a particular benefit in operations conducted under Part 41 or in the administration of these rules, the Bureau considers it advisable to proceed with the amendment of Part 41 at this time rather than to await the complete revision of the part.

Currently effective § 41.52 of the Civil Air Regulations requires in part that pilots in command and second in command, in order to maintain pilot technique in any aircraft of a particular type in which they are to serve in air transportation at night, shall have made at least one take-off and landing at night in that particular type of aircraft within the preceding ninety days. Section 40.301 of Part 40, "Pilot recent experience," does not contain any requirement for night landings and take-offs within the preceding ninety days. Section 40.282, "Initial pilot flight training," does require, however, training for pilots in night operation in each type of airplane to be flown by them in scheduled operations. Part 41 on the other hand contains only the generalization in § 41.53, "Periodic flight checks and instruction," that pilots in command must receive training under certain specified conditions. It is to be noted that night operations are not specifically required.

In order to insure the same level of proficiency of pilots operating under Part 40 and Part 41, it will be necessary, if the recent experience requirements are to be made identical, to include in Part 41 a provision for pilots to receive initial training in night operations in each type of airplane in which they are to serve.

Therefore, it is proposed to amend § 41.52 to incorporate into Part 41 the basic provisions of §§ 40.301 and 40.282 (a) to bring the recent experience and initial pilot flight training requirements of Part 41 and Part 40 into closer conformity.

Attention has been directed to the fact that currently effective Part 41 contains no duty time limitations for aircraft dispatchers. Part 61 prior to April 1, 1954, and Part 40 subsequent to that date have, however, contained specific duty time limitation for aircraft dispatchers. In view of this situation and in order to insure the same level of safety in domestic and international) operations, the Administrator of Civil Aeronautics has incorporated similar duty time limitations in the Operations Specifications for each Part 41 operator. However, it is agreed that basic duty time limitations are more properly the subject of regulatory action by the Board. It is considered desirable, therefore, that the duty time limitations of revised Part 40 be incorporated in Part 41.

Attention has also been drawn to the fact that Part 40 provides that a scheduled domestic air carrier under specified conditions may conduct over-the-top operations by day below the established minimum en route altitude. It also provides, to cover the situation created by an over-the-top operation below the minimum en route altitude, for an entry into an instrument approach procedure below the altitude specified by the Administrator for such procedure. The Administrator of Civil Aeronautics has recommended that similar provisions be incorporated in Part 41 in the interest of standardizing operational rules and effecting the same relief for United States scheduled international air carriers as provided for scheduled domestic air carriers.

It is noted that § 41.119 currently contains provisions similar to § 40.406, "Take-off and landing weather minimums; IFR." However, Part 41 does not contain the provisions of § 40.406 (c) enabling a pilot to execute an instrument approach procedure when the weather report indicates that the ceiling or visibility is less than the approved minimum for a landing, if an airport is served by ILS and GCA in operative condition, and if both are used by the pilot. Generally, the Board endeavors to apply rules of this nature uniformly to both the domestic and international carriers where operational requirements are the same. It seems advisable therefore to amend § 41.119 to include the provisions of § 40.406 (c).

In view of the foregoing, notice is hereby given that it is proposed to amend Part 41 of the Civil Air Regulations as follows:

1. By amending § 41.52 to read as follows:

§ 41.52 *Initial pilot flight training and recent experience.* (a) Flight training for all pilots shall include at least take-offs and landings, during day and night, and normal and emergency flight

maneuvers in each type of airplane to be flown by him in scheduled operations, and flight under simulated instrument flight conditions.

(b) No air carrier shall schedule a pilot in command or second in command to serve as such in scheduled air transportation unless within the preceding 90 days he has made at least three take-offs and three landings in an aircraft of the particular type on which he is to serve.

2. By adding a new § 41.89 to read as follows:

§ 41.89 *Aircraft dispatcher daily duty time limitations.* (a) The daily duty period for aircraft dispatchers shall commence at such time as will permit him to become thoroughly familiar with existing and anticipated weather conditions along the route prior to the dispatch of any aircraft. He shall remain on duty until all aircraft dispatched by him have completed their flights, or have proceeded beyond his jurisdiction, or until he is relieved by another qualified aircraft dispatcher.

(b) The following rules will govern the hours of duty for aircraft dispatchers, except when circumstances or emergency conditions beyond the control of the air carrier require otherwise:

(1) *Maximum consecutive hours of duty.* No dispatcher shall be scheduled for duty as such for a period of more than 10 consecutive hours.

(2) *Maximum scheduled hours of duty in 24 consecutive hours.* If a dispatcher is scheduled for duty as such for more than 10 hours in a period of 24 hours, he shall be given a rest period of not less than 8 hours at or before the termination of 10 hours of dispatcher duty.

(3) *Dispatcher's time off.* Each aircraft dispatcher shall be relieved from all duty with the air carrier for a period of at least 24 consecutive hours during any 7 consecutive days or the equivalent thereof within any one month.

3. By amending the title of § 41.114 (b) to read as follows:

§ 41.114 *Flight altitude rules.* • • •

(b) *Night VFR or IFR operations (including over-the-top).* • • •

4. By adding a new paragraph (c) to § 41.114 to read as follows:

§ 41.114 *Flight altitude rules.* • • •

(c) *Day time over-the-top operations below minimum en route altitudes.* Over-the-top operations may be conducted at flight altitudes lower than the minimum en route IFR altitudes by day only and in accordance with the following provisions:

(1) Such operations shall be conducted at least 1,000 feet above the top of lower broken or overcast cloud cover;

(2) The top of the lower cloud cover shall be generally uniform and level;

(3) Flight visibility shall be at least five miles;

(4) The base of any higher broken or overcast cloud cover shall be generally uniform and level and shall be at least 1,000 feet above the minimum en route IFR altitude for the route segment.

5. By amending § 41.117 to read as follows:

§ 41.117 *Altitude on initial approach.* (a) When making an initial approach to a radio navigational facility on instruments or on top of overcast (excluding over-the-top conducted in accordance with the provisions of § 41.114 (c)), an airplane shall not descend below the pertinent minimum altitude for initial approach specified by the Administrator for such facility until arrival over the radio facility has been definitely established;

(b) When making an initial approach on a flight being conducted in accordance with the provisions of § 41.114 (c), a pilot shall not commence an instrument approach until arrival over the radio facility has definitely been established. In executing an instrument approach procedure under such circumstances, the airplane shall not be flown at an altitude lower than 1,000 feet above the top of the lower cloud or the minimum altitude specified by the Administrator for that portion of the instrument approach procedure being flown, whichever is the lower.

6. By amending § 41.118 to read as follows:

§ 41.118 *Instrument approach procedures.* When an instrument approach is necessary, the instrument approach procedures and weather minimums authorized in the operations specifications shall be adhered to.

7. By amending § 41.119 to read as follows:

§ 41.119 *Approach and landing limitations.* (a) Except as provided in paragraphs (b) and (c) of this section, no instrument approach procedure shall be executed or landing made at an airport when the latest U. S. Weather Bureau report for that airport indicates the ceiling or visibility to be less than that prescribed by the Administrator for landing at such airport.

(b) An instrument approach procedure may be executed when the weather report indicates that the ceiling or visibility is less than approved minimum for landing, if the airport is served by ILS and GCA in operative condition and both are used by the pilot, and thereafter a landing may be made, if weather conditions equal to or better than the prescribed minimums are found to exist by the pilot in command upon reaching the authorized landing minimum altitude.

(c) If an instrument approach procedure is initiated when the current U. S. Weather Bureau report indicates that the prescribed ceiling and visibility minimums exist and a later weather report indicating below minimum conditions is received after the aircraft (1) is on an ILS final approach and has passed the outer marker, or (2) is on a final approach using a radio range station or comparable facility and has passed the appropriate facility and has reached the authorized landing minimum altitude, or (3) is on GCA final approach and has been turned over to the final approach controller, such approach may be continued and a landing may be made in the event weather conditions equal to or better than the prescribed minimums for the airport are found to exist by the pilot in command of the flight upon reaching the authorized landing minimum altitude.

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. These proposals may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012; 49 U. S. C. 551–560)

Dated: August 26, 1954, at Washington, D. C.

[14 CFR Part 49]

[Draft Release No. 54–21]

TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

DEVIATION FROM LIMITATIONS FOR ATOMIC ENERGY COMMISSION SHIPMENTS OF RADIOACTIVE MATERIALS

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of amendments to Part 49 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by October 8, 1954. Copies of such communications will be available after October 12, 1954, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

The program of the Atomic Energy Commission requires the use of civil aircraft to transport radioactive materials, the movement of which is subject to the requirements and limitations as set forth in Part 49 of the Civil Air Regulations. The Civil Air Regulations applicable to radioactive materials are identical in substance with the ICC Regulations.

Generally, the United States Atomic Energy Commission finds no difficulty in complying with the regulations of Part 49 for air shipments. In certain instances, however, because of the chemical nature of a particular material, the quantity needed to be transported which is required for laboratory or medical use exceeds the 2,000 millicurie limitation prescribed by Part 49. The useful life span of certain materials also becomes an important factor in that it is of such short duration that the fastest means of transportation is needed to provide sufficient time for the efficient use of such materials.

In order to facilitate the movement of these materials in surface transportation, a simplified system has been approved by ICC for rail express shipments which provides for the use of deviation authority directly by the Atomic Energy Commission with respect to the quantity of radioactive material that can be carried in one package. This system provides that the Atomic Energy Commission may utilize a special permit by virtue of which it can ship greater quantities of radioactive materials in a package in rail express transportation provided that, in addition to making notification and using approved containers, the outside radiation of the package does not exceed the present limit. This has replaced the procedure which required an individual authorization from ICC for each shipment. The Civil Air Regulations presently require that deviation authority for each individual shipment shall be obtained from the Administrator, and in some instances this procedure could cause delay in the transportation of materials where time is a most important factor.

From a safety standpoint, since the surface radiation of the package containing the additional units must not exceed 10 milliroentgens in 24 hours, which is the normal rate prescribed by Part 49, there is adequate provision for the safety of those handling the package and those who occupy positions of close proximity to the package. The packaging is secure in strength and fire-resistant inasmuch as the lead shield required to control radiation is also required to be enclosed in a steel container so that it will not flow away in case of fire. A means must be provided for applying an outside seal so that the container cannot be opened without destroying the seal. Each such shipment must be accompanied by a permit issued by the Atomic Energy Commission.

The Atomic Energy Commission will certify that the package offered for shipment by air meets all the requirements prescribed by Part 49 except the maximum quantity limitations, in which case the quantity shall be stated on the permit unless the package is personally escorted by Atomic Energy Commission personnel. Notification prior to each shipment must be given by the Atomic Energy Commission to the Civil Aeronautics Administration in the form and manner prescribed by the Administrator.

It is noted that in § 49.18 the numbered references to the ICC Regulations are no longer correct. They have been changed and therefore we propose to substitute the new numbers.

In order to accomplish the foregoing, it is proposed to amend Part 49 of the Civil Air Regulations as follows:

1. By amending § 49.71 to read as follows:

§ 49.71 *Special authority.* In emergency situations or where other forms of transportation are impracticable:

(a) Deviations from any of the provisions of this part for a particular flight may be authorized by the Administrator where he finds that the conditions under which the articles are to be carried are such as to permit the safe carriage of persons and cargo.

(b) Deviations from the 2,000 millicurie quantity limitation prescribed for radioactive materials by § 49.18 may be authorized by the Atomic Energy Commission for Atomic Energy Commission shipments provided that such shipments are made in accordance with the requirements approved by the Interstate Commerce Commission for shipment by rail express and prior notification of each shipment is given by the Atomic Energy Commission in the form and manner prescribed by the Administrator.

2. By deleting from § 49.18 the reference "§§ 73.368 through 73.369" and inserting in lieu thereof "§§ 73.391 through 73.394".

These amendments are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012, as amended; 49 U. S. C. 551–560)

Dated August 30, 1954, at Washington, D. C.

By the Bureau of Safety Regulation.

NOTICES

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

SUGAR BEETS IN CERTAIN AREAS

NOTICE OF HEARING ON WAGES AND PRICES AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsections (c) (1) and (c) (2) of section 301 of the Sugar Act of 1948, as amended (61 Stat. 929; 7 U. S. C. Sup. 1131), notice is hereby given that a public hearing will be held as follows:

At Berkeley, California, in the Board Room of the California Farm Bureau Federation Building, 2223 Fulton Street, on October 6, 1954, at 10:00 a. m.

The purpose of such hearing is to receive evidence likely to be of assistance to the Secretary of Agriculture in determining (1), pursuant to the provisions of section 301 (c) (1) of said act, fair and reasonable wage rates for persons employed in the production, cultivation or harvesting of sugar beets in California, southwestern Arizona, western Nevada, and southern Oregon, during the crop year 1955 on farms with respect to which applications for payments under the said act are made, and (2) pursuant to the provisions of section 301 (c) (2) of said act, fair and reasonable prices for the 1955 crop of sugar beets in California, southwestern Arizona, western Nevada, and southern Oregon, to be paid, under either purchase or toll agreements by producers who process sugar beets grown by other producers and who apply for payments under the said act.

The hearing, after being called to order at the time and place mentioned herein, may be continued from day to day within the discretion of the presiding officers, and may be adjourned to a later day or to a different place without notice other than the announcement thereof at the hearing by the presiding officers.

In the interest of obtaining the best possible information, all interested persons are requested to appear at the hearing to express their views and present appropriate data in regard to the foregoing matters.

A. A. Greenwood and Larry F. Diehl are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearing.

Issued this 1st day of September 1954.

[SEAL] A. A. GREENWOOD, *Acting Director, Sugar Division.*

Office of the Secretary

ARKANSAS

DISASTER ASSISTANCE; DELINEATION AND CERTIFICATION OF COUNTIES CONTAINED IN DROUGHT AREAS

Pursuant to Public Law 875, 81st Congress, the President on August 7, 1954, determined that a major disaster occasioned by drought existed in the State of Arkansas.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148), as further amended on July 30, 1954, and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress certain counties in the State of Arkansas were on August 19, 1954 (19 F. R. 5388), determined to be the area affected by the major disaster by drought.

Pursuant to the aforesaid delegation the Delineation and Certification of Counties Contained in Drought Areas, dated August 19, 1954 (19 F. R. 5388) is herewith amended by adding the counties set forth below, on the date indicated, to the major disaster area in the designated State.

ARKANSAS

AUGUST 19, 1954

Garland.	Pike.
Grant.	Polk.
Hot Spring.	Saline.
Howard.	Sevier.
Montgomery.	

Done this 31st day of August 1954.

[SEAL] EARL L. BUTZ,
Acting Secretary.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Doc. II—California State Office]

CALIFORNIA

RESTORATION ORDER UNDER FEDERAL POWER ACT

AUGUST 25, 1954.

Pursuant to the following listed determinations of the Federal Power Commission and in accordance with authority delegated to me by the Director, Bureau of Land Management, by section 2.5 of Order No. 541, dated April 21, 1954 (19 F. R. 2473, 2476) it is ordered as follows:

Subject to valid existing rights and the provisions of existing withdrawals, the lands hereinafter described, so far as they are withdrawn or reserved for power purposes, are hereby opened to disposition under the public land laws as provided below, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended, and as to DA-757, DA-767, DA-768, DA-776, DA-777, DA-784, DA-785, DA-787, DA-790, DA-797, DA-800, DA-815, subject to the stipulation that if and when the lands are required wholly or in part for any purpose or purposes of power development, including the location of roads, power lines, and conduits over, under, or across said land that all structures, machinery, or improvements placed thereon which shall be found to interfere with such power development shall be removed or so relocated as may be necessary to eliminate interference with power development without cost or expense to the United States or its permittees or licensees, as to DA-768, DA-773, DA-787, DA-797, DA-801, DA-812, subject to the stipulation that if and when the land is required, in whole or in part, for purposes of power development, the United States, its permittees or licensees, shall not be held liable for any damage to workings, operations, structures, machinery, or improvements placed thereon resulting from the construction, operation, or maintenance of any power project authorized by the United States; as to DA-730, DA-766 subject to the prior rights of the United States, its transferees or assigns, to use any or all portions of the land required for the relocation, construction, and maintenance of any highways made necessary by the construction of the Isabella Dam and Reservoir; as to DA-799 subject to the stipulation that the United States, its permittees or licensees, shall not be liable for any damages to any improvements or workings located thereon below the 2,300-foot elevation (North American Datum) by the locator or entryman, and all structures, machinery, or improvements which shall be found to interfere with any power development by the United States, its permittees or licensees, shall be removed or relocated without expense to the United States, its permittees or licensees; as to DA-801 subject to the stipulation that the locators shall agree to operate the mining or milling to be conducted on the land so as to confine all waste, debris, tailings, and harmful chemicals, by means of substantial dikes or other adequate structures, from being carried by storm water or otherwise into the Middle Fork Feather River; as to DA-804 subject to the stipulation that the locator, its successors and assigns, shall by means of substantial dikes or other adequate structures confine all their tailings and other debris in such manner that they shall not be carried by storm water or otherwise into Hottentot Creek or Middle Fork Feather River; and subject to the further stipulation that the United States, its permittees or licensees, shall not be held liable for any damage to the improvements or workings of the locator, its successors or assigns, located below the 4,100-foot elevation resulting from construction, operation, or maintenance of hydroelectric power facilities authorized by the United States; as to DA-812 subject to the stipulation that these lands shall be occupied and used exclusively for mineral exploration and development, and for no other purpose, until such time as full compliance with the requirements of the mining laws have been made and patent issued; as to DA-836 subject to the stipulation that the proposed highway and bridge at the Rancheria Creek Crossing shall be constructed so as not to conflict with the power-development plan of the Southern California Edison Company.

DA-804-California...	Power Projects Nos. 249, 2121, 2134, 2135, of Sept. 14, 1921, Jan. 9, 1953, May 20, 1953, May 28, 1953, respectively.	For mining purposes only.	California: T. 23 N., R. 10 E., M. D. M., sec. 20, $N\frac{1}{2}$; in Plumas National Forest.
DA-812-California...	Power Project No. 187 of Mar. 14, 1921; Power Project No. 1323 of July 24, 1925.	For mining purposes only.	California: T. 20 N., R. 11 E., M. D. M., sec. 25, $W\frac{1}{2}SE\frac{1}{4}SE\frac{1}{4}$, $E\frac{1}{2}SW\frac{1}{4}SE\frac{1}{4}$.
DA-815-California...	Power Site Classification No. 115 of Sept. 21, 1925.	For mining purposes only.	California: T. 6 N., R. 6 E., H. M., sec. 13, $E\frac{1}{2}SW\frac{1}{4}SE\frac{1}{4}$; in Six Rivers National Forest.
DA-821-California...	Power Site Classification No. 116 of Sept. 19, 1925.	For highway right-of-way.	California: T. 16 N., R. 8 E., H. M., sec. 5, $W\frac{1}{2}NE\frac{1}{4}$, $SW\frac{1}{4}NW\frac{1}{4}$, $NW\frac{1}{4}SE\frac{1}{4}$, $N\frac{1}{2}SW\frac{1}{4}$; sec. 6, $N\frac{1}{2}SE\frac{1}{4}$, $SW\frac{1}{4}SE\frac{1}{4}$; sec. 7, $W\frac{1}{2}NE\frac{1}{4}$, $NW\frac{1}{4}SE\frac{1}{4}$, $NE\frac{1}{4}SW\frac{1}{4}$; in Klamath National Forest.
DA-836-California...	Power Site Classification No. 138, Power Projects Nos. 67, 105, 110 of Apr. 7, 1928; Nov. 26, 1926, respectively.	For highway right-of-way.	California: T. 8 S., R. 26 E., M. D. M., sec. 5, $S\frac{1}{2}SW\frac{1}{4}$; sec. 8, $E\frac{1}{2}NW\frac{1}{4}$, $W\frac{1}{2}SW\frac{1}{4}$; sec. 18, $SW\frac{1}{4}NE\frac{1}{4}$; in Sierra National Forest.
DA-839-California...	Power Project No. 187 of Mar. 14, 1921.	Under applicable public land laws.	California: T. 20 N., R. 12 E., M. D. M., sec. 9, $S\frac{1}{2}SW\frac{1}{4}SW\frac{1}{4}$; in Tahoe National Forest.

The lands described shall be subject to application by the State of California for a period of ninety days from the date of publication of this order in the FEDERAL REGISTER for rights-of-way for public highways or as a source of material for the construction and maintenance of such highways, as provided by section 24 of the Federal Power Act as amended.

This order shall not otherwise become effective to change the status of such land until 10:00 a. m., P. s. t., on the 91st day after the date of publication. At that time the said lands shall become subject to application, petition, location, and selection, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws and the 90-day preference-right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

L. T. HOFFMAN,
State Supervisor.

[Docket Nos. 10931, 10933, 11096; FCC 54-1057]

MERCER BROADCASTING CO. ET. AL.

CANCELLATION OF HEARING AND STATEMENT OF REQUIREMENTS TO COVER FUTURE PROCEEDINGS

In re applications of Mercer Broadcasting Company, Trenton, New Jersey, Docket No. 10931, File No. BP-8714; Drew J. T. O'Keefe, Jack J. Dash and William F. Waterbury, Levittown-Fairless Hills, Pennsylvania, Docket No. 10933, File No. BP-8964; William A. Brewer, Albert W. Eastburn and Theresa Rose, a partnership, d/b as Levittown-Fairless Hills Broadcasters, Levittown, Pennsylvania, Docket No. 11096, File No. BP-9193; for construction permits.

1. By order, dated July 30, 1954, all parties or their attorneys were directed to appear on August 9, 1954 for a prehearing conference pursuant to § 1.813 of the Commission's rules. A further session of the conference was held on August 18, 1954. The following parties

were represented at both sessions of the conference: Mercer Broadcasting Company (Mercer); Drew J. T. O'Keefe, Jack J. Dash, and William F. Waterbury (O'Keefe); William A. Brewer, Albert W. Eastburn, and Theresa Rose, a partnership, d/b as Levittown-Fairless Hills Broadcasters (Brewer); Max M. Leon, Inc. (WDAS); Atlantic City Broadcasting Company (WLDB); and Chief of the Commission's Broadcast Bureau (Commission Counsel). No appearance was entered on behalf of Greenwich Broadcasting Company or Press-Union Publishing Company, and no written appearance has been filed for either company pursuant to § 1.387 (b) (4) of the Commission's rules. Accordingly, these two companies appear to have forfeited their hearing rights and are hereby held to be in default.

2. The following agreements among the parties were found to be acceptable and approved by the Hearing Examiner:

(a) The balance of the hearing shall be conducted under the revised hearing procedures adopted by the Commission on July 14, 1954 (FCC 54–900).

(b) The direct cases, in written form, shall be prepared as follows:

(1) The testimony of each witness shall be prepared in narrative form and shall be submitted under the affidavit of the particular witness.

(2) All narrative statements shall be prepared in double-spaced form.

(3) Parties shall be designated by the abbreviated names shown in paragraph 1, above.

(4) Each party shall mark its exhibits with its name and a number. Narrative statements shall be numbered in series, beginning with one. An exhibit connected with a narrative statement shall be given the same number as the narrative statement, plus an identifying letter in series, such as "Mercer No. 1–A."

(c) The "direct case" will include the affirmative proposals of each of the parties with respect to its own application, i. e., all data desired to be submitted by the applicant in connection with his qualifications and proposals, and will not include testimony or exhibits in the nature of rebuttal with respect to the proposals of the other parties.[1]

(d) Where the direct case in written form contains testimony of witnesses whose direct testimony appropriately could have been taken by deposition, parties will not object to taking cross-examination of such witnesses through deposition procedures rather than requiring those witnesses to be brought to Washington.

(e) A mere letter from a person, stating willingness to cooperate in the production of programs, will not be admissible for the purpose of establishing as a fact that he is willing to cooperate without having the person available for cross-examination.

[1] In this connection the Examiner ruled that the direct written cases under the section 307 (b) issue should include the facts regarding the proposal of the particular applicant and should not include comparative facts regarding the proposals of the other two applicants.

(f) Parties will confer informally and attempt to reach a stipulation concerning the engineering phases of the case, and the values in the Commission's new conductivity map may be used in place of those in the old conductivity map without amendment of the applications.

(g) Insofar as possible, parties will attempt to reach stipulations on other factual matters.

(h) Stipulations of facts agreed to by all parties, including Commission Counsel, will be considered prima facie acceptable to the Examiner, and the direct cases, in written form, may be prepared on the assumption that such stipulations will be acceptable to the Examiner. If, on examination, such stipulations are not acceptable, an appropriate opportunity will be afforded so that such matters can be covered in the direct cases in written form.

(i) With reference to program proposals, each applicant will submit, as a minimum: (1) Complete program schedule of programs, including the classification of each program by type and source, (2) program descriptions, (3) analyses of proposed typical week by type and by source, together with information on spot announcements as required by FCC Form 301.

3. After discussion as to whether the hearing should be held in abeyance pending action by the Commission upon pending petitions to enlarge the issues, the Examiner ruled that the hearing should proceed at least to the point of exchanging direct cases in writing and holding a § 1.841 conference upon the issues as presently constituted, and that such further action as seemed appropriate would be taken subsequently, if the Commission enlarged the issues. Counsel for O'Keefe agreed to prepare and submit new information on a specified site basis if the Commission should require that applicant to specify a site.

4. After discussion, the Examiner ruled that evidence on the matter of diversification of media of mass communications would be relevant under issue 5 (a). See Radio Fort Wayne, Inc., 9 Pike & Fischer, R. R. 167, 170.

5. After discussion, the Examiner ruled that issue No. 3 puts in issue only the matter referred to with particularity, i. e., providing the recommended minimum of interference-free service within the proposed station's normally protected daytime contour (0.5 mv/m).

6. Exceptions were taken to some of the Examiner's rulings, as recorded in the transcript of the conference.

It is ordered, This 26th day of August 1954, that the foregoing requirements shall govern the course of the proceeding to the extent indicated, unless modified by the Examiner for cause or by the Commission upon review of the Examiner's ruling.

It is further ordered, That (1) the hearing, heretofore scheduled for September 16, 1954, is canceled; (2) exhibits comprising the full direct case of each applicant shall be exchanged on September 13, 1954, in accordance with the provisions of § 1.841 of the Commission's rules; and (3) parties are directed to appear for a further pre-hearing conference, pursuant to the provisions of § 1.841 of the Commission's rules, on September 20, 1954, at 10:00 a. m.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket Nos. 10980, 10981; FCC 54M-1083]

KFJI BROADCASTERS AND KLAMATH FALLS TELEVISION, INC.

ORDER CONTINUING HEARING

In re applications of KFJI Broadcasters, Klamath Falls, Oregon, Docket No. 10980, File No. BPCT-1299; Klamath Falls Television, Inc., Klamath Falls, Oregon, Docket No. 10981, File No. BPCT-1620; for construction permits for new television stations.

It appearing that the commencement of the taking of testimony in another proceeding before this Commission (Channel 7 in Omaha, Nebraska) is scheduled for September 13, 1954;

It is ordered, This 1st day of September 1954, that the date for the commencement of the taking of testimony in the above-entitled proceeding is postponed from September 13, 1954, to October 11, 1954, at 10:00 a. m. in the Commission offices at Washington, D. C.; and

It is further ordered, That the date for the exchange of exhibits by counsel for KFJI Broadcasters and for the filing of exhibits by counsel for Klamath Falls Television, Inc. with the Examiner is postponed to Wednesday, October 6, 1954.

Released: September 1, 1954.

FEDERAL COMMUNICATIONS COMMISSION,

AMOS B. COLLINS

CORRECTED ORDER TO SHOW CAUSE

In the matter of Amos B. Collins, Cheverly, Maryland, order to show cause why the license for Amateur Radio Station W3FVX should not be revoked; Docket No. 11148.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation Amateur Radio Station W3FVX licensed to Amos B. Collins, 6008 Euclid Street, Cheverly, Maryland; and

It appearing that said licensee, while operating his amateur radio station W3FVX, on or about July 23 and July 24, 1954 with apparent wilfulness violated § 12.157 of the Commission's rules by transmitting obscene, indecent or profane language:

It is ordered, This 23d day of August 1954, pursuant to the provisions of section 312 (a) and (c) of the Communications Act of 1934, as amended, that the said Amos B. Collins of Cheverly, Maryland, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing[1] to be held before this Commission at Washington, D. C., on the 22d day of November 1954; and

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Amos B. Collins, 6008 Euclid Street, Cheverly, Maryland.

Released: August 30, 1954.

[Docket No. 11149]

S. B. CRAYTON, JR.

ORDER TO SHOW CAUSE

In the matter of S. B. Crayton, Jr., Georgetown, South Carolina, order to show cause why the license for Radiotelephone Station WE–7498 should not be revoked; Docket No. 11149.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WE–7498 licensed to S. B. Crayton, Jr., Georgetown, South Carolina, aboard the vessel "Miss May".

It appearing that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated February 9, 1954, specifying that at 2:53 p. m., e. s. t., on December 30, 1953, while engaged in radio communication, the operator of radio station WE–7498 failed to properly identify the station by transmitting the call sign thereof as required by § 8.364 of the Commission's rules. (Station call sign was not announced during each transmission.)

It further appearing that, despite a further notice dated March 23, 1954, calling attention to the foregoing notice of violation and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules no explanation or other response has been received from the licensee:

It is ordered, This 25th day of August 1954, pursuant to the provisions of section 312 (c) of the Communication Act of 1934, as amended, that the said S. B. Crayton, Jr., Georgetown, South Carolina, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing[1] to be held before this Commission at Washington, D. C., on the 1st day of November, 1954.

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said S. B. Crayton, Jr., Georgetown, South Carolina.

Released: August 27, 1954.

[Docket No. 11150]

T. L. BISHOP AND V. J. SCOGIN

ORDER TO SHOW CAUSE

In the matter of T. L. Bishop and V. J. Scogin, Aransas Pass, Texas; Order to Show Cause why the license for Radiotelephone Station WB–2311 should not be revoked; Docket No. 11150.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WB–2311 licensed to T. L. Bishop and V. J. Scogin, Aransas Pass, Texas, aboard the vessel "Sabine Fish Co. No. I."

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated March 5, 1954, specifying that at 2035 GMT, on March 4, 1954, the transmitter of radio station WB–2311 radiated a strong second harmonic which was a potential source of interference to aeronautical radio communications on the frequency 5476.5 kc and a violation of § 8.108 of the Commission's rules.

It further appearing, that, despite a further notice dated April 22, 1954, calling attention to the foregoing notice of violation and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

It is ordered, This 25th day of August 1954, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said T. L. Bishop and V. J. Scogin, Aransas Pass, Texas, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing[1] to be held before this Commission at Washington, D. C., on the 1st day of November, 1954.

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said T. L. Bishop and V. J. Scogin, P. O. Box 1283, Aransas Pass, Texas.

Released: August 27, 1954.

[Docket No. 11151]

GENERAL SEAFOODS, INC.

ORDER TO SHOW CAUSE

In the matter of General Seafoods, Inc., New Orleans, Louisiana; Order to Show Cause why the license for Radiotelephone Station WD–8367 should not be revoked; Docket No. 11151.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WD–8367 licensed to General Seafoods, Inc., New Orleans, Louisiana, aboard the vessel "40 Fathom No. I."

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated January 29, 1954, specifying that at 1926 GMT, on January 27, 1954, the operator of radio station WD–8367, while engaged in radio communication on the frequency 2638 kc, failed to properly identify the station by transmitting the call sign as required by § 8.364 of the Commission's rules.

It further appearing that, despite a further notice dated March 2, 1954, calling attention to the foregoing notice of violation and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

It is ordered, This 25th day of August 1954, pursuant to the provisions of sec-

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in an order to show cause, the licensee shall within thirty (30) days from the date of the receipt of the order submit a written statement informing the Commission whether said licensee will appear at the hearing and present evidence upon the matters specified, or whether the rights to a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to the order within the specified thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

tion 312 (c) of the Communications Act of 1934, as amended, that the said General Seafoods, Inc., New Orleans, Louisiana, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 3d day of November 1954.

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said General Seafoods, Inc., 923 Tchouptulas Street, New Orleans, Louisiana.

Released: August 27, 1954.

ANDREW TIPICH

ORDER TO SHOW CAUSE

In the matter of Andrew Tipich, San Pedro, California; Order to Show Cause why the license for Radiotelephone Station WB-2748 should not be revoked; Docket No. 11152.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WB-2748 licensed to Andrew Tipich, San Pedro, California, aboard the vessel "Sea Pride."

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated May 10, 1954, specifying that at 1954 GMT, on May 3, 1954, the transmitter of radio station WB-2748 radiated a strong second harmonic on the frequency 5276 kc in violation of § 8.108 of the Commission's rules.

It further appearing, that, despite a further notice dated June 15, 1954, calling attention to the foregoing notice of violation and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

It is ordered, This 25th day of August 1954, pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Andrew Tipich, San Pedro, California, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 3d day of November 1954.

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Andrew Tipich, 1449 Sunnyside Terrace, San Pedro, California.

Released: August 27, 1954.

ALTON T. HUDGINS

ORDER TO SHOW CAUSE

In the matter of Alton T. Hudgins, Hampton, Virginia; Order to Show Cause why the license for Radiotelephone Station WB-4471 should not be revoked; Docket No. 11153.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WB-4471 licensed to Alton T. Hudgins, 107 Worden Avenue, Hampton, Virginia, aboard the vessel "Whitestone."

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated April 28, 1954, specifying that at 1430 GMT, on April 21, 1954, the transmitter of radio station WB-4471 radiated a strong second harmonic which was a potential source of interference to aeronautical radio communications on the frequency 5476.4 kc and a violation of § 8.108 of the Commission's rules.

It further appearing, that, despite further notices dated May 10, 1954, and June 2, 1954, calling attention to the foregoing notice of violation and the failure to submit a satisfactory reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

It is ordered, This 25th day of August 1954 pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Alton T. Hudgins, Hampton, Virginia, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 5th day of November 1954.

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Alton T. Hudgins, 107 Worden Avenue, Hampton, Virginia.

Released: August 27, 1954.

DUNCAN CAMERON AND C. F. GREEN

ORDER TO SHOW CAUSE

In the matter of Duncan Cameron and C. F. Green, Ft. Myers Beach, Florida; Order to Show Cause why the license for Radiotelephone Station WF-2956 should not be revoked; Docket No. 11154.

There being under consideration the matter of certain alleged violations of the Commission's rules in connection with the operation of Station WF-2956 licensed to Duncan Cameron and C. F. Green, Ft. Myers Beach, Florida, aboard the vessel "Marian."

It appearing, that notices of violations of the Commission's rules in connection with the operation of the station were given the licensee as follows:

(a) Notice dated February 9, 1954, specifying that at 11:52 p. m., e. s. t., on December 30, 1953, while engaged in radio communication, the operator of radio station WF-2956 failed to properly identify the station by transmitting the call sign thereof as required by § 8.364 of the Commission's rules. (Station call sign was not announced during each transmission.)

It further appearing, that, despite a further notice dated March 23, 1954, calling attention to the foregoing notice of violation and the failure to reply thereto in accordance with § 8.601 (a) of the Commission's rules, no explanation or other response has been received from the licensee:

It is ordered, This 25th day of August 1954 pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Duncan Cameron and C. F. Green, Ft. Meyers Beach, Florida, show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing [1] to be held before this Commission at Washington, D. C., on the 5th day of November 1954.

It is further ordered, That the Secretary send a copy of this order by Registered Mail—Return Receipt Requested to the said Duncan Cameron and C. F. Green, General Delivery, Ft. Myers Beach, Florida.

Released: August 27, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-6969; Filed, Sept. 3, 1954; 8:49 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in the order to show cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to this order within the above-mentioned thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

FEDERAL POWER COMMISSION

[Docket No. G-2471]

CITIES SERVICE GAS CO.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed on July 1, 1954, pursuant to section 7 of the Natural Gas Act, for authorization to construct and operate certain facilities as described in said application, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, and no request to be heard, protest or petition having been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on July 20, 1954 (19 F. R. 4486-87).

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on September 16, 1954, at 9:30 a. m., e. d. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: August 31, 1954.

Issued: September 1, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29622]

CEMENT FROM GIANT, S. C., TO OFFICIAL TERRITORY

APPLICATION FOR RELIEF

AUGUST 31, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Cement, hydraulic, natural or portland, also masonry cement, mortar cement or dry building mortar, carloads.

From: Giant, S. C.

To: Specified points in trunk-line and New England territories.

Grounds for relief: Rail competition, circuity, and rates constructed on the basis of the short line distance formula.

Schedules filed contained proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1173, supp. 20.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

[4th Sec. Application 29624]

CRUDE PHOSPHATE ROCK FROM NASHVILLE TO HALLS, TENN.

APPLICATION FOR RELIEF

AUGUST 31, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for the Illinois Central Railroad Company and the Tennessee Central Railway Company.

Commodities involved: Phosphate rock, crude, acidulated, rough, unscreened, in bulk, carloads.

From: Nashville, Tenn.

To: Halls, Tenn.

Grounds for relief: To meet intrastate rates.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1221, supp. 66.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 7914, Amdt.]

WILLIAM ARNDT

In re: Estate of William Arndt, deceased. File No. D-28-11054; E. T. sec. 15478.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR, 1943 Cum Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR, 1946 Supp.) and Executive Order 9989 (3 CFR, 1948 Supp.), and pursuant to law, after investigation, Vesting Order 7914 is hereby amended to read as follows:

1. That Wilhelm Arndt, Paul Arndt, Ernst Arndt, and Gertrude Kruse, also known as Gertrude Kouse, who there is reasonable cause to believe, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, and are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof, and of each of them in and to the Estate of William Arndt, deceased,

is property which is, and prior to January 1, 1947, was, within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by John W. Patterson, as administrator, acting under the judicial supervision of the Circuit Court of the State of Oregon for the County of Multnomah;

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as persons who are, and prior to January 1,

1947 were, nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9095, as amended by Executive Order 9193.

Executed at Washington, D. C., on September 1, 1954.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

FEDERAL REGISTER

VOLUME 19 NUMBER 174

Washington, Wednesday, September 8, 1954

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10557

APPROVING THE REVISED PROVISION IN GOVERNMENT CONTRACTS RELATING TO NONDISCRIMINATION IN EMPLOYMENT

WHEREAS the contracting agencies of the United States Government are required by existing Executive orders to include in all contracts executed by them a provision obligating the contractor not to discriminate against any employee or applicant for employment because of race, creed, color, or national origin, and obligating the contractor to include a similar clause in all subcontracts, and

WHEREAS the Committee on Government Contracts is authorized by Executive Order 10479, as amended, to make recommendations to the contracting agencies for improving and making more effective the nondiscrimination provision of Government contracts, and

WHEREAS the Committee on Government Contracts, in consultation with the principal contracting agencies of the Government, has recommended that in the future the contracting agencies of the Government include in place of, and as a means of better explaining, the present nondiscrimination provision of Government contracts, the following provision:

> In connection with the performance of work under this contract, the contractor agrees not to discriminate against any employee or applicant for employment because of race, religion, color, or national origin. The aforesaid provision shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post hereafter in conspicuous places, available for employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of the non-discrimination clause.
>
> The contractor further agrees to insert the foregoing provision in all subcontracts hereunder, except subcontracts for standard commercial supplies or raw materials.

NOW, THEREFORE, by virtue of the authority vested in me by the Constitution and statutes, and as President of the United States, and in order to clarify the provisions of the existing orders, it is ordered as follows:

SECTION 1. The contract provision relating to nondiscriminatin in employment, recommended by the Committee on Government Contracts, is hereby approved.

SEC. 2. The contracting agencies of the Government shall hereafter include the approved nondiscrimination provision in all contracts executed by them on and after a date 90 days subsequent to the date of this order, except:

a. Contracts and subcontracts to be performed outside the United States where no recruitment of workers within the limits of the United States is involved; and

b. Contracts and subcontracts to meet other special requirements or emergencies, if recommended by the Committee on Government Contracts.

SEC. 3. The General Services Administration shall take appropriate action to revise the standard Government contract forms to accord with the provisions of this order.

tions and requirements with respect to the 1954 Cotton Loan Program are hereby amended by adding § 427.534 to read as follows:

§ 427.534 *Loans on cotton to be reconcentrated.* Loans on cotton to be reconcentrated will be available only on cotton stored at warehouses approved by the New Orleans office in areas where there is congestion and lack of storage space. The warehousemen will enter into Reconcentration Agreements (CCC Cotton Form 29, hereinafter referred to as "Reconcentration Agreements") with CCC. Warehouse receipts covering cotton to be reconcentrated under a Reconcentration Agreement must be in a form acceptable to CCC and must provide for delivery of the cotton to the order of CCC. Notwithstanding the provisions of § 427.519, block warehouse receipts covering cotton to be reconcentrated under a Reconcentration Agreement will be accepted. A producer who desires to obtain a loan in this manner should request the warehouseman to issue a warehouse receipt to him in the form specified above and must furnish written authorization to the warehouseman for the reconcentration of his cotton, after which the warehouseman will ship the cotton. The Forms A and warehouse receipts covering cotton to be reconcentrated under a Reconcentration Agreement must show the reconcentration order number under which the cotton will be shipped. The producer will obtain a loan on these documents in the usual manner, and after receipt of the loan documents, CCC will surrender the warehouse receipts to the warehouseman.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1441, 1421)

Issued this 2d day of September 1954.

[SEAL] J. A. MCCONNELL,
Executive Vice President, Commodity Credit Corporation.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[958.315, Amdt. 1]

PART 958—IRISH POTATOES GROWN IN COLORADO

LIMITATION OF SHIPMENTS

Findings. (a) Pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the administrative committee for Area No. 3, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (1) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (2) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this amendment, (3) compliance with this amendment will not require any preparation on the part of handlers which cannot be completed by the effective date, and (4) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

Order as amended. The provisions of § 958.315 (b) (1) and (2) (FEDERAL REGISTER July 17, 1954, 19 F. R. 4404) are hereby amended to read as follows:

(b) *Order.* (1) During the period September 6, 1954, to May 31, 1955, both dates inclusive, no handler shall ship potatoes of any variety grown in Area No. 3, as such area is defined in Marketing Agreement No. 97 and Order No. 58, which do not meet the requirements of the U. S. No. 2, or better grade, and which are less than 2 inches minimum diameter for all round varieties including, but not limited to, Irish Cobblers, Katahdins, Kennebecs, Pontiacs, and Bliss Triumphs, and which are less than 2 inches minimum diameter or 4 ounces in weight for all long varieties, including, but not limited to, Russet Burbank, and White Rose types.

(2) During the period September 6, 1954, to October 31, 1954, both dates inclusive, no handler shall ship potatoes grown in Area No. 3, as such area is defined in Marketing Agreement No. 97 and Order No. 58, which do not comply with the aforesaid grade and size requirements and which are more than "slightly skinned" as such term is defined in the U. S. Standards for Potatoes (7 CFR 51.1540 to 51.1559), which means that not more than 10 percent of the potatoes in any lot have more than one-fourth of the skin missing or feathered: *Provided*, That during such period not to exceed 100 hundredweight of such potatoes may be handled for any producer without regard to the aforesaid maturity requirements if the handler thereof reports, prior to such handling, the name and address of the producer of such potatoes, and each shipment hereunder is handled as an identifiable entity.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 1st day of September 1954.

[SEAL] FLOYD F. HEDLUND,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

APPROVAL OF BUDGET OF EXPENSES OF PRUNE ADMINISTRATIVE COMMITTEE FOR 1954–55 CROP YEAR AND FIXING RATE OF ASSESSMENT FOR SUCH YEAR

Notice was published in the August 6, 1954, issue of the FEDERAL REGISTER (19 F. R. 4966) that the Secretary of Agriculture was considering a proposed rule to approve a budget of expenses for the Prune Administrative Committee for the 1954–55 crop year, and fix a rate of assessment for such year, as hereinafter set forth, which were recommended by said committee in accordance with the provisions of Marketing Agreement No. 110, as further amended, and Order No. 93, as further amended (19 F. R. 1301), regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). In said notice, opportunity was afforded all interested persons to file written data, views, or arguments with respect thereto. No such written data, views or arguments were filed, and the time for doing so has expired.

After consideration of all matters pertaining thereto, including the recommendations of the Prune Administrative Committee, it is hereby found and determined, and it is, therefore, ordered, that the budget of expenses for the Prune Administrative Committee, and the rate of assessment for the crop year beginning August 1, 1954, shall be as follows:

§ 993.305 *Budget of expenses of the Prune Administrative Committee and rate of assessment for the 1954-55 crop year*—(a) *Budget of expenses.* Expenses in the amount of $89,284.80 are reasonable and are likely to be incurred by the Prune Administrative Committee for its maintenance and functioning for the crop year beginning August 1, 1954, and ending July 31, 1955.

(b) *Rate of assessment.* Each handler shall pay to the Prune Administrative Committee in accordance with provisions of § 993.81 (a) of the marketing agreement, as further amended, and order, as further amended, an assessment of 60 cents for each ton of salable tonnage prunes handled by him as the first handler thereof and on each ton of prunes sold to him from surplus tonnage for resale to other than Federal governmental agencies, during the crop year beginning August 1, 1954, and ending July 31, 1955, which assessment rate is hereby fixed as each handler's pro rata share of the aforesaid expenses.

It is hereby found and determined that good cause exists for not postponing the effective time of the order with respect to the aforesaid budget of expenses and rate of assessment for 30 days, or any lesser period, after publication of it in the FEDERAL REGISTER (see sec. 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) in that: (1) The rate of assessment hereby fixed is applicable to all dried prunes handled by each handler as the first handler thereof during the current crop year; (2) handlers usually begin about August 15 to receive deliveries of dried prunes from producers and dehydrators which receipts are, by the terms of the further amended marketing agreement and further amended order subject to the assessment set forth hereinabove; (3) the Prune Administrative Committee should be enabled to obtain assessment funds promptly to defray expenses of administering the program; and (4) compliance with this section will not require any special preparation on the part of handlers.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued this 2d day of September 1954, to become effective on the date of publication hereof in the FEDERAL REGISTER.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp 11]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

AIRPLANE PERFORMANCE LIMITATIONS NONTRANSPORT CATEGORY

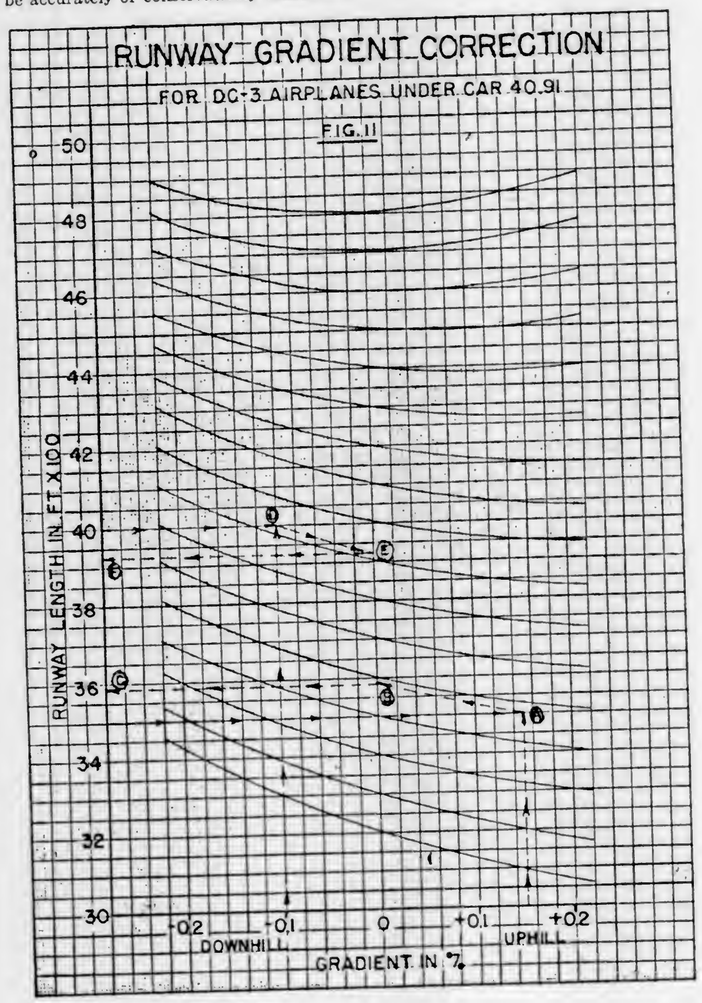
This supplement sets forth CAA rules respecting performance data for nontransport category airplanes operated under Part 40. Section 40.94–1 prescribes landing distance performance data at alternate airports under § 40.94 (19 F. R. 1455) recently adopted by the Board. The performance data for takeoff limitations as prescribed in § 40.91–1 have been revised in order to correct the procedures used in computing the effects of runway gradient.

The proposed rules were published on June 8, 1954, in 19 F. R. 3359–3361. Interested persons were afforded an opportunity to submit written views, data, or argument. Consideration has been given to all relevant data presented.

1. Sections 40.91–1 (a) and (b) as published in 18 F. R. 8679 on December 24, 1953, are revised to read as follows:

§ 40.91–1 *Takeoff limitations (CAA rules which apply to § 40.91).* (a) Figures 1, 2, 3, 4, 8, 9, and 10 shall be used in determining takeoff limitations. The weight of de-icing equipment, when installed, must be included in the computations of allowable takeoff weights.

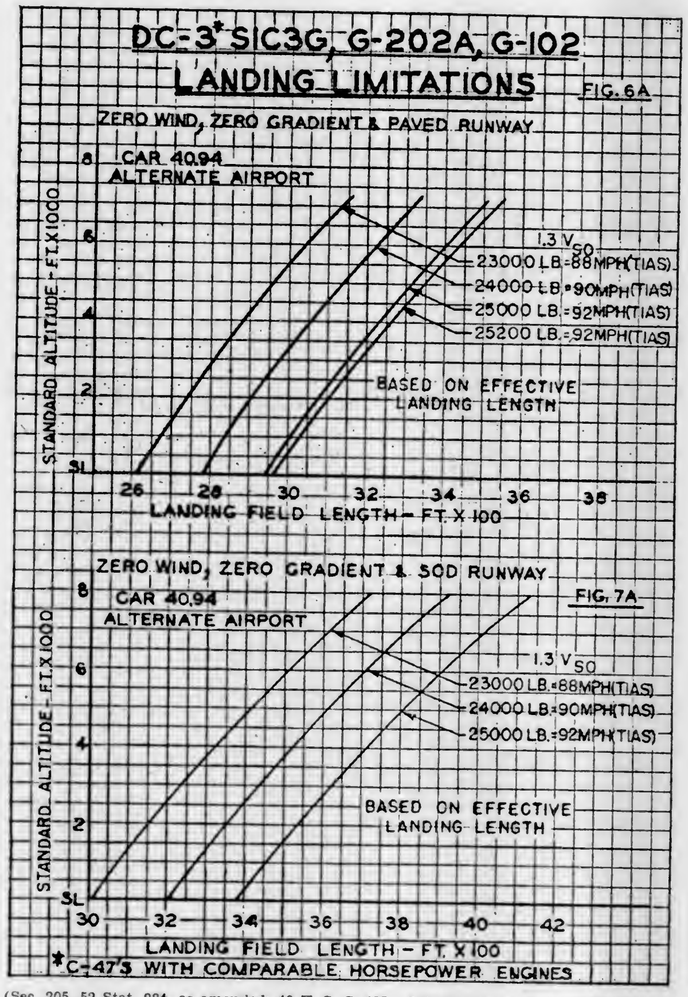
(b) If the gradient of the runway exceeds ½ percent, the effect of the total average gradient shall be accounted for. The effect of gradient shall be calculated as shown in figure 11 or by any other method by which the effect of gradient may be accurately or conservatively computed.



2. The following new section is added:

§ 40.94–1 *Landing distance limitations; alternate airports (CAA rules which apply to § 40.94).* (a) Figures 6A, 8, 9 and 10 shall be used in determining landing distance limitations on paved runways.

(b) Figures 7A, 8, 9 and 10 shall be used in determining landing distance limitations on sod runways.



(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425, Interpret or apply sec. 601, 52 Stat. 1007, as amended by 62 Stat. 1216, 49 U. S. C. 551)

This supplement shall become effective October 1, 1954.

[SEAL]

S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 54–6976; Filed, Sept. 7, 1954; 8:49 a. m.]

[Supp. 26]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

EN ROUTE LIMITATIONS

The purpose of this supplement is to establish en route limitations for the Beech C18S, Beech 18A, and Cessna T–50 aircraft. The proposed rules were published in 19 F. R. 4376 on July 16, 1954; interested persons were afforded an opportunity to submit data, views, or argument; and consideration has been given to all relevant matter presented. The following rules are hereby adopted. Section 42.80–6 is amended to read as follows:

§ 42.80–6 *En route limitations on multi-engine aircraft with maximum allowable take-off weights below 12,500 pounds (CAA rules which apply to § 42.80).* The following en route limitations data, applicable to Aero Commander 520, Beech 18A, Beech AT–11, Beech C18S, Beech D18C, Beech D18S, Beech 50, Cessna T–50, Grumman G–21, Lockheed 10A, Lockheed 10E, and Lockheed 12A aircraft, shall be used in determining compliance with § 42.80. These data are presented in Table 1 and Figures 1 thru 9. En route performance data on other aircraft weighing less than 12,500 pounds and operated under § 42.16 will be made available upon application to the Administrator.

TABLE 1—EN ROUTE LIMITATIONS

BEECH C18S AND BEECH 18A

Airplane	Weight (in pounds)	Terrain clearance[1] in feet and climb speed in m. p. h. TIAS	
		Feet	M. p. h.
Beech C18S	7,850	6,200	102.5
	7,500	7,620	98.7
	7,000	9,630	93.3
Beech 18A	7,200	4,760	91.7
	7,000	5,540	90.8
	6,500	7,460	88.9
	6,000	9,400	86.9

[1] Highest altitude of terrain over which airplane may be operated in compliance with CAR 42.82.

CESSNA T–50 (WITH LYCOMING R–680–E3 ENGINES AND MAXIMUM GROSS WEIGHT OF 5,700 POUNDS)

Weight[1] (in pounds)	Terrain clearance[2] in feet and climb speed in m. p. h. (TIAS)			
	6135A–15 propeller		6135A–9 propeller	
	Feet[3]	M. p. h.	Feet[3]	M. p. h.
5,700	----	----	(450)	87.4
5,500	(920)	87.2	(1,540)	87.0
5,250	(2,280)	86.6	(2,890)	86.4
5,000	(3,740)	86.0	4,320	85.7
4,750	5,120	85.3	5,730	85.2

[1] Highest altitude of terrain over which airplane may be operated in compliance with CAR 42.82.

[2] The "terrain clearances" in parenthesis are not usable under § 42.16 and § 42.82 because minimum terrain altitude is 4,000 feet under § 42.82.

[3] Maximum permissible weights under § 42.16 and § 42.82 are 4,950 pounds with 6135A–15 propeller, 5,050 pounds with 6135A–9 propeller.

NOTE: Inoperative propeller windmilling. No leading edge de-icers installed.

FIGURE 7—EN ROUTE LIMITATIONS

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 105]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished
1	2	3	4	5	6	7	8	9	10	11
SHREVEPORT, LA. Downtown, 179' SBRAZ-DTV SHV Procedure No. 1 Amendment M-6 Effective date: July 6, 1952	Shreveport VOR	159—14.0	1,700	E side of NW course.* 328° outbound. 148° inbound. 1,700' within 10 miles. Beyond 10 miles not authorized.	1,200	152—1.5	Two-engine or less T-4n C-4 C-n A-4n	300-1 500-1 500-1½ NA	300-1 600-1½ NA	Within 1.8 miles climb to 1,500' on S course (172°) within 25 miles. •Turn nonstandard due ATC. No weather or communication available at this airport. CAUTION: 480' mean sea level TV tower elevated 1.8 miles S. of airport. Air Carriers: Air Carriers not authorized use of this procedure.
	Dixie MHW (final)	146—10.0	1,100				More than 2-engine T-4n C-4n A-4n	---------- ---------- NA	300-1 600-1½ NA	
Major changes: Deletes reference to Dixie FM. Raises final approach altitude from Dixie MHW to 1,100', raises final approach altitude over SHV LFR to 1,200'. Revises ceiling minimums for 4-engine aircraft and for 2-engine over 75 m. p. h. stall. Adds caution note. October 9, 1954										

The automatic direction finding procedures prescribed in § 609.8 are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an ADF instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Ceiling and visibility minimums: Type aircraft: 75 m. p. h. or less	Ceiling and visibility minimums: Type aircraft: More than 75 m. p. h. [SEAL]

S. A. KEMP,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 54-6975; Filed, Sept. 7, 1954; 9:53 a. m.]

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Departmental Reg. 108.228]

PART 44—VISAS: DOCUMENTATION OF IMMIGRANTS UNDER REFUGEE RELIEF ACT OF 1953

AMENDMENTS TO REFUGEE REGULATIONS

Part 44, Chapter I, Title 22 of the Code of Federal Regulations, is hereby amended in the following respects:

1. Paragraph (b) of § 44.1 *Definitions*, is amended to read as follows:

(b) "Act" means the Refugee Relief Act of 1953, as amended (Public Law 203, 83d Congress; Public Law 751, 83d Congress).

2. Paragraph (u) of § 44.1 *Definitions*, is amended to read as follows:

(u) "Sponsor" means a United States citizen who gives an assurance required by the act on behalf of an alien seeking to enter the United States under the act. In the case of an alien who qualifies under the preference specified in paragraph (2), (3), or (4) of section 203 (a) of the Immigration and Nationality Act and who is issued a visa under the allotment of special nonquota immigrant visas provided in section 4 (a) (5), or section 4 (a) (7), or section 4 (a) (9), of the Refugee Relief Act of 1953, as amended, the term "sponsor" means a United States citizen or an alien lawfully admitted into the United States for permanent residence who gives a certificate of employment and housing on behalf of an alien qualifying under any such preference.

3. Subparagraph (2) of paragraph (c) *Assurance of employment*, of § 44.3 *Assurance of employment, housing, and against becoming a public charge*, is amended to read as follows:

(2) In the case of an alien who has reached his tenth birthday anniversary and who is under twenty-one years of age at the time of issuance of an immigrant visa to him, who has no dependents, and for whom an assurance of employment is required by the act, or for whom a certificate of employment and housing is required in the case of an alien beneficiary of a relative petition approved by the Attorney General, assurance that such alien will, as his principal activity, pursue a full course of study at an established institution of learning or other place of study in the United States, particularly designated by the assurer or the alien, and that he will undertake studies commensurate with his age and prior scholastic attainment without displacing some other student from his place of study, shall be deemed to be an assurance that the alien will be suitably employed without displacing some other person from his employment: *Provided*, That the Administrator may, upon recommendation of a consular officer, waive the twenty-one year limitation in an exceptionally meritorious case.

4. Paragraph (b) *Statement by social welfare agency* of § 44.4 *Eligible orphans*, is amended to read as follows:

(b) *Statement by social welfare agency.* Every assurance of adoption and proper care given for an eligible orphan shall be a named assurance and shall be accompanied by a statement, signed by a responsible officer of an appropriate social welfare agency, confirming the fact that satisfactory arrangements have been made for the support, supervision, and proper care of the orphan pending his legal adoption, and, in the event the adoption petition should be disapproved by the official child welfare or child placement authorities, or denied by the court, for the assumption by such agency of responsibility for the support, proper care and resettlement of the orphan. The United States citizen and spouse who execute an assurance of adoption and proper care shall designate therein the agency which has agreed to provide the aforesaid statement. It shall be incumbent upon such agency to make any required report to the proper child welfare or child placement authorities in a State whenever an eligible orphan is to be placed in a home within the State, and, if applicable, to indicate in the report what local branch of such agency will assume responsibility for the support, supervision, and proper care of the orphan pending his or her legal adoption. As used in this paragraph, an appropriate social welfare agency means either a national voluntary social agency which has been recognized by the Administrator for participation in the orphan program under section 5 of the act, or a State or local social welfare agency licensed under the State law to place children.

5. Paragraph (i) of § 44.7 *Ineligibility to receive visas*, is amended to read as follows:

(i) The applicant is not in possession of (1) a valid unexpired passport or other suitable travel document, or a document of identity or nationality, or other documentary evidence that he will be assured of readmission to the country of his nationality, foreign residence, or in which he obtains a visa under the act, and (2) a certificate of readmission to the country in which he obtains a visa except in the case of an eligible orphan as defined in section 5 (b) of the act;

6. Paragrah (c) *Referral for investigation* of § 44.8 *Procedure in applying for visas*, is amended to read as follows:

(c) *Referral for investigation.* Consular officers shall not refer a case for investigation until such time as a favorable preliminary determination has been made with respect to the applicant's eligibility to receive an immigrant visa. Any such determination shall include a preliminary approval of the required assurance or certificate submitted in a particular case, which approval shall be contingent, so far as concerns the assurance of employment or the certificate of employment, upon the receipt of a certification from the United States Employment Service's representative abroad concerning the applicant's occupational qualifications.

7. Section 44.10 *Numerical limitations on issuance of visas.* (a) In accordance with the provisions of section 4 and section 5 of the act, a total of two hundred nine thousand numbers may be made available for the issuance of special nonquota immigrant visas as follows:

(1) Not more than fifty-five thousand visas to German expellees, as described in section 4 (a) (1) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(2) Not more than thirty-five thousand visas to escapees, as described in section 4 (a) (2) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(3) Not more than ten thousand visas to escapees, as described in section 4 (a) (3) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(4) Not more than two thousand visas to British war veterans in the British Isles, as described in section 4 (a) (4) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(5) Not more than sixty thousand visas to be made available bilaterally to Italian refugees as described in section 4 (a) (5) of the act, and to Italian relatives as described in section 4 (a) (6) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(6) Not more than seventeen thousand visas to be made available bilaterally to Greek refugees as described in section 4 (a) (7) of the act, and to Greek relatives as described in section 4 (a) (8) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(7) Not more than seventeen thousand visas to be made available bilaterally to Netherlands refugees as described in section 4 (a) (9) of the act, and to Netherlands relatives as described in section 4 (a) (10) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(8) Not more than two thousand visas to non-Asian refugees in the Far East, as described in section 4 (a) (11) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(9) Not more than three thousand visas to Asian refugees in the Far East, as described in section 4 (a) (12) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(10) Not more than two thousand visas to Chinese refugees, as described in section 4 (a) (13) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(11) Not more than two thousand visas to Palestinian refugees, as described in section 4 (a) (14) of the act, and their spouses and unmarried sons or daughters under twenty-one years of age;

(12) Not more than four thousand visas to eligible orphans as defined in section 5 (b) of the act.

(b) In the event the numbers used for the issuance of visas do not exhaust the total authorized for a particular class of refugees or other persons as referred to in paragraph (a) of this section, the unused portion, except as provided in section 4 (c) of the act, shall not be made available to increase the total of visas issued beyond the numerical limitation specified for any other class.

8. Part 44, Chapter I, Title 22 of the Code of Federal Regulations, is amended by the addition of the following section at the end thereof:

§ 44.11 *Certificate of employment and housing in relative preference cases.* (a) The satisfactory evidence of suitable employment and housing required by section 7 (a) of the act in the cases of aliens who qualify for second, third, or fourth preference status under paragraph (2), (3), or (4), respectively, of section 203 (a) of the Immigration and Nationality Act, and who apply for visas under the allotment of special nonquota immigrant visas authorized by section 4 (a) (5), or section 4 (a) (7), or section 4 (a) (9), of the Refugee Relief Act of 1953, as amended, shall be submitted by the sponsor on Form DSR–11 "Certificate by an individual sponsor for an alien entitled to preference status under the Immigration and Nationality Act," or Form DSR–12 "Certificate by individual sponsor with endorsement by an organization recognized by the Administrator," directly to the United States consular office where the alien beneficiary is applying for a visa, and shall be subject to acceptance and verification by the responsible consular officer and to approval by the immigration officer abroad.

(b) A sponsor who desires to submit a certificate of employment and housing on behalf of an alien described in paragraph (a) of this section, and who does not desire the endorsement of an organization recognized for such purpose, shall use Form DSR–11 "Certificate by an individual sponsor for an alien entitled to preference status under the Immigration and Nationality Act," in accordance with the instructions printed thereon, including the attachment of a job clearance order from the United States Employment Service as provided in § 44.3 (c), and a statement with respect to the availability of housing as provided in § 44.3 (d), and forward the completed Form DSR–11 in duplicate, with attachments, directly to the appropriate consular office abroad.

(c) A sponsor who desires to have his certificate of employment and housing underwritten by an organization recognized in accordance with the provisions of § 44.3 (g) (2) shall use Form DSR–12 "Certificate by individual sponsor with endorsement by an organization recognized by the Administrator," in accordance with the instructions printed thereon, including the attachment of a job clearance order from the United States Employment Service as provided in § 44.3 (c).

(d) Consular officers are authorized to authorized to verify the certificates of employment and housing submitted in conformity with the provisions of this section. A certificate of employment and housing, when verified by the responsible consular officer and approved by the immigration officer, shall constitute satisfactory evidence that the alien beneficiary, if admitted into the United States, will have suitable employment and housing without displacing some other person from his employment and housing. A verified certificate of employment and housing may be considered satisfactory evidence that the alien, and members of his family who shall accompany him and who propose to live with him will not become public charges after their arrival in the United States: *Provided*, That the consular officer or the immigration officer may, in his discretion, require additional evidence or impose additional safeguards as may be necessary to establish that the alien and the members of his family will not become public charges after their arrival in the United States. A certificate of employment and housing given in pursuance of the provisions of this section shall be the personal obligation of the individual citizen or citizens, or of the alien lawfully admitted for permanent residence, who sign such certificate.

(e) Nothing in this section shall be construed to apply in the case of an alien who is issued a visa under the allotment of 15,000 special nonquota immigrant visas made available by section 4 (a) (6) of the act to relatives in Italy and the Free Territory of Trieste, or under the allotment of 2,000 special nonquota immigrant visas made available by section 4 (a) (8) of the act to relatives in Greece, or under the allotment of 2,000 special nonquota immigrant visas made available by section 4 (a) (10) of the act to relatives in the continental Netherlands.

(Sec. 4, 63 Stat. 111; 5 U. S. C. 151c)

The regulations contained in this order shall become effective upon publication in the FEDERAL REGISTER. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date are inapplicable to this order because the regulations contained therein involve foreign affairs functions of the United States.

Dated: September 1, 1954.

ROBERT F. CARTWRIGHT,
Acting Administrator, Bureau of Inspection, Security and Consular Affairs.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 29]

TOBACCO INSPECTION

ANNOUNCEMENT OF REFERENDUM IN CONNECTION WITH PROPOSED DESIGNATION UNDER TOBACCO INSPECTION ACT OF TOBACCO AUCTION MARKET OF NEWPORT, TENN.

Pursuant to the provisions of the Tobacco Inspection Act (7 U. S. C. 511 et seq.) and in accordance with the applicable regulations (7 CFR 29.74) issued thereunder by the Secretary, notice is given that a referendum of tobacco growers will be conducted from October 7 through October 9, 1954, to determine whether growers favor the designation of the Newport, Tennessee, tobacco auction market for free and mandatory inspection of tobacco sold thereon.

Growers who sold tobacco on the aforesaid market during the 1953–54 marketing season shall be eligible to vote in said referendum. Ballots for use in said referendum will be mailed to all eligible voters insofar as their names and addresses are known. Eligible voters who do not receive ballots by mail may obtain them from the county agent or the office of the county ASC committee at Newport.

All completed ballots shall be mailed to the Tobacco Division, Agricultural Marketing Service, United States Department of Agricultural, Room 3, 620 South Broadway, Lexington, Kentucky, and, in order to be counted in said referendum, must be postmarked not later than midnight, October 9, 1954.

Done at Washington, D. C., this 2d day of September 1954.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 54–7005; Filed, Sept. 7, 1954; 8:48 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ARKANSAS

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

AUGUST 31, 1954.

An application, serial number BLM 038003, for the withdrawal from all forms of appropriation under the public land laws, except oil and gas leasing under certain conditions of the lands described below was filed on April 4, 1951, by the Forest Service. The purposes of the proposed withdrawal: Recreation and Administrative Areas.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Supervisor, Eastern States Office, Bureau of Land Management, Department of the Interior, at Washington 25, D. C. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

NOTICE OF PROPOSED RENEWAL OF PROMISSORY NOTE

SEPTEMBER 3, 1954.

Notice is hereby given that Philadelphia Company ("Philadelphia"), a registered holding company and a subsidiary of Standard Gas and Electric Company ("Standard Gas") and Standard Power and Light Corporation, also registered holding companies, and its parent Standard Gas have filed with this Commission a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act") designating sections 6 (a), 7, 9 and 10 thereof as applicable to the proposed transaction, which is summarized as follows:

The companies propose that Philadelphia will issue and deliver to Standard Gas a renewal promissory note in replacement of a promissory note in the principal amount of $2,500,000 which matures September 10, 1954, and which bears interest at the rate of 3¼ percent per annum payable monthly. The renewal note, in the same principal amount, will be dated September 10, 1954, will bear interest, payable monthly, at the prime interest rate prevailing for short-term commercial bank loans at the date of its issuance, and will mature September 10, 1955, with the right in the issuer to anticipate at any time the payment of all or any part of the principal thereof.

It is represented that the expenses, if any, in connection with the proposed transaction will be nominal in amount.

It is requested that the Commission's order be made effective upon issuance.

Notice is further given that any interested person may, not later than September 10, 1954, at 12:30 p. m., request the Commission in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said application-declaration as filed or as amended may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transaction as provided in Rules U-20 and U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 28]

MASSACHUSETTS

DECLARATION OF DISASTER AREA

Whereas, it has been reported that beginning on or about August 31, 1954, because of the disastrous effects of hurricane, floods and excessive rainfall, damage resulted to residences and business property located in certain areas in the State of Massachusetts; and

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected; and

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953;

Now, therefore, as Acting Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207 (b) of the Small Business Act of 1953 may be received and considered by the office below indicated from persons or firms whose property situated in the following counties (hereinafter referred to as "the disaster areas") suffered damage or other destruction as a result of the catastrophe above referred to:

Counties of: Essex, Suffolk, Middlesex, Norfolk, Plymouth, Bristol, Barnstable, Duke, Nantucket, Worcester; Small Business Administration Regional Office, 40 Broad Street, Boston 9, Mass.

2. Special field offices to receive such applications will not be established at this time.

3. Applications for disaster loans under the authority of this order will not be accepted subsequent to March 31, 1955.

Dated: September 1, 1954.

W. NORBERT ENGLES,
Acting Administrator.

[F. R. Doc. 54-6983; Filed, Sept. 7, 1954; 8:45 a. m.]

[Declaration of Disaster Area 29]

NEW HAMPSHIRE

DECLARATION OF DISASTER AREA

Whereas, it has been reported that beginning on or about August 31, 1954, because of the disastrous effects of hurricane, floods and excessive rainfall, damage resulted to residences and business property located in a certain area in the State of New Hampshire; and

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the area affected; and

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a

catastrophe within the purview of the Small Business Act of 1953;

Now, therefore, as Acting Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207 (b) of the Small Business Act of 1953 may be received and considered by the office below indicated from persons or firms whose property situated in the following county (hereinafter referred to as "the disaster area") suffered damage or other destruction as a result of the catastrophe above referred to:

County of: Strafford; Small Business Administration Regional Office, 40 Broad Street, Boston 9, Mass.

2. A special field office will be established in Portsmouth, New Hampshire, to receive and process applications.

3. Applications for disaster loans under the authority of this order will not be accepted subsequent to March 31, 1955.

Dated: September 1, 1954.

W. NORBERT ENGLES,
Acting Administrator.

MAINE

DECLARATION OF DISASTER AREA

Whereas, it has been reported that beginning on or about August 31, 1954, because of the disastrous effects of hurricane, floods and excessive rainfall, damage resulted to residences and business property located in certain areas in the State of Maine; and

Whereas, the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected; and

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953;

Now, therefore, as Acting Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207 (b) of the Small Business Act of 1953 may be received and considered by the office below indicated from persons or firms whose property situated in the following counties (hereinafter referred to as "the disaster areas") suffered damage or other destruction as a result of the catastrophe above referred to:

Counties of: York, Cumberland, Sagadahoc, Lincoln, Knox, Waldo; Small Business Administration Regional Office, 40 Broad Street, Boston 9, Mass.

2. A special field office will be established in Portland, Maine, to receive and process applications, and additional field offices will be established if required.

3. Applications for disaster loans under the authority of this order will not be accepted subsequent to March 31, 1955.

Dated: September 1, 1955.

W. NORBERT ENGLES,
Acting Administrator.

UNITED STATES TARIFF COMMISSION

[Investigation 38]

COCONUTS

NOTICE OF INVESTIGATION INSTITUTED

Upon application of the Coconut Growers Association of Rio Grande and Loiza, Puerto Rico, received August 27, 1954, the United States Tariff Commission, on the 1st day of September 1954, under the authority of section 7 of the Trade Agreements Extension Act of 1951, as amended, and section 332 of the Tariff Act of 1930, instituted an investigation to determine whether coconuts provided for in paragraph 758 of the Tariff Act of 1930 are, as a result, in whole or in part, of the duty or other customs treatment reflecting any of the concessions granted thereon in the General Agreement on Tariffs and Trade, and in the exclusive trade agreement with Cuba signed October 30, 1947, being imported into the United States in such

increased quantities, either actual or relative, as to cause or threaten serious injury to the domestic industry producing like or directly competitive products.

Inspection of application. The application filed with the Commission is available for public inspection at the office of the Secretary, U. S. Tariff Commission, Eighth and E Streets NW., Washington, D. C., and in the New York office of the Tariff Commission, located in Room 437 of the Custom House, where it may be read and copied by persons interested.

I certify that the above investigation was instituted by the Tariff Commission on the 1st day of September 1954.

Issued September 2, 1954.

[SEAL] DONN N. BENT,
Secretary.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29629]

MOTOR-RAIL-MOTOR RATES BETWEEN KANSAS CITY, KANS., AND TULSA, OKLA.; SUBSTITUTED SERVICE

APPLICATION FOR RELIEF

SEPTEMBER 2, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Middlewest Motor Freight Bureau, Agent, for the Missouri-Kansas-Texas Railroad Company, The Chief Freight Lines Comany, Lee Way Motor Freight, Inc., Luper Transportation Company of Oklahoma, Southwest Freight Lines, Inc., Yellow Transit Freight Lines, Inc., and other motor carriers.

Commodities involved: Highway trailers, loaded or empty, on flat cars.

Between: Kansas City, Kans., and Tulsa, Okla.

Grounds for relief: Competition with motor carriers.

Schedules filed containing proposed rates: Middlewest Motor Freight Bureau, Agent, MF-I. C. C. No. 223, supp. 13.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

Chapter III—Foreign and Territorial Compensation

[Dept. Reg. 108.227]

PART 325—ADDITIONAL COMPENSATION IN FOREIGN AREAS

PAYMENT OF DIFFERENTIAL

1. Section 325.5 (a) and (d) (18 F. R. 2817) is amended to read as follows:

(a) Payment to eligible persons assigned to a differential post shall begin as of the date of arrival at the post, the date of entrance on duty in the case of eligible personnel appointed locally, or the date of assignment, whichever is latest. Payment shall cease, in the case of separation, as of the close of business on the day of departure from the post or on the last day of employment, whichever is earlier. Payment shall cease, in the case of transfer or detail, as of the close of business:

(1) On the day of departure from the post when the employee is under transfer, whether combined with or unrelated to leave orders (for transfer during leave see paragraph (c) (2) of this section).

(2) On the day of departure from the post when the employee leaves for detail as defined in § 325.1 (g) under orders returning him thereafter directly to his post of assignment. (See also paragraph (d) of this section.)[1]

(3) On the day of departure for detail, as defined in § 325.1 (g) from the post of assignment or his last temporary duty station enroute, whichever is later. (See also paragraph (d) of this section.)[1]

(d) Payment at the rate currently authorized to the employee for the post of assignment shall continue during periods of round-trip official travel involving no detail as defined in § 325.1 (g) away from such post.[1]

2. Section 325.5 is further amended by the addition of the following paragraph (h):

(h) Where the employee is on duty or leave at two differential posts for portions of the same day, payment for that day shall be made at the rate last previously authorized.

(Sec. 102, Part I, E. O. 10000, 13 F. R. 5453; 3 CFR, 1948 Supp.)

These amendments shall be effective as of the beginning of the first pay period following September 11, 1954.

For the Secretary of State.

[SEAL] E. B. WILBER,
Assistant Secretary.

AUGUST 27, 1954.

[F. R. Doc. 54-7048; Filed, Sept. 8, 1954; 8:54 a. m.]

[1] Where an employee is issued round-trip orders for travel from and to a post of detail, rather than a post of assignment, the same principle will prevail, i. e., the post of detail where the travel begins and ceases will be construed as the post of assignment in applying § 325.5 (a) (2) and (3) and (d), whichever is pertinent, and the definitions in § 325.1 (g).

TITLE 7—AGRICULTURE

Chapter III—Agricultural Research Service, Department of Agriculture

[P. P. C. 606]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—PINK BOLLWORM

ADMINISTRATIVE INSTRUCTIONS AUTHORIZING MOVEMENT FROM REGULATED AREAS UNDER CERTIFICATION OF FUMIGATED OR TREATED GIN TRASH

Pursuant to the second proviso of the pink bollworm quarantine (Notice of Quarantine No. 52, 7 CFR Supp. 301.52; 18 F. R. 6348, 19 F. R. 1787) under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162) and section 3 of the Insect Pest Act of March 3, 1905 (7 U. S. C. 143), administrative instructions are hereby issued authorizing the movement of gin trash from any pink bollworm regulated area to any destination after certification that it has been fumigated or given approved treatment under the supervision of an inspector. The administrative instructions shall appear as § 301.52b in Title 7, Chapter III, Part 301, of the Code of Federal Regulations, as follows:

§ 301.52b *Administrative instructions authorizing movement from regulated areas under certification of fumigated or treated gin trash.* (a) Section 301.52–3 prohibits the movement of gin trash (all of the material produced during the cleaning and ginning of seed cotton, bollies, or snapped cotton except the lint, cottonseed, and gin waste), except as authorized in § 301.52–14 relating to shipments for scientific purposes.

(b) The Chief of the Plant Pest Control Branch hereby finds that facts exist as to the pest risk involved in the movement of gin trash to which § 301.-52–3 applies, making it safe to modify by making less stringent the requirements of § 301.52–3. Hereafter, in addition to movement authorized under § 301.52–14, gin trash may be moved from any pink bollworm regulated area to any destination under certificate to be issued when the gin trash has been given an approved fumigation or other approved treatment under the supervision of an inspector, and has been subsequently protected from contamination; and gin trash may be removed from a gin yard within any pink bollworm regulated area to a processing plant that may be designated by the Chief of the Branch for purposes of such fumigation or other treatment prior to certification, if it is passed through approved fans or is given other approved treatment at such gin yard before such removal.

The purpose of these instructions is to make gin trash available for processing into stock feed or mulch, and for industrial uses, under appropriate safeguards to prevent spread of the pink bollworm. The results of recent research have proved the value of gin trash for these purposes.

These instructions shall be effective on and after the 9th of September 1954, when they shall supersede administrative instructions now appearing as 7 CFR Supp. 301.52b (19 F. R. 325), effective January 19, 1954.

These instructions must be made effective promptly to be of maximum benefit to users of gin trash. Accordingly, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and other public procedure with respect to the foregoing administrative instructions are impracticable and contrary to the public interest, and they should be made effective less than 30 days after their publication in the FEDERAL REGISTER.

(Secs. 1, 3, 33 Stat. 1269, 1270, sec. 9, 37 Stat. 318; 7 U. S. C. 141, 143, 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 2d day of September, 1954.

[SEAL] W. L. POPHAM,
Chief, Plant Pest Control Branch.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE AND INSTRUCTIONS FOR MAILING

AUSTRIA

In Part 127, *International Postal Service: Postage Rates, Service Available and Instructions for Mailing*, 39 CFR Part 127, make the following changes:

a. In § 127.74 *Sealing*, amend the list of countries in paragraph (a) by inserting in proper alphabetical order the following:

Austria (insured).

b. In § 127.140 *Service available*, insert "Austria" in proper alphabetical order.

c. In § 127.210 *Austria*, make the following changes:

1. In paragraph (b) (1) make the following changes in the tabulated information appearing under the table of rates in subdivision (ii):

a. Amend the information opposite "Sealing" to read as follows:

Sealing: Insured parcels must, and ordinary parcels may, be sealed.

b. Change "Insurance: No" to read "Insurance: Yes."

2. Amend paragraph (b) (2) as follows:

(2) *Indemnity.* See subparagraph (4) of this paragraph.

3. In paragraph (b), redesignate subparagraphs (4), (5), and (6) as subparagraphs (5), (6), and (7), and insert new subparagraph (4) to read as follows:

(4) *Insurance.* (i) Parcel post packages (surface or air) may be insured subject to the following limits of indemnity when prepaid at the postage rate applicable, in addition to the insurance fees mentioned hereunder:

Limit of Indemnity:	Fees (cents)
Not over $10	20
From $10.01 to $25	25
From $25.01 to $50	35
From $50.01 to $100	55
From $100.01 to $200	60
From $200.01 to $300	65
From $300.01 to $330	70

(ii) Each insured parcel shall have printed on the wrapper, in close proximity to (preferably immediately below) the endorsement "INSURED" and the insurance number, the amount for which the parcel is insured. This indication shall be shown in arabic figures and in roman letters spelled out in full, in both United States currency and in gold francs, as per the following example:

Insured Value
$25.75 (U. S.)
Twenty-Five Dollars and Seventy-Five Cents
77.25 Gold Francs
Seventy-Seven Gold Francs and Twenty-Five Centimes

(iii) The same indications shall also be shown in the appropriate space on the dispatch note (Form 2972).

(iv) See § 127.143 (b), as to method of converting United States currency into gold francs.

(v) Parcels containing gold or silver, whether manufactured or unmanufactured; precious stones, jewelry or other precious articles must be insured.

(vi) For general information concerning insurance service see §§ 127.140 to 127.148, inclusive.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] ABE MCGREGOR GOFF,
The Solicitor.

[F. R. Doc. 54–7015; Filed, Sept. 8, 1954; 8:47 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter G—Procurement

REVISION OF ARMY PROCUREMENT PROCEDURES

Preface. 1. This revision of the Army Procurement Procedure supersedes the March 1951 issue of the Army Procurement Procedure, Sections I through XIV, as revised by the material contained in Changes No. 1 through 10 thereto, and so much of Army Procurement Circulars through Procurement Circular 32, 1953, as amended the 1951 edition.

2. Changes in content in this edition have been limited, in general, to editing and codification. Minor revisions have been made to conform to new laws, Executive orders, and ASPR changes. Changes in format, transfer of subparts to new parts and within parts of the APP, have been made to conform to the corresponding provisions of ASPR and to clearly separate supplemental Department of the Army policy not specifically covered or related to paragraphs, parts, and sections in ASPR.

Part
590 General provisions.
591 Procurement by formal advertising.
592 Procurement by negotiation.
593 Coordinated procurement.
594 Interdepartmental procurement.
595 Foreign purchases.
596 Contract clauses.
597 Termination of contracts.
598 Patents and copyrights.
599 Bonds and insurance.
600 Federal, State, and local taxes.
601 Labor.
602 Government property.
603 Inspection and acceptance.
604 Contract cost principles.
605 Procurement forms.
606 Supplemental provisions.

PART 590—GENERAL PROVISIONS

Sec.
590.000 Scope of part.

Subpart A—Introduction
590.101 Purpose of procedure.
590.102 Applicability of procedure.
590.104 Arrangement of procedure.
590.104–1 General plan.
590.104–4 Citation.
590.105 Amendments.
590.106 Department procedures under regulation.
590.107 Procuring activity instructions under Army Procurement Procedure.
590.108 Deviations from Armed Services Procurement Regulation and Army Procurement Procedure.
590.109 Administration and interpretation.
590.110 Periodic report of purchases and contracts.
590.111 Reports of suspected criminal conduct.
590.150 Distribution of Department of the Army procurement publications.
590.150–1 Printed procurement publications.

Subpart B—Definitions of Terms
590.201 Definitions.
590.201–2 Secretary.
590.201–5 Contracting officer.
590.201–9 Sources of supplies.
590.250 Chief officer responsible for procurement.
590.251 Appropriated funds.
590.252 Change orders and supplemental agreements.
590.253 Purchasing offices.
590.253–1 Purchasing office.
590.253–2 Principal purchasing offices.

Subpart C—Basic Policies
590.301 Methods of procurement.
590.302 Sources of supply.
590.302–2 Sources outside the Government.
590.305 Specifications; general.
590.306 Place of delivery.
590.306–1 Domestic shipments.
590.306–50 Furnishing of freight rates.
590.306–51 Oversea purchases.
590.350 F. o. b. purchasing policy.
590.351 Procurement of spare parts.
590.352 Limitation on purchase and maintenance of motor vehicles or aircraft.
590.353 Public release of long-range procurement estimates.
590.354 Synopses of proposed procurements.
590.354–1 Statement of policy.
590.354–2 Applicability.
590.354–3 Action by purchasing offices.
590.354–4 Instructions for teletyping of synopses.
590.354–5 Contents of synopses when not teletyped.
590.355 Synopsis of contract awards.
590.355–1 Statement of policy.
590.355–2 Applicability.
590.355–3 Action by purchasing offices.
590.355–4 Contents of synopses of contract awards.
590.357 Selection of contractors.
590.358 Use of certificates of necessity and expediting production funds.

Subpart D—Procurement Responsibility and Authority
590.401 Responsibility of each Procuring Activity.
590.402 General authority of Contracting Officers.
590.403 Requirements to be met before entering into contracts.
590.450 Designation of Contracting Officer.
590.451 Designation of representatives.
590.452 Authority of representatives.
590.453 General responsibility of Contracting Officers.
590.454 Delegation of authority.
590.455 Standards of conduct.
590.456 Responsibility for insuring the availability of funds.

Subpart E—Contingent or Other Fees
590.502 Applicability.
590.502–50 Definition of contract.
590.503 Covenant against contingent fees clause.
590.508 Enforcement.
590.508–1 Failure or refusal to furnish Standard Form 119.
590.508–2 Misrepresentations or violations of the covenant against contingent fees.
590.508–50 Authority of head of a procuring activity.
590.550 Contracts in foreign countries.

Subpart F—Debarred, Ineligible, and Suspended Bidders
590.600–50 Authority.
590.601 Establishment and maintenance of a list of firms or individuals debarred or ineligible.
590.601–1 General.
590.601–4 Maintenance and distribution of list.
590.603 Treatment to be accorded firms or individuals in debarred or ineligible status.
590.603–1 Total restrictions.
590.604 Causes and conditions of debarment.
590.604–3 Notice of debarment.
590.605 Suspension of bidders.
590.609 Procurement outside the United States.
590.650 Inquiries from debarred, ineligible, or suspended firms and individuals.

§ 590.000 *Scope of part.* This part sets forth (a) introductory information, (b) definitions, (c) basic policies, (d) procurement responsibility and authority, (e) contingent or other fees, and (f) debarred, ineligible, and suspended bidders.

SUBPART A—INTRODUCTION

§ 590.101 *Purpose of procedure* (Parts 590–606 of this chapter). This procedure, issued by the Department of the Army, pursuant to § 400.106 of this title, establishes for the Army Establishment uniform policies and procedures, consistent with and supplementary to Subchapter A, Chapter IV of this title, relating to the procurement of supplies and services under the authority of the Armed Services Procurement Act of 1947 (Public Law 413, 80th Cong.; 41 U. S. Code 151–161; Sec. II, JAAF Bul. 4, 1948) or under other statutory authorization.

§ 590.102 *Applicability of procedure*—(a) *General applicability.* This procedure shall apply to all purchases and procurement contracts made by any Procuring Activity or Contracting Officer of the Army Establishment which obligate appropriated funds (whether direct appropriations, allocations of appropriated funds, or contract authorizations) for the procurement of supplies and services and which are entered into as of a date on or after the effective date of this procedure. This procedure is supplementary to, and does not in any way supersede Subchapter A, Chapter IV of this title. This procedure is not intended to cover the detailed implementing instructions of the respective Procuring Activities of the Army Establishment, all of which instructions may be prescribed as provided in § 590.107.

(b) *Oversea commands, attachés, and foreign missions.* Procurement outside the United States, its Territories and possessions, and construction work outside the continental United States, including procurement effected under the jurisdiction of major oversea commanders, military attachés, and foreign missions, will be made in accordance with Subchapter A, Chapter IV of this title, and this procedure. Authority to deviate from prescribed provisions, in those specific cases which are inapplicable to procurement outside the United States, its Territories and possessions, will be specifically set forth in this Procedure. If such authority is not contained herein, requests will be processed as prescribed in § 590.108.

(c) *Combat areas.* Major tactical commanders are authorized to waive the provisions of Subchapter A, Chapter IV of this title, and this procedure in the immediate areas engaged in active combat, subject to any instructions which may be issued by the Head of the Procuring Activity involved.

(d) *Government and relief in occupied areas.* Subchapter A, Chapter IV of this title, and this procedure are applicable to procurement in oversea areas for Government and Relief in Occupied Areas (GARIOA) chargeable to annual appropriations for such purposes. As stated in paragraph (b) of this section, authority to deviate will be expressly stated or request for authority to deviate will be processed as prescribed in § 590.108.

(e) *Civil works, Corps of Engineers.* Procurement of supplies and services for civil works, Corps of Engineers, will be made in accordance with Subchapter A, Chapter IV of this title, and, rather than this procedure, such instructions as may be issued by the Chief of Engineers, pursuant to authority granted by the Secretary of the Army.

§ 590.104 *Arrangement of procedure.*

§ 590.104–1 *General plan.* This procedure is intended to cover the general policies and procedures of the Army Establishment with respect to procurement; it implements and is supplementary to Subchapter A, Chapter IV of this title. The Procedure is divided into parts, each one of which deals with a separate aspect of procurement; each part is further subdivided into subparts and sections. In general, the parts, subparts, and sections conform to the parallel provisions of Subchapter A, Chapter IV of this title. Additional paragraphs, parts, and sections have been or may be added to cover subjects not treated in Subchapter A, Chapter IV of this title. Since material published in Subchapter A, Chapter IV of this title is not duplicated in this procedure, both publications must be reviewed to obtain full coverage on most subjects.

§ 590.104–4 *Citation.* This procedure shall be referred to as the Army Procurement Procedure (Parts 590–606 of this chapter) and cited by appropriate part or section of the Code of Federal Regulations.

§ 590.105 *Amendments.* Recommendations for amendment of Subchapter A, Chapter IV of this title and this procedure shall be submitted through channels to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch.

§ 590.106 *Department procedures under regulation.* Subchapter A, Chapter IV of this title (Armed Services Procurement Regulation) is a statement of uniform procurement policies which are in effect throughout the Department of Defense. Parts 590–606 of this chapter (Army Procurement Procedure) constitute an implementation of Subchapter A, Chapter IV of this title and set forth uniform procurement policies and procedures which are in effect throughout the Army Establishment.

§ 590.107 *Procuring Activity Instructions Under Army Procurement Procedure.* The Head of any Procuring Activity may implement this Procedure by prescribing for his Activity (and for any field installations thereof) detailed procurement operating instructions which are not inconsistent with Subchapter A, Chapter IV of this title and this procedure. One consolidated, current, up-to-date copy of such detailed procurement operating instructions issued, shall be forwarded to the Assistant Chief of Staff, G–4, Department of the Army, Attn.: Chief, Purchases Branch, on a semiannual basis, 31 December and 30 June.

§ 590.108 *Deviations from Armed Services Procurement Regulation and Army Procurement Procedure*—(a) *Deviations from Armed Services Procurement Regulation.* Requests for deviations from the provisions of Armed Services Procurement Regulation shall be submitted to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch. The Assistant Chief of Staff, G–4, Department of the Army (Chief, Purchases Branch) is authorized to grant any such deviation in any individual case in which special circumstances justify the deviation or deviations and will make a report thereof to the Departments of the Navy and Air Force. The Assistant Chief of Staff, G–4, Department of the Army (Chief, Purchases Branch) is authorized to grant class deviations from Armed Services Procurement Regulation with the concurrence of duly authorized representatives of the Departments of the Navy and Air Force.

(b) *Deviations from Army Procurement Procedure.* Requests for deviations from this Procedure shall be submitted to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch. Deviations from this Procedure will be made only by and with the approval of the Assistant Chief of Staff, G–4, Department of the Army (Chief, Purchases Branch).

§ 590.109 *Administration and interpretation.* (a) The administration of Armed Services Procurement Regulation and this procedure will be the responsibility of the Assistant Chief of Staff, G–4, Department of the Army (Chief, Purchases Branch).

(b) It will be the responsibility of the Heads of Procuring Activities to determine whether or not instructions and interpretations issued by their Activities in implementation of Armed Services Procurement Regulation and this Procedure properly reflect and are consistent with the policies of the Department of Defense and the Department of the Army.

§ 590.110 *Periodic report of purchases and contracts.* Reports in connection with § 400.110 of this title will be made in accordance with the requirements of Subpart C, Part 606 of this chapter.

§ 590.111 *Reports of suspected criminal conduct.* Reports of possible violations of Federal criminal statutes in connection with procurement and related matters, including reports of possible fraud, will be made in accordance with the requirements of Subpart F of this subchapter.

§ 590.150 *Distribution of Department of the Army procurement publications.*

§ 590.150–1 *Printed procurement publications.* (a) Distribution of the three printed procurement publications, viz., the Armed Services Procurement Regulation (ASPR), the Army Procurement Procedure (APP), and Army Procurement Circulars (APC), will be in accordance with pertinent special regulations.

(b) Copies of the Armed Services Procurement Regulation or the Army Procurement Procedure are not available for distribution to private firms or individuals since these publications may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington 25, D. C., either as printed in the FEDERAL REGISTER or in separate pamphlet form.

SUBPART B—DEFINITIONS OF TERMS

§ 590.201 *Definitions.* As used throughout subchapter A, chapter IV of this title and this procedure, the following terms shall have the meanings set forth below.

§ 590.201–2 *Secretary.* The term "Secretary" means the Secretary of the Army, or the Under or Assistant Secretary of the Army responsible for procurement and industrial matters for the Army Establishment.

§ 590.201–5 *Contracting Officer.* The term "Contracting Officer," when used in subchapter A, chapter IV of this title and this Procedure is construed to include his duly appointed successor or authorized representative acting within the limits of his authority. (See §§ 590.402 and 590.450 through 590.453.)

§ 590.201–9 *Sources of Supplies.* (a) Within the geographic limits of the continental United States, Alaska, Hawaii, Puerto Rico, the Virgin Islands, and the District of Columbia, the term "sources of supplies" shall include only (1) manufacturers of or (2) regular dealers in the supplies to be procured, as defined in § 400.201–9 of this title.

(b) Outside the geographic limits of the continental United States, Alaska, Hawaii, Puerto Rico, the Virgin Islands, and the District of Columbia, the term "sources of supplies" shall include (1) manufacturers, (2) regular dealers, as defined in § 400.201–9 of this title, and (3) intermediaries, provided such sources are not prohibited by local foreign law. An "intermediary" shall be deemed to be any one of the following:

(i) A person (or firm) who owns, operates, or maintains a place of business, regularly engaged in performing certain services which directly or indirectly increase the value of the materials, supplies, articles, or equipment being procured (services to consist of such functions as the recovery from consignees and redistribution to manufacturers and producers of containers and packing materials; the receiving, storing, repacking, and reshipping of items being procured; the collection, consolidation, assembling, packing, and shipping of items being procured, etc.; and *not* the functions of mere soliciting of business, taking of orders, rendering assistance to manufacturers or producers by the preparation of receiving and payment documents, arranging for transportation facilities, etc.).

(ii) A person (or firm) who owns, operates, or maintains a place of business, regularly engaged in the importing

and exporting business, provided that the items procured are not being imported from within the geographical limits of the continental United States, Alaska, Hawaii, Puerto Rico, the Virgin Islands, and the District of Columbia.

(iii) Agencies or instrumentalities of a foreign government.

§ 590.250 *Chief officer responsible for procurement.* The term "chief officer responsible for procurement" when used in Subchapter A, Chapter IV of this title and this Procedure is construed to mean the Head of any Procuring Activity.

§ 590.251 *Appropriated funds.* The term "appropriated funds" comprises all funds available to Army Establishment installations and agencies by allotment to or authorization to obligate appropriated funds irrespective of the governmental department or agency administering the appropriation. Welfare, organizational, unit, or similar funds are not included under the definition.

§ 590.252 *Change orders and supplemental agreements.* Change orders and supplemental agreements are types of contract modifications. A change order is ordinarily the proper medium for effecting changes under a contract containing provisions permitting such changes under specified circumstances similar to the Changes Clause in § 406.103–2 of this title. Such change orders are confined to changes which the contract authorized the Government to make, and since the contract authorizes such changes to be made and since the Contractor has agreed that the Government can make such changes (including, under certain circumstances, an equitable adjustment in price), change orders may be issued without the consent of the Contractor. Conversely, a supplemental agreement is the proper medium for effecting changes to a contract which the contract does not authorize the Government to make (i. e., changes not covered by the Changes Clause or other clause of the contract) and which accordingly cannot be made without the consent of the Contractor. A supplemental agreement, is therefore, in effect a new contract which, being with the same Contractor and for performance under substantially the same terms and conditions is, for convenience, added as a supplement to an existing contract. Regardless of the form of contract employed, the distinction as to whether a supplemental agreement or a change order is required, therefore, rests upon whether the Contractor is bound by existing contract to perform the proposed change or whether such change cannot be required of him without his consent and acceptance. In connection with change orders and supplemental agreements, it is a requirement that contracts can be modified only in the interests of the United States.

§ 590.253 *Purchasing offices.*

§ 590.253–1 *Purchasing office.* A purchasing office is any class II installation or activity, or a division, office, branch, section, or unit of a class I or class II installation or activity, charged with a purchasing or procurement function, including post, camp, and station purchasing and contracting offices (sections, etc.).

§ 590.253–2 *Principal purchasing offices.* The following are designated as the principal purchasing offices of the Army Establishment:

CHEMICAL CORPS

Atlantic Chemical Procurement District, Atlanta, Ga.
Boston Sub-Office New York Chemical Procurement District, Boston, Mass.
Chemical Corps Research Procurement Agency, Army Chemical Center, Md.
Rocky Mountain Arsenal Procurement Office, Chicago, Ill.
New York Chemical Procurement District, New York, N. Y.
San Francisco Chemical Procurement District, Oakland Army Base, Oakland, Calif.
Pine Bluff Arsenal Procurement Office, Dallas, Tex.

CORPS OF ENGINEERS

Chicago Procurement Office, Corps of Engineers, Chicago, Ill.
District Engineer Office, New York District, Corps of Engineers, New York, N. Y.
District Engineer Office, Philadelphia District, Corps of Engineers, Philadelphia, Pa.
District Engineer Office, Pittsburgh District, Corps of Engineers, Pittsburgh, Pa.
District Engineer Office, St. Louis District, Corps of Engineers, St. Louis, Mo.
Division Engineer Office, South Atlantic Division, Lumber Branch, Corps of Engineers, Atlanta, Ga.
District Engineer Office, Portland District, Lumber Branch, Corps of Engineers, Portland, Oreg.

ARMY MEDICAL SERVICE

Armed Services Medical Procurement Agency, Brooklyn, N. Y.

ORDNANCE CORPS

Aberdeen Proving Ground, Aberdeen Proving Ground, Md.
Ordnance Tank-Automotive Center, Detroit, Mich.
Ordnance Ammunition Center, Joliet, Ill.
Ordnance Small Arms Ammunition Center, St. Louis, Mo.
Detroit Arsenal, Center Line, Mich.
Frankford Arsenal, Philadelphia, Pa.
Picatinny Arsenal, Dover, N. J.
Raritan Arsenal, Metuchen, N. J.
Rock Island Arsenal, Rock Island, Ill.
Springfield Armory, Springfield, Mass.
Watertown Arsenal, Watertown, Mass.
Watervliet Arsenal, Watervliet, N. Y.
Rossford Ordnance Depot, Toledo, Ohio.
Birmingham Ordnance District, Birmingham, Ala.
Boston Ordnance District, Boston Army Supply Base, Boston, Mass.
Chicago Ordnance District, Chicago, Ill.
Cincinnati Ordnance District, Cincinnati, Ohio.
Cleveland Ordnance District, Cleveland, Ohio.
Detroit Ordnance District, Detroit, Mich.
Los Angeles Ordnance District, Pasadena, Calif.
New York Ordnance District, New York, N. Y.
Philadelphia Ordnance District, Philadelphia, Pa.
Pittsburgh Ordnance District, Pittsburgh, Pa.
Rochester Ordnance District, Rochester, N. Y.
St. Louis Ordnance District, St. Louis, Mo.
San Francisco Ordnance District, Oakland Army Base, Oakland, Calif.
Springfield Ordnance District, Springfield Armory, Springfield, Mass.

QUARTERMASTER CORPS

New York Quartermaster Purchasing Agency, New York, N. Y.
Quartermaster Supply Section, Columbus General Depot, United States Army, Columbus, Ohio.
Chicago Quartermaster Depot, Chicago, Ill.
Headquarters, QM Market Center System, Chicago, Ill.

SIGNAL CORPS

Signal Corps Supply Agency, Philadelphia, Pa.
Laboratory Procurement Office, Signal Corps Supply Agency, Fort Monmouth, N. J.
NSA Procurement Office, Procurement and Distribution Division, OCSigO, Washington, D. C.

TRANSPORTATION CORPS

Transportation Corps Central Procurement Agency, Marietta TC Depot, Marietta, Pa.

SUBPART C—BASIC POLICIES

§ 590.301 *Methods of procurement.* (a) Department of the Army policies with respect to procurement by formal advertising or by negotiation are set forth in §§ 591.102 and 592.101 of this subchapter. In connection with the placement of contracts during a period of national emergency, it is essential that contracts be spread across industry as widely as possible in order to broaden the industrial base of the procurement program. All Procuring Activities and agencies will give particular attention to the following in effecting procurement:

(1) The greatest possible integration of current procurement contracts with the industrial mobilization program and the accepted schedules of production.

(2) The equitable distribution of procurement contracts among the maximum number of competent suppliers. The concentration of contracts with a few leader suppliers is to be avoided unless the necessity therefor is clear.

(3) The utilization of existing open industrial capacity to the maximum. Expansion of facilities should not be authorized when open capacity can be found. Whenever time permits, and in order to broaden the mobilization base, additional contractors should be utilized in lieu of multi-shift or overtime operation.

(4) The fullest possible use of small business concerns.

(5) The utilization in negotiation of competition and multiple awards, whenever possible.

(6) The aggressive encouragement or requirement of subcontracting by prime contractors.

(7) The provision of maximum incentive to the producer for the reduction of his costs.

(8) The placement of contracts with a view to economies in the use of transportation facilities.

(9) The availability of manpower in distressed employment areas or in areas of manpower shortages.

(10) The reservation of special skills and abilities for the more difficult production tasks.

(b) Procurements and procurement actions affected under Title II of the First War Powers Act, 1941, as amended, Executive Order 10210, 2 February 1951, and regulations issued thereunder will be governed by basic policies and procedures set forth in Subpart C, Part 606 of this subchapter.

§ 590.302 *Sources of supply.*

§ 590.302–2 *Sources outside the government*—(a) *Sources of supply for foods of animal origin.* Procurement of foods of animal origin, including meat and meat food products, poultry and poultry products, milk and dairy products, fish and fishery food products, fats and cooking oils, game, and all food supplies of which any of the foregoing foods of animal origin form a significant part, will be made from only those sources which are approved with respect to sanitation in accordance with standards and procedures prescribed in Part 608 of this subchapter.

§ 590.305 *Specifications; general.* Every item procured either on an invitation for bids or by negotiation shall be described by referencing the applicable specifications or, in lieu thereof, shall contain a description when authorized as prescribed in paragraph (c) of this section; except that no specification in accordance with this paragraph is required in connection with the purchase of items for authorized resale when, to satisfy customer preference, the purchase is being made upon the basis of a brand-name; or the procurement falls within the provisions of § 402.210–2 (m) of this title.

(a) *Specifications authorized for procurement.* The following types of specifications are authorized for use in procurement, in the order of preference as listed:

(1) Federal specifications.
(2) Military (MIL, JAN) specifications.
(3) Air Force-Navy Aeronautical specifications.
(4) Uncoordinated Military (MIL) specifications.
(5) United States Army specifications.
(6) United States Air Force specifications.
(7) Navy specifications.
(8) Tentative specifications.
(9) Other Government departmental specifications.
(10) Purchase descriptions.

(b) *Use of tentative specifications.* Tentative specifications are authorized for purchase of items, materials, processes, or services as follows:

(1) Those required for research and development projects, including experimental, engineering, user (service), and troop tests, provided the technical and quantity requirements of the items are approved for these purposes by appropriate technical committee action.

(2) Those required for the current military procurement program, provided the applicable tentative specification is actually in process of conversion to a Military or Federal specification.

(3) Those required for components, spare parts, or materials required for maintenance of existing stocks of materiel or for items required for maintenance and operation of established installations.

(4) Requests for authority to use tentative specifications for purposes other than those listed above shall be made to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Standards Branch, and shall fully justify the necessity for making an exception. Normally, approval will be given only for purchases required to meet emergency or special requirements.

(c) *Description in lieu of specifications.* (1) A Federal or Military Specification or Standard will not be prepared when it is not in the best interest of the Government to do so. Instances where such a determination may be economically sound occur when the volume of procurement is not sufficient to justify the preparation of a specification or standard; when the character of the item is of minor significance and purchasing offers no problems; or for spare parts, components, or materials required for repair or maintenance of existing equipment; or for similar items required for maintenance and operation of existing facilities or installations.

(2) The exceptions outlined in subparagraph (1) of this paragraph may be described in proposals or contracts by use of a purchase description, providing it adequately specifies all of the essential requirements of the item or items. When the product cannot be adequately described because of its technically involved construction or composition, the name of one or preferably more commercial products may be used, followed by the words "or equal," so as not to limit competition to the particular make or makes specified. Such references to manufacturers' brand names and numbers are intended to be descriptive, but not restrictive and are for the sole purpose of indicating to prospective bidders the requirements that must be met.

(3) Heads of Procuring Activities will insure that necessary discretion is exercised in preparation of purchase descriptions, evaluation of bids, and award of contracts when such descriptions are used. Repeated use of a purchase description for large dollar volume purchases of any item other than one of minor significance indicates a need for a specification. In these instances, necessary action will be taken to provide for issuance of adequate Military or Federal Specifications as appropriate. Special precaution will be exercised to prevent the phrase "or equal" being used to procure proprietary products under the guise of competitive bidding procedures, to the exclusion of other similar products at least of equal quality and performance that meet the actual needs. Use of the phrase "or equal" is not intended as a device to substantiate a determination that no other product is equal in quality and performance to the product or products specifically listed in the Invitation for Bids or Request for Proposal. In instances where a proper determination has been made that one, and only one, supplier can furnish the required item or items, procurement should be accomplished by negotiation in accordance with Part 402 of this title and Part 592 of this subchapter. In any case of rejection of low bidder offering products "as equal" to the specific product or products listed in an Invitation for Bids or Request for Proposals followed by "or equal," determination of "equality" will be based on factual data.

(d) *Oversea purchases.* Contracting Officers are authorized to deviate from this section, subject to any instructions which may be issued by the Head of the Procuring Activity involved, for procurement effected outside the United States, its Territories, and possessions, to the extent of using where necessary such specifications, standards, and purchase descriptions of foreign governments and foreign trade associations, which will be readily understood by foreign vendors, provided that adequate measures are taken to insure satisfactory and acceptable products, including standard and interchangeable items, where required. Reports prescribed by this section will not be required for such procurement.

(e) *Supply of specifications to activities outside the Government.* A liberal attitude shall be taken in complying with requests for specifications from prospective bidders and possible manufacturers of supplies, whether for the purpose of broadening the peacetime market or for establishing new sources of supply in case of emergency.

(f) *Options permitted by specifications.* Many adopted specifications cover several grades or types and provide for several optional methods of inspections, packaging, etc. When such specifications are used in conformity with paragraph (a) of this section, the invitation or request for proposal shall specifically state the grade, type, or method of inspection, etc., on which bids or quotations are to be based.

§ 590.306 *Place of delivery.*

§ 590.306–1 *Domestic shipments.* (a) Bids and proposals will be evaluated on the basis of overall cost to the Government. In connection with bids or proposals submitted on an f. o. b. origin basis, transportation costs between the source of supply and the designated destination point or points will be considered in determining the lowest estimated cost to the Government.

(b) To facilitate the evaluation of bids and proposals and to assure accurate analyses, Contracting Officers will request the advisory services of local transportation officers to assist in determining the lowest possible transportation costs to a given point.

(c) When it has been determined that shipments will be made on the basis of all transportation charges paid to destination (Contractor's Account), care will be exercised in designating exact receiving points. An example of an exact designation is "F. O. B. Receiving Dock, ---------- General Depot, X City, Y State." Exact designation of the receiving point precludes unnecessary additional drayage and handling charges accruing to the Government.

§ 590.306–50 *Furnishing of freight rates.* (a) The functions of furnishing freight rates for use by Contracting Officers for the evaluation of bids and proposals as required by § 590.306–1 has been assigned to zone transportation officers.

(b) Purchasing offices will obtain freight rates from the zone transporta-

tion officer within whose geographical limits the purchasing offices are located regardless of the origin and destination points of the intended purchases, except that a rate quoting service will be provided in the Office of the Chief of Transportation for purchasing offices assigned within the Military District of Washington.

§ 590.306–51. *Oversea purchases.* Subject to any instructions which may be issued by the Head of the Procuring Activity involved, Contracting Officers are authorized to deviate from § 590.306 and § 400.306 of this title in effecting procurement outside the continental United States.

§ 590.350 *F. o. b. purchasing policy.* See § 400.306 of this title and § 590.306.

§ 590.351 *Procurement of spare parts.* Certain restrictions and procedures have been prescribed with respect to the procurement of spare parts. Such restrictions and procedures are set forth in pertinent Army Regulations.

§ 590.352 *Limitation on purchase and maintenance of motor vehicles or aircraft.* Section 16 of the act approved 2 August 1946 (60 Stat. 810; 5 U. S. C. 78; sec. II, WD Bul. 26, 1946) includes definite restrictions on the purchase of passenger motor vehicles (exclusive of buses, ambulances, and station wagons) or aircraft, and their maintenance, operation, and repair. Since such restrictions also cover matters other than purchase, the restrictions and prescribed procedures to be followed, including the certificate to be placed on procuring instruments, are published from time to time in Special Regulations.

§ 590.353 *Public release of long-range procurement estimates.* To assist industry to plan its production and to better serve the requirements of the Armed Services, from time to time it may be necessary to announce publicly unclassified long-range (9-month or over) procurement estimates on certain items, groups, or types of items or materials procured by the Armed Services.

(a) Public releases of long-range procurement estimates may be made by technical services when the head of technical service determines that—

(1) The information to be released will, in fact, actually assist industry in its planning and facilitate the meeting of the procurement requirements of the Armed Services.

(2) The announcement will not adversely affect procurement of Armed Services requirements by encouraging such malpractices as attempts to corner the market or the hoarding of industrial materials.

(3) The information to be released will not indicate the extent of industrial mobilization of the industry as a whole or its potential mobilization capacity.

(b) The procedures set forth below will be followed in the preparation and making of public releases of long-range procurement estimates:

(1) The head of technical service concerned will be responsible for the determination of the need for, and the preparation of, the proposed announcements.

(2) Only unclassified information will be released.

(3) The information will be publicized as widely as possible, consistent with the needs of the individual case, and will be so released as to reach all potential suppliers as nearly simultaneously as possible.

(4) In each release a statement will be made that the forecast is based on the best information available at the time of publication, but is always subject to modification.

(5) Each release will contain information as to the names and addresses of the purchasing offices that should be contacted by prospective suppliers regarding the forthcoming procurements.

(6) Major modifications in the original announced estimate will be publicized as expeditiously as possible and in the same manner as the original.

(7) Proposed announcements will be addressed to the Chief of Information (Public Information Division, Department of the Army).

(8) No actual releases will be made by the head of technical service unless authorized by the Chief of Information, Department of the Army.

§ 590.354 *Synopses of proposed procurements.*

§ 590.354–1 *Statement of policy.* (a) It is the policy of the Military Departments that all unclassified, negotiated, and advertised procurements exceeding $10,000 made in the continental United States will be publicized, except—

(1) Research and Development projects which are not susceptible of accomplishment by small business.

(2) Procurements for studies or surveys.

(3) Major items of equipment such as tanks, engines, airframes, ships, etc., when it can be demonstrated clearly that the item can only be manufactured, produced or developed by large firms.

(4) Other items which small business firms could not supply because of patent rights, copyrights, or secret processes.

(5) Purchases which must be made too quickly to permit prospective contractors, dependent on the synopses for information, to obtain invitations for bids or requests for proposals and to prepare and submit them.

(b) Synopses of Proposed Procurements, which are designed to furnish potential suppliers with sufficient information to determine whether they will be interested in bidding or quoting, will be prepared in accordance with the instructions set forth in §§ 590.354 to 590.354–6.

(c) Policies with respect to dissemination of information to unsuccessful bidders and offerers concernings awards are set forth in § 401.407 of this title and §§ 591.407 and 592.150 of this subchapter. Instructions pertaining to synopses of awards are set forth in § 590.355.

§ 590.354–2 *Applicability.* In accordance with the policy stated in § 590.354–1, instructions in this section shall apply to all proposed procurements (including procurements for the construction, alteration, or repair of buildings, bridges, roads, or other kinds of real property), whether negotiated or formally advertised, when—

(a) The estimated amount exceeds $10,000;

(b) The procurement is unclassified;

(c) The procurement is effected by any purchasing office in the continental United States, including (1) principal purchasing offices listed in § 590.253–2 and (2) all other field purchasing offices and activities located in the continental United States.

(d) None of the exceptions set forth in § 590.354–1 (a) (1) to (5) are applicable to the procurement.

§ 590.354–3 *Action by purchasing offices.* (a) Procurement directives and similar documents which authorize or direct the initiation of purchase actions will be made available to the Small Business Specialist, simultaneously with receipt thereof by Contracting Officers, for examination and determination as to whether the proposed procurement is required to be publicized in accordance with §§ 590.354 to 590.354–6.

(b) Purchasing offices will prepare and forward synopses of proposed procurements at the earliest practicable time prior to issuance of invitations for bids or requests for proposals (quotations), or prior to commencement of negotiations in any form; and, in any event, immediately upon completion of final drafts of any written solicitation. Reports Control Symbol DD–MB(D)–294 (R1) has been assigned to this report.

(c) Synopses will be teletyped at the end of each day (or as they occur), in accordance with instructions contained in § 590.354–4 to the following address:

Synopsis,
Commerce Department,
Field Service,
Chicago, Illinois.

(d) Where access to the Army Command and Administrative Network (ACAN) is not available, synopses will be dispatched via air mail to the following address:

Field Service, Administrative Office,
U. S. Department of Commerce,
Room 1014, 610 South Canal Street,
Chicago 7, Illinois.

(e) A copy of each synopsis forwarded will be made available at purchasing offices for examination by interested persons. Such copies will contain columnar headings and a statement to the effect that further information will be supplied upon request, if available. A copy of the synopsis will be forwarded also to Procurement Information Center, Office of the Under Secretary of the Army, Old Post Office Building, Twelfth and Pennsylvania Avenue NW., Washington 25, D. C.

(f) A reasonable number of copies of each Letter of Proposal, Request for Proposal and Invitation for Bids, publicized in the Department of Commerce Synopsis of Proposed Procurements, including data and specifications, will be maintained by each purchasing office for supplying requests of prospective bidders.

(g) The policy governing the relations between the Department of Defense and the Small Business Administration stipulates that competition and widespread publicity will be used to the fullest extent practicable with respect to proposed procurements under joint determinations (joint determinations by assigned representatives of the Small Business Administration and the contracting office to earmark all or part of a specific procurement for exclusive participation by small business concerns) as provided for in section 714 (f) (2) of the Defense Production Act, as amended. The Department of Commerce will publish information with respect to procurements under joint determination under a separate heading in the daily Synopsis. Therefore, in transmitting procurement information to the Department of Commerce for inclusion in the daily Synopsis, a separate transmittal will be made on those procurements which are under joint determination, and the transmittal will state clearly that "the proposed procurement(s) listed herein is (are) under joint determination."

§ 590.354–4 *Instructions for teletyping of synopses.* Synopses teletyped pursuant to § 590.354–3 (b), will be prepared for transmission as follows:

(a) The first line of the text of the message will state the number of the synopsis being sent. Synopses will be numbered consecutively.

(b) The second line of the text of the message will state the name and location of the purchasing office straight across the page (not to exceed 70 typewriter spaces) continuing on the next line if necessary.

(c) The description of the item being procured will be in capital letters, using the dash for commas and will not exceed 31 typewriter spaces. If 31 spaces are insufficient, additional lines may be used. The description will be clear, concise, abbreviated wherever possible, with a minimum number of words for description but sufficient for understanding by interested parties; it will consist of a minimum general description of the item procured and will include, when appropriate, commonly used names of supply items, basic materials from which fabricated, general size or dimensions, etc. Citation to specification and/or drawing numbers or other identifying data will be included, if this information will assist prospective suppliers in determining whether or not they are interested in the procurement.

(d) The column designating the quantity begins on typewriter space 32 and will not exceed 10 spaces. Every effort will be made to center the quantity between spaces 32 and 41. If 10 spaces are insufficient to include desired statement relative to quantity, additional lines may be used. Quantity to be procured will be indicated, except that whenever purchasing offices believe it advisable for security reasons, quantities may be published as "more than _____."

(e) The column designating the invitation or request number begins on typewriter space 42 and will not exceed 16 spaces. Every effort should be made to center the invitation or request number between spaces 42 and 57. Invitation for Bids numbers will be followed by the letter "B." Requests for proposals or quotations will be indicated by the letter "Q" or, if numbered, the number will be followed by the letter "Q." If there is not sufficient space in the column for the distinguishing letter, it may be typed on the succeeding line.

(f) The column designating the opening date (or last date for submission of proposals or quotations) begins on typewriter space 58 and will not exceed 13 spaces. The last digit of the entry in this column should fall in space 70.

(g) Columnar headings will be omitted.

(h) Strict adherence to the above instructions will be required of each reporting office as the receiving machines will automatically cut stencils at the time the message is received. Deviations will cause the format of the synopsis printed by the Department of Commerce to be out of line.

(i) Each reporting office will discuss the instructions contained in this section with its communications office so that the manner in which the message is to be transmitted is thoroughly understood by the office preparing the message and the communications office.

§ 590.354–5 *Contents of synopses when not teletyped.* Synopses air mailed pursuant to § 590.354–3 (d) will contain the same information required for synopses which are teletyped, as prescribed in § 590.354–4, in substantially the same form. In addition to the information prescribed in § 590.354–4, appropriate columnar headings will be used.

§ 590.355 *Synopsis of contract awards.*

§ 590.355–1 *Statement of policy.* It is the policy of the Military Departments that information be disseminated as widely as possible, each week, with respect to awards of unclassified contracts, exceeding $25,000 in amount, whether entered into after formal advertising or negotiation. One objective of this policy is to provide opportunities for small business concerns to learn of and solicit subcontracting work.

§ 590.355–2 *Applicability.* In accordance with the policy stated in § 590.355–1, instructions in §§ 590.355 to 590.355–4 shall apply to all contracts (including contracts for the construction, alteration, or repair of buildings, bridges, roads, or other kinds of real property), whether entered into after formal advertising or negotiation, when—

(a) The contract amount exceeds $25,000.

(b) The contract is unclassified.

(c) The contract is entered into by any purchasing office in the continental United States, including (1) principal purchasing offices listed in § 590.253–2 and (2) all other field purchasing offices and activities located in the continental United States.

§ 590.355–3 *Action by purchasing offices.* (a) Purchasing offices will obtain all necessary information for inclusion in synopses of contract awards from contract files and, when necessary, direct from Contractors.

(b) Purchasing offices will obtain information, at the earliest possible time, as to whether suppliers are in need of assistance to locate and contact subcontractors. If such assistance is desired, the supplier will be requested to indicate (1) the industry, craft, process, or component item in or for which he desires subcontractors in connection with the contract awarded or to be awarded, (2) any restrictions as to the general area in which subcontractors should be located.

(c) Purchasing offices will prepare and forward single copies of synopses of contract awards to each of the addresses listed below, by air mail, before the close of business at the end of each week. If past experience indicates that ordinary mail will insure Monday delivery to any addressee, ordinary mail will be used. Reports Control Symbol DD–MB (W)–294 (R2) has been assigned to this report.

(d) Addressees to be furnished with synopses of contract awards are—

(1) Procurement Information Center, Office of the Under Secretary of the Army, Old Post Office Building, Twelfth and Pennsylvania Avenue NW., Washington 25, D. C.

(2) Administrative Office, United States Department of Commerce, 433 West Van Buren Street, Chicago 7, Illinois.

§ 590.355–4 *Contents of synopses of contract awards.* Synopses of contract awards will contain the following information:

(a) Name of purchasing office.

(b) Name and address of the Contractor.

(c) Brief description of the commodity or service being procured, followed in parentheses by the applicable Invitation for Bid Number or Request for Proposal Number. Description will be clear, concise and abbreviated wherever possible, with a minimum number of words for description but sufficient for understanding by interested persons. It will consist of a minimum general description of the item or service procured and will include, when appropriate, commonly used names of supply items, basic materials from which fabricated, general size, or dimensions, etc.

(d) Statement of dollar amount.

(e) Quantity of items.

(f) Statement of industries, crafts, processes, or component items in or for which subcontracts are available and subcontractors are desired by prime Contractors, in substantially the following form: "Prime Contractor has subcontracts open for the following: (insert here industries, crafts, processes or component item applicable)," (insert the following clause where applicable) and desires that subcontractors be located in (insert here general area indicated by Prime Contractor, if any, such as: Southeast States, New England, West Coast, etc.).

§ 590.357 *Selection of Contractors.* It is the policy of the Department of the Army to award contracts only to responsible persons and concerns submitting bids or quotations. Persons or concerns considered to be responsible in connection with the awarding of Army contracts are those who (1) are manufacturers or regular dealers as defined in § 400.201–9 of this title and (2) are financially and otherwise able to perform the contracts, and (3) are otherwise qualified

and eligible by law and regulation. In determining responsibility, primary emphasis will be placed upon the prospective Contractor's technical and financial ability to perform the contract successfully. Where a Contractor is not responsible, even though it is anticipated that a future event would make him responsible, an award contingent upon such future event is prohibited. For example, it would be improper to award a supply contract conditioned on the Contractor obtaining adequate financing within 30 days from the date of the award.

(a) A preaward qualification check or survey will be made of the technical and financial capabilities of the prospective Contractor in order to provide the basis for evaluating responsibility. Qualification checks or surveys may be curtailed to the extent the prospective Contractor's qualifications are known to be satisfactory or when not required in the judgment of the Contracting Officer. The contract file of the Contracting Officer will contain a record of his determination of the responsibility of the Contractor in all cases over $1,000, with such supporting evidence as is secured by him through qualification checks or surveys. In the event the Contracting Officer determines that a preaward survey need not be made, a statement to that effect with supporting reasons for the waiver on all contracts over $1,000 will be made a part of the contract file.

(b) In evaluating the responsibility of prospective Contractors, consideration will be given to the following factors, as well as to any others which may be deemed appropriate:

(1) Whether the Contractor qualifies as a "source of supply," as defined in § 490.201–9 of this title and § 590.201–9.

(2) Financial ability to perform the contract, including the availability of necessary working capital and credit, as determined from the following and any other appropriate sources:

(i) Balance sheets and profit and loss statements.

(ii) Credit reports of commercial- and financial-reporting agencies.

(iii) Data available at the prospective Contractor's banks.

(iv) Information concerning other contractual commitments.

(3) Financial aid furnished or required to be furnished by the Government.

(4) Business and financial reputation and integrity of the prospective Contractor, and where its reputation and integrity are not established of the principal executives of the prospective Contractor, as determined by checks of the following sources:

(i) The prospective Contractor's banks.

(ii) Trade creditors.

(iii) Any other source, governmental or private, which has had substantial previous dealings with the prospective Contractor.

(5) Business and manufacturing experience, including length of time in present business, production efficiency, and technical ability.

(6) Types of supplies, equipment, components, material, and services currently being manufactured, performed, or developed.

(7) Similarity between items currently being produced and items required by the proposed contract.

(8) Total amount of business on hand (military and commercial) as affecting the ability of the prospective Contractor to meet deliveries required under the contract.

(9) Prospective Contractor's past record of performance of Government contracts.

(10) Adequacy and availability of facilities, materials, and personnel for performance of the specific contract involved, including, when applicable, consideration of—

(i) Plant space.

(ii) Manufacturing equipment.

(iii) Testing, inspection, and laboratory facilities.

(iv) Training facilities.

(v) Materials and components.

(vi) Trained labor.

(vii) Key production and engineering personnel.

(viii) Subcontractors.

(11) Furnishing of a performance bond.

§ 590.358 *Use of Certificates of Necessity and Expediting Production Funds.* It is the policy of the Department of the Army that Certificates of Necessity and the utilization of Expediting and Production Funds will be recommended for approval only in those instances where no other adequate facilities for the furnishing of the supplies or services exist which can be operated by responsible firms.

SUBPART D—PROCUREMENT RESPONSIBILITY AND AUTHORITY

§ 590.401 *Responsibility of each Procuring Activity.* (a) Heads of Procuring Activities are responsible for the procurement of all supplies and services as assigned in accordance with the policy prescribed in Part 593 of this subchapter.

(b) Purchases will be made only by Contracting Officers duly designated as such. (See §§ 590.402 and 590.450.)

(c) Chief, Purchases Branch, Office of the Assistant Chief of Staff, G–4, Department of the Army, will exercise the functions of Head of a Procuring Activity for all Contracting Officers of the Army Establishment not under the jurisdiction of a Head of a Procuring Activity as listed in § 400.201–4 of this title.

(d) Authority is hereby delegated to the following to make necessary procurement of supplies and services required to carry out their functions:

(1) Attachés.

(2) Chiefs of foreign missions (Army).

(3) Chiefs of Army sections of any joint military mission not operating under the jurisdiction of a major oversea command.

(4) Superintendent, U. S. Military Academy, West Point, N. Y.

(5) Such others as may be specifically designated in writing from time to time.

(e) Responsibilities and authority of Heads of Procuring Activities in connection with applications for relief under Title II of the First War Powers Act, 1941, as amended, etc., are set forth in § 606.403–4 of this subchapter.

§ 590.402 *General authority of Contracting Officers.* Properly designated Contracting Officers are granted all authority conferred by law, the Armed Services Procurement Regulation, this procedure, and by Procuring Activity instructions, but only to the extent as limited therein and as that authority may be limited in the orders designating them as Contracting Officers.

(a) Contracting Officers are agents of the Government and must act in accordance with the law and within their prescribed duties and limited authority. Contracting Officers must insure that their acts are in full accord with their authority. The acts of a Contracting Officer bind the Government only when the action is authorized.

(b) Contracting Officers may enter into, amend, modify, and take other action with respect to contracts provided (1) approval of award has been obtained, if approval is required by this procedure, and the contract embodies the award as approved, (2) the contract is written on a standard or an approved form of contract, (3) the contract is authorized by law and complies with the provisions of the Armed Services Procurement Regulation and this procedure with respect to the use of contract clauses and does not contain any clause or involve matters in conflict with the established policy of higher authority and, (4) compliance has been effected with all other requirements of law, the Armed Services Procurement Regulations, this procedure, and the applicable Procuring Activity instructions.

§ 590.403 *Requirements to be met before entering into contracts.* Irrespective of whether procurement is to be effected by formal advertising or by negotiation, a contract may be entered into by a Contracting Officer only if—

(a) All applicable requirements of law, of the Armed Services Procurement Regulation, of this procedure, and of the appropriate Procuring Activity instructions have been met.

(b) Such business clearances or approvals as are prescribed by this procedure and by applicable Procuring Activity instructions have been obtained.

(c) The contract is written on a standard or an approved form of contract.

(d) The contract does not contain any unauthorized clauses or involve any matter which is inconsistent or in conflict with the established policy of higher authority.

§ 590.450 *Designation of Contracting Officer.* (a) Contracting Officers, as defined in § 400.201–5 of this title, shall be those designated by the persons listed below, or by persons who are authorized by the persons listed below to designate Contracting Officers. When so designated, they shall have the authority set forth in § 590.402 and the general responsibilities set forth in § 590.453.

(1) The Secretary of the Army.

(2) The Under or Assistant Secretary of the Army responsible for procurement.

(3) The Assistant Chief of Staff, G–4, Department of the Army.

(4) Chief, Purchases Branch, Office of the Assistant Chief of Staff, G–4, Department of the Army.

(5) Head of any Procuring Activity.

(6) Attachés.

(7) Chiefs of foreign missions (Army).

(8) Chiefs of Army sections of any joint military mission not operating under the jurisdiction of a major oversea command.

(9) Superintendent, United States Military Academy, West Point, N. Y.

(10) Such others as may be specifically designated in writing from time to time.

(b) The designation of Contracting Officers shall be in writing and may be accomplished by general or special instructions.

§ 590.451 *Designation of representatives.* A Contracting Officer may designate any officer or civilian official to act as his authorized representative. Such designation shall be in writing and shall define the scope and limitations of the authorized representative's authority.

§ 590.452 *Authority of representatives.* A designation authorized by § 590.451 may be made by instructions referring to particular contractual instruments, and may, to the extent not specifically prohibited by the terms of the contractual instrument involved, empower the authorized representative to take any or all action thereunder which could be lawfully taken by the Contracting Officer. In no event, however, shall an authorized representative, by virtue only of his designation as such, be empowered to execute or agree to any contract or modification thereof. Except, however, the Contracting Officer may empower his authorized representatives to issue change orders under the "Changes Article" provided such change orders do not involve a change in unit price, total contract price, quantity, quality, or delivery schedule.

§ 590.453 *General responsibility of Contracting Officers.* (a) Contracting Officers are primarily responsible for the execution and administration of contracts, to safeguard the interests of the United States in contractual relationships, and to determine the facts under contracts.

(b) Contracting Officers shall personally sign all contracts and modifications entered into by them. This authority cannot be delegated to others. (See § 590.452 with respect to change orders.) The signing of contractual documents will not be accomplished by facsimile stamps or by proxy.

(c) Contracting Officers are responsible under law and regulations for their acts as Contracting Officers.

(d) Contracting Officers shall be bound in all their actions to exercise reasonable care, skill, and judgment.

(e) Contracting Officers must assure themselves that the contract is authorized by law, that funds are available, and of their authority to subject the Government or its property to any risk.

(f) Contracting Officers are responsible for maintaining constant cognizance with respect to contract compliance on the part of the Contractor.

(g) Contracting Officers are responsible for the legal, technical, and administrative sufficiency of the contracts they make. They should not hesitate to secure legal and technical advice within the Army Establishment.

(h) Contracting Officers are responsible for performing or having performed any legal or administrative actions necessary to properly assure the satisfactory performance of their contracts.

(i) Contracting Officers are responsible for knowing the scope and limitation of their authority.

§ 590.454 *Delegation of authority.* Authority conferred upon any of the Heads of Procuring Activities under any section of Subchapter A, Chapter IV of this title and in this procedure may be exercised by the Heads of the Procuring Activities, or by redelegation, through such officer or officers or civilian official or officials of the Army Establishment as may be designated by them or by any person authorized by them to make such designation, with such powers of delegation or successive redelegation as they may deem appropriate; subject, however, to any provisions in the particular section of Subchapter A, Chapter IV of this title or this procedure—

(a) Forbidding the assignment or delegation of the authority mentioned in such section, or

(b) Imposing limitations upon the assignment, delegation, or exercise of such authority.

The exercise prior to the date of this procedure of such authority by any such officer or officers or civilian official or officials of the Army Establishment is hereby ratified and confirmed, providing such authority could have been granted in the first instance.

§ 590.455 *Standards of conduct.* In all procurement and related functions, stress shall be placed upon the importance of protection of the interests of the Government and the avoidance of any acts which may tend to compromise both the Department of the Army and the individual member of the Army Establishment, thus impairing public confidence in the integrity of business relations between the Department of the Army and industry.

(a) *Policy.* The Department of the Army policy is contained in the following publications:

(1) AR 600–205. (Standards of Conduct of Personnel Assigned to Procurement and related activities).

(2) AR 600–10. (Military Discipline).

(b) *Responsibility of all personnel.* All individuals concerned, either directly or indirectly, with any phase of procurement, inspection, and contract administration will read and initial a copy of AR 600–205. Such initialed copy shall be retained in the files of the office involved and shall be subject to inspection at all times. Likewise, each such individual shall be furnished a copy of AR 600–205. Further, those individuals referenced in § 590.454 of this subpart and subject to military law shall be fully cognizant of the provisions of AR 600–10.

§ 590.456 *Responsibility for insuring the availability of funds.* Contracting Officers will, prior to the incurrence of an obligation, obtain from the Fiscal Officer a certificate which will contain a citation of the proper funds to be charged and a statement that sufficient funds are available for payment of the contractual obligation to be incurred. The certificate shall be retained in the contract file. The Fiscal Officer who is accounting for the funds will be responsible for determining the proper funds to be charged and the sufficientcy thereof and for reserving in the fiscal accounts an amount sufficient to pay the obligation to be incurred. The Contracting Officer will be responsible for determining that final delivery under the terms of the contract, acceptance, and payment may be made before expiration of the available period for expenditure of the funds concerned.

SUBPART E—CONTINGENT OR OTHER FEES

§ 590.502 *Applicability.* This subpart applies to all contracts except those exempted by § 400.507–2 of this title.

§ 590.502–50 *Definition of contract.* As used throughout this subpart, the term "contract" means any contract for—

(a) The purchase of real property, personal property, or services (except services which are required to be performed by an individual Contractor in person under Government supervision and paid for on a time basis, and except public utilities services by public utility companies);

(b) The construction or repair of public buildings or works;

(c) The lease of real or personal property for Government use; or

(d) The sale or lease of Government-owned real or personal property.

§ 590.503 *Covenant against contingent fees clause.*—(a) *Procurement contracts.* Every contract, defined by paragraphs (a), (b) or (c) of § 590.502–50, is required to contain the "Covenant Against Contingent Fees" clause set out in § 406.103–20 of this title.

(b) *Disposition contracts.* Every contract defined by § 590.502–50 (d) will contain the following clause:

COVENANT AGAINST CONTINGENT FEES

The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this contract without liability or in its discretion to require the Contractor to pay, in addition to the contract price or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

§ 590.508 *Enforcement.*

§ 590.508–1 *Failure or refusal to furnish Standard Form 119.* If the otherwise successful bidder fails or refuses to furnish a completed form or statement upon request of the Contracting Officer, the matter will be referred to the Head of the Procuring Activity concerned or

his duly authorized representatives for instructions.

§ 590.508–2 *Misrepresentations or violations of the covenant against contingent fees.* If the Contracting Officer, after award, believes that the otherwise successful bidder has made misrepresentations or has otherwise acted in a manner inconsistent with the "Covenant Against Contingent Fees" clause, he shall report the matter for determination by the Head of the Procuring Activity concerned or his duly authorized representative.

§ 590.508–50 *Authority of Head of a Procuring Activity.* The Head of a Procuring Activity or his duly authorized representatives, shall, in any case forwarded by a Contracting Officer pursuant to this section, take or cause to be taken one or more of the following actions as appropriate:

(a) If an award has not been made or offer has not been accepted, determine whether the bid or offer should be rejected.

(b) If an award has been made or offer has been accepted, take action to enforce the covenant in accordance with its terms; that is, as the best interest of the Government may appear, annul the contract without liability, or recover the amount of the fee involved.

(c) Determine the future eligibility as a Contractor of the bidder or Contractor, in accordance with Subpart F of this part.

(d) Determine whether the case should be referred in accordance with Subpart F of this part, with respect to determining matters of fraud.

§ 590.550 *Contracts in foreign countries.* In effecting procurement outside the continental United States, its Territories and possessions, mandatory use of the form is not required.

SUBPART F—DEBARRED, INELIGIBLE, AND SUSPENDED BIDDERS

§ 590.600–50 *Authority.* An Assistant Judge Advocate General has been designated as the authorized representative of the Under Secretary of the Army for purpose of administering the provisions of Subpart F of Part 400 of this Title, and this subpart, and to coordinate actions thereunder with The Inspector General, the Department of Justice, and other agencies, when appropriate.

§ 590.601 *Establishment and maintenance of a list of firms or individuals debarred or ineligible.*

§ 590.601–1 *General.* The Under Secretary of the Army (Assistant Judge Advocate General) will publish a consolidated list, together with periodic changes thereto. The classification of this list will be "Confidential." Procurement personnel will comply with the prohibitions contained in this list, together with the additions, modifications, and releases reflected thereon.

§ 590.601–4 *Maintenance and distribution of list.*—(a) *Exchange of list.* The Office of the Under Secretary of the Army (Assistant Judge Advocate General) will furnish the Departments of the Navy and the Air Force with copies of this list, and will, to the extent appropriate, publish information received from those Departments on the list.

(b) *Attempted evasions.* In some instances, firms or individuals have attempted to evade the prohibitions contained in §§ 590.604 and 590.605 by change of address, use of multiple addresses, or by formation of a new company. In such cases where it can be reasonably established that the suspended or debarred firm or individual has the controlling or active interest in a new company, or that the address is the same as that of the suspended or debarred firm or individual, the basic prohibitions will apply, and a report will be submitted through channels to the Office of the Under Secretary of the Army (Assistant Judge Advocate General). Doubtful cases will be referred to the Office of the Under Secretary of the Army (Assistant Judge Advocate General) through channels, for determination.

§ 590.603 *Treatment to be accorded firms or individuals in debarred or ineligible status.*

§ 590.603–1 *Total restrictions.* (a) Debarred Contractors will not be carried on any bidders' mailing list and bids will not be invited from them.

(b) In the event that a bid is tendered by a debarred Contractor, it shall be received and recorded. If the bid is low, it will then be rejected (see paragraph (c) of this section) and the reason therefor shall be stated in the certificate to the General Accounting Office as follows:

> In accordance with the decision of the Comptroller General of the United States contained in his letter to the Secretary of War, dated 23 July 1929, the bid of _____ is rejected because of previous unsatisfactory business dealings with the Department of the Army.

(c) No awards will be made to any debarred Contractor during the period specified for debarment; however, where an award to a debarred bidder is deemed to be essential in the public interest, the procuring activity desiring to make such award will furnish a complete report of the contemplated procurement together with the reasons requiring such award, in accordance with the procedure in § 590.604 (b).

(d) Administration of current contracts is as follows:

(1) In the event there are any current contracts with a firm or individual recommended for debarment, administration of such contracts will be the responsibility of the Head of the Procuring Activity. A report submitted accordance with § 590.604 (b) will contain full information concerning current contracts if any. Administration of contracts with a firm or individual recommended for debarment may continue unless otherwise directed by the Under Secretary of the Army (Assistant Judge Advocate General).

(2) Upon debarment of a firm or individual, administration of current contracts with such debarred firms or individuals may be continued unless otherwise directed by the Office of the Under Secretary of the Army (Assistant Judge Advocate General).

(3) Where current contracts are being administered at the time a report is submitted under § 590.604 (b), or at the time of debarment, payments under such contracts may be continued at the discretion of the Head of the Procuring Activity involved, unless otherwise directed by the Office of the Under Secretary of the Army (Assistant Judge Advocate General).

§ 590.604 *Causes and conditions of debarment.*—(a) *Reports.* Any Procuring Activity may submit reports recommending debarment of a firm or individual for any of the causes set forth in § 400.604–1 of this title.

(b) *Reporting procedure.* Reports requesting debarment will be submitted in triplicate to the Office of the Under Secretary of the Army (Assistant Judge Advocate General), with an information copy to the Office of the Assistant Chief of Staff, G–4. Such reports will contain a complete certified statement of the facts concerning the contractor's dereliction, including affidavits, depositions, records of action, if applicable, and any other relevant data. Names and addresses of all persons having knowledge of the circumstances will be included. Such reports will include the names and addresses of all known affiliates of reported Contractors, together with the nature of such affiliation. Recommedations of the reporting agency and intermediate echelons will be furnished with any request for debarment. The Head of a Procuring Activity will be responsible for the adequacy and propriety of all requests initiated under his command.

§ 590.604–3 *Notice of debarment.* Upon the debarment of a Contractor by the Office of the Under Secretary of the Army (Assistant Judge Advocate General), that office will furnish advice of such action to the Contractor, and to the General Services Administration, in accordance with § 400.604–3 (b) of this title.

§ 590.605 *Suspension of bidders.* The prompt reporting of all matters relating to fraud or criminal conduct in connection with procurement activities is of extreme importance. All persons concerned with Army procurement will be alert for and report the possibility or evidence of fraud or criminal conduct at all times.

(a) *Reporting procedure.* All reports submitted under this section will be classified "Confidential" unless the information contained therein warrants a higher classification. All reports and exhibits, and all supplements thereto, including letters of transmittal and interim correspondence, will be expeditiously transmitted through channels, in sextuplicate, to the Head of the Procuring Activity, who will make the following distribution: 3 copies to the Office of the Under Secretary of the Army (Assistant Judge Advocate General), 1 copy to the Office of the Assistant Chief of Staff, G–4, Department of the Army (Attn: Chief, Purchases Branch), and 1 copy to the Office of The Inspector General. In cases where all the information is not readily available to the reporting agency, preliminary reports will be so forwarded and will be followed as soon as practicable by complete documented reports as herein indicated. All reports should contain a full statement of the pertinent facts indicating alleged criminal conduct, fraudulent activity, or suspicion thereof, and will be supported by appropriate exhibits, including copies of any contracts involved and any assignments of claims thereunder. Names and addresses of all known affiliates of reported Contractors, together with the nature of such affiliation, will be included. All such reports initiated by disposal, inspection, audit, engineering, and other advisory or technical personnel will be addressed to the Contracting Officer concerned and will be adequately documented by initiating personnel. The Contracting Officer will take whatever action he deems necessary and appropriate consistent with the protection of the best interest of the Government. Such reports, accompanied by the comments and recommendations of the Contracting Officer, will then be forwarded through channels for the addition of the comments and recommendations of each successive office. The reporting agency and all intermediate echelons will include their recommendations as to suspension in such reports.

(b) *Suspensions.* The determination to suspend a suspected firm or individual will be the responsibility of the Under Secretary of the Army (Assistant Judge Advocate General). Formal suspension directives will be issued by that office. In addition, a determination will be made whether to refer the matter to the Department of Justice.

(c) *Procurement*—(1) *Current contracts.* It will be the responsibility of the Head of a Procuring Activity reporting a suspicion of fraud or criminal conduct, and administering a current contract, to determine whether it will be in the best interest of the Government (i) to continue contract administration in any of its phases (such as acceptance of deliveries, inspection, issuance of certain instructions), but not including payment except as authorized in subparagraph (2) of this paragraph; or (ii) to exercise any contract right (such as termination for default or convenience, rejection, or recovery due to latent defects). In making such determination, full consideration will be given to the nature of and the circumstances surrounding the suspicion or evidence of fraud or criminal conduct being reported. The basis for each determination will be included in the report required under paragraph (a) of this section. In cases where doubt exists as to the effect of continuation of any phase of administration on the investigation and possible prosecution or civil action against the suspected Contractor, it will be appropriate to refer the matter, together with the recommendations of the Head of the Procuring Activity, to the Office of the Under Secretary of the Army (Assistant Judge Advocate General) for determination.

(2) *Payments.* When a report under paragraph (a) of this section is made by the Head of a Procuring Activity, and such report does not recommend suspension of the Contractor, payments under current contracts may continue at the discretion of the Head of the Procuring Activity unless otherwise directed by the Office of the Under Secretary of the Army (Assistant Judge Advocate General). Where such report recommends suspension, payments will be withheld. No payments of any type will be made to any suspended Contractor either under procurement or termination unless the suspension is modified or removed by the Office of the Under Secretary of the Army (Assistant Judge Advocate General). Upon receipt of a notice of suspension, disbursing officers will promptly forward all administratively approved vouchers in favor of the suspended Contractor to the Office, Chief of Finance, Attn: Receipts and Disbursements Division. Procuring agencies, holding or in receipt of properly certified invoices covering amounts due the suspended Contractor, will prepare and process (administratively approve) the necessary vouchers and will forward the certified vouchers to the aforesaid office, through their assigned Disbursing Officers, inviting attention to the fact that the Contractor concerned is suspended. This procedure will be followed whenever any additional or new amounts become due during the period of suspension. In cases where, in the opinion of the Contracting Officer, the circumstances surrounding either the procurement or the suspicion of fraud or criminal conduct are of such a nature as to permit or require complete or partial release of withheld funds due the suspended Contractor, a recommendation for such release, including a full statement of the particulars supporting such recommendation, will be made by the Contracting Officer, through channels, in accordance with paragraph (a) of this section for determination by the Office of the Under Secretary of the Army (Assistant Judge Advocate General).

(3) *Terminations.* Negotiation toward settlement of terminated contracts will cease with the suspension of a Contractor. Negotiations must likewise cease with respect to terminated subcontracts either let or held by the suspended Contractor. All authorizations granted to such a Contractor under JTR 642 (PR 15) or under Part 407 of this title or part 597 of this subchapter, will be revoked immediately without explanation. In cases where, in the opinion of the Contracting Officer, negotiation toward settlement of a terminated contract would be in the best interest of the Government, a report recommending such action will be made, through channels, in accordance with paragraph (a) of this section, for determination by the Office of the Under Secretary of the Army (Assistant Judge Advocate General).

(4) *New awards.* Contracts shall not be awarded to, nor shall bids or proposals be solicited from, firms or individuals which have been placed in suspension, unless approval for each individual procurement has been obtained. Bids submitted by suspended Contractors will not be rejected by Contracting Officers solely because of the suspension, but will be received, recorded, and retained in accordance with established procedures. In cases where a suspended Contractor is the low bidder (or, in the case of surplus and salvage sales, the high bidder), information relating to (i) the low (or high) bid and the next lowest (or highest) bid; (ii) expirations or options and whether such options may be extended, and (iii) the desirability or necessity of acceptance of the suspended Contractor's bid, will be reported, together with recommended action, in the same manner as set forth in paragraph (a) of this section, for determination as to placement of any awards with the suspended Contractor.

(d) *Responsibility of heads of procuring activities (report on contractual status of suspended contractors, reports control symbol JAG–19).* The Heads of Procuring Activities will be responsible for taking the appropriate administrative actions indicated in paragraph (c) of this section. The Heads of Procuring Activities are authorized to communicate direct with the Office of the Under Secretary of the Army (Assistant Judge Advocate General) as to matters within the purview of this section. As soon as possible after receipt of the notice of suspension, and not later than 30 days thereafter, or concurrent with the reporting of suspicion of fraud or criminal conduct, the Heads of Procuring Activities will submit a brief report on the status of outstanding contracts, if any, either proposed, current, or terminated but unsettled (Report on Contractual Status of Suspended Contractors) (Reports Control Symbol JAG–19). Information relating to current contracts will be reported as outlined in paragraph (c) of this section, with distribution in accordance with paragraph (a) of this section. The extent to which such firms or individuals are considered necessary and essential will be indicated.

(e) *Services receiving notice of suspension.* In cases where a current contract is being administered by a Procuring Activity not the initiating agency of the report of suspected fraud or criminal conduct, a statement of the minimum contract administration immediately required will be included in the report required under paragraph (d) of this section.

(f) *Release from suspension.* After a firm or individual has been placed in suspension, such suspension will not be lifted until so directed by the Office of the Under Secretary of the Army (Assistant Judge Advocate General). Firms and individuals released from suspension and not debarred will be replaced on lists of bidders to whom invitations to bid will be sent, where appropriate.

(g) *Departmental inquiries.* Inquiries by Procuring Activities concerning the status of reported cases will be transmitted, in triplicate, through channels, to the Office of the Under Secretary of the Army (Assistant Judge Advocate General). Procuring Activities will not communicate with the local offices of the Department of Justice, the United States Attorney, or the Federal Bureau of Investigation in such connection.

§ 590.609 *Procurement outside the United States.* A report, in triplicate, setting forth the basis for and the action

taken in any case of suspected fraud or criminal conduct, will be furnished in the manner set out in § 590.605 (a) for information as the incidents occur. A closing report of completed action will be furnished.

§ 590.650 *Inquiries from debarred, ineligible, or suspended firms and individuals*—(a) *Suspended firms or individuals.* Reports submitted in accordance with § 590.605 and all actions accomplished relating thereto are confidential. In the event a suspended Contractor or his representative makes inquiry as to the reason or cause of any of the prohibitions indicated in § 590.605 (c), or for any other reason, no information relating to the suspension or the fact that the Contractor has been suspended will be given to the inquirer. Instead, the Contractor will be informed that consideration is being given his contractual relationship by the Office of the Under Secretary of the Army (Assistant Judge Advocate General), and that all inquiries regarding such matters should be addressed in writing direct to that office.

(b) *Debarred firms and individuals.* All inquiries relating to debarred bidders, including those from a debarred bidder, will be forwarded to the Office of the Under Secretary of the Army (Assistant Judge Advocate General).

(c) *Ineligible or disqualified firms or individuals.* Inquiries from Contractors or individuals listed as ineligible or disqualified by the Comptroller General and the Department of Labor under the Walsh-Healey or Davis-Bacon Acts shall be answered by indicating the nature of the prohibition as indicated on the consolidated list and requesting that the inquirer communicate with—

Wage and Hour and Public Contracts Division,
Department of Labor,
14th Street and Constitution Avenue, NW.,
Washington 25, D. C.

PART 591—PROCUREMENT BY FORMAL ADVERTISING

Sec.
591.000 Scope of part.

Subpart A—Use of Formal Advertising

591.102 Use of formal advertising.

Subpart B—Solicitation of Bids

591.201 Preparation of forms.
591.202 Methods of soliciting bids.
591.202–1 Mailing or delivering to prospective bidders.
591.202–4 Publishing in newspapers.
591.202–5 Synopses of invitations for bids.
591.203 Maintenance and retention of records (Office of Permanent Record).
591.204 Bidders' mailing list.
591.250 Identification of specifications.
591.251 Distribution of invitation for bids.
591.252 Amendments to invitations for bids.

Subpart C—Submission of Bids

591.303 Modification or withdrawal of bids.
591.350 Assistance in preparing bids.
591.351 Copies of bids required in submission.
591.352 Statement of contingent or other fees.

Subpart D—Opening of Bids and Award of Contract

Sec.
591.401 Opening of bids.
591.402 Recording of bids.
591.403 Rejection of bids.
591.404 Minor informalities or irregularities in bids.
591.405 Mistakes in bids.
591.406 Award.
591.406–1 Responsible bidder.
591.406–2 Discounts.
591.406–3 Other factors to be considered.
591.406–4 Equal low bids.
591.406–5 Statement and certificate of award.
591.407 Information to bidders.
591.450 Distribution of bids and abstracts.
591.451 Synopses of awards.
591.452 Protests.
591.453 Cancellation of invitations and readvertisement after opening of bids.

Subpart E—Qualified Products

591.501 Authority for qualified products.
591.504 Qualified products lists.

§ 591.000 *Scope of part.* This part sets forth (a) the basic requirements for the procurement of supplies and services by means of formal advertising, (b) the information to be contained in forms used for the solicitation of bids, (c) methods of soliciting bids, (d) policies with respect to the submission of bids, (e) requirements for the opening and evaluation of bids and for the awarding of contracts, and (f) requirements for the procurement of qualified products.

SUBPART A—USE OF FORMAL ADVERTISING

§ 591.102 *Use of formal advertising.*—(a) *Policy.* During a period of national emergency declared by the President or by the Congress, procurement by formal advertising will continue to be used, as the preferred method of purchasing, except when procurement by negotiation is authorized pursuant to §§ 402.201 of this title and 592.201 of this subchapter. However, as to procurements in the interest of standardization of equipment and interchangeability of parts, see § 591.201 (i).

(b) *Lists of bidders.* Current lists of bidders will be maintained. Requests for inclusion on such lists will receive prompt and courteous attention. Lists of bidders will be maintained in accordance with §§ 401.204 of this title and 591.204 and shall not include the name of any person or firm appearing in the "List of Debarred, Suspended and Ineligible Bidders" (§ 590.601).

(c) *Classified contracts.* Procurements classified as CONFIDENTIAL, or higher, shall not be effected by formal advertising, except when the Head of a Procuring Activity considers this method to be in the interest of the Government.

SUBPART B—SOLICITATION OF BIDS

§ 591.201 *Preparation of forms*—(a) *Prescribed forms.* Forms prescribed for the procurement of supplies by formal advertising are set forth in part 415 of this title and part 605 of this subchapter.

(b) *Invitation for bids number.* Every invitation for bids will be assigned and will contain in the upper right corner (unless otherwise provided for on standard forms)—

(1) The letter symbol of the Procuring Activity followed by a dash.

(2) A number consisting of the station number of the office issuing it, if one has been assigned, a dash.

(3) The last two numerals of the fiscal year in which the invitation is issued, regardless of the fiscal year funds to be expended, a dash.

(4) The serial number of the invitation.

Only one series will be used under any one station number for any Procuring Activity for each fiscal year, and the first invitation issued in each fiscal year will bear 1 as its serial number. Subsequent serial numbers will be assigned consecutively, in their order of issuance. A serial number once assigned to an invitation which has been distributed will not be used in the same fiscal year for any other invitation. For example, the first invitation for bids issued by Philadelphia Quartermaster Depot in the fiscal year 1951 will be numbered QM–36–030–51–1. Other numbers or letters may be prefixed to this number if such action is desired by the Head of a Procuring Activity.

(c) *Discount provisions.* If the discount provisions contained on the prescribed forms are not suitable, the following changes therein may be made:

(1) The discount provision on the bid form relating to "10 calendar days," "20 calendar days," etc., may be deleted whenever it is definitely known that final acceptance cannot be accomplished, or that payment cannot be effected, within the period of time from date of delivery. In order to take advantage of any discounts offered, this authority will be used sparingly. If, for example, commercial practice for a certain class of material is to use a 10-day discount period, the deletion will not be made.

(2) In special cases where a prolonged acceptance test is necessary, and the invitations or specifications set a limiting date for acceptance that is more than 20 days after date of delivery, the provision in the form as to computation of discount time may be changed to read as follows: "Time, in connection with the discount offered, will be computed from the limiting date set herein for final acceptance." When this change is made, the limiting date for final acceptance must be stated in the invitation.

(d) *Place of contract performance.* For the purpose of evaluating bids and for assistance in performing survey, inspection, and expediting functions, every invitation for bids will require bidders to state the location of the manufacturing or processing plant or factory or the warehouse or other establishment from which the supplies are to be furnished. Similarly in the case of services, the location at which the services are to be performed will be shown.

(e) *Delivery clause.* Each Invitation for Bids will contain an appropriate delivery clause suitable to the circumstances involved in the particular procurement.

(f) *Place of delivery.* When transportation costs are important and the exact destination of the supplies being purchased is not known at the time bids are solicited, but the general geographical section in which delivery will be made is known, as East Coast, Middle West, or West Coast, for purposes of evaluation of bids only, a definite place may be designated in the known geographical sector as the point to which transportation costs will be computed in determining the low bidder. In order that prospective bidders may understand the method of evaluation to be used, the following clause should be incorporated in the Schedule:

For the purpose of evaluating bids (and for no other purpose), the final destination(s) for the supplies will be considered to be as follows • • •

(g) *F. o. b. purchase policy.* The policy with respect to the purchase of supplies on an f. o. b. destination or origin basis is set forth in § 400.306 of this title and 590.306 of this subchapter.

(h) *Increase or decrease in specified quantity.* When it is considered necessary, in the interest of the Government, to provide for an increase or decrease in the quantity specified in the invitation, at the option of the Government, the maximum percentage of such increase or decrease shall be specified by the Contracting Officer in the invitation. (See also § 592.158 of this subchapter.)

(i) *Standardization of equipment and interchangeability of parts.* All invitations for bids which contemplate negotiation of future procurements of the same equipment with the successful bidder in the interest of standardization of equipment and interchangeability of parts (see §§ 592.201 and 592.213 of this subchapter) will contain the following additional special provision in the Schedule or on an attached continuation sheet:

STANDARDIZATION OF EQUIPMENT AND INTERCHANGEABILITY OF PARTS

In the event that, after execution of the contract for equipment specified herein, a final determination is made as to the necessity for standardization, the price developed as a result of this procurement will be used as a basis in negotiating subsequent contracts. Such subsequent contracts will contain mutual price protection in the form of standard escalation clauses covering labor and material, OPS ceiling price statement, and equal to best price to any customer warranty.

(j) *Price escalation.* If it is anticipated that some or all of the bidders will respond with bids including escalation provisions, the Invitations for Bids will clearly state the escalation clause (to be selected from those appearing in § 596.151 of this subchapter) which may be used and that will be considered responsive, and will further state that all bids will be evaluated after applying the maximum amount of possible escalation.

§ 591.202 *Methods of soliciting bids*—(a) *Issue of invitations for bids.* Invitations for bids shall be issued by the Contracting Officer charged with the procurement of the supplies involved. When authorized by the Contracting Officer, invitations may be issued by others, but in such cases the award shall be made, and the contract shall be signed by the Contracting Officer.

(b) *Time allowed before opening.* Invitations for bids will, as a rule, allow 30 days to intervene between the date of issuance and the date of opening bids. A shorter period may be allowed, but no period of less than 10 days will be designated, except in case of emergency. The existence of such emergency will be determined by the Contracting Officer, and the copy of the invitation furnished the Procurement Information Center, Office of the Under Secretary of the Army (§ 591.251 (a)), will bear on its face the following certificate and appropriate reasons signed by the Contracting Officer:

I certify that the date shown hereon for the opening of bids cannot be a later date for the following reasons:

§ 591.202–1 *Mailing or delivering to prospective bidders.* (a) The extent of the distribution of invitations for bids to qualified prospective bidders will be determined by the Contracting Officer but must be wide enough to assure full and free competition on all items.

(b) Invitations for bids will not be issued to those firms and persons whose names appear in the "List of Debarred, Suspended, and Ineligible Bidders" (§ 590.601 of this subchapter).

(c) Bidders' lists will contain only the names of persons or firms qualifying as "sources of supply," as defined in § 400.201–9 of this title and § 590.201–9 of this subchapter, and such other persons, firms, and agencies authorized by Subchapter A, Chapter IV of this title, this procedure, or the Assistant Chief of Staff, G–4, Department of the Army (Chief, Purchases Branch).

§ 591.202–4 *Publishing in newspapers.* The publication of essential details of invitations for bids in newspapers as paid advertisements may be authorized, as indicated below, when this is necessary in order to secure effective competition, or in view of the quantity, character, or value of the supplies or services to be procured, and if time will permit.

(a) *Authority.* (1) Authority to approve the publication of paid advertisements in newspapers, magazines, and other periodicals in connection with the dissemination of procurement information (invitations for bids and proposed purchases), recruitment of both military and civilian personnel, and all other forms of advertising authorized by law has been delegated by the Secretary to—

(i) The Under Secretary of the Army.

(ii) The Assistant Chief of Staff, G–4, Department of the Army.

(iii) Chief, Procurement Division, Office of the Assistant Chief of Staff, G–4, Department of the Army.

(iv) Chief, Purchases Branch, Office of the Assistant Chief of Staff, G–4, Department of the Army.

(v) Commanding Generals and their deputies, continental armies, for recruiting purposes only.

(vi) Division Engineers, Corps of Engineers, for civil and military construction only.

Such delegated authority shall not be redelegated.

(2) No advertisement, notice, or proposal shall be published in any newspaper except in pursuance of written authority for such publication from the Secretary or the appropriate official named above, or of a person to whom administrative duties have been duly assigned by the Secretary or the appropriate official named above, and no bill for any such advertising or publication shall be paid unless there be presented, with such bill, a copy of such written authority.

(3) The administrative duties involved in accomplishing such advertising may be assigned by the appropriate official named above to subordinates by name or position (or by name and position, if appropriate) by suitable instruments in writing setting forth the extent of the administrative duties involved and authorized to be performed by or through such subordinates (28 Comp. Gen. 305). Copies of instruments assigning administrative duties hereunder—

(i) Must either be attached to the first voucher submitted for payment and accompany same to the Army Audit Branch, General Accounting Office; or

(ii) Such instruments assigning administrative duties may be forwarded direct to that Branch immediately upon the issuance of same.

(4) Standard Form 1143 (Advertising Order) will be signed by the person to whom authority to advertise has been delegated as indicated in subparagraph (1) of this paragraph, or by the person to whom authority to place the advertising order has been assigned in accordance with subparagraph (3) of this paragraph. When the person signing is acting under an instrument assigning him authority as to administrative duties, reference will be made to the date and number of such instrument of assignment in the box on the standard form to the left of his signature, in addition to the reference to paragraph (a) of this section, delegating authority to advertise by the Secretary in the box in the upper right-hand corner of the form.

(b) *Requests for authority to place advertisements.* (1) Requests for authority to place advertisements in newspapers will be made on DA Form 192 (Request for Authority to Advertise), in accordance with instructions set forth in paragraph (h) (1) of this section, except that in case of emergency, the nature of which will be stated in the request, authority to advertise may be requested directly by telegraph to the proper official, who will, in such cases, secure the necessary coordination with others concerned.

(2) In making application for authority to advertise, those newspapers in which it is deemed advantageous to advertise, will be specified. Due economy will be observed, both as to the number of newspapers and the number of insertions, whether advertising under special or general authority, no greater number being used in any case than may be necessary to give proper and sufficient public notice.

(i) Special authority authorizes the publication of a given advertisement a specified number of times in a designated newspaper or newspapers.

(ii) General authority authorizes the publication during a fiscal year, as designated, of such advertisements for pro-

posals as may be required by the duties of officers engaged in making frequent purchases or contracts.

(3) In all cases, authority to advertise must be secured in advance. Such authority will not be granted retroactively.

(c) *Preparation of advertisements.* (1) Except as provided in subparagraph (2) of this paragraph, all advertisements will be solid line, a sample of which, set up in accordance with usual Government requirements, is shown on Standard Form No. 1143 (Advertising Order).

(2) When advertising to be set other than solid is authorized, care should be exercised to insure that the specifications are definite, clear, and specific since no allowance will be made for paragraphing or for display or leaded or prominent headings, unless specifically ordered, or for additional space required by the use of type other than that specified in the sworn statement of advertising rates on file in the General Accounting Office. Specifications for advertising other than solid will accompany the advertisement copy submitted to the publisher with the advertising order, and copies of both documents will be transmitted to the General Accounting Office with the voucher.

(3) Any unnecessary expense to the Government resulting from failure to observe the requirements of this paragraph may be made a charge against the pay of the officer responsible therefor.

(d) *Insertions and limitations thereon.* (1) Ordinarily advertisements will be given 6 insertions in daily or 4 in weekly papers. When more than 10 days are to intervene between the date of the first publication and the date of opening of bids, those in the daily newspaper inviting bids will be given at once 4 consecutive insertions, and immediately before the date of opening, 2 consecutive insertions. In construction projects, such insertions will be placed in sufficient time prior to the date of opening to allow interested bidders to secure plans and specifications and prepare bids. In case of emergency, advertisements may be given 1 or more insertions, as time and circumstances permit.

(2) No officer will authorize the publication of an advertisement beyond the morning of the day on which the opening of bids is to occur, and no payments will be made for continuing such publication beyond the period authorized.

(e) *Rates.* (1) Advertising may be paid for at a price not to exceed the commercial rates charged to private individuals, with the usual discounts.

(2) All advertising in newspapers, however, shall be audited and paid at rates not higher than those charged the general public; but lower prices may be secured whenever the public interest requires it.

(f) *Proof of publication.* (1) Every account for official advertising rendered should be accompanied by a copy of each issue of the publication in which the advertisement appeared. If copies of the publications are not available, however, it will be satisfactory if an affidavit of publication is furnished in lieu thereof.

(2) Copies of newspapers or affidavits in lieu thereof submitted as proof of publication will not be attached to the original voucher, but will be attached to the duplicate voucher and retained in the disbursing office files until settlement of the Disbursing Officer's account has been effected by the General Accounting Office.

(3) This paragraph shall not be construed to preclude the attaching of the tear sheet to the Public Voucher for Advertising (Standard Form 1144), in the designated place.

(g) *Forms.* (1) DA Form 192 (Request for Authority to Advertise).

(2) The following Standard Forms for Government advertising are hereby prescribed and published for general use, in lieu of all other forms of like character previously used for this purpose:

Standard Form 1143 (Advertising Order).
Standard Form 1143a (Advertising Order—Memorandum).
Standard Form 1144 (Public Voucher for Advertising).
Standard Form 1144a (Public Voucher for Advertising—Memorandum).

(h) *Use of forms.* (1) DA Form 192 (Request for Authority to Advertise) will be prepared in triplicate and forwarded through channels to the appropriate official to whom authority has been delegated by the Secretary to authorize such advertising.

(i) The original of the Authority to Advertise must be filed with the first voucher making payment thereunder. A copy will be filed with the duplicate voucher.

(ii) Reference to the Authority to Advertise will be made, in the space provided for that purpose, on all subsequent advertising orders placed during the period embraced in the authorization.

(2) Standard Form 1143, and memorandum therefor, Standard Form 1143a, are the forms used to place advertisements with the publishers. The qualifications set forth in paragraph (c) of this section, with reference to the composition of advertising copy, should be noted in connection wtih the preparation of this form.

(3) The Public Voucher for Advertising (Standard Form 1144) and memorandum therefor (Standard Form 1144a) will be used by publishers to bill their charges against the Department for advertising published in accordance with the advertising order (Standard Form 1143). The original voucher for advertising (Standard Form 1144) is printed on the reverse of the original advertising order (Standard Form 1143). The memorandum voucher for advertising (Standard Form 1144a) is printed on the reverse of the memorandum advertising order (Standard Form 1143a). In no case will separate instruments be used for the ordering of advertising and the payment therefor. In connection with the use of this form instructions as set forth in paragraph (f) of this section should be followed.

(i) *Payment of accounts.* Upon receipt of Standard Forms 1144 and 1144a, supported by proof of publication, rendered by a publisher, the office placing the advertisement will assemble and attach necessary supporting documents as circumstances dictate, certifying to the second certificate on the original Standard Form 1144, and submit the account in duplicate to the local Finance Officer for prompt payment to the publisher.

§ 591.202–5 *Synopses of invitations for bids.* Synopses of invitations for bids will be prepared by purchasing offices located in the continental United States in accordance with the requirements of § 590.354 of this subchapter.

§ 591.203 *Maintenance and retention of records (Office of Permanent Record)—(a) Preaward transaction file.* (1) Each purchasing office or installation which initates of effects procurement by formal advertising will maintain a master file for each procurement initiated. This file will contain the original or a certified copy of each paper related to the procurement, beginning with the procurement directive or other paper initiating the procurement. The purpose of the file is to provide a complete résumé of the transaction prior to and including the award. This master file will be preserved in the office or installation which initiated the procurement for a period of 6 years following final payment on the contract or contracts entered into under the directive. Exceptions to this requirement will be made only if responsibility for the file is transferred to another office, or, if early retirement or destruction is authorized under the provisions of pertinent special regulations.

(2) In the event the resulting contract or contracts are transferred to other offices or installations for administration, only those records that are necessary for the administration of the contract are required to be forwarded to the administering office or installation. The cover sheet for the contract administration files maintained by the office or installation administering the contract (paragraph (b) of this section) will identify the master file and give the name of the installation where the contract was initiated and where all records not transferred are maintained. Original or authenticated copies of correspondence pertinent to the contract and all required determinations and findings with supporting data such as are involved in awards to other than low bidders, mistake in bid cases, preawards surveys, invitations for bids and abstracts of bids, etc., pertaining to a particular contract will accompany such contract at all times.

(b) *Contract administration file.* Each purchasing office or installation which administers contracts awarded by formal advertising will maintain files which will provide a complete résumé of the administration of each contract. Unless these files are set up on an individual contract basis they must be so organized that they will provide an accurate and complete identification and cross-reference to related files. Upon final payment all papers pertaining to the administration of a particular contract will be consolidated into a single file. This file will be preserved in such office or installation for a period of 6 years following the final payment on the contract unless retired under pertinent special regulations.

§ 591.204 *Bidders' mailing list.* (a) Instructions with regard to the establishment and maintenance of bidders' mailing lists are set forth in § 401.204 of this title.

(b) Standard Form 129 (Bidders' Mailing List Application), and DD Form 558–1 (Bidders' Mailing List Application Supplement), are available for supply from adjutant general publications depots.

§ 591.250 *Identification of specifications.* Each Invitation for Bids shall list for each item included therein the applicable specifications as authorized for procurement in § 590.305 (a) of this subchapter, or will contain a description as provided in § 590.305 (c) of this subchapter. Such reference to specifications shall include the title and symbols, with revision letters if any, and dates, including amendments if any, identified by numbers and dates.

§ 591.251 *Distribution of invitation for bids.* In addition to the distribution of invitations for bids to prospective bidders referred to in § 401.202–1 of this title and § 591.202–1, the following distribution shall be made.

(a) *Procurement Information Center.* One copy of every unclassified Invitation for Bids and one copy of every amendment to an unclassified Invitation for Bids shall be sent on the date issued direct to the Procurement Information Center, Office of the Under Secretary of the Army, Old Post Office Building, Twelfth Street and Pennsylvania Avenue NW., Washington 25, D. C. Letters of transmittal are not necessary. If an invitation is canceled or is substantially changed by the issuance of an amendment which affects specifications, quantity requirements, delivery schedules, qualification of bidders, etc., a complete summary of the reasons for such cancellation or change will be furnished with the copy of the amendment forwarded to the Procurement Information Center. This statement should be detachable from the amendment.

(b) *Equal or identical bids.* See § 591.406–4 (b) for distribution of copies of invitations for bids in connection with the procedure on the submission of information on equal or identical bids.

(c) *Classified purchases.* See §§ 505.5 to 505.12 of subchapter A of this chapter AR 380–5 for instructions as to the distribution of classified documents. In such cases, instead of the action indicated in paragraph (a) of this section, a letter will be forwarded to the office named therein, in substance as follows: This office has issued invitation for bids No. ------, dated ----------, bids to be opened on ----------, under Top Secret, Secret, or Confidential Project No. ------.

(d) *Other internal distribution.* Heads of Procuring Activities may direct such additional internal distribution of invitations for bids as may be considered necessary.

§ 591.252 *Amendments to invitations for bids.* (a) Amendments to Invitation for Bids must be distributed to all recipients of the invitation, and such amendments shall provide that bidders are to sign and return the amendments prior to the opening of the bids. The date set for opening of bids shall be postponed when necessary to afford bidders sufficient time to return the amendments.

(b) Any information given to a prospective bidder on an Invitation for Bids shall be furnished promptly to all other prospective bidders as an amendment to the invitation if such information is necessary to bidders in submitting bids on the invitation, or if lack of such information would be prejudicial to uninformed bidders. No awards shall be made on the invitation unless such amendment has been issued in sufficient time to permit all prospective bidders to consider such information in submitting or modifying their bids.

(c) Amendments, if issued, will refer to the number, date of issue, and opening date of the original invitation, will clearly indicate the nature of the changes made therein, and will be numbered serially as issued. For example, the first amendment would be "Amendment 1."

SUBPART C—SUBMISSION OF BIDS

§ 591.303 *Modification or withdrawal of bids.* Where written notice of withdrawal or modification of a bid is received after the time fixed for the opening of bids, proper cases may be processed under the authority of Title II, First War Powers Act, 1941, as amended and Subpart D, Part 606 of this subchapter.

§ 591.350 *Assistance in preparing bids.* Persons employed by or serving with the Army Establishment will not under any circumstance render assistance to bidders in the preparation of bids.

§ 591.351 *Copies of bids required in submission.* Bidders will be required to submit a sufficient number of signed copies of their bids to meet the requirements for distribution of "signed numbers" of contracts as set forth in § 606.206 of this subchapter.

§ 591.352 *Statement of contingent or other fees.* The prescribed procedure with respect to obtaining information concerning contingent or other fees paid by bidders or Contractors for soliciting or securing Government contracts, including the use of Standard Form 119 (Contractor's Statement of Contingent or Other Fees for Soliciting or Securing Contract), is set forth in Subpart E, Part 400 of this title and Subpart E Part 606 of this subchapter.

SUBPART D—OPENING OF BIDS AND AWARD OF CONTRACT

§ 591.401 *Opening of bids.* (a) All bids received prior to the time of opening will be kept in a locked safe, locked file cabinet, or locked bid box, and necessary precautions will be taken to insure the security of the receptacle used for this purpose.

(b) The Contracting Officer will decide when the specified time has arrived. He then will personally and publicly open all bids received and, when practicable, read them aloud to the persons present.

(c) The Contracting Officer will personally number one copy of each bid received, serially, in the order in which the bids are read, and will retain these numbered copies in his possession until the accuracy of the abstract has been verified.

(d) The procedure described in paragraphs (b) and (c) of this section may be delegated to an assistant, provided that the Contracting Officer retains full responsibilities for the actions of his subordinates.

(e) Pertinent questions asked at the opening will be fully answered, and the examination of bids by interested persons will be permitted as set forth in § 401.401 of this title, provided such action does not unduly interfere with the conduct of Government business..

(f) The opening of classified bids shall not be accessible to the general public. However, such opening may be witnessed and the results recorded by those suppliers' representatives who have been previously cleared from a security standpoint, if the supplier concerned submitted a bid. The bids shall be made available only to those persons authorized to attend the opening of the bids.

§ 591.402 *Recording of bids—(a) Procedure.* Only approved abstract of bids forms will be used for the recording of bids. For every invitation for bids, an abstract of bids form will be prepared as soon as practicable after bids have been opened or as soon as it is decided to cancel the invitation before opening bids. Since the copy of the abstract furnished to the Office of the Under Secretary of the Army Procurement Information Center, is exhibited to the public, care will be exercised in making the entries on that copy. Information, such as debarment, irresponsibility, or apparent collusion of bidders, will not be entered on the abstract of bids, but will be the subject of a separate classified communication, addressed to the Under Secretary of the Army, Procurement Information Center, through the Assistant Chief of Staff, G–4, Department of the Army.

(b) *Certification of abstract.* (1) The person opening the bids will—

(i) Verify the accuracy of the abstract by comparing it with the numbered copies of the bid retained by him, and

(ii) Sign the certificate on the abstract that he had personally opened and read all bids and that he has verified the abstract and found it correct.

(2) The Contracting Officer canceling the invitation, making the awards, or rejecting the bids will sign the appropriate certificate on the abstract as to the action taken by him.

(c) *Classified bids.* The record made of classified bids shall not be made available to the general public.

§ 591.403 *Rejection of bids.* (a) *Failure to conform to essential requirements of invitation.* Any bid which fails to conform to the essential requirements of the Invitation will be rejected, provided that any such bid may be considered when in the interest of the Government and not prejudicial to the other bidders.

(b) *Insertion of improper restrictions or conditions.* Restrictions or conditions in bids which ordinarily require their rejection are those where the bidder (1)

attempts to protect himself against future changes in conditions, such as increased costs, to the extent that the total possible cost to the Government cannot be determined, or (2) attempts to limit his liability. To allow the bidder to impose such conditions would make the obligation of the Government uncertain or indefinite and would be prejudicial to other bidders. A low bidder may be requested to delete objectionable conditions from his bid, provided the conditions do not go to the substance, as distinguished from the form, of the bid, or work an injustice to other bidders. A deviation goes to the substance of a bid when it affects either the price, quantity, or quality of the articles offered. Deviations which may be deleted are those matters of form or immaterial variations from the exact requirements of the specifications as would not affect either the price, quality, or quantity of the articles offered. If a bid fails to state a price and in lieu thereof states that the price shall be "price in effect at time of delivery," or if a bid states a price but qualifies the stated price as being subject to "price in effect at time of delivery" and does not specifically limit the ultimate price to the Government, it shall be rejected; provided that, if such qualification is caused solely by language on a printed form as described in § 591.404, the bidder may be given the opportunity to state whether or not such qualification was intended. (See § 596.151 of this subchapter and § 591.406 with respect to the use of price escalation in procurements effected by formal advertising.)

(c) *Failure to conform to specifications.* Any bid which does not conform to the specifications shall be rejected unless the supplies offered are similar and equal to those specified in the Invitation. Bids offering supplies not similar and equal to those specified shall be rejected as consideration of such bids would be prejudicial to other bidders. If the results of the bidding indicate that the needs of the Government can be met by a less expensive article with different specifications, all bids for the item should be rejected and the requirement readvertised with appropriately revised specifications.

(d) *Failure to conform to delivery requirements.* A bid will not be rejected for failure to conform to the delivery requirements of the Invitation for Bids unless (1) the Invitation states that time of delivery is an important factor and will be considered in making the award or (2) the Contracting Officer determines that the delivery offered will not meet the needs of the Government or (3) the bid offers an indefinite and uncertain delivery, such as, "60 days after receipt of raw materials."

(e) *When in interest of Government.* All bids for any one item or for all items may be rejected if the Contracting Officer finds that such rejection is in the interest of the Government. Typical cases are those where (1) it is determined, prior to award, that the supplies are no longer required, (2) it appears that the specifications should be revised, or (3) the Invitation did not provide for consideration of all factors of cost to the Government.

(f) *Unreasonable bids.* Bids may be rejected if the Contracting Officer finds in writing that such bids are not reasonable. The Contracting Officer may make partial award to low bidders whose prices are considered reasonable and reject all other bids as unreasonable.

(g) *Collusive bids.* The Contracting Officer may reject all bids when he determines that the bids were not independently arrived at in open competition, or are collusive, or were submitted in bad faith; and he shall report such bids through channels to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch. (See § 591.406–4 (b).)

(h) *Ineligible bidders.* See § 590.601 of this subchapter.

(i) *Not responsible bidders.* (1) The lowest bid as to price may be rejected by the Contracting Officer if the bidder is determined to be not responsible. For the elements to be considered in determining responsibility, see § 590.357 of this subchapter.

(2) Prior to rejecting the lowest bid when it has been received from a firm believed not to be a source of supply, as defined in § 400.201–9 of this title and § 590.201–9 of this subchapter, a request will be submitted to the Head of the Procuring Activity concerned for (i) a review of the facts and (ii) authority to reject the bid on the basis that the bidder does not qualify as a "source of supply." In forwarding such requests, Contracting Officers will be careful to verify all statements contained therein which are given as the basis for rejection, in order that there may be no just cause for complaint.

(j) *Notification of rejection of all bids.* When it has been decided to reject all bids and the lowest bid received is in excess of $25,000, the Contracting Officer will, if otherwise expedient, notify each bidder of the fact that all bids have been rejected and the reason for such action.

§ 591.404 *Minor informalities or irregularities in bids.* (a) Suppliers frequently submit with their bids additional information on letterheads or other forms which incorporate printed terms and conditions used by the supplier in his commercial business. These printed terms and conditions are very often in conflict with the General Provisions or may contain language affecting bid prices. Unless it clearly appears on the face of the bid that such terms and conditions are intended to be a part of the bid, the bidder shall be given an opportunity to state whether or not they are so intended. If the bidder submits a written statement that such terms and conditions were not intended to form a part of the bid, they may be disregarded in considering the bid.

(b) A bidder failing to furnish, (1) information regarding his aggregate number of employees, (2) his status as a source of supply as defined in § 400.201–9 of this title and § 590.201–9 of this subchapter, or (3) the place of manufacture of the supplies being purchased, will be permitted to make such representations after the bid opening but prior to award.

§ 591.405 *Mistakes in bids*—(a) *Submission to higher authority.* (1) Cases referred to in § 401.405–2 of this title will be forwarded direct, without routing through intermediate channels, to the Assistant Chief of Staff, G–4, Department of the Army, Washington 25, D. C., Attn.: Chief, Purchases Branch. Cases referred to in § 401.405–3 of this title will be forwarded through normal channels (except that a direct submission may be made in cases requiring expeditious action), to the Assistant Chief of Staff, G–4, Department of the Army, Attn.: Chief, Purchases Branch.

(2) In cases where a time element is involved with respect to the necessity of immediate purchase, limited time allowed for acceptance of other bids, or other circumstances require such prompt action as to preclude the presentation of the matter by mail, Contracting Officers will use telegraphic, telephonic, or radio means, furnishing so far as possible in the statement of the case the information prescribed in § 401.405–2 of this title.

(3) The Contracting Officer's statement of findings and recommendations required under provisions of § 401.405–2 (b) (iv) of this title will be submitted to reach the Assistant Chief of Staff, G–4, Department of the Army, Washington 25, D. C., Attn.: Chief, Purchases Branch, in duplicate.

(4) The status of contract awards and performance is an essential consideration in determining appropriate action in mistake in bid cases. Accordingly, the Contracting Officer's statement, or other papers in the file, will clearly indicate whether or not an award has been made for the supplies involved in an alleged mistake in bid; and in the event an award has been made, the status of performance and payments under the contract will be shown.

(b) *Instructions to Contracting Officer.* Instructions will be issued by the Assistant Chief of Staff, G–4, to the Head of the Procuring Activity, except that Contracting Officers may be notified direct in cases requiring expeditious action. Where deemed necessary or advisable by the Chief, Purchases Branch, Assistant Chief of Staff, G–4, individual cases, prior to the issuance of instructions, will be referred (through the Chief of Finance) to the Comptroller General for decision. Contracting Officers will not request decisions direct from the Comptroller General or prepare drafts of letters for submission to that official.

(c) *Reports by Contracting Officer*—(1) *To Head of Procuring Activity.* Reports of all actions taken and copies of all papers forwarded to the Assistant Chief of Staff, G–4, will be forwarded to the Head of the Procuring Activity concerned.

(2) *To Disbursing Officer.* The Contracting Officer will furnish a copy of such resulting instructions as he may receive, or copy of the decision of the Comptroller General, if any, to the Disbursing Officer making payments under the contract, in order that such instructions or decisions may be used by the Disbursing Officer in support of any payment made by him. In addition, the decision of the Comptroller General will also be cited by number and date on the copy of Standard Form 1036 or a copy of the decision securely attached to the form.

(3) *Standard Form 1036.* In the event of award involving a mistake in bid, the Statement and Certificate of Award (Standard Form 1036) will contain the information prescribed in § 591.406–5 (a) of this subpart.

(d) *Cases processed under First War Powers Act.* Cases processed under the authority of Title II of the First War Powers Act, 1941, as amended, will be governed by subpart D, Part 606 of this subchapter.

§ 591.406 *Award*—(a) *Making the award.* When a Contracting Officer has invited and received bids, he will make the award and execute the necessary papers, unless all bids are rejected. If an award requires the approval of higher authority, the award will not be made until such approval has been obtained.

(b) *Price escalation.* (1) If the invitation for bids specifies the escalation clause that will be considered responsive, bids containing such provision will be evaluated by applying the maximum amount of escalation, and award will be made to the bidder whose maximum price is lowest to the Government, provided the bid is otherwise responsive to conditions of the invitation.

(2) If the invitation for bids is silent on the matter of escalation, bids may not be rejected solely on the basis of inclusion of an escalation article; evaluation will be performed in the manner prescribed in paragraph (b) (1) of this section. Authority for use of clauses other than those appearing in § 596.151 of this subchapter must be received from Assistant Chief of Staff, G–4. In those instances where bidders respond with different types of escalation clauses and it is impossible to evaluate the bids adequately, the bids should be rejected and readvertisement effected with the invitation for bids containing an escalation article appearing in § 596.151 of this subchapter.

(c) *Delivery a factor.* If time of delivery is an important factor in effecting the procurement of a required item, the invitation for bids will so state and delivery terms quoted in the bids will be considered in making the award. If the invitation for bids specified that delivery would be a factor in making award and if award is made to other than the lowest otherwise acceptable bidder, based on a shorter time for delivery, the formal award will state the successful bidder's delivery time and the price and delivery time of the lowest otherwise acceptable bidder.

§ 591.406–1 *Responsible bidder.* If the low bidder's qualifications to perform the proposed contract are not known to the Contracting Officer, the bidder's qualifications should be checked and if found unsatisfactory, award should not be made. Qualification checks should consist of both financial and technical evaluation of a supplier's capacity to perform the contract successfully. See also in this connection § 590.357 of this subchapter as to the policy of the Department of the Army with respect to the selection of Contractors.

§ 591.406–2 *Discounts.* Even in those cases, as set forth in § 401.406–2 of this title, where the discount is disregarded in the evaluation of bids, the award will state the discount offered as well as the bid price, in order that the Government may take the discount if payment is made within the time specified.

§ 591.406–3 *Other factors to be considered.* When the Contracting Officer determines that an award to other than the lowest responsible bidder would be more advantageous to the Government after a consideration of factors other than price, he will make a full statement in writing of the facts and circumstances and of the reasons for the action taken. The statement made by the Contracting Officer on Standard Form 1036 will ordinarily be considered sufficient for this purpose unless the circumstances of the case indicate that a fuller documentation, complete with all supporting evidence, should be made for the file.

§ 591.406–4 *Equal low bids*—(a) *Witnesses of drawing by lot.* In the event award is made by a drawing by lot, the names and addresses of the three witnesses and the person supervising the drawing shall be placed on all copies of the abstract of bids.

(b) *Submission of information on equal or identical bids.* (1) Whenever identical or equal bids are received pursuant to formal advertising by any purchasing office located within the continental United States, its Territories, and possessions, and, in the opinion of the Contracting Officer, are indicative of collusive bidding, follow-the-leader pricing, related low bids, division of business, uniform estimating systems, or other practices designed to eliminate competition or to restrain trade, one copy of each of the following documents will be furnished to the Office of the Under Secretary of the Army, Attn: Assistant Judge Advocate General: Invitation for Bids; Abstract of Bids; the bid(s) of the Contractor(s) suspected of irregular practices; copies of the notice of award, if any, to any such bidder(s); and any other facts or pertinent information available which might tend to establish possible violation of the antitrust laws.

(2) Reports transmitting the above documents will be in triplicate and will contain a summary of the pertinent facts concerning each case reported.

§ 591.406–5 *Statement and certificate of award.* (a) Where an award involves a mistake in bid and the matter has been resolved by administrative action, Standard Form 1036 will be accompanied by a copy of the resulting instructions as received in the premises, together with other documents as prescribed in § 401.405–2 of this title.

(b) Where an award involves a mistake in bid on which the Comptroller General has rendered a decision, Standard Form 1036 will contain a citation by number and date of the decision or a copy thereof securely attached to the form.

§ 591.407 *Information to bidders*—(a) *Unclassified awards.* In the case of all unclassified formally advertised contracts, the purchasing office will (1) notify unsuccessful bidders of the fact that their bids were not accepted, and (2) extend the appreciation of the purchasing office for the interest the unsuccessful bidder has shown in submitting a bid. Should additional information be sought, purchasing offices will either (3) provide the unsuccessful bidder with the name and address of the successful bidder, together with the contract price, or (4) inform the inquirer that a copy of the Abstract of Bids is available for inspection at the purchasing office or at the Procurement Information Center, Washington, D. C., in the event this latter location is more convenient from a geographical viewpoint than the purchasing office. (See 591.450 (c).)

(b) *Classified awards.* In the case of all classified formally advertised contracts, the purchasing office will (1) notify unsuccessful bidders of the fact that their bids were not accepted, and (2) extend the appreciation of the purchasing office for the interest the unsuccessful bidder has shown in submitting a bid. Information with respect to the name of the successful bidder and the contract price will be furnished only to properly cleared representatives of unsuccessful bidders and then only upon written request. This information may be furnished direct to the bidders concerned. No information regarding a classified opening may be furnished by telephone.

(c) *Limitation.* (1) The procedures set forth above are not intended to apply to requests for general information as to purchases made over extended periods of time, such as one for information as to the number of parachutes purchased during a year and the price paid therefor. Such requests will be returned and the inquirer informed that it is not the policy of the Army Establishment to compile and disseminate such information.

(2) Mailing lists will not be established whereby certain addresses other than those prescribed in this Procedure will receive automatically information on all awards, or all information on awards in certain commodity fields.

(d) *Synopses of awards.* Procedures for the preparation and dissemination of synopses of awards are set forth in § 591.451.

§ 591.450 *Distribution of bids and abstracts*—(a) *Contracting Officer.* The original of all rejected and unsuccessful bids, a copy of the accepted bid, and a copy of the abstract of bids will be retained by the Contracting Officer. All rejected bids will be kept available for inspection by the duly authorized representatives of the General Accounting Office and will be forwarded to that office upon request therefor, when required in individual cases.

(b) *Head of Procuring Activity.* Abstracts and copies of bids will be forwarded to the Head of the Procuring Activity concerned only when specifi-

cally directed by him or when required by the instructions of the Procuring Activity.

(c) *Procurement Information Center.* (1) Within 3 days after bids have been opened and final action taken thereon, a copy of the abstract of bids will be mailed to the Procurement Information Center, Office of the Under Secretary of the Army, Old Post Office Building, 12th Street and Pennsylvania Avenue NW., Washington 25, D. C.

(2) If it is decided to cancel an invitation before the opening of bids, the Procurement Information Center will be advised of the cancellation by letter, amendment to the invitation, or telegram.

(3) If all bids received are rejected, a complete summary of the reasons for such rejection will be furnished with the copy of the abstract of bids forwarded to the Procurement Information Center. This statement will be detachable from the abstract of bids.

(4) In addition, each Abstract of Bids forwarded to the Procurement Information Center will contain: (i) the date of final action in making the award, and (ii) this purchase order or contract number and date resulting from the advertisement.

(5) A postcard delay notice containing the invitation number, opening date, and estimated time delay in final award shall be forwarded to the Procurement Information Center when the purchasing office is certain an award will not be made within 60 days of the opening date.

(d) *General Accounting Office.* (1) The original of the accepted bid will be attached to the signed number of the contract or award intended for the General Accounting Office.

(2) Where the lowest bid as to price is accepted; i. e., where the lowest bidder is determined from the price alone, no offsetting or equalizing elements being for consideration, and when a certificate (on reverse of Standard Form 1034, or Standard Form 1036, as the case may be) to that effect is furnished by a responsible administrative officer having personal knowledge of the facts, neither the rejected bids nor an abstract of the bids need be forwarded to the General Accounting Office with the contract. When the abstract of bids is not furnished to that office, the items accepted on any particular bid will be indicated on the original number of the bid which is to be furnished to that office.

(3) In all cases where other than the lowest bid as to price is accepted, there will be furnished the General Accounting Office on Standard Form 1036 (Statement and Certificate of Award) a detailed statement giving in full the reasons for the acceptance thereof, together with an abstract of all bids lower than the one accepted.

(e) *Extra copies of bids.* (1) Signed copies of bids not needed to comply with the foregoing requirements may be destroyed.

(2) If all bids are rejected, all but one original signed number of each bid may be destroyed.

§ 591.451 *Synopses of awards.* Synopses of awards of formally advertised contracts will be prepared and distributed as required by § 590.355 of this subchapter.

§ 591.452 *Protest.* Protests or objections by bidders, or others having a legitimate interest, to action taken or to be taken by a Contracting Officer in connection with a particular procurement will be settled by the Contracting Officer subject to such limitations as may be imposed by the Head of the Procuring Activity concerned and subject to the following instructions:

(a) Where protest is made prior to making awards, the award will not be made pending resolution of the protest, except that awards may be made in such cases where the items to be procured are urgently required, delivery will be unduly delayed or it is otherwise in the best interests of the Government.

(b) Where in the opinion of the Contracting Officer it is desirable and in the best interests of the Government, the Contracting Officer will submit the protest to higher authority for final resolution.

(c) Where the person making the protest has indicated he intends to carry the protest to a certain higher level of authority, the Contracting Officer will submit the protest through channels to the indicated level of authority for final resolution.

(d) Where a protest affects or involves another bidder or any other person, the Contracting Officer will give prompt notice of the protest to such parties, where feasible or desirable, in order that, if the concerned parties so desire, they may take action or offer a statement or evidence in their own behalf.

(e) Protests submitted for final resolution to levels of authority higher than the Head of a Procuring Activity will be forwarded to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch.

(f) In submitting protests to higher authority, the Contracting Officer will forward a completely documented case, including the following:

(1) A signed statement from the person making the protest setting forth the complete facts on which the protest is based together with any additional supporting evidence.

(2) A signed statement, when relevant, from other persons or bidders affected by or involved in the protest, setting forth the complete facts with respect to their position in the matter, together with any additional supporting evidence.

(3) A copy of the bid of the protesting bidder and a copy of the bid of the bidder to whom award has been made or who is being considered for award, if relevant to the protest.

(4) A copy of the invitation for bids including, where practicable, pertinent specifications, if relevant to the protest.

(5) A copy of the abstract of bids.

(6) Any other documents which are relevant to the protest.

(7) A signed statement from the Contracting Officer setting forth his findings, actions, and recommendations in the matter, together with any additional information and evidence deemed to be necessary in determining the validity of the protest.

(g) Protest cases submitted by Contracting Officers to higher levels of authority for forwarding to the Chief, Purchases Branch, Office of the Assistant Chief of Staff, G–4, Department of the Army will contain the recommendations of such intervening levels of authority through which the protest is transmitted.

§ 591.453 *Cancellation of invitations and readvertisement after opening of bids.* (a) To aid in maintaining the integrity of the competitive bid system in procurement by formal advertising, invitations for bids normally shall not be canceled and readvertised after bids have been opened, since such a procedure discloses the offers of all bidders and may be prejudicial to all bidders, particularly to the low bidder.

(b) Exceptions to this general rule may be made in certain instances, such as, change in specifications after opening of the bids or a determination that a substitute item will best meet the needs of the Government.

(c) As a general rule, invitations for bids should not be canceled and readvertised after the bids have been opened solely because of an increase in the quantity required. In such a case, award should ordinarily be made on the original invitation, and the additional quantity should be treated as a new procurement.

(d) In the event of a change in specifications or conditions of the invitation, prior to the date of opening of bids, the invitation should be amended rather than be canceled with subsequent readvertisement. In such instances, the date of opening of bids should be extended sufficiently so that all bidders may have adequate opportunity to examine the amended requirements and submit their bids.

SUBPART E—QUALIFIED PRODUCTS

§ 591.501 *Authority for qualified products.* Requirements for qualification of products may be established in a specification whenever one or more of the conditions listed in § 401.502 of this title exists.

§ 591.504 *Qualified Products Lists.* Military Qualified Products Lists for items covered by Military Specifications containing qualification testing requirements will be subject to the provisions in Subpart E of Part 401 of this title, and the Military Manual for Qualified Products Lists, except that in the case of Military Qualified Products Lists for products covered by Limited Coordination Military Specifications the following will apply:

(a) *Maintenance, reproduction, and distribution of lists.* The Standards Branch, Assistant Chief of Staff, G–4, Department of the Army, will maintain a file of approved Military Qualified Products Lists for reference and informational purposes. The reproduction and distribution of Military Qualified Products Lists for Military Specifications, including changes thereto, will be made by the activity having custodianship of the specification concerned. Lists of products, amendments, or revisions shall not be distributed until approval has been obtained from the Assistant Chief of Staff, G–4 (Chief, Standards Branch).

(b) *Approval of lists.* The custodian technical service of a Limited Coordination Military Specification containing qualification testing requirements will forward duplicate copies of proposed lists of those products which have been tested and found to meet the qualification requirements of the applicable specifications and amendments or revisions thereof to the Assistant Chief of Staff, G–4, Attn: Chief, Standards Branch, for approval.

PART 592—PROCUREMENT BY NEGOTIATION

Sec.
592.000 Scope of part.

Subpart A—Use of Negotiation

592.101 Negotiation as distinguished from formal advertising.
592.102 General requirements for negotiation.
592.103 Records and reports of negotiated contracts.
592.150 Release of price information and notification to unsuccessful suppliers.
592.151 Synopses of proposed procurements and awards.
592.151–1 Synopsis of proposed procurements.
592.151–2 Synopsis of awards.
592.152 Statement of contingent or other fees.
592.153 F. o. b. purchasing policy.
592.154 Small business.
592.155 Qualified products.
592.156 Awards; selection of contractors.
592.157 Submission of information on equal or identical bids.
592.158 Increase or decrease in specified quantity.

Subpart B—Circumstances Permitting Negotiation

592.201 National emergency.
592.201–2 Application.
592.202 Public exigency.
592.202–2 Application.
592.202–3 Limitation.
592.203 Purchases not in excess of $1,000.
592.203–2 Application.
592.204 Personal or professional services.
592.204–2 Application.
592.205 Services of educational institutions.
592.205–2 Application.
592.206 Purchases outside the United States.
592.206–2 Application.
592.207 Medicines or medical supplies.
592.207–2 Application.
592.208 Supplies purchased for authorized resale.
592.208–2 Application.
592.209 Perishable subsistence supplies.
592.209–2 Application.
592.210 Supplies or services for which it is impracticable to secure competition by formal advertising.
592.210–2 Application.
592.210–3 Limitation.
592.211 Experimental, development, or research work.
592.211–3 Limitation.
592.211–4 Records and reports.
592.212 Classified purchases.
592.212–2 Application.
592.213 Technical equipment requiring standardization and interchangeability of parts.
592.213–2 Application.
592.213–3 Limitation.
592.214 Technical or specialized supplies requiring substantial initial investment or extended period of preparation for manufacture.
592.214–2 Application.
592.214–3 Limitation.
592.215 Negotiation after advertising.
592.215–2 Limitation.
592.216 Purchases in the interest of national defense or industrial mobilization.
592.216–2 Application.
592.216–4 Records and reports.
592.217 Otherwise authorized by law.
592.217–2 Application.
592.218 Construction work.
592.250 Summary table.
592.251 Title II, First War Powers Act, 1941, as amended.

Subpart C—Determinations and Findings

592.301 Nature of determinations and findings.
592.302 Determinations and findings by the Secretary.
592.303 Determinations and findings by the Head of a Procuring Activity signing as "a Chief Officer Responsible for Procurement."
592.304 Determinations and findings by a Contracting Officer.
592.305 Forms of determination and findings.
592.306 Procedure with respect to determinations and findings.
592.307 Distribution of copies of determinations and findings.
592.308 Maintenance and retention of records (retention of determinations and findings and of other records).

Subpart D—Types of Contracts

592.401 Authorized types of contracts.
592.402 Fixed-price contract.
592.403 Fixed-price contract with provision for redetermination of price.
592.405 Cost contract.
592.406 Cost-plus-a-fixed-fee contract.
592.407 Time and materials contract.
592.408 Letter contract.
592.408–50 Approval requirement.
592.408–51 Redelegation of authority.
592.408–52 Supersedure by definitive contract.
592.408–53 Conditions for use.
592.408–54 Information to be furnished when requesting approval of letter contracts.
592.408–55 Approval for modification of letter contracts.
592.409 Other types of contracts.

Subpart E—Advance Payments

592.502 Authority to make advance payments.
592.503 Limitations on authority to make advance payments.
592.504 Security provisions.
592.505 Interest on advance payments.
592.506 Reports.
592.550 Contract clauses.
592.551 Uncollected balances.

Subpart F—Small Purchases

592.601 Purpose.
592.602 Policy.
592.604 Imprest fund.
592.605 Order-invoice-voucher method (Standard Form 44).
592.605–1 Limitations on use.
592.605–2 Examples of use.
592.605–50 Instructions for use.
592.605–51 Preparation.
592.605–52 Record of purchases for the ordering officer.
592.605–53 Check purchase method.
592.605–54 Forms; Standard Form 44.
592.605–55 Flow charts.
592.606 Blanket purchase order method.
592.607 Use of DD or departmental procurement forms.
592.650 Order and voucher for purchase of supplies or services (DD Form 738).
592.650–1 Use of DD Form 738 as a purchase order.
592.650–2 Use of DD Form 738 as a delivery order.
592.650–3 Use of DD Form 738 as a receiving and inspection report.
592.650–4 Use of DD Form 738 as a vendor's invoice.
592.650–5 Use of DD Form 738 as a voucher.
592.650–6 Distribution of copies of DD Form 738.
592.650–7 General instructions.
592.650–8 Use of master mats.
592.650–9 Additional instructions.
592.650–10 Flow charts.
592.651 Applicability to oversea commands.
592.652 Local procurement.

§ 592.000 *Scope of part.* This part sets forth policies and procedures for the procurement of supplies and services by means of negotiation.

SUBPART A—USE OF NEGOTIATION

§ 592.101 *Negotiation as distinguished from formal advertising—*(a) *Competition.* The fact that a procurement is to be negotiated does not relax the requirements for competition. When supplies or services are to be procured by negotiation and when consistent with the accomplishment of procurement objectives, quotations or proposals will be solicited from all such qualified sources of supplies (as defined in § 400.201–9 of this title and § 590.201–9 of this subchapter) or services as are deemed necessary to insure effective competition in order that the procurement be made to the best advantage of the Government, price and other factors considered, in accordance with the basic policies set forth in Subpart C, Part 400, of this title and Subpart C, Part 590, of this subchapter. Competition is not necessary in contracting for personal or professional services.

(b) *Conduct of negotiations.* Procurement by negotiation is less automatic than, and does not have the rigid limitations of, formal advertising bid, and award procedures; it allows to a greater extent than formal advertising the exercise of sound business judgment but in no way decreases the responsibility for properly protecting the interests of the Government.

(1) Contracting Officers should conduct contract negotiations to the best advantage of the Government. They may bargain with any number of interested suppliers at any time prior to the award of a contract, as deemed desirable and practicable. After receipt of the initial proposals, separate negotiations may be conducted with any source of supply submitting an offer. The contract should be placed with the supplier making the best final proposal and who has the requisite ability to perform.

(2) Negotiation in accordance with the provisions of § 592.101 will be accomplished to the end that maximum pricing benefits from all negotiated transactions

may be realized. Benefits are obtainable through complete negotiation of transactions, particularly when one or several of the proposals indicate, or it is otherwise evident, that further negotiation may result in better pricing. During negotiations potential suppliers must be informed of the provisions which will appear in the contract to be executed. (See also § 402.401 of this title and § 592.401.)

(3) During the negotiation of contracts, simultaneous coordination, to the greatest practical extent, shall take place among the contracting, technical, cost analyzing, legal, and industrial planning personnel. Instructions to be followed by negotiating teams will be prepared with full coordination of traffic analysts in procuring offices, and such teams will be directed to seek traffic management advice upon the appearance of new traffic elements (such as change in shipping points, specifications, etc.) in the negotiations.

(4) Approval signatures on contracts or purchase authorizations (e. g., procurement directives, requisitions, etc.). shall be minimized to the greatest practical extent and, in the event that multiple approval signatures are required, they shall, where possible, be obtained concurrently.

(5) Although all matters of substance should be resolved in the contract resulting from a completed negotiation, it may be appropriate, in the course of a protracted negotiation, if production is urgent, to issue a preliminary Letter Contract in accordance with § 592.408, the ultimate complete agreement being incorporated in the resulting definitive contract.

(6) An informal record indicating the firms or persons invited to submit proposals and the quotations offered by those submitting proposals will be retained in the files of the Contracting Officer.

(c) *Requests for proposals.* (1) When a procurement of supplies or services is to be announced in writing to prospective contractors for the purpose of requesting quotations and other terms as a basis for conducting negotiations, Contracting Officers will use DD Form 747 (Request for Quotations) or a request similar to DD Form 746 (Request for Proposals and Proposal). See §§ 415.012 and 415.013 of this title.

(2) Requests for proposals should contain substantially the same information as required for Invitations for Bids as set forth in § 401.201 of this title, except when inapplicable to negotiated procurements. They should also state that the Government reserves the right to reject all quotations received.

(3) Invitation for Bids forms used in formal advertising, such as Standard Forms 30 and 33, will not be used in procurement by negotiation for the purpose of soliciting quotations or proposals.

(4) Each written request for proposals should list for each item included therein the applicable specifications as authorized for procurement in § 590.305 (a) of this subchapter or will contain a description as provided in § 590.305 (c) of this subchapter. Such reference to specifications will include the title and symbols, with revision letters if any, and dates, including amendments if any, identified by numbers and dates.

§ 592.102 *General requirements for negotiation.* No contract shall be entered into as a result of negotiation unless or until the following requirements have been satisfied:

(a) The contemplated procurement comes within one of the circumstances permitting negotiation enumerated in subpart B, Part 402, of this title, or has been approved by the authority required in subpart D, Part 606, of this subchapter.

(b) Any necessary determinations and findings prescribed in subpart C, Part 402 of this title, and, either subpart C, Part 592 or subpart D of Part 606 of this subchapter, have been made.

(c) Such clearances or approvals have been obtained as are prescribed by this Procedure and applicable Procuring Activity instructions. (See § 606.204 of this subchapter.)

(d) The requirements of § 590.403 of this subchapter have been satisfied.

§ 592.103 *Records and reports of negotiated contracts.* Report required by § 402.103 of this title will be made in the form and manner prescribed in subpart C, Part 606, of this subchapter.

§ 592.150 *Release of price information and notification to unsuccessful suppliers.* (a) In the case of all unclassified negotiated contracts, except for procurements of $1,000 or less, the purchasing office will notify unsuccessful suppliers who submitted quotations of the fact their proposals were not accepted and extend the appreciation of the purchasing office for the interest the unsuccessful supplier has shown in submitting a proposal or quotation. Should additional information be sought by suppliers who submitted quotations, purchasing offices will furnish the name and address of the successful supplier and the actual or approximate contract price, if practicable, but, as a general rule, will not reveal the names of other unsuccessful suppliers or the amounts and conditions of their quotations.

(b) In no event shall cost breakdowns or other cost or profit information submitted by any supplier be revealed to any other supplier.

(c) Classified information concerning a negotiated contract will not be furnished by telephone.

§ 592.151 *Synopses of proposed procurements and awards.*

§ 592.151–1 *Synopsis of proposed procurements.* Synopses of proposed negotiated procurements will be prepared by purchasing offices located in the continental United States in accordance with the requirements of § 590.354 of this subchapter.

§ 592.151–2 *Synopsis of awards.* Synopses of contract awards of negotiated contracts will be prepared and distributed as required by § 590.355 of this subchapter.

§ 592.152 *Statement of contingent or other fees.* The prescribed procedure with respect to obtaining information concerning contingent or other fees paid by suppliers or contractors for soliciting or securing Government contracts, including the use of Standard Form 119 (Contractor's Statement of Contingent or Other Fees for Soliciting or Securing Contract) is set forth in Subpart E, Part 590, of this subchapter.

§ 592.153 *F. o. b. purchasing policy.* The policy with respect to purchasing f. o. b. origin or destination is set forth in § 590.350 of this subchapter.

§ 592.154 *Small business.* To the maximum extent possible, restrictions which might prevent small business participation will be eliminated from proposed procurements.

§ 592.155 *Qualified products.* Qualified Products Lists may be used in procurement by negotiation in accordance with the policy and procedures set forth in Subpart E, Part 401 of this title and Subpart E, Part 591 of this subchapter.

§ 592.156 *Awards; selection of contractors.* The policy of the Department of the Army with respect to the selection of contractors is prescribed in § 590.357 of this subchapter.

§ 592.157 *Submission of information on equal or identical bids.* See § 591.406–4 (b) of this subchapter, relating to procurement by formal advertising, the provisions of which are similarly applicable to procurement by negotiation.

§ 592.158 *Increase or decrease in specified quantity.* Negotiated contracts may contain a clause providing for increases or decreases in the quantities specified in the contracts at the option of the Government. The maximum percentage of such increases or decreases will be subject to negotiation.

SUBPART B—CIRCUMSTANCES PERMITTING NEGOTIATION

§ 592.201 *National emergency.*

§ 592.201–2 *Application.* (a) This authority shall be used only to the extent determined by the Secretary to be necessary in the public interest during a period of national emergency declared by the President or by the Congress. During periods of national emergency when such a determination has been made by the Secretary, all negotiated procurement, except that described in paragraph (g) of this section, will be accomplished under § 402.201 of this title and this section and will cite as authority section 2 (c) (1) of the Armed Services Procurement Act of 1947, as amended (41 U. S. C. 151, et seq.).

(b) A national emergency having been declared by the President on 16 December 1950, the Secretary has made the determination set forth below:

DEPARTMENT OF THE ARMY
DETERMINATION

Authority To Negotiate During Period of National Emergency

18 DEC. 1950.

1. A National Emergency having been declared by the President of the United States on 16 December 1950, I hereby determine in accordance with section 2 (c) (1) of the Armed Services Procurement Act of 1947, that it is necessary in the public interest that, to the extent provided in paragraph 2 hereof, purchases and contracts under said act be negotiated without formal advertising during the period of said National Emergency.

2. Accordingly, I hereby authorize the negotiation of purchases and contracts for supplies and services by the Department of the Army under section 2 (c) (1) of the Armed Services Procurement Act of 1947 during the period of said National Emergency.

(Signed) ARCHIBALD S. ALEXANDER,
Under Secretary of the Army.

(c) Subject to paragraph (d) of this section and instructions issued by the Heads of Procuring Activities, purchases by negotiation under the authority cited in paragraph (b) of this section may be made under any one of the circumstances set forth in Subpart B, Part 402, of this title, and in addition thereto, in the following instances:

(1) When the Head of a Procuring Activity deems negotiation to be necessary for the purpose of implementing procurement policy as announced by the Assistant Chief of Staff, G–4, Department of the Army, and formal advertising will adversely affect accomplishment of that purpose. When negotiation is justified, the maximum practicable and reasonable degree of competition will be developed as a required part of the negotiation.

(2) Emergency procurements of a high priority nature which could not be effected by formal advertising within the time required for delivery. In this connection attention is invited to § 591.202 (b) of this subchapter.

(d) Requests for approval and subsequent approvals of awards of contracts negotiated pursuant to the authority of this section will be in writing. Approvals of awards shall be considered to include the approval of the use of negotiation as well as approval of the award. In those cases where authority to negotiate is obvious from the nature of the items procured, the amount of the procurement or the place of contracting or performance (purchases not in excess of $1,000, medicines or medical supplies, authorized resale, perishable subsistence, purchases outside the United States, and classified purchases), a simple statement to that effect will be placed in the Schedule or other convenient portion of the contract or purchase order.

(e) Standard Form 1036 (Statement and Certificate of Award) will not be used to support contracts negotiated under section 2 (c) (1) of the Armed Services Procurement Act of 1947, as amended.

(f) Paragraph (e) of this section is not applicable to purchases by negotiation specifically authorized by the Secretary to be made under the authority of Title II, First War Powers Act, 1941, as amended by Public Law 921, 81st Congress.

§ 592.202 *Public exigency.* (See § 592.201.)

§ 592.202–2 *Application.*—(a) Section 2 (c) (2) of the Armed Services Procurement Act of 1947 may be used as authority for negotiating a contract if the compelling and urgent need for the supplies or services to be purchased is within the limitations of § 402.202 of this title and this section. In using this authority, Contracting Officers will assure themselves that the need for negotiating is sufficiently compelling and of unusual urgency, and that the emergency situation requires an immediate purchase for which delivery cannot be effected within the time required by means of formal advertising.

(b) When negotiating under this authority, informal competition to the maximum extent practicable within the time allowed will be obtained.

(c) A procurement of material to effect necessary and emergency repairs to a broken water main would be appropriate under § 402.202 of this title and this section, provided that the emergency conditions require immediate replacement of defective materials. This authority could also properly be cited for the emergency procurement of packing material required to effect an emergency air or rail shipment. Also if a procurement is appropriate and proper and is considered an emergency procurement of a high priority nature and which could not otherwise be procured by formal advertising within the time required for delivery, the circumstances involved in the particular procurement, such as for supplies urgently needed to lend military support in connection with a national or international situation or to meet immediately emergency needs of an Army expansion program, may be used to add support to the justification required to be made by the Contracting Officer. The facts bearing on the emergency situation, however, must clearly be shown in the justification in sufficient detail to explain clearly the necessity for purchasing without formal advertising. The Contracting Officer's justification must be supported by the existence of specific emergency circumstances which in themselves relate to the particular purchase being effected.

(d) A short delivery or performance requirement in itself is not a sole justification for the use of section 2 (c) (2) of the Armed Services Procurement Act of 1947. The reasons for effecting delivery or performance by a certain date must be of such a nature that they will fully support the Contracting Officer's action in the event he finds it necessary to use this authority. When delivery requirements are of the utmost importance, officials supervising the issuance of procurement directives to Contracting Officers will be responsible for clearly indicating in the directives the exigent importance for having the supplies delivered by certain dates, including pertinent data as to the reasons therefor. In this connection, Contracting Officers should not be expected or required to negotiate contracts under this authority unless facts sufficient to support their actions can be presented to them in writing by responsible persons in positions of higher authority.

(e) Section 2 (c) (2), Armed Services Procurement Act of 1947, and § 402.202 of this title will not be used as authority to negotiate when the procurement is such that it can be negotiated properly under the provisions of §§ 402.203, 402.205, 402.211, 402.213, 402.214, or 402.215 of this title.

(f) Section 2 (c) (2), Armed Services Procurement Act of 1947, and § 402.202 of this title will not be used as authority to negotiate supplemental agreements to basic contracts supported by a determination and findings signed by the Secretary, except (1) when all the requirements of § 402.202 and this section have been satisfied, and (2) when the supplemental agreement is for the purpose of expediting delivery or performance, such as through the use of overtime or extra-pay shifts.

§ 592.202–3 *Limitation.* A copy of the Contracting Officer's signed statement justifying the use of this authority required by § 402.202–3 of this title will be attached to the request for approval of award, if such approval is required by § 606.204 of this subchapter.

§ 592.203 *Purchases not in excess of $1,000.* (See § 592.201 of this subchapter.)

§ 592.203–2 *Application.* (a) If the aggregate amount required does not exceed $1,000, the Contracting Officer may procure by negotiation under section 2 (c) (3) of the Armed Services Procurement Act of 1947, or he may effect the procurement by formal advertising in accordance with Part 401 of this title and Part 591 of this subchapter.

(b) This authorization does not modify in any respect the fundamental principle that supplies and services will be obtained as the result of competition and, in general, at least two informal quotations of prices will be requested from sources of supply, as defined in § 400.201–9 of this title and § 590.201–9 of this subchapter. When circumstances permit, quotations will be solicited from all such qualified sources as are deemed necessary by the Contracting Officer to assure full and free competition consistent with the procurement. The order then will be placed with that responsible supplier whose quotation, price and other factors considered, will be most advantageous to the Government. The absence of competition in any particular case will be explained fully and made of record in the retained files of the Contracting Officer. Likewise, such a record also will be maintained of any verbal or telephonic quotations that may be received in connection with purchases made under this authority. However, the above requirement may be waived by the Contracting Officer in individual procurement actions having a total value of less than $100 where, in his opinion, the interests of the Government will not suffer from such action and the administrative time and expense of obtaining and recording competitive quotations are expected to be disproportionate to results obtained.

(c) The authorization contained in this section will be used in negotiating purchases aggregating $1,000 or less rather than any of the other authorizations contained in Subpart B, Part 402 of this title and Subpart B of this part, except when section 2 (c) (1) of the Armed Services Procurement Act of 1947 is authorized for use. (See § 592.201.)

(d) The words "aggregate amount involved" do not require that the purchase should be limited to any particular period of time, as a day, month, or year, or limited to purchases made from a single firm. The aggregate should include all supplies which are grouped together properly in a single transaction and which would be included in a single advertisement for bids if formal advertising were resorted to. Purchases arising from the same need of the same articles should not be made more frequently than the necessities of the service require, in order to limit the aggregate in each case to $1,000, and supplies which are usually purchased together should not be divided simply for the purpose of avoiding advertising for the same. If the character of the supplies is such that good administration would require their purchase in quantities sufficient to last a month, purchases should not be made weekly or daily for the purpose of bringing the amount within the limit authorized. Subject to the above considerations, the matter is one depending upon the sound discretion of the Contracting Officer.

(e) The purchase of similar articles at the same time from different firms or on different dates from the same or different firms when the purchases should have been combined and the aggregate is in excess of $1,000 is not authorized. Hence, when the articles purchased or the amounts of purchases are such that, without explanation, it is not readily discernible why the purchases were not combined, a statement that the Contracting Officer could not have foreseen and combined the requirements in sufficient time to permit formal advertising will be retained in the files of the Contracting Officer pertaining to such transactions.

(f) Instructions covering the small purchases procedures by use of DD Form 738 (Order and Voucher for Purchase of Supplies or Services) are contained in subpart F of this part.

§ 592.204 *Personal or professional services.* (See § 592.201.)

§ 592.204–2 *Application*—(a) *Authorization.* Section 2 (c) (4) of the Armed Services Procurement Act of 1947 shall be used as authority to negotiate personal or professional services contracts only when all the conditions set forth in § 402.204–2 of this title have been satisfied.

(b) *Application.* Section 2 (c) (4) does not authorize the making of any contracts. It merely authorizes the award by negotiation, as distinguished from formal advertising, of contracts otherwise authorized by law.

(c) *Approval required.* (1) The requirements for approval of higher authority of contracts involving personal and professional services are set forth in § 606.204–1 (a) of this subchapter.

(2) The requirements for approval of higher authority of contracts containing provisions closely related to personal services contracts are set forth in § 606.204–1 (b) of this subchapter.

§ 592.205 *Services of educational institutions.* (See § 592.201.)

§ 592.205–2 *Application.* (a) For use as a general guide, the phrase "other educational institution," as used in § 402.205 of this title and this section, is defined as follows: Any legal entity in the field of education organized and operated for the purpose of advancement of knowledge through study, training, or investigation, and which is not operated for a profit or no part of the earnings of which inure to the benefit of any individual directly or indirectly, may be considered as an educational institution.

(b) In negotiating a contract under this authority for experimental, developmental, or research work with a prospective contractor who may qualify under the "other educational institution" provision, a statement will be obtained from the prospective Contractor as to whether he can qualify as an educational institution, such statement to be supported by conclusive evidence of his contention. The following are illustrative of supporting evidence which may be furnished.

(1) Acceptance by the Bureau of Internal Revenue as an educational institution.

(2) State recognition as an educational institution.

(3) Charter of the institution.

(4) Other evidence of the nonprofit character of the institution.

(c) Contracts negotiated under this authority will be supported by a Determination and Findings signed by the Secretary, as required by § 592.302 and in the form prescribed by § 592.305 of this part, when the amount involved exceeds $25,000 and is for other than tuition contracts for military students.

(d) All requests for authority to negotiate contracts for experimental, developmental, or research work submitted for approval and signature of the Secretary will be supplemented by the following information:

(1) If the authority to negotiate pertains to an extension of a contract, the date of original contract, together with total funds obligated under previous contracts, will be stated.

(2) A summary will be furnished of what has been completed to date under previous contracts and what is anticipated under the proposed contract.

(3) An estimate of the time necessary to complete the work.

(4) Department of the Army project number and technical objective classification.

(5) In those cases where the work covered by the proposed contract is in a field for which primary cognizance has been assigned to another technical service, a statement will be required that the cognizant service concurs in the proposed contract.

(6) A statement of the maximum current fiscal year obligation approved by Army Research and Development Review Board for the operational category or other controlling element under which the supported project is classified, plus the amount which may be in the process of obligation (i. e., forwarded but not yet approved for negotiation by the Secretary or Head of the Procuring Activity), but exclusive of the instant request.

(8) If Army Research and Development funds are not involved, a statement will be included as to what funds are available and will be obligated for the procurement.

(9) If additional extensions are anticipated, a statement will be furnished as to the amount of the estimated additional expenditure. If extensions are not anticipated, it should be so stated.

§ 592.206 *Purchases outside the United States.* (See § 592.201.)

§ 592.206–2 *Application.* Procurements of the types described in §§ 402.205, 402.211, 402.214 or 402.216 of this title and §§ 592.205, 592.211, 592.214 or 592.216 are not contemplated outside the United States, its Territories and possessions. If, nevertheless, such procurements are effected outside the United States, its Territories and possessions, the limitations and procedures specified in the above mentioned sections will apply and the statutory authority prescribed therein will be used in lieu of the authority prescribed by § 402.206 of this title.

§ 592.207 *Medicines or medical supplies.* (See § 592.201.)

§ 592.207–2 *Application.*—(a) *Competition.* In negotiating under this authority, the Contracting Officer will insure that full and free competition is solicited. In cases when supplies identified by brand or trade names are required (no specification being applicable thereto), and when such supplies cannot be purchased direct from the sole manufacturer, the informal solicitation for proposals should extend to as many known wholesale sources of supply handling the particular brand required as practicable.

(b) *Advance publicity.* In those purchases exceeding $10,000 negotiated under this authority, the form and extent of suitable advance publicity (which will be given for a period of at least 15 days whenever practicable) will be determined in accordance with instructions prescribed by each respective Procuring Activity.

§ 592.208 *Supplies purchased for authorized resale.* (See § 592.201.)

§ 592.208–2 *Application*—(a) *Competition.* In negotiating under this authority, the Contracting Officer shall insure that full and free competition is solicited.

(b) *Advance publicity.* In those purchases exceeding $10,000 negotiated under this authority, the form and extent of suitable advance publicity (which will be given for a period of at least 15 days whenever practicable) will be determined in accordance with instructions prescribed by each respective Procuring Activity.

§ 592.209 *Perishable subsistence supplies.* (See § 592.201.)

§ 592.209–2 *Application.* In negotiating under this authority, "perishable subsistence" shall be construed to mean those items of food determined to be of a perishable nature (as distinguished from nonperishable subsistence) by The Quartermaster General.

§ 592.210 *Supplies or services for which it is impracticable to secure competition by formal advertising.* (See § 592.201.)

§ 592.210–2 *Application.* (a) Section 2 (c) (10) of the Armed Services Procurement Act of 1947 may be used as an authority for negotiating a contract if the circumstances involved in the particular procurement are similar to the examples set forth in § 402.210–2 of this title. Care and sound judgment, however, will be exercised to prevent abusive use of this authority.

(b) The signed statement of justification required by § 402.210–3 of this title need not be in the form of a formal Determination and Findings; a simple narrative statement or certificate signed by the Contracting Officer will fulfill the requirement. A copy of such statement or certificate will be attached to requests for approval of awards, if such approval is required by § 606.204 of this subchapter.

(c) Contracts negotiated under this authority will be supported by a Determination and Findings signed by the Secretary, as required by § 592.302 and in the form prescribed by § 592.305, when for studies or surveys covering Industrial Mobilization Planning Phase I Studies exceeding $12,000 in lieu of the Contracting Officer's signed statement or certificate referred to in paragraph (b) of this section.

§ 592.210–3 *Limitation.* The authority contained in § 402.210 of this title and this section will not be used when the procurement can be negotiated under §§ 402.201, 402.205, 402.211 through 402.216 of this title and §§ 592.201, 592.205, 592.211 through 592.216.

§ 592.211 *Experimental, development, or research work.* (See § 592.201.)

§ 592.211–3 *Limitation.* (a) If the negotiation of a contract pursuant to the authority contained in § 402.211 of this title and this section is supported by a Determination and Findings, signed in good faith by the Head of a Procuring Activity, which necessarily contemplates the entering into a contract obligating $25,000 or less, but, after negotiations are completed, the contract to be entered into will obligate more than $25,000, such contract must be supported by a Determination and Findings signed by the Secretary as required by § 402.302 of this title.

(b) Any supplemental agreement, change order, or modification of a contract negotiated under this authority, which has the effect of increasing the initial contract price so that the total amount exceeds the monetary limitation beyond which the Head of the Procuring Activity is not delegated authority to sign a Determination and Findings, will be supported by a Determination and Findings signed by the Secretary as required by § 402.302 of this title and § 592.302 and in the form prescribed by § 592.302.

(c) Subsequent to the time a research and development project is initially established and approved by the appropriate Technical Committee, the Secretary, pursuant to section 7 (a) of the Armed Services Procurement Act of 1947, will consider for approval and signature those Class Determinations and Findings submitted under this authority which pertain to a single unique problem or device and involve one or more negotiated contracts or purchases directly related to the single unique problem or device. At the time of requesting such a determination, the estimated total cost and number of all the negotiated contracts proposed to be executed under the authority of the class determination will be specified. Such determinations will cover a specified period of time and be prepared and submitted in the manner and form prescribed by § 592.305 (a).

(d) All requests for authority to negotiate contracts for experimental, developmental, or reesarch work submitted for approval and signature of the Secretary will be supplemented by the following information:

(1) If the authority to negotiate pertains to an extension of a contract, the date of original contract, together with total funds obligated under previous contracts, shall be stated.

(2) A summary shall be furnished of what has been completed to date under previous contracts and what is anticipated under the proposed contract.

(3) An estimate of the time necessary to complete the work.

(4) Department of the Army project number and technical objective classification.

(5) In those cases where the work covered by the proposed contract is in a field for which primary cognizance has been assigned to another technical service, a statement will be required that the cognizant service concurs in the proposed contract.

(6) A statement of the maximum current fiscal year obligation approved by Army Research and Development Review Board for the operational category or other controlling element under which the supported project is classified.

(7) The total amount previously obligated in the current fiscal year under the operational category or other controlling element under which the supported project is classified, plus the amount which may be in the process of obligation (i. e., forwarded but not yet approved for negotiation by the Secretary or Head of the Procuring Activity), but exclusive of the instant request.

(8) If Army Research and Development funds are not involved, a statement will be included as to what funds are available and will be obligated for the procurement.

(9) If additional extensions are anticipated, a statement will be furnished as to the amount of the estimated additional expenditure. If extensions are not anticipated, it will be so stated.

§ 592.211–4 *Records and reports.* Reports required by § 402.211–4 of this title shall be made in the form and manner prescribed by Subpart C, Part 606, of this Subchapter.

§ 592.212 *Classified purchases.* (See § 592.201.)

§ 592.212–2 *Application.* (a) As a matter of general procurement policy, Contracting Officers shall negotiate, rather than procure by formal advertising, when the proposed contract or purchase order or the supplies or services being procured are classified CONFIDENTIAL or higher. The authority of section 2 (c) (12) of the Armed Services Procurement Act of 1947 will be used, however, only after the use of other negotiation authorities has been considered and found not applicable, and, where either the contract or purchase order for the supplies or services being procured are classified CONFIDENTIAL or higher.

(b) In addition to the requirements of § 605.1608–4 of this subchapter, DD Form 254 (Security Requirements Check List), will be used in precontract negotiations when it is necessary for proposed contractors and subcontractors to have access to classified matter.

§ 592.213 *Technical equipment requiring standardization and interchangeability of parts.* (See § 592.201.)

§ 592.213–2 *Application.* (a) The term "standardization," as used in connection with this authority, is that uniformity considered necessary to accomplish maximum interchangeability of parts, as distinguished from the general definition of standardization established in pertinent special regulations.

(b) Negotiations under this authority will be limited to purchases of items of technical equipment which must be taken into the field with troops and will not be applied to items of commercial equipment used exclusively in installations in the United States.

(c) Determinations and Findings supporting procurement by negotiation under this authority will be for a stated period of time, which period, in general, will be in ratio to the life of the item being procured.

§ 592.213–3 *Limitation.* Procurements will not be negotiated under this authority unless the supplies to be purchased have been approved for standardization by the Secretary. Requests for standardization shall be submitted to the Advisory Committee On Procurement Without Advertising of Technical Equipment and Components, which committee will act in an advisory capacity to the Secretary. Additional procedures with respect to the standardization of technical equipment may be issued by the committee. In the case of formal advertising contemplating subsequent negotiation of procurements of the same equipment from the successful bidder in the interest of standardization of equipment and interchangeability of parts, see § 591.201 (i) of this subchapter.

§ 592.214 *Technical or specialized supplies requiring substantial initial investment or extended period of preparation for manufacture.* (See § 592.201.)

§ 592.214–2 *Application.* The propriety of a proposed negotiation under this authority cannot be adequately judged unless the accompanying justification indicates the relative size of the previous dollar investment compared to

the total of the proposed purchase, what the previous dollar investment or previous preparation consists of (with respect to such factors as facilities, tooling, equipment, training and the like), and what the already accomplished period of preparation is (in years and months). The investment and period of preparation necessary should exclude those costs and preparations such as research and development costs and production preparation, which have already been accomplished as a result of previous Department of Defense or commercial contracts provided those results can be made available to other suppliers. In giving weight to the term "substantial initial investment," justification of "substantial" in this respect must be more than the mere fact that a manufacturer accomplished the initial tooling in a particular instance.

§ 592.214–3 *Limitation.* In submitting a request for approval and signature of the Determination and Findings required by § 402.302 of this title, a justification for the use of this authority will be presented. The following are illustrative of facts to be considered and information to be included in such a justification:

(a) The advantage which will accrue to the Government by avoiding the duplication should be emphasized.

(b) The requirement "may require duplication of investment" should be invoked only when the preceding requirement of "substantial investment" has been substantiated.

(c) The requirement "may require duplication of preparation already made" should be invoked only when the preceding requirement of "requiring an extended period of preparation for manufacture" has been substantiated.

(d) The requirement "will unduly delay procurement" should be substantiated by statements that the supplier being considered can deliver by a certain date, other suppliers cannot deliver before a specified later date, delivery by a designated earlier date is necessary for military or logistical reasons, and therefore, the proposed supplier is the only supplier who can meet the required delivery terms of the proposed contract.

(e) The name of the supplier or suppliers with whom negotiations are to be conducted will be furnished.

§ 592.215 *Negotiation after advertising.* (See § 592.201.)

§ 592.215–2 *Limitation.* (a) The authority of section 2 (c) (15) of the Armed Services Procurement Act of 1947 can be invoked for all of or only a portion of a specific procurement. When invoked, two determinations by the Secretary are required. The first determination, to be submitted before negotiation, should state the range of bid prices received and the prices or range of prices which are considered unreasonable or have not been independently arrived at in open competition. The second determination, to be submitted after negotiation, should (1) prove that, prior to negotiation, the Contracting Officer gave a notice of intention to negotiate and a reasonable opportunity to negotiate to each responsible bidder whose bid was rejected, (2) specifically state the lowest negotiated price and identify the supplier offering it, and (3) determine that the negotiated price is lower than the lowest rejected bid price of a responsible bidder, and is the lowest negotiated price offered by any responsible supplier. If, however, all the facts are available at the time a request for approval and signature of the Secretary is submitted, both of the required determinations may be included in the preparation of a single Determination and Findings.

(b) In the event a Contracting Officer believes that the bid prices have not been independently arrived at in open competition, he shall in all cases submit the information required by § 591.406–4 of this subchapter to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch.

§ 592.216 *Purchases in the interest of national defense or industrial mobilization.* (See § 592.201.)

§ 592.216–2 *Application.* Contracts for Phase II and III Industrial Mobilization Planning Studies shall be negotiated under this authority rather than section 2 (c) (10) of the Armed Services Procurement Act of 1947.

§ 592.216–4 *Records and reports.* Reports required by § 402.216–4 of this title shall be made in the form and manner prescribed by Subpart C, Part 606 of this subchapter.

§ 592.217 *Otherwise authorized by law.* (See § 592.201.)

§ 592.217–2 *Application.* Section 2 (c) (17) of the Armed Services Procurement Act of 1947 preserves the authority to negotiate contracts specifically conferred by statute other than the Armed Services Procurement Act of 1947 and not repealed therein. Contracts will not be negotiated under this authority without the prior approval of the Assistant Chief of Staff, G–4 (Chief, Purchase Branch). Requests for such approvals, with respect to either individual or classes of contracts, will contain a statement of pertinent facts and reasons therefor, including the citation of the applicable statute, and will be submitted through the Head of the Procuring Activity concerned to the Assistant Chief of Staff, G–4, Attn: Chief, Purchases Branch.

§ 592.218 *Construction work.* (See § 592.201.) Since the authority contained in § 402.218 of this title is not completely self-sufficient and can be used only in conjunction with other statutory exceptions to formal advertising, § 402.218 of this title and this section will not be cited as authority for negotiating the procurement of construction work. Only sections 2 (c) (1), (2), (3), (6), (10), (11), (12), or (15) of the Armed Services Procurement Act of 1947 will be used as authority to negotiate construction work.

§ 592.250 *Summary table.* (a) As a convenience to Contracting Officer, the following summary table sets forth (1) the circumstances under which contracts may be entered into as a result of negotiation and without formal advertising, (2) the citation of the applicable sections of Chapters IV and V of this title, (3) the citation of the applicable section of the Armed Services Procurement Act of 1947, and (4) certain other data.

(b) Since the statutory exceptions to formal advertising are not all mutually exclusive, the table lists the exceptions in order of preference to assist Contracting Officers in selecting the preferred authority when a procurement can be negotiated properly under more than one authority.

Order of pref.	Circumstances	Proc. Act 1947 sec.	Sec. of ch. IV of this title	Sec. of ch. V of this title	Remarks
1	National emergency	2 (c) (1)	402.201	592.201	Use only when directed by Secretary.
2	Purchases not in excess $1,000.	2 (c) (3)	402.203	592.203	Purchases not be broken down in order to use this authority.
3	National Defense or Industrial Mobilization.	2 (c) (16)	402.216	592.216	Determination and Findings by Secretary necessary. Copy to GAO.
4	Experimental, developmental, or research work.	2 (c) (11)	402.211	592.211	Determination and Findings by Secretary necessary if over $25,000. Copy to GAO.
5	Standardization and interchangeability.	2 (c) (13)	402.213	592.213	Determination and Findings by Secretary necessary. Copy to GAO.
6	Substantial investment or extended preparation.	2 (c) (14)	402.214	592.214	Determination and Findings by Secretary necessary. Copy to GAO.
7	Services of educational institutions.	2 (c) (5)	402.205	592.205	Determinations and Findings by Secretary necessary except under certain conditions.
8	Personal or professional services.	2 (c) (4)	402.204	592.204	Contract must be approved by Secretary. Additional statutory authority required.
9	Medicines or medical supplies.	2 (c) (7)	402.207	592.207	Special publicity required.
10	Authorized resale	2 (c) (8)	402.208	592.208	Special publicity required.
11	Perishable subsistence	2 (c) (9)	402.209	592.209	Questions as to perishable or nonperishable determined by TQMG.
12	Competition impracticable.	2 (c) (10)	402.210	592.210	Statement of justification by Contracting Officer. Copy to GAO.
13	Purchases outside United States.	2 (c) (6)	402.206	592.206	Applicability dependent upon geographical area.
14	Public exigency	2 (c) (2)	402.202	592.202	Statement of justification by Contracting Officer necessary. Copy to GAO.
15	Negotiation after advertising.	2 (c) (15)	402.215	592.215	Determination and Findings by Secretary necessary. Copy to GAO.
16	Otherwise authorized by law.	2 (c) (17)	402.217	592.217	Use only after approval of Assistant Chief of Staff, G–4. Statement of Contracting Officer required.
17	Classified purchases	2 (c) (12)	402.212	592.212	Determination and Findings by Secretary necessary. Only confidential or higher. Copy to GAO.

§ 592.251 *Title II, First War Powers Act, 1941, as amended.* Negotiation of contracts under this authority will be governed by procedures contained in subpart D, Part 606 of this subchapter.

SUBPART C—DETERMINATIONS AND FINDINGS

§ 592.301 *Nature of determinations and findings.*—(a) *Individual determination and findings.* Each proposed form of an individual determination and findings will be prepared in accordance with § 592.305.

(b) *Class determinations and findings.* Determinations and Findings, referred to throughout Part 402 of this title and Part 592 of this subchapter, may be made with respect to classes of purchases or contracts only by the Secretary. In each such case the proposed form of a Determination and Findings will provide that such class of purchases or contracts may be negotiated during a specified period only. Each proposed form of a class Determination and Findings will be prepared in accordance with § 592.305. It is the policy of the Department to make determinations with respect to the negotiation of classes of purchases or contracts only under special justifiable circumstances.

§ 592.302 *Determinations and Findings by the Secretary.* In addition to the Determinations and Findings required by § 402.302 of this title, the following determinations, and written findings in support thereof, may be made only by the Secretary:

(a) Determination with respect to negotiated contracts for the services of educational institutions when the amount involved exceeds $25,000 and is for other than tuition contracts for military students (§ 592.205–2 (c)).

(b) Determination with respect to negotiated contracts for supplies or services for which it is impracticable to secure competition by formal advertising when for studies or surveys covering Industrial Mobilization Planning Phase I Studies exceeding $12,000 (§ 592.210–2 (c)).

(c) Determination and Findings with respect to procurement actions effected pursuant to Title II, First War Powers Act, 1941, as amended, except as otherwise specifically authorized in subpart D, Part 606 of this subchapter. Action taken by the Army Contract Adjustment Board in this regard is deemed to be the action of the Secretary.

§ 592.303 *Determinations and findings by the Head of a Procuring Activity signing as "a chief officer responsible for procurement."*

(a) In addition to the determinations, and written findings in support thereof, authorized to be made by the Head of a Procuring Activity by § 402.303 of this title, the Head of a Procuring Activity signing as "a chief officer responsible for procurement" may make the determination required by § 592.407 (b) with respect to the use of a Time and Materials Contract.

(b) The Head of a Procuring Activity may delegate authority to make the determinations and written findings required by §§ 402.405 and 402.406 of this title to the Deputy Head, Assistant Head, or Chief of Staff of the Procuring Activity, and to chiefs of principal purchasing offices. Subject to the limitation contained in § 592.304, he also may personally select one alternate for each such delegate: *Provided, however,* That such alternate will be empowered to make the required determination only during periods of official absence of the delegate for whom he has been selected as alternate. Neither delegates nor their alternates may redelegate this authority.

(c) Determinations and Findings which may be made by the Head of a Procuring Activity in connection with procurement actions effected under the authority of Title II of the First War Powers Act, 1941, as amended, are set forth in § 606.403–4 of this subchapter. Such authority may not be redelegated below the level of the Head of a Procuring Activity unless specifically authorized by the Under Secretary of the Army.

§ 592.304 *Determinations and findings by a Contracting Officer.* (a) The determinations required by §§ 402.404, 402.405 and 402.406 of this title with respect to the use of a cost or cost-plus-a fixed-fee contract or an incentive type contract may not be made by a Contracting Officer, except that the chief of a principal purchasing office to whom authority has been delegated, pursuant to § 592.303 (b), may make the determinations required by §§ 402.405 and 402.406 of this title, notwithstanding the fact that he may also have been designated a Contracting Officer. Such determinations will be made by the Head of a Procuring Activity as provided in § 402.303 (b) of this title, or by such officers and individuals to whom authority may be delegated in accordance with § 592.303 (b).

(b) Contracting Officers may make the determination required by § 592.407 (b) with respect to the use of a Time and Materials Contract, if the authority to so do has been delegated by the Head of the Procuring Activity.

§ 592.305 *Forms of determinations an and findings*—(a) *Authority to negotiate an individual contract*—(1) *Form.* Individual Determinations and Findings with respect to the negotiation of contracts under the authority of §§ 402.211 to 402.217 inclusive of this title and as otherwise required by this Procedure shall be prepared for the signature of the Secretary (or where authorized by § 402.211 of this title for the signature of the Head of the Procuring Activity signing as "a chief officer responsible for procurement") substantially in the form set forth below and in the manner prescribed in § 592.306:

DEPARTMENT OF THE ARMY

DETERMINATION AND FINDINGS

Authority To Negotiate an Individual Contract

1. I hereby find that:

a. The (insert name of Procuring Activity) proposes to procure (describe briefly the scope of the work, or the nature of the supplies or services called for).

b. The estimated cost of the proposed procurement is $--------, chargeable to Fiscal Year ------ funds.

c. The procurement of the above described supplies (services) by formal advertising is not feasible because (summarize such pertinent facts as are available and relevant to support the determination to be made in par. 2).

2. Upon the basis of the findings set forth above, I hereby determine that (insert statement of required determination under applicable section of 32 CFR Part 402, Subpart B, or 32 CFR, Part 592, Support B).

3. The above supplies (or services) may, therefore, be procured by negotiation pursuant to section 2 (c) (insert applicable paragraph) of the Armed Services Procurement Act of 1947 (Pub. Law 413, 80th Cong.), and section (insert applicable section) of 32 CFR Ch. IV, Subch. A.

(Typed signature)

(Title)

In connection with Determinations and Findings to be signed by the Under Secretary of the Army, the following certificate shall be included on the face of the above form, and such certificate shall be signed by the Head of the Procuring Activity, his Deputy or his Chief of Staff.

I certify that the statements made herein (and in the attachments hereto [1]) are correct to the best of my knowledge and belief. Signature is recommended.

(2) *Scope of determinations and findings.* In general, it is desirable to confine each Determination and Findings to a single page, and in that connection to set forth the necessary findings as briefly as possible and to confine them to only those facts which are necessary and relevant to support the one or more determinations that are being made. It is neither necessary nor desirable to justify the choice of a particular contractor. With respect to the determination or determinations, it is important to set forth only that one (or those) which is responsive to the various findings, and necessarily to confine it to the requirements and the particular language set forth under the applicable exception in the Act; further in this connection, it is important to guard against a determination in the alternative (except possibly for the one relating to "experimental, development, or research work") and to use cumulative language only when more than one determination is in fact supported by the findings (for example, under section 2 (c) (14), "substantial initial investment" and "extended period of preparation for manufacture"). If certain requirements are optional, however, it is desired that the Determination and Findings list only those requirements of the exception which are essential and can be strongly supported. There is no objection, however, if the facts warrant, to substantiating all the requirements. All other pertinent information should be included in the request for approval and signature of the Determination and Findings by the Secretary.

(b) *Authority to negotiate a class of purchases or contracts.* Determinations and Findings with respect to the negotiation of classes of purchases or contracts, as referred to in § 402.301 of this title and § 592.301, shall be prepared as set forth in paragraph (a) of this section,

[1] To be included when applicable.

with appropriate modifications to make it applicable to a class of purchases or contracts. All such class Determinations and Findings shall be prepared for the signature of the Under Secretary of the Army.

(c) *Advance payments.* Determinations and Findings with respect to advance payments as set forth in subpart E, Part 402 of this title, shall be prepared for the signature of the Under Secretary of the Army substantially in the form set forth below and in the manner prescribed in § 592.306:

DEPARTMENT OF THE ARMY

DETERMINATION AND FINDINGS

Authority for Advance Payments

1. I hereby find that:

(a). The (insert the name of Procuring Activity) proposes to procure (describe briefly the scope of the work, or the nature of the supplies or services called for).

b. The estimated cost of the proposed procurement is $------, chargeable to Fiscal Year ---- funds.

c. The name of the contractor (or proposed contractor) is ----------.

d. The contractor (or proposed contractor) cannot finance performance of the proposed contract with its own resources and is unable to secure adequate financing through private sources, and, therefore, it is deemed necessary and appropriate in order to procure the required supplies to authorize advance payments in an amount not exceeding $------.

e. No other contractor is available to furnish the desired supplies (or services), upon terms satisfactory to the Department of the Army, without provision for advance payments.

f. The unliquidated balance of advance payments shall bear interest at the rate of --% and shall be subject to such other terms and conditions as may be imposed by the (Head of Procuring Activity) in accordance with policies now existing or hereafter prescribed.

2. Upon the basis of the findings set forth above, I hereby determine that pursuant to section 5 (a) of the Armed Services Procurement Act of 1947 (Pub. Law 413, 80th Cong.) and 32 CFR 402.502, the provision for advance payments is in the public interest or in the interest of national defense, and is necessary and appropriate in order to procure the required supplies (or services) under the contract, and such advance payments not exceeding $------ are hereby authorized.

(Typed signature)

(Title)

The following certificate shall be included on the face of the above form, and such certificate shall be signed by the Head of the Procuring Activity, his Deputy, or his Chief of Staff:

I certify that the statements made herein (and in the attachments hereto [1]) are correct to the best of my knowledge and belief. Signature is recommended.

(d) *Method of contracting.* Determination and Findings with respect to the use of a cost, cost-plus-a-fixed-fee, or incentive type contract, as set forth in Subpart D, Part 402, of this title and Subpart D, Part 592 of this subchapter, will be prepared for the signature of the Head of the Procuring Activity, or the officer or individual to whom authority to sign such a determination and findings has been delegated pursuant to § 592.303 (b), substantially in the following form. (Heads of Procuring Activities and Contracting Officers may use the form set forth below as a guide in making the determination required by § 592.407. If such use is made of the form, change the citation "section 4 (b)" to "section 4 (a)" in paragraph 2):

DEPARTMENT OF THE ARMY

DETERMINATION AND FINDINGS

Method of Contracting

1. I hereby find that:

a. The (insert name of Procuring Activity) proposes to procure (describe briefly the scope of the work, or the nature of the supplies or services called for).

b. The estimated cost of the proposed procurement is $------ (including, when applicable, a statement as to the percentage of proposed fixed fee), chargeable to Fiscal Year ------ funds.

c. The use of a (insert type of a contract to be used) contract is the most practicable and likely to be the least costly method of contracting because (summarize such pertinent facts as are available and relevant to support the determination to be made in par. 2).

2. Upon the basis of the findings set forth above, I hereby determine that pursuant to section 4 (b) of the Armed Services Procurement Act of 1947 (Pub. Law 413, 80th Cong.), and section (insert applicable section) of 32 CFR, Ch. IV, that the use of a (insert type of contract) contract (a) is likely to be less costly than other methods of contracting, or (b) that it is impracticable to secure supplies (or services) of the kind or quality required without the use of a (insert type of contract) contract.

(Signature)

(Title)

§ 592.306 *Procedure with respect to determinations and findings.* (a) Requests for approval of Determinations and Findings, referred to throughout Part 402 of this title and Part 592 of this subchapter, and requiring the signature of the Secretary, will contain a complete statement of facts and recommendations and be accompanied by the Determination and Findings prepared for the appropriate signature, as well as supporting data as are necessary to demonstrate the applicability of the cited section of the Armed Services Procurement Act of 1947. In addition, each request will cite the appropriate funds to be used for the procurement.

(b) The Determination and Findings, request for approval and signature, and all supporting documents will be submitted in quadruplicate (if Military Interdepartmental Purchase Requests or similar documents relating to the transfer of funds are being submitted, duplicate copies of such documents will be sufficient) to the Assistant Chief of Staff, G–4, Department of the Army. Attn: Chief, Purchases Branch. In the case of advance payments, requests for approval and signature of Determinations and Findings will be submitted through the Chief of Finance.

(c) Requests for approval and signature by the Secretary in connection with Determinations and Findings authorizing procurement by negotiation may be accompanied by a request for approval of award in those cases requiring such award approval pursuant to § 606.204 of this subchapter.

(d) Determinations and Findings in connection with procurement actions effected under authority of Title II, First War Powers Act, 1941, as amended, will be requested as prescribed in Subpart D, Part 606 of this subchapter.

§ 592.307 *Distribution of copies of determinations and findings.*—(a) *Individual determinations.* One authenticated copy of each Determination and Findings required by Subpart C, Part 402 of this title will be sent to the General Accounting Office with the original signed number of each contract negotiated and executed thereunder. The original signed copy of each Determination and Findings will be filed with the signed copy of the contract retained in the official files of the purchasing office or Procuring Activity concerned. Additional copies may be distributed in accordance with instructions issued by the Head of the Procuring Activity concerned.

(b) *Class determinations.* One authenticated copy of each Determination and Findings made with respect to classes of purchases or contracts will be sent to the General Accounting Office with the original signed number of the first contract negotiated thereunder. Each subsequent contract negotiated thereunder shall refer on its face to the particular class Determination and Findings on file with the General Accounting Office, citing the number of the original contract. The original signed copy of each class Determination and Findings will be filed with the signed copy of the first contract negotiated thereunder retained in the files of the purchasing office or Procurement Activity concerned. Additional copies may be distributed in accordance with instructions issued by the Head of the Procuring Activity concerned.

(c) *National emergency.* The requirements of this section are waived with respect to contracts negotiated under § 402.201 of this title and § 592.201 of this subchapter.

§ 592.308 *Maintenance and retention of records (retention of determinations and findings, and of other records).*—(a) *Preaward Transaction File.* (1) Each purchasing office or installation which initiates or effects procurement by negotiation will maintain a master file for each procurement initiated. This file will contain the original or a certified copy of each paper related to the procurement, beginning with the procurement directive or other paper initiating the procurement. The purpose of the file is to provide a complete résumé of the transaction prior to and including the award. This master file will be preserved in the office or installation which initiated the procurement for a period of 6 years following final payment on the contract or contracts entered into under the directive. As a minimum in negotiated procurement, a memorandum for record, signed by the Contracting Officer briefly setting forth facts, conclusions and actions taken regarding the transaction will be included in the contract file in cases where such facts, conclusions and actions taken are not otherwise reflected in the summary of negotiations and contract award data where such summary is required. Memorandum for record and summary of negotiations as mentioned above are not a mandatory requirement for negotiated purchases under $1,000. Exceptions to the requirement of this section to maintain a master file for each procurement initiated are permitted only if responsibility for the file is transferred to another office, or, if early retirement or destruction is authorized under the provisions of pertinent special regulations.

(2) In the event the resulting contract or contracts are transferred to other offices or installations for administration, only those records that are necessary for the administration of the contract are required to be forwarded to the administering office or installations. The cover sheet for the contract administration file maintained by the office or installation administering the contract (paragraph (b) of this section) will identify the master file and give the name of the installation where the contract was initiated and where all records not transferred are maintained. Original or authenticated copies of correspondence pertinent to the contract and all required determinations and findings with supporting data, such as are involved in mistakes in proposals, preaward surveys, etc., pertaining to a particular contract will accompany such contract at all times.

(3) The file containing the records and documents of negotiations referred to in subparagraph (1) of this paragraph shall be identified by a cover sheet designated as "Summary of Negotiation and Contract Award Data." The Head of each Procuring Activity is authorized to publish an appropriate form of such designation and to delegate authority for local reproduction. The form so published shall include as a minimum a check list and certification substantially as detailed below. Additional items and/or reductions of monetary limits separating Parts I and II of the form, determined by the Head of a Procuring Activity to be necessary or appropriate to its contract procedure or records thereof, may be included in the form promulgated by the Procuring Activity.

SUMMARY OF NEGOTIATION AND CONTRACT AWARD DATA

The purpose of this summary, pursuant to § 592.308, is to present a brief statement of basic data as to which complete detail in narrative or documentary form are contained in the assembled file underlying this cover sheet. Each pertinent item on this form is to be completed either by filling in blanks or by the insertion of data appropriate to the purpose of the item and as to which supporting papers are contained in the file.

Contract date ------- Contract No. -------

Name of Contractor ----------

Part I. Items 1 to 8 below will be completed for all negotiated contracts, except those covering small purchase.

1. (Copy of procurement order, requisition, or document upon which procurement is based, or reference thereto).
2. (Complete justification for negotiation).
3. (Copy of request for proposals, including drawings and specifications or reference thereto).
4. Number of requests for proposals distributed ----------
   Date of distribution -------
   Number of proposals received -------
   Date of awards -------.
5. (Statement relative to contingent fees, signed by the Contractor).
6. (Special contract provisions, or reference thereto).
7. Small business ------ (Yes or No).
8. Regular dealer ------ or manufacturer ------ (Yes or No). ----------

Part II. Items 9 to 14 below will be completed for negotiated contracts which are expected to exceed $25,000 (except that the Head of each Procuring Activity may reduce the dollar value if desired).

9. Labor area classification ----------.
10. Amount of work to be subcontracted $------ ---- percent.
11. (Explanation of any Government financial assistance required by the Contractor).
12. (Detail of survey or other determination of Contractor's ability to consummate the contract).
13. (Justification for this award, and determination if required).
14. (Summary of proposal received, with comparative information on all factors entering into total cost).

I certify that I have this date reviewed this contract file and that it contains papers in support of the above data and is otherwise considered to provide a clear and complete record of the negotiation and award of this contract.

(Signature) ----------

(Contracting Officer, or Contracting Officer's Representative)

(Date)

(b) *Contract administration file.* Each purchasing office or installation administering contracts awarded by negotiation will maintain files which will provide a complete résumé of the administration of each contract. Unless these files are set up on an individual contract basis they must be so organized that they will provide an accurate and complete identification and cross-reference to related files. Upon final payment all papers pertaining to the administration of a particular contract will be consolidated into a single file. This file will be preserved in such office or installation for a period of 6 years following the final payment on the contract unless retired under pertinent special regulations.

SUBPART D—TYPES OF CONTRACTS

§ 592.401 *Authorized types of contracts*—(a) *Basic policy.* In accordance with the basic policy set forth in § 402.401 of this title the fixed-price type of contract generally shall be used for negotiated contracts; other methods of contracting may be used only when the requirements of Subpart D, Part 402 of this title and this subpart have been satisfied.

(b) *Pricing in connection with type of contract selected.* (1) Efficient procurement includes a discriminating use of the various types of authorized contracts. The type of contract selected has an important bearing upon the price to be paid by the Government. When competitive conditions or available cost data are sufficient to indicate reasonableness of the price, the fixed-price type of contract under which the price is not subject to subsequent adjustment affords the most effective means of reducing total cost to the Government. It is under this type of contract that incentives to production efficiency are greatest. It must be recognized, however, that prices under such contracts may include charges for contingencies. Such provisions may be eliminated, at least in part, by the use of price redetermination clauses. Many of the normal risks involved in contract performance are shifted to the Government under the cost-reimbursement type of contract and the fixed-price type of contract under which the price is subject to possible upward adjustment. The relative risk borne by the contractor, the degree of incentive to production efficiency and the administrative cost involved under each type of contract should be given careful consideration in selecting the method of contracting.

(2) It is the policy of the Army to obtain the maximum use of funds, and to secure the largest possible quantities of materials of requisite quality which can be purchased with those funds. To that end, efforts will be directed toward close initial pricing and close pricing on redetermination, rather than to rely on recapture of excessive profit by statutory renegotiation.

(3) It is the policy of the Army to secure "close prices," which will be fair both to the Government and the contractor and which will provide an incentive for efficient performance by establishing an adequate margin of profit and by eliminating allowances for contingencies to the greatest extent possible. The objective of this policy is to keep management alert in an effort to avoid increased costs which would reduce the established profit, and to reduce costs, if possible, in order to increase the opportunity for additional profit.

(4) Profit or fee allowances will be determined separately under each contract, and "across-the-board" agreements with contractors as to rates of profit or fee will not be made. The determination of a fair and reasonable profit or fee is a matter of sound business judgment. There are no conclusive rules or formulas which would be suitable for uniform application; however, in arriving at a fair and reasonable profit or fee, the following factors should be considered:

(i) Type of contract.

(ii) Performance risks.

(iii) Record of efficiency in production.

(iv) Character and extent of subcontracting.

(v) Reliability of contractor's cost estimates.

(vi) Equipment, facilities, or financial assistance furnished by the Government.

(vii) Invested capital.

(viii) Possible present or future benefit to the contractor.

(ix) Value added by the manufacturing processes.

(x) Contingency factors.

§ 592.402 *Fixed-price contract.* (a) The fixed-price contract provides for a firm price or prices for the supplies or services which are being procured. This type of contract may include a provision

[1] To be included when applicable.

for price escalation agreed to at the time of entering into a contract. Authorized price escalation clauses are set forth in § 596.151 of this subchapter. (See also § 402.401 of this title and § 592.401.)

(b) In a fixed-price contract for architectural or engineering services relating to any public work or utility project, the maximum price for such services shall not exceed six per centum of the estimated cost of such project (exclusive of the fixed fee for the project).

(c) Part 414 (Contract Cost Principles) of this title will not be used in negotiating prices under fixed-price contracts other than (1) by auditors for the purpose of preparing advisory reports, (2) by Contracting Officers to the extent they deem it advisable, as a working guide only, and (3) by Contracting Officers when negotiating research and development contracts with educational or nonprofit institutions when no fee or profit is contemplated (see § 407.704 of this title).

§ 592.403 *Fixed-price contract with provision for redetermination of price.* (a) Pursuant to the policies set forth in § 402.403 of this title, an appropriate price redetermination clause, as authorized in § 596.152 of this subchapter, should be used in fixed-price contracts in those instances when—

(1) There are no data to indicate reasonableness of price, such as lack of effective competition or the absence of an independent Government estimate; or

(2) The estimate of the low offeror, or the only offeror, exceeds the independent Government estimate by an unreasonable amount; or

(3) It is necessary or desirable to eliminate charges for contingencies from the contract amount; or

(4) It is necessary or desirable to incorporate incentives to increase production efficiency and to reduce costs; or

(5) Other circumstances require protection of the interests of the Government by use of price redetermination clauses.

(b) In accordance with the above, the forms of price redetermination clauses set forth below may be used in negotiated fixed-price contracts without approval of higher authority, except for those approvals as may be required by the Head of a Procuring Activity. Price redetermination clauses not included in subparagraphs (1) through (3) of this paragraph will not be used without the prior approval of the Chief, Purchases Branch, Assistant Chief of Staff, G–4, Department of the Army.

(1) Form III in any negotiated contract up to amounts not in excess of $100,000.

(2) Form II–B in any negotiated contract where the delivery schedule calls for deliveries over a prolonged period, regardless of contract amount.

(3) Form IV in any negotiated contract, regardless of contract amount.

(c) Upward revision to be allowed in Forms II–B and IV, price redetermination clauses, will be limited to 10 percent in all possible cases and in any event limited to 25 percent. Only the standard price redetermination clauses, without deviation except as authorized herein, will be used under this excepted authority. In view of the protection afforded to the contractor by the use of a price redetermination clause in reduction of the risks to him, careful consideration will be given in determining the rate of profit to be allowed, with due weight being given to the percentage of the contract consisting of material, subcontracting, standard commercial items ("off-the-shelf" items), and purchased parts. It will not be assumed that a contractor who agrees to inclusion of a Form III, price redetermination clause in a proposed contract is assuming appreciable risk, unless it can be determined that the price offered by him does not include contingency provisions. Form IV, price redetermination clause, will be used in lieu of the Form II–B clause in production contracts in all instances, regardless of the contract amount, when the delivery schedule is so short as to preclude completion of price redetermination well in advance of completion of the contract or deliveries thereunder.

(d) Part 414 (Contract Cost Principles) of this title, will not be used in negotiating prices under fixed-price contracts containing price redetermination clauses other than (1) by auditors for the purpose of preparing advisory reports, (2) by Contracting Officers to the extent they deem it advisable, as a working guide only, and (3) by Contracting Officers when negotiating research and development contracts with educational or nonprofit institutions when no fee or profit is contemplated. (See § 407.704 of this title.)

§ 592.405 *Cost contract.* (a) Pursuant to the requirements of § 402.405 of this title, the cost (or cost-sharing) type of contract may be used in those cases where fixed-price (with or without provision for price redetermination) contracts are not suitable, where the contractor's cost recording system facilitates audit, and where close scrutiny by Government representatives during performance of the contract will give reasonable assurance that the contractor is not employing wasteful or extravagant methods.

(b) Standards for the determination and allowance of costs in connection with the performance of cost type contracts are set forth in Part 414 of this title.

§ 592.406 *Cost-plus-a-fixed-fee contract.* (a) Pursuant to the requirements of § 402.406 of this title, the cost-plus-a-fixed-fee type of contract may be used in those cases where fixed-price (with or without provision for price redetermination) contracts are not suitable, where the contractor's cost recording system facilitates audit, and where close scrutiny by Government representatives during performance of the contract will give reasonable assurance that the contractor is not employing wasteful or extravagant methods.

(b) Under a cost-plus-a-fixed-fee type of contract, the contractor is reimbursed for substantially all its costs, and the fixed-fee represents essentially profit without risk. Such fee should be determined not by the amount of the estimated cost, but by the extent and nature of the work supervised or the services to be performed by the contractor. Thus in fixing the fee consideration should be given, among other factors such as those listed in § 592.401 (b) (4), to whether the work or production involved is complicated or simple, the turn-over slow or rapid, how much or little of the work will be subcontracted, and how extensive or difficult the duties of the prime contractor will be in supervising the subcontracted work.

(c) Standards for the determination and allowance of costs in connection with the performance of cost-plus-a-fixed-fee type contracts are set forth in Part 414 of this title.

§ 592.407 *Time and materials contract.*—(a) *General.* It is the policy of the Army that time and materials contracts will be awarded only on the basis of sound business practice, and that the expenditure of funds thereunder shall be supervised and controlled to assure maximum return and benefit to the Government. In such type of contracts, charges for material will be reimbursed at Contractor's cost without allowance for overhead or profit; however, a material handling charge may be allowed if in accordance with the Contractor's established accounting system, and if it is not duplicated in the overhead rate allowed the contractor.

(b) *Limitation on use.* The time and materials type of contract will be used only after a determination by the Head of the Procuring Activity (or by the Contracting Officer, if so delegated in Procuring Activity instructions), that—

(1) Such method of contracting is likely to be less costly than other methods; or

(2) It is impractical to secure supplies or services of the kind or quality required without the use of such type of contract.

(c) *Justification of use.* The official contract file will contain a certificate, accomplished by the Contracting Officer, justifying the use of a time and materials contract, which certificate will include information such as the following:

(1) Hourly rates, including overhead and profit, compared with—

(i) Previous Governmental contracts of this type.

(ii) Rates normally charged on commercial contracts of this type.

(iii) Existing contracts with other agencies.

(2) Complete justification of profit percentages in excess of 10 percent of direct labor and labor overhead.

(d) *Reimbursement for material.* All time and material type contracts will provide that material purchased, manufactured, or otherwise procured thereunder shall be reimbursed by the Government to the contractor at cost. For the purpose of this section, the term "at cost" will be construed to mean:

(1) *Standard commercial parts.* When the Contractor purchases the material furnished, the net cost (cost clear of anything extraneous, i. e., cash discounts trade discounts, rebates, commissions, and any other allowances and credits available to the Contractor) to the Contractor, regardless of date purchased, plus properly identified and supported freight or transportation charges, if any, paid by the Contractor. Other costs, such as material handling expense, which must be included as a part of overhead in the unit labor rate, are not allowable under this section.

(2) *Fabricated special parts.* When the Contractor manufactures the material furnished as a nonstandard item, the net cost, including direct labor expense, direct material expense (clear of all deductions, such as cash discounts, trade discounts, rebates, commissions, and any other allowances and credits available to the Contractor) to the Contractor, plus allocable freight or transportation charges, other direct charges, if any, and related overhead costs but no allowance for profit.

(3) *Fabricated standard parts.* (i) When the Contractor manufactures the parts furnished as a standard item, the net cost (after deducting all discounts, rebates, commissions, and all charges for the contractor's profit) will constitute the charge allowable at date of delivery to the Government; however, (ii) when all or some of the parts furnished appear on a current Federal Supply Schedule the contract will make reference to the applicable schedule(s) and the cost will not exceed the schedule price but will be the lesser price allowed under (i) above.

§ 592.408 *Letter contract.* The primary purpose of authorizing the use of letter contracts preliminary to definitive contracts is to expedite the beginning of production so that deliveries will be obtained in time to meet phased requirements, particularly in support of troops in combat and the expansion of the Armed Forces. It is essential, however, that letter contracts be converted to definitive contracts at the earliest practicable date.

§ 592.408–50 *Approval requirement.* Letter contracts, or any other type of preliminary contract, will not be used without prior approval of the Assistant Chief of Staff, G–4, Department of the Army, Chief, Purchases Branch, except that, subject to limitations imposed by § 592.408–53, heads and acting heads of technical services are authorized to issue letter contracts as indicated below.

(a) *Letter contracts for other than research and development.* Heads and acting heads of technical services are authorized to issue letter contracts for other than research and development in amounts not to exceed $2,500,000 when the total estimated definitive contract amount is $5,000,000. When the total estimated amount of the definitive contract is less than $5,000,000 the maximum amount of any letter contract which the heads of technical services may authorize is 50 percent of such total estimated definitive contract amount. When the total estimated definitive contract amount of any procurement exceeds $5,000,000, or it is desired to award a letter contract for an amount in excess of 50 percent of the total estimated amount of the definitive contract, irrespective of such total, prior approval of the Assistant Chief of Staff, G–4, Department of the Army, Chief, Purchases Branch, is required before issuance of the letter contract. (For instructions as to information to be furnished in requesting authority to issue letter contracts as herein specified, see § 592.408–54.)

(b) *Letter contracts for research and development.* Chiefs and acting chiefs of technical services are authorized to issue letter contracts for research and development within the scope of an authorized research and development project in amounts not to exceed $125,000 when the total estimated definitive contract amount is $250,000. When the total estimated amount of the definitive contract is less than $250,000, the maximum amount of any letter contract which the chiefs of technical services may authorize is 50 percent of such total estimated definitive contract amount. When the total estimated definitive contract amount of any procurement exceeds $250,000, or it is desired to award a letter contract for an amount in excess of 50 percent of the total estimated amount of the definitive contract, irrespective of such total, prior approval of the Assistant Chief of Staff, G–4, Department of the Army, Chief, Purchases Branch, is required before issuance of the letter contract. (For instructions as to information to be furnished in requesting authority to issue letter contracts as herein specified, see § 592.408–54.)

§ 592.408–51 *Redelegation of authority.* The authority delegated in § 592.408–50 (a) and (b) may be redelegated by chiefs of technical services to the extent deemed necessary to personally selected members of their organizations. Such selected members are not authorized to redelegate this authority.

§ 592.408–52 *Supersedure by definitive contract.* (a) Letter contracts will be superseded by definitive contracts at the earliest practicable date. Consequently, definitive contracts will be executed promptly after proper consideration has been given, when possible, to such factors as—

(1) Reasonable assurance that the terms reached are the minimum acceptable to the contractor and are fair both to the Government and the Contractor;

(2) Relationship to precedents as to price redetermination and profit established by similar contracts with Army, Navy, Air Force, or other Government agencies;

(3) The effect on future contract negotiation with the Contractor; and

(4) The primary importance of meeting phased delivery requirements.

(b) Definitive contracts executed after 15 May 1951 will contain the Assignment of Claims clause set forth in § 596.103–8 of this subchapter.

§ 592.408–53 *Conditions for use.* Subject to §§ 592.408–50 and 592.408–51, the authority to issue letter contracts is contingent upon compliance with § 592.408 of this title and the conditions set forth below:

(a) That the definitive contracts will contain all required standard clauses, in addition to such standard optional clauses as are necessary to protect fully the interest of the Government, and that this provision will be made a condition of each letter contract.

(b) That all fixed-price contracts, when there is no information upon which to base reasonableness of price, will contain applicable standard price redetermination clauses with upward limitations thereunder held to a minimum, but in no event to exceed 25 percent, and that this provision shall be made a condition of each applicable letter contract.

(1) Irrespective of total estimated definitive contract amount, a definitive contract or letter contract providing for a price redetermination clause with upward revision exceeding 25 percent must have prior approval of the Assistant Chief of Staff, G–4, Department of the Army, Chief, Purchases Branch.

(2) Independent Government estimate, prepared prior to receiving estimate from the proposed Contractor, may be used to determine reasonableness of price.

(c) That the fixed-fee in a cost-plus-a-fixed-fee type of contract will not exceed the limitations set forth in § 402.406–1 of this title, with further consideration given to the following:

(1) The absence of risk to the Contractor.

(2) The estimated quantity of the following as compared with the total estimated definitive contract price: (i) material, (ii) subcontracting, (iii) purchased parts, and (iv) "Off-the-Shelf" items.

(3) The size of the proposed contract.

(d) That the profit to be paid shall be consistent with the protection afforded to the Contractor in the minimizing or removal of risk to him, with due consideration given to the estimated quantity of the following as compared to the total estimated contract price: (1) material, (2) subcontracting, (3) purchased parts, and (4) "Off-the-Shelf" items.

(e) That the duration of the letter contract will not exceed 120 days from the date of execution. Extensions which increase the duration beyond 120 days will not be made without prior approval of the Assistant Chief of Staff, G–4, Department of the Army, Chief, Purchases Branch.

§ 592.408–54 *Information to be furnished when requesting approval of letter contracts.* Requests for authority to award letter contracts submitted to the Assistant Chief of Staff, G–4, Department of the Army, Chief, Purchases Branch, must indicate that the use will be in accordance with the basic policies set forth in § 402.408 of this title, and will include the following:

(a) Statement as to the necessity and advantage to the Government of the use of the proposed letter contract.

(b) Name and address of proposed Contractor.

(c) Location where contract is to be performed.

(d) Brief description of supplies and quantities to be furnished or services to be rendered.

(e) Duration of letter contract in number of days from date of execution.

(f) Amount of letter contract.

(g) Total estimated definitive contract amount, including estimated cost of (1) facilities, (2) special tooling, equipment, etc., (3) activation or reactivation, (4)

training of personnel, and (5) subcontracting.

(h) Estimated delivery schedule.

(i) Type of definitive contract proposed (fixed-price, cost-plus-a-fixed-fee, etc.).

(j) Statement as to whether the definitive contract will contain all required standard clauses in accordance with Subchapter A, Chapter IV and Subchapter G, Chapter V of this title, and other Department of the Army directives.

(k) List of all standard optional clauses which will be made a part of the definitive contract, including (1) Patent clauses, (2) Copyright clause, (3) Special Tooling clause, (4) Government Property clause, (5) Facility agreement, and (6) Price Redetermination clause (including form number and percentage of upward revision).

(l) Statement that the provisions of paragraphs (j) and (k) of this section will be made a condition of the subject letter contract.

(m) Statement that the minimization of risk, through inclusion of the price redetermination clause, will be given due consideration in determining the rate of profit to be allowed, with further attention given to the amount of each of the following as compared to the total estimated contract amount: (1) material, (2) subcontracting, (3) purchased parts, and (4) "Off-the-Shelf" items.

(n) Source of funds to be used in the proposed procurement, showing—

(1) Total allocated, and

(2) Total obligated to date, exclusive of the proposed letter contract.

(o) Statement that research and development funds will not be used when the work to be covered is not for research and development.

(p) Statement that the definitive contract will be executed with a minimum of delay.

(q) Statement that the Assistant Chief of Staff, G–4, Department of the Army, Chief, Purchases Branch, will be notified through the Head of the respective Procuring Activity, without delay, as to the date of execution of the letter contract.

(r) Statement that request for approval of award, if required, will be forwarded in time to reach the Office of the Assistant Chief of Staff, G–4, Department of the Army, Chief, Purchases Branch, no later than 15 days prior to the expiration of the letter contract.

(s) Statement that the letter contract will be reported on Individual Procurement Action Report (DD Form 350) in the amount of the letter contract; and that subsequent reports will be submitted, when and if changes are made in the amount of obligation of the letter contract, only in the amount of such change, whether plus or minus. Further, that when formal contract is executed, report will be made only in the amount of the definitive contract, less the cumulative obligation under the letter contract and any changes thereto. (See Subpart C, Part 606 of this subchapter.)

§ 592.408–55 *Approval for modification of letter contracts.* Letter contracts approved for issuance by the Assistant Chief of Staff, G–4, will not be extended or amended without prior approval of Assistant Chief of Staff, G–4, Department of the Army, Chief, Purchases Branch. Requests for approval of extensions or increases will be submitted in the following form:

(a) Name and address of Contractor.

(b) Description of work to be performed, showing quantity of items originally approved.

(1) If quantities have been increased subsequent to original approval, show such quantities, authority, and date.

(2) If additional quantities are to be procured, show such quantities and new total.

(c) Date originally approved.

(d) Date letter contract was executed (accepted by Contractor).

(e) Duration originally approved.

(1) If extensions in the duration have been made subsequent to original approval, show such extensions, authority, and dates.

(2) If additional days are required, show number required and new total.

(f) Amount of letter contract originally approved.

(1) If increases have been made subsequent to original approval, show each increase, authority, and dates.

(2) If additional increase is required, show amount and new total, and source of funds, including: (i) total allocated, and (ii) total obligated to date, exclusive of the proposed increase.

(g) Estimated definitive contract total originally approved.

(1) If increases have been made subsequent to original approval, show each increase, authority, and date.

(2) If additional increase is required, show amount and new total.

(h) Complete justification for extension or increase requested, including reasons as to why definitive contract cannot be executed without such amendment.

NOTE. The requirements of this section shall not be construed to restrict Procuring Activities from approving definitive contracts, within the authority of § 606.204 of this subchapter, for which letter contracts were approved by the Assistant Chief of Staff, G–4. Department of the Army, Chief, Purchases Branch, prior to the designation of such authority.

§ 592.409 *Other types of contracts*—(a) *Purchase order.* A Purchase Order is a fixed-price contract, in the form of a written acceptance signed by the Contracting Officer, for the purchase of supplies or services from an established price list or following a written or oral quotation of prices. Purchase Orders shall be used only for negotiated purchases and as prescribed in Part 596 of this subchapter. DD Form 738 is a type of Purchase Order authorized for use for purchases not in excess of $5,000 (see subpart F, part 592 of this subchapter).

(b) *Open-end contract.* An open-end contract is an agreement for supplies or services which contains no or varying limits of time and quantity and which usually involves recurring order and charges in varying degree.

(c) *Informal commitment.* (1) An informal commitment is a verbal order or written communication by a Contracting Officer or his authorized agent, requesting a person or firm to furnish supplies or services to the Government or a defense Contractor.

(2) Informal commitments will be entered into under the circumstances only as authorized by § 606.409–1 (c) of this subchapter, and pursuant to instructions of the Head of a Procuring Activity issued under authority contained in this Procedure.

(3) Informal commitments will not be entered into for specific amounts. The basis of payment will be "fair compensation" as approved by the appropriate approving authority, depending upon the amount involved.

(4) Requests for formalization of informal commitments will be processed pursuant to § 606.409–2 of this subchapter within 10 days after completion of performance thereof.

(5) No payment will be made or certified in connection with an informal commitment until formalization has been approved and accomplished.

SUBPART E—ADVANCE PAYMENTS

§ 592.502 *Authority to make advance payments.* It is the policy of the Army to require Contractors furnishing supplies and services to be able to perform contracts with their own funds or with private financing. In negotiated procurements, Contractors may be assisted in financing needs by providing for expeditious reimbursement for proper expenditures under cost-reimbursement type contracts, and by use of progress payments in connection with fixed-price contracts. The policy with respect to the use of progress payments is set forth in § 596.150–1 of this subchapter. Exceptions to this general policy may be permitted in negotiated procurements in those instances in which the Contractor is particularly adapted to the supplying of items or services to be procured, but who is limited in working capital and is unable to obtain private commercial financing. In such cases, consideration may be given to the use of Government financing through advance payments as prescribed in Subpart E, Part 402 of this title and subpart.

(a) Authority to make advance payments is vested in the Under Secretary of the Army. Requests for such authority will, in each instance, be submitted to the Comptroller of the Army, through the Head of the Procuring Activity concerned and the Chief of Finance. The request including all supporting documents, submitted in original and two copies, will be supported by the following data:

(1) All requests for authority to make advance payments will contain a finding of fact and recommendation substantially as follows, signed by the Chief of the originating office and the Chief of each office through which the request is forwarded:

Based on statements contained in inclosures attached hereto (and preceding indoresements [1]), I find that an Advance Payment of not to exceed -- percent of the total cost of Contract No. ------ referred to herein is proper; is in the interest of national defense and it is recommended that it be approved by the Under Secretary of the Army.

[1] To be included when applicable.

(2) All requests for advance payment authorizations shall be accompanied by the following information attached as inclosures:

(i) Request for advance payment by Contractor.

(ii) Statement of Contractor's financial condition.

(iii) Breakdown of Contractor's estimated working capital requirements necessitating advance payments in the amount requested. (This may be evidenced by flow charts, planned schedules of expenditures, etc.)

(iv) Statement of terms of the proposed advance and method of repayment or liquidation.

(v) An original and two copies of the Determination and Findings required by § 402.302 (g) of this title in the form set forth in § 592.305 (c).

(vi) Advance Payment Clause proposed.

(vii) Other pertinent information (to include but not be limited to)—

(*a*) Date and identifying symbol of the approval of the award, together with citation of the appropriation available.

(*b*) Type of contract (fixed price, CPFF, or cost-reimbursable; if fixed price or CPFF, state percentage rate of profit or fee).

(*c*) Rate of interest to be charged on advance payment.

(*d*) If contract includes fee or profit element and no interest is to be charged on advance payment, statement of justification therefor.

(*e*) Dollar amount of the contract, the items to be supplied and a schedule of deliveries.

(viii) Copy of the Contracting Officer's report on the advance payment request, if any.

(3) Letter or forwarding indorsement from the Head of the Procuring Activity shall also include statements as to the following:

(i) Existence of requirement for the goods or services.

(ii) That no other contractor with other means of financing is available on an equally desirable basis.

(iii) Security proposed to protect the Government against loss, together with definite recommendation as to the adequacy thereof and negative covenants, if any, needed for further protection of the Government against loss.

(iv) That definitive contract will contain an Advance Payment Article in the form inclosed.

(v) General character and responsibility of the Contractor, as well as his technical ability to perform the contract, including statement of prior or existing contracts entered into with contractor. Contracts so listed shall indicate—

(*a*) Whether contract contained provision for advance payments; and if so, the amount thereof and were advances made with or without interest.

(*b*) Type of contract (fixed price with profit, CPFF or cost-reimbursable).

(b) Requests for approval of the authorization of an advance payment may be presented during the negotiation of a contract and prior to completion thereof. If the proposed contract is available, a copy thereof shall be attached to the request. If copy of the contract is not available at the time the request is forwarded, a copy shall be submitted promptly to the Chief of Finance for review and filing subsequent to execution.

§ 592.503 *Limitations on authority to make advance payments.* A request for authorization to make advance payments shall not be forwarded unless it comes within the provisions of § 402.503 of this title. It should be noted that paragraph (b) of § 402.503 of this title makes an exception which permits advance payments in connection with nonprofit research and development contracts with educational institutions.

§ 592.504 *Security provisions.* (a) Advance payments shall be authorized only on the furnishing of adequate security by the Contractor. This security shall be that required under provisions of the contract involved. A guarantee by, or bond of, a parent corporation is desirable if the subsidiary corporation has limited financial responsibility, especially in the case of a newly formed subsidiary corporation. Whether or not guarantees, subordination agreements, or other security devices shall be required in connection with advance payments is within the discretion of the Secretary. Advance payment bonds shall be required only in the most exceptional circumstances.

(b) When contract clause provides for deposit of monies from the advance payment to be placed in a special bank account, the contractor shall obtain, execute, and turn over to the Contracting Officer for transmittal, through the Head of the Procuring Activity concerned and the Chief of Finance, to the Comptroller of the Army two copies of an agreement executed by each bank in which a control bank account is established. Such an agreement shall be prepared substantially in the following form:

AGREEMENT

Agreement entered into this ------ day of -------- 195--, between the United States of America, represented by the Contracting Officer executing this agreement, hereinafter called the Government, ----------,
(Contractor)
a corporation organized and existing under the laws of the State of ----------, hereinafter called the Contractor, and ----------, a banking corporation of the State of ----------, located ----------, hereinafter called the bank.

RECITALS

(a) Under date of ----------, 195--, the Government and the Contractor entered into Contract No. ------, or a supplemental Agreement thereto, providing for the making of certain advance payments to the Contractor.

(b) Said Contract or Supplemental Agreement requires that amounts advanced to the Contractor thereunder be deposited in a Special Bank Account or accounts at a member bank or banks of the Federal Reserve System or any "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (Act of August 23, 1935; 49 Stat. 684, as amended; 12 U. S. C. 264), separate from the Contractor's general or other funds; and, the bank being such a bank, the parties are agreeable to so depositing said amounts with the bank.

(c) It is further agreed that the Government shall have a lien upon the credit balance in said account to secure repayment of all advance payments made to the Contractor, which lien shall be superior to any lien or claim of the bank with respect to such account. In the event of the service of any writ of attachment, levy of execution or commencement of garnishment proceedings with respect to the Special Bank Account, the bank will promptly notify the office administering the advance payment thereof.

Now, therefore, in consideration of the premises and for other good and valuable considerations, the parties hereto agree that the bank will be bound by the provisions of said contract or contracts relating to the deposit and withdrawal of funds in the Army Special Bank Account, but shall not be responsible for the application of funds withdrawn from said account.

In witness whereof the parties hereto have caused this Agreement to be executed as of the day and year first above written.

THE UNITED STATES OF AMERICA,
By ----------
(Official Title)

(Contractor)
By ----------
(Bank Depository)
By ----------

(c) Upon the liquidation of advance payments, releases, and agreements to release mortgages, guarantors in guaranty agreements, sureties on advance payment bonds, and other security devices which may be required in connection with advance payments, will be executed by the Under Secretary of the Army. Requests for such executions, accompanied by a certification of the Contracting Officer that the advance payment has been completely liquidated, will be forwarded to the Under Secretary of the Army (address request to the Comptroller of the Army) through the Head of the Procurement Activity concerned and the Chief of Finance.

§ 592.505 *Interest on advance payments.* Except when specifically authorized by the Under Secretary of the Army to be made without interest, whenever an advance payment is made to a Contractor by the Army, a charge will be made for use of Government money so furnished. The charge will be in the nature of an interest charge, computed on the rate set by the Under Secretary of the Army and figured in accordance with SR 35–225–8 (Fiscal Accounting—Accounting and Reporting for Advance Payments and Recoupments). In the case of a fixed-price contract, the amount of the charge will be deducted from payments under the contract. In the case of a cost-plus-fixed-fee contract, the charge will be deducted from the amount of the fee otherwise payable to the Contractor. In case such fee is not sufficient to take care of such interest, chargeable deduction will be made from any other monies due the Contractor. Such interest will not be an item of reimbursable cost under the contract.

§ 592.506 *Reports.* See SR 35–225–8 (Fiscal Accounting—Accounting and Reporting for Advance Payments and Recoupments).

§ 592.550 *Contract clauses.* Instructions pertaining to the use of contract clauses providing for advance payments are set forth in § 596.150–2 of this subchapter.

§ 592.551 *Uncollected balances.* For action to be taken on uncollected balances on advance payments under contracts, see SR 35–225–8 (Fiscal Accounting—Accounting and Reporting for Advance Payments and Recoupments).

SUBPART F—SMALL PURCHASES

§ 592.601 *Purpose.* (a) With the realization that small purchases comprise a very large percentage (approximately 40 percent) of procurement actions and a very small percentage (less than 1 percent) of the total dollar value, much attention has been centered on simplifying the small purchase procedure. It is believed that a clear understanding of the background and intent of this procedure is necessary for its intelligent use and maintenance of its simplicity. With the knowledge that for many years it has cost the Government more money to effect a very small purchase than the actual value of the purchase, Congressional and other governmental groups and the Department of the Army have been striving to reduce and, if possible, invert this situation.

(b) In order to simplify small purchases, the Department of the Army has established the use of three procedures authorized by the Department of Defense, namely, the use of DD Form 738 (Order and Voucher for Purchase of Supplies or Services), Standard Form 44 (Purchase Order—Invoice—Voucher), and the imprest fund. These forms and procedures are so designed that proper utilization thereof will simplify the small purchase procedure and reduce administrative costs and workload. In addition to these three procedures, negotiated procurements may be made where deemed necessary by the contracting officer by the use of other approved purchase forms not specifically designed for small purchases.

(c) This subpart is to be considered as a general guide in the making of small purchases except where specific action is directed. It is anticipated that procedures at individual installations or commands will vary slightly according to local conditions and to meet specific situations. In this connection audits, inspections, requests for copies of purchase documents, completeness of contract files, and normal procurement safeguards in general must be considered with respect to the objectives to be attained. Only the minimum adequate protection should be established in the small purchase area. Any additions tend to increase the administrative costs and workload. The extent of such protection to the Government is a command decision at each successive echelon.

§ 592.602 *Policy.* (a) Small purchases will be made by negotiation. Written determinations with respect to the method of effecting small purchases are not required, unless specifically directed in this subpart.

(b) Section 2 (c) (3), Armed Services Procurement Act of 1947, authorizes the negotiation of purchases and contracts without advertising if the aggregate amount does not exceed $1,000. Section 2 (c) (1) of the Armed Services Procurement Act of 1947, however, will be cited as authority to negotiate small purchases as defined in § 402.600 of this title, during a period of national emergency declared by the President or by Congress and when the Secretary has made a determination in accordance with § 402.201 of this title and § 592.201 to negotiate under section 2 (c) (1).

(c) The notification of unsuccessful suppliers, required by § 592.150 is not required for small purchases made by negotiation.

(d) The written determination by the Contracting Officer as to the necessity for preaward survey, required by § 590.357 of this subchapter, is not required for small purchases made by negotiation.

(e) Statement of justification for negotiation, required by § 592.201–2 (d), is not required for small purchases made by negotiation.

(f) In requesting quotations (oral quotations are desirable) from vendors, all items in similar categories (such as, small hardware items, spare parts for vehicles, office supplies, etc.) may be grouped on the same purchase order and the lowest aggregate quotation rather than the lowest quotation on each item may be accepted. The vendor will be advised of this when he is requested to quote.

(g) Submission of quotations by vendors incident to small purchases will be made in accordance with § 606.201 (b) of this subchapter.

(h) The overriding consideration in small purchase procedure is to accomplish such procurement as economically, simply, and expeditiously as practicable. Accordingly, administrative requirements not contained in Subchapter G, Chapter V, or Subchapter A, Chapter IV of this title for additional copies or wider distribution of small purchase contracts, delivery orders, or the addition of certificates with regard to the use or purpose of the items being purchased, required for accounting or other purposes, will not be observed by contracting officers. Any exception deemed necessary will be authorized in the future only through issuance of changes to Subchapter G, Chapter V, of this title or in Army Procurement Circulars.

§ 592.604 *Imprest Fund.* (a) The Imprest Fund is the method preferred for accomplishing small purchases when cash payment is contemplated. In addition to the instruction in § 402.604 of this title the details of its operation are contained in SR 35–350–10 (Imprest Funds for Small Purchases). It is the only authorized cash small purchase procedure, except for cash payments by Accountable Disbursing Officers.

(b) The Imprest Fund may be used to pay for items listed on the Federal Supply Schedules if the vendor concurs.

(c) On Standard Form 1165 there is space to list only four items. If more space is necessary in a purchase transaction using the Imprest Fund, a plain sheet of paper may be used as a continuation sheet. The total amount of the transaction must appear on the Standard Form 1165.

§ 592.605 *Order - invoice - voucher method (Standard Form 44).*

§ 592.605–1 *Limitations on use.* Standard Form 44 is authorized for use within and outside the continental limits of the United States.

§ 592.605–2 *Examples of use.* (a) Standard Form 44 (U. S. Government Purchase Order — Invoice — Voucher) which has been promulgated by the Administrator of General Services with the approval of the Comptroller General of the United States, is authorized for accomplishing small purchases of supplies and services other than personal. The primary purpose of the form and the procedure for its use is to permit greater economy and convenience for both the Government and the vendor than that which results from the use of other procedures. It provides in one document a purchase order or delivery orders, a receiving report, a property voucher, and a payment voucher. In addition to the conditions for use cited in § 402.605–2 of this title, it is intended for, but not limited to use in the following general categories of purchasing operations. For—

(1) Small purchases (particularly those less than $10) where vendors are reluctant to honor small orders because of administrative and billing expenses.

(2) Purchasing from small merchants, farmers, truckers, or any other individual not equipped to bill sales in accordance with normal business practices and not well versed in dealing with the Federal Government.

(3) Other transactions where its use will minimize paper work and administrative expense and act as an incentive for the seller to do business with the Government by simplifying purchasing and expediting payment.

(b) The only authorized payment method is by check unless payment is made by an accountable disbursing officer. The general instructions for use and preparation of the form are prescribed in §§ 592.605–50 and 592.605–54. Additional instructions are prescribed in §§ 592.605–52, 592.605–53 and 592.605–54, which are applicable to the check purchase method.

§ 592.605–50 *Instructions for use.* (a) Purchases with this form will be accomplished by the ordering officer as indicated under the space by this designation on Standard Form 44. The ordering officer will be the contracting officer and/or other officers as may be designated by the commanding officer of the installation, if deemed to be practicable. For example, representatives of the post repair shop, post supply offices, organizational units, and other offices may be appointed as ordering officers to facilitate the accomplishment of such purchases for the user. The appointment of such ordering officers should define the scope and limitations of their authority, such as the supplies or services that may be purchased.

(b) All purchases under this procedure will be negotiated under the authority of section 2 (c) (1), Public Law 413, 80th Congress during the period of the National Emergency, otherwise the authority will be under section 2 (c) (3), but the citation of this authority on Standard Form 44 is not necessary. Ordering officers will take advantage of competition whenever practicable to purchase supplies or services at the most favorable price to the Government; however, competition is not required in purchases of $100 or less where the price is known to be reasonably competitive. In any case, the prices paid for supplies or services must be just and reasonable and not above the established price for the quantity of items involved.

(c) Standard Form 44 may be used for the purchase of supplies or services under the following conditions:

(1) No special contract form or clauses are necessary, except as provided in § 592.651.

(2) The items are authorized for purchase by the installation concerned.

(3) To order items from GSA stores depots or the Federal Supply Schedules.

(d) The ordering officer will be responsible for assuring that funds have been made available in the estimate amount of the purchase contemplated, and for entering in the appropriate spaces, on Standard Form 44, the proper accounting classification to be charged. The signature of the ordering officer on Standard Form 44 will constitute the certification that funds are available under the appropriation and allotment cited in the accounting classification. Where purchases occur frequently, the ordering officer may obtain a lump-sum certification of funds from the fiscal officer under each applicable allotment account for a specified period of time. The ordering officer will advise the fiscal officer before the close of each accounting month the amount of all purchases made on Standard Form 44 which have not been submitted to him for recording of the obligation (§ 592.605–53 (c).

(e) The four-part form is printed in book form, with GSA instructions for use printed on the inside front cover. In case of conflict between the GSA instructions, and those contained in this subpart F, the latter will govern.

§ 592.605–51 *Preparation.* (a) Ordering officers will execute Standard Form 44 in quintuplicate at the time of purchase. Entries will be made in the spaces, as outlined below, starting with the space "Date of order" and ending with the space "Appropriation, limitation, project or other accounting classification."

(b) Date of order—appropriate date will be noted.

(c) Following the name of the agency, "Department of the Army," and in the space "Mailing address," there will be inserted the name and address of the issuing officer or organization.

Example: Department of the Army
Ordnance Maintenance Shop
Camp Hood, Texas

(d) In the spaces "Furnish to" and "Address," the name and address of the office organization that is to receive the item will be inserted.

(e) The columns headed "Quantity," "Item," and "Unit" will be filled in by the ordering officer. The column headed "Amount" and the spaces designated "Total" and "Discount" are to be filled in either by the seller or by the ordering officer prior to the form being signed by the ordering officer.

(f) The space "Purpose" may be left blank. The complete accounting classification which is to be charged will be inserted in the space "Appropriation, limitation, project, or other accounting classification."

(g) The signature of the seller must be obtained in the space for certification of the bill or certified vendor's invoice attached to the original Standard Form 44, U. S. Government Purchase Order-Invoice-Voucher (Copy No. 1).

(h) The signature and title of the ordering officer should be inserted in the space "Ordered by."

(i) All copies of the form must be legible. If the form is to be prepared with a pencil, an indelible pencil should be used. If a plain pen instead of a ballpoint pen is used, caution should be taken to see that the writing shows on all copies.

(j) The business or trade name and address of the seller must be printed in the space provided in order to facilitate payment.

(k) The signature of the authorized certifying officer will be inserted in the designated space after the supplies or services have been received, the receiving section of the form has been executed, and all other entries have been made for payment of the bill. To comply with paragraph 2, SR 35–3210–10, copies of the form will be routed so that the person acknowledging receipt of the supplies may also indicate receipt on the reverse side of Copy No. 1. When the voucher covers nonpersonal services, a certificate of satisfactory performance will be inserted and signed on Copy No. 1.

§ 592.605–52 *Record of purchases for the ordering officer.* The ordering officer will maintain a record of purchases for his own use.

§ 592.605–53 *Check purchase method.* (a) When delivery is made to the ordering officer, the section showing receipt of the items will be accomplished by him on appropriate copies.

(b) When delivery is to be made to anyone other than the ordering officer, the copies of Standard Form 44 will be forwarded to the individual authorized to receive the supplies or services for accomplishment of the receiving section and for obtaining the vendor's signature on copy No. 1 (Seller's Invoice) for certification of the bill. After accomplishment of these sections, copy No. 2 (Seller's Copy of Invoice) will be given to the vendor. Copy No. 4 (Memorandum Copy) will be forwarded to the appropriate property officer; copy No. 1, Copy No. 3 (Receiving Report—Accounting Copy), and copy No. 5 (Additional Copy) will be returned to the ordering officer for processing as a voucher.

(c) For the obligation of funds, all vouchers will be transmitted through the fiscal officer to the disbursing officer. See § 592.605–55 for the illustration of the flow of documents.

(d) The disbursing officer will place the order number(s) of Standard Form 44 on the check so that the vendor may identify the transaction.

(e) When Standard Form 1034—Revised (Public Voucher for Purchases and Services Other Than Personal) is not used as a voucher, distribution of copies of Standard Form 44 is as follows (fig.1):

(1) *Copy No. 1 (original), seller's invoice.* Disbursing officer and General Accounting Office.

(2) *Copy No. 2, seller's copy of invoice.* Vendor.

(3) *Copy No. 3, receiving report; accounting copy.* Disbursing officer.

(4) *Copy No. 4, memorandum copy.* Property officer.

(5) *Copy No. 5, additional copy.* Fiscal officer.

(f) When Standard Form 1034 is used as a voucher—

(1) Standard Form 1034 should be prepared as a voucher with Standard Form 44 attached as subvoucher in any one of the following circumstances. When—

(i) The name and address of the vendor on Standard Form 44 are not clearly legible.

(ii) The amount to be paid the vendor is less than the invoiced amount, apart from the discount deduction, Standard Form 1034 will be used, showing thereon the number of the attached order so that information with respect to the differences may be forwarded to the vendor with the check, attached to Standard Form 1034.

(iii) More than one seller's invoice from the same seller are ready for payment, all such invoices should be consolidated and vouchered on a single Standard Form 1034, indicating thereon the order number of each of the seller's invoices attached so that all may be paid by a single check.

(2) The signature of the authorized certifying officer on Standard Form 1034 will be sufficient in lieu of such signature on each Standard Form 44 that is attached as a subvoucher.

(3) Distribution of copies of Standard Form 1034 (fig. 2) will be as follows:

(i) *Copy No. 1 original (with seller's invoice (copy No. 1), Standard Form 44, attached as a subvoucher).* Disbursing officer and General Accounting Office.

(ii) *Copy No. 2 (with receiving report; accounting (copy No. 3), Standard Form 44, attached as a subvoucher).* Disbursing officer.

(iii) *No. 3 (with copy No. 5 (additional copy) of Standard Form 44, attached as a subvoucher).* Disbursing officer and fiscal officer.

(iv) *Copy No. 4.* Ordering officer.

(v) *Copy No. 5.* Disbursing officer (attaching voucher) and vendor.

(4) Distribution of copies of Standard Form 44 (fig. 2).

(i) *Copy No. 1, original, seller's invoice (attached as subvoucher to Standard Form 1034).* Disbursing officer and General Accounting Office.

(ii) *Copy No. 2, seller's copy of invoice.* Vendor.

(iii) *Copy No. 3, receiving report; accounting copy (attached as a subvoucher to Standard Form 1034).* Disbursing officer.

(iv) *Copy No. 4, memorandum copy.* Property officer.

(v) *Copy No. 5, additional copy (attached as a subvoucher to Standard Form 1034).* Fiscal officer.

(g) Consolidation of seller's invoices from the same vendor on one monthly voucher.

(1) When ordering officers anticipate making more than one purchase from the same vendor during a month, the accomplished copies of Standard Form 44 (copies Nos. 1 and 3) may be held until the end of the month for consolidating the invoices and preparing one voucher, Standard Form 1034, for payment of the vendor. However, action should be taken by the ordering officer to see that such a practice is satisfactory to the vendor in order to avoid complaints on delayed payments (§ 592.605–53 (f) (1) (iii)).

(2) When "time payment" discounts are stated on Standard Form 44, the appropriate copies will be processed for payment without delay in order to take advantage of the discount.

§ 592.605–54 *Forms; Standard Form 44.* (a) Standard Form 44 is printed as a carbon interleaved form, five sheets per set.

(b) The requisition and issue of blank forms will be made by one office at each installation for control purposes. Requisitions will be submitted to the appropriate Adjutant General's publications depot for the necessary forms. Issues of blank forms will be made only to authorized ordering officers.

§ 592.605–55 *Flow charts.* Flow charts are indicated as follows:

CHECK PURCHASE METHOD, STANDARD FORM 44
(WHEN STANDARD FORM 1034-REVISED IS NOT USED AS A VOUCHER)

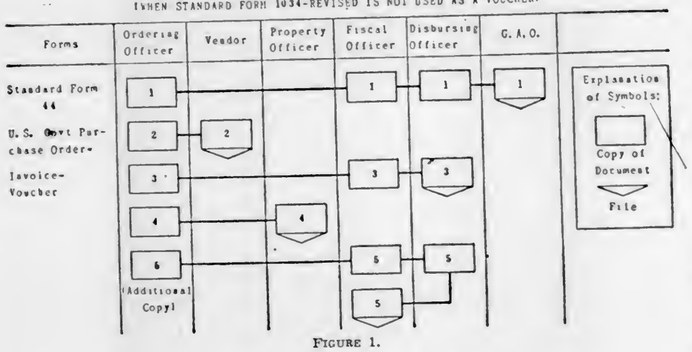

FIGURE 1.

CHECK PURCHASE METHOD, STANDARD FORM 44
(When Standard Form 1034-Revised is Used as a Voucher)
(With Standard Form 44 Attached as a Subvoucher)

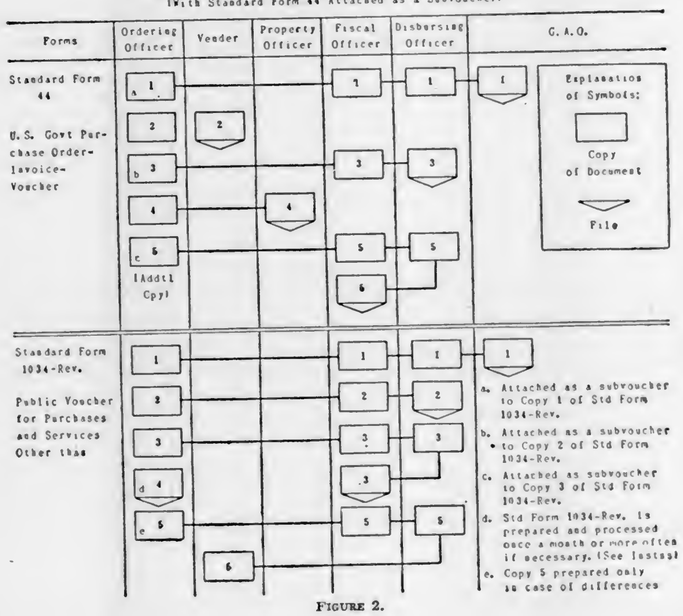

FIGURE 2.

§ 592.606 *Blanket purchase order method.* The blanket purchase order method will be used where practicable.

§ 592.607 *Use of DD or departmental procurement forms.* (a) Small purchases effected by negotiation will be consummated by the use of one of the following methods:

(1) Imprest fund (SR 35–350–10) (Imprest Funds For Small Purchases), use of Standard Form 1165 (Receipt for Cash Subvoucher).

(2) U. S. Government Purchase Order-Invoice-Voucher (Standard Form 44).

(3) Order and Voucher for Purchase of Supplies or Services (DD Form 738).

(4) Other appropriate authorized forms.

(b) It is incumbent upon the Contracting Officer to choose that method which best fits the requirements of any purchase. Individual purchases of $25 or less will be made using the imprest fund, or the check procedures with the Standard Form 44 or DD Form 738. It is the duty of the purchasing officer to make use of the form which will involve the least paper work and the least expense to the United States. Usually imprest funds or Form 44 will be used within a radius of approximately 50 miles from the purchasing office, but the use of these forms is not limited to such use.

§ 592.650 *Order and voucher for purchase of supplies or services (DD Form 738).* (a) The Order and Voucher for Purchase of Supplies or Services Other Than Personal (DD Form 738) is used for—

(1) Small purchases in an amount not exceeding $1,000 (see sec. 2 (c) (3) Armed Services Procurement Act of 1947).

(2) Purchases in an amount not exceeding $5,000 in those cases where authority exists to make procurement by negotiation (see sec. 2 (c) (1) of Armed Services Procurement Act and Decision of Comptroller General B–45102 dated 26 July 1951).

(b) Payments will be made by check except that payment may be made in cash by an accountable disbursing officer in any amount for which the form is authorized.

(c) The purpose of the form is to effect such purchases in the simplest manner. It provides in one document a purchase (or delivery) order, a receiving and inspection report, a property voucher, and when supported by a vendor's invoice, a payment voucher. The use of this DD Form 738 and DD Form 738–1 (continuation sheet) according to the procedure herein will simplify purchasing procedure, will increase efficiency by simple actions, will effect economy in personnel and overhead, will reduce quantities of forms used and attendant paper work, and will expedite payments to vendors.

(d) DD Form 738 (Order and Voucher for Purchase of Supplies or Services) is designed for use where one payment and one delivery are contemplated. Although it may be used where not to exceed five payments are ultimately involved in a single transaction, it is not an entirely satisfactory form under such circumstances. Likewise where more than one delivery or more than one destination is involved it is necessary to provide additional documents for each additional delivery. In view of the limitations of Form 738 where multiple deliveries or payments are known or believed to be probable, DD Form 702 (Order for Purchase of Supplies or Services) (used in conjunction with DD Form 250 (Materiel Inspection and Receiving Report (Domestic)) and Standard Form 1034 (Public Voucher for Purchases and Services Other Than Personal) should be utilized. Contracting Officers should choose the form most suitable for use after consideration of the probable delivery and payment requirements of a proposed procurement.

§ 592.650–1 *Use of DD Form 738 as a purchase order.* Form 738 is authorized for use at stations, depots, and other procuring offices in procuring any supplies or services where the amount of the purchase order does not exceed $5,000; however, the other provisions of Subchapter A, Chapter IV and this Subchapter G apply where purchases are made in excess of $1,000.

§ 592.650–2 *Use of DD Form 738 as a delivery order*—(a) *Monthly charge accounts.* (1) Monthly charge accounts are authorized to be set up by Contracting Officers with vendors when experience has indicated, or when in the judgment of the Contracting Officer, numerous purchases of small amounts are likely to be made from the same vendor.

(2) It is the intent of the charge account procedure that it be used to parallel as closely as possible the use of charge accounts used by business concerns.

(3) A charge account method of doing business with vendors may be established and accounts paid through the use of DD Form 738, provided the total orders placed during an agreed billing period do not exceed $5,000. The charge account procedure, necessarily requires the vendor's consent. This is not meant to limit the use of other authorized purchase order forms if the amount charged in any month exceeds $5,000.

(4) Each separate order placed against a charge account must be placed after conduct of negotiation and justification appropriate to the action, except where the order is for $100 or less, and price is known to be reasonably competitive.

(5) Receiving reports and/or inspection reports, as appropriate to the accounts of the consignee, will be prepared and copy furnished the Contracting Officer within 24 hours after receipt of each separate receipt of supplies or services.

(6) The separate receiving reports will be reconciled with the vendor's billing and will be retained in the Contracting Officer's file as a basis for his executing the Administrative Certificate on the face of the form when processing the periodic billing for payment.

(7) In order to avoid obligation of funds without knowledge of the fiscal officer, the following method may be used:

(i) The Purchasing and Contracting Officer may coordinate with the Fiscal Officer to estimate the amount of purchases to be made each month under each appropriation and project account.

(ii) The Fiscal Officer will record the estimated obligation and will give the Purchasing and Contracting Officer the authority to purchase up to the amount of the obligation. The obligation will be by appropriation and project account.

(8) Each order placed against a charge account will be identified by a purchase order number. One number which is good for the duration of the billing period may be used.

(b) *Consolidation of deliveries into one order.* (1) One order may be accomplished at the end of the month or more often, if necessary, when the total amount approaches $5,000, to cover previous deliveries against procurement methods such as, but not limited to, "open end", "Call type" or "term" contracts or charge accounts under the following conditions:

(i) When, in the judgment of the Contracting Officer, such action is more practical and economical than the making of separate delivery orders.

(ii) When the local Contracting Officer who issues the delivery order has made satisfactory arrangements with the vendor or his authorized representative.

Since the accumulation and consolidation of deliveries into one delivery order at the end of the month may result in a delayed payment, such action must be agreeable to the vendor.

(2) When such practice is to be followed, each delivery of supplies or services will be supported by a signed delivery ticket prepared in triplicate by the vendor. The following information will be shown on the delivery ticket:

(i) Name of Contractor.

(ii) Contract number.

(iii) Nomenclature of supplies or services including stock number, part number, etc., as necessary for proper identification.

(iv) Quantity of supplies or services.

In the event that the vendor does not furnish a delivery ticket, the individual who receives the supplies will prepare DD Form 227 (Receiving Report) showing the essential information thereon.

(3) The quantity listed on the delivery ticket will be verified, exceptions noted, and the three copies of the ticket will be dated and signed by the individual who is authorized to receive the items. Copies will be distributed as follows: Original to the accountable property officer, 1 copy to the Contracting Officer, and 1 copy to the vendor.

(4) The accountable property officer will voucher and post to the stock record account each delivery ticket covering supplies received. A basic voucher number will be assigned to each vendor and as deliveries are received during the current month the individual delivery ticket will be subvouchered against the basic voucher number established for the vendor concerned.

(5) The signed copy of the delivery tickets will be the basis for consolidating the deliveries and preparing one delivery order at the end of the month by the Contracting Officer. The vendor will be instructed to submit one invoice (four copies) for the period concerned.

(6) The accomplishment and processing of DD Form 738 will be as prescribed in this Subchapter G.

§ 592.650–3 *Use DD Form 738 as a receiving and inspection report.* (a) DD Form 738 is designed for use as a tally-in, an inspection report, and a receiving report.

(b) When inspection and/or acceptance is to be other than at destination, the place of such inspection and/or acceptance will be shown in the "Supplies or Services" column on the form. (See clause 1 on reverse of DD Form 738.)

(c) Upon receipt of the items provided for in the order, the accountable property officer or his authorized representative will complete the following on DD Form 738:

(1) Quantity accepted (face of form).
(2) Date received (reverse of form).
(3) Delivered by (reverse of form).
(4) Stock record account voucher number (reverse of form).
(5) Signature with grade and designation (reverse of form).
(6) Account serial number (reverse of form), and
(7) Date signed and signature (reverse of form).

The accountable property officer will request disposition instructions from the contracting officer for nonacceptable items and overages. Errors such as nomenclature stock number, etc., may be corrected manually.

(d) If inspection is made other than at destination, appropriate copies of Form 738 will be furnished to the inspection office. Accomplished inspection reports will be transmitted to the consignee unless otherwise indicated in each specific case by the Contracting Officer.

(e) Receiving reports will be accomplished within the time specified in paragraph 4, SR 715–55–6 (Processing of Receiving Reports):

------, a "target" of two work days and a "minimum service" of six calendar days are established for accomplishing receiving reports indicating inspection and/or acceptance of materiel and forwarding such reports to the appropriate office administering the contract or to designated disbursing office when direct submission of the report is indicated. ------

§ 592.650–4 *Use of DD Form 738 as a vendor's invoice.* (a) Special care will be exercised to have each vendor follow the instructions on DD Form 738 regarding preparation of vendor's invoice.

(b) When it is desired to utilize DD Form 738 as vendor's invoice, the following certificate will be typed or stamped in the "Supplies or Services" column on the original copy for the General Accounting Office, copy for the Disbursing Officer, and copy for the Fiscal Officer: "I certify that the above

bill is correct and just and that payment therefor has not been received." Only the original will be signed by the vendor.

§ 592.650–5 *Use of DD Form 738 as a voucher*—(a) *One payment.* DD Form 738 will be completed and processed as any other payment voucher.

(b) *More than one payment.* (1) Where more than one payment becomes necessary, original DD Form 738 will be completed for those supplies or services accepted and will be processed for payment in the normal manner.

(2) Subsequent payments not to exceed four may be made using one of the following methods:

(i) Prepare additional DD Forms 738 citing same order number as the original and indicating in the "Order No." block of the DD Form 738 the number of the partial shipment (i. e., 1st partial, 2d partial, and 3d and final). Prior to or at the time of processing original DD Form 738 (mentioned in subparagraph (1) of this paragraph) for payment, an additional DD Form 738 will be prepared, setting forth the balance of the undelivered supplies and distributed in the normal manner, except that no copy will be distributed to the vendor. The above procedure will be repeated until final delivery is received. A citation to the name of the Disbursing Officer, period of account, and Disbursing Officer's voucher number will be made to the original and subsequent vouchers on subsequent vouchers respectively. For example, first subsequent voucher will cite original voucher, second subsequent voucher will cite original voucher and first subsequent voucher, etc. Each voucher will be a complete transaction within itself and the cross reference will allow the General Accounting Office to reconcile the entire purchase.

(ii) Prepare Standard Form 1034 (Public Voucher for Purchases and Services other than Personal) with copy of Receiving Report (DD Form 227), covering partial delivery, attached thereto. The standard Form 1034 will cite the same order number as the DD Form 738 and the number of the partial shipment (i. e. 1st partial, 2d partial, and 3d, and final). The above procedure will be repeated until final delivery is received. A citation to the name of the Disbursing Officer, period of account, and Disbursing Officer's voucher number will be made to the original and subsequent vouchers on subsequent vouchers respectively. For example, first subsequent voucher will cite original voucher, second subsequent voucher will cite original voucher and first subsequent voucher, etc. Each voucher will be a complete transaction within itself and the cross reference will allow the General Accounting Office to reconcile the entire purchase.

(iii) Cash payments may be made using an accountable disbursing officer.

§ 592.650–6 *Distribution of copies of DD Form 738.* (a) The copies of DD Form 738, which are numbered 1, 2, 3, 4, 5, 6, 7, and 8 at the bottom of the form, will be distributed as follows and as shown on the flow chart in § 592.650–10.

(1) *Copy 1 (original).* General Accounting Office (white).
(2) *Copy 2.* Finance Officer (yellow).
(3) *Copy 3.* Vendor (yellow).
(4) *Copy 4.* Contracting Officer (yellow).
(5) *Copy 5.* Fiscal Officer (yellow).
(6) *Copy 6.* Fiscal Officer (yellow).
(7) *Copy 7.* Accountable Property Officer (yellow).
(8) *Copy 8.* Receiving report (yellow).

§ 592.650–7 *General instructions.* The following general instructions are applicable whether the form is used as a purchase order or as a delivery order:

(a) When it is certain that more than one payment or one delivery will be made, DD Form 738 will not be used, but the purchase will be effected by the use of other appropriate forms. (See § 592.650 (b).)

(b) DD Form 738 will not be given a contract number under any circumstances. The "order number" space provided is for such local identification as is necessary.

(c) In the event additional contract clauses or deviations are required for specific purposes, prior approval for their use will be obtained from the Assistant Chief of Staff, G–4, Department of the Army, except as provided in § 592.651.

(d) These procedures are deemed sufficient for all purchases accomplished by use of DD Form 738. In the event that additional forms or instructions are necessary for attachment to DD Forms 738 and 738–1, prior approval will be secured from the Assistant Chief of Staff, G–4, Department of the Army, except as authorized elsewhere in this subpart. The attaching of vendor's invoices which are required for payment; specifications, drawings, packaging, and marking instructions, and other similar data which are considered an adjunct or a part of the description of the supplies listed on the face of DD Form 738 are permissible without approval.

(e) Such supplemental operating procedures as may be necessary in connection with routing of copies of DD Form 738 by a purchasing office may be issued by that purchasing office if deemed essential. No additional supplemental operating or similar procedures or instructions other than those contained herein will be issued by Heads of Procuring Activities without prior approval of the Assistant Chief of Staff, G–4, Department of the Army, except as outlined in §§ 592.601 (c) and 592.651.

(f) DD Form 738 will not be utilized for the acceptance of bids after formal advertising.

(g) Supplemental agreements and change orders, other than notice of termination for default, may be issued in connection with a purchase made on DD Form 738.

(h) *Termination for default.* (1) If all of the supplies or services ordered on DD Form 738 are terminated for default, notice of termination for default to the vendor will be by letter and a copy of the letter will be filed with the original (white) copy in the Contracting Officer's file, and copy will be furnished each addressee on the original distribution list.

(2) If any or a part of the supplies or services ordered by use of DD Form 738 are terminated for default, notice of termination for default will be by letter, and a copy will be furnished to each addressee on the original distribution list.

(3) When the second attempt is made to procure the supplies, one of the following procedures will apply:

(i) If the price paid is less or not in excess of the price which was to have been paid under the contracts which was terminated, the DD Form 738 covering the second procurement will be processed in the normal manner, and it is not necessary to refer to the terminated procurement document.

(ii) If the price exceeds that which would have been paid under the defaulted contract, the Contracting Officer will comply with the provisions of § 596.103–11 of this subchapter.

(i) If the purchase is based on a written quotation, the original of the quotation will be processed with the original (white) of DD Form 738 to the General Accounting Office. (See § 592.650–10 of this subchapter.)

(j) Overages and shortages in the quantities called for on an order may be accepted provided the aggregate amount of the order (including any accepted overages and shortages) does not exceed $5,000. When any such overages or shortages are accepted, an adjustment of the total dollar amount for payment will be made in the "Differences" section of DD Forms 738 and 738–1 after the "Quantity Accepted" column has been completed.

(k) The Contracting Officer is responsible for obtaining from the Fiscal Officer a citation of the proper funds to be charged whenever in the opinion of the Contracting Officer, such action is appropriate. The signature of the Contracting Officer on copy No. 1 of DD Form 738 will constitute the certification that funds are available under the appropriation and allotment cited in the accounting classification.

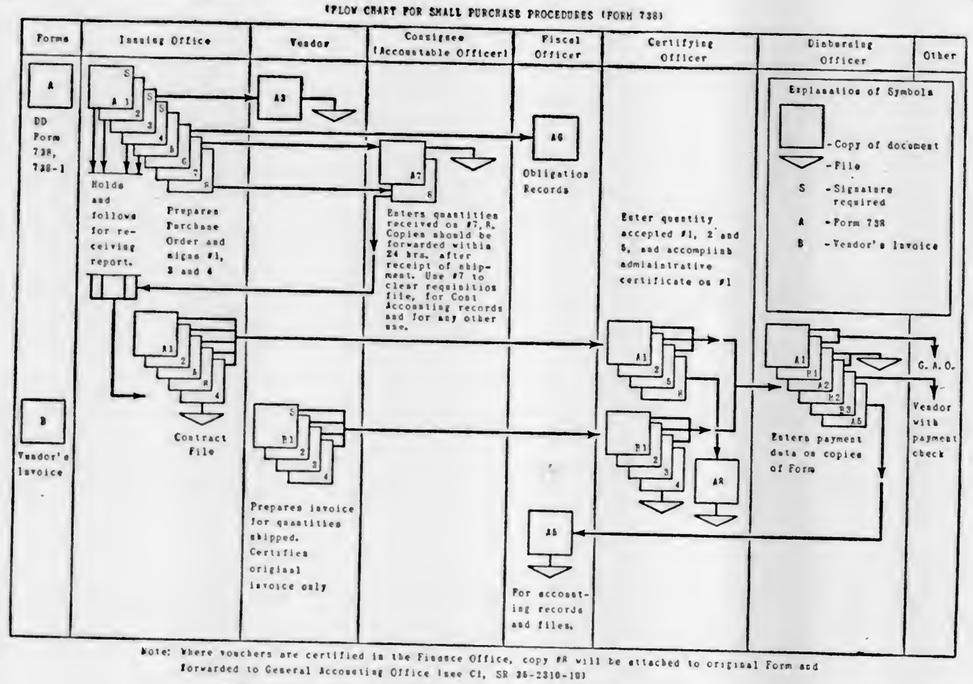
(l) DD Form 738 will not be used in making purchases when shipment of supplies are to be consigned to a water or aerial port of embarkation for transshipment to an oversea destination. In such instances, purchases will be accomplished by use of other appropriate purchase forms in conjunction with the Materiel Inspection and Receiving Report (Oversea) (DD Form 250–4).

§ 592.650–8 *Use of reproducible masters.* Installations which are unable to utilize the 8-part form may utilize reproducible masters only after specific approval is obtained from the Assistant Chief of Staff, G–4. See § 605.1506–3 (e) (2) of this subchapter.

§ 592.650–9 *Additional instructions.* See §§ 415.008 and 402.600 of this title and § 605.008 of this subchapter.

§ 592.650–10 *Flow charts.* Flow charts indicating the processing of copies of DD Form 738 are set forth as follows:

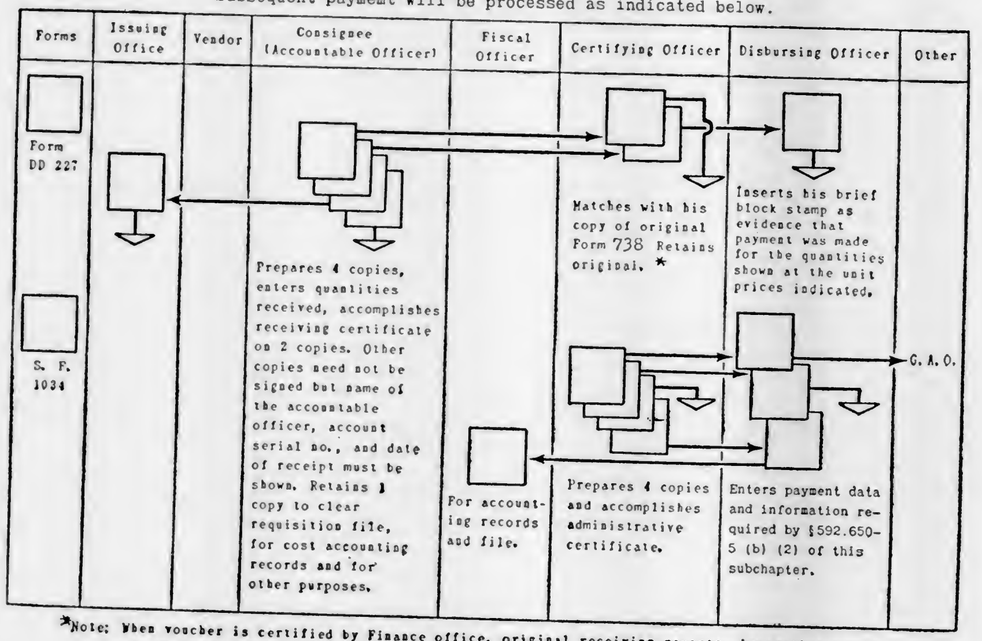
FLOW CHART FOR SMALL PURCHASE PROCEDURES (FORM 738)



Note: Where vouchers are certified in the Finance Office, copy #8 will be attached to original Form and forwarded to General Accounting Office (see C1, SR 35-2310-10)

FLOW CHART FOR PARTIAL DELIVERIES AND PARTIAL PAYMENTS

For first payment Form 738 will be processed as indicated above.
Subsequent payment will be processed as indicated below.



*Note: When voucher is certified by Finance office, original receiving reports, inspection reports, or similar supporting documents will be attached to the original voucher.

§ 592.651 *Applicability to oversea commands.* (a) For the purpose of this subpart, oversea commands will be considered commands outside the continental limits of the United States.

(b) Since these small purchase procedures were designed primarily to meet conditions existing within the continental United States, they may have only limited applicability in oversea commands. In view of this, major oversea commanders are authorized to make such deviations in these procedures as may be deemed necessary to accomplish their procurement missions provided that such deviations do not result in violation of existing laws, Executive orders, decisions of the Comptroller General, or such other rules or regulations which would render the contract illegal.

§ 592.652 *Local procurement.* (a) All Purchasing and Contracting Officers are authorized to effect purchases of $1,000 or less per line item locally for all items except those upon which procurement limitations have been placed by paragraph 3, AR 715–8 (Local Procurement of Items Available from Civilian Economy).

(b) Those instructions in no way affect authority for local purchase of lumber in less than carload lots as provided in SR 715–50–10 (Purchase of Lumber and Allied Products, including Timber Harvesting on Military Reservations).

(c) Requirements aggregating more than $1,000 per line item shall not be broken down into several purchases which are less than $1,000, either for the purpose of gaining authorization to procure or for the purpose of utilizing a simplified procurement procedure.

PART 593—COORDINATED PROCUREMENT

Sec.
593.000 Scope of part.
593.001 Coordinated procurement of items in short supply.

Subpart A—Single Department Procurement

593.102 Execution and administration of contracts.
593.109 Preparation of purchase requests.
593.150 Pertinent regulations and procedures.

Subpart B—Armed Services Petroleum Purchasing Agency

(See Subpart B, Part 403, Subchapter A, Chapter IV, Title 32.)

Subpart C—Armed Services Medical Procurement Agency

(See Subpart C, Part 403, Subchapter A, Chapter IV, Title 32.)

§ 593.000 *Scope of part.* This part sets forth instructions relating to the coordinated procurement of supplies and services.

§ 593.001 *Coordinated procurement of items in short supply.* Reports of shortages in supplies or services requiring coordination with other Departments will be forwarded to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch together with complete information thereon.

SUBPART A—SINGLE DEPARTMENT PROCUREMENT

§ 593.102 *Execution and administration of contracts.* When submitting requests to the Departments of the Navy and Air Force and to joint procuring agencies under the single department procurement program, Department of the Army requirements for contractual instruments will be limited to seven copies.

§ 593.109 *Preparation of purchase requests*—(a) *Responsibility for preparation.* DD Form 448 (Military Interdepartmental Purchase Request) will be initiated by the technical service which has coordination responsibility for procurement of the supply or service concerned. The chief of each technical service who has coordination responsibility for the item concerned may designate offices and/or installations to prepare and submit such purchase requests to the purchasing department (Department of Navy or Department of Air Force).

(b) *Reproduction.* DD Forms 448 and 448–1 may be prepared on reproducible masters and reproduced in the number of copies required for distribution.

(c) *Procurement of forms.* Reproducible masters will be centrally procured by The Adjutant General and distributed through normal publication supply channels. Printed cut sheets will not be stocked by publication depots.

(d) *Instructions for preparation.* (1) Detailed instructions for preparation of DD Form 448 are explained under numbers below, which correspond to the numbers of item headings on the face of the Form.

Item 1. Request No.: The requiring technical service will assign a number to each request for identification and control purposes. The request number will consist of the following parts in sequence: The letter "R" indicating purchase request, the last two digits of the fiscal year, the serial number, the requesting technical service symbol as set forth in § 606.203–4 of this subchapter.

Example: R–51–1–ORD. When necessary, each technical service may prescribe an additional letter, which will be separated from the technical service symbol by a dash to identify separate offices initiating this form within the technical service. For example, the Chief of Ordnance may assign the letter "N" to the New York Ordnance District, in which case the request number on the forms initiated by this Agency would be written as follows: R–51–1–ORD–N. Amendments to basic MIPR will be numbered in sequence starting with the number 1.

Page No.: The number of the particular page.

No. of pages: The total number of pages in each request. When more than one page to any request is necessary, each page will be numbered consecutively in the following sequence: MIPR DD Form 448 (First Sheet), MIPR—Continuation Sheet, DD Form 448–1 (for data on Items 11a through 11f), and any attached sheets giving supplementary information.

Item 2. Property class and control symbol No.: For optional use by requiring department.

Item 3. Date: Date of request.

Item 4. Issued by: Name and address of office issuing the request. When possible, list the name and telephone number of person who may be contacted in the event that the purchasing department has questions about this request.

Item 5. Ship to: Name and address of consignee to which supplies or equipment are to be shipped.

Item 6. To: Name and address of Bureau, Command, or Office of the purchasing department to which the request is being submitted.

Item 7. Distribution of contracts and related documents: Name and address of Office(s) to which copies of contracts and related documents are to be mailed. Also list number of copies desired. § 593.102.

Item 8. Delivery schedule: Date(s) by which delivery of items is desired.

Item 9. Payment will be made by: Name and address of Disbursing Office which will pay invoices.

Item 10. Invoices will be mailed: Name and address of Office(s) to which invoices will be mailed.

Item 11. Request for supplies: Enter an "X" in box preceding appropriate statement. If the purchasing department wishes to furnish the requirements from stock, it may request the approval of the requiring department to do so.

Item 11a. Item No.: The number of the item in sequence as listed thereon.

Item 11b. Description: In addition to the descriptive information indicated for this column, the package size should be stated when there are options for items involved.

Item 11c. Quantity: The quantity of each item requested.

Item 11d. Unit: The unit measure, such as each, pound, gallon, etc., for each item.

Item 11e. Estimated unit cost: The latest cost that is available from catalogs, bulletins, reports, copies of contracts, etc., will be used as the estimated cost.

Item 11f. Estimated total cost: The result of the quantity of the item requested (Column 11c) multiplied by the estimated cost (Column 11e). The sum of this column will be placed in the space for "Total" at bottom of column.

Item 12. Prepare for delivery in accordance with: The specifications, if any, such as JAN–P–658 (2), under which the items are to be preserved, packaged, and packed. If no printed specifications are applicable or if supplementary instructions are to be given, a phrase such as "See attached instructions" should be inserted in the blank space.

Item 13. Funds chargeable for procurement: Appropriation, allotment, project, and object numbers to be charged for procurement of supplies or services.

Item 14. Transportation allotment: Appropriations, allotment, project, and object numbers to be charged for transportation of supplies. This allotment will be used when the procurement allotment does not include transportation charges as in the case of a purchase of items f. o. b. origin.

Item 15. Typed name and grade of authorizing officer: The officer who authorizes the procurement of items listed hereon and certifies that the funds have been committed.

Item 16. Signature: Signature of authorizing officer. (If the authorizing officer is other than one having fiscal responsibility, the ordering department must have on file, as support to the certificate, a written statement by such an officer substantiating the fiscal portion of the certificate.)

(2) If any designated space on this form other than that provided for on Continuation Sheet is insufficient for the purpose of listing all necessary information, the information may be typed on a blank sheet of paper under the appropriate item heading and attached to the form for submission to the purchasing department. When this action is taken, a phrase will be inserted in the designated space on the form, such as "See attached instructions" or "See attached sheet," to indicate that additional information is contained in supplementary sheets. Also, if it is necessary to give instructions or other information, such as method of delivery or place of inspection, for which there is no designated space on the form, such information may be typed on a blank sheet and attached to the form.

§ 593.150 *Pertinent regulations and procedures.* With respect to purchase assignments and transfer of responsibilities for specific items occasioned by such assignments, technical services to which purchase or coordination responsibility has been assigned will prescribe appropriate procedures. These procedures will be formalized and published in Department of the Army directives. Pending publication of official directives, questions regarding procurement of items assigned for single department purchase will be referred to the technical service delegated purchase or coordination responsibility under assignments made to the Army by the Assistant Secretary of Defense (Supply and Logistics).

PART 594—INTERDEPARTMENTAL PROCUREMENT

Sec.
594.000 Scope of part.

Subpart A—Procurement From or Through General Services Administration

594.101 General.
594.102 Procurement through use of Federal Supply Schedule contracts.

Subpart B—Procurement of Printing and Related Supplies

594.250 Printing.
594.251 Envelopes.
594.252 Sources of procurement for paper.
594.253 Related supplies.

Subpart C—Procurement of Prison-Made and Blind-Made Products

594.301 Prison-made products.
594.302 Blind-made products.

Subpart D—Procurement Under the Economy Act From or Through Another Federal Agency

(See Subpart D, Part 404, Subchapter A, Chapter IV, Title 32)

§ 594.000 *Scope of part.* This part sets forth the policy with respect to (a) procurement of supplies and services from or through the Federal Supply Service, (b) procurement of printing and related supplies, and (c) procurement of prison-made and blind-made products.

SUBPART A—PROCUREMENT FROM OR THROUGH GENERAL SERVICES ADMINISTRATION

§ 594.101 *General.*—(a) *Applicability.* The provisions of this section are not applicable to supplies purchased and used outside the continental United States and Alaska.

(b) *Emergency purchase.* When purchase of a mandatory item listed by General Services Administration is not made, the voucher submitted to the Disbursing Officer for payment shall contain a finding that the purchase was justified as the item could not be furnished by General Services Administration by the time such item was required. Such a finding shall be final and conclusive. The authority to make such a finding is vested in the Heads of Procuring Activities with authority to redelegate. In each instance, the finding will set forth the specific reasons why the time element made the purchase necessary.

§ 594.102 *Procurement through use of Federal Supply Schedule contracts.* (a) Delivery orders for supplies listed in the Federal Supply Schedule will be addressed and forwarded direct to the Contractor indicated and shall contain sufficient data to enable prompt identification (by disbursing and auditing agencies) of the correct listing in the proper Federal Supply Schedule. These data will include contract number, item number, and where applicable, supplement, region, or zone number.

(b) All orders issued under contracts of the Federal Supply Service will be effected by "delivery orders."

(c) Each such delivery order will designate the name of the Finance Officer by whom payment is to be made.

(d) Each such delivery order will indicate on its face that prices, if shown, will be subject to the basic contract of the Federal Supply Service.

SUBPART B—PROCUREMENT OF PRINTING AND RELATED SUPPLIES

§ 594.250 *Printing.* See AR 310–5 (Printing, Binding, and Duplicating) and SR 310–5–1 (Procurement and Production).

§ 594.251 *Envelopes.* Envelopes, even though specially printed in the course of manufacture, are supply items (see AR 310–5) (Printing, Binding, and Duplicating). With respect to procurement procedures applying to mailing envelopes and related provisions applying to use of penalty indicia, procuring activities will be guided by SR 340–10–20 (Mailing Envelopes) and SR 340–10–1 (Penalty Mail) respectively.

§ 594.252 *Sources of procurement for paper.* Blank paper for use within the District of Columbia carried in stock by the Government Printing Office shall be purchased from that office.

§ 594.253 *Related supplies.* Ink, glues, and other supplies manufactured or carried in stock by the Government Printing Office shall be purchased from that office if required for use within the District of Columbia.

SUBPART C—PROCUREMENT OF PRISON-MADE AND BLIND-MADE PRODUCTS

§ 594.301 *Prison-made products*—(a) *Applicability.* The provisions of this section are not applicable to supplies purchased and used outside the continental United States and Alaska.

(b) *Requirement.* All items manufactured by, and all services rendered by, Federal Prison Industries, Inc., shall be purchased from that agency, except (1) in those instances in which a general or special clearance for the purchase of the item or service from commercial sources has been granted, or (2) for items being purchased in less than carload lots in accordance with § 404.301 of this title.

(c) *Responsibility.* Heads of Procuring Activities are responsible for advising Contracting Officers as to the terms and conditions of the Schedule of Products made in Federal Penal and Correctional Institutions.

(d) *General clearance.* The Department of the Army, in the following cases, has been granted a general clearance (Clearance No. C–27930) for the procurement from commercial sources of items listed in the schedule of products made in Federal Penal and Correctional Institutions:

(1) By Contractors or Contracting Officers under cost-plus-fixed-fee construction or supply contracts.

(2) By Contracting Officers under fixed-price (lump sum) construction or supply contracts, wherein the Government is required to furnish certain Government materials.

(3) When immediate delivery or performance is required by the public exigency.

(4) When suitable second-hand, used, or surplus property can be procured.

(5) When required in small quantities and for delivery within 10 days.

(e) *Special clearance.* A special clearance must be obtained from Federal Prison Industries, Inc., for the procurement from commercial sources of any supplies or services listed on such Schedule of Products but not covered by the general clearance. Request by any Procuring Activity for special clearances shall be directed to Federal Prison Industries, Inc., Department of Justice, Washington 25, D. C.

(f) *Procurement procedure.* Procurement of items listed in the Schedule of Products made in Federal Penal and Correctional Institutions shall be in accordance with the detailed instructions and ordering procedures prescribed in such schedule. Current copies of the Schedule of Products may be obtained from the Federal Prison Industries, Inc., U. S. Department of Justice, Washington 25, D. C.

(g) *As additional source of supply.* In procuring items listed in the Schedule of Products, but subject to a general clearance, Contracting Officers will nevertheless consider the Federal Prison Industries as an additional source of supply.

(h) *Reference to clearance.* It is not necessary to attach a copy of the general clearance to the contract or voucher. Reference on either the contract or the voucher to general clearance No. C–27930 is sufficient.

§ 594.302 *Blind-made products*—(a) *Applicability.* The provisions of this section are not applicable to supplies purchased and used outside the continental United States and Alaska.

(b) *Exceptions.* Purchases of supplies listed in the Schedule of Blind-Made Products need not be made from nonprofit-making agencies for the blind when (1) a general clearance for the purchase of the items from commercial sources has been granted, (2) the procurement does not exceed a single unit as listed in such Schedule, (3) the supplies are for use outside the continental United States, or (4) purchased from a Federal Supply Service Center.

(c) *General clearance.* A general clearance, dated June 3, 1942, has been granted the Department by the Com-

mittee on Purchases of Blind-Made Products to purchase from commercial sources any item listed in the Schedule of Blind-Made Products when military necessity requires delivery of the article needed within a period of two weeks.

(d) *Special clearance.* The Federal Supply Service, General Services Administration, may grant a special clearance permitting procurement from commercial sources of supplies listed in such Schedule of Blind-Made Products (1) when necessary to meet emergency requirements or (2) when no agency for the blind is in a position to furnish the required supplies.

(e) *Procurement procedure.* Procurement of items listed in the Schedule of Blind-Made Products will be in accordance with the detailed regulations, instructions, and ordering procedures prescribed in such schedule and any amendments or price lists issued in connection therewith. Current copies of such schedule may be obtained from the Federal Supply Service, General Services Administration, Washington 25, D. C.

(f) *Procurement priority.* When supplies manufactured by nonprofit-making agencies for the blind are similar to those manufactured in Federal penitentiaries, procurement priority will be given in the Federal Prison Industries, Inc.

(g) *Clearance reference.* It is not necessary to attach a copy of the general clearance to the procurement contract or voucher. A reference on either the contract or voucher to "General Clearance dated 3 June 1942" is sufficient.

PART 595—FOREIGN PURCHASES

Sec.

595.000 Scope of part.

Subpart A—Buy American Act and Other Statutory Prohibitions on Foreign Purchases

595.103 Applicability of Buy American Act.
595.103–4 Nonavailability of supplies or materials.
595.104 Authority to grant exceptions to Buy American Act.
595.105 Supplies excepted from Buy American Act.
595.105–1 Exceptions based on unreasonable cost.
595.105–50 Foreign books, newspapers, magazines, etc.
595.106 Other statutory prohibitions on foreign purchases.
595.106–1 Prohibition of annual appropriation acts.
595.107 References in contractual documents.
595.108 Violation of Buy American Act provision in construction contracts.

Subpart B—Canadian Purchases

595.201 Purchases from Canadian suppliers.

Subpart E—Duty and Customs

595.502 Emergency purchases of war material abroad.

§ 595.000 *Scope of part.* This part sets forth policies and procedures in connection with (a) statutory prohibitions on foreign purchases, and (b) purchases from Canadian sources.

SUBPART A—BUY AMERICAN ACT AND OTHER STATUTORY PROHIBITIONS ON FOREIGN PURCHASES

§ 595.103 *Applicability of Buy American Act.* When in doubt as to whether a given purchase is or is not restricted by Title III, Section 2, of the Act of 3 March 1933, popularly called the Buy American Act (47 Stat. 1520; 41 U. S. Code 10a–d) or by other statutory prohibitions, Contracting Officers will forward the matter through channels to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch, for decision. Each submission will include complete information upon which a decision may be based.

§ 595.103–4 *Nonavailability of supplies or materials.* (a) The Secretary has delegated to the Assistant Chief of Staff, G–4, Department of the Army, authority to make determinations under the provisions of the "Buy American Act," upon a proper showing of facts, that certain articles, materials, or supplies, of the class or kind to be used by the Department of the Army, or the articles, materials, or supplies from which they are manufactured, are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality; and to authorize the purchase from foreign sources, and use by the Department of the Army of such articles, materials, or supplies, or the articles, materials or supplies from which they are manufactured, as are determined after a proper showing of fact, to be not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

(b) This authority has been successively redelegated to (1) the Chief, Procurement Division, Office of the Assistant Chief of Staff, G–4, (2) the Chief, Purchases Branch, Office of the Assistant Chief of Staff, G–4, and (3) the Heads of Procuring Activities as defined in § 400.201–4 of this title with power of redelegation, provided however, that such authority shall not be redelegated below the level of a Deputy to the Head of a Procuring Activity, Chief of Staff, or a General Officer personally selected by the Head of a Procuring Activity and appropriately assigned with respect to the procurement responsibilities involved; except that the Head of a Procuring Activity is hereby authorized to delegate in writing the authority to make such determinations, where the aggregate amount of the purchase does not exceed $10,000, to such Contracting Officers under his command as he may deem appropriate.

(c) Section 405.103–4 of this title will be applied and used only after a determination in writing has been made by such individuals as have been designated in accordance with paragraph (b) of this section. Requests for such determinations shall be forwarded through channels to the appropriate authority and will contain the following information:

(1) Description of the item or items (include unit and quantity).
(2) Estimated cost.
(3) State whether duty is included in estimated cost (if duty is not included but normally would be included therein, give reason for exclusion).
(4) If item is to be procured f. o. b. origin, show transportation costs necessary to deliver to destination.
(5) Country of origin.
(6) Name and address of proposed contractor.
(7) Brief statement as to necessity for procurement.
(8) State what effort was made to procure a similar item of domestic origin (if there is no known domestic item which may be used as a reasonable substitute, so state).
(d) This authority will not be used for exemptions under § 405.104 or § 405.105–1 of this title.
(e) There will be forwarded once a month to the Assistant Chief of Staff, G–4, Department of the Army, ATTN: Chief, Purchases Branch, a copy of all determinations and exemptions made by the Heads of Procuring Activities or their delegates. All determinations and exemptions will be collected and forwarded by the Heads of Procuring Activities once a month, so as to be received in Office, Assistant Chief of Staff, G–4, by the 15th of the month following the month during which exemption was granted.
(f) A determination is prepared in substantially the following form:

CERTIFICATE

Pursuant to the authority contained in Section 2, Title III of the act of 3 March 1933, popularly called the Buy American Act (47 Stat. 1520; 41 U. S. C. 10a–d) and authority delegated to me by ----------
I hereby determine:
a. (Statement of the items to be procured and the necessity for this procurement and basis of nonavailability).

Based upon the above showing of fact it is determined that the above described items are not mined, produced, or manufactured, or the articles, materials or supplies from which they are manufactured, are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality.

Accordingly, an exception is hereby granted under the provisions of the Buy American Act to the requirement that the above described procurement be made from domestic sources and that it be of domestic origin. Authority is granted to procure the above described item(s) of foreign manufacture (Foreign Country) at an estimated total cost of $ (Total Dollar Cost including transportation and duty).

(g) When a determination has been made to the effect that the provisions of the Buy American Act are not applicable to the purchase, the signed copy of such determination will be attached to the voucher upon which payment is made.

§ 595.104 *Authority to grant exceptions to Buy American Act.* When in the opinion of the Contracting Officer, the conditions cited in § 405.104 of this title are present, a request will be made through channels to the Secretary (address request to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch) for the issuance of a certificate of exemption. Such requests shall be submitted in complete quadruplicate (four copies each of basic, indorsements, and inclosures) and will contain the following information:
(a) Description of the item or items (include unit and quantity).
(b) Estimated cost.
(c) State whether duty is included in estimated cost (if duty is not included but normally would be included therein, give reasons for exclusion).
(d) If item is to be procured f. o. b. origin, show transportation costs necessary to deliver to destination.
(e) Country of origin.
(f) Name and address of proposed Contractor(s), if available.
(g) Brief statement as to necessity for procurement.
(h) Funds which are available and will be obligated for the procurement.
(i) Complete justification for purchase of item of foreign source, such as excessive cost of similar items of domestic origin, loss of identification of foreign component, etc.

Accompanying request will be Certificate of Exemption prepared for the signature of the Secretary.

§ 595.105 *Supplis Excepted From Buy American Act.*

§ 595.105–1 *Exceptions Based on Unreasonable Cost.* In all cases where the differential referred to in § 405.105–1 of this title is more than $5,000 but less than 25 percent and in all cases, where the Contracting Officer considers the differential to be unreasonable, the matter will be submitted in accordance with § 595.104 of this subpart for determination as to unreasonable cost.

§ 595.105–50 *Foreign Books, Newspapers, Magazines, etc.* It has been administratively determined by the Under Secretary of the Army that the application of the Buy American Act to the purchase of trade, text, technical, and/or scientific books, newspapers, magazines, periodicals, and printed briefs, not published in the United States, would be inconsistent with the public interest. Therefore, such supplies and materials are exempted from the provisions of the Buy American Act and may be procured without regard to country of origin.

§ 595.106 *Other Statutory Prohibitions on Foreign Purchases.*

§ 595.106–1 *Prohibition of Annual Appropriation Acts.* It has been administratively determined that all the articles of food and clothing contained in the list set forth at the end of subpart A, Part 405 of this title, are exempt from the general prohibition of the annual appropriation act. In the case of the procurement of other items of food and clothing which the Contracting Officer believes should be excepted, request for a certificate of exemption by the Secretary will be submitted in accordance with the procedure set forth in § 595.104 of this subpart.

§ 595.107 *References in Contractual Documents.*

(a) *General.* The contract clause set forth in § 406.103–14 of this title will be inserted in all contracts for the purchase of supplies to which the Buy American Act applies.

(b) *Food and Clothing.* In all contracts for the procurement of any article of food or clothing, not excepted from the prohibition of annual appropriation acts, the contract clause set forth in § 406.104–13 will be inserted.

(c) *Special Clause for the Construction, Alteration, or Repair of Public Buildings and Public Works.* The specifications accompanying the invitation for bids for the construction, alteration, or repair of public buildings or public works in the United States will contain the following:

Because the materials listed below, or the materials from which they are manufactured, are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality, their use in the work herein specified (subject to the requirements of the specifications) is authorized, without regard to the country of origin:

[Insert here the supplies listed in paragraph 2, Armed Services List of Supplies Excepted from Buy American Act, appearing at the end of subpart A, Part 405 of this title.]

§ 595.108 *Violation of Buy American Act Provision in Construction Contracts.* For procedure with respect to placing or removing from the list of ineligible contractors and disqualified bidders the name of any noncomplying contractor or bidder, see subpart F, Part 590 of this subchapter.

SUBPART B—CANADIAN PURCHASES

§ 595.201 *Purchases From Canadian Suppliers.* All Army contracts with suppliers or contractors located in the Dominion of Canada will be made with and administered through the Canadian Commercial Corporation through its Washington Office, except that—

(a) Under circumstances of Public Exigency as described in § 402.202–2 of this title, Procuring Activities are authorized to negotiate direct with suppliers or Contractors domiciled in the Dominion of Canada without reference to the Canadian Commercial Corporation.

(b) Subject to applicable restrictions of §§ 592.205 and 592.211 of this subchapter, Procuring Activities are authorized to negotiate direct for research services to be rendered by any university, college, or educational institution located in the Dominion of Canada without reference to the Canadian Commercial Corporation or other Canadian clearing agency.

(c) When the Canadian Commercial Corporation requests that the procurement be made direct with Canadian suppliers or Contractors.

SUBPART E—DUTY AND CUSTOMS

§ 595.502 *Emergency purchases of war material abroad.* Instructions with regard to customs clearance of emergency purchases of war material made abroad are set forth in SR 715–55–10, (Customs Clearance of Emergency Purchases of War Materials Made Abroad).

PART 596—CONTRACT CLAUSES

Sec.

596.000 Scope of part.
596.050 Applicability.

Subpart A—Clauses for Fixed-Price Supply Contracts

596.102 Applicability.
596.103 Required clauses.
596.103–1 Definitions.
596.103–2 Changes.
596.103–8 Assignment of claims.
596.103–10 Federal, State, and local taxes.
596.103–11 Default.
596.103–12 Disputes.
596.103–14 Buy American Act.
596.103–16 Eight-hour law of 1912.
596.103–17 Walsh-Healey Public Contracts Act.
596.103–18 Nondiscrimination in employment.
596.103–21 Termination for convenience of the Government.
596.104 Clauses to be used when applicable.
596.104–1 Davis-Bacon Act.
596.104–2 Copeland Act.
596.104–3 Employment of aliens.
596.104–4 Neutrality Act of 1939.
596.104–12A Military security requirements; research and development contracts.
596.104–13 Domestic food or clothing.
596.104–15 Examination of records clause in utility services contracts.
596.104–50 Title II, First War Powers Act, 1941, as amended.
596.105 Additional clauses.
596.105–5 Liquidated damages.
596.150 Department of the Army clauses.
596.150–1 Progress payments.
596.150–2 Advance payments.
596.150–3 Plant protection.
596.150–4 Rental of gas cylinders.
596.150–5 Liability for Government property furnished for repair.
596.151 Price escalation clauses.
596.151–1 Price escalation (labor and materials).
596.151–2 Price escalation clauses for standard steel items.
596.151–3 Price escalation clause for aluminum.
596.151–4 Price escalation clause for open-end contracts and indefinite quantity contracts.
596.152 Price redetermination clauses.
596.152–1 Form II–B price redetermination clause.
596.152–2 Form III price redetermination clause.
596.152–3 Form IV price redetermination clause.

§ 596.000 *Scope of part.* This part sets forth uniform contract clauses and standard contract forms for use in connection with the procurement of supplies and services by the Army Establishment. Prescribed standard contract forms are listed in Part 415 of this title and Part 605 of this subchapter.

§ 596.050 *Applicability.* This part is applicable not only to contract clauses but to approved contract forms prescribed in Part 415 of this title and Part 605 of this subchapter.

(a) *General.* Approved contract forms and clauses currently in use in the respective Procuring Activities, which are not prescribed by and which are not inconsistent with the contract forms and clauses prescribed by Subchapter A, Chapter IV, or this subchapter, may be

used by any Procuring Activity in accordance with its instructions. If Subchapter A, Chapter IV, or this subchapter, prescribes a contract form such form must be used in accordance therewith unless the Chief, Purchases Branch, Assistant Chief of Staff, G–4, grants a deviation. If Subchapter A, Chapter IV, or this subchapter, however, prescribes or approves a contract clause for use, even if for use "when applicable" or "when it is desired to cover the subject matter thereof," no contract clause shall be used in substitution therefor unless such substitute clause (1) is within the scope of the variations in the prescribed or approved clause expressly permitted by Subchapter A, Chapter IV, or this subchapter, or (2) is the prescribed or approved clause plus provisions supplementary to and not inconsistent with any prescribed or approved clause. For example, § 408.107–4 of this title approves for use a Foreign Patent Rights Clause, which grants the Government foreign patent rights concerning any invention financed by the contract. If the Contractor and the Contracting Officer agree that the Government should have not only such foreign patent rights but also reproduction rights with respect to certain foreign "background" patents held by the Contractor, the contract must contain the clause set out in § 408.107–4 of this title plus a provision concerning such "background" patents. Since the clause for such "background" patent rights set out in § 408.107–3 of this title is expressly subject to the qualification that "the particular wording of a provision granting such rights to the Government is a matter of negotiation in each case," the clause set out in § 408.107–3 of this title need not be used verbatim as the additional provision but the additional provision must be modeled on such clause and must be consistent with the policy expressed in § 408.107–3 of this title.

(b) *Applicability of contract forms and contract clauses to contracts to be performed in foreign countries.* (1) The contract forms and clauses prescribed or approved by Subchapter A, Chapter IV and this Subchapter will be used in all contracts whether performed in whole or in part in the United States, its Territories or possessions, or in foreign countries. Certain clauses are applicable only in some areas but not in other areas. For each section of Subchapter A, Chapter IV and this Subchapter prescribing or approving the use of a contract form or a contract clause, the corresponding section of this subchapter has been annotated, for use in those areas where the form or clause is not applicable or is not applicable exactly as written, to authorize (i) modification of the form or clause or (ii) the deletion of the form or clause. Where no annotation is made in this subchapter, the modification or deletion is authorized by the section in Subchapter A, Chapter IV of this title the ASPR paragraph or the clause is applicable as written. Care must be exercised in modifying or deleting clauses, where authorized, to insure that proper action is taken as in the following examples:

(a) In view of the provisions of the clauses relating to Inspection and Responsibility for Supplies, appropriate provisions may be necessary for insertion in the Schedule to define or limit the Contractor's responsibility and liability where the items are procured in a foreign country and delivered to an Army activity located in that foreign country for subsequent transshipment to a destination in the United States.

(b) When substituting the clause concerning Federal, State, and local taxes, advantage must be taken of tax exemptions possible in the place of performance.

(c) The deletion of the clause regarding the Buy American Act is authorized where the supplies are procured outside and are used outside the United States, its Territories and possessions. Foreign procurement of supplies which are shipped to the United States, its Territories and possessions, come under the provisions of the Buy American Act unless specifically excepted by the Secretary of the Army, his duly authorized representative, or the provisions of the Act.

(d) Clauses relative to the Eight-Hour Law of 1912, Nondiscrimination in Employment, the Davis-Bacon Act, the Copeland Act, the Walsh-Healey Public Contracts Act, and the Fair Labor Standards Act of 1938 were prescribed by various statutes and executive policies in order to protect American labor from certain abuses. Such clauses obviously are not applicable and should not be included in contracts to be performed in foreign countries so far as native foreign labor is concerned. Note, however, that such clauses may apply to American citizens employed under such contracts in foreign countries.

(2) Determination as to the applicability of a particular contract form or contract clause often can be made only by consulting the various statutes, decisions, and policies which established the requirement and, in many cases, involves obtaining interpretations of various statutes from other executive departments. In those cases where applicability is in doubt, Contracting Officers will forward requests for interpretations to the Assistant Chief of Staff, G–4, Department of the Army Attn: Chief, Purchases Branch through the Head of the Procuring Activity involved.

SUBPART A—CLAUSES FOR FIXED-PRICE SUPPLY CONTRACTS

§ 596.102 *Applicability.* § 406.102 of this title is not intended to apply to those purchase orders amounting to $5,000 or less except as otherwise specified (§§ 406.104–15, 406.104–16).

§ 596.103 *Required clauses.* Except as provided in § 596.102, all of the clauses specified in §§ 406.103–1 through 406.103–21 of this title will be inserted in all fixed-price supply contracts subject to the instructions contained in § 406.103 of this title and in this § 596.103 and § 596.050. The additional contract clauses, contained in this section but not contained anywhere in Subchapter A, Chapter IV, of this title will also be inserted in all fixed-price supply contracts as specified in this Subchapter G.

§ 596.103–1 *Definitions.* The "Definitions" clause contained in § 406.103–1 of this title will be inserted, but additional definitions may be included in accordance with the instructions of each Procuring Activity when such additional definitions are not inconsistent with such "Definitions" clause.

§ 596.103–2 *Changes.* (a) The "Changes" clause contained in § 406.103–2 of this title will be inserted but with respect to such clause, in accordance with the instructions of each Procuring Activity, the period of "30 days" within which any claim for adjustment must be asserted may be varied. In special cases the "Changes" clause may be made applicable to changes in provisions other than those relating to drawings, designs, specifications, method of shipment or packing, and place of delivery, so long as such extended applicability of the "Changes" clause would not be inconsistent with the provisions of the clause in § 406.103–2 of this title.

(b) Additional quantities of supplies which were not initially contemplated in the contract will not be ordered under the "Changes" clause since such a practice might be used to defeat the requirements for competitive procurement.

(c) Accelerated deliveries will be provided for by a supplemental agreement modifying the contract rather than through the use of the "Changes" clause. Such a supplemental agreement, however, should not be used to provide additional compensation to the Contractor for accelerated deliveries to meet the delivery schedules prescribed in the contract.

§ 596.103–8 *Assignment of claims*—(a) *Setoff as against assignee.* (1) In time of war or national emergency proclaimed by the President (including the national emergency proclaimed 16 December 1950) or by Act or joint resolution of the Congress, contracts of the Army Establishment, as well as certain other Government agencies, may provide that payment due or to become due under such contracts shall not be subject to reduction or setoff as against an assignee.

(2) Such provision is contained in the last sentence of clause (a) of the Assignment of Claims clause, set forth in § 406.103–8 of this title, which reads as follows:

> Notwithstanding any other provision of this contract, payments to an assignee of any moneys due or to become due under this contract shall not, to the extent provided in said Act, as amended, be subject to reduction or setoff.

In cases where special circumstances make it advisable in the best interests of the Government, Heads of Procuring Activities may authorize deletion of the above quoted sentence. In any event, the sentence will be deleted from (i) contracts entered into with foreign Contractors, (ii) contracts for transportation of persons or property, and (iii) contracts entered into after a war or national emergency proclaimed by the President or by act or joint resolution of the Congress has been terminated in such manner.

(3) Provisions having the same general effect although not precisely as quoted in subparagraph (2) of this paragraph, such as that previously authorized in § 406.103–8 of this title, as revised 1 June 1950, will nevertheless entitle the assignee to the benefits of Public Law 30—82d Congress.

(4) Reduction of or setoff from payments to be made to an assignee will be effected with respect to liabilities of the assignor to the Government arising out of matters in connection with the contract, or of amounts which may be collected or withheld from the assignor in accordance with, or for failure to comply with, the terms of the contract, except as stated in § 406.103–8 of this title. Examples of cases in which setoff will be made include (but are not limited to)—

(i) Amounts due pursuant to price redetermination clauses.

(ii) Deduction of liquidated damages.

(iii) Excess costs and damages after termination for default.

(iv) Equitable adjustments and rejections under the Changes, Inspection and Guaranty clauses.

(v) Damages resulting from fraud or criminal conduct.

(5) It is the view of the Department of the Army, concurred in by the General Counsel, Office of the Comptroller General and the American Bankers Association, that existing contracts containing the provision against setoff included in § 406.103–8 of this title, need not be amended in order to obtain the benefits of Public Law 30—82d Congress. Accordingly existing contracts will not be amended for the above purpose.

(b) *Refunds, etc., of payments received by assignees.* In any case in which moneys due or to become due under any contract are or have been assigned pursuant to section 1 of the Assignment of Claims Act of 1940, as amended, no liability of any nature of the assignor to the United States or any department or agency thereof, whether arising from or independently of such contract, shall create or impose any liability on the part of the assignee to make restitution, refund, or repayment to the United States of any amount heretofore since 1 July 1950, or hereafter received under the assignment.

(c) *Filing of notice of assignment.* The assignee shall file written notice of the assignment together with a true copy of the instrument of assignment with—

(1) The Contracting Officer.

(2) The surety or sureties upon the bond or bonds, if any in connection with the contract.

(3) The Disbursing Officer, if any, designated in the contract to make payment.

(d) *Acknowledgment of notice of assignment.* Contracting Officers will acknowledge notices of assignment filed by assignees in accordance with paragraph (c) of this section. In cases where a notice of assignment of monies due under a definitive contract, which supersedes a letter contract, is received pursuant to the Assignment of Claims Act of 1940 (54 Stat. 1029), as amended, such notice should be acknowledged regardless of the fact that a notice of assignment of monies due under the letter contract had been previously acknowledged. The two notices of assignment should be considered as one and filed accordingly.

(e) *Assignor's statement.* Where direct payment is made to an assignee, the Contractor will furnish on each voucher, invoice, or other supporting paper, a statement to the effect that he recognizes the assignment, its validity, and the right of the assignee to receive payment.

(f) *Information to be furnished to assignees.* Contracting Officers will, upon request of the Contractor, furnish proposed assignees information regarding the status of the contract at the time of the assignment. In so doing, the Contracting Officer will advise the assignee that the information is so furnished only for confidential use in connection with the assignment.

§ 596.103–10 *Federal, State, and local taxes.* In effecting procurement outside the United States, its Territories and possessions, substitute the clause set forth in § 600.401 of this subchapter in lieu of the clause prescribed in § 410.401 of this title. (See § 596.050 (b) (1) (ii).)

§ 596.103–11 *Default*—(a) *Application.* (1) If the Contractor (i) fails to make delivery of the supplies or to perform the services within the time specified in the contract, or (ii) fails to perform any provision of the contract other than the delivery schedules, or (iii) so fails to make progress as to endanger performance of his contract in accordance with the terms thereof, the Contractor may be said to be in default.

(2) Defaults may be excusable or nonexcusable. Defaults are excusable when they arise out of the causes set forth in clause (b) of the Default article. (See § 406.103–11 of this title.)

(3) Paragraphs (b)–(i) inclusive of this section apply to contracts other than those under the Federal Supply Schedule. Paragraph (j) of this section applies to contracts under the Federal Supply Schedule.

(b) *Termination of contracts by agreement.* When default occurs in the performance of a contract, the contract may be terminated by supplemental agreement with the contractor, provided—

(1) If the default is not excusable, that the Contractor agrees to pay excess costs incurred in repurchase and damages resulting from delay.

(2) In the event the default is determined by the Contracting Officer to be excusable and the Contractor has incurred costs in the performance of the contract and refuses to execute a termination agreement without cost to the Government, the Contracting Officer may terminate the contract under the clause entitled "Termination for Convenience of the Government."

(3) If a performance bond has been filed, that the surety thereon is a party to the supplemental agreement.

(c) *Completion of contract after default.* (1) In the event that default has occurred in a contract by reason of nonexcusable delay, which results in actual damage to the Government, and the Contracting Officer deems it to be in the best interests of the Government to permit the Contractor to complete performance of the contract, a supplemental agreement may be entered into providing for completion of performance notwithstanding such default, if the Contractor assumes liability for the actual damages. The surety, if any, should either be a party to the supplemental agreement or should execute and deliver to the Contracting Officer, simultaneously with the execution of a supplemental agreement with the contractor, a written consent extending the terms of any performance bond to cover such supplemental agreement. The agreement should distinctly state that the Government's rights to accrued damages are not thereby waived.

(2) If a performance bond has been filed in connection with the contract, or otherwise, and action outlined in subparagraph (1) of this paragraph is not deemed to be in the best interests of the Government, an agreement may be entered into with the surety, providing for completion of performance of the contract upon the same terms and conditions as the original contract, less actual damages resulting from delay, and further providing for payment directly to the surety. Such agreement should clearly state that all rights against the Contractor and the surety are reserved so far as the surety does not cure defaults of the Contractor. The Contractor will be furnished promptly with a findings of fact as indicated in paragraph (d) (2) of this section, adapting paragraph (d) (2) (iv) of this section to the action taken.

(d) *Termination pursuant to default article.* (1) (i) Where the Contractor and/or his surety elect not to complete performance of the contract after being afforded an opportunity to do so (see paragraph (c) of this section), or (ii) when the Contracting Officer deems it to be in the best interests of the Government to terminate the contract following default thereof, and the default consists of the failure on the part of the Contractor to make delivery of the supplies or to perform the services within the time specified in the contract or any extension thereof, the procedure set forth in subparagraphs (2) through (4) of this paragraph will be followed.

(2) The Contractor will be given notice in writing which will include the following:

(i) Reference to contract number, date, and portion of contract as to which his right to proceed is terminated.

(ii) That his right to proceed further with performance under the contract is thereby terminated.

(iii) A specific description of the acts or omissions constituting the default.

(iv) That the supplies, services or construction required by the contract will be procured in the open market against his account, and that he will be held liable for any excess costs.

(v) That the Government reserves all rights and remedies provided by law or under the contract, in addition to charging excess costs. (Where liquidated

damages are provided for, substitute a reference thereto.)

(vi) That the notice constitutes a findings of fact pursuant to the Disputes article from which he has the right of appeal as specified therein.

(3) The same distribution will be made of the termination notice as was made of the contractual documents. In addition thereto, a copy will be furnished to the Disbursing Officer who will be advised to withhold further payments to the Contractor pending additional instructions.

(4) Notice of termination of a contract will be furnished to the Contractor within a reasonable time after the default occurs, or after efforts to arrange for compliance with the terms of the contract have resulted in failure. This requirement must be complied with in order to fulfill the Government's obligation to mitigate damages.

(5) If the default consists of the failure to perform any provision of the contract other than as specified in subparagraph (1) of this paragraph, or if the Contractor so fails to make progress as to endanger performance of the contract, a notice of termination will not be issued unless the Contracting Officer has previously notified the Contractor in writing of the specific default or failure, and has by the terms of such notice afforded the Contractor an opportunity to cure such default or failure within a period of time which shall be not less than 10 days from the date of receipt of such notice. The notice of termination in such cases will refer to the notice of default.

(e) *Repurchase against Contractor's account.* (1) In the event of termination of a contract for default, the Government is under a duty to mitigate damages.

(2) Accordingly, where the supplies or services are still required after termination, repurchase will be made against the Contractor's account either from other Contractors or Government facilities (i) as soon as possible after termination, (ii) of supplies or services similar to those called for in the contract, (iii) at as reasonable a price as practicable considering the quantity and quality required by the Government and the time within which the supplies or services are required; (iv) in construction contracts, the work will be let according to the same plans and specifications to such other responsible Contractor who offers the lowest price or it will be completed by Government plant and hired labor.

(f) *Action by Contracting Officer.* (1) If repurchase will not be effected, compute actual or liquidated damages (when clause contained in § 406.105–5 of this title is used), and make written demand upon contractor for the amount thereof.

(2) If repurchase is effected, compute excess costs and actual (or liquidated damages, when clause contained in § 406.105–5 of this title is used), and make written demand upon the contractor for the total amount.

(3) Forward the report required by paragraph (g) of this section, together with any checks, money orders, or funds in any form received from the Contractor. No report is required where the contract is unnumbered and no repurchase, or actual or liquidated damages are involved.

(g) *Report of termination of contract (Reports Control Symbol FIN–51).* Within 30 days after such termination, a letter report, "Subject: Report of Termination of Contract for Default (Reports Control Symbol FIN–51)," will be furnished to the Disbursing Office, in duplicate, setting forth the following information:

(1) Procuring Activity involved.

(2) Fiscal year of procurement involved.

(3) Original appropriation invloved.

(4) With respect to terminated contract:

(i) Name and address of Contractor.

(ii) Contract or purchase order number.

(iii) Date of award or execution.

(iv) Contract item and specification.

(v) Contract quantity.

(vi) Unit price.

(vii) Quantity and/or time payment discount.

(viii) Total contract cost.

(ix) Status of payments and deliveries under contract, including voucher citations.

(x) Statement of amount withheld, if any.

(xi) Statement of actual or liquidated damages accrued, if any (other than excess costs on repurchase).

(xii) Description of default resulting in termination.

(5) Statement as to whether repurchase has been or will be effected. If applicable, a negative reply is desired, together with statement of reasons why repurchase has not been or will not be effected. If repurchase is effected subsequent to date of report, a followup report will be forwarded.

(6) If repurchase is effected, set forth information with respect to repurchase contract, adapting items (subparagraph (4) (i) through (ix) of this paragraph) to such repurchase contract.

(7) State amount of excess cost (item subparagraph (6) minus item subparagraph (4) (viii) of this paragraph).

(8) State total amount of excess cost and actual or liquidated damages.

(9) Whether efforts have been made to collect the amount set forth in subparagraph (8) of this paragraph. If collected, forward the check, money order, or funds to Disbursing Officer with report. If uncollectible, a statement to that effect.

(10) Attach one copy of the following:

(i) Terminated contract.

(ii) Repurchase contract, if any.

(11) Attach two copies of the following:

(i) Notice of termination.

(ii) Notice to cure default, if any. See § 596.103–11 (d) (5) of this section.

(iii) Computation of liquidated or actual damages.

(iv) Correspondence from Contracting Officer to delinquent Contractor relative to the indebtedness.

(12) Attach original and one copy of correspondence from delinquent Contractor to Contracting Officer relative to indebtedness.

(13) Attach two copies of any other papers or documents deemed to be required as evidence for prosecution of claim or litigation against defaulting contractor.

(h) *Amount chargeable against defaulting Contractor.* A purchase or purchases against the account of a defaulting Contractor must not exceed the quantity originally ordered, with consideration given, of course, to the variation clause, if any, in the contract, and must be secured if practicable on the same unit basis, such as each, dozen, pound. This, however, does not preclude the Government from entering into one contract with the completing Contractor which includes additional needed supplies provided that the excess costs to be charged against the account of the defaulting Contractor are determined as provided in the preceding sentence of this paragraph. In any event, actual damages (or liquidated damages, if clause contained in § 406.105–5 of this title is used) resulting from delay, may be assessed in addition to excess costs.

(i) *Action by disbursing officer.* (1) Upon receipt of the Report of Termination of Contract, the Disbursing Officer will proceed, when necessary, to effect collection of excess costs and actual or liquidated damages by deduction of the amount thereof from any funds payable to the defaulting contractor.

(2) If the entire amount is collected by setoff, such action will be indicated by indorsement to the Report of Terminated Contract, together with applicable voucher citations, and a statement of the name of the Disbursing Officer and D. O. Symbol No. The Report and indorsement will be disposed of as follows:

(i) The original will be transmitted to the Chief of Finance, for forwarding to the General Accounting Office.

(ii) The duplicate copy will be filed in the Office of the Disbursing Officer.

(3) In the event that collection of excess cost and/or damages is effected by means of Contractor's check, money order, cash, or any means other than setoff against another account due to the Contractor, the Disbursing Officer will, in addition to taking action required by paragraph (2) of this section, submit together with the Report, the required number of copies of Standard Form No. 1044 (Schedule of Collections), properly completed in accordance with AR 35–3510 (Records of Sales and Collections).

(4) If the Disbursing Officer finds it impracticable to collect the entire amount due, or if no repurchase, excess costs, or damages are involved, he will indicate his action and recommendation by indorsement to the Report of Termination of Contract, and distribute the report and indorsement as follows:

(i) The original to the Chief of Finance, for forwarding to the General Accounting Office.

(ii) The duplicate copy will be filed in the office of the Disbursing Officer.

(iii) The Contracting Officer will be advised in writing of action taken and, where applicable, that the excess costs and/or damages could not be collected and that the matter has been reported to the Chief of Finance, for reference to the General Accounting Office.

(j) *Action in connection with Federal Supply Schedule contracts*—(1) *Action by Contracting Officer*—(i) *Ordering office.* Before declaring a Contractor in default, it is suggested that ordinarily ordering offices should notify the Contractor in writing that unless satisfactory performance occurs by a specified date, which should allow a reasonable time for performance, his right to proceed further under the purchase order will be considered terminated and he will be held liable for any excess costs resulting from purchasing the supplies or services elsewhere. This step would not be taken ordinarily when the default involves an attempted fraud on the United States, or when it obviously would be futile, as for example, when the Contractor has already declined to perform. Where excess costs are anticipated, the ordering office may likewise decide to withhold sufficient funds due the Contractor as offset security. Ordering offices will endeavor to minimize excess costs to be charged against the Contractor and to collect, by check or setoff, excess costs owed. Such collected funds are usually for deposit into the Treasury as miscellaneous receipts.

(ii) *Federal Supply Service.* Where ordering offices are notified by the Federal Supply Service that it has declared the Contractor in default, ordering offices will thereafter refuse to accept further performance by the Contractor or place further purchase orders with him. Ordering officer will thereafter purchase against the account of the Contractor from replacing Contractors designated by the Federal Supply Service or in such other manner as directed by the Federal Supply Service.

(2) *Reports.* Ordering offices will report to the Purchase Branch, Federal Supply Service, Washington 25, D. C., the details concerning all material instances of unsatisfactory performance by the Contractor, whether or not properly adjusted and settled. Ordering offices also will report, as may be directed by the Federal Supply Service, all purchases made against the account of a Contractor placed in default by the Federal Supply Service.

(k) *Excusable delay.* Where, following termination for default, it is subsequently determined that the Contractor's delay was excusable, the procedure outlined in clause (e) of the Default article (see § 406.103–11 of this title) will be followed.

(l) *Applicability to oversea commands.* (1) The default article is applicable to oversea commands except where any of its provisions are inconsistent with or prohibited by local law, in which case the article should be amended to conform to local law. For the purpose of this paragraph, local law is defined as the law of the foreign country or legal entity which is applicable to the execution and performance of contracts therein.

(2) The original of the Report of Termination of Contract, which is required by paragraph (i) of this section to be submitted to the Chief of Finance, will be submitted through the Finance Officer of the oversea command.

§ 596.103–12 *Disputes.* The "Disputes" Clause contained in § 406.103–12 of this title will be inserted as specified, except for contracts entered into by major oversea commanders and to be performed outside the United States (48 States and the District of Columbia) (paragraph (c) of this section). The "Disputes" Clause may be modified to provide for an intermediate appeal to the Head of a Procuring Activity upon approval of the Head of the Procuring Activity concerned.

(a) *Armed Services Board of Contract Appeals.* The charter and rules of the Armed Services Board of Contract Appeals are set forth in Appendix A of §413.008 of this title.

(b) *Procedure for handling disputes.* Disputes arising under Army contracts should be reviewed and screened to insure, so far as practicable and consistent with the rights of contractors, that only those appeals which require consideration and determination by the Armed Services Board of Contract Appeals be forwarded to the Board for disposition.

(1) *Correspondence.* All official correspondence with the Board will be addressed "Board of Contract Appeals, Office of the Secretary of the Army, Washington 25, D. C."

(2) *Time of filing of appeal to be endorsed.* When the appeal has been received by the Contracting Officer or the Head of a Procuring Activity, as the case may be, he will indorse thereon the date of filing and forward the appeal, as hereinafter provided.

(3) *Findings of fact and decisions.* (i) In rendering a decision on any dispute involving a question of fact, the Contracting Officer or the Head of a Procuring Activity, as the case may be, will prepare and sign findings of fact, a true copy of which with his written decision will be promptly furnished the Contractor. The Contracting Officer will include in his decision the following paragraph:

> If in your opinion the findings and decision hereinbefore set forth involve a dispute concerning a question of fact, you are hereby notified that in accordance with the provisions of Clause ------, "Disputes" of the above-numbered contract you may appeal from these findings and decision to the Secretary of the Army. If properly filed, your appeal will be heard by the Armed Services Board of Contract Appeals, the duly authorized representative of the Secretary. The Rules of the Board provide that an appeal may take the form of the notice of appeal. It may be in the form of a letter or any other form which presents the necessary information, including specific facts and argument, complete in reasonable detail, in support of the appeal. A notice of appeal must be addressed to the Secretary of the Army and must be mailed to, or filed with, the undersigned Contracting Officer within 30 days after receipt of these findings and decision. A notice of appeal should indicate that an appeal is intended and should identify the contract (by number), the decision from which the appeal is taken, the date of the decision, the contractual provision concerned in the dispute, the nature of the dispute, and the relief sought by the appeal. The Rules further provide that the notice of appeal should be signed personally by the Contractor taking the appeal or by an officer of the appellant corporation or member of the appellant firm or by the Contractor's duly authorized representative. Three copies of the notice of appeal should be furnished.

(ii) *Forwarding by Contracting Officer.* When an appeal is taken from the decision of a Contracting Officer he will promptly forward to the Head of the Procuring Activity concerned, a true copy of his findings of fact and of his decision; the original written appeal and the required copies thereof; a transcript of any evidence taken by him; and all pertinent papers in the case.

(iii) *Forwarding by Heads of Procuring Activities of appeals from decisions of Contracting Officer.* (a) If the appeal from the Contracting Officer's decision is to the Secretary, the Head of the Procuring Activity receiving the appeal will exercise the utmost care to see that the record is complete; will add to the file, if not already in it, an original duplicate or true copy of the contract, including the plans and specifications and all changes and supplemental agreements; and will promptly forward the complete file to the Board.

(b) If for any reason an appeal cannot be processed by the Procuring Activity in accordance with this section within 10 days from the date appeal is received by the Activity, the Head of the Procuring Activity will report to the Board the date on which the appeal was received in his office and the reason for the delay in accomplishing the processing.

(4) *Forwarding appeals from Heads of Procuring Activities.* The Head of a Procuring Activity, within 10 days after the receipt of a written appeal from his decision, will forward the original written appeal and the required copies thereof to the Board, together with the following papers: a copy of his findings of fact and decision; the advisory report, if there be one, of the contract settlement board in his office; a transcript of any testimony taken during the course of the proceedings; a duplicate original or a certified copy of the contract, including the plans and specifications and all changes and supplemental agreements; the findings of fact and decision of the Contracting Officer; and all papers and correspondence pertaining to the contract, pertinent to the consideration of the appeal. In cases wherein an appeal under the terms of a contract is filed with a Procuring Activity, the Head of the Activity concerned will, prior to forwarding the appeal to the Armed Services Board of Contract Appeals:

(i) Carefully review the "decision" or "findings of fact" from which the appeal is taken to ascertain that all basic "findings of fact" are complete as to all issues bearing upon the matter in dispute. He will also ascertain that all evidence relied upon (whether documentary or oral testimony) in support of the "decision" or "finding of fact" does support the Government's position; and that all essential witnesses and documentary evidence will be available to the Board at the time of the hearing of the appeal. When appropriate, the Head of the Procuring Activity will conduct an investigation to accomplish these objectives.

(ii) Refer the Contracting Officer for supplemental findings cases in which the "decision" does not contain all of the basic findings required to support it, or in which the "findings of fact" are not complete as to all issues bearing upon the matter in dispute.

(iii) Refer to the Contracting Officer for reconsideration all cases wherein a timely appeal has been taken and it is clear from the evidence, contractual provisions and the applicable law, that the Contracting Officer's "decision" or "findings of fact" is erroneous or not supported by competent and available evidence. Attention is invited to the requirement that the Contracting Officer must give his personal and independent consideration to the making of each "decision" or "findings of fact," with the aid of such technical and legal advice as may be available to him, and the exercise of this function can neither be delegated to nor usurped by anyone not authorized by the terms of the contract. Whenever upon such reconsideration the Contracting Officer modifies his "decision" or "findings of fact" so as to eliminate a part or all of issues involved in the appeal, he will request the appellant to furnish, for incorporation in the appeal papers, a statement withdrawing its appeal as to the issues thus eliminated.

(iv) Prepare and forward to the Chief Trial Attorney's office a statement of the factual and legal issues involved in the appeal and a brief summary of the evidence (both documentary and oral testimony) which will be available at the hearing to support the Government's position, together with comments, when pertinent, as to the probable implications on procurement policies of the decision upon the subject appeal.

(v) *Appeals filed with the Secretary or the Board.* In cases wherein an appeal is filed directly with the Office of the Secretary of the Army or the Armed Services Board of Contract Appeals, the Board, pursuant to its rules of procedure, will promptly furnish a copy thereof to the Procuring Activity concerned, through the Chief, Trial Attorney's office. Upon the receipt of such appeal the Procuring Activity will process the same as though it had been initially filed with the Activity.

(vi) *New facts or circumstances.* Upon discovery of new facts or circumstances the Chief Trial Attorney is authorized, in appropriate cases, to return appeals to the Procuring Activity for further reconsideration in the light of the additional facts of circumstances disclosed.

(vii) *Appeals improperly filed.* If any officer or agency of the Department other than the officer or agency designated in the contract, should receive a written appeal, the recipient will, after endorsing thereon the date of its receipt, immediately transmit the appeal to the Head of the Procuring Activity concerned:

(*a*) For appropriate action as provided in subparagraph (4) of this paragraph, if the appeal is from the decision of the Head of a Procuring Activity, or

(*b*) If the appeal is from the decision of a Contracting Officer, then for action as required by subparagraph (3) of this paragraph.

(c) *Major oversea commands.* (1) The following "Disputes" Clause will be inserted in all contracts entered into by major oversea commands and to be performed outside the United States (48 States and the District of Columbia) in lieu of the clause set forth in § 406.103–12 of this title:

DISPUTES

Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. Within 30 days from the date of receipt of such copy, the Contractor may appeal by mailing or otherwise furnishing to the Contracting Officer a written appeal addressed to the Commanding General (------[1]) and the decision of the Commanding General (------[1]), or that of his duly authorized representative (other than the Contracting Officer under this contract) for the hearing of such appeals, upon personal approval by the Commanding General (------[1]) or his designated deputy, shall, unless determined by a court of competent jurisdiction to have been fraudulent, arbitrary, capricious, or so grossly erroneous as necessarily to imply bad faith, be final and conclusive upon the parties hereto when the amount involved in the appeal is $50,000 or less; provided that, if no appeal is taken, within the said 30 days, the decision of the Contracting Officer shall be final and conclusive. When the amount involved is more than $50,000 the decision of the Commanding General (------[1]) shall be subject to written appeal within 30 days after the receipt thereof by the Contractor to the Secretary of the Army and the decision of the Secretary or his duly authorized representative for the hearing of such appeals shall, unless determined by a court of competent jurisdiction to have been fraudulent, arbitrary, capricious, or so grossly erroneous as necessarily to imply bad faith, be final and conclusive; provided that, if no such further appeal is taken, within the said 30 days, the decision of the Commanding General (------[1]) shall be final and conclusive. In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with Contracting Officer's decision.

(2) Each commanding general of a major oversea command will appoint within his command a Board to be known as "[name of command] Board of Contract Appeals." The Board will consist of three or more members who will be persons trained in the law, one of whom will be designated by the appointing authority as the President of the Board. There also will be appointed a Recorder of the Board who will perform such duties as the Board may prescribe. The Recorder of the Board also may be a member thereof.

(3) The Board, created pursuant to the provisions of paragraph (c) (2) of this section, will be designated by the commanding general as his duly authorized representative to hear, consider, and decide, as fully as he might do, all appeals to him under contracts having such provisions. The Board's final decision, however, will be subject to his personal approval, or that of his deputy designated for such purpose. The Board will be granted all powers necessary and incident to the proper performance of its duties and, with the approval of the appointing authority, will adopt its own methods of procedure, rules, and regulations for its conduct and for the preparation and presentation of appeals and issuance of decisions.

(4) Each commanding general of a major oversea command will designate one or more trial attorneys, who will be qualified attorneys at law, for the preparation and presentation of the contentions of the Procuring Activity in relation to appeals filed with the Board.

[1] Specify name of major oversea command concerned.

§ 596.103–14 *Buy American Act.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted. See § 596.050 (b) (1) (iii).

§ 596.103–16 *Eight-Hour Law of 1912.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted. See § 596.050 (b) (1) (iv).

§ 596.103–17 *Walsh-Healey Public Contracts Act.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted. See § 596.050 (b) (1) (iv).

§ 596.103–18 *Nondiscrimination in employment.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted. See § 596.050 (b) (1) (iv).

§ 596.103–21 *Termination for convenience of the Government.* Insert the contract clause appropriate for use in fixed-price supply contracts as set forth in Part 407, Chapter IV of this title, provided that prior to the issuance and effective date of Part 407, Chapter IV of this title, there shall be inserted such termination clause as is prescribed by Part 597 of this subchapter.

§ 596.104 *Clauses to be used when applicable.* The contract clauses set forth in § 406.104 of this title and in this section shall be used when applicable subject to the instructions contained in § 406.104 of this title and in this section and § 596.050.

§ 596.104–1 *Davis-Bacon Act.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted. See § 596.050 (b) (1) (iv) of this subpart.

§ 596.104–2 *Copeland Act.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted. See § 596.050 (b) (1) (iv) of this subpart.

§ 596.104–3 *Employment of aliens.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted. Contracting Officers will exercise the utmost care in effecting this type procurement to avoid the compromise of classified data.

§ 596.104–4 *Neutrality Act of 1939—*(a) *Basic law.* By section 12 of the act of November 4, 1939 (22 U. S. Code 452), also referred to as the "Neutrality Act of 1939," the National Munitions Control Board was established, upon the recommendation of which the President was authorized to proclaim, from time to time, a list of articles which shall be considered arms, ammunition, and implements of war for the purposes of said act. The Secretary of State promulgates rules and regulations with regard to said act and except where otherwise provided by law, the administration was vested in the Department of State. The Neutrality Act further provides for the registration of persons engaged in manufacturing, exporting, or importing any arms, ammunition, or implements of war listed in the President's Proclamation; and that no purchase of arms, ammunition, or implements of war shall be made on behalf of the United States from any person who shall have failed to register under the provision of said act.

(b) *Proclamation of the President.* (1) The President, in Proclamation 3038, 18 November 1953, has proclaimed the articles which are considered arms, ammunition, and implements of war for purposes of basic law as follows:

CATEGORY I—SMALL ARMS AND MACHINE GUNS

Rifles, carbines, revolvers, pistols, machine pistols, and machine guns using ammunition of caliber .22 or over.

CATEGORY II—ARTILLERY AND PROJECTORS

Guns, howitzers, cannon, mortars, tank destroyers, rocket launchers, military flame throwers, military smoke projectors, and recoilless rifles.

CATEGORY III—AMMUNITION

Ammunition of caliber .22 or over for the arms enumerated in Categories I and II hereof.

CATEGORY IV—BOMBS, TORPEDOES, ROCKETS, AND GUIDED MISSLES

(a) Bombs, torpedoes, grenades (including smoke grenades), smoke canisters, rockets, mines, guided missiles, depth charges, fire bombs, incendiary bombs.

(b) Apparatus and devices for the handling, control, activation, discharge, detonation, or detection of items enumerated in paragraph (a) of this category.

CATEGORY V—FIRE CONTROL EQUIPMENT AND RANGE FINDERS

Fire control, gun tracking, and infrared and other night-sighting equipment; range position and height finders, and spotting instruments; aiming devices (electronic, gyroscopic, optic, and acoustic); bomb sights, gun sights, and periscopes for the arms, ammunition, and implements of war enumerated in this proclamation.

CATEGORY VI—TANKS AND ORDNANCE VEHICLES

Tanks, military type armed or armored vehicles, ammunition trailers, and amphibious vehicles (land vehicles capable of limited endurance in water), military half tracks, military type tank recovery vehicles, and gun carriers.

CATEGORY VII—TOXICOLOGICAL AGENTS

(a) Biological or chemical toxicological agents adapted for use in war to produce casualties or to damage crops.

(b) Equipment for the dissemination, detection, and identification of, and defense against, the items described in paragraph (a) of this category.

CATEGORY VIII—PROPELLANTS AND EXPLOSIVES

Propellants for the articles enumerated in Categories III, IV, and VII hereof; military high explosives.

CATEGORY IX—VESSELS OF WAR AND SPECIAL NAVAL EQUIPMENT

(a) Warships, amphibious warfare vessels, landing craft, mine warfare vessels, patrol vessels, auxiliary vessels, service craft, floating dry docks, and experimental types of naval ships.

(b) Equipment for the laying, detection, detonation, and sweeping of mines.

(c) Submarine nets.

CATEGORY X—AIRCRAFT

Aircraft and airborne equipment.

CATEGORY XI—MISCELLANEOUS EQUIPMENT

(a) Radar of all types, including guidance systems and airborne or ground radio equipment therefor; electronic counter-measure and jamming equipment; underwater sound equipment; all other electronic equipment specially designed for military use; radio-communications equipment bearing a military designaton; electronic navigational aids specially designed for military use such as radio direction finding equipment, radio distance measuring systems such as Shoran, and hyperbolic grid systems such as Raydist, Loran, and Decca.

(b) Aerial and special purpose military cameras and specialized processing equipment therefor; military photointerpretation, stereoscopic plotting, and photogrammetry equipment.

(c) Armor plate, armored railway trains, military steel helmets, body armor, and flak suits.

(d) Specialized military mobile repair shops specially designed to service military equipment.

(e) Pressurized breathing equipment and partial pressure suits for use in aircraft, anti "G" suits, military crash helmets, parachutes utilized for personnel, cargo, and deceleration purposes, and aircraft liquid oxygen converters.

(f) Military pyrotechnics including projectors therefor.

(g) Specialized military training equipment.

(h) Tear gas and equipment for the dissemination thereof.

CATEGORY XII—CLASSIFIED MATERIAL

All material not enumerated herein which is classified from the standpoint of military security.

This proclamation shall become effective on January 1, 1954, and shall on that date supersede Proclamation No. 2776 of March 26, 1948, entitled "Enumeration of Arms, Ammunition, and Implements of War."

(c) *Interpretation of basic law by department of State.* Munitions Division Bulletin No. 1, Department of State, entitled "New requirements relating to the licensing for export and import of articles defined as arms, ammunition and implements of war," 1 April 1948, indicates the procedure to be followed by those engaged in the business of manufacturing, exporting or importing any of the arms, ammunition, or implements of war enumerated in the President's Proclamation pending issuance of a revised edition of the pamphlet "International Traffic in Arms." Inquires relative to the application of Proclamation 3038 should be submitted to the Munitions Division, Department of State, Washington 25, D. C.

(d) *Invitations for bids, requests for proposals, and negotiated contracts.* If any item being purchased is listed in any current proclamation issued by the President under Section 12 of the Neutrality Act of 1939 (Act of 4 November 1939, 54 Stat. 10; 22 U. S. C. 452) the clause prescribed by § 406.104–4 of this title, Neutrality Act of 1939, will be included in all invitations for bids, or in case of negotiation, in the request for proposals if a request for proposals is used. If a request for proposals is not used, the clause will be brought to the attention of prospective Contractors during negotiation and the clause incorporated in any resultant contract.

(e) *Overseas.* If effecting procurement of arms, ammunition, or implements of war, defined as such by the Neutrality Act of 1939 and subsequent Presidential Proclamations, outside the United States, its Territories and possessions, clearance of the procurement, prior to consummation, will be obtained from, and insertion or deletion of the clause will be as dictated by the Munitions Division, Department of State, except that in the following cases, clearance need not be obtained and the clause will not be inserted:

(1) In areas of military occupation.

(2) In areas outside the United States and its Territories where the Department of State has entered into treaties or other agreements with the countries or authorities concerned with respect to the exporting or importing of arms, ammunition or implements of war.

(3) Those geographical areas or those procurement items in which or for which the Department of State has made a blanket exception or a previous exception to the Act.

(4) When the source of supply is not a national of, or otherwise subject to the laws of, the United States.

§ 596.104–12A *Military security requirements; research and development contracts.* The following clause is approved for use in research and development contracts with educational or nonprofit institutions, as a deviation from subchapter A, chapter IV of this title pending inclusion in a future revision of subchapter A, chapter IV of this title:

MILITARY SECURITY REQUIREMENTS—RESEARCH AND DEVELOPMENT CONTRACTS

(a) The provisions of this clause shall apply to the extent that this contract involves access to security information classified "Top Secret," "Secret," or "Confidential."

(b) The Government shall notify the Contractor of the security classification of this contract, and the elements thereof, and of any subsequent revisions in such security classification, by the use of a Security Requirements Check List (DD Form 254) and Appendage thereto (DD Form 254–1).

(c) To the extent the Government has indicated as of the date of this contract, or thereafter indicates, security classification under this contract as provided in paragraph (b) above, the Contractor, except as otherwise provided in this clause, shall safeguard all classified elements of this contract and shall provide and maintain a system of security controls within its own organization in accordance with the requirements of (i) the Department of Defense Industrial Security Manual for Safeguarding Classified Security Information as in effect on the date of this contract, which Manual is hereby incorporated by reference and made a part of this contract, and (ii) any amendments to said Manual required by the demands of national security as determined by the Government and made after the date of this contract.

notice of which has been furnished to the Contractor by the Contracting Officer.

(d) Designated representatives of the Government responsible for inspection pertaining to industrial security shall have the right to inspect at reasonable intervals the procedures, methods, and facilities utilized by the Contractor in complying with the requirements of the terms and conditions of this clause. Should the Government, through its authorized representative, determine that the Contractor has not complied with such requirements, the Government shall inform the Contractor in writing of the proper actions to be taken in order to effect compliance with such requirements.

(e) In the event a change in security requirements, as provided in paragraphs (b) and (c), results (i) in a change in the security classification of this contract or any element thereof from a nonclassified status to a classified status or from a lower classification to a higher classification, or (ii) in more restrictive area controls than previously required, the Contractor shall exert every reasonable effort compatible with its established policies to continue the performance of work under the contract in compliance with such change in security classification or requirements. If, despite such reasonable efforts, the Contractor determines that the continuation of work under this contract is not practicable because of such change in security classification or requirements it shall so notify the Contracting Officer in writing.

(f) After receiving such written notification, the Contracting Officer shall explore the circumstances surrounding the proposed change in security classification or requirements and shall endeavor to work out a mutually satisfactory method whereby the Contractor can continue performance of the work under this contract.

(g) If, upon the expiration of fifteen (15) days after receipt of the notification by the Contracting Officer of the Contractor's stated inability to proceed, (i) the application to this contract of such change in security classification or requirements has not been withdrawn or (ii) a mutually satisfactory method for continuing performance of work under this contract has not been agreed upon, the Contractor may request the Contracting Officer to terminate the contract in whole or in part. Thereupon, the Contracting Officer shall terminate the contract in whole or part, as may be appropriate, and such termination shall be deemed a termination under the provisions of the clause of this contract entitled "Termination for the Convenience of the Government."

(h) The Contractor agrees to insert, in all subcontracts hereunder which involve access to classified security information, provisions which shall conform substantially to the language of this clause, including this paragraph (h) but excluding paragraphs (e), (f), and (g) of this clause.

(i) The Contractor also agrees that it shall determine that any subcontractor proposed by it for the furnishing of supplies and services which will involve access to classified security information in the Contractor's custody has been granted an appropriate facility security clearance which is still in effect, prior to being accorded access to such classified security information.

§ 596.104–13 *Domestic food or clothing.* In effecting procurement outside the United States, its Territories and possessions, for any articles of food or clothing excepted from the prohibition of the annual appropriation acts, this clause will be deleted.

§ 596.104–15 *Examination of records clause in utility services contracts.* Contracts or purchase orders for public utility services are exempted from compliance with the requirements of § 406.104–15 of this title when such contracts are at rates not in excess of those established for uniform applicability to the general public, or at such rates plus reasonable connection charges incident to such services.

§ 596.104–50 *Title II, First War Powers Act, 1941, as amended.* All contracts and amendments to contracts made under the authority of the Title II, First War Powers Act, 1941, as amended, will contain the clauses and conform to the requirements prescribed in § 606.409 of this subchapter.

§ 596.105 *Additional clauses.* The clauses set forth in § 406.105 of this title will be inserted in fixed-price supply contracts in accordance with the instructions of each Procuring Activity where necessary or desirable to cover the subject matter contained in such clauses.

§ 596.105–5 *Liquidated damages*—(a) *Contract provision.* If a contract is to provide for liquidated damages, a provision will be inserted in accordance with § 406.105–5 of this title.

(b) *Accrual.* Where a contract provides for liquidated damages in the event of default, and a default occurs, liquidated damages accrue to the Government, in accordance with the terms of the contract.

(c) *Mitigation.* If there is a liquidated-damage provision in a contract for the purchase of ordinary supplies and default should occur, time should not be permitted to run indefinitely, the result of which would make the liquidated damages chargeable exceed the contract price of the supplies to be delivered. The law imposes the duty upon a party subjected to injury by the action of another to mitigate the damages which result from such wrongful action, and that must be as true where liquidated damages run as in the ordinary case of actual damages. Efforts must be made to procure supplies elsewhere if delivery is not forthcoming within a reasonable time after the default occurs. While the course to be followed must depend upon the facts in each case, the rule may be stated that damages to run must be conserved and, as promptly as possible, according to what may be the attitude of the Contractor respecting delivery, administrative action should be taken to procure the supplies elsewhere.

(d) *Remission.* Whenever any contract includes a provision for liquidated damages for delay, the Comptroller General on the recommendation of the Secretary is authorized and empowered to remit the whole or any part of such damages as in his discretion may be just and equitable. Recommendations submitted by a Contracting Officer to the Head of a Procuring Activity or to the Secretary will not be furnished the Contractor.

§ 596.150 *Department of the Army clauses.* The following clauses will be inserted in fixed-price supply contracts when applicable and in accordance with the instructions set forth in this section.

§ 596.150–1 *Progress payments*—(a) *Clarification of terms "partial payments" and "progress payments"*—(1) *Partial payments.* The term "partial payments" describes (i) payments made upon completion of the delivery of one or more complete units, or upon completion of one or more distinct items of service, under a contract; or (ii) partial payments on termination claims.

(2) *Progress payments.* The term "progress payments" identifies payments made as work progresses under a contract upon the basis of (i) costs incurred, (ii) percentage of completion accomplished, or (iii) a particular stage of completion.

(b) *Authority for progress payments.* Progress payments are authorized in an amount not to exceed 90 percent of the costs to the Contractor of direct labor and material and/or component parts purchased under the contract. The contract will contain the clause set forth in paragraph (c) of this section. Deviations to this procedure, including approval of 100 percent progress payments, may be made by Chief, Purchases Branch, Office of the Assistant Chief of Staff, G–4, upon the recommendation of Heads of Procuring Activities.

(c) *Progress payments clause.*

PROGRESS PAYMENTS

Progress payments, which are hereby defined as payments made as work progresses under this contract upon the basis of (i) costs incurred, (ii) percentage of completion accomplished, or (iii) a particular stage of completion, may be made upon the following terms and conditions.

(a) The Contracting Officer may, from time to time, authorize progress payments to the Contractor upon property acquired or produced by it for the performance of this contract: *Provided*, that such progress payments shall not exceed 90 percent of the costs to the Contractor of direct labor and material and/or component parts purchased for that property upon which payment is made, which costs shall be determined from evidence submitted by the Contractor and which must be such as is satisfactory to the Contracting Officer: *Provided further*, that in no event shall the total of unliquidated progress payments (see (c) below) and of unliquidated advance payments if any, made under this contract, exceed 80 percent of the total contract price of supplies still to be delivered.

(b) Upon the making of any progress payment under this contract, title to all parts, materials, inventories, work in process and nondurable tools theretofore acquired or produced by the Contractor for the performance of this contract, and properly chargeable thereto under sound accounting practice, shall forthwith vest in the Government; and title to all like property thereafter acquired or produced by the Contractor for the performance of this contract and properly chargeable thereto as aforesaid shall vest in the Government forthwith upon said acquisition or production: *Provided*, that nothing herein shall deprive the Contractor of any further progress or final payments due or to become due hereunder; or relieve the Contractor or the Government of any of their respective rights or obligations under this contract.

(c) In making payment for the supplies furnished hereunder, there shall be deducted from the contract price therefor a proportionate amount of the progress payments theretofore made to the Contractor, under the authority herein contained.

(d) It is recognized that property (including, without limitation, completed supplies, spare parts, drawings, information, partially completed supplies, work in process, materials, fabricated parts and other things called for herein) title to which is or may hereafter become vested in the Government pursuant to this clause will from time to time be used by or put in the care, custody or possession of the Contractor in connection with the performance of this contract. The Contractor, either before or after receipt of notice of termination at the option of the Government, may acquire or dispose of property to which title is vested in the Government under this clause, upon terms approved by the Contracting Officer: *Provided*, That after receipt of notice of termination, any such property that is a part of termination inventory may be acquired or disposed of only in accordance with the provisions of the clause of this contract entitled Termination for Convenience of the Government and applicable laws and regulations. The agreed price (in case of acquisition by the Contractor) or the proceeds received by the Contractor (in case of any other disposition), shall, to the extent that such price and proceeds do not exceed the unliquidated balance of progress payments hereunder, be paid or credited to the Government as the Contracting Officer shall direct; and such unliquidated balance shall be reduced accordingly. Current production scrap may be sold by the Contractor without approval of the Contracting Officer but the proceeds will be applied as provided in this paragraph (d), provided that any such scrap which is a part of termination inventory may be sold only in accordance with the provisions of the Termination for Convenience of the Government of this contract and applicable laws and regulations. Upon liquidation of all progress payments hereunder or upon completion of deliveries called for by this contract, title to all property (or the proceeds thereof) which has not been delivered to and accepted by the Government under this contract or which has not been incorporated in supplies delivered to and accepted by the Government under this contract and to which title has vested in the Government under this clause shall vest in the Contractor.

(e) The clause of this contract captioned "Liability for Government-Furnished Property" and any other provision of this contract defining liability for Government-Furnished Property shall be inapplicable to property to which the Government shall have acquired title solely by virtue of the provisions of this clause. The provisions of this clause shall not relieve the Contractor from risk of loss or destruction of or damage to property to which title vests in the Government under the provisions hereof.

(f) If this contract (as heretofore or hereafter supplemented or amended) contains provisions for Advance Payments, and in addition if at the time any progress payment is to be made to the Contractor under the provisions of this progress payments clause any unliquidated balance of advance payments is outstanding, then notwithstanding any other provision of the Advance Payments Clause of this contract the net amount, after appropriate deduction for liquidation of the advance payment, of such progress payment shall be deposited in the special bank account or accounts maintained as required by the provisions of the Advance Payments Clause, and shall therefrom be withdrawn only pursuant to such provisions.

§ 596.150–2 *Advance payments.* Whenever advance payments have been authorized in accordance with Subpart E, Part 402 of this title and Subpart E, Part 592 of this subchapter, insert the contract clause appropriate for use in fixed-price supply contracts as set forth in Subpart E, Part 402 of this title, *provided* that prior to the issuance and effective date of such clause in Subpart E, Part 402 of this title, there will be inserted the contract clause authorized for use in the contract concerned at the time the advance payment is approved as provided in Subpart E, Part 402 of this title and Subpart E, Part 592 of this subchapter.

§ 596.150–3 *Plant protection.* In those cases where the Contracting Officer deems it necessary to retain some control as to the plant protective devices in a particular plant, the contract will contain one of the following clauses:

a. Plant protection:

The Contractor shall maintain in and about his plant adequate plant protective devices and shall employ such watchmen, guards and other personnel as the Contracting Officer may deem necessary to prevent espionage, sabotage, and other malicious destruction or damage.

b. Plant protection:

The Contractor shall maintain in and about his plant adequate plant protective devices and shall employ such watchmen, guards and other personnel as the Contracting Officer may deem necessary to prevent espionage, sabotage, and other malicious destruction or damage. If the Contracting Officer from time to time shall require the installation of plant protective devices or the employment of watchmen, guards or other personnel, or both, in addition to those deemed necessary by him on the date the Contractor shall commence performance of this contract, the cost of any such devices installed or the pay of any such personnel employed, or both, at the written request and upon the written authorization of the Contracting Officer, shall be reimbursed to the Contractor upon submission of vouchers approved by the Contracting Officer, provided that no reimbursement of the cost of any such installation or pay of any such personnel, or both, shall be made in excess of the cost thereof, as estimated in advance and approved in writing by the Contracting Officer.[1]

c. Plant protection (Government-owned contractor operated plants).

(a) The Contractor shall at all times during the performance of the work under this Contract comply with all applicable Federal, State and local statutes, and with such rules and regulations as are furnished to the Contractor by the Contracting Officer, governing the manufacture, storage, loading, handling, or transporting of military explosives, pyrotechnic, and inert materials. The Contractor will maintain such additional safety precautions for its personnel, for facilities staffed and operated by it, and for work in process, as are customary in the industry or in the Contractor's private operations. All personnel having access to the plant, including Government personnel, shall comply with all instructions issued by the Contractor in furtherance of the safety precautions. The Contractor shall install and maintain in and about the plant such plant protective devices and shall employ such guards and other personnel as the Contracting Officer may approve, including such personnel and protective devices for the prevention of espionage, sabotage, and other malicious destruction or damage. The Contractor shall make available such information with respect thereto as the Contracting Officer may request. The use by the Contractor of such Government-owned safety or plant protective equipment as may be located at the plant site is authorized subject to approval by the Contracting Officer.

(b) The Contractor agrees to furnish the authorized Security and Safety personnel of the Army Establishment with a survey of the existing internal security system and explosion-and-fire-prevention system in the portions of the plant staffed and operated by the Contractor. The Contractor agrees to make any changes necessary to cause the existing internal security system and explosion-and-fire-prevention system to comply with all applicable local, State, and Federal laws, rules, and regulations, including such Department of the Army regulations or ---------- instructions as are
(Procuring Activity)
furnished to the Contractor by the Contracting Officer, governing the manufacture, storage, loading, handling, or transporting of military explosives, pyrotechnic, and inert materials.

(c) At any time during the term of this contract, the Contracting Officer or his duly authorized representative may require the Contractor to install and maintain in and about the plant additional protective devices, equipment and personnel. The Contractor shall submit promptly to the Contracting Officer or his duly authorized representative, for prior approval as to estimated cost, detailed inventories, including the estimated cost of each item of protective devices or equipment so required to be installed and of installing the same, and a detailed estimate of the cost of maintaining any such additional protective devices or equipment and personnel.

(d) Title to all plant protective devices and equipment added under paragraph (c) of this clause shall be in the Government. The Contractor, during the term of this contract or any extension thereof, shall maintain and keep in good condition and repair all such protective devices and equipment.

(e) The Contracting Officer and authorized Security and Safety personnel of the Army Establishment, at all times during the performance of this Contract or any extension thereof, shall have access to the portions of the plant staffed and operated by the Contractor in order to inspect, inventory, or remove any of said plant protective devices or equipment, and to inspect the premises with respect to compliance with all regulations and requirements concerning plant protection, safety, and security including any recommendations made by the appropriate Army Establishment personnel.

§ 596.150–4 *Rental of gas cylinders.* Every contract for the rental of gas cylinders will contain a clause similar to one of the following:

Rental of gas cylinders (individual basis):

Cylinders shall remain the property of the Contractor and will be loaned, without charge, to the Government for a period of 30 days after the date of shipment of cylinders from the Contractor's plant. Beginning with the first day after the expiration of the 30-day free loan period to and including the day the cylinders are released to the transportation company for return to the Contractor, there will be charged and the United States agrees to pay the Contractor a rental at the rate of $------ per cylinder per day for the use of cylinders not returned to the Contractor.

Rental of gas cylinders (quantity basis):

Cylinders shall remain the property of the Contractor and will be loaned, without charge, to the Government for a period of 30 days after the date of shipment of cylinders from the Contractor's plant. Beginning with the first day after the expiration of the 30-day free loan period to and including the day the cylinders are released to the transportation company for return to the Con-

[1] If desired an additional proviso may be added, reading substantially as follows: *Provided further*, That no reimbursement of the cost of any such installation or pay of any such personnel is being made to the Contractor by other means.

tractor, there will be charged and the United States agrees to pay the Contractor a rental at the rate of $------ per cylinder per day, computed on a quantity basis, as indicated below, for the use of cylinders not returned to the contractor. This rental charge will be computed separately for oxygen and acetylene cylinders and for each point of delivery named in the contract. A credit of 30 cylinder days will accrue for each cylinder shipped. A debit of one cylinder day will accrue for each cylinder for each day held beginning with the day after date of shipment from Contractor's plant to and including the day the cylinder is released to the transportation company for return to the Contractor. At the end of the contract period, in the event the total number of debits exceeds the total number of credits, rental will be charged for the difference. If the total number of credits equals or exceeds the total number of debits, no charge will be made for the use of the cylinders.

All cylinders not returned to the Contractor on or before the expiration of a 90-day rental period or lost or damaged beyond repair while in the possession of the United States Government shall be paid for by the United States to the Contractor at a replacement value of $------ for each oxygen cylinder of 100 to 110 cubic feet capacity, $------ for each oxygen cylinder of 200 to 220 cubic feet capacity, $------ for each acetylene cylinder of 100 to 150 cubic feet capacity, and $------ for each acetylene cylinder of 250 to 300 cubic feet capacity.

Cylinders retained or lost and so paid for shall be considered the property of the United States. But if and when located they may, at the option of the Government, be returned to the Contractor, and, in such event, credit shall be allowed to the Government at the replacement value paid, less rental at the rate of $------ per day beginning at the expiration of the 30-day period as aforesaid to the date upon which cylinders are turned over to carrier for return to Contractor's plant.

§ 596.150–5 *Liability for Government property furnished for repair.* Insert the clause set forth below in contracts for the repair of Government property, possession of which is turned over to the Contractor for that purpose.

Liability for Government property:

(a) The Contractor will be liable for any loss, destruction of or damage to the Government property to be repaired caused by the Contractor's failure to exercise such care and diligence as a reasonably prudent owner of similar property would exercise under similar circumstances.

(b) In addition to such insurance as is normally carried by the Contractor in the course of business the Contractor agrees to maintain such additional insurance (including self-insurance funds or reserves) covering loss or destruction of or damage to Government property, as may, from time to time, be required by the Contracting Officer.

(c) The Contractor shall not be liable for loss or destruction of or damage to the Government property furnished for repair (i) caused by any peril while the property is in transit off the Contractor's premises, or (ii) caused by any of the following perils while the property is on the Contractor's or subcontractor's premises, or on any other premises where such property may properly be located, or by removal therefrom because of any of the following perils:

(A) Fire; lightning; windstorm; cyclone, tornado, hail; explosion; riot, riot attending a strike, civil commotion; vandalism and malicious mischief; sabotage; aircraft or objects falling therefrom; vehicles running on land or tracks, excluding vehicles owned or operated by the Contractor or any agent or employee of the Contractor; smoke; sprinkler leakage; earthquake or volcanic eruption; flood, meaning thereby rising of a body of water; hostile or warlike action, including action in hindering, combating, or defending against an actual, impending or expected attack by any government or sovereign power (de jure or de facto), or by any authority using military, naval or air forces, or by an agent of any such government, power, authority, or forces; or

(B) Other peril, of a type not listed above, if such other peril is customarily covered by insurance (or by a reserve for self-insurance) in accordance with the normal practice of the Contractor, or the prevailing practice in the industry in which the Contractor is engaged with respect to similar property in the same general locality.

(d) The Contractor shall hold the Government harmless and shall indemnify the Government against claims for injury to person or damage to property of the Contractor or others arising from the Contractor's possession, or use of the Government property furnished for repair, or arising from the presence of said property on the premises or property of the Contractor.

§ 596.151 *Price escalation clauses.* Price escalation clauses (as distinguished from price redetermination clauses) may be inserted in contracts entered into after formal advertising or negotiation in accordance with the instructions set forth in this section. (See § 591.406 (b) of this subchapter.)

§ 596.151–1 *Price escalation (labor and materials).* (a) The escalation clause set forth in this section is authorized for use in formally advertised or negotiated contracts for the procurement of supplies under conditions wherein it is desired to effect one or more possible price adjustments, during the life of the contract, solely upon the basis of rates of pay for certain specified types of labor and/or costs of certain specified types of materials. The clause is not to be used in those instances wherein it is desired to adjust contract prices upon the basis of changes in the original estimates of hours of labor or quantities of materials. The clause may be used in the procurement of items other than those of a standard commercial nature in those instances where adequate cost experience has been obtained on previous contracts and where the design of the supplies has been stabilized.

(b) Paragraph (b) of the clause provides that prices may be adjusted only if the change results in an increase or decrease of at least 3 percent of the aggregate contract price. Authority is granted to deviate from this percentage to provide for a lesser percentage if it is deemed that the value of the contract warrants the administration of price adjustments involving a smaller percentage change.

(c) The percentage increase to be specified in paragraph (d) (3) shall not exceed 15 percent.

(d) When it is planned to include this clause in contracts to be awarded as a result of formal advertising, the invitation for bids will clearly so state, and will further state that all bids will be evaluated after applying the maximum amount of escalation. (See §§ 591.201 (j) and 591.406 (b) of this subchapter.)

Price escalation (labor and materials):

(a) The Contractor represents and warrants that the prices set forth in this contract do not include any contingency allowance to cover the possibility of increased costs of performance resulting from increases in either (1) the Contractor's rates of pay for labor or (2) the prices which the Contractor is required to pay for materials, as set forth in detail in paragraph (b) hereunder. The Contractor further represents and warrants that the net price or prices paid or to be paid by the Government under this contract do not and shall not exceed those paid by any other purchaser or consignee for like quantities of the same or similar supplies.

(b) In the event that, at any time during the performance of this contract, the Contractor is required to pay rates of pay for the types of labor specified below, or is required to pay prices for the materials specified below, in excess of, or less than the following rates and/or prices upon which the contract unit price for ----------

(Insert name or reference to end item)

is based:

Type of labor or material	*Unit of measure*
----------	----------
----------	----------
----------	----------

Rate of pay or price per unit

---

then in such event the contract unit price may be adjusted upward or downward in accordance with the provisions of paragraph (c). Such adjustment shall apply to the units completed subsequent to the effective date of any such increase or decrease and shall be by an amount equivalent to the increase or decrease in cost per uncompleted unit occasioned by the increase or decrease in rates of pay for the labor or prices for material specified above. No adjustment shall be made, however, that does not result in an increase or decrease of at least three percent (3%) of the then aggregate contract price of the uncompleted units of the contract.

(c) Not later than twenty (20) days after the effective date of any increase or decrease as referred to in paragraph (b) hereof, the Contractor shall notify the Contracting Officer of any such increase or decrease, and with such notification shall submit a supporting cost breakdown. Such cost breakdown will—

(1) Be prepared in accordance with recognized commercial accounting principles;

(2) Indicate changes in estimated labor and/or material costs resulting from any increase or decrease as referred to in paragraph (b) hereof; and

(3) Be signed by a responsible official of the Contractor.

Upon the basis of such notification and cost breakdown, and such other data as may be available to the Contracting Officer or as shall be furnished to him upon request to the Contractor, a price adjustment to reflect the increase or decrease in costs as referred to in paragraph (b) hereof shall be determined by mutual agreement between the Contractor and the Contracting Officer, and shall be set forth in an amendment to this contract. In the event that the Contractor fails to give notice of any decrease as required herein, a downward adjustment shall be later effected with respect to the units completed subsequent to the effective date of any such decrease. The Contracting Officer or any person authorized by him may examine any or all of the Contractor's records and information available to the Contractor relating to rates paid for labor and prices paid for materials specified in paragraph (b) hereof.

(d) Price adjustments may be agreed upon at any time and from time to time during the performance of this contract in accordance with the provisions of this clause. In no event, however, shall any price adjustment be made—

(1) For any increase or decrease in costs other than those for the types of labor and materials specified in paragraph (b) hereof.

(2) For increased or decreased costs resulting from an increase or decrease as related to the original contract estimates in number of hours of labor or in amounts of materials.

(3) For increases or accumulated increases in unit prices in excess of -- percent (--%) of the original contract unit price.

(4) For rates of pay for labor or prices for materials in excess of those established by the Economic Stabilization Agency or other authorized Government Agency.

(e) Pending a determination of any price adjustment under this clause the Contractor shall continue deliveries hereunder. Failure of the parties to agree upon a price adjustment pursuant to the provisions of this clause shall be deemed to be a dispute as to a question of fact within the meaning of the clause of this contract entitled "Disputes."

(e) In the use of the above escalation article, it is emphasized that considerable latitude is permitted and encouraged in the selection of types of labor and material and rates of pay or price per unit to be negotiated under paragraph (b) of the article. Wherever possible and practicable, costs selected for escalation should be reduced to a type of material price or rate of pay agreement that will require little if any audit review if a price adjustment is called for by either of the contracting parties. The following may be considered as examples of acceptable forms of pricing agreements.

(1) *Materials.* Escalation should be only on the raw material(s) which constitute a major portion of material costs. The market prices of many raw materials are published periodically in accepted trade journals or newspapers. Accordingly, an example material escalation in paragraph (b) of the article could be expressed as follows:

Type of material	*Unit of measure*	*Price per unit*
Steel, Billets, Pittsburg----	Ton ----	$59.00

Cost of steel in this contract represents 25 percent of the total of all costs. The cost of "Steel, billets, Pittsburg" as carried in the "Wall Street Journal" shall be accepted as the basis of increases or decreases in the cost of this material for the purposes of escalation as provided for in paragraph (c), applicable to deliveries made under this contract after the effective date referred to in paragraph (b).

(2) *Labor.* Escalation may be based on particular categories or on average labor costs. Wherever practicable, manufacturing labor should be escalated on an average wage agreed upon as applicable to performance under the contract in question. This average wage must be based on the Contractor's agreement with labor, if such an agreement exists. As an example, labor escalation in paragraph (b) of the article could be expressed as follows:

Type of labor	*Unit of measure*	*Rate of pay per unit*
Manufacturing labor----------	Man hour----------	$1.75

Manufacturing labor costs represent 20 percent of the total of all costs in this contract. The stated rate of $1.75 per manufacturing labor man-hour is a composite rate of manufacturing labor to be utilized in performance of this contract, based upon current union wage agreements of the Contractor. In the event of future increases or decreases in wage scales as the result of changes in such wage agreements for any reason, a new composite rate for manufacturing labor, computed on the same basis as that above, will be used for escalation purposes as provided for in paragraph (c) to the extent of 20 percent of total cost of this contract remaining after the effective date of any increase or decrease.

Escalation of overhead factors is against Department of the Army policy. In fully justified cases involving unusual circumstances, however, deviations will be considered by the Office of the Assistant Chief of Staff, G–4. Submission of such cases on an individual basis will be made through channels to that office.

§ 596.151–2 *Price escalation clauses for standard steel items.* The price escalation clauses set forth in this section are authorized for inclusion in fixed-price contracts for standard steel items, under the following circumstances:

(a) Items being procured are made wholly or in the major part of steel.

(b) Contractor is a producer of steel or an operator of a steel foundry.

(c) That, when it is planned to include the appropriate clause in contracts to be awarded as a result of formal advertising, the invitations for bids will clearly so state, and will further state that all bids will be evaluated after applying the maximum amount of possible escalation.

Price escalation (formal advertising):

(a) The Contractor hereby warrants that the unit prices stated herein on the date set for opening of bids are not in excess of the Contractor's applicable established prices for like quantities of the supplies covered by this contract. The Contractor shall notify the Contracting Officer of each decrease in any of such established prices and each applicable contract unit price shall be decreased accordingly. Any decrease in a unit price shall become effective concurrently with the effective date of each applicable decrease in Contractor's established price and the contract shall be amended accordingly.

(b) The Contractor may at any time, or from time to time, after the date set for opening of bids and during the performance of the contract request in writing an upward adjustment in any of the contract unit prices to be effective as from a date to be specified by the Contractor, subject to the following conditions:

(1) No unit price as adjusted shall exceed the Contractor's applicable established price.

(2) The aggregate of the increases in any unit price made under this paragraph shall not exceed 10 percent (10%) of the original applicable contract unit price.

(3) No adjusted unit price shall be effective earlier than the effective date of any increase in the applicable established price and no increase shall be granted unless the Contractor's applicable established price has increased subsequent to the date set for opening of bids.

(c) In the event the requested adjustment in any contract unit price is acceptable to the Contracting Officer, he shall not later than 20 days after the date of receipt by him of the request so notify the Contractor and the contract shall be modified accordingly. If any such requested adjustment in a unit price is not acceptable to the Contracting Officer, he shall so notify the Contractor in writing within 20 days from the date of receipt by him of the Contractor's said notice; and unless an agreement can be reached as to the amount of increase, the Government may cancel without liability to either party the Contractor's right to proceed with performance of the portion of the contract which is undelivered at the time of such cancellation, except that the Contractor may make delivery of all or any of the supplies which a duly authorized officer of the company shall certify were completed or in the process of manufacture at the time of receipt of notice of such cancellation, and the Government shall pay for all supplies so delivered at the applicable unit price contained in Contractor's said request and the contract shall be modified accordingly, provided, that such certification is made within 10 days after receipt of notice of such cancellation and such requested increase satisfies all of the conditions and does not exceed the limitations of paragraph (b). Supplies shall be deemed to be in the process of manufacture when the steel therefor is in any state of processing after the beginning of the furnace melt.

(d) During the period prior to such cancellation, the Contractor shall continue deliveries according to the terms of the contract and shall be paid therefor at the applicable increase unit prices so requested, provided, such requested increases satisfy all of the conditions and do not exceed the limitations of paragraph (b).

(e) If notice of cancellation is not sent to the Contractor within 10 days after receipt by the Contracting Officer of the Contractor's request, supplies delivered subsequent to the date specified in such request, and prior to the effective date of any subsequent increase or decrease in Contractor's applicable established prices, shall be paid for at the applicable increased unit prices so requested, provided, such requested increases satisfy all of the conditions and do not exceed the limitations of paragraph (b).

Price escalation (negotiated purchases):

(a) The Contractor hereby warrants that the unit prices stated herein at the date hereof are not in excess of the Contractor's applicable established prices for like quantities of the supplies covered by this contract. The Contractor shall notify the Contracting Officer of each decrease in any of such established prices and each applicable contract unit be decreased accordingly. Any decrease in a unit price shall become effective concurrently with the effective date of each applicable decrease in Contractor's established price and the contract shall be amended accordingly.

(b) The Contractor may at any time, or from time to time, during the performance of the contractor request in writing an upward adjustment in any of the contract unit prices to be effective as from a date to be specified by the Contractor, subject to the following conditions:

(1) No unit price as adjusted shall exceed the Contractor's applicable established price.

(2) For deliveries pursuant to the terms of this contract, the aggregate of the increases in any unit price made under this paragraph shall not exceed 10 percent of the original applicable contract unit price.

(3) No adjusted unit price shall be effective earlier than the effective date of any increase in the applicable established price.

(c) In the event the requested adjustment in any contract unit price is acceptable to the Contracting Officer, he shall not later than 20 days after the date of receipt by him of the request so notify the Contractor, and the contract shall be modified accordingly. If any such requested adjustment in a unit price is not acceptable to the Contracting Officer, he shall notify the Contractor in writing within 20 days from the date of receipt by him of the Contractor's said notice; and unless an agreement can be reached as to the amount of increase, the Government may cancel without liability to either party the Contractor's right to proceed with performance of the portion of the contract

which is undelivered at the time of such cancellation, except that the Contractor may make delivery of all or any of the supplies which a duly authorized officer of the company shall certify were completed or in the process of manufacture at the time of receipt of notice of such cancellation, and the Government shall pay for all supplies so delivered at the applicable unit price contained in Contractor's said request and the contract shall be modified accordingly, provided, that such certification is made within 10 days after receipt of notice of such cancellation and such requested increase satisfies all of the conditions and does not exceed the limitations of paragraph (b). Supplies shall be deemed to be in the process of manufacture when the steel therefor is in any state of processing after the beginning of the furnace melt.

(d) During the period prior to such cancellation, the Contractor shall continue deliveries according to the terms of the contract and shall be paid therefor at the applicable increased unit prices so requested, provided, such requested increases satisfy all of the conditions and do not exceed the limitations of paragraph (b).

(e) If notice of cancellation is not sent to the Contractor within 30 days after receipt by the Contracting Officer of the Contractor's request, supplies delivered subsequent to the date specified in such request, and prior to the effective date of any subsequent increase or decrease in Contractor's applicable established prices, shall be paid for at the applicable increased unit prices so requested, provided, such requested increases satisfy all of the conditions and do not exceed the limitations of paragraph (b).

§ 596.151–3 *Price escalation clause for aluminum.* The escalation clause set forth in this section is authorized for inclusion in fixed-price contracts for aluminum, entered into after formal advertising or by negotiation, under the following circumstances:

(a) Contractor is a producer of aluminum.

(b) Items being procured are made wholly or in the major part of aluminum.

(c) That, when it is planned to include this clause in contracts to be awarded as a result of formal advertising, the invitations for bids will clearly so state, and will further state that all bids will be evaluated after applying the maximum amount of possible escalation.

Price escalation (aluminum):

(a) The Contractor hereby warrants that the unit prices stated herein on the date set for opening of bids or offers are not in excess of the Contractor's applicable established prices for like quantities of the supplies covered by this contract. The Contractor shall notify the Contracting Officer of each decrease in any of such established prices and each applicable contract unit price shall be decreased accordingly. Any decrease in a unit price shall become effective concurrently with the effective date of each applicable decrease in Contractor's established price and the contract shall be amended accordingly.

(b) The Contractor may at any time, or from time to time, during the performance of the contract request in writing an upward adjustment in any of the contract unit prices to be effective as from a date to be specified by the Contractor, subject to the following conditions:

(1) No unit price as adjusted shall exceed the Contractor's applicable established price.

(2) The aggregate of the increases in any unit price made under this paragraph shall not exceed 10 percent of the original applicable contract unit price.

(3) No adjusted unit price shall be effective earlier than the effective date of any increase in the applicable established price and no increase shall be granted unless the Contractor's applicable established price has increased subsequent to the date set for opening of bids or offers.

(c) In the event the requested adjustment in any contract unit price is acceptable to the Contracting Officer, he shall not later than 20 days after the date of receipt by him of the request so notify the Contractor and the contract shall be modified accordingly. If any such requested adjustment in a unit price is not acceptable to the Contracting Officer, he shall so notify the Contractor in writing within 20 days from the date of receipt by him of the Contractor's said notice; and unless an agreement can be reached as to the amount of increase, the Government may cancel without liability to either party the Contractor's right to proceed with performance of the portion of the contract which is undelivered at the time of such cancellation, except that the Contractor may make delivery of all or any of the supplies which a duly authorized officer of the company shall certify were completed or in the process of manufacture at the time of receipt of notice of such cancellation, and the Government shall pay for all supplies so delivered at the applicable unit price contained in Contractor's said request and the contract shall be modified accordingly, provided, that such certification is made within 10 days after receipt of notice of such cancellation and such requested increase satisfies all of the conditions and does not exceed the limitations of paragraph (b).

(d) During the period prior to such cancellation, the Contractor shall continue deliveries according to the terms of the contract and shall be paid therefor at the applicable increased unit prices so requested, provided, such requested increases satisfy all of the conditions and do not exceed the limitations of paragraph (b).

(e) If notice of cancellation is not sent to the Contractor within 30 days after receipt by the Contracting Officer of the Contractor's request, supplies delivered subsequent to the date specified in such request, and prior to the effective date of any subsequent increase or decrease in the Contractor's applicable established prices, shall be paid for at the applicable increased unit prices so requested, provided, such requested increases satisfy all of the conditions and do not exceed the limitations of paragraph (b).

§ 596.151–4 *Price escalation clause for open-end contracts and indefinite quantity contracts.* (a) The price escalation clause set forth in this section is authorized for inclusion in open-end and indefinite quantity contracts, entered into after formal advertising or by negotiation, under the following circumstances:

(1) That items being procured are standard "off-the-shelf" items.

(2) That, when it is planned to include this clause in contracts to be awarded as a result of formal advertising, the invitations for bids will clearly so state and will further state that all bids will be evaluated after applying the maximum amount of possible escalation.

Price escalation (open-end or indefinite quantity contract):

(a) The Contractor hereby warrants that the unit prices stated herein at the date hereof are not in excess of the Contractor's applicable established prices for like quantities of the supplies covered by this contract. The Contractor shall notify the Contracting Officer of each decrease in any such established prices and each applicable contract unit price shall be decreased accordingly. Any decrease in a unit price shall become effective concurrently with the effective date of each applicable decrease in Contractor's established price and the contract shall be amended accordingly.

(b) The Contractor may at any time, or from time to time, during the performance of the contract request in writing an upward adjustment in any of the contract unit prices to be effective as from a date to be specified by the Contractor, subject to the following conditions:

(1) No unit price as adjusted shall exceed the contractor's applicable established price.

(2) The aggregate of the increases in any unit price made under this paragraph shall not exceed 10 percent of the original applicable contract unit price.

(3) No adjusted unit price shall be effective earlier than the effective date of any increase in the applicable established price.

(c) In the event the requested adjustment in any contract unit price is acceptable to the Contracting Officer, he shall not later than 20 days after the date of receipt by him of the request so notify the Contractor and the contract shall be modified accordingly. If any such requested adjustment in a unit price is not acceptable to the Contracting Officer, he shall so notify the Contractor in writing within 20 days from the date of receipt by him of the Contractor's said notice; and unless an agreement can be reached as to the amount of increase, the Government may cancel without liability to either party the Contractor's right to proceed with performance of the portion of the contract which is undelivered at the time of such cancellation.

(d) If notice of cancellation is not sent to the Contractor within 30 days after receipt by the Contracting Officer of the Contractor's request, supplies delivered subsequent to the date specified in such request, and prior to the effective date of any subsequent increase or decrease in Contractor's applicable established prices, shall be paid for at the applicable increased unit prices so requested, provided such requested increases satisfy all of the conditions and do not exceed the limitations of paragraph (b).

(e) The Contractor also agrees to give the Government any and all discount benefits extended to any company, agency, organization, or individual purchasing or handling like quantities of the supplies covered by this contract.

(b) Paragraphs (d) and (e) of the above clause are optional. Paragraph (d) of the clause clearly provides certain benefits to the Contractor and should not be included unless requested by the Contractor and it is deemed necessary to complete the procurement. Paragraph (e) is a so-called "Preferred Customer" clause and obviously does benefit the Government. Paragraph (e) should be included in all cases; however, authority is granted to delete it in those instances wherein the objections of the Contractor would preclude the possibility of effecting the necessary procurement.

§ 596.152 *Price redetermination clauses.* Price redetermination clauses, as authorized in this section or by the Chief, Purchases Branch, Assistant Chief of Staff, G–4, Department of the Army, may be included in negotiated fixed-price contracts in accordance with the requirements of §§ 402.401 and 402.403 of this title and §§ 592.401 and 592.403 of this subchapter.

§ 596.152–1 *Form II–B price redetermination clause*—(a) *Nature and effect.* The Form II–B, price redetermination clause appearing in paragraph (d) of this section, provides for a negotiated upward or downward redetermination of the prices upon completion of delivery of a specified percentage of the principal items called for by the contract, without a demand by either party. Thereafter there may be upward or downward revision of the price upon written demand of either party, subject to specified limitations on the frequency of the demands. Any redetermination made pursuant to a demand after the initial period has a prospective effect only.

(b) *Conditions for use.* The Form II–B price redetermination clause should be used in instances when the following conditions exist:

(1) The contract is a fixed-price contract for supplies, the quantity being procured is large, no accurate forecast of the cost of production is feasible, and the deliveries cover a period of at least 9 months.

(2) Effective competition is not available to indicate reasonableness of price.

(3) There are no data available to indicate reasonableness of price.

(4) The price (i) is negotiated upon the express understanding that the particular price redetermination clause is to be included in the contract and (ii) is a close price containing substantially no charge or allowance for contingencies.

(5) The Contracting Officer is satisfied that the Contractor employs methods of estimating its costs which accurately reflect current shop and engineering experience and proper quantity and price allowances for material, labor, machine utilization, and other cost elements.

(6) The Contracting Officer is satisfied that the Contractor has a cost accounting system of sufficient accuracy and reliability to show the cost information required by the clause at the time or times provided therein.

(c) *Rules for administration.* In negotiating a price adjustment under the Form II–B, price redetermination clause, the Contracting Officer will adhere to the following rules, in addition to the audit requirements set forth in § 605.207 of this subchapter.

(1) The negotiations to redetermine prices should ordinarily take into account all changes in specifications which have been made up to the time of the negotiations.

(2) Negotiations to redetermine prices will be conducted upon substantially the same basis as the original negotiation of a price when like information on costs and estimates is available. The Contracting Officer ordinarily should not give consideration to an increase in price beyond the amount estimated to be the excess of (i) any increases in cost beyond the Contractor's control over (ii) any offsetting reductions in the Contractor's costs. However, this rule should not be applied to deprive a Contractor of a reasonable reward in the form of an increased estimated profit margin for especially efficient and economical production.

(3) The Contracting Officer should take into consideration the fact that increases in certain costs may be offset by decreases in others. The Contracting Officer also should recognize that increases in wages and in the prices of materials will not necessarily increase, immediately or proportionately, the cost of items to be delivered by the contractor. For example, some of the labor on work in process at the time of a wage increase may have been performed while lower rates of wages were in effect. Again, materials included in work in process may have been bought by the Contractor before the effective date of a price increase. Similarly, the Contractor may have an inventory on hand or materials on order at prices which do not reflect the current increases therein. Also, there may be offsetting savings not attributable to the efficiency of the Contractor.

(4) The Contractor's estimate of future costs will be considered in the light of all available data, including shop, engineering, accounting and other relevant information, which will help to check the accuracy of the estimate. When any component or components of the estimate are in question, the Contracting Officer should inquire into the physical facts, e. g., the number of men actually engaged in a particular operation or process, the quantity of material actually used, etc. Expense and overhead allocation are based upon an estimated amount of expense spread over an anticipated volume to be obtained. Check of the actual rate of expenditures and the actual volume being obtained should be made so that the rates used may be founded on up-to-date forecasts. The aggregate of those charges included in the prices of contracts entered into within the current period should be considered in order to avoid excessive prices through over-absorption of such charges.

(5) In addition to consideration of the Contractor's cost experience under the contract and its estimates of future production costs, the Contracting Officer should make use of comparative prices, comparative costs and the trends of such prices and costs. If, since the making of the contract, prices have become competitive, particular weight shall be given to comparative prices, to the end that the effect of competitive forces may be fully realized for the benefit of the Government.

(6) The Contracting Officer should make such use and verification of the estimate and the supporting cost data submitted by the Contractor as he would make with respect to similar data upon the negotiation of a price under a new contract.

(7) The negotiations will be promptly instituted and concluded in strict accordance with the provisions of the clause. Every effort will be made to come to an agreement as to revised price or prices. The Disputes clause will be invoked only as a last resort.

(8) Upon the conclusion of each negotiation for price revision, the revised price or prices will be evidenced by a supplemental agreement. The supplemental agreement should clearly indicate what costs, if any, of a nonrecurrent nature have been recognized as having been paid for in prices for the preceding period or periods, so as to avoid the possibility of a second payment therefor in the event of termination at the option of the Government.

(9) Wherever a contract containing the Form II–B price redetermination clause is modified by change order or supplemental agreement, so as to affect the rate of deliveries or quantities of items called for, the Contracting Officer will take care to deal with and cover explicitly any modification in the operation of the price redetermination clause which he considers are made necessary by the modification of rates of deliveries or quantities.

(10) Proper administration of the Form II–B clause requires that the Contracting Officer make regular periodic reviews of the contract price to ascertain whether or not a demand should be served. No demand should be made by the Contracting Officer, and the Contractor should be discouraged from making such demand, unless a sound basis exists for believing that a redetermination of price is necessary to protect the interest of the Government or the Contractor. The need for such a demand may be indicated by factors such as the following:

(i) Comparative prices.

(ii) Movements or trends in such prices.

(iii) Movements or trends in the prices asked by other contractors for the same or similar items.

(iv) Information supplied by the Contractor in the ordinary course of business.

(v) Changes in market prices of materials or components.

(vi) Changes in subcontract prices.

(vii) Changes in the Contractor's prices under other Government contracts.

(11) The first revised forward price under the Form II–B clause and prices negotiated pursuant to a demand under the clause should be based on projections extending over the remaining life of the contract and should not take into account possible increases in costs.

(d) *Contract clause.* The following Form II–B price redetermination clause may be used in negotiated fixed-price contracts in accordance with the instructions set forth in the preceding sections and if approved for use in accordance with § 592.403 of this subchapter. In the insertion in appropriate places of a specific number of days in this clause, the minimum number of days consistent with the applicable circumstances will be used.

Price redetermination (Form II–B):

(a) The prices stated herein may be increased or decreased in accordance with this clause. In no event shall the revised price exceed $_____.

(b) *Times for negotiation.* (1) Upon completion of delivery of __ percent of the (here specify the principal items to be furnished under the contract) to be furnished under this contract or upon expenditure of (here specify the percentage of the total contract amount), whichever shall occur last, the parties shall negotiate to revise the prices of all items theretofore and thereafter to be delivered. Within __ (not to exceed 45) days after the completion of delivery or expenditure of funds referred to above, the Contractor shall furnish to the Contracting Officer the statements and data referred to in

paragraph (c) of this clause. At any time and from time to time after the completion of delivery or expenditure of funds referred to above, subject to the limitations specified in this clause, either the Government or the Contractor may deliver to the other a written demand that the parties negotiate to adjust the prices under this contract. No demand shall be made prior to 90 days after completion of delivery or expenditure of funds referred to above, and thereafter neither party shall make a demand having an effective date within 90 days of the effective date of any prior demand. Each demand shall specify a date (identical with or subsequent to the date of the delivery of the demand) as of which the revised prices shall be effective as to the deliveries made thereon and thereafter. This date is hereinafter referred to as "the effective date of the price redetermination." For the purposes of the first negotiation contemplated by this paragraph, the date of execution of this contract shall be deemed to be the effective date of the price redetermination. Any demand under this clause, if made by the Contractor, shall state briefly the ground or grounds therefor and shall be accompanied by the statements and data referred to in paragraph (c) of this clause. If the demand is made by the Government, such statements and data will be furnished by the Contractor within __ (not to exceed 45) days of the delivery of the demand.

(2) In the event all remaining work under this contract, as it may from time to time be amended, shall be terminated pursuant to the clause of this contract entitled "Termination for Convenience of the Government," no demand shall then or thereafter be made and any demand the effective date of which is less than 30 days before the effective date of such termination shall be void and of no effect.

(c) *Submission of data.* (1) At the time or each of the times specified or provided for in paragraph (b) of this clause the Contractor shall submit (i) a new estimate and breakdown of the unit cost and the proposed prices of the items remaining under this contract after the effective date of the price redetermination, itemized so far as is practicable in the manner prescribed by WD Form 105; (ii) an explanation of the differences between the original (or last preceding) estimate and the new estimate; (iii) such relevant shop and engineering data, cost records, overhead absorption reports and accounting statements as may be of assistance in determining the accuracy and reliability of the new estimate; (iv) a statement of experienced costs of production hereunder to the extent that they are available at the time or times of the negotiation of the revision of prices hereunder; and (v) any other relevant data usually furnished in the case of negotiation of prices under a new contract. The Government may make such examination of the Contractor's accounts, records and books as the Contracting Officer may require and may make such audit thereof as the Contracting Officer may deem necessary.

(2) The Contractor further agrees to include in each of his subcontracts which is on a cost or cost-plus-a-fixed-fee or a price redetermination basis a provision to the effect that the subcontractor agrees (i) to submit to the Contracting Officer such cost data, as may be required for price redetermination (ii) to permit the Contracting Officer to make or cause to be made such examination and audits of the books, records and accounts as the Contracting Officer may deem necessary, and (iii) to include a like provision in each of his subcontracts which is on a cost or cost-plus-a-fixed-fee or a price redetermination basis.

(d) *Negotiations.* (1) Upon the filing of the statements and data required by paragraph (c) of this clause, the Contractor and the Contracting Officer will negotiate promptly in good faith to agree upon prices for items to be delivered on and after the effective date of the price redetermination. Negotiations for price redetermination under this clause shall be conducted on the same basis, employing the same types of data (including, without limitations, comparative prices, comparative costs, and trends thereof) as in the negotiation of prices under a new contract.

(2) After each negotiation the agreement reached will be evidenced by a supplemental agreement stating the redetermined prices to be effective with respect to deliveries on and after the effective date of the price redetermination (or such other later date as the parties may fix in such supplemental agreement).

(e) *Disagreements.* If within __ (not to exceed 45) days after the date on which the statements and data are required pursuant to paragraph (b) of this clause to be filed (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree to redetermined prices (which term, for the purpose of this clause, shall include direct costs, indirect costs and profit), the failure to agree shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes," and the prices so fixed shall remain in effect for the balance of the contract notwithstanding any other provision of this clause.

(f) *Payments.* Until new prices shall become effective in accordance with this clause, the prices in force at the effective date of the price redetermination shall be paid upon all deliveries, subject to appropriate later redetermination made pursuant to paragraph (d) or (e) or (g) (2) (B) of this clause. It is mutually understood that where the Contractor fails to submit cost data required by paragraph (b) (1) of this clause within the time specified, payment of all invoices shall be suspended by the Contracting Officer until such time as the required statements and data are furnished by the Contractor.

(g) *Termination provisions.* For any of the purposes of the clause of this contract entitled "Termination for Convenience of the Government" (including, without limitation, the computation of "the total contract price" and "the contract price of work not terminated"), the contract price of delivered articles shall be deemed to be:

(1) For all items delivered prior to the effective date of the price redetermination, the contract price (giving effect to any prior revisions under this clause) applicable to each such item.

(2) For all items delivered on or after the effective date of the price redetermination.

(A) The contract price as revised in accordance with this clause if such revision shall have been agreed upon.

(B) If such revision shall not have been agreed upon, then such estimated prices as the Contractor and the Contracting Officer may agree upon as reasonable under all the circumstances and in the absence of such agreement such reasonable prices as may be determined in accordance with the clause of this contract entitled "Disputes."

(h) *Termination during the initial period.* In the event that this contract is terminated pursuant to the clause of this contract entitled "Termination for Convenience of the Government," or the Contractor's right to deliver is terminated pursuant to the clause of this contract entitled "Default," so that the last delivery under the contract as terminated is made prior to the completion of the initial period as specified in paragraph (b) of this clause, the Contractor within ____ days after such last delivery shall furnish the data required by paragraph (c) of this clause and thereupon the parties shall negotiate in good faith to agree upon revised prices under this contract. The agreement reached shall be evidenced by a supplemental agreement to this contract stating the revised prices under the contract. Any disagreement as to the revised prices will be disposed of as a question of fact in accordance with the clause of this contract entitled "Disputes."

The following is authorized as an optional paragraph (e) in the Form II–B price redetermination clause:

(e) *Disagreements.* (1) If within __ (not to exceed 45) days after the date on which the statements and data are required pursuant to paragraph (b) of this clause to be filed (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree to redetermined prices (which term, for the purpose of this clause, shall include direct costs, indirect costs and profit), the Contractor, if he has substantially complied with the requirements of this clause as to the furnishing of statements and data, may give written notice to the Contracting Officer requiring the Government to pay the prices set forth in such notice from the time at which the price redetermination was to be effective under the provisions of this clause.

(2) If the Contracting Officer and the Contractor fail to agree, the Contracting Officer within 30 days after the delivery of the Contractor's notice may serve upon the Contractor a written election by which the Government agrees to pay to the Contractor fair and just compensation from the time at which such price redetermination was to be effective under the provisions of this clause. The written election shall specify the amount which the Contracting Officer deems to be fair and just compensation. If no written election is served upon the Contractor, the prices set forth in the Contractor's notice shall be incorporated in an appropriate supplemental agreement. If a written election is served upon the Contractor as above provided, the contract shall continue in effect as modified by such written election and the Contractor (a) shall be paid currently the amount specified by the Contracting Officer in such written election for all deliveries affected thereby and (b) may recover from the United States, by suit brought within six months after the delivery of such written election or after the completion of deliveries under this contract, whichever shall last occur, the amount, if any, by which such fair and just compensation exceeds the amount so specified.

(3) If the Contracting Officer and the Contractor fail to agree and no notice has been given by the Contractor as contemplated in paragraph (e) (1) of this clause, the Contractor shall be entitled to receive, from the time at which such price redetermination was to be effective under the provisions of this clause, fair and just compensation the amount which shall be determined as a question of fact pursuant to the clause of this contract entitled "Disputes."

§ 596.152–2 *Form III price redetermination clause*—(a) *Nature and effect.* The Form III price redetermination clause provides for retroactive pricing by mutual agreement. It is designed primarily for use in contracts of $100,000 or less for experimental or developmental items or services. This clause, however, should be used also in contracts for the procurement of any item or service, when it is not possible to determine reasonableness of price at the time of negotiation. By its terms the Contracting Officer is empowered, after completion or termination of the contract, to demand that the parties negotiate to reduce the entire contract price. The redetermination of price effected thereunder is wholly retroactive.

(b) *Conditions for use.* The Form III clause should be used in instances when the following conditions exist:

(1) The amount of the negotiated contract is $100,000 or less.

(2) There are no data available to indicate reasonableness of price.

(3) Contractor's estimate is believed to contain substantial allowance for contingencies. (It will not be assumed that a Contractor who agrees to inclusion of this price redetelmination clause is assuming appreciable risk, unless it can be determined that the price offered by him does not include contingency provisions.)

(4) The Contractor's cost accounting system is sufficient to show the costs under the contract.

(5) The price initially fixed in the contract bears a reasonable relationship to the expected final price thereunder.

(c) *Rules for administration.* (1) If the production cost figures indicate that the price was high, the Contracting Officer will make the demand contemplated by the clause and will proceed promptly with and conclude the redetermination of the price in accordance with the clause.

(2) The Contracting Officer should make such use and verification of the cost data as he would make with respect to similar data upon the negotiation of a price under a new contract. The verification may include an examination and audit of the Contractor's books and records.

(3) The profit to be allowed under this contract upon redetermination of price shall be subject to negotiation.

(4) The redetermined price will be evidenced by a supplemental agreement making adequate provision to secure to the Government the benefit of the reduction.

(d) *Contract clause.* The following Form III price redetermination clause may be used in accordance with the instructions set forth in the preceding paragraphs and if approved for use in accordance with § 592.403 of this title:

Price Redetermination (Form III):

(a) Within sixty days after the completion or termination of this contract, the Contractor will submit to the Contracting Officer a detailed statement of the costs of performing this contract. Upon the written demand of the Contracting Officer, made at any time within thirty days after the submission of such statement, the Contractor will negotiate to reduce the contract price to an amount representing fair and reasonable compensation for the performance of the contract. In such negotiations the efficiency of the Contractor in production, buying and management will be given due weight.

(b) The Contractor will furnish to the Contracting Officer such other statements of actual costs of production and such other financial statements, at such times and in such form and detail, as the Contracting Officer may prescribe, and will permit such audits and examination of its books, records and accounts as the Contracting Officer may request.

The Contractor further agrees to include in each of his subcontracts which is on a cost or cost-plus-a-fixed-fee or a price redetermination basis a provision to the effect that the subcontractor agrees (i) to submit to the Contracting Officer such cost data as may be required for price redetermination, (ii) to permit the Contracting Officer to make or cause to be made such examination and audits of the books, records and accounts as the Contracting Officer may deem necessary, and (iii) to include a like provision in each of his subcontracts which is on a cost or cost-plus-a-fixed-fee or a price redetermination basis.

(c) If within thirty (30) days after the making of such demand (or such further period as may be fixed by written agreement) the Contracting Officer and the Contractor fail to agree to a redetermined price (which term, for the purpose of this clause, shall include direct costs, indirect costs and profits), the failure to agree shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(d) The Government shall retain from amounts otherwise due the Contractor, or the Contractor shall repay to the Government if paid to him, any amount by which the contract price is found as a result of the application of this clause to exceed a fair and reasonable price, as the Contracting Officer may direct.

§ 596.152–3 *Form IV price redetermination clause*—(a) *Nature and effect.* The Form IV price redetermination clause provides for retroactive pricing with a limited upward revision. This clause, providing for upward or downward price revision, is authorized for use in negotiated contracts for supplies or services where the quantity being procured is moderate and the period of the contract does not cover an extended period of time. Under the clause a contract price is agreed upon (target price) which it is believed will tend to compel the Contractor to do as efficient a job as possible in the circumstances, and at the same time a maximum price is fixed as a ceiling (normally not to exceed 10 percent of target price) on any upward redetermination under the clause. The redetermination of price takes place after completion or termination of the contract and is wholly retroactive.

(b) *Conditions for use.* The Form IV Clause should be used in instances when the following conditions exist:

(1) The contract is a negotiated fixed-price contract for supplies or services where the quantity being procured is moderate and the period of the contractor does not cover an extended period of time.

(2) Effective competition is not available to indicate reasonableness of price.

(3) There are no data available to indicate reasonableness of price.

(4) The price (i) is negotiated upon the express understanding that the particular price redetermination clause is to be included in the contract and (ii) is a close price containing substantially no charge or allowance for contingencies.

(5) The Contracting Officer is satisfied that the Contractor employs methods of estimating its cost which accurately reflect current shop and engineering experience and proper quantity and price allowances for material, labor, machine utilization, and other cost elements.

(6) The Contracting Officer is satisfied that the Contractor has a cost accounting system of sufficient accuracy and reliability to show the cost information required by the clause at the time provided therein.

(c) *Rules for administration.* (1) The time limitations prescribed in the clause will be strictly followed.

(2) The Contracting Officer should make such use and verification of the cost data submitted by the Contractor as he would make with respect to similar data upon the negotiation of a price under a new contract. The verification may include the examination and audit of the Contractor's books and records.

(3) The negotiations under the clause may result in a redetermined price which is the same as, or higher or lower than, the contract price but never is a redetermined price in excess of the maximum price.

(4) The redetermined price will be evidenced by a supplemental agreement making adequate provision to secure to the Government the benefit of any price reduction negotiated, or for payment to the Contractor of any price increase, as the case may be.

(5) Profit to be paid on costs determined under the Form IV clause shall be subject to negotiation between the Contracting Officer and the Contractor, with due consideration given to the Contractor's efficiency in performing the contract. Failure to agree shall be deemed to be a disagreement as to a question of fact which shall be disposed of in accordance with the "Disputes" clause.

(d) *Contract clause.* The following Form IV price redetermination clause may be used in accordance with the instructions set forth in the preceding paragraphs and if approved for use in accordance with § 592.403 of this subchapter:

Price Redetermination (Form IV):

(a) Because of the nature of the work called for by this contract and the great uncertainty as to the cost of performance hereunder, the parties agree that the contract price fixed in Clause ____ hereof may be increased or decreased in accordance with the provisions of this clause.

(b) Within ____ [not exceeding 60] days after the completion or termination of this contract, the Contractor will file with the Contracting Officer a statement showing, in such form and detail as the Contracting Officer may prescribe, the Contractor's cost of producing the supplies or furnishing the services called for hereunder, together with such other information as may be pertinent in the negotiations for a redetermined price pursuant to this clause. Such statement of cost shall fairly reflect the normal operation of the Contractor's cost system. [First optional alternative to preceding sentence: The Contractor will establish and maintain records of the costs of performing this contract, as follows: • • •] [Second optional alternative: The Contractor will establish and maintain such records of the cost of performing this contract as the Contracting Officer may require in writing.] The Contracting Officer shall have the right at all reasonable times to make or cause to be made such examinations and audits of the Contractor's books, records and accounts as he may request.

The Contractor further agrees to include in each of his subcontracts which is on a cost or cost-plus-a-fixed-fee or a price redetermination basis a provision to the effect that the subcontractor agrees (i) to submit to the Contracting Officer such cost data as may be required for price redetermination, (ii) to permit the Contracting Officer to make or cause to be made such examination

and audits of the books, records and accounts as the Contracting Officer may deem necessary, and (iii) to include a like provision in each of his subcontracts which is on a cost or cost-plus-a-fixed-fee or a price redetermination basis.

(c) Upon the filing of the statement and other pertinent information required by paragraph (b) of this clause, the Contractor and the Contracting Officer will promptly negotiate in good faith to agree upon a reasonable redetermined price for the entire contract which, upon the basis of such statement and other pertinent information, will constitute fair and just compensation to the Contractor for the performance of this contract. In determining the extent of any estimated allowance for profit to be taken into account in fixing such redetermined price, consideration will be given to the extent to which the Contractor has performed the contract with efficiency, economy, and ingenuity. In no event shall the redetermined price exceed the sum of $------. The redetermined price shall be evidenced by a supplemental agreement to this contract.

(d) If within ------ [not exceeding 90] days after the completion or termination of this contract, the parties shall fail to agree upon a redetermined price (which term, for the purpose of this clause, shall include direct costs, indirect costs and profit) in accordance with the provisions of this clause, the failure to agree shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes."

(e) In the event of a price increase the Government will pay or credit to the Contractor the amount by which the redetermined price shall exceed the contract price aforesaid. In the event of a decrease in price the Contractor will repay or credit the amount of such decrease to the Government in such manner as the Contracting Officer may direct.

(f) For any of the purposes of the clause of this contract entitled "Termination for Convenience of the Government" (including without limitation, computation of "the total contract price" and "the contract price of work not terminated"), the contract price shall be the redetermined contract price agreed upon under paragraph (c) of this clause or determined under paragraph (d) of this clause, as the case may be.

PART 597—TERMINATION OF CONTRACTS

Sec.

597.000 Scope of part.

Subpart A—Introduction

597.101 Applicability of this part.
597.104 Special purpose clauses.

Subpart B—Definition of Terms

597.250 Original cost, original acquisition cost.

Subpart C—Termination for Convenience

597.302 Authority of Contracting Officers.
597.310 Fraud or other criminal conduct.
597.311 Settlement of two or more claims jointly.

Subpart D—General Principles Applicable to the Settlement of Terminated Fixed-Price Contracts

(See Subpart D, Part 407 of this title)

Subpart E—Settlement of Contracts Terminated for Convenience—General

597.503 Fixed-price contracts; settlement proposals.
597.503–2 Bases for settlement proposals.
597.503–3 Forms for settlement proposals.
597.512 Cost-type contracts; negotiated settlements including costs; general provisions for settlement.
597.512–2 Costs which may be included.
597.515 Audit of settlement proposals and of subcontract settlements.
597.517 Review of proposed settlements.
597.517–3 Jurisdiction of Review Boards.
597.517–4 Submission of information.
597.517–6 Action by Board.
597.517–7 Authority of Contracting Officer to proceed.
597.518 Settlement of subcontract claims.
597.518–10 Delay in settlement of subcontractor claims.
597.518–11 Government assistance in settlement of subcontracts.
597.521 Payment.
597.521–2 Settlement by determination.
597.522 Partial payments upon termination.
597.522–4 Security for partial payments.

Subpart F—Termination Inventory

597.603 Inventory schedule.
597.603–3 Inventory descriptions.
597.604 Plant clearance period.
597.604–1 Rejection of inadequate schedules.
597.605 Scrap and salvage.
597.605–1 Scrap warranty.
597.605–2 Release of scrap warranty.
597.608 Sale or other disposition of termination inventory.
597.608–2 Competitive sales.
597.616 Accounting for termination inventory.

Subpart G—Forms

597.750 Fixed-price supply contracts of $1,000 or less.

§ 597.000 *Scope of part.* This part sets forth (a) the policies and methods to be followed in connection with the termination of cntracts for the convenience of the Government; (b) provisions as to settlement of contracts so terminated, including disposition of property incident to termination; and (c) approved forms for use in terminating contracts for the convenience of the Government and in the settlement of such contracts.

SUBPART A—INTRODUCTION

§ 597.101 *Applicability of this part.* (a) Subparts C, D and E of Part 407 of this title, do not apply to lump sum or unit price architect-engineer contracts terminated for the convenience of the Government. Such contracts, which are for professional services, contain a clause which permits termination for the convenience of the Government and the payment of that proportion of the contract consideration which the work actually performed bears to the total work required. The termination and settlement of such contracts is to be in strict accordance with the termination clause contained therein. Any other contracts containing a special type of termination clause will, if terminated, be settled in strict accordance therewith.

(b) While this part does not apply to any modification of a contract pursuant to the provisions of the clause therein entitled "Changes," except as may be prescribed by the Head of the Procuring Activity, any exercise of rights provided in the "Changes" clause is to be restricted to the purposes for which such clause is intended and the policies and procedures established in this part are not to be circumvented by the use of the "Changes" clause in lieu of completely or partially terminating a contract pursuant to the clause "Termination for the Convenience of the Government."

§ 597.104 *Special purpose clauses.* Special purpose clauses will be submitted for approval to the Asssistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch.

SUBPART B—DEFINITION OF TERMS

§ 597.250 *Original cost, original acquisition cost.* The original cost or original acquisition cost of contractor-owned material is the cost to the Contractor as stated in its inventory schedule, provided that such cost is computed upon a reasonably acceptable basis. Generally, such cost will be the actual or estimated cost of raw material, purchased parts, and supplies plus direct labor and the factory overhead costs applicable to work in process and manufactured parts.

SUBPART C—TERMINATION FOR CONVENIENCE

§ 597.302 *Authority of Contracting Officers.* The Head of the Procuring Activity shall prescribe procedures under which Contracting Officers may terminate contracts for the convenience of the Government.

§ 597.310 *Fraud or other criminal conduct.* Reports of allegations or suspicions of fraud or other criminal conduct in connection with the settlement of a terminated contract will be made by Contracting Officers in accordance with the requirements of Part 590, Subpart F, of this subchapter.

§ 597.311 *Settlement of two or more claims jointly.* With the consent of the Contractor, the Contracting Officer or Officers concerned may mutually agree to the joint settlement of two or more termination claims of the Contractor under several contracts with one or more military departments. The Contracting Officer or Officers concerned, as a part of any such undertaking, will agree among themselves as to the division of responsibility for the performance of the audit, inventory, property disposal, and other functions. Copies of each such settlement agreement will be furnished to all Contracting Officers concerned. Each copy will clearly identify the contracts involved and have attached thereto and incorporated therein a schedule showing apportionment of the total amount among the contracts involved.

SUBPART E—SETTLEMENT OF CONTRACTS TERMINATED FOR CONVENIENCE—GENERAL

§ 597.503 *Fixed-price contracts; settlement proposals.*

§ 597.503–2 *Bases for settlement proposals.* The Assistant Chief of Staff, G–4, Department of the Army (Chief, Purchases Branch) is the designated representative of the Secretary of the Army for approving the submission of termination claims on other than the inventory or total cost basis. If a special purpose clause (§ 597.104) has been authorized for use and a termination claim has been submitted in conformity with such clause no further approval is required.

§ 597.503–3 *Forms of settlement proposals.* Contracting Officers will maintain an adequate supply of settlement proposal forms for use by Contractors. Such forms are to be obtained from adjutant general publications depots.

§ 597.512 *Cost-type contracts; negotiated settlements including costs; general provisions for settlement.*

§ 597.512–2 *Costs which may be included.* Claims by the Contractor against the Government for items of cost which are the subject of reclaim vouchers (of other items of cost of the same nature) not waived by the Contractor are to be listed as exclusions to the settlement. Such exclusions may only be removed after approval by the General Accounting Office.

§ 597.515 *Audit of settlement proposals and of subcontract settlements.* (a) Referral of settlement proposals and requests for audit by the Contracting Officer to the Army Audit Agency under this section will be governed by the provisions of § 606.207 of this subchapter.

(b) The Contracting Officer and the prime contractor may agree that any audit or substantiation of subcontractor costs will be undertaken by the Government instead of the prime contractor or higher tier subcontractor.

§ 597.517 *Review of proposed settlements.*

§ 597.517–3 *Jurisdiction of Review Boards.* In addition to the review required by § 407.517–3 of this title, all proposed termination settlements in excess of $2,000,000 will be submitted by the Heads of Procuring Activities to the Office, Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch for approval.

§ 597.517–4 *Submission of information.* All submissions of proposed settlements to the Settlement Review Board by the Contracting Officer shall be in accordance with procedures prescribed by the Head of the Procuring Activity.

§ 597.517–6 *Action by Board.* All determinations of the Settlement Review Board shall be made at duly constituted meetings of such Board and the written opinion of the Board setting forth its approval or disapproval of the proposed settlement shall be signed by each Board member present. Such written opinion approving the proposed settlement need not be a repetition of the Contracting Officer's memorandum but should clearly state that the proposed settlement is reasonable from the standpoint of protecting the Government's interest and that the negotiations have been conducted competently and are based upon adequate information.

§ 597.517–7 *Authority of Contracting Officer to proceed.* The Contracting Officer shall not conclude any proposed termination settlement of $2,000,000 or over until approval of the Office, Assistant Chief of Staff, G–4, has been obtained.

§ 597.518 *Settlement of subcontract claims.*

§ 597.518–10 *Delay in settlement of subcontractor claims.* Where it is necessary to exclude the claim of a subcontractor from the settlement with a prime contractor such exclusions will be reported as an Unassumed Exclusion in the manner prescribed by the Head of the Procuring Activity. Each such settlement agreement will be clearly marked as follows: "This Settlement Agreement contains an Unassumed Exclusion."

§ 597.518–11 *Government assistance in settlement of subcontracts.* When such action is in the interests of the Government the policy set forth in § 597.515 (b), may, by agreement between the parties, be extended to include settlement. Payment to the subcontractor is to be accomplished through the prime contractor as part of the overall settlement with the latter.

§ 597.521 *Payment.*

§ 597.521–2 *Settlement by determination.* The following certificate shall support the invoice or voucher prepared under § 407.521–2 (a) or (b) of this title.

I certify that Contract No. DA ------- has been completely terminated for the convenience of the Government and that the parties thereto have failed to reach a settlement by agreement with respect to the whole amount to be paid to the Contractor by reason of such termination. Therefore, in addition to the sum of $------ previously paid on account of work or services performed or articles delivered under the completed portion of the contract, which sum the Contractor is to retain, I have determined that the Contractor shall be paid the additional sum of $------ less partial or progress payment of $------ and less disposal credits of $------ resulting in a net payment of $------ by reason of the complete termination of said contract. The Contractor has (has not) appealed from this determination.

[S] ----------
(Contracting Officer)

If the contract has been terminated in part appropriate revisions are to be made in the certificate.

§ 597.522 *Partial payments upon termination.*

§ 597.522–4 *Security for partial payments.* Other means of protecting the interests of the Government in connection with partial payments shall be prescribed by the Head of the Procuring Activity.

SUBPART F—TERMINATION INVENTORY

§ 597.603 *Inventory schedules.*

§ 597.603–3 *Inventory descriptions.* All reportable Contractor inventory shall be listed on separate inventory schedules. These schedules plainly marked with the letter "Q" will be forwarded to the Department of Defense Screening Agency. In order to expedite the disposal of this property it shall be screened concurrently with the Department of Defense Screening Agency and with General Services Administration on a regional basis only. Automatic release date will be 75 days after the issue date of the Excess Listing prepared by the Department of Defense Screening Agency from the Inventory schedule and will be specifically set forth therein. The release date will be furnished the holding activity by the Department of Defense Screening Agency.

§ 597.604 *Plant clearance period.* The Contracting Officer shall require the Contractor to designate as "final" any inventory schedule which the latter submits for the purpose of starting the final phase of a plant clearance period, as defined in § 407.217 of this title.

§ 597.604–1 *Rejection of inadequate schedules.* Wherever Government furnished property is involved in connection with the terminated portion of the contract the Contracting Officer will verify the status of such property with the Property Administrator prior to acceptance of the Contractor's inventory schedule to insure the adequacy of such schedules.

§ 597.605 *Scrap and salvage.* The acquisition by the Government of Contractor-acquired property which has been determined to be scrap shall be avoided to the greatest extent consistent with proper settlement of the Contractor's claim, the plant clearance period, the Contractor's rights pursuant to § 407.612–3 of this title, or special laws or regulations governing disposition of critical or hazardous materials.

§ 597.605–1 *Scrap warranty.* There shall be incorporated in the scrap warranty, by appropriate language, adequate identification and description of the material as to which the scrap warranty is applicable. Where advisable for brevity or other reasons, this may be accomplished by reference to appended schedules or to properly identified inventory schedules which cannot conveniently be appended.

§ 597.605–2 *Release of scrap warranty.* (a) The Contracting Officer in acting upon any request for release of a scrap warranty shall observe the requirement of prior review by a Property Disposal Review Board pursuant to § 407.613–2 (b) of this title.

(b) A release of scrap warranty pursuant to § 407.605–2 (c) shall be set forth in writing by the Contracting Officer.

§ 597.608 *Sale or other disposition of termination inventory.*

§ 597.608–2 *Competitive sales.* The Contractor, if desiring to bid, shall submit a bid to the Contracting Officer prior to receipt of other bids.

§ 597.616 *Accounting for termination inventory.* (a) Accounting for Government Property and property title to which has passed to the Government but possession is continued in the Contractor will be subject to applicable provisions of Part 412, Chapter IV of this title.

(b) Property disposed of, in effecting settlement, by transfer of title to the Government through means of a storage agreement will, with respect to applicable accountability provisions of Part 412, Chapter IV of this title, be handled in the following manner:

(1) A conformed copy of the storage agreement, including any schedules thereof, shall be furnished the Property Administrator as the final document for

property so covered for the terminated contract.

(2) A second conformed copy of the storage agreement, including any schedules thereof, shall be furnished the Property Administrator as the initial document for the establishing of a property file for the storage agreement.

SUBPART G—FORMS

§ 597.750 *Fixed-price supply contracts of $1,000 or less.* The short form termination clause, § 407.705–1 of this title, may be inserted in fixed-price supply contracts of $1,000 or less. However, any such contract of $1,000 or less which has within its provisions the Default clause set forth in § 406.103–11 of this title, or one of similar intent the use of which has been authorized, shall include such short form termination clause. The Heads of Procuring Activities are authorized, subject to the condition above stated, to establish limits or minimum contract value, or otherwise, as may be appropriate.

PART 598—PATENTS AND COPYRIGHTS

Sec.
598.000 Scope of part.

Subpart A—Patents

598.101 Definition: Chief, Patent Division, OJAG.
598.101–1 Research or development contract.
598.102 Notice and assistance.
598.103 Reporting of royalties.
598.104 Classified contracts.
598.105 Patent indemnification of Government by Contractor.
598.106 Authorization and consent.
598.107 Patent rights under research or development contracts.
598.107–1 License under foreground patents.
598.107–2 Title to foreground patents.
598.107–3 Reproduction rights under background patents.
598.107–5 Contracts relating to atomic energy.
598.108 Followup of patent rights.
598.109 Adjustment of royalties.
598.110 Patent interchange agreement and patent problems relating to Mutual Defense Assistance Act of 1949.
598.111 Processing of infringement claims.
598.150 Procurement of invention and patent rights.

Subpart B—Copyrights

598.202 License under copyrightable material.
598.204 Contracts for motion pictures.

Subpart O—Adjustment of Royalties

598.1500 Scope of subpart.
598.1501 Adjustment of royalties for the use of inventions.
598.1501–1 Definitions.
598.1501–2 Basic statute.
598.1501–3 Applicability and notice.
598.1501–4 Fixing of rates and order.
598.1501–5 Prohibition against payment of excessive royalties.
598.1501–6 Remedies of licensor.
598.1501–7 Settlement of claims.
598.1501–8 Authority of Secretary of the Army and Under Secretary of the Army to delegate powers and issue regulations under act.
598.1501–9 Powers, duties, and authorities under the act which have been delegated by the Under Secretary of the Army with limited authority of redelegation.
598.1501–10 Existing delegations under § 598.1501–9 (a), (b), (c), and (d).
598.1501–11 Duties of the technical services.
598.1501–12 Source of information relating to procedure.

Subpart P—Processing of Infringement Claims

598.1600 Scope of subpart.
598.1601 Definitions.
598.1601–1 Chief, Patents Division, OJAG.
598.1601–2 Delegate.
598.1601–3 Such claim.
598.1602 Applicable statutes.
598.1602–1 The act of 1948.
598.1602–2 The Patent Marking Statute.
598.1602–2 The Invention Secrecy Act.
598.1602–4 The Air Corps Act.
598.1602–5 The act requiring reports to the Attorney General.
598.1602–6 The Royalty Adjustment Act.
598.1602–7 Section 3477, Revised Statutes.
598.1603 General policy.
598.1604 Authority and delegation.
598.1604–1 Statutory authority of the Secretary of the Army.
598.1604–2 Delegation of authority.
598.1605 Prescribed regulations.
598.1605–1 Appointment and composition of boards.
598.1605–2 Duties of Chiefs of Technical Services.
598.1605–3 Reporting of claims.
598.1605–4 Correspondence with claimant.
598.1605–5 Clearance to investigate.
598.1605–6 Final report by delegate where no settlement of claim is made.
598.1605–7 Action and authority of the Chief, Patents Division, OJAG.
598.1605–8 Available procedure for the settlement of such claims and procurement of invention and patent rights incident thereto.
598.1605–9 Settlement with foreign claimants.
598.1605–10 Fiscal procedures.
598.1605–11 Disclosure of information to claimants and their representatives.
598.1605–12 Contracts requiring approval.
598.1605–13 Submission of contracts for approval.
598.1605–14 Contract numbering and distribution.
598.1606 Contract clauses and forms.
598.1606–1 Mandatory contract clauses.
598.1606–2 The license grant clauses.
598.1606–3 The license term clauses.
598.1606–4 Release of past infringement clause.
598.1606–5 Non-estoppel clause.
598.1606–6 Contracts providing for the payment of a running royalty.
598.1606–7 Assignments.
598.1606–8 Unilateral contract form; gratuitous grants.
598.1606–9 Bilateral contract form.

Subpart Q—Procurement of Invention and Patent Rights

598.1700 Scope of subpart.
598.1701 Definitions.
598.1701–1 Chief, Patents Division, OJAG.
598.1701–2 Delegate.
598.1701–3 Proffered license or assignment.
598.1701–4 Proposed license or assignment.
598.1702 Applicable statutes.
598.1702–1 The Royalty Adjustment Act.
598.1702–2 Annual National Military Establishment Appropriation Act.
598.1703 General policy.
598.1704 Authority and delegations.
598.1705 Prescribed regulations.
598.1705–1 Duties of the Chiefs of Technical Services.
598.1705–2 Reporting of proffered and contemplated licenses and assignments.
598.1705–3 Correspondence with invention owner or his representative.
598.1705–4 Clearance to consider and procure licenses and assignments.
598.1705–5 Final report by delegate where no license or assignment is procured.
598.1705–6 Available procedure for the procurement of licenses and assignments.
598.1705–7 Fiscal procedures.
598.1705–8 Contracts of license and assignment requiring approval.
598.1705–9 Submission of contracts for approval.
598.1705–10 Contract numbering and distribution.
598.1706 Contract clauses and forms.
598.1706–1 Mandatory contract clauses.
598.1706–2 The license grant clauses.
598.1706–3 The license term clauses.
598.1706–4 Release of past infringement clause.
598.1706–5 Non-estoppel clause.
598.1706–6 Contracts providing for the payment of a running royalty.
598.1706–7 Assignments.
598.1706–8 Unilateral contract form; gratuitous grant.
598.1706–9 Bilateral contract form.

§ 598.000 *Scope of part.* This part sets forth administrative requirements, procedures, and other pertinent information in connection with (a) securing to the United States Government in various types of contracts appropriate patent rights and adequate protection against patent infringement risks; (b) use of copyright clauses in Army Establishment contracts; (c) adjustment of royalties payable by Army Contractors and included in the cost price of Army contracts; (d) claims asserted by nationals of the indemnifying government for compensation for use or practice of inventions furnished the other Government under the terms of the Patent Interchange Agreement between the United Kingdom Government and the United States; (e) claims arising out of the use by the Army or Army Contractors of adversely owned patented and unpatented inventions and the settlement or other disposition of such claims; and (f) procurement by the Army Establishment of invention and patent rights, except as incident to the settlement of claims.

SUBPART A—PATENTS

§ 598.101 *Definition; Chief, Patents Division, OJAG.* The term "Chief, Patents Division, OJAG" means the Chief, Patents Division, Office of The Judge Advocate General, Department of the Army, Washington 25, D. C.

§ 598.101–1 *Research or development contract.* The term "experimental, developmental, or research work" shall be deemed to include any work for development of an item or method for the Government either as a sole object of the contract or to an extent beyond that normally incident to the performance of a supply contract for the class of item involved.

§ 598.102 *Notice and assistance.* For proper action to be taken by technical services with respect to reports, received by them, of claims of patent infringement asserted against a Contractor, or its subcontractor, see § 598.1605–3.

§ 598.103 *Reporting of royalties.*—(a) *Furnishing copy of reports.* The Contracting Officer shall furnish at least one copy of the royalty information, certificate, or report (whether positive or negative) received under the provisions of § 408.103 of this title to the Chief, Patents Division, OJAG.

(b) *Incomplete reports.* Where a Contractor presents a royalty report which, upon its face, does not comply with the provisions of § 408.103 of this title, the Contracting Officer will make an effort to secure from the Contractor a conforming report prior to forwarding said report as provided in paragraph (a) of this section.

(c) *Additional information to be furnished by Contracting Officer with copy of report.* If the Contractor reports that a royalty has been or is to be paid, the Contracting Officer shall furnish also, at the time of submitting the above referred to copy of the royalty information or report received from the Contractor, the following additional information:

(1) The type of contract, i. e. whether for Research or Development or for Supplies.

(2) The general subject matter of the contract, i. e. nomenclature or brief description of item of supply.

(3) The dollar amount of the contract.

(d) *Responsibility of Contracting Officer after furnishing copy of report.* After a copy of the report or certificate required by § 408.103 of this title and the additional information required by paragraph (c) of this section has been forwarded to the Chief, Patents Division, OJAG, the Contracting Officer has no further duties or responsibilities in the matter unless some particular further action is specifically requested by the Chief, Patents Division, OJAG.

§ 598.104 *Classified contracts.*—(a) *Filing of patent applications.* Any delay in the processing of a request for permission to file a patent application in the United States Patent Office may result in loss of substantial rights of the Contractor. Accordingly, when a Contractor submits a patent application, pursuant to the provisions of § 408.104 (a) of this title, for permission to file this application in the United States Patent Office, the Contracting Officer or his designee is charged with the duty of promptly informing the Contractor whether this application may be so filed. In making such a decision or recommendation the cognizant section or branch shall make a survey of the proposed application to the extent necessary to determine whether or not, for security purposes, the filing in the United States Patent Office of an application should be denied, taking into consideration the fact that only under extraordinary circumstances of national security should the right to file a United States application be denied. The Contractor has the right of appealing this decision direct to the Secretary of the Army. Whether or not a particular patent application should be placed under a Secrecy Order pursuant to Public Law 700, 34 U. S. C. 42, is a separate question which should be deferred until promptly after the application has been filed. In this latter connection, however, the Contracting Officer or his designee has the further duty, in all cases where the filing of an application is authorized, of securing the application serial number and filing date from the Contractor and submitting such information to a proper Department of the Army representative promptly after the filing of the application in order that proper steps may be taken to place the application under a Secrecy Order if such action appears to be advisable.

(b) *Application submitted under contracts classified confidential or lower.* Applications for United States patents submitted to the Contracting Officer pursuant to the provisions of paragraph (c) of § 408.104 of this title should be forwarded promptly to the cognizant Department of the Army representative for the purpose of determining whether or not the application should be placed under a Secrecy Order in accordance with established procedures in this matter.

§ 598.105 *Patent indemnification of Government by Contractor.*—(a) *Standard commercial supplies.* (1) The term "standard commercial supplies" as used in the instructions set forth in § 408.105 of this title means supplies which normally are manufactured or supplied by a manufacturer or dealer for sale to the public in the commercial open market. It is intended to cover commodities which are readily procurable through normal trade channels and includes, by way of description but without limitation, "off the shelf" items, items listed in a manufacturer's standard stock catalog, or supplies for which there is a specified or established commercial price schedule with an offer to supply the same. It does not, as a rule, cover special items that are manufactured solely for the Government unless such items are commercially procurable.

(2) It is intended that, in accordance with the requirements of § 408.105 of this title, the indemnity article shall be used in the procurement of "standard commercial supplies" whether or not such supplies are "standard commercial" with the particular Contractor who is awarded the contract. The determining criterion shall be whether or not the items of supply to be procured are "standard commercial" with any potential supplier (whether a bidder or not).

(b) *Exclusion of items from the operation of the indemnity clause.* (1) One or more of the listed items of a contract may not come within the meaning of the term "standard commercial supplies" although such item or items may contain components which do come within such meaning. If separation of the standard commercial components and nonstandard components of the item is impractical or inexpedient, the item should be excluded in its entirety from the indemnity by listing it under paragraph (b) of § 408.105 of this title, and if all items of a contract come within this category, the entire indemnity clause may be omitted. If such separation is reasonably possible or expedient, however, only those components or parts of the items that are not "standard commercial" should be excluded and, accordingly, in such case, only the nonstandard components of the item should be listed under paragraph (b) of the indemnity clause (§ 408.105 of this title) as items to be excluded from the operation of the indemnity.

(2) When it is to the interest of the Government to do so, devices, mechanisms, or materials other than those in the category of nonstandard commercial supplies may be excluded from the indemnity by and with the approval of the Chief, Purchases Branch, Assistant Chief of Staff, G–4, Department of the Army. Requests for such exclusion should be accompanied by a full statement of facts supporting the request.

(3) When it is in the interest of the Government to do so, specific patents and/or applications for patent may be excluded from the indemnity by and with the approval of the Chief, Purchases Branch, Assistant Chief of Staff, G–4, Department of the Army.

(c) *Indemnification of Contractor by the Government.* No provision whereby the Government expressly agrees to indemnify the Contractor against liability for patent infringement shall be included in any contract. Ordinarily any demands of a Contractor in this respect can be satisfied by the elimination of the patent indemnity clause (when authorized by § 408.105 of this title) and insertion of the authorization and consent clause (§ 408.106 of this title).

§ 598.106 *Authorization and consent.* This clause is intended merely to set forth affirmatively in a contract the authorization and consent of the Government without which the Contractor would, by reason of the law as laid down by Statute and the Court of Claims with regard to patent infringement by or for the Government, be liable to direct suit and injunctive action in the performance of the Government contract. Its use, therefore, is authorized, as set forth in the instructions to § 408.106 of this title, in any contract. Any deviation from the clause as set forth in § 408.106 of this title, or the footnote thereto, however, may enlarge the liability of the Government unless a proper indemnity clause is included in the contract, and strict adherence to § 408.106 of this title is, accordingly, mandatory unless a deviation as provided in § 590.108 of this subchapter is obtained.

§ 598.107 *Patent rights under research or development contracts.*

§ 598.107–1 *License under foreground patents.*—(a) *Exclusion of invention from general license.* Where special circumstances exist (of which representative examples are set forth in the instructions to § 408.107–1 of this title) for the exclusion of any invention or material from a general license to the Government, the Contracting Officer shall submit the proposal to the Assistant Chief of Staff, G–4, Department of the Army.

Attn: Chief, Purchases Branch, with his recommendations and detailed reasons therefor.

(b) *Submission of disclosures.* With respect to technical services which do not maintain patent prosecution facilities, copies of Contractor's reports furnished in accordance with the provisions of paragraph (c) of § 408.107–1 of this title disclosing inventions and electing not to file patent applications thereon, together with a complete disclosure of each such invention, shall be furnished to the Chief, Patents Division, OJAG. A statement shall be furnished by the technical service as to each such invention evaluating the invention from the standpoint of military worth or usefulness and whether it is likely to be used within the Army Establishment.

§ 598.107–2 *Title to foreground patents*—(a) *Use of patent title clause.* The use of the patent title clause is appropriate whenever acquisition of title by the Government is desirable and warranted by special circumstances in accordance with the provisions of § 408.107–2 of this title.

(b) *Processing of material received under § 408.107–2 (c) of this title.* All disclosures, instruments, reports and the like required to be delivered to the Government pursuant to paragraph (c) of the clause set forth in § 408.107–2 of this title should be processed in the manner prescribed in paragraph (a) of § 598.107–1.

§ 598.107–3 *Reproduction rights under background patents*—(a) *General policy.* Reproduction rights (limited royalty-free license) under Contractors background patents, in addition to title or license under foreground patents as provided in §§ 408.107–1 and 408.107–2 of this title should be requested in any research or development contract where in the opinion of the Contracting Officer there are equitable or other circumstances justifying such request.

(b) *Consideration for administration of the general policy.* In applying the foregoing policy with respect to requesting reproduction rights under Contractor's background patents the Contracting Officer shall be governed by the following considerations:

(1) *Under formal advertising.* The reproduction rights clause should not be used in invitations for bids issued under formal advertising in the procurement of supplies normally bought and sold commercially in the open market.

(2) *Negotiated contracts.* In negotiated contracts the question of the acquisition of background rights by the Government is a matter for full and free bargaining between the contracting parties, with the Contracting Officer taking into account the equitable circumstances supporting the Government's request for reproduction rights under the background patents.

§ 598.107–5 *Contracts relating to atomic energy.* The patent rights provision set forth in § 408.107–5 of this title shall be inserted as part of the patent rights clause set forth in § 408.107–1 of this title in all research or development contracts relating to atomic energy.

(a) Disclosures of inventions relating to atomic energy furnished by any contractor shall be forwarded to the Chief, Patents Division, OJAG, for referral to the United States Atomic Energy Commission.

(b) Requests for deviation from the provisions set forth in § 408.107–5 of this title shall be forwarded to the Assistant Chief of Staff, G–4, Department of the Army, Attn: Chief, Purchases Branch for referral to the United States Atomic Energy Commission for determination by it as to whether the provision must be included in the contract or whether such provision may be modified.

§ 598.108 *Followup of patent rights.* An appropriate system shall be maintained by each technical service policing the disclosure provisions of the patent rights clauses included in research or development contracts by means of which inventions made under such contracts may be identified, and formal agreements evidencing the Government's rights under such inventions duly obtained. In this connection see the withholding of a portion of the final payment provision contained in § 408.107–1 (e) of this title.

§ 598.109 *Adjustment of royalties.* See subpart O of this part relating to the adjustment of royalties for the use of inventions for the benefit of the United States.

§ 598.110 *Patent interchange agreement and patent problems relating to Mutual Defense Assistance Act of 1949*—(a) *General.* Under the date of 24 August 1942, an agreement was entered into between the United States of America and the United Kingdom with relation to the interchange of patent rights, information, inventions, designs or processes (Executive Agreement Series 268). This agreement, titled "Agreement with the United Kingdom for the Interchange of patent rights and industrial information," was terminated on 8 April 1946, but without prejudice to any liability which then had occurred or which might thereafter arise pursuant to certain continuing obligations undertaken by each Government.

(b) *Terms of agreement.* The following is a summary of the terms of the Agreement remaining in effect:

(1) Each Government agrees to indemnify and save harmless the other Government against claims asserted by nationals of the indemnifying Government for compensation for the use or practice of inventions furnished the other Government under the terms of the Patent Interchange Agreement. The obligations of the United States are limited to claims of which the Government of the United States is notified before 1 July 1949. There is no time limit running to the obligations of the British Government.

(2) Each Government agrees to notify the other Government as soon as practicable after receiving notice of any claim by which the liability might fall upon the other Government.

(3) Each Government will give to the other Government all possible information and other assistance required in connection with computing any payments to be made to nationals of the other Government with respect to the use of their patent rights, information, inventions, designs, or processes.

(c) *Questions of policy or procedure under agreements.* All questions of policy or procedure arising under the Agreement shall be referred to the Chief, Patents Division, OJAG.

(d) *Patent rights as the subject of reciprocal aid by lend-lease beneficiary governments other than the United Kingdom.* (1) Lend-Lease Settlement Agreements have been negotiated by the State Department with France, Belgium, Luxemburg, Norway, and the Netherlands containing provisions generally to the effect that the respective governments will assume the obligations of the United States or its war contractors with respect to claims of patent infringement or other liability for the use of inventions made against the United States by nationals of the respective governments, or to pay royalties to nationals of the respective governments, which claims or royalties are in connection with war production.

(2) Heads of Procuring Activities will report to the Chief, Patents Division, OJAG any patent liability of the United States or its war Contractors to nationals of any other lend-lease beneficiary country in sufficient detail to enable that office to base a request to the State Department to make provisions for the assumption by the Government concerned as an item of reciprocal aid of the patent liability involved.

(3) In no event shall any contract of settlement of patent infringement liability, or of other liability for use of inventions, be made with a national of a lend-lease beneficiary government, nor shall payment be authorized of royalties either by the Department or by Department Contractors to a national of a lend-lease beneficiary government, without first obtaining a written approval of the Chief, Patents Division, OJAG.

(e) *Proprietary rights in connection with the Mutual Defense Assistance Act of 1949.* The bilateral agreements between the United States and MDAP countries contain a clause to the effect that the two contracting governments will negotiate appropriate arrangements respecting responsibility for claims for the use or infringement of inventions and proprietary information. It is anticipated that these arrangements will be similar to the Patent Interchange Agreement with the British Government. These matters have not progressed to a point where definitive rules and regulations have been formulated. In implementation of the program all claims for the use and infringement of such inventions or proprietary information will be referred to the Chief, Patents Division, OJAG.

§ 598.111 *Processing of infringement claims.* See Subpart P of this part relating to investigation and disposition of claims for the use of inventions by or on behalf of the Government, and agreements in settlement of such claims.

§ 598.150 *Procurement of invention and patent rights.* See Subpart Q of this part pertaining to the procurement of invention and patent rights (except as an incident to the settlement of claims for the use of inventions which is provided for in Subpart D of this part), and agreements for the procurement of such rights.

SUBPART B—COPYRIGHTS

§ 598.202 *License under copyrightable material.* No deviation or modification shall be made in the clause set forth in § 408.202 of this title without the approval of the Chief, Purchases Branch, Assistant Chief of Staff, G–4, Department of the Army.

§ 598.204 *Contracts for motion pictures.* (a) The contract clause set forth in § 408.204 of this title shall be used in all contracts for the production of motion pictures, and in all contracts for the preparation (for use in connection with motion pictures) of scripts, translations, sound tracks, musical compositions, or any other copyrightable material. Any request for deviation from this section shall be made as set forth in § 598.202.

(b) In all contracts for the procurement of existing motion pictures, the following instructions apply as to use of the contract clause set forth in § 408.204 of this title.

(1) Paragraph (a) of § 408.204 of this title may be modified or omitted by the Procuring Activity.

(2) Paragraph (b) of § 408.204 of this title may be modified by the technical service concerned only to the extent of limiting the scope of the license granted by this paragraph to that scope which is consistent with the purposes for which the motion picture covered by the contract is being procured. Examples of such restricted rights are—

(i) Limitation as to the type of audience.

(ii) Limitation as to the geographical location.

(iii) Limitation as to time.

(3) Paragraph (c) of § 408.204 of this title should be used in this type of contract. It may, however, be modified to the extent that the coverage of the indemnity is coextensive with the rights acquired under the modification permitted by paragraph (b) (2) of this section.

(c) In all contracts for the procurement of a motion picture which is a modification (through the addition of subject matter specified by the contract and not already in existence) of an existing motion picture, the instructions given in paragraphs (b) (2) and (b) (3) of this section apply. In this type of contract paragraph (a) of the contract clause set forth in § 408.204 of this title shall be used without modification, except that the word "copyrightable" may, at the discretion of the technical service, be inserted before the word "material" in the first line of this paragraph.

SUBPART O—ADJUSTMENT OF ROYALTIES

§ 598.1500 *Scope of subpart.* Although sections 1 and 2 of the Royalty Adjustment Act of 1942, (35 U. S. C. 89–90, 1946 edition), insofar as they relate to authority to initiate new actions, expired on 1 July 1953, those paragraphs of the previous edition of this subpart which pertain to sections 1 and 2 of the Royalty Adjustment Act have been retained in this edition pending completion of all actions initiated thereunder prior to 1 July 1953. Subject to the limitations referred to in the preceding sentence this subpart sets forth pertinent information with respect to the adjustment of royalties for the use of inventions which are charged as an incident of cost in Department of the Army procurement. (See § 598.109 and § 408.109 of this title pertaining to this subject.)

§ 598.1501 *Adjustment of royalties for the use of inventions.*

§ 598.1501–1 *Definitions.* Where used in this subpart, the following terms have the meanings here assigned to them:

(a) "Act" means the Royalty Adjustment Act 1942 (Public Law 768, 77th Congress; 25 U. S. C. 89–96, 1946 edition).

(b) "Delegate" means the offices, boards, agents, and persons specified in § 598.1501–10, together with any other office, board, or individual to whom any of the powers, duties, and authorities of the Secretary of the Army under the Act have been or may be delegated.

§ 598.1501–2 *Basic statute.* The Act makes provision for adjusting royalties for the use of inventions for the benefit of the United States, in aid of the prosecution of the war, and for other purposes. Sections 598.1501–3 to 598.1501–8, inclusive, contain a summary of the provisions of the Act as applied to the Army Establishment.

§ 598.1501–3 *Applicability and notice.* Whenever an invention, whether patented or unpatented, is manufactured, used, sold, or otherwise disposed of for the United States under the conditions set forth in the Act and the license includes provisions for the payment of royalties, the rates or amounts of which are believed to be unreasonable or excessive by the Secretary of the Army, the Secretary of the Army shall give notice of such fact to the licensor and the licensee. By definition, the manufacture, use, sale, or other disposition of an invention, whether patented or unpatented, by a Contractor, subcontractor, or any person, firm, or corporation for the Government and with the authorization or consent of the Government is construed as manufacture, use, sale, or other disposition for the United States.

§ 598.1501–4 *Fixing of rates and order.* The act further provides that within a reasonable time after the effective date of the notice, in no event less than 10 days, the Secretary of the Army shall by order fix and specify such rates or amounts of royalties, if any, as he shall determine are fair and just, taking into account the conditions of wartime production, and shall authorize the payment thereof by the licensee to the licensor on account of such manufacture, use, sale, or other disposition. Either the licensor or the licensee may, if he so requests within 10 days from the effective date of the notice, present within thirty days from the date of his request, in writing or in person, any facts or circumstances which may in his opinion have a bearing upon the rates or amount of royalties, if any, to be determined, fixed, and specified as aforesaid. Any order fixing the rates and amounts of any royalties shall be issued within a reasonable time after such presentation.

§ 598.1501–5 *Prohibition against payment of excessive royalties.* The licensee shall not after the effective date of the notice (upon receipt of notice, or 5 days after the mailing thereof, whichever date is earlier) pay to the licensor, nor charge directly or indirectly to the United States, a royalty in excess of that subsequently specified in the order. It is provided that, whenever a reduction in the rates or amounts of royalties is effected by order, the reduction shall inure to the benefit of the Government by way of a corresponding reduction in the contract price to be paid directly or indirectly for such manufacture, use, sale, or other disposition of such inventions, or by way of refund if already paid to the licensee.

§ 598.1501–6 *Remedies of licensor.* The act contains certain provisions as to the remedies of the licensor, which, in general, grant him a cause of action against the United States in the Court of Claims or a District Court of the United States.

§ 598.1501–7 *Settlement of claims.* The Secretary of the Army is authorized, before suit has been instituted against the United States, to enter into an agreement with the owner or licensor of an invention, in full settlement and compromise of any claim accruing under the provisions of the act or any other law, and for compensation to be paid such owner or licensor based upon future manufacture, use, sale, or other disposition of said invention.

§ 598.1501–8 *Authority of Secretary of the Army and Under Secretary of the Army to delegate powers and issue regulations under the Act.* The Secretary of the Army is authorized in his discretion and under such rules and regulations as he may prescribe, to delegate any powers, duties, and authorities conferred by the Act to such qualified and responsible officers, boards, agents or persons as he may designate or appoint. He also is authorized to prescribe such rules and regulations and to require such information as may be necessary and proper to carry out the provisions of the Act. The Secretary of the Army has delegated and assigned his powers, duties, and authorities under the Act to the Under Secretary of the Army including the authority to prescribe such rules and regulations as the Under Secretary of the Army may from time to time deem proper under the Act and the authority to redelegate in whole or in part, such powers, duties, and authorities to such qualified and responsible officers, boards, or employees as he may designate in the Department of the Army, and to authorize such officers, boards, or employees to make or authorize successive redelegations of such powers, duties, and authorities.

§ 598.1501–9 *Powers, duties, and authorities under the Act which have been*

delegated by the Under Secretary of the Army with limited authority of redelegation. The Under Secretary of the Army has delegated to the Assistant Chief of Staff, G–4 (with right of redelegation to the Chief, Procurement Division, Office of Assistant Chief of Staff, G–4, and through him to the Chief, Purchases Branch, Office of Assistant Chief of Staff, G–4) the power and authority to designate, and appoint, and to revoke any designation and appointment of, any commissioned officer of the Army within his command, or any civilian employee of the Department of the Army within his jurisdiction, whom he deems to be responsible and qualified by reason of having had substantial business or legal experience in procurement or patent matters, for the exercise by such officer or employee, either individually or as a member of a Royalty Adjustment Board, of such of the powers, duties and authorities conferred by the Act upon the Secretary of the Army as are set forth in the following paragraphs (a), (b), (c), and (d), the exercise thereof to be pursuant to such rules and regulations under the Act as may from time to time be prescribed by the Under Secretary of the Army:

(a) To determine that notice should be given and to give notice of the fact that the rates or amounts of royalties are believed to be unreasonable or excessive; and to withdraw any such notice previously given by the delegate or by a delegate of lower rank in his service under certain circumstances.

(b) After notice, to receive and hear such facts and circumstances as may be presented by the licensee or licensor, and such other facts and circumstances as are relevant to a determination of a fair and just royalty.

(c) To fix and specify, by order, fair and just rates or amounts of royalties, and to authorize the payment thereof, if any royalty be allowed, by the licensee to the licensor, subject, however, to the approval of such order by the Chief, Purchases Branch, Office, Assistant Chief of Staff, G–4.

(d) To execute contracts on behalf of the United States, before suit against the United States has been instituted, with the owner or licensor of an invention, or of the Letters Patent therefor, effecting a voluntary adjustment of royalties charged or chargeable to the United States, or in settlement and compromise of any claim against the United States accruing to such owner or licensor under the provisions of the Act or any other law by reason of the manufacture, use, sale, or other disposition of an invention or for compensation to be paid such owner or licensor based upon future manufacture, use, sale, or other disposition of such invention, subject, however, to the approval of the Chief, Purchases Branch, Office, Assistant Chief of Staff, G–4, in each case under certain circumstances, including those stated in § 598.1605–12.

The foregoing power and authority of designation and appointment has been redelegated to the Chief, Procurement Division, Office of the Assistant Chief of Staff, G–4, and through him to the Chief, Purchases Branch, Office, Assistant Chief of Staff, G–4.

§ 598.1501–10 *Existing delegations under § 598.1501–9 (a), (b), (c), and (d).* (a) The powers, duties, and authorities described in paragraphs (a), (b), (c), and (d) of § 598.1501–9 have been delegated by the Under Secretary of the Army or by the Officers designated in § 598.1501–9 to each of the following offices, boards, agents, or persons as indicated in the following tabulation:

Delegate—	Powers, duties, and authorities described in paragraphs—			
	(a)	(b)	(c)	(d)
Chiefs of the Technical Services	X	X	X	X
Royalty Board, Office of the Chief of Ordnance	X	X	X	
The Chief of each Ordnance Procurement District (when such position is filled by a commissioned officer on active duty)				X
The Deputy Chief of each Ordnance Procurement District (when such position is filled by a commissioned officer on active duty and when the position of District Chief is not filled by a commissioned officer on active duty)				X
Commanding General, Ordnance Tank Automotive Center				X
Commanding Officer, Detroit Arsenal				X
Commanding Officer, Frankford Ordnance Arsenal				X
Commanding Officer, Picatinny Ordnance Arsenal				X
Commanding Officer, Rock Island Ordnance Arsenal				X
Commanding Officer, Springfield Ordnance Armory				X
Commanding Officer, Watertown Ordnance Arsenal				X
Commanding Officer, Watervliet Ordnance Arsenal				X
Chief, Legal Division, Office of the Chief Signal Officer	X	X	X	X
Royalty Adjustment Board, Office of the Chief Chemical Officer		X	X	X
Royalty Adjustment Board, Office of the Chief of Engineers	X	X		X
Royalty Adjustment Board, Office of the Quartermaster General	X	X	X	X
Royalty Adjustment Board, Office of the Surgeon General	X	X	X	X
Chief, Legal Division, Office of the Chief of Transportation	X	X		
Chief, Armed Services Medical Procurement Agency [1]				X

[1] Although pursuant to a joint delegation of the Secretaries of the Army, Navy, and Air Force, Army Procurement Procedure is controlling.

(b) If the chief of a technical service desires that any of the powers, duties and authorities set forth in § 598.1501–9 be further delegated to any officer or employee within his command or jurisdiction, or that a board to receive such delegation be created within his service or command, a request to that effect may be transmitted to the appropriate office specified in § 598.1501–9. Such request shall include the name, rank or grade, and a brief statement of qualifications with respect to each officer or employee to whom the delegation is desired.

(c) Where any of the powers, duties, and authorities set forth in § 598.1501–9 have been or are hereafter delegated to a board, the said board shall, unless otherwise provided in the instrument of delegation, consist of three officers or employees of the service or command concerned, who shall be designated and appointed as provided in § 598.1501–9. Unless otherwise provided in the instrument of delegation (1) a majority of said board shall determine its action, (2) any instrument or contract whatsoever evidencing action taken by the board may be signed in its name by any member of the board, and (3) any two members of such board shall constitute a quorum.

§ 598.1501–11 *Duties of the technical services.* Subject to the applicable rules and regulations, the chiefs of the technical services are, in matters properly before them and acting under the direction of the Under Secretary of the Army, under the duty of causing the powers, duties and authorities delegated under the Act to be exercised in such manner and at such times as may be necessary to prevent unreasonable or excessive royalties from being charged to the Department of the Army. This duty may be discharged pursuant to such instructions as may be issued by the heads of the technical services for the guidance of their respective services and delegates therein.

§ 598.1501–12 *Source of information relating to procedure.* Whenever a technical service has reason to believe that the amount of royalties being assessed against any of its procurement is excessive, advice may be obtained as to the procedure to follow in order that the powers and authority of the Act may be utilized, by communicating with the Chief, Patents Division, OJAG.

SUBPART P—PROCESSING OF INFRINGEMENT CLAIMS

§ 598.1600 *Scope of subpart.* This subpart sets forth the policy of the Department, applicable statutes, administrative requirements and procedures, and other pertinent information relative to (a) investigation and disposition, by settlement or otherwise, of actual and potential claims for compensation for the use of adversely owned patented or unpatented inventions, and (b) contracts or agreements in settlement of such claims, including suggested contract forms and mandatory and suggested articles to be used in such contracts. (See § 598.111 and § 408.111 of this title pertaining to this subject.) This subpart relates to claims by both United States and foreign claimants, except claims presented by nationals of the United Kingdom under the Patent Interchange Agreement, of lend-lease beneficiary countries, and of countries whose Governments are within the scope of the Mutual Defense Assistance Program, for which see § 598.110.

§ 598.1601 *Definitions.* As used in this subpart, the following terms have the meanings set forth below:

§ 598.1601–1 *Chief, Patents Division, OJAG.* The term "Chief, Patents Division, OJAG" means the Chief, Patents Division, Office of The Judge Advocate General, Department of the Army, Washington 25, D. C.

§ 598.1601–2 *Delegate.* The term "delegate" means any office, board, agency, or officer to whom the powers, duties, and authorities set forth in § 598.1604–2 have been delegated.

§ 598.1601–3 *Such claim.* The terms "such claim" and "such a claim" mean a claim against the United States which has in fact been asserted or a claim (based upon actual past procurement and not contemplated procurement) which may reasonably be anticipated will be asserted, under any of the applicable statutes (see §§ 598.1602–1, 598.1602–3, and 598.1602–4), for compensation for alleged use of inventions by or for the Army Establishment.

§ 598.1602 *Applicable statutes.*

§ 598.1602–1 *The Act of 1948.* The act of 25 June 1948, as amended (28 U. S. C. 1498) (hereinafter called "the act of 1948") provides that wherever an invention covered by a patent of the United States is without license or other right used or manufactured by the United States, or by any person, firm or corporation for the United States and with its authorization and consent,[1] the patent owner's remedy shall (except as hereinafter stated) be by suit against the United States in the Court of Claims for recovery of his reasonable and entire compensation for such use or manufacture. The foregoing statute provides that a Government employee shall have the right to bring suit against the Government thereunder except where he was in a position to order, influence, or induce use of the invention by the Government. The statute also provides that it shall not confer a right of action on any patentee or any assignee of such patentee with respect to any invention discovered or invented by a person while in the employment or service of the United States, where the invention was related to the official functions of the employee, in cases in which such functions included research and development, or in the making of which Government time, materials, or facilities were used.

§ 598.1602–2 *The Patent Marking Statute.* Section 4900, Revised Statutes, as amended (35 U. S. C. 49) (hereinafter called "the Patent Marking Statute"), precludes the recovery by a patent owner of damages or profits for infringement occurring prior to (a) the date of marking the patented article with the word "Patent" together with the number of the patent, or with the word "Patented" and the day and year the patent was granted or (b) the date on which the patent owner notified the alleged infringer of the claimed infringement (whichever date is earlier), except (1) in the case of a patent exclusively for a process or (2) in the event neither the owner nor any licensee of the owner has made or sold the patented article.

§ 598.1602–3 *The Invention Secrecy Act.* The act of 1 February 1952 (35 U. S. C. 181–188) (hereinafter called "The Invention Secrecy Act") provides for the withholding of the grant of a patent through the issuance of a secrecy order, for such time as the national interest requires, in those cases where the patent application discloses an invention the publication of which would be detrimental to the national security of the United States. The foregoing act also authorizes the Government Department which caused the issuance of the secrecy order to enter into an agreement with the owner of an application, which except for the secrecy order would issue as a patent, either in full settlement for the damage caused by the secrecy order and/or for the use of the invention by the Government, and empowers the owner of such an application to seek relief in the courts for such damage and/or use either initially, or at any time prior to reaching a satisfactory settlement with the Department concerned should be filed in administrative claim.

§ 598.1602–4 *The Air Corps Act.* The act of 2 July 1926, as amended (10 U. S. C. 310 (i)) (hereinafter called "the Air Corps Act"), provides that whenever a design, whether or not inventive in character, relating to aircraft or any components thereof, is used or manufactured by or for any Department of the Government without just compensation, the owner of such design may, within 4 years from the date of such use, file suit against the United States in the Court of Claims for recovery of his reasonable and entire compensation for such use and manufacture.

§ 598.1602–5 *The act requiring reports to the Attorney General.* Section 188, Revised Statutes (5 U. S. C. 91) (hereinafter called "the act requiring reports to the Attorney General"), requires that a department, or the officer or agent of a department, which is authorized to adjust a claim, shall, after suit has been brought in the Court of Claims and upon request by the Attorney General, furnish the Attorney General without delay with a full statement, in writing, of all facts, circumstances, and evidence pertinent to the claim in the possession or knowledge of such department, officer, or agent.

§ 598.1602–6 *The Royalty Adjustment Act.* The act of 31 October 1942, (35 U. S. C. 91, 1946 edition), known as "the Royalty Adjustment Act," provides that the head of any department or agency of the Government, which has ordered, authorized, or consented to the manufacture, use, sale, or other disposition of an invention (whether patented or unpatented) by or for the Government, is authorized to enter into an agreement with the owner thereof, before suit against the United States has been instituted, in full settlement and compromise of any claims against the United States accruing by reason of such manufacture, use, sale, or other disposition of the invention. This statute grants power and authority to settle claims or liabilities arising under the acts referred to in §§ 598.1602–1 and 598.1602–3, and to settle claims or liabilities arising under the act referred to in § 598.1602–4, so far as they are based upon a design which is believed to be inventive in character.

§ 598.1602–7 *Section 3477, Revised Statutes.* Section 3477, Revised Statutes, as amended (31 U. S. C. 203), provides that all transfers and assignments of any claim (except certain contract claims) upon the United States are absolutely null and void unless made, among other things, after the allowance of the claim, the ascertainment of the amount due and the issuing of a warrant for the payment thereof. In view of certain decisions construing the statute, its provisions will, so far only as concerns claims made under the statutes referred to in §§ 598.1602–1, 598.1602–3 and 598.1602–4, be deemed—

(a) Inapplicable to claims arising under the act of 1948 for compensation on account of articles manufactured for the United States, and articles and methods used in production for the United States (except articles made by the United States).

(b) Applicable to all other claims arising under the statutes referred to in §§ 598.1602–1, 598.1602–3 and 598.1602–4, such, for example, as claims under the act of 1948 for compensation on account of articles manufactured by the United States, or claims under the Invention Secrecy Act or the Air Corps Act for compensation on account of articles manufactured by or for the United States.

§ 598.1603 *General policy.* In order to maintain the good will of United States industry, to encourage invention and the development of the scientific arts related to the National Defense, to dispose of past and avoid future infringement of privately owned rights in inventions and under U. S. Letters Patent, and to avoid litigation and attendant nonproductive time, it is the policy of the Department to settle claims for compensation for past infringement of such invention rights, and also to obtain necessary rights with respect to such inventions in view of contemplated future Departmental procurement, where it is in the Government's interest to do so and when such rights can be obtained at not more than their fair value. To this end, an investigation of each such claim shall be made in accordance with the instructions and procedures set forth in §§ 598.1605–3 through 598.1605–7. If any patent upon which such a claim is based is found to be infringed and is believed to be valid and enforceable, and it is deemed advisable by the Delegate, efforts to settle such claim, before suit against the United States has been instituted, shall be made in accordance with the instructions and procedures set forth in §§ 598.1605–8 through 598.1605–14. Coordination with the Departments of the Navy and the Air Force in the processing and final disposition of each such claim will be effected by the Chief, Patents Division, to such extent as is deemed necessary to avoid unnecessary duplication of work on identical claims received in the Military Establishment, and to settle such of said claims as are valid in a manner in keeping with the interests of each of said Departments involved.

[1] See SPJGP 1943/881, 8 Feb. 1943, page 75, Volume II, Bulletin of the Judge Advocate General, February 1943.

§ 598.1604 *Authority and delegation.*

§ 598.1604–1 *Statutory authority of the Secretary of the Army.* The Secretary is authorized by section 5 of the act of 31 October 1942 (the Royalty Adjustment Act), in his discretion and under such rules and regulations as he may prescribe, to delegate any powers, duties, and authorities conferred by the act to such qualified and responsible officers, boards, agents, or persons as he may designate or appoint. He also is authorized to prescribe such rules and regulations and to require such information as may be necessary and proper to carry out the provisions of the act. Pursuant to the foregoing, the Secretary of the Army has prescribed the rules and regulations set forth in subpart O and subpart P of this part.

§ 598.1604–2 *Delegation of authority.* The Secretary of the Army, or the officers to whom he has delegated the authority, has delegated to the chiefs of the technical services and to certain other officers, boards and persons (herein called "delegates"), as identified and listed in § 598.1501–10, the following power and authority under section 3 of the act of 31 October 1942 (the Royalty Adjustment Act):

> To execute contracts on behalf of the United States before suit against the United States has been instituted, with the owner or licensor of an invention, or of the Letters Patent therefor, effecting a voluntary adjustment of royalties charged or chargeable to the United States, or in settlement and compromise of any claim against the United States accruing to such owner or licensor under the provisions of the Act or any other law by reason of the manufacture, use, sale or other disposition of an invention or for compensation to be paid such owner or licensor based upon future manufacture, use, sale, or other disposition of such invention, • • •

subject, however, to the approval of the Chief, Purchases Branch, Office of the Assistant Chief of Staff, G–4, in each case where that approval is required by § 598.1605–12.

§ 598.1605 *Prescribed regulations.*

§ 598.1605–1 *Appointment and composition of boards.* (a) Where the power and authority set forth in § 598.1604–2 has been or is hereafter delegated to a board, the said board shall, unless otherwise provided in the instrument of delegation, consist of three officers or employees of the Procuring Activity concerned, who shall be designated by name. Unless otherwise provided in the instrument of delegation, (1) a majority of said board shall determine its action, (2) any instrument or contract whatsoever evidencing action taken by the board may be signed in its name by any member of the board, and (3) any two members of such board shall constitute a quorum.

(b) Appointment of all such boards or of new personnel to such boards shall be upon request made to the officer having appointing authority (see § 598.1501–9). Such request shall include the name, rank or grade, and a brief statement of qualifications with respect to each officer or employee to whom the delegation is desired. The appointing officer may appoint any commissioned officer of the Department within his command, or any civilian employee in the Department within his jurisdiction, whom he deems to be responsible and qualified by reason of having had substantial business or legal experience in procurement or patent matters.

(c) The name of the board shall be specified in the request for the appointment, and in the instrument appointing such board.

§ 598.1605–2 *Duties of chiefs of technical services.* (a) The chief of each technical service, or such other delegate within his service as he may designate, is charged with the duty of taking appropriate action with respect to each such claim pertaining to the procurement responsibilities of his service promptly after knowledge thereof is brought to his attention where either such a claim has been made or may be reasonably anticipated. Such action includes the following:

(1) Writing the claimant or his representative acknowledging receipt of the communication in which such claim is asserted. An authorized form of acknowledgment is set forth in § 598.1605–4.

(2) Requiring the representative of the claimant to file in duplicate, a Notice of Appearance in the form prescribed by paragraph (b) of § 583.1 of this title.

(3) Transmitting direct to the Chief, Patents Division, OJAG, a copy of the communication in which any such claim is asserted or reported.

(4) Requesting clearance from the Chief, Patents Division, OJAG, to investigate and settle each such claim pursuant to § 598.1605–5.

(5) Investigating each such claim upon clearance from the Chief, Patents Division, OJAG, and, if deemed appropriate by the Delegate, settling the same pursuant to paragraphs §§ 598.1605–8 through 598.1605–14.

(6) Preparing and transmitting to the Chief, Patents Division, OJAG, pursuant to § 598.1605–6, a report containing the full statements required by the act requiring reports to the Attorney General (see § 598.1602–5) with respect to each such claim in which no settlement is effected.

(7) Making the required distribution of each contract of settlement or partial settlement of such claim pursuant to § 598.1605–14.

(b) The actions as set forth in paragraph (a) of this section, and wherever referred to in these sections, may be performed by an authorized representative of the delegate, except for the execution of contracts entered into pursuant to paragraph (a) (5) of this section, and the execution of reports prepared pursuant to paragraph (a) (6) of this section.

§ 598.1605–3 *Reporting of claims.* The chief of each technical service shall issue necessary instructions to all officers and employees of his service to provide for prompt submission, to the chief legal or patent officer in the headquarters of his service, of (a) all communications received in his service asserting such claims, and (b) all reports received by Contracting Officers in his service from Contractors under § 408.102 of this title of such claims relating to the alleged manufacture, use, sale, or other disposition of inventions by or for the Government. All communications asserting claims received by other agencies of the Department shall be sent to the Chief, Patents Division, OJAG, who will forward the same for processing under these sections, to the chief legal or patent officer of the technical service which appears to have the dominant interest in the claim.

§ 598.1605–4 *Correspondence with claimant.* No delegate shall concede in writing, addressed to any claimant, potential claimant, or the representative of either, the merit or value of such claim, except so far as such concession may be embodied in an agreement executed by the United States in settlement and compromise thereof in compliance with the pertinent sections hereof. This is in keeping with the policy of the Department of the Army to furnish no information which might be used as the basis or in support of a claim against the Government. Upon receipt of a notice of infringement, the delegate shall acknowledge receipt thereof. The following form of letter is authorized for that purpose, subject to such modifications as may be required by the nature of the claim presented:

[Letterhead of Delegate]

[Date]

JOHN DOE,
Title Guarantee Building,
Miami, Florida.

DEAR SIR:

Your letter to _____ dated _____ 19__, stating that United States Letters Patent No. ------, granted (date of patent), to (patentee's full name), of (city and state), for "(title of invention)", is (are) infringed by (item or process) allegedly being used by the Department of the Army, has been referred to this office for necessary action and direct reply.

I am directed by the Secretary of the Army to inform you that the matter presented in your letter will be carefully investigated and that you will be informed of the Department of the Army's conclusions upon completion of such investigation.

To aid in such investigation, it is requested that you furnish this office as promptly as possible the following information and material:

(1) Copy of the file wrapper and contents of the patent(s) in question.

(2) Copies of all patents and publications cited by the Patent Office during the prosecution of the application(s) for such patent(s).

(3) The names and addresses of licensees, if any.

(4) Copies of license agreements.

(5) Brief statement of any litigation in which the patent(s) have been or are now involved.

(6) List of all notices of infringement which you have sent to alleged infringers of the patent (except the alleged infringers included in your statement of litigation), including but not limited to any other departments and agencies of the Government.

Sincerely yours,

[Signature of Delegate]

§ 598.1605–5 *Clearance to investigate.* (a) Promptly after receipt of a notice or report of such a claim the delegate shall request in writing, from the Chief, Patents Division, OJAG, clearance to investigate and to settle the same. So far as practicable, one delegate shall represent the Department in the investigation and settlement of each such claim.

(b) Each request for clearance shall be submitted in eight copies and shall include the following:

(1) The name and address of each claimant or prospective claimant.

(2) The name and address of each Contractor and subcontractor who is believed, to the extent disclosed by a cursory search in the headquarters of the delegate, to have performed the alleged infringing acts.

(3) The number and date of each patent, and the serial number and filing date of each patent application involved.

(4) Description of the alleged infringing subject matter in sufficient detail to permit other procuring services to determine therefrom whether they have an interest in the matter.

(5) A copy of the communication from the claimant, if any.

(6) A copy of the Notice of Appearance required in § 598.1605–2 (a) (2).

(c) The Chief, Patents Division, OJAG, upon receipt of the request for clearance, shall determine (1) from his files, (2) from the Government Register of Patent Rights, U. S. Patent Office (provided for in Executive Order No. 9424, 18 February 1944, 9 F. R. 1959), and (3) from the Department of Justice, whether the Department of the Army or any other department or agency of the Government has investigated or settled, or received a report or notice of, a claim pertaining to the same subject matter, and shall then grant such clearance in writing as appears proper.

(d) Upon granting of the clearance by the Chief, Patents Division, the delegate granted clearance shall, in accordance with § 598.1605–2 (a) (4), proceed on behalf of the Department of the Army to investigate the claim, and, if deemed appropriate by him, to settle the same pursuant to §§ 598.1605–8 through 598.1605–14.

(e) The Chief, Patents Division, OJAG, shall send copies of said request for clearance and of said clearance to the chief patent officer (or the chief legal officer, if there be no chief patent officer) of each of the Procuring Activities of the Department, except those which clearly would have no interest in or information pertinent to the matter. Each such officer to whom said copies are sent shall promptly investigate the procurement in his service and notify the delegate to whom clearance has been issued of the interest, if any, of his service in the matter and of any pertinent information contained in his files. Negative reports should be made when justified by the facts. Where such report by a procuring service to the said delegate refers to procurement of that service which is pertinent to such claim, the report shall include a description (with drawings, where necessary), of the procured matériel sufficient to enable the delegate to determine whether such procurement constitutes infringement under such claim, together with said officer's opinion upon the question of infringement and the reasons therefor. Any chief patent or legal officer notified of the granting of clearance to a delegate, who fails to make the above-mentioned report promptly to such delegate shall be requested in writing by the delegate to render such report. No claim shall be settled by a delegate or a final report upon a nonsettled claim rendered pursuant to § 598.1605–6 until reports are received by said delegate from each chief patent or legal officer notified of the granting of the clearance, unless adequate explanation for the absence of any such report is presented.

§ 598.1650–6 *Final report by delegate where no settlement of claim is made.* A final written report (in duplicate) of the results of the investigation made on behalf of the Department, including recommendations and conclusions of the delegate on behalf of the Department will be made by him to the Chief, Patents Division, OJAG, with respect to each such claim in which (a) settlement is believed to be inadvisable, or (b) the Delegate has been unable to settle upon terms deemed reasonable by him, whether or not such claim is covered by an indemnity agreement. Each such report shall be clearly marked "Legal Memorandum for the Guidance of Administrative Officials," and, in addition, shall bear such military classification marking, if any, as shall be deemed appropriate by the technical service of the delegate in accordance with the provisions of part 505 and part 509 of this title. A copy of such report shall be forwarded by the delegate to the Heads of all the interested Procuring Activities concurrently with transmittal of the original (and duplicate) to the Chief, Patents Division, OJAG. This final report, which is to serve as a basis for compliance with the Act requiring reports to the Attorney General, i. e., Section 188, Revised Statutes (see § 598.1602–5), will include, so far as is relevant and practicable, all of the following information:

(1) Numbers and dates of all contracts and subcontracts for procurement of the item in question, together with the name and address of each Contractor and subcontractor concerned, and the text of each Contractor's agreement, if any, to indemnify the Government against liability for infringement, or a statement that there is no such indemnity agreement. This information is to include contracts of other Procuring Activities and other departments or agencies of the Government involved, if any.

(2) Extent and dates of alleged infringement.

(3) Statement as to whether the Government by a duly authorized agent or official has given its authorization or consent to the manufacture or use of the article, material, design, or process upon which such claim is or will be based.

(4) Statement of effective date of marking or of notice under the Patent Marking Statute, if pertinent. (See § 598.1602–2.)

(5) Copies of patents alleged to be infringed or, in case such claim arises under the Air Corps Act (see § 598.1602–4), claimant's disclosure of his design.

(6) Result of title search, including examination of Government Register of Patent Rights (Executive Order 9424, 18 Feb. 1944).

(7) A full and complete disclosure of the alleged infringing device, material, design, or process (including a detailed description thereof, together with drawings, photographs, and specimens in proper cases) sufficient to determine whether infringement is present.

(8) Report of date and extent of prior art searches in each of the following categories:

(i) Prior art patents and publications.

(ii) Pending applications filed by the service conducting the investigation.

(iii) Prior public uses.

(9) Copies of prior art patents and publications, and full and complete description (and where practicable, a drawing, sketch, photograph, or specimen) of prior uses relied upon by the delegate.

(10) Statement of the extent to which royalties, if any, have been adjusted by the Department under the Royalty Adjustment Act. (See § 598.1602–6.)

(11) Statement as to whether or not the manufacture or use of the invention occurred while the owner of the patent was in the employment or service of the Government.

(12) Statement as to whether or not the patent was based upon an invention made during the time the inventor was in the employment or service of the Government.

(13) Names and addresses of prospective witnesses (fact and expert) and, where pertinent to validity or infringement, signed statements of witnesses. Where a witness refuses to sign a statement, a statement of the interviewing officer setting forth the facts which the witness may be expected to state if called to testify.

(14) Conclusions regarding infringement (with respect to all departmental procurement involved) and reasons therefor.

(15) Conclusions regarding validity and reasons therefor. No conclusions regarding validity need be stated, if the delegate's conclusions given under paragraph (n) of this section are that in his opinion there is clearly no infringement present.

(16) Conclusions regarding Government liability, the estimated money value of the claim, and an estimate of future procurement involving possible increase of the claim.

(17) Summary of unsuccessful negotiations for settlement, if any.

(18) Recommendations.

§ 598.1605–7 *Action and authority of the Chief, Patents Division, OJAG.* (a) The Chief, Patents Division, OJAG, shall coordinate the processing under this subpart of such claims and may request such status reports from the Delegates as are necessary for this purpose.

(b) Upon receipt from a Delegate of a final report under § 598.1605–6, the Chief, Patents Division, OJAG, shall promptly review the same. In each case where a communication has been received in which such a claim is asserted, the Chief, Patents Division, OJAG, shall write a letter to the claimant, or his

representative, stating the final conclusions of the Department with respect to such claim, and shall send copies thereof to the Delegate and the Head of each interested Procuring Activity.

(c) If, upon reviewing the final report, the Chief, Patents Division, OJAG, deems it advisable, he shall make a search of one or more of the following possible sources of additional prior art and, if the results of such search so indicate, he shall make a supplemental report, stating conclusions supplemental to the conclusions stated in the Delegate's final report, and send a copy of such supplemental report to the delegate:

(1) Patent applications which are the subject of secrecy orders under the Invention Secrecy Act (see § 598.1602–3) in which the inventions disclosed therein have been tendered to the Government for its use.

(2) Patent applications filed by procuring services other than the investigating service.

(3) To the extent available, patent applications filed by other departments or agencies of the Government.

(d) If, upon reviewing the Delegate's final report, the Chief, Patents Division, OJAG, disagrees with the conclusions regarding infringement or validity, he shall make a supplemental report stating his supplemental conclusions and send a copy of such supplemental report to the Delegate.

(e) Upon completion of the final report, the Chief, Patents Division, OJAG, shall advise the Attorney General thereof.

§ 598.1605–8 *Available procedure for the settlement of such claims and procurement of invention and patent rights incident thereto.* (a) The Delegate to whom the claim has been cleared may, subject to the availability of appropriations and allotments of funds in his service and subject to such rules and regulations governing the exercise of delegated powers as are or may from time to time be prescribed, settle such claim—

(1) By causing the United States to execute a contract of release, release and license, or release and assignment with the legal and equitable owner(s) providing for a payment or payments aggregating more than $1 to be made by the Government under the provisions of the following sections (see § 598.1606–9 and form suggested therein).

(2) By receiving from the legal and equitable owner(s), or by causing the United States to execute a contract of release, release and license, or release and assignment which does not provide for payments aggregating more than one dollar ($1.00) to be made to the Government. (See § 598.1606–8 and form suggested therein.)

(b) No contract shall be made which includes a release of such a claim, or a license, which will inure to the benefit of a Contractor who has agreed to indemnify the Government (see § 408.105 of this title and § 598.105) by releasing or discharging such Contractor in whole or in part from his obligation of indemnity, unless such Contractor is made a party to the contract and appropriate arrangements are made to the end that the Contractor shall pay all money consideration flowing to the claimant or potential claimant which is attributable to that part of the release or license which benefits the Contractor.

§ 598.1605–9 *Settlement with foreign claimants.* No contract of settlement of patent infringement liability, or other liability for use of inventions, shall be made with a national of lend-lease beneficiary governments, or governments which are within the scope of the Mutual Defense Assistance Program, without first obtaining the written approval of the Chief, Patents Division, OJAG.

§ 598.1605–10 *Fiscal procedures.* (a) An agreement to pay a fixed amount for the purchase of a paid up license and release or an assignment and release, or a release either by way of lump sum payment or an amount determinable at the time of execution of the contract, is subject to the provision that allotment of funds made for supplies will not be exceeded. Officers charged with making contracts will submit, prior to the incurrence of obligations, all proposed contracts to the fiscal officer for verification as to the sufficiency of funds for that purpose. The following statement will be included on the face of the contract:

> The supplies and services to be obtained by this instrument are authorized by, are for the purpose set forth in, and are chargeable to the following allotments, the available balances of which are sufficient to cover the cost of the same.

(b) An agreement to pay running royalties on future procurement proportioned to use is not subject to the provision mentioned in paragraph (a) of this section, nor need the period of payment be limited to the period for which existing appropriations are available. The Comptroller General has ruled (MS. Comp. Gen. A–76676, dated 5 May 1937) that such an agreement takes effect only in connection with, and to the extent of, future procurement under the license, and if such procurement is within appropriations and allotments then existing, they will cover the royalty agreed to be paid in respect thereto.

(c) The annual Military Appropriation Act contains the following provision:

> Appropriations for the military departments available for procurement or manufacture of supplies, equipment, and materials shall hereafter be available for the purchase or other acquisition of (a) copyrights, letters patent, applications for letters patent, (b) licenses under copyrights, under letters patent, and under applications for letters patent, and (c) designs, processes, and manufacturing data; and shall also be available for the purchase or other acquisition of releases, before suit is brought, for past infringement of letters patent. Any such purchase or other acquisition shall pertain to supplies, equipment, materials, or processes produced or used by or for, or useful to, the department concerned.
>
> These funds are available for the payment for releases, licenses, and assignments entered into in accordance with the provisions of these sections: *Provided, however,* That no payment shall be made for the release of such a claim or any portion of such a claim the liability for which is barred by the statute of limitations or by other statute.

(d) In cases where it is determined to be in the interest of the Government to settle such a claim where no funds therefor are available or appropriated, the settlement contract shall be made with the payment being conditioned upon availability of appropriations, and request for appropriations for the purpose shall be made through the appropriate fiscal channels.

§ 598.1605–11 *Disclosure of information to claimants and their representatives.* In order that settlements advantageous to the Government may be secured, any Delegate holding the powers, duties, and authorities of § 598.1604–2, and any authorized representative of such delegate, may, in the performance of his official duties and when he has reason to believe that such action would be to the advantage of the United States, disclose to the claimant, potential claimant, or authorized representative of either, any facts or matter of evidence which appear to bear upon his claim or its value, except as considerations of military security may indicate such disclosure would be inadvisable. (See Judge Advocate General Opinions identified as SPJGA 1944/11256, 25 Oct. 1944 and SPJGA 1945/2553, 9 Mar. 1945.)

§ 598.1605–12 *Contracts requiring approval.* Approval by the Chief, Purchases Branch, Assistant Chief of Staff, G–4, Department of the Army, is required of all contracts made under the provisions of this part whether or not executed by the Government, under the following conditions:

(a) Where the contract provides for total payments by the Government aggregating $25,000 or more.

(b) Where any of the following listed contract clauses are omitted from the class of contract specified for their use, or deviate from the form prescribed or authorized therein:

> "Non-Estoppel" Clause. (See § 598.1606–5.)
> "Protection Against Unjust Payments" Clause (see § 598.1606–6 (f)).
> "Reserved Rights" Clause (see § 598.1606–6 (g)).

(c) The scope of the license with respect to domestic practice is limited to—

(1) A term less than the life of any patent involved.

(2) Any particular governmental purpose.

(3) Less than all governmental agencies on the same terms.

(4) Disposition rights otherwise than according to law.

(d) Where the rights obtained are a release of past information only.

(e) In contracts for payment of running royalties, where no provision for termination by the Government is included, or where the period in which such termination may be made is longer than one year.

(f) If the contract conveys to the Government license rights under an issued patent and does not contain a release of past infringement of substantially the same scope as the contract clause prescribed in § 598.1606–4.

§ 598.1605–13 *Submission of contracts for approval.* (a) When a contract made under the provisions of these sections requires the approval of the Chief, Purchases Branch, Assistant Chief of Staff, G–4, it shall be submitted to that office, with the number of copies desired approved and returned. There shall also be submitted with the contract a memorandum of facts signed by the delegate containing the following:

(1) Identification and brief description of the subject matter of the patent, patent application, or invention involved in the claim being settled.

(2) Date of clearance from the Chief, Patents Division, OJAG, to investigate and to negotiate settlement of the claim, if deemed advisable.

(3) A brief statement of the delegate's conclusions regarding validity and infringement and the reasons therefor.

(4) A statement of the extent of Government use of the invention(s), including the estimated money value of the claim, if any, and an estimate of future procurement, if any, involving possible increase of the amount of the claim.

(5) Specific reference to the sections of this chapter which require the approval of the contract.

(6) Reasons for omission of, or deviation in, any prescribed contract clause, if such be the fact, together with statement of efforts made to obtain inclusion of such contract clause or acceptance thereof in its prescribed form. If there is a deviation in a prescribed contract clause, the deviation shall be pointed out preferably by a composite draft of the clause, showing new material added, by underscoring, and matter deleted, by lining out such deleted matter.

(7) Recommendation that the contract be approved and the reasons therefor.

(b) Concurrently with the above action, there shall be forwarded to the Chief, Patents Division, OJAG, a copy of the contract and said memorandum of facts.

§ 598.1605–14 *Contract numbering and distribution.* (a) The Department will obtain the original and at least one executed duplicate original of each license, assignment, and release made under the provisions of these sections.

(b) Licenses, assignments, and releases which are executed by the Government shall be numbered, if the actual or estimated amount involved is $5,000 or more, or it is contemplated that more than one payment (or receipt) will be involved, regardless of the amount involved.

(c) The original of every license, assignment, and release, except those which do not involve the payment of money to the Contractor, shall be forwarded by the delegate to the Chief, Audit Division, General Accounting Office, Room 506, Old Post Office Building, 12th and Pennsylvania Avenue NW., Washington 25, D. C.

(d) The original or the executed duplicate original of every license, assignment, and release, together with a second copy (photostatic preferred), shall be transmitted without delay by the delegate to the Chief, Patents Division, OJAG, for recording in the United States Patent Office under Executive Order 9424, 18 February 1944 (9 F. R. 1959), and for permanent filing thereafter. In transmitting each such instrument for recording, the delegate will indicate in which of the following three Government registers maintained by the Patent Office, the instrument should be recorded:

(1) The register open to examination by the general public.

(2) The register available for examination and inspection only by duly authorized representatives of the Government.

(3) The secret register, access to which may be had only upon written authority from the head of the department or agency which submitted the instrument and requested secrecy (9 F. R. 4159).

(e) Each instrument shall be forwarded for recording with a memorandum or letter setting forth the following information:

(1) The name of the claimant and the name of the releasor, licensor, or assignor.

(2) The patentee or inventor's name.

(3) The number of the patent or serial number of the patent application involved.

(4) Date of issue of the patent or filing date of the application.

(5) Date of clearance from the Chief, Patents Division, OJAG, to investigate and settle the claim involved. (See § 598.1605–5.)

(6) A statement that the instrument effects settlement of the claim for which the above clearance was granted.

(f) A copy of each license which provides for the payment of running royalties shall be transmitted by the delegate to each of the Heads of the Procuring Activities for the attention of the chief legal or patent officer thereof. Receipt of such copy shall place the recipient Head of a Procuring Activity on notice that future procurement of the licensed subject matter requires the payment of royalties to the licensor. (See § 598.1606–6 (c).) Heads of the Procuring Activities shall notify, or cause to be notified, procurement and price analysis offices affected.

§ 598.1606 *Contract clauses and forms.* The following contract clauses and forms are applicable to contracts for the settlement of infringement claims.

§ 598.1606–1 *Mandatory contract clauses.* The following clauses shall be used in all contracts except as otherwise indicated in the instructions preceding the clause.

(a) The "Officials Not to Benefit" clause (see § 406.103–19 of this title) in every license, assignment, and release which is executed by the Government.

(b) The "Covenant against Contingent Fees" clause (see § 406.103–20 of this title) in every license, assignment, and release which is executed by the Government.

(c) The "Assignment of Claims" clause (see § 406.103–8 of this title) if the contract provides for payments by the Government aggregating $1,000 or more.

(d) The "Nondiscrimination in Employment" clause (see § 406.103–18 of this title) if the performance of the contract involves the employment of persons by the Contractor.

(e) The "Disputes" clause (see § 406.103–12 of this title) if the contract calls for payments by the Government aggregating $20,000. This clause is recommended for inclusion in contracts of smaller amount.

§ 598.1606–2 *The license grant clauses.* The contract clauses set forth in this section are suggested forms for expressing the license grant:

(a) The following clause is suggested for all contracts except those for the payment of running royalties:

> LICENSE
>
> (a) Contractor agrees to and does hereby grant and convey to the Government, an irrevocable, nonexclusive, nontransferable and paid up license under the following patent(s) [and application(s) for patent] to practice and cause to be practiced for the Government any and all of the inventions thereof in the manufacture, use and disposition of any article or material, and in the use of any method, in accordance with law:
>
> U. S. Patent No. ---------- Date ----------
> Application Filing
> Serial No. ---------- Date ----------
>
> [together with corresponding foreign patents and applications for patent, insofar as Contractor has the right to grant licenses thereunder].
>
> (b) Nothing contained herein shall limit any rights which the Government may have obtained by virtue of prior contracts or by operation of law or otherwise.

(b) In contracts requiring the payment of running royalties, the license ordinarily will be limited by licensor to the Department or agency agreeing to pay royalties. The following contract clause is designed for this purpose:

> LICENSE
>
> (a) Contractor agrees to and does hereby grant and convey to the Government, as represented by the Secretary of the Army, an irrevocable, nonexclusive, nontransferable license under the following patent(s) [and application(s) for patent] to practice by the Department of the Army and cause to be practiced for the Department of the Army any and all of the inventions thereof in the manufacture, use and disposition of any article or material, and in the use of any method, in accordance with law:
>
> U. S. Patent No. ---------- Date ----------
> Application Filing
> Serial No. ---------- Date ----------
>
> [together with corresponding foreign patents and applications for patent, so far as Contractor has the right to grant licenses thereunder].
>
> (b) Nothing contained herein shall limit any rights which the Government may have obtained by virtue of prior contracts or by operation of law or otherwise.

§ 598.1606–3 *The license term clauses.* The contract clauses set forth in this section are suggested forms for expressing the license term.

(a) One or the other of the following alternative clauses is suggested for all contracts except those for the payment of running royalties. Alternate A is for the full term of the patent and Alternate B contains provisions necessary for the protection of the Government where there is a right to terminate the license short of the full term of the patent:

[ALTERNATE A]

TERM

The license hereby granted shall remain in full force and effect for the full term(s) of the patent(s) referred to above [and any and all patents hereafter issued on applications for patent referred to above].

[ALTERNATE B]

TERM

The license hereby granted shall terminate on the _____ day of _____, 19__; *Provided, however,* That said termination shall be without prejudice to the completion of any contract entered into by the Government prior to said date of termination or to the use or disposition thereafter of any articles or materials manufactured by or for the Government under this license.

(b) The following clause is for use in contracts for the payment of running royalties which must necessarily include the right to terminate on the part of the Government:

TERM

The license hereby granted shall remain in full force and effect for the full term(s) of the patent(s) referred to above [and any and all patents hereafter issued on applications for patent referred to above] unless sooner terminated as elsewhere herein provided.

§ 598.1606–4 *Release of past infringement clause.* The following clause shall be included in all contracts granting rights to the Government under a patent already issued, made under the provisions of these sections:

RELEASE OF PAST INFRINGEMENT

Contractor agrees to and does hereby release each and every claim and demand which Contractor now has or may hereafter have against the Government, its officers, agents, servants and employees, for infringement by or for the Government of [(1)] any of the patents and applications for patent specifically identified in this contract, [(2) and any other patent or application for patent now owned or hereafter acquired by Contractor, insofar as and to the extent only as such other patent or patent application covers the manufacture, use or disposition of (description of subject matter)], by reason of the manufacture, use, sale, or other disposition of any article or material, or the use of any process covered by said patents or applications for patent, occurring prior to the date of this contract, and by reason of the use, sale, or other disposition thereafter of any article or material manufactured or contracted for prior to the date of this contract.

NOTE. Bracketed portions of the foregoing clause may be omitted when not appropriate or not encompassed by the release as negotiated.

§ 598.1606–5 *Non-estoppel clause.* The following clause shall be included in all contracts made under the provisions of these sections, except that it may be omitted when the consideration payable by the Government for the contract is not more than $1.00 and the contract conveys to the Government (i) a release of not substantially less scope than that contained in § 598.1606–4, and (ii) a license for the full term of the licensed patents and patents issued on the patent applications or an assignment of not substantially less scope (except for foreign rights) than that contained in § 598.1606–7.

NONESTOPPEL

Contractor agrees that the Government shall not be estopped at any time to contest the enforceability, validity or scope of, or the title to, any patent or patent application herein licensed,[1] [but this provision shall not be deemed to modify or avoid the obligation of the Government to pay royalties as elsewhere herein provided].[2]

§ 598.1606–6 *Contracts providing for the payment of a running royalty.* The following instructions and provisions are special to contracts providing for the payment of a running royalty:

(a) Since the license requires the payment of royalties based upon procurement, and is not to be available to other agencies of the Government except upon the conditions specified in paragraph (e) of this section, the license grant is appropriately limited to the practice of the invention by or for the Department. For the appropriate "License Grant" clause, see § 598.1606–2 (b).

(b) The license term shall be made terminable by the Government. It may be terminable on conditions such as specified in the "Reserve Rights" clause (see paragraph (g) of this section), or on giving of a specified period of notice, or at fixed times. In any event, it shall contain the right to the Government to terminate at the expiration of six months. For the appropriate "License Term" clause, see § 598.1606–3 (b).

(c) *Computation of royalties.* The contract clause providing for the computation of royalties may be of varying scope. The following alternative clauses are suggested (Alternate A is based upon a percentage of the cost of the articles or materials; Alternate B is based upon a fixed amount per item):

COMPUTATION OF ROYALTIES

[ALTERNATE A]

Royalties shall accrue under this contract in favor of Contractor, subject to payment thereof at the times and subject to the limitation hereinafter stated on all articles or materials embodying or manufactured by the use of any or all of the inventions licensed herein, upon acceptance thereof by the Department of the Army (whether made by or for the Department of the Army), at the rate of ____ percent of the Cost (as hereinafter defined) of such articles or materials to the Government. "Cost," as used in this paragraph means (1) in respect of articles or materials purchased by or for the Department of the Army, the purchase price of such articles or materials, except that in cost-plus-fixed-fee contracts it means the estimated cost as defined in such contract, and (2) in respect of articles or materials made by the Department of the Army, the actual cost of direct labor and materials without allowance for overhead or supervision.

[ALTERNATE B]

Royalties shall accrue under this contract in favor of Licensor, subject to payment thereof at the times and subject to the limitation hereinafter stated, on all articles and materials embodying or made by the use of any or all of the inventions licensed herein, upon acceptance thereof by the Department of the Army (whether made by or for the Department of the Army), at the rate of ____ (¢) cents per [name of item].

(d) *Reporting and payment of royalties.* (1) The contract must contain a provision designating the chief of the technical service of the Delegate as the officer designated to make reports to the Contractor of the extent of use of the licensed subject matter by the entire Department, and such chief shall be charged with the responsibility of obtaining from all Procuring Activities the information necessary to make the required reports and the corresponding vouchers to make the required payments. The following clause is suggested for this purpose:

REPORTING AND PAYMENT OF ROYALTIES

(a) The [chief of technical service] shall, on or before the 60th day next following the end of each half yearly period ending June 30 and December 31 during which royalties have accrued under this license, deliver to Contractor a report in writing stating the number of articles and the amounts of materials accepted by the Department of the Army during said half yearly period on which royalties have accrued under this contract, and the Cost thereof.

(b) Royalties which have accrued under this contract during each half yearly period ending June 30 and December 31 shall be paid to Contractor, provided appropriations therefor are available, within 60 days next following the end of each such period; provided, however, that the Government shall not be obligated to pay, in respect of any such half yearly period, an amount greater than _____ ($_____) dollars.

(2) In the event military security prohibits the disclosure of the quantity of production by reports or payments to the Licensor the Delegate may negotiate an appropriate substitute for the suggested "Royalties" Clause, for example, agreed lump sum yearly or half yearly payments with final settlement in accordance with actual production to be made within six months after termination of hostilities.

(3) Note § 598.1605–14 (f) for instructions concerning furnishing copy of license to each Procuring Activity.

(e) *License to other Government agencies.* No department other than the Department of the Army shall be committed to such obligation unless the contract has been signed in behalf of each other department or agency of the Government similarly obligated. The following clause may be included in each contract of this type to accomplish the foregoing purpose:

LICENSE TO OTHER GOVERNMENT AGENCIES

(a) Contractor hereby agrees to grant a separate license under the patents, applications for patents, and improvements referred to in Article 1 hereof, on the same terms and conditions as appear in this license, to any department or agency of the Government other than the Department of the Army at any time on receipt of written request for such a license from such department or agency, provided, however, that as to royalties which accrue under such separate licenses, reports and payments will be made by such department or agency directly to Contractor and not by the [Head of Procuring Activity]. Contractor shall notify the [Head of Procuring Activity] promptly upon receipt of any request for license hereunder.

(b) When two or more departments or agencies shall have subscribed to this license, such agencies shall jointly make the report of royalties called for by subparagraph (a) of Article _____. The royalties payable by such departments or agencies shall be combined for the purpose of computing the Government's total half yearly obligation as set forth in subparagraph (b) of Article _____. When such combined royalties exceed the said total half yearly obligation, each Department or agency shall pay the pro rata share of the said total half yearly obligation as determined by the proportion its accrued royalties bear to the combined total of accrued royalties.

(f) *Protection against unjust payments.* The following clause shall be included in each contract providing for the payment of running royalties:

PROTECTION AGAINST UNJUST PAYMENTS

(a) If any license has been or shall hereafter be granted under substantially the same patents and authorizing substantially the same acts which are authorized under this contract within the United States, on royalty terms which are in any respect more favorable to the licensee than those contained herein, the Government shall be entitled to the benefit of such more favorable terms with respect to all royalties accruing under this license after the date such more favorable terms become effective, and Contractor shall promptly notify the Secretary of the Army in writing of the granting of such more favorable terms.

(b) The Government shall have the right, notwithstanding any other provision of this contract, to terminate the within license by giving notice in writing to Contractor specifying a date when such termination is to be effective; termination of said license in the manner aforesaid may, as specified in such notice, take effect either in whole or insofar as said license applies to any specified service or command of the Department of the Army or to any specified article, material or method, or to the extent that rights are granted under any specified patent or the specified claims of any patent; and if any part of the said license is thus terminated the rights of the Government to enjoy or to terminate other parts thereof shall be in no wise prejudiced thereby.

(c) In the event any claim of any patent hereby licensed is construed or held invalid by decision of a court of competent jurisdiction, the requirement to pay royalties under this contract insofar as it arises solely by reason of such claim, and any other claim not materially different therefrom, shall be interpreted in conformity with the court's decision as to the scope or validity of such claims; provided, however, that in the event such decision is modified or reversed on appeal, the requirement to pay royalties under this license shall be interpreted in conformity with the final decision rendered on such appeal.

(g) *Non-estoppel variation.* See § 598.1606–5 for variation in form of this clause for use in contracts providing for the payment of running royalties.

§ 598.1606–7 *Assignments.* The following contract provision and instructions are special to contracts of assignment of patent rights to the Government:

(a) A suggested title-transferring or assignment clause is set forth in this section. The bracketed portions of the clause may be omitted when such portions are not appropriate.

ASSIGNMENT

Contractor agrees to and does hereby sell, assign, and transfer to the Government and its assigns, as represented by the Secretary of the Army, the entire right, title and interest in and to the following patent(s) [and application(s) for patent], in and to the invention(s) thereof, and in and to all claims and demands whatsoever for infringement thereof heretofore occurred, the same to be held and enjoyed by the Government through its duly appointed representatives to the full end of the term of said patent(s) [and to the full end of the term(s) of all patents which may be granted upon said application(s) for patent or upon any division, renewal or continuation thereof] as fully and entirely as the same would have been held by Contractor had this assignment not been made:

U. S. Patent No.

_____

_____

U. S. Application Serial No.

_____

Date	*Name of Inventor*
_____	_____
_____	_____
Filing Date	*Name of Inventor*
_____	_____

[together with corresponding foreign patents and applications for patent, insofar as Contractor has the right to assign the same.]

(b) To facilitate proof of the contract the acknowledgment of each Contractor should preferably be executed by a notary public or other officer to administer oaths under section 1750 of the Revised Statutes (22 U. S. C. 131). (See Rule 331 of the Rules of Practice in the United States Patent Office, 1 March 1949.)

§ 598.1606–8 *Unilateral contract form; gratuitous grants.* (a) Numerous patent owners, for the purpose of assisting national defense, have, voluntarily and also upon the request of the Government, granted and are continuing to grant releases, royalty-free licenses and assignments to the Government to practice the inventions secured by their patents and applications for patent. Under these conditions or when the payment to be made by the Government under the contract do not aggregate more than $1.00, it is unnecessary for the Government to execute the contract, but in the event it is executed by the Government the appropriate mandatory articles must be included. (See § 598.1606–1.)

(b) The following unilateral contract form for such gratuitous grants is suggested:

DEPARTMENT OF THE ARMY

PATENT RELEASE AND LICENSE CONTRACT

This Contract, made this ____ day of _____ 195__, by _____ (hereinafter called Contractor),[1] a corporation organized and existing under the laws of the State of _____[1] a partnership consisting of _____[1] an individual trading as _____ of the City of _____ in the State of _____ in favor of the United States of America (hereinafter called the Government), as Promissee, witnesseth that

"Whereas, to aid the national defense and promote the common welfare, numerous patent owners have, upon request of the Government, granted and are continuing to grant releases and royalty-free licenses to the Government to practice the inventions secured by their patents and applications for patents (hereinafter called 'such inventions'),

"Whereas, the Government has utilized many such inventions for the purposes aforesaid and is desirous of obtaining further releases and royalty-free licenses including this release and license, and

"Whereas, this contract is authorized by Section 3 of the Act of October 31, 1942 (Public Law 768—77th Congress 35 U. S. C. 89–96, 1946 edition),

"Now, therefore, in consideration of the premises and of the grant by other patent owners of like releases and licenses to the Government, Contractor has agreed as follows:"

Article 1. [License] [Assignment].

(*a*) Use the clause set forth in § 598.1606–2 (a) for a license.

(*b*) Use the clause set forth in § 598.1606–7 (a) for an assignment.

Article 2. *Term.* Use the clause set forth in § 598.1606–3 (a) for a license. A separate "Term" clause is not required when using the "Assignment" clause of § 598.1606–7 (a).

Article 3. *Release of Past Infringement.* Use the clause set forth in § 598.1606–4.

Article 4. *Non-Estoppel.* Use the clause set forth in § 598.1606–5.

"Successors and Assigns." This contract shall be binding upon Contractor, its successors[2] and assigns.

In witness whereof, Contractor has executed this contract as of the day and year first above written.

§ 598.1606–9 *Bilateral contract form.* The following contract form is suggested for use for licenses, releases, or assignments when a consideration of more than $1.00 is to be paid by the Government:

Contract No. ____
Negotiated

DEPARTMENT OF THE ARMY

PATENT RELEASE AND LICENSE CONTRACT

This Contract, entered into this ____ day of _____, 195__, by the United States of America (hereinafter called the Government), and _____ (hereinafter called Contractor),[1] a corporation organized and existing under the laws of the State of _____[1] a partnership consisting of _____[1] an individual trading as _____ of the City of _____ in the State of _____ witnesseth that

"Whereas, Contractor warrants that it has the right to grant the within license and

[1] The word "licensed" is appropriately changed to "assigned" in assignment contracts.

[2] The bracketed part is to be omitted except in contracts for payment of running royalties.

[1] Delete all lines which do not apply.

[2] When Contractor is an individual, change "successors" to "heirs"; if a partnership, modify appropriately.

release, and the Government desires to procure the same,

"Whereas, this contract is authorized by Section 3 of the Act of October 31, 1942 (Public Law 768, 77th Congress, 35 U. S. C. 89–96, 1946 edition).

"Now, therefore, in consideration of the grant release and agreements hereinafter recited the parties have agreed as follows:"

Article 1. [License Grant] [Release] [Assignment].

(Use the clause set forth in § 598.1606–2 (a) for paid-up license.)

(Use the clause set forth in § 598.1606–2 (b) for a license on a running royalty basis.)

(Use the clause set forth in § 598.1606–4 for a Release only.)

(Use the clause set forth in § 598.1606–7 for an assignment.)

Article 2. *Term.*

(Use the appropriate alternative clause of § 598.1606–3 (a) for a paid-up license.)

(Use the clause of § 598.1606–3 (b) for a license on a running royalty basis.)

(A "Term" provision is never required for a Release. In a Contract of Assignment, the "Term" is set forth in the "Assignment" clause required by § 598.1606–7 (a) of this subpart.)

Article 3. *Release of past infringement.* Use the clause set forth in § 598.1606–4 where this is in addition to a license or an assignment.

Article 4. *Non-Estoppel.* Use the clause set forth in § 598.1606–5.

Article 5. *Payment.*

(1) Use the following clause for a paid-up license, release or assignment:

"Article 5. Payment.

Contractor shall be paid the sum of ------ ($------) Dollars in full compensation for the rights herein granted and agreed to be granted."

(2) For a license on a running royalty basis, use the appropriate alternative clause from § 598.1606–6 (c), and also use the clauses as specified in §§ 598.1606–6 (d) to 598.1606–6 (g).

Article 6. *Officials not to Benefit.* (See § 406.103–19 of this title.)

Article 7. *Covenant Against Contingent Fees.* (See § 406.103–20 of this title.)

Article 8. *Assignment of Claims.* (See § 406.103–8 of this title.)

Article 9. *Non-Discrimination Clause.* (See § 406.103–18 of this title.)

Article 10. *Disputes Clause.* (See § 406.103–12 of this title.)

Article 11. *Successors and Assigns.*

"This agreement shall be binding upon Contractor, its successors[2] and assigns, but nothing contained in this Article shall authorize an assignment of any claim upon the Government otherwise than as permitted by law."

"In witness whereof, the parties hereto have executed this contract as of the day and year first above written.

SUBPART Q—PROCUREMENT OF INVENTION AND PATENT RIGHTS

§ 598.1700 *Scope of Subpart.* This subpart sets forth the policy of the Department, applicable statutes, administrative requirements and procedures, and other pertinent information pertaining to the procurement of invention and patent rights, except as an incident to the settlement of claims for the use of inventions which is provided for in Subpart P of this part. This subpart also includes suggested contract forms for the procurement of the aforementioned rights, and mandatory and suggested articles to be used in said contracts. (See § 598.150 pertaining to this subject.)

§ 598.1701 *Definitions.* As used in this subpart, the following terms have the meanings set forth below:

§ 598.1701–1 *Chief, Patents Division, OJAG.* The term "Chief, Patents Division, OJAG" means the Chief, Patents Division, Office of The Judge Advocate General, Department of the Army, Washington 25, D. C.

§ 598.1701–2 *Delegate.* The term "delegate" means any office, board, agency or officer to whom the powers, duties, and authorities set forth in § 598.1604–2 have been delegated.

§ 598.1701–3 *Proffered license or assignment.* "Proffered License or Assignment" means a license or an assignment which is offered to the Department by the owner of an invention.

§ 598.1701–4 *Proposed license or assignment.* "Proposed License or Assignment" means a license or assignment the acquisition of which is initiated or proposed to the owner by the Department.

§ 598.1702 *Applicable statutes.*

§ 598.1702–1 *The Royalty Adjustment Act.* This Act (see § 598.1602–6), among other things, authorizes the head of any department or agency of the Government to enter into an agreement with the owner of an invention (whether patented or unpatented) for compensation to be paid such owner based upon contemplated future manufacture, use, sale, or other disposition of such invention by or for the Government. Such agreements, however, are subject to the approval of the Chief, Purchases Branch, Office, Assistant Chief of Staff, G–4, in each case when that approval is required by § 598.1705–8.

§ 598.1702–2 *Annual National Military Establishment Appropriation Act.* The annual military appropriation act contains the provision quoted in § 598.1605–10 (c) relating to the availability of funds appropriated thereby for the purchase of licenses (with or without a release from liability for any past infringement) and assignments (with or without a release) entered into in accordance with the provisions of this subpart: *Provided, however,* That no part of any such payment shall be made for a release from liability for any past infringement for which recovery is barred by the statute of limitations or other statute.

§ 598.1703 *General policy.* In order to avoid infringement of privately owned rights in inventions and under United States patents and to avoid litigation and attendant nonproductive time, the policy of the Department is to obtain necessary rights under patents and applications for patents which are pertinent to contemplated future procurement activities, in cases where it is in the interest of the Government to do so and the desired rights can be obtained at not more than their fair value. In furtherance of this policy (a) each license or assignment of rights under patents or applications for patents proffered to the Department by the owner thereof, and (b) each license or assignment proposed by the Department, shall be processed for consideration on behalf of the Department in accordance with the instructions contained in such of §§ 598.1705–2 through 598.1705–5 as are applicable to the particular type of license or assignment (proffered or proposed). If, following such consideration, it is believed that any patent included in such license or assignment covers contemplated procurement and is valid and enforceable, and it is deemed advisable by the delegate or the Contracting Officer to whom the matter has been cleared, efforts shall be made to consummate an appropriate license or assignment with said owner pursuant to the instructions and procedures set forth in §§ 598.1705–6 through 598.1705–10.

§ 598.1704 *Authority and delegations.* The statutory authority of the Secretary of the Army to delegate his power to enter into license and assignment agreements, as set forth in §§ 598.1702–1 and 598.1604–2 and to prescribe necessary rules and regulations in this connection, is stated in § 598.1604–1. Section 598.1501–10 lists the offices, boards, agencies; and officers (herein called "delegates") to whom such power has been delegated. The prescribed rules and regulations appear in the following sections.

§ 598.1705 *Prescribed regulations.*

§ 598.1705–1 *Duties of the Chiefs of Technical Services.* (a) The chief of each technical service, or such other delegate within his service as he may designate, is charged with the duty of taking appropriate action with respect to each Proffered or Proposed License or Assignment pertaining to the procurement responsibilities of his service promptly after knowledge thereof has been brought to his attention. Such action includes—

(1) Writing the invention owner or his representative, in the case of a Proffered License or Assignment, acknowledging receipt of the communication in which the license is proffered (a suggested form of acknowledgment appears in § 598.1705–3); In the case of a Proposed License or Assignment, writing the invention owner, at the appropriate time, to ascertain the terms upon which the Proposed License or Assignment may be obtained.

(2) Requesting clearance from the Chief, Patents Division, OJAG, to consider each Proffered or Proposed License or Assignment and to procure such License or Assignment on behalf of the Department, pursuant to § 598.1705–4.

(3) Considering each such Proffered License or Assignment upon clearance from the Chief, Patents Division, OJAG, and, if deemed appropriate by the delegate, procuring such Proffered or Proposed License or Assignment pursuant to §§ 598.1705–6 through 598.1705–10.

(4) Preparing and transmitting to the Chief, Patents Division, OJAG, pursuant to § 598.1705–5, a final report with respect to each such Proffered or Proposed License or Assignment which is not procured.

(5) Effecting the required distribution of each such Proffered or Proposed License or Assignment procured, pursuant to § 598.1705–10.

(b) The actions specified in paragraph (a) of this section and wherever referred to elsewhere in these sections, may be performed by an authorized representative of the delegate, including Contracting Officers.

§ 598.1705–2 *Reporting of proffered and contemplated licenses and assignments.* The chief of each technical service shall issue necessary instructions to all officers and employees of his service to provide for prompt submission to the chief legal or patent officer in the headquarters of his service of (a) all communications received in his service from patent owners proffering licenses and assignments, and (b) all contemplated licenses and assignments initiated in his service which it is proposed be procured from the owners of inventions by the Department. All communications proffering licenses and assignments received by other agencies of the Department (e. g., The Adjutant General's Office, boards and committees not under the jurisdiction of the procuring services, etc.) shall be sent to the Chief, Patents Division, who will forward the same, for processing under these sections, to the chief legal or patent officer of the procuring service appearing to have the principal interest in the license or assignment. Such other agencies shall issue necessary instructions in this connection.

§ 598.1705–3 *Correspondence with invention owner or his representative.* Upon receipt of a communication from an invention owner or his representative, proffering a license or an assignment, the delegate shall acknowledge receipt thereof. The following form of letter is suggested for such purpose, subject to such modifications and additions as may be required by the nature of the license or assignment offered and the desire, if any, of the delegate for additional information to aid in considering the offer, such as the names and addresses of any licensees, copies of their license agreements, etc.:

[Letterhead of Delegate]
[Date]

JOHN DOE,
Title Guarantee Building
Miami, Florida

DEAR SIR:

Your letter to ---------- dated ---------- 19--, offering [to grant a nonexclusive license to (the Department of the Army) under][1] [to assign to the Government the entire right, title, and interest in][1] U. S. Letters Patent No. ------, granted (date of patent), to (patentee's full name), of (city and State), for "(Title of Invention)", at suitable terms to be agreed upon, has been referred to this office for necessary action and direct reply.

I am directed by the Secretary of the Army to inform you that your offer will be carefully considered and that you will be notified of the Department of the Army's conclusions in this connection upon completion of such consideration.

Sincerely yours,
[Signature of Delegate]

§ 598.1705–4 *Clearance to consider and procure licenses and assignments.* (a) Promptly after (1) receipt of a communication proffering a license or an assignment, or (2) a determination has been reached to endeavor to obtain a license or an assignment from a patent owner, the delegate shall request in writing from the Chief, Patents Division, OJAG, clearance to consider and procure such Proffered or Proposed License or Assignment on behalf of the Department.

(b) Each request for clearance shall be submitted in 8 copies and shall include the following:

(1) The name and address of the invention owner.

(2) The number and date of each patent and the serial number and filing date of each patent application involved, and the inventor's name.

(3) A copy of the communication from the patent owner (or his representative) making the offer, if any.

(4) Description of the subject matter of the patent (or application) in such detail to permit other Procuring Activities to determine therefrom whether they have any interest in the matter.

(5) A résumé of the nature and terms of the Proffered or Proposed License or Assignment, and a copy of such License or Assignment, if any.

(6) The names of any other Procuring Activities of the Department which might be interested in the Proffered or Proposed License or Assignment, and a statement as to the probable interest of the Departments of the Navy and the Air Force in the matter.

(7) Any other pertinent information to aid other possibly interested Department of Defense agencies in determining whether they have any interest in the matter.

(c) The Chief, Patents Division, OJAG, upon receipt of the request for clearance, shall determine from his files whether the Government has any license or other interest in the title to any patent or patent application involved, and shall then grant such clearance in writing as appears proper, including therein any pertinent information in his files.

(d) Upon the granting of such clearance to a delegate, the delegate shall in accordance with § 598.1705–1 (a) (3) and on behalf of the Department, proceed to consider the Proffered or Proposed License or Assignment and, if deemed advisable by him, following coordination with any other interested Department of Defense agencies, to procure the same pursuant to the provisions of §§ 598.1705–6 through 598.1705–10.

(e) The Chief, Patents Division, OJAG, shall send copies of said request for clearance and of the clearance to the chief patent officer (or the chief legal officer if there be no chief patent officer) of each of the Procuring Activities of the Department, excepting those which clearly would have no interest in the matter, but including any such services referred to by the delegate in the clearance request. Each such officer to whom said copies are sent shall promptly inform the delegate to whom clearance has been issued of the interest, if any, of his service in the matter and of any pertinent information in his file (negative reports should be made when justified by the facts). The Chief, Patents Division, OJAG, also shall send copies of said clearance request and clearance to the Deputy Chief of Naval Research for Patents, Office of the Chief of Naval Research, Department of the Navy, and to the Chief, Patents Branch, Office of the Judge Advocate General, Department of the Air Force, together with a request that said delegate be informed promptly of the interest, if any, of their Departments in the matter, and of any pertinent information in their files, in order to avoid unnecessary duplication of work on corresponding Proffered and Proposed Licenses and Assignments in the Department of Defense and to endeavor to procure licenses and assignments in keeping with the interests of all of said Departments involved.

(f) Any chief patent or legal officer notified of the granting of clearance to a delegate who fails to make the above-mentioned report promptly to such delegate, shall be requested in writing by the delegate to render such report. The delegate shall make similar requests of the Departments of the Navy and the Air Force in the absence of prompt reports from said Departments. No Proffered or Proposed License or Assignment shall be procured by a delegate or a final report rendered (pursuant to § 598.1705–5) with respect to such License or Assignment which is not procured, until reports are received by said delegate from each chief patent or legal officer notified of the granting of the clearance, unless adequate explanation for the absence of any such report is presented.

§ 598.1705–5 *Final report by delegate where no license or assignment is procured.* A final report (in duplicate) of the results of the consideration on behalf of the Department, including a statement of the final conclusions and the final action of the delegate relative

[1] The applicable bracketed part should be used.

thereto on behalf of the Department, will be made by the delegate to the Chief, Patents Division, OJAG, with respect to each such Proffered or Proposed License or Assignment procurement of which (a) is believed by the delegate to be inadvisable or, (b) the delegate is unable to accomplish upon terms deemed reasonable by him. Copies of such report shall be forwarded by the delegate to the chiefs of all the interested procuring services of the Department and to the Departments of the Navy and the Air Force (i. e. to the officials referred to in § 598.1705–4 (e)) concurrently with transmittal of the original to the Chief, Patents Division, OJAG.

§ 598.1705–6 *Available procedure for the procurement of licenses and assignments.* The Delegate to whom clearance has been granted by the Chief, Patents Division, OJAG, may procure a desired license or assignment, with or without a release of past infringement, as set forth in § 598.1605–8 (a), subject to the restrictions of § 598.1605–8 (b).

§ 598.1705–7 *Fiscal procedures.* The fiscal procedures, provisions, and requirements set forth in § 598.1605–10 are applicable to the procurement of a license (with or without a release) or an assignment (with or without a release).

§ 598.1705–8 *Contracts of license and assignment requiring approval.* The requirements of § 598.1605–12 with respect to approval by the Chief, Purchases Branch, Office of the Assistant Chief of Staff, G–4, of all contracts made under the provisions of Subpart P of this part under said specified conditions, are applicable also to all contracts made under the provisions of this subpart under such conditions.

§ 598.1705–9 *Submission of contracts for approval.* The requirements of § 598.1605–13 relative to the submission for approval of contracts made under the provisions of Subpart P of this part also apply to contracts made under the provisions of this subpart and required to be submitted for approval to the Chief, Purchases Branch, Office of the Assistant Chief of Staff, G–4, including the required memorandum of facts from the Delegate with paragraphs (a) (1) through (a) (4) of § 598.1605–13 changed to read:

(1) Identification and brief description of the subject matter of the patent or patent application involved in the license or assignment.

(2) Date of clearance from the Chief, Patents Division, to consider the license or assignment and to procure the same, if deemed advisable.

(3) Brief statement of the Delegate's conclusions regarding (i) potential infringement of the patent by contemplated future Department of Defense procurement and (ii) of the validity of the patent, including the reasons therefor.

(4) Statement of the estimated extent of contemplated future Department of Defense procurement involving use of the invention, including the estimated money value of a potential claim for infringement of the patent based upon such procurement, broken down according to the Departments of the Army, the Navy and the Air Force.

§ 598.1705–10 *Contract numbering and distribution.* The requirements of § 598.1605–14, pertaining to contracts made under the provisions of Subpart P of this part, apply to contracts of license and assignment made under the provisions of this subpart, including the required memorandum or letter referred to in § 598.1605–14 (e) with the following items changed to read as indicated below:

(1) The name of the licensor or assignor.

(5) Date of clearance from Chief, Patents Division, OJAG, to consider and procure the license or assignment.

(6) A statement that the instrument procured constitutes the license or assignment for which the above clearance was granted.

§ 598.1706 *Contract clauses and forms.* The following contract clauses and forms are applicable to contracts of license and assignment:

§ 598.1706–1 *Mandatory contract clauses.* The clauses listed in § 598.1606–1 shall be used in all contracts, except as otherwise indicated in the instructions preceding the clause.

§ 598.1706–2 *The license grant clauses.* The clauses set forth in § 598.1606–2 are suggested forms for expressing the license grant.

§ 598.1706–3 *The license term clauses.* The clauses set forth in § 598.1606–3 are suggested forms for expressing the license term.

§ 598.1706–4 *Release of past infringement clause.* The clause set forth in § 598.1606–4 shall be included in all contracts granting rights to the Government under a patent already issued, made under the provisions of this subpart unless its omission or modification is approved by the Chief, Purchases Branch, Office, Assistant Chief of Staff, G–4, pursuant to §§ 598.1705–8 and 598.1705–9. Bracketed portions of the clause may be omitted when not appropriate or not encompassed by the release as negotiated.

§ 598.1706–5 *Non-estoppel clause.* The clause set forth in § 598.1606–5 shall be included in all contracts made under the provisions of this subpart, except that it may be omitted under the circumstances stated in said section.

§ 598.1706–6 *Contracts providing for the payment of a running royalty.* Reference is made to § 598.1606–6 for special instructions and contract provisions relative to contracts providing for the payment of a running royalty.

§ 598.1706–7 *Assignments.* Attention is invited to § 598.1606–7 for special instructions and contract provisions pertaining to contracts of assignment of patent rights to the Government.

§ 598.1706–8 *Unilateral contract form; gratuitous grant.* The comments and requirements of § 598.1606–8 (a) with respect to gratuitous grants of licenses and assignments are applicable to gratuitous contracts of license and assignment made under the provisions of this subpart, as is also the suggested unilateral contract form for such gratuitous grants set forth in § 598.1606–8 (b).

§ 598.1706–9 *Bilateral contract form.* The contract form set forth in § 598.1606–9 (a) is suggested for licenses (with or without a release) and assignments (with or without a release) when a consideration of more than $1.00 is to be paid by the Government.

PART 599—BONDS AND INSURANCE

Sec.

599.000 Scope of part.

Subpart A—Bonds

599.101 Definitions.
599.101–50 Annual bid bonds.
599.101–51 Annual performance bond.
599.101–52 Fidelity bond (blanket).
599.101–53 Forgery bond or policy (depositor's form).
599.101–54 License or permit bond.
599.101–55 Consent of surety.
599.103 Performance bonds.
599.103–1 Performance bonds in connection with contracts other than construction contracts.
599.103–2 Performance bonds in connection with construction contracts.
599.103–50 Additional performance bonds.
599.104 Payment bonds.
599.104–1 Payment bonds in connection with contracts other than construction contracts.
599.104–50 Additional payment bonds.
599.105 Advance payment bonds.
599.106 Patent infringement bonds.
599.107 Other types of bonds.
599.108 Execution and administration of bonds.

Subpart B—Sureties on Bonds

599.201 General requirements of sureties.
599.203 Consent of surety.

Subpart C—Insurance—General

599.301 General policy.

Subpart D—Insurance Under Fixed-Price Contracts

599.401 Policy.
599.402 Government-furnished property.
599.450 Insurance in special cases.

Subpart E—Insurance Under Cost-Reimbursement Type Contracts

599.501 Policy.
599.501–1 Workmen's compensation and employers' liability insurance.
599.501–2 General liability insurance.
599.501–3 Automobile liability insurance.
599.503 Government property.
599.503–1 Liability for loss.
599.550 Boiler and machinery insurance.
599.551 Group insurance plans.
599.552 Employee retirement and pension plans.
599.553 General statement.
599.554 Special rating plans.
599.555 Insurance carrier.
599.556 Approval required.
599.557 Action on termination of contract.
599.558 Assignment to Government of premiums due under policies written under the national defense projects rating plan of insurance upon termination or completion of cost-reimbursement type contracts.
599.559 Overseas.

§ 599.000 *Scope of part.* This part sets forth policies and procedures in connection with (a) bonds, (b) sureties on bonds, and (c) insurance.

SUBPART A—BONDS

§ 599.101 *Definitions.*

§ 599.101–50 *Annual bid bonds.* An annual bid bond is a single bond which secures all bids submitted by a Contractor to a Procuring Activity, or to such Contracting Officers of a Procuring Activity as may be designated by that Activity, during a specific fiscal year in response to formal advertising. Such bond is furnished in lieu of separate bid bonds. It is used only in connection with contracts other than construction contracts.

§ 599.101–51 *Annual performance bond.* An annual performance bond is a single bond which secures the performance and fulfillment of all undertakings, covenants, terms, conditions, and agreements of all contracts of a Contractor entered into with a designated agency, or to such Contracting Officers of a Procuring Activity as may be designated by that Activity, during a specific fiscal year. Such a bond is executed in lieu of executing separate performance bonds for each contract. It is used only in connection with contracts other than construction contracts.

§ 599.101–52 *Fidelity bond (blanket).* A fidelity bond is a bond under which the obligor agrees to indemnify an employer up to an amount stated in the bond for losses caused by dishonesty on the part of all employees except those expressly excluded by written endorsement on the bond.

§ 599.101–53 *Forgery bond or policy (depositor's form).* A forgery bond or policy is a bond or policy under which the obligor agrees to reimburse a purchaser and others named in the bond or policy (the insureds) to an amount stated in the bond or policy:

(a) For losses caused by the forging or altering of a check, draft, or similar instrument issued by or purported to have been issued by any of the insureds named in the bond or policy.

(b) For losses resulting from the fact that a check or draft has been obtained from the insureds through the device of impersonation.

§ 599.101–54 *License or permit bond.* This is a bond which secures to a municipality or other public authority the payment of fines or the amount of any losses sustained as a result of action taken, or omitted to be taken, in violation of the terms of a license or permit. The indemnity sometimes runs to third persons in addition to the municipality.

§ 599.101–55 *Consent of surety.* A consent of surety is an instrument by which the surety on a bond or bonds supporting a contract consents to a supplemental agreement which goes beyond the scope of the contract, or a change order in excess of $25,000, and agrees that the bond or bonds previously given to support the basic contract shall apply to the contract as modified.

§ 599.103 *Performance bonds.*

§ 599.103–1 *Performance bonds in connection with contracts other than construction contracts.* Authority is given to the Head of the Procuring Activity concerned, and to such other person or classes of persons as he shall designate, to determine whether a performance bond shall be required in connection with a contract other than a construction contract.

§ 599.103–2 *Performance bonds in connection with construction contracts.* The penalty of the performance bond required in connection with a construction contract shall be at least in an amount equal to 50 percent of the contract price. Setting forth of a minimum percentage herein shall not be construed as a bar to fixing a penalty in a greater percentage, up to 100 percent of the contract price, in a case where a greater penalty is deemed advisable for the protection of the United States, and fixing such greater penalty will not eliminate small, otherwise potentially acceptable Contractors.

§ 599.103–50 *Additional performance bonds.* (a) If a performance bond has been required in connection with a contract other than a construction contract, and there is executed a change order in excess of $25,000 or a supplemental agreement providing for any increase in the contract price, an additional performance bond to cover the increase shall be furnished, unless it is waived in accordance with law. In lieu of an additional bond, a consent of surety in the form set forth in § 599.203 (a) may be furnished.

(b) When, in connection with a construction contract, there is executed a change order in excess of $25,000 or a supplemental agreement providing for any increase in the contract price, an additional performance bond to cover the increase will be furnished. In lieu of an additional bond, a consent of surety in the form set forth in § 599.203 (a) may be furnished.

§ 599.104 *Payment bonds.*

§ 599.104–1 *Payment bonds in connection with contracts other than construction contracts.* As a general rule, payment bonds shall not be required in connection with contracts other than construction contracts. Authority is granted to the Head of the Procuring Activity concerned, and to such other persons or classes of persons as he may designate, to determine whether a payment bond will be required to support any such contract.

§ 599.104–50 *Additional payment bonds.* (a) If a payment bond has been required in connection with a contract other than a construction contract, and there is executed a change order in excess of $25,000 or a supplemental agreement providing for any increase in the contract price, an additional payment bond to cover the increase shall be furnished, unless it is waived in accordance with law. In lieu of an additional bond, a consent of surety in the form set forth in § 599.203 (a) may be furnished.

(b) When, in connection with a construction contract, there is executed a change order in excess of $25,000 or a supplemental agreement providing for any increase in the contract price, an additional payment bond to cover the increase shall be furnished. In lieu of an additional bond, a consent of surety in the form set forth in § 599.203 (a) may be used.

§ 599.105 *Advance payment bonds.* Section 7b of the Armed Services Procurement Act of 1947 states that the power given to the "agency head" by section 5a thereof to make determinations or decisions with respect to the granting of advance payments shall not be delegable. Therefore, authority to make determinations with respect to advance payment bonds will remain in the Secretary. The Head of the Procuring Activity shall make recommendation to the Secretary as to the type and extent of advance payment bonds when requests for advance payments are under consideration. (See Subpart E, Part 402 of this title and Subpart E, Part 592 of this subchapter.)

§ 599.106 *Patent infringement bonds.* (a) A patent infringement bond will not be required with respect to any contract in connection with which a performance bond has been executed.

(b) Even if a performance bond has not been executed, the requirement of a patent infringement bond will be the exception rather than the rule. Where, however, a supply contract or construction contract contains a patent clause of the type set forth in Part 408 of this title, and the financial responsibility of the Contractor is unknown or doubtful, a patent infringement bond may, in the discretion of the Head of the Procuring Activity concerned, or his delegee, be required.

(c) On such bonds as are required, the penal sum will be the lowest which, in the exercise of sound judgment, is deemed adequate for the protection of the interests of the United States.

§ 599.107 *Other types of bonds*—(a) *Fidelity bonds.* (1) Fidelity bonds will be required in connection with cost or cost-plus-fixed-fee supply contracts, construction contracts, or contracts for the operation of Government-owned plants only in those cases where, in the opinion of the Head of the Procuring Activity concerned, or his delegee, such bonds are considered to be reasonably necessary for the protection of the Contractor or the Government.

(2) When a fidelity bond is required, a Primary Commercial Blanket form of bond providing for retroactive reinstatement for prior losses in the penal sum of $10,000 will be considered sufficient. The Primary Commercial Blanket form of fidelity bond as standardized by the Surety Association of America or its equivalent is the approved form of fidelity bond. There should be attached thereto the following:

(i) A rider excluding any claim on the part of the surety company to be subrogated, on payment of loss or otherwise, to any claim against the United States.

(ii) A rider providing for pro rata refund of premium in event of cancellation by the Insured.

(iii) A rider providing for notice to the Procuring Activity concerned in the

event of any change in or cancellation of the bond.

(iv) A rider providing for investigation of all Class A employees.

(v) A rider providing for investigation of all claims.

There are a variety of discounts which may be applied to blanket fidelity insurance under certain circumstances. Therefore, when blanket fidelity insurance is purchased, carriers should be cautioned to apply all appropriate discounts.

(b) *Forgery bonds.* (1) This type of bond will be required in connection with cost or cost-plus-fixed-fee supply contracts, construction contracts or contracts for the operation of Government-owned plants only in those cases where, in the opinion of the Head of the Procuring Activity concerned, or his delegee, such bonds are considered to be reasonably necessary for the protection of the Contractor or the Government.

(2) If, in such a case, it is determined that a forgery bond or policy is desirable to obtain the investigating and claims facilities of a surety company and is considered reasonably necessary for the protection of the United States or the Contractor, a forgery bond or policy with a retroactive reinstatement rider may be approved in the penal sum of $10,000. This sum is considered sufficient. The depositor's form of forgery bond or policy as standardized by the Surety Association of America or its equivalent is the approved form of forgery bond. There should be attached thereto the following:

(i) A rider excluding any claim on the part of the surety company to be subrogated, on payment of loss or otherwise, to any claim against the United States.

(ii) A rider providing for pro rata refund of premium in event of cancellation by the Insured.

(iii) A rider providing for notice to the Procuring Activity concerned in the event of any change in or cancellation of the bond.

(iv) A rider providing for the investigation of all claims.

(c) *Endorsement excluding subrogation to claims against the United States.* In every case where a contract requires the United States to pay the premium either directly or by way of reimbursement on a bond, the bond will contain an endorsement or other recital excluding by appropriate language any claim on the part of the surety to be subrogated, on payment of a loss or otherwise, to any claim against the United States.

(d) *Riders and endorsements particularly applicable to fidelity and forgery bonds.*

(1) *Retroactive reinstatement rider.* This rider contains a provision which is available for blanket fidelity and forgery bonds whereby after a loss has been sustained, the penalty of the bond is restored to its original amount notwithstanding prior losses. There is contained in the bond itself a provision which automatically restores the penalty of the bond to the original amount with respect to future losses.

(2) *Waiver of restoration premium rider.* This rider contains a provision which is available for blanket fidelity and forgery bonds which has the effect of eliminating the premium charge for restoring the penalty of the bond after a loss has been sustained.

(3) *Endorsement excluding subrogation to claims against the United States.* This endorsement contains a provision which excludes any claim on the part of the surety company to be subrogated on payment of a loss or otherwise to any claim against the United States. It is required to be placed on any fidelity or forgery bond, the premium for which is either paid by the Government directly or is a reimbursable item under cost-plus-a-fixed-fee contract.

(4) *Cancellation or change notice rider.*[1] This rider contains a provision by which a surety agrees to notify certain named interested parties in the event that the bond is cancelled or changed in any other manner.

§ 599.108 *Execution and administration of bonds*—(a) *Execution.* All bonds will be executed in duplicate.

(b) *Filing and examination of bonds and consent of surety*—(1) *Distribution.* (i) The original of all surety bonds required by the various elements of the Department (except as hereinafter provided in paragraph (c) of this section) will be forwarded to The Judge Advocate General, Department of the Army, Washington 25, D. C. If such bond was required in support of a contract or modification thereof, the original signed number of the bond should be attached to the original signed number of the contract or modification thereof, as the case may be, and forwarded to The Judge Advocate General. In the event it is not practicable to forward the original number of the contract or modification, a duplicate signed number or an authenticated copy thereof should be attached to the original bond and forwarded to The Judge Advocate General. The Judge Advocate General will examine bonds as to legal sufficiency and as to form and execution. In the case of corporate sureties he will include examination to ascertain whether the corporate officials who purported to execute the bonds on behalf of the corporate sureties had authority to do so; and in the case of individual sureties he will include examination to ascertain whether the affidavits of justification and the certificates of sufficiency of the sureties are in accordance with § 599.201 (b). The Judge Advocate General then will forward the bond, together with any contract or modification thereof which it supports, to the proper office for filing. The duplicate bond will be retained and filed in the office to which it pertains or which authorized its acceptance.

(ii) Consents of surety will be handled in the same manner as bonds, except that for more expeditious handling they may be forwarded in blank to The Judge Advocate General who will have them executed in Washington under the Expediter Plan and then approve them.

(iii) The following bonds will not be forwarded to The Judge Advocate General:

(a) Bid bonds (except annual bid bonds). The original and duplicate numbers will be retained in the office to which they pertain or which authorized their acceptance.

(b) Blanket fidelity and forgery bonds.

(c) *Authority of The Judge Advocate General as to substitute surety bonds.* The Judge Advocate General is authorized to act for the Secretary in accepting a new surety bond in substitution for a bond previously approved by the Department and covering part or all of the same obligation, and in authorizing the notification of the principal and surety on the bond originally furnished that it will not be considered as security for any default occurring subsequently to the date of approval of the new bond. The Judge Advocate General is authorized to delegate such function to whomsoever he may designate within his office.

(d) *Miscellaneous bond forms.*—(1) *Bid bond.* Standard Form 24 (November 1950 Edition) will be used in accordance with accompanying instructions.

(2) *Annual bid bond.* Standard Form 34 (November 1950 Edition) will be used in accordance with accompanying instructions.

(3) *Performance bond.* Standard Form 25 (November 1950 Edition) will be used in accordance with accompanying instructions.

(4) *Annual performance bond.* Standard Form 35 (November 1950 Edition) will be used in accordance with accompanying instructions.

(5) *Payment bond.* Standard Form 25A (November 1950 Edition) will be used in accordance with accompanying instructions.

(6) *Patent infringement bond.* The appropriate patent infringement bond form is:

Know all men by these present, that we ---------- as Principal, and ---------- as Surety, are held and firmly bound unto the United States of America, hereinafter called the Government, in the penal sum of ------ dollars, lawful money of the United States, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly by these presents.

The condition of this obligation is such, that whereas the principal entered into a certain contract, hereto attached, with the Government, dated ----------, 19--, for ---------- and whereas the said principal has specifically obligated himself in said contract to hold and save the Government, its officers, agents, servants, and employees, harmless from liability of any nature or kind, including cost and expenses, for or on account of any patented or unpatented invention, article, or appliance manufactured or used in the performance of that contract, including their use by the Government of the articles therein contracted for.

Now, therefore, if the principal shall well and truly perform and fulfill the above undertaking and agreement, and shall promptly make payment of any judgment and costs obtained against the United States under the provisions of the Act of June 25, 1910 (36 Stat. 851) as amended by the Act of July 1, 1918 (40 Stat. 705) or expenses incident thereto, then this obligation to be void; otherwise to remain in full force and effect.

In witness whereof, the above-bounded parties have executed this instrument under their several seals this ------ day of ----------, 19--, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

SUBPART B—SURETIES ON BONDS

§ 599.201 *General requirements of sureties*—(a) *Corporate sureties*—(1) *Acceptability.* In order to be acceptable, the corporate surety must have obtained from the Secretary of the Treasury authority to do business under the Act of 13 August 1894 (28 Stat. 279), as amended by the Act of 23 March 1910 (36 Stat. 241); 6 U. S. C. 8. A list of the corporations approved by the Secretary of the Treasury is published semiannually by the Treasury Department as Form No. 356 (Section of Surety Bonds). This list indicates the maximum penal sum in which any corporate surety may underwrite any one obligation. Any corporation whose name is on this list is acceptable within the limits of such approval. The Heads of the Procuring Activities are responsible for distributing copies of the list, and may obtain copies thereof through The Judge Advocate General to whom a requisition for the requirements of each Procuring Activity should be sent semiannually on or before 15 March and 15 September.

(2) *Qualifications of agents and corporate sureties.* Corporate sureties should forward to The Judge Advocate General, Department of the Army, Washington 25, D. C. for filing: powers of attorney or certified copies of resolutions of their Boards of Directors or Trustees authorizing their officers or agents to execute bonds, and certificates evidencing the revocation of authority previously granted to execute bonds.

(3) *Corporate cosureties.* More than one corporate surety may be accepted as surety upon any recognizance, stipulation, bond, or undertaking in connection with either supply or construction contracts, provided that in no case will the liability of any such cosurety exceed the maximum penal sum in which the corporate surety is qualified to underwrite any one obligation. On bonds covering supply contracts where the amount of the bond is greater than the underwriting limitation of the corporate surety, the latter may reinsure with a corporation on the acceptable list of corporate sureties and having the required underwriting capacity. Reinsurance agreements are not acceptable in connection with construction contracts. It is not necessary that corporate cosureties obligate themselves for the full amount of the bond. Each corporate surety may, by setting forth the limit of its liability in the bond as a definite and specified sum, limit such liability. In all cases the liability shall be limited to the maximum penal sum in which the corporate surety is qualified to underwrite any one obligation. As further indicated by the aforementioned forms, the sureties must, however, bind themselves "jointly and severally" for the purpose of allowing a joint action or actions against any or all of them. When the bond is to be executed by two or more corporate sureties, Standard Form 27 (November 1950 Edition) will be used in the case of a performance bond and Standard Form 27A (November 1950 Edition) will be used in the case of a payment bond, each in accordance with the accompanying instructions.

(b) *Individual sureties.*—(1) *Acceptability.* Individual sureties are acceptable for all types of bonds other than fidelity and forgery bonds, provided that they meet the requirements specified in subparagraphs (3) and (5) of this paragraph.

(2) *Number.* If individual sureties are used there shall be at least two responsible individuals on each bond.

(3) *Citizenship.* (i) Except as prescribed in subdivision (ii) of this subparagraph individual sureties will be citizens of the United States.

(ii) Sureties on bonds executed in foreign countries, the Canal Zone, Puerto Rico, Hawaii, Alaska, Guam, or any possession of the United States, to secure the performance of contracts entered into in those places need not be citizens of the United States. However, unless they are citizens of the United States they must be domiciled in the country, territory, or possession where the contract is to be performed.

(4) *Extent of liability.* The liability of each individual surety shall extend to the entire penal amount of the bond.

(5) *Justification.* Individual sureties will each justify in an amount not less than the penal amount of the bond.

(6) *Stockholders as sureties.* In connection with any bond of which a corporation is the principal obligor, a stockholder of that corporation is acceptable as cosurity on the bond: *Provided,* That his net worth exclusive of his stock holdings in the corporation is equal to the amount for which he justified: *And provided further,* That such fact is expressly stated in his affidavit of justification.

(7) *Affidavit of individual surety.* Standard Form 28 (November 1950 Edition) will be used in connection with the justification of an individual surety.

(c) *Partnerships as sureties.* A partnership or other unincorporated association, as such, will not be accepted as a surety. The individual members of the partnership or association may, of course, if they meet the requirements of paragraph (b) of this section qualify as sureties. Individual members of a partnership or association will not, however, be acceptable, as sureties on bonds under which the partnershp or association, or any copartner or member thereof, is the principal obligor.

(d) *Substitution or replacement of a surety.* In case of financial embarrassment, failure, or other disqualifying cause on the part of a surety under a bond, the Head of the Procuring Activity concerned will require the substitution of a new surety satisfactory to him.

§ 599.203 *Consent of surety.* The following forms of consents of surety are authorized for use:

(a) *Consent of surety to a modification providing for an increase in the penal sums of bonds previously given.*

CONSENT OF SURETY

Date ----------

Consent of Surety is hereby given to the foregoing contract modification, and the surety agrees that its bond or bonds shall apply and extend to the contract as modified or amended thereby. The principal and surety further agree that on and after the execution of this consent, the penalty of the aforementioned performance bond or bonds is hereby increased by ------ dollars,[1] and the penalty of the aforementioned payment bond or bonds is hereby increased by------- dollars.[1]

(b) *Consent of surety without providing for an increase in the penal sums of bonds previously given.* Consent of Surety is hereby given to the foregoing contract modification, and the surety agrees that its bond or bonds shall apply and extend to the contract as modified or amended thereby.

SUBPART C—INSURANCE; GENERAL

§ 599.301 *General policy.* Insurance coverage will be required in connection with Army Establishment contracts where (a) mandatory by law; or (b) it is considered desirable to utilize the organization, facilities or other services of the insurance industry. (The word "coverage" is used here advisedly, since in some jurisdictions self-insurance by the Contractor is permissible in lieu of insurance purchases.) Insurance purchases may be authorized where commingling of property and operations or circumstances of ownership and degree of responsibility imposed by contract make the carrying of insurance reasonably necessary for protection of the several interests concerned.

SUBPART D—INSURANCE UNDER FIXED-PRICE CONTRACTS

§ 599.401 *Policy.* The requirements under applicable laws, such as state laws governing workmen's compensation and employers' liability coverage and Federal laws such as the Federal Longshoremen's and Harbor Workers' Act where applicable, or, in the case of common carriers,

---

[1] Here fix an amount of increase at least in the same proportion that the penalty on the original bond bears to the contract price on the original contract. The penalty of the payment bond shall not be increased beyond two million five hundred thousand dollars.

[2] This consent shall be executed concurrently with the execution of the attached modification by the same person who executes the modification.

cargo insurance as required by Interstate Commerce regulations, are sufficient to compel the contractor to comply with such laws. The Contracting Officer will not, therefore, impose insurance requirements other than evidence from the Contractor that such laws have been complied with. Where a performance bond supports the contract such evidence will not be necessary.

§ 599.402 *Government furnished property.* Under the degree of responsibility for Government property established by contract clause the purchase or nonpurchase of property insurance is discretionary with the Contractor and insurance requirements will not be imposed by the Contracting Officer.

§ 599.450 *Insurance in special cases.* In special cases, when it is deemed necessary in connection with the performance of a contract, other types of insurance may be required, to the extent determined to be necessary by the Head of the Procuring Activity.

SUBPART E—INSURANCE UNDER COST-REIMBURSEMENT TYPE CONTRACTS

§ 599.501 *Policy.* (a) The kinds of insurance enumerated in §§ 599.501–1, 599.501–2, and 599.501–3 ordinarily will be required by the Contracting Officer unless the Contractor is relieved by statute from liability and elects to invoke such statutory immunity or has an acceptable program of self-insurance already in effect. In special cases other types of insurance may be required to the extent determined to be necessary by the Head of the Procuring Activity.

(b) The Contracting Officer will ascertain and advise the Head of his Procuring Activity, prior to completing the placement of insurance under the contract, as to whether (and if so, to what extent) the Contractor has cost-reimbursement type contracts with any other agency of the Department of Defense at the proposed location or adjacent thereto. This information should be readily obtainable from the Contractor and will be used by the Head or Heads of the Procuring Activities concerned to determine whether contracts can be combined for the purposes of insurance in order to be eligible for more favorable rate treatment.

§ 599.501–1 *Workmen's compensation and employers' liability insurance.* (a) Workmen's compensation insurance protects the employer against liability imposed by a workmen's compensation law to pay benefits and furnish care to employees injured, and to pay benefits to dependents of employees killed, in the course of and because of their employment. Employers' Liability insurance protects an employer against claims for damages which may arise out of injuries to employees in the course of their work in cases not covered by the compensation law. Such insurance will be required, endorsed to provide—

(1) Occupational disease coverage in jurisdictions where the workmen's compensation law does not cover all occupational diseases, in limits of $50,000 per person in any one case and $100,000 for any one policy year;

(2) In those jurisdictions where there is a "per accident" limitation coverage under paragraph One (b) of the insurance policy, additional limits up to $100,000 for each accident, or, where there is a "per person" limitation under this paragraph, additional limits up to $50,000 per person;

(3) In jurisdictions where workmen's compensation coverage is carried in a State Fund which does not provide the protection afforded by the requirements of subparagraphs (1) and (2) of this paragraph, employers' liability insurance will be purchased, endorsed to provide this coverage.

(b) Where such insurance is purchased for contracts to be performed outside the limits of the United States, its Territories and possessions, the endorsements required by paragraph (a) of this section may be modified in accordance with instructions issued by the Head of the Procuring Activity concerned provided that higher monetary limits are not authorized.

(c) The Longshoremen's and Harbor Workers' Compensation Act, as amended (42 U. S. C. Chapters 11, 12 as amended by 56 Stat. 1035) provides that workmen's compensation benefits are applicable to all United States citizen employees of any Contractor with the United States on any military, air or naval defense base or public work as defined therein other than Contractors or subcontractors engaged exclusively in furnishing materials or supplies. Where it is desired that the benefits under this law be waived with respect to United States citizens employed by such Contractors outside the limits of the United States (48 States and the District of Columbia), the Head of the Procuring Activity will request such waiver by applying to the Bureau of Employees' Compensation, Department of Labor, through Contract Insurance Branch, Special Financial Services Division, Office of the Chief of Finance, Washington 25, D. C.

§ 599.501–2 *General liability insurance.* (a) This insurance protects the insured against loss due to all claims for damages arising from his business premises or operations (except those arising from motor vehicles away from the premises, those covered by any workmen's compensation law, and other exclusions stated in the policy). This insurance will be required with limits of $50,000 per person, $100,000 per accident.

(b) General liability insurance for damage to property of others may be purchased under the general liability policy where, in the opinion of the Contracting Officer, the exposure under the contract operations is such as to warrant obtaining the experienced claims and investigating services of the insurance carrier in the event of extensive damage to property of others. It is contemplated that this form of coverage will be necessary only for Contractors engaged in the handling of high explosives or in extra-hazardous research and development activities. Prior approval for the purchase of this type of insurance will be obtained from the Head of the Procuring Activity and limits of $50,000 per accident with an aggregate limit of $100,000 for each year of policy coverage will be considered adequate. Where commingling of operations, however, permits the Government's protection at a nominal cost under insurance carried by the Contractor in the course of his commercial operations, the participation in such insurance will be deemed in the best interests of the Government.

(c) Products liability insurance protects the insured for damages arising out of the consumption, handling, or use of a product. This insurance will be required where a Contractor under the authority of his contract operates a commissary or other similar facility for dispensing food. Such insurance, when necessary, will be added by endorsement to the general liability policy with limits of $50,000 per person and $100,000 per accident for each year of policy coverage.

(d) Contractual liability insurance protects the Contractor against loss arising under assumption of liability by agreement. This insurance is provided by the comprehensive general liability policy where a Contractor has assumed liability in writing under—

(1) A lease of premises;

(2) An easement agreement;

(3) An agreement required by municipal ordinance;

(4) A sidetrack agreement; or

(5) An elevator or escalator maintenance agreement.

The purchase of insurance for other assumed liability may be approved where assumption of such liability by the Contractor has been authorized and the Head of the Procuring Activity determines that the purchase of such insurance is necessary.

(e) Where insurance prescribed by this section is purchased for contracts to be performed outside the limits of the United States, its Territories and possessions, the Head of the Procuring Activity is authorized to revise downward the monetary limits prescribed in this section.

§ 599.501–3 *Automobile liability insurance.* Automobile public liability and property damage insurance will be required with limits of $50,000 per person and $100,000 per accident for bodily injury liability and $5,000 for property damage liability on the comprehensive policy form covering all owned, nonowned, hired, and Government-furnished motor vehicles which will be used in the contract operations where use will not be limited exclusively to the premises on which the work under such contract is performed. When such insurance is purchased for contracts to be performed outside the limits of the United States, its Territories and possessions, the Head of the Procuring Activity is authorized to revise downward the monetary limits prescribed herein.

§ 599.503 *Government property.* It is the policy of the Department of the Army not to require or approve insurance covering loss of or damage to property, legal title to which is in the United States, used in connection with cost-reimbursement type contracts. This principle of noninsurance rests to a large degree upon savings to the Government obtained by eliminating the cost of insurance which would otherwise be added to the contract cost. Where savings are trivial and the Contractor's existent insurance policies may be utilized to afford protection thereunder for Government property in its care, custody, or control, this policy of noninsurance will not be enforced. Ordinarily, however, the Contractor will be relieved of liability for loss or damage to Government property in accordance with the provisions contained in the Government Property clause of the contract. Such losses are intended to include those caused by any peril while the property is in transit off the Contractor's premises, or caused by any of the following perils while the property is on the Contractor's or a subcontractor's or other premises or by removal therefrom because of any of the following perils:

(a) Fire; lightning; windstorm, cyclone, typhoon, tornado, hail; explosion; riot, riot attending a strike, civil commotion; vandalism and malicious mischief; aircraft or objects falling therefrom; vehicles running on land or tracks, excluding vehicles owned or operated by the Contractor or any agent or employee of the Contractor; smoke; sprinkler leakage; earthquake or volcanic eruption; flood, meaning thereby rising of rivers or streams; enemy attack or any action taken by the military, naval, or air force of the United States or its allies in resisting enemy attack.

(b) Upon the happening of loss or damage to Government property caused by the above-named perils the Contractor shall communicate with the Contracting Officer and shall otherwise proceed in accordance with instructions set forth in the governing contract clause. The Contractor may, upon direction of the Contracting Officer, employ the services of a loss and salvage organization designated by the Contracting Officer. One or more of these organizations will be found listed in the local telephone directory of the nearest city of reasonably large population. They are known variously as the General Adjustment Bureau, Inc., the Underwriters Adjusting Company, and the Western Adjustment and Inspection Company. The services of these organizations are performed for the Government within the continental United States on a cost plus traveling expense basis.

§ 599.503–1 *Liability for loss.* The Contractor's relief from liability for loss of or damage to Government property in his care, custody, or control is intended to place the Contractor in the same position he would occupy if commercial insurance policies providing broad protection were procured by him against the named perils.

§ 599.550 *Boiler and machinery insurance.* (a) This type of insurance protects the Contractor against loss due to accidents arising from boilers, pressure vessels, or machinery. The chief value of this insurance is the inspection service afforded under the insurance policy by qualified insurance personnel. The purchase of such insurance by Army Establishment cost-reimbursement type Contractors is not authorized as an item of reimbursement. The Army maintains within the continental United States for the purpose of obtaining boiler inspection service on certain types of boilers, a contract with a recognized insurance company. Among the types serviced by this contract are the following: "All Government-owned boilers located at military installations operated by private Contractors and all privately owned boilers located at military reservations." Accordingly, where steam boilers are placed in initial operation under the contract, the Contracting Officer will so notify his continental army commander and request that arrangements be made for the boilers to be included for inspection under the Army contract.

(b) In areas outside the continental United States boiler and machinery insurance may be purchased where insurance companies are available and can render adequate inspection service. Where such service is not available, boiler and machinery insurance will not be purchased.

§ 599.551 *Group insurance plans.* Group life insurance plans and such other forms of insurance as are provided voluntarily to employees in order to furnish benefits in the event of death, disability, dismemberment, hospitalization, surgical, or medical care will be subject to review by the Head of the Procuring Activity. The purpose of this requirement is to ascertain that greater benefits are not being extended under the cost-reimbursement type contract than those granted to employees under the Contractor's regular commercial operations. When an existing schedule is being increased, such schedule will also be referred to the Head of the Procuring Activity for the same purpose. Where employees under the cost-reimbursement type contract are added to the Contractor's already existent group life or similar-type insurance policies, provision should be made at contract termination to see that any experience refund due from the last year of contract operation will be credited proportionately to the contract.

§ 599.552 *Employee retirement and pension plans.* The basis for allowability of costs under cost-reimbursement type contracts for such plans is fully set forth in Part 414 of this title, (Contract Cost Principles).

§ 599.553 *General statement.* The required or permitted forms of insurance and instructions set forth in §§ 599.501 through 599.552 are intended as basic principles to be applied in connection with insurance on cost-reimbursement type contracts where the contract operations are separately insured. Where commingling of commercial and Government operations make separate insurance impracticable, the foregoing sections will necessarily not remain applicable.

§ 599.554 *Special rating plans.* For cost-reimbursement type contracts, special retrospective rated plans are available for the purchase of, (a) workmen's compensation and employers' liability, (b) comprehensive general liability and (c) automobile liability and property damage insurance. The provisions of these plans may not be applicable to all cost-reimbursement type contracts, and in arriving at a determination as to their applicability, the Head of the Procuring Activity will give consideration, among other factors, to the following:

(1) Contracts for work within the continental United States:

(i) That at inception of use of Plan, at least 90 percent of estimated payroll arises out of cost-reimbursement type contracts with the United States.

(ii) That the estimated total annual premium is at least $10,000.

(2) Contracts for work outside the continental United States:

(i) Nationality of the employees concerned and the applicability of the Longshoremen's and Harbor Workers' Act as amended, or the propriety of waiving the provisions of that law; (see § 599.501–1 (c)).

(ii) Laws and customs of the country or countries concerned;

(iii) Treaties involved;

(iv) Insurance facilities available;

(v) Medical and hospital facilities available.

§ 599.555 *Insurance carrier.* A cost-reimbursement type Contractor will select his own insurance carrier, subject to approval by the Head of the Procuring Activity as to compliance with the following established Department of Defense minimum standards. These standards may be deviated from by the Head of the Procuring Activity in the case of foreign insurance carriers operating outside the continental United States upon assurance of financial responsibility of such carriers.

(a) The carrier must have an unobligated minimum surplus of $350,000;

(b) In the case of a contract of casualty insurance, other than Workmen's Compensation insurance, the financial responsibility of the insurance carrier must be such that the policy will not expose it in a single accident or occurrence to a loss (1) in the case of a fixed-premium carrier of more than 10 percent of its total capital stock and surplus, or (2) in the case of a dividend-paying carrier of more than 10 percent of its net assets.

(c) In the case of Workmen's Compensation insurance, the insurance carrier shall have (1) in the case of a fixed-premium carrier, a total capital and surplus of at least $1,000,000, or (2) in the case of a dividend-paying carrier, at least $1,000,000 of net assets.

§ 599.556 *Approval required.* All plans, policies, endorsements, and rates for insurance coverages in connection with cost-reimbursement type contracts will be subject to approval by the Head of the Procuring Activity, and it shall be within the authority of such office to require a change of plan if the type selected by the Contractor is not deemed to be that most advantageous to the interests of the Government. Copies of all policies and advisors reports as required by the National Defense Projects Rating Plan will be forwarded by the Head of

the Procuring Activity to the Contract Insurance Branch, Special Financial Services Division, Office of the Chief of Finance, Department of the Army, Washington 25, D. C.

(a) Where the contract operations are separately insured under any form of retrospective rating plan, losses and final premium costs assigned to the policies involved will be subject to review and approval of the Contract Insurance Branch, Special Financial Services Division, Office of the Chief of Finance, Washington 25, D. C. In furtherance thereof copies of all loss reports will be forwarded when due to the Contract Insurance Branch, Special Financial Services Division, Office of the Chief of Finance, Washington 25, D. C.

(b) Where the contract operations are jointly insured with the Contractor's commercial operations, the proportion of Government interest and amount of premium involved will be the governing factors in determining the necessity for maintenance of Government control.

§ 599.557 *Action on termination of contract.* Generally, the contract settlement involved in cost-reimbursement type contracts will have been completed prior to the required lapse of time for final settlement under any form of retrospective rating plan of insurance. Therefore, in such settlement the insurance transactions, where the National Defense Projects Rating Plan or other retrospective plan of insurance is involved, will be excepted and the Contracting Officer will agree that any remaining credits due in connection with the insurance or any outstanding obligations of the Contractor with respect to insurance will be assumed by the United States Government.

§ 599.558 *Assignment to Government of premiums due under policies written under the national defense projects rating plan or other retrospective rating plan of insurance upon termination or completion of cost-reimbursement type contracts.* (a) The following form will be used for accomplishing the action required by § 599.557 of assigning to Government the interest of a cost-reimbursement type Contractor in return premiums, premium refunds, etc., on insurance policies written under the Special Rating Plans (§ 599.554) or other retrospective rating plan upon termination or completion of the contract, when the Government has assumed the payment of the Contractor's obligations for further premium payments under such policies.

ASSIGNMENT TO GOVERNMENT

Under (here name type of contract) Contract No. ------ dated ---------- between the United States of America (hereinafter called the Government) and ---------- (hereinafter called the Contractor).

The Government having assumed and become liable for the obligation of the Contractor for premiums under Policies Nos. ------ issued by the ---------- Insurance Company, the Contractor does hereby assign, transfer, and set over to the Government as of the date hereof, all of his right, title and interest in and to all return premiums, premium refunds, dividends and any other moneys due or to become due the Contractor in connection with such policies.

In witness whereof, the Contractor has executed this Assignment this ------ day of ----------, 195--.

CONTRACTOR

By ---

[CORPORATE SEAL]

Attest:

Secretary

Accepted:

UNITED STATES OF AMERICA

By---

Contracting Officer

(b) This Assignment to Government will be executed in a sufficient number of copies to serve the purposes of the cognizant Procuring Activity, and the Head of the Activity will forward one copy to the Contract Insurance Branch, Special Financial Services Division, Office of the Chief of Finance, Department of the Army, Washington 25, D. C. The Contracting Officer will forward the original by registered mail, return receipt requested, to the home office of the insurance company involved. The letter accompanying this form will specify that all checks to cover return premiums, etc., are to be made payable to the Treasurer of the United States.

§ 599.559 *Overseas.* In those areas outside the United States, its Territories and possessions, where the insurance coverages required herein in connection with cost-reimbursement type contracts are not available because of the lack of competent insurance carriers with acceptable financial responsibility as determined by the Head of the Procuring Activity, the Contracting Officer is authorized to waive such insurance requirements.

PART 600—FEDERAL, STATE, AND LOCAL TAXES

Sec.

600.000 Scope of part.
600.050 Overseas.

Subpart A—Federal Excise Taxes

600.101 Manufacturers' excise taxes (basis and application).
600.101–14 Lubricating oils.
600.105 Tax on transportation of property (basis and application).

Subpart B—Exemptions From Federal Excise Taxes

600.202 Supplies for exportation.
600.203 Supplies for ships and aircraft.
600.206 Other exemptions.
600.207 Tax exemption forms.
600.250 Exemptions from Federal taxes in general.

Subpart C—State and Local Taxes

600.301 Applicability.
600.302 Tax exemption forms.
600.350 Questions of applicability of tax laws; negotiations.
600.351 Designation of vesting points for title to property in connection with State and local taxes.

Subpart D—Contract Clauses

600.401 Fixed-price contracts.
600.402 Cost-type contracts.

§ 600.000 *Scope of part.* This part sets forth policies and procedures in connection with (a) Federal excise taxes, (b) exemptions from Federal excise taxes, and (c) State and local taxes. References in this part are to Subchapter A Chapter IV of this title, Internal Revenue Code, and Bureau of Internal Revenue regulations. Examples: § 410.101–5 of this title; sec. 3797 (a) IRC; and 26 CFR 316.9 (Regulations 46).

§ 600.050 *Overseas.* Part 410 of this title and this part are applicable in effecting procurement outside the United States, its Territories and possessions, where the articles, materials, and supplies so procured were mined, produced, or manufactured in the United States, its Territories and possessions, and where the cost of such articles, materials, and supplies may include therein Federal, State, and local taxes. Every effort will be made to take advantage of all authorized tax exemptions, credits, and refunds, including such exemptions, credits, and refunds as may be authorized by the laws of the foreign country in which procurement is effected.

SUBPART A—FEDERAL EXCISE TAX

§ 600.101 *Manufacturers' excise taxes (basis and application).* (a) In general, the manufacturers' excise taxes are based on the sales price. Charges for covering, containers, and the like, are included in the sales price for purposes of computing the tax. If the amount of the sales price is adjusted upon return of covering or containers to the seller, the tax should also be adjusted (26 CFR 316.10 (Regulations 46)). The tax imposed, however, is not part of the taxable price of the article (26 CFR 316.11 (Regulations 46)). Charges for transportation, delivery, insurance, installation, and similar charges also are excluded in computing the tax (26 CFR 316.12 (Regulations 46)).

(b) The lease of an article is considered a sale thereof. In the case of leases or installment sales, the tax is paid proportionately upon each payment (26 CFR 316.9 (Regulations 46); 26 CFR 314.4 (Regulations 44)).

(c) The tax in general attaches when title passes from the manufacturer (26 CFR 316.5 (Regulations 46); 26 CFR 314.4 (Regulations 44)). If subsequent reduction is made in the sales price, credit or refund may be obtained by the manufacturer (26 CFR 316.13 (Regulations 46)). Claim by a manufacturer for credit or refund must show, among other things, that the tax has not been collected from the purchaser or has been repaid to him or that his written consent to the allowance of the credit or refund has been obtained (26 CFR 316.204 (Regulations 44); 26 CFR 314.64 (Regulations 44)).

(d) No manufacturers' excise tax is imposed under section 3406, IRC (§§ 410.101–5 to 410.101–9 incl. of this title), with respect to any article subject to the retailers' excise tax on sale of jewelry and other items referred to in § 410.102–1 of this title (sec. 3406, IRC).

§ 600.101–14 *Lubricating oils.* (a) Lubricating oils may be sold tax-free by the manufacturer or producer thereof direct to another such manufacturer or producer for resale, provided the manufacturers are properly registered and bonded and an appropriate certificate in this connection is furnished the seller (26 CFR 314.42 (Regulations 44)).

(b) No tax is attached where lubricating oils are sold direct for nonlubricating uses by the purchaser, provided an appropriate certificate in this connection is furnished the seller (26 CFR 314.43 (Regulations 44)). Exemptions from tax discussed in this paragraph (b) will not be claimed, contract prices will not exclude taxes on the basis of those exemptions, and proof of tax exemptions will not be furnished Contractors.

§ 600.105 *Tax on transportation of property (basis and application).*—(a) *Transportation.* The term "transportation" means the movement of property by a person engaged in the business of transporting property for hire, including inter-State, intra-State, and intracity or other local movements, as well as towing, ferrying, switching, and the like. In general, it includes accessorial service furnished in connection with a transportation movement, such as loading, unloading, blocking and staking, elevation, transfer in transit, ventilation, refrigeration, icing, storage, demurrage, lighterage, trimming of cargo in vessels, wharfage, handling, feeding and watering livestock, and similar services and facilities (26 CFR 143.1 (d) (Regulations 113)).

(b) *Coal.* The term "coal" includes anthracite, bituminous, semibituminous, and lignite coal, coal dust, and coke and briquettes made from coal (26 CFR 143.1 (f) (Regulations 113)).

(c) *Baggage.* An amount paid, in connection with the transportation of persons, for the transportation of baggage, including incidental charges on account of excess weight, excess value, storage, transfer, special delivery, and the like, or an amount so paid for a special baggage or express car or other conveyance is subject to the tax on the transportation of property if separable from the payment for the transportation of persons and separately shown on the records of the carrier. Otherwise, the tax on the transportation of persons applies. (See § 410.104 of this title; 26 CFR 143.14 (c) (Regulations 113).)

SUBPART B—EXEMPTIONS FROM FEDERAL EXCISE TAXES

§ 600.202 *Supplies for exportation.*—(a) *Exemption based upon exportation.* Exemption is available (1) from the manufacturers' excise taxes (§ 410.101, et seq. of this title) and the retailers' excise taxes (§ 410.102, et seq. of this title) with respect to sales for export and (2) from the tax on the transportation of property (§ 600.105) with respect to property in course of exportation (secs. 2406, 2705, 3449, IRC; (26 CFR 314.25–314.27 (Regulations 44); 26 CFR 316.25–316.27 (Regulations 46)). (See paragraph (b) of this section; 26 CFR 320.21, 320.22 (Regulations 51); 26 CFR 143.30–143.35 (Regulations 113).) These exemptions may be claimed under the circumstances set forth in § 410.202 of this title.

(b) *How to claim export exemptions.* 26 CFR 316.25–316.27 (Regulations 46) (see paragraph (a) of this section).

(1) *Sales for export.* (i) To exempt from tax a sale for export it is necessary that two conditions be met, namely (*a*) that the article be identified as having been sold by the manufacturer for export and (*b*) that it be exported in due course.

(ii) An article will be regarded as having been sold by the manufacturer for export if the manufacturer has in his possession at the time title passes or at the time of shipment, whichever is prior (*a*) a written order or contract showing that the manufacturer is to ship the article to a foreign destination; or (*b*) where delivery by the manufacturer is to be made within the United States, a sworn statement from the purchaser showing (*1*) that the article is purchased to fill existing or future orders for delivery to a foreign destination; or that the article is purchased for resale to another person engaged in the business of exporting, who will export the article, and (*2*) that such article will be transported to its foreign destination in due course prior to use or further manufacture and prior to any resale except for export.

(iii) The written order or contract of sale or the sworn statement referred to in subdivision (*a*) and (*b*) of this subparagraph suspends liability for the payment of the tax by the manufacturer on such sales for export for a period of 6 months from the date when title passes or the date of shipment, whichever is prior. If within such period the manufacturer has not received and attached to the order or contract, or sworn statement, proper "proof of exportation" (see subparagraph (2) of this paragraph), then the temporary suspension of the liability for the payment of the tax ceases and the manufacturer shall include the tax on the sale of such article in his return for the month in which such 6-month period expires.

(iv) The exemption provided in this section is limited to sales by the manufacturer for export and is not applicable in cases where sales of taxable articles are made from a dealer's stock for export even though actually exported.

(2) *Proof of exportation.* (i) Exportation may be evidenced by (*a*) a copy of the export bill of lading issued by the delivering carrier, or (b) certificate by the agent or representative of the export carrier showing actual exportation of the article, or (c) a certificate of landing signed by a customs officer of the foreign consignee showing receipt of the article.

(ii) In any case where the manufacturer is not the exporter, such manufacturer must have in his possession an affidavit from the person to whom he sold the article stating that the article was in fact exported in due course by him or was sold to another person who in due course exported the article. This affidavit must state what evidence is available to show that the article was in fact exported in due course prior to use or further manufacture and prior to resale in the United States other than for export. Such evidence must be that described in subdivision (i) of this subparagraph, and the affidavit must show where such evidence is readily available for inspection by Government officers.

(iii) In all cases the sales records together with the evidence of exportation must be preserved by the manufacturer for a period of at least 4 years from the last day of the month following the sale, and must be readily accessible for inspection by internal revenue officers.

(iv) In any case where the manufacturer does not have in his possession within the 6-month period, proof of exportation as outlined herein, the manufacturer must pay the tax involved. If proof of exportation later becomes available, a claim for refund of any tax paid may be filed on Form 843, or a credit may be taken upon any subsequent monthly return, but such action must be taken within the 4-year period of limitation prescribed by sec. 3313, IRC.

(c) *Shipments to possessions of the United States.* (1) Sections 2705 and 3449, IRC, and applicable Treasury regulations authorize an exemption from manufacturers' excise taxes with respect to sales for export or for shipment to a possession of the United States, provided such exportation or shipment is effected within 6 months after title passes to the purchaser. (26 CFR 314.25–314.27 (Regulations 44); 26 CFR 316.25–316.27 (Regulations 46).)

(i) It is the policy of the Department of the Army to purchase from manufacturers, producers, and importers on a tax exclusive basis, as authorized by sections 2705 and 3449, when all of the following conditions are present:

(*a*) The purchase is a substantial one;

(*b*) Exportation or shipment to a possession is intended at the time of purchase, and exportation or shipment will follow immediately after delivery from the manufacturer.

(ii) To exempt from tax a sale for export or shipment to a possession of the United States, it is necessary that two conditions be met—

(*a*) That the article be identified as having been sold by the manufacturer for export or shipment to a possession.

(*b*) That it be exported or shipped to a possession of the United States in due course (26 CFR 314.25 (Regulations 44).)

(iii) With respect to condition in subdivision (ii) (*a*) of this subparagraph, the words "for export or shipment to a possession" stamped on the contract or written purchase order has been approved by the Bureau of Internal Revenue as satisfactory evidence that the manufacturer's sale of the article has been made for export or shipment to a possession of the United States. With respect to condition in subdivision (ii) (*b*) of this subparagraph, the proof of exportation or shipment to a possession of the United States required under 26 CFR 314.26 (Regulations 44), shall be furnished the manufacturer by the Contracting Officer. Such proof shall be in the form of an affidavit stating that the articles have in fact been exported or shipped to a possession of the United States. The affidavit shall state also where a copy of the export bill of lading is available for inspection. The Port of Embarkation shall be required to furnish certification of export to the Contracting Officer together with a statement describing where the applicable export bill of lading is being retained.

(2) The term "possession of the United States" as used in this paragraph includes the Panama Canal Zone, Virgin Islands, Guam, Puerto Rico, American

Samoa, Wake, and the Midway Islands. (26 CFR 316.1 (Regulations 46); 26 CFR 314.1 (Regulations 44).) The exemption does not apply with respect to sales of articles for shipment to the territories of Alaska and Hawaii for the reason that these territories are by statutory definition included in the term "United States." (26 CFR 316.27 (Regulations 46); 26 CFR 314.28 (Regulations 44).)

(3) Following is the form of affidavit to be used as proof of exportation or shipment to a possession:

---------- (Date)

---------- (Contractor)

The undersigned does hereby certify that

---------- (Quantity and description of articles)

which were purchased for export under ---------- were in fact exported to (Contract No.)

a foreign country or possession of the United States (other than Alaska or Hawaii) and a copy of export bill of lading No. ------ or Loading Mainfest No. ------ pursuant to which the articles were shipped, is being retained in the files of ---------- (Indicate office)

---------- (Contracting Officer)

§ 600.203 *Supplies for ships and aircraft.* (a) The term "vessels of war" of the United States or of any foreign nation includes aircraft owned by the United States or by any foreign nation and constituting a part of the armed forces thereof. The terms "fuel supplies," "ships' stores," "legitimate equipment" includes all articles, materials, supplies, and equipment necessary for the navigation, propulsion, and upkeep of vessels (sec. 3451, IRC; 26 CFR 314.28 (Regulations 44); 26 CFR 316.28 (Regulations 46)).

(b) Under Treasury Regulations this exemption, as it relates to aircraft, is available only to purchases made direct from manufacturers or producers, not to purchases from dealers or distributors.

(c) Serious administrative burdens would be imposed if the exemption described in § 410.203 of this title were to be claimed on articles of a character usable either (1) as supplies or legitimate equipment for vessels of war including aircraft, or (2) otherwise.

(d) The exemption will not be claimed, contract prices will not exclude Federal excise taxes on the basis of that exemption, and proof of exemption will not be furnished to Contractors, except that the action above may be taken in connection with purchases of the following items.

(1) Aviation gasoline.

(2) Lubricating oil suitable only for aircraft engines.

(3) Aircraft tires and inner tubes.

(4) Aerial photographic cameras including gun cameras, lenses, apparatus, equipment, and films therefor.

§ 600.206 *Other exemptions.* (a) This section applies only to Federal excise taxes imposed by the following chapters of the Internal Revenue Code: Chapter 19 (Retailers' excise taxes—see § 410.102 et seq. of this title); Chapter 25 (pistols and revolvers—see § 410.103 of this title); Chapter 29 (manufacturers' excise taxes—see § 410.101 et seq. of this title); and Chapter 30 (transportation and communication—see §§ 410.104 and 410.107 of this title).

(b) When any Procuring Activity has responsibility for procurement or purchase of any articles subject to Federal excise taxes under any other chapter of the Internal Revenue Code, that Procuring Activity may prescribe such rules, governing the securing of exemption from those taxes, as it may deem proper, following approval of the Assistant Chief of Staff, G–4, Department of the Army (Chief, Purchases Branch), who is responsible for coordination with The Judge Advocate General.

§ 600.207 *Tax exemption forms.* The forms and procedures described in this section are applicable, as far as exemptions from Federal excise taxes are concerned, only with respect to the exemptions specified in §§ 410.201, 410.203 and 410.205 of this title.

(a) *Standard tax exemption forms.* The following standard tax exemption forms have been prescribed:

	Standard Form No.
U. S. Government Tax Exemption Certificate	1094
Cover of U. S. Government Tax exemption certificate book (front, outside and inside; back, outside)	1094–A
Tabulation sheet (insert)	1094–B
U. S. Government tax exemption identification card	1094–C

(b) *U. S. Government Tax Exemption Certificate, Form 1094.* U. S. Government Tax Exemption Certificate Form 1094 will be issued by the appropriate officer where required by the contract to supply proof of exemption with respect to those taxes which have been excluded from the contract price, as follows:

(1) All Federal excise taxes from which exemption is available on the basis of purchase for the use of the United States. (See § 410.203 of this title, in connection with exemption under section 3451, Internal Revenue Code.)

(2) All State and local taxes, except when a different form is required by the State or local tax authority. (See § 600.301.)

(c) *Supply and control of standard forms.* (1) Standard Forms 1094, 1094–A, 1094–B, and 1094–C will be requisitioned as prescribed in AR 310–90. (Distribution of Department of the Army publications and blank forms.)

(2) Those forms will be subject to special control as prescribed in paragraph 12, AR 310–40 (Forms).

(3) In addition to the special control prescribed by paragraph 12, AR 310–40 (Forms) the following will govern in the situations set forth:

(i) Certificates executed but unused, or erroneously issued, mutilated, or otherwise rendered unserviceable, will be returned to the issuing officer, who will destroy the certificates and account therefor pursuant to paragraph 12*e*, AR 310–40 (Forms).

(ii) The officer who issued a tax exemption certificate which has been lost or destroyed is authorized to issue a replacing certificate to the Contractor or other proper party as follows:

(*a*) Where the certificate is lost or destroyed after it is issued to the Contractor, the Contractor must (1) establish to the satisfaction of the issuing officer that the certificate was lost or destroyed, (2) submit an affidavit setting forth the circumstances, (3) request the issuance of a replacement certificate.

(*b*) Where the tax exemption certificate is lost or destroyed by an Army activity, the replacing certificate will be requested by and issued to the Army activity cognizant of its loss.

(iii) Replacement certificates will bear the following statement, using the words applicable: This certificate is issued to replace No. ------ which has been lost (destroyed).

(d) *Who may execute tax exemption certificates.* (1) Tax exemption certificates will be executed only by those officers and Federal employees who have been supplied with a Standard Form 1094–C (U. S. Government Tax Exemption Identification Card).

(2) The identification card of authorized officers and employees of Procuring Activities responsible for purchasing at an installation will be signed by the commanding officer. Identification cards supplied to other officers and Federal employees will be signed by the officer who furnished such officer or employee with tax exemption certificates.

(e) *Aircraft and vessels of war supplies and equipment tax exemption certificate.* (1) The following form is prescribed by 26 CFR 314.28 (Regulations 44) and 26 CFR 316.28 (Regulations 46):

EXEMPTION CERTIFICATE

(For use by purchasers of articles for use as fuel supplies, ships' stores, sea stores, or legitimate equipment on certain vessels (Sec. 3451, IRC).

----------, 19... (Date)

The undersigned here certifies that he is ((1) or (2), whichever is appropriate)

(1) ---------- (Owner, officer, or charterer)

(2) Agent of ---------- who is (Name of principal)

---------- of ---------- (Owner or charterer) (Name of vessel)

and that article or articles specified in the accompanying order, or as specified below or on the reverse side hereof, will be used only for fuel supplies, ships' stores, sea stores, or legitimate equipment on a vessel belonging to the following class:

(Here state whichever of the following classes enumerated in Section 3451, IRC, is appropriate:

(1) Vessels engaged in foreign trade.

(2) Vessels engaged in trade between the Atlantic and Pacific ports of the United States.

(3) Vessels engaged in trade between the United States and any of its possessions.

(4) Vessels employed in the fisheries or whaling business.

(5) Vessels of war of the United States or a foreign nation.

If the articles are purchased for use on civil aircraft engaged in trade as specified in (1) or (3) above, state the name of the country in which the aircraft is registered.)

The undersigned understands that if the article is used for any purpose other than as stated in this certificate, or is resold or otherwise disposed of, he must report such fact to the manufacturer. It is understood that this certificate may not be used in purchasing articles tax free for use as fuel supplies, and other like items above named, on pleasure vessels, or on any type of aircraft except (1) civil aircraft employed in foreign trade or trade between the United States and any of its possessions, and otherwise entitled to exemptions, and (11) aircraft owned by the United States or any foreign country and constituting a part of the armed forces thereof. It is also understood that the fraudulent use of this certificate to secure exemption will subject the undersigned and all guilty parties to a penalty equivalent to the amount of tax due on the sale of the article and upon conviction to a fine of not more than $10,000, or to imprisonment for not more than five years, or both, together with costs of prosecution. The undersigned also understands that he must be prepared to establish by satisfactory evidence the purpose for which the article was used.

---------- (Name)

---------- (Address)

(2) The form set forth in subparagraph (1) of this paragraph will be issued by the appropriate officer where required by the contract to supply proof of exemption with respect to the Federal excise taxes from which an exemption is available under Section 3451, Internal Revenue Code, such as for fuel supplies, ship stores, and equipment for vessels of war, including aircraft of the Armed Forces. (See § 600.203 as to the policy with respect to claiming this exemption.)

(f) *Preparation and execution of exemption certificates.* (1) In the preparation of tax exemption certificates the typewriter will be used when practicable; otherwise ink or indelible pencil will be used. The use of ordinary lead pencil is prohibited. All blank spaces must be properly filled in or lined out. No exemption certificate, unless fully and properly executed, will be delivered to a Contractor, except that the Bureau of Internal Revenue has advised that it is not necessary to state the amount of Federal Tax upon the exemption certificate. The amount of tax should be stated, however, if readily available. In a case were Federal excise taxes have been excluded from the contract price of articles or supplies purchased, but the exact amount of the tax cannot be determined at that time, a blanket tax exemption certificate may be issued to cover all sales under the contract. The certificate should cover all articles purchased under the contract, including delivery orders placed thereunder by other officers. As to blanket tax exemption certificates covering purchases under contracts of the Federal Supply Schedule, see paragraph (h) of this section.

(2) A separate certificate for each kind of tax (Federal, State, or local) involved will be prepared. In the issuance of these certificates care must be exercised to fill in the blank spaces provided for showing on each certificate the separate amounts of the taxes involved, if known, so that the certificates may be used only for the purpose intended.

(3) Where the supplies or work covered by the contract are not taxable as such and the certificate is to be used for the purpose of obtaining exemption on the articles to be incorporated in the supplies or work covered by the contract, the amount of tax to be shown on the certificate should be stated as "None." No tax should be shown on the certificate except the tax imposed directly upon the supplies or work covered by the contract.

(4) Tax Exemption Certificate Form 1094 may be modified as may be necessary with respect to contracts for construction, alterations, improvements, and repairs. The person issuing a tax exemption certificate will, in addition to his signature and title, insert on the lines provided therefor, his identification card number. (See paragraph (d) of this section.)

(g) *When exemption certificates are issued to Contractors.* At any time after execution of the contract, a tax exemption certificate (Form 1094) will be executed and delivered to the Contractor, upon request, covering Federal excise taxes where supplies are taxable as in this section indicated and are purchased by the Government at a price which is exclusive of tax. In that case, the description of the supplies furnished tax free will be inserted on the tax exemption certificate.

(h) *Blanket tax exemption certificates; contracts under Federal Supply Schedule.* (1) Nothing contained in the regulations in this part will be construed as authorizing the issuance of blanket tax exemption certificates by Heads of Procuring Activities or Contracting Officers covering purchases under contracts of the Federal Supply Schedule. Upon application of the Contractor, the Procurement and Accounting Division, Office of the Secretary, will issue blanket tax exemption certificates as may be necessary to cover all purchases made by Department agencies in Washington, D. C., and in the field under term contracts of the Federal Supply Schedule, Federal Supply Service, General Services Administration.

(2) Contractors are required to indicate the number of the applicable blanket tax exemption certificate on their invoices.

(3) The purchase order need not contain the number of the applicable tax exemption certificate. It is sufficient that it contain a reference to the Federal Supply Schedule contract number.

§ 600.250 *Exemptions from Federal taxes in general.* Exemptions from Federal taxes which are available under present law and regulations are as follows:

(a) Communications (sec. 3465, IRC).

(b) Transportation of persons (when transportation is furnished on Government transportation requests) (sec. 3469, IRC).

(c) Transportation of property (where shipment is on Government bill of lading) (sec. 3475, IRC).

(d) Equipment for use on vessels of war (sec. 3451, IRC).

(e) Purchases for export or shipment to a possession of the United States (sec. 2705 and sec. 3449, IRC).

(f) Supplies sold for further manufacture (sec. 3442, IRC).

(g) Certain petroleum products.

SUBPART C—STATE AND LOCAL TAXES

§ 600.301 *Applicability.* Tax exemption certificates are used also for establishing exemptions from State and local taxes. In applicable cases, certificates should be prepared in accordance with the requirements of the particular State or local tax authority concerned.

§ 600.302 *Tax exemption forms.* (a) In most cases, Form 1094 (see § 600.207 (b)) will be the appropriate form of tax exemption certificate. Except as provided in paragraph (b) of this section, no tax exemption certificate should be issued with respect to a State or local tax unless the contract shows that the price paid by the Government is exclusive of the tax to which the certificate pertains or unless the Contractor consents to the deduction of such tax from the contract price and the acceptance of the tax exemption certificate in lieu thereof.

(b) When impossible for any reason to make a purchase by a contract which excludes the amount of State or local tax for the reason that the tax is deemed to be legally inapplicable to Government purchases, a tax exemption certificate on Form 1094 will be executed and delivered to the disbursing officer to whose accounts the vouchers in the transaction pertain, together with a written statement to the effect that the vendor refused such certificate. Tax exemption certificates executed and delivered as prescribed in this paragraph are for the use of the Office of the Chief of Finance in securing a refund of the amount of the taxes involved. The serial number of the tax exemption certificate will be shown on the payment voucher.

(c) When Form 1094 (or other appropriate certificate) executed under the conditions stated in paragraph (b) of this section is received in the administrative office (Office of the Chief of Finance), the bureau or office number of the payment voucher will be noted on the certificate and the administrative office (Office of the Chief of Finance) will bill the State or local taxing agency for refund of the taxes paid. The amount collected will be transmitted to the Disbursing Officer for credit to the appropriation from which the vouchers were paid, or to miscellaneous receipts accounts, "4326–Refund, State and Local Taxes," if the appropriation cannot be readily identified. Where the administrative office (Office of the Chief of Finance) fails to secure refund of the amount of taxes paid, it will transmit promptly to the General Accounting Office for use in effecting collection as required by section 236, Revised Statutes, as amended by the Budget and Accounting Act, 1921 (43 U. S. Code 99), the following:

(1) The tax exemption certificates, if available.

(2) All related correspondence with the taxing agency.

(3) Disbursing officer's voucher number on which payment for the merchandise was made.

§ 600.350 *Questions of applicability of tax laws; negotiations.* (a) It is desired that uniformity of action on behalf of the Army Establishment in tax matters be maintained. Independent conferences or direct negotiations with State and local tax authorities will not be undertaken by Army Establishment or Contractor personnel for the purpose of obtaining exemption, refund, or for determining the applicability of any tax,

except upon express authority of the Office of The Judge Advocate General. In this connection attention is directed to paragraph 12, AR 27–5, relating to requests for Government representation in legal proceedings of interest to the Department of the Army. The Department of the Army is interested in legal proceedings arising out of the imposition of assessments of taxes upon Contractors in instances where the contracts contain provisions that may form a proper basis for demands by them for reimbursement by the Government in connection with the proceedings. Requests for representation or intervention by the Department of Justice in such proceedings will be made by The Judge Advocate General, if necessary and proper, and will not be made by others in the Army Establishment.

(b) Where a specific tax problem occurs which cannot be readily determined by reference to the information set out in this part and Part 410 of this title, the matter should be transmitted through channels with appropriate comments to the Office of The Judge Advocate General (Attn: Procurement Div.) for advice. Questions so transmitted shall be accompanied by a statement of all pertinent facts, applicable comments, and a copy of the contract(s) involved if practicable. This procedure is important where—

(1) The applicability of the tax is not specifically discussed in this Procedure;

(2) State and local tax authorities have adopted or may adopt a position at variance with that taken by the Department of the Army;

(3) Measures are contemplated to protect the interests of the Army with respect to payment of taxes; or

(4) From a study of this part and Part 410 of this title and applicable regulations it appears that there exists a possibility of obtaining refunds of taxes already paid, the economic burden of which has been borne by the United States. Where authorized, of course, Contractors may apply directly for refunds;

(5) Obtaining of large scale tax exemptions, credits, or refunds in foreign countries where the assistance of other executive departments is necessary.

§ 600.351 *Designation of vesting points for title to property in connection with State and local taxes.* CPFF contracts frequently contain a title clause substantially as follows:

> Title to all materials, tools, machinery, equipment, and supplies for which the Contractor shall be entitled to reimbursement shall vest in the Government at such point or points as the Contracting Officer may designate in writing.

When a contract includes such a title clause, the Contracting Officer is under an affirmative duty to make a written designation of the point or points at which title to the materials and supplies purchased by the Contractor shall vest in the Government. This action should be taken only after careful consideration of the legal effect of the several possible points which might be so designated with respect to the applicability of State or local taxes to such purchases.

SUBPART D—CONTRACT CLAUSES

§ 600.401 *Fixed-price contracts.* (a) The clause in § 410.401 of this title, which is approved for use at the option of the Contracting Officer, in fixed-price contracts, will be inserted by all Contracting Officers in all such fixed-price contracts, except where deletion is specifically authorized or where approved printed forms omit such clause.

(b) Authority is granted in effecting procurement outside the United States, its Territories, and possessions to substitute the following clause for the clause prescribed in § 410.401 of this title:

TAXES

The contract price includes any and all applicable taxes.

(c) The following clauses are applicable only overseas and are are to be included in all fixed-price contracts to be performed in foreign countries in which tax agreements have been executed:

(1) *Clause for use in fixed-price contracts between the Government of the United States and foreign contractors (except foreign governments).*

TAXES

(a) The contractor warrants that the contract prices, including the prices in subcontracts hereunder, do not include any tax or duty which the Government of the United States and the Government of _____ have agreed shall not be applicable to expenditures in _____ by the United States or any tax or duty from which the contractor, or any subcontractor hereunder, is exempt under the laws of _____. If any such tax or duty has been included in the contract prices through error or otherwise, the contract prices shall be correspondingly reduced.

(b) If for any reason after the contract date, the contractor is relieved in whole or in part from the payment or the burden of any tax or duty included in the contract prices, the contract prices shall be correspondingly reduced.

(2) *Clause for use in fixed-price contracts between governments.*

TAXES

(a) The contract prices, including the prices in subcontracts hereunder, do not include any tax or duty which the Government of the United States and the Government of _____ have agreed shall not be applicable to expenditures in _____ by the United States, or any other tax or duty not applicable to this contract under the laws of _____. If any such tax or duty has been included in the contract prices through error or otherwise, the contract prices shall be correspondingly reduced.

(b) If, after the contract date, the Government of the United States and the Government of _____ shall agree that any tax or duty included in the contract prices shall not be applicable to expenditures in _____ by the United States, the contract prices shall be reduced accordingly.

§ 600.402 *Cost-type contracts.* The following clauses are applicable only overseas and are to be included in all cost-type contracts to be performed in foreign countries in which tax agreements have been executed:

(a) *Clause for use in cost-type contracts between the Government of the United States and foreign contractors (except foreign governments).*

TAXES

Any tax or duty from which the United States Government is exempt by agreement with the Government of _____, or from which the contractor or any subcontractor hereunder is exempt under the laws of _____, shall not constitute an allowable cost under this contract.

(b) *Clause for use in cost-type contracts between governments.*

TAXES

Any tax or duty from which the United States Government is exempt by agreement with the Government of _____, or from which any subcontractor hereunder is exempt under the laws of _____, shall not constitute an allowable cost under this contract.

PART 601—LABOR

Sec.
601.050 Applicability.

Subpart A—Basic Labor Policies

601.101 Labor relations.
601.102 Overtime, extra-pay shifts, and multishift work.
601.103 Federal and State labor requirements.

Subpart B—Convict Labor

601.202 Applicability.

Subpart C—Eight-Hour Law of 1912 (Other Than Construction Contracts)

601.350 Administration and enforcement.

Subpart D—Labor Standards in Construction Contracts

601.401 Statutes and regulations.
601.404 Administration and enforcement.
601.404–2 Wage determinations.
601.404–3 Additional classifications.
601.404–6 Payrolls and affidavits.
601.404–7 Investigations.
601.404–8 Reports of violations.
601.404–9 Suspensions and deductions of contract payments.
601.404–10 Restitution.
601.404–11 Contract terminations.
601.404–12 Cooperation with the Department of Labor.
601.404–50 Nonassessment of Eight-Hour Law penalty.
601.450 List of debarred, ineligible, and suspended bidders.

Subpart F—Walsh-Healy Public Contracts Act

601.602 Applicability.
601.603 Responsibilities of Contracting Officers.
601.650 Exceptions not stated in the publication furnished Contracting Officers.
601.651 Procedure for obtaining exemptions with respect to stipulations required by the act.
601.652 List of debarred, ineligible, and suspended bidders.
601.653 Wage and Hour and Public Contracts Divisions of the United States Department of Labor Regional Offices; geographical jurisdictions and addresses of regional directors.

Subpart G—Fair Labor Standards Act of 1938

601.701 Basic statute.
601.702 Suits against Government contractors.
601.750 Regulations of the Administrator.
601.751 Reimbursement of cost-plus-a-fixed-fee contractors for payments in accordance with the act.
601.752 Investigations and inspections.

Subpart H—Nondiscrimination in Employment

601.801 Basic requirement.
601.850 Interpretations of Executive Order 9346 by the Committee on Fair Employment Practice.

Subpart I—Employment Restrictions for Security Purposes

601.950 Administration.

Subpart O—Removal of Items From Facilities Affected by Work Stoppages

601.1501 Basic considerations.
601.1550 Determination of urgency.
601.1551 Administrative procedure.
601.1552 Coordination.
601.1553 Avoidance of detrimental incidents.

Subpart P—Procurement of Stevedoring Services During Labor Disputes

601.1650 Basic policy.
601.1651 Procedure.
601.1652 Reports.

§ 601.050 *Applicability.* It will be noted that the applicability of the various subparts, and in some cases, of the various sections of a subpart of this part, vary materially. Guidance in labor matters in those geographical areas for which applicability is not prescribed in this part will be in accordance with labor legislation of the country in which procurement is effected.

SUBPART A—BASIC LABOR POLICIES

§ 601.101 *Labor relations—*(a) *Scope.* All problems arising out of the labor relations of private Contractors vitally affect procurement and are an essential part of procurement responsibility. It is requisite, accordingly, that the disposition of these problems receive staff direction and supervision from one source. The Judge Advocate General (Attn: Chief, Industrial Relations Branch) is the office designated within the Department of the Army to furnish staff direction and supervision of all Contractor labor activities.
